Locker Service Means Better Living

Dunlop:

Locker service helps you save money on food. This has been proved by the experience of pat rons in both city and country. An average family can make a substantial saving on its food bills through the use of Frozen Food Locker Service. This saving comes through buying in bulk instead of in small quantities, buying in season when supplies are plentiful and prices low, and by the elimination of waste and spoilage. Perishables can have fresh meat and vegetables the year round for approximately the cost of raising them, and the saving on food at harvest time alone will pay the cost of the locker! Greatest savings are made on fresh meats. It costs less and is much easier to keep food supplies in the locker plant than to preserve them by home canning, drying, curing or pickling.

Convenience:

Locker service can save you time and work. You save time because your individual lo cker makes your food immediately available whenever you come for the supply. Preparing meals each week and it is usually unnecessary to shop at all between Locker supply trips. The preservation of food stuffs under and forever your time free for other activities. Frozen food preservation of locker service which approximates in quality of home canning, when the animal is ready or the fruit or food delicacy, rather than when it is convenient for you, and it would be possible to dispose of fresh meat for a higher price than you could get for it, and in addition to your locker makes it convenient to have varied meals this available at any season of the year.

Tender Food

Fast Freezing at temperatures well below zero, preserves meats, fruit and vegetables in approximately their original state. It embalms the cells of food and checks action and prevents vitamin values. For this reason, frozen foods retain their full flavor and appeal when served. Foods frozen are those which remain in food poisoning. Fast-freezing preserves the cells in such a way it becomes impossible. Flavor and vitamins are also retained and cooking time is reduced. Some food stuffs are not suitable to be frozen by the fast freezing process.

Dependability.

Freezing and storing fresh meat or produce preserves it more suitably than does canning. It is impossible by of spoilage while food stuffs are stored for the season, needed supply of them is in the plant. All meats, fruits and vegetables are carefully wrapped or packaged and then completely frozen before being placed in the locker. With modern refrigerating equipment, steady low temperatures are maintained which preserve the color, taste and nutritive value of foods in locker rooms. With steady and dependable cold protects the food from drying out and from any change through inadequate and variable temperatures. Frozen packaged vegetables and meats are delivered to locker rooms in refrigerated trucks, thus maintaining the quality of the product.

Q. How often should a patient, taking treatment for tuberculosis of the lung at home, be examined by a doctor?

A. A consultation should be held with the physician in charge every 3 months, and X-rays should be taken every three months at least, during the course of active treatment. If the condition is serious, consultations should be more frequent.

Q. Does rest aid a cough?

A. Yes, this is an efficient remedy for a cough. Rest of the body helps relieve cough with rest of the tissue local action, itself, too.

The Recipe Corner

Everyone finds the need for using cold drinks during the summer months. The longer and the colder they are, the better. Everyone now realized that the first dehydrated by the heat, which is exactly what happens and the only way to feel refreshed is by drinking lots of water or other cold beverage.

A good habit to take in summer which will prove to be a great thing and super saver, is to have a glass of fruit juice before the meals for we eat a moment's notice. It stays them and, what is more important, it whets the appetite quite often when sugar is added to a cold drink, a good proportion of it does not dissolve and is lost. The syrup is made in the proportion of 1 cup of water to 1 cup sugar, brought to the boiling point, skimmed and stored in a covered glass jar in the icebox. Any syrup or fruit juice left over after canning may also be used.

Simple cold drinks like lemonade or orangeade are very much improved by the addition of a few fresh berries or berry juice. Cold drinks that are also nourishing are the delight of both old and children who do not like milk alone may like it if it is disguised as a milk shake.

The home economists of the Consumer Section of the Dominion Department of Agriculture suggest a few recipes for long cold drinks.

B E R

BLUEBERRY QUENCH

1 cup blueberries
1 cup boiling water
1/2 cup sugar
Few grains of salt
1 tablespoon lemon juice
1 orange juice and grated rind
1 lemon juice and grated rind
4 cups cold water.

Pour boiling water over blueberries. Add grated orange and lemon rind and simmer slowly for 5 minutes. Press through a sieve. Add sugar and salt and o'e well. Add orange and lemon juice. Cool. Before serving add 2 cups of cold water. Stir well.

B E R

PEANUT BUTTER SHAKE

1/2 cup peanut butter
2 tablespoons honey or sugar
1/2 teaspoon vanilla
1/2 teaspoon salt
3 cups milk

Place peanut butter, honey or sugar and salt in a bowl with 1/2 cup of cold milk. Stir well very butter until smooth. Add the remaining 2 1/2 cups of milk with vanilla and mix well before serving. Serves 4 to 5.

B E R

BANANA SHAKE

2 large ripe bananas (1 cup mashed)
1 to 2 tablespoons honey or sugar
2 tablespoons honey or sugar
1/2 teaspoon salt
1/2 teaspoon nutmeg
3 cups milk
1/2 teaspoon vanilla

Mash bananas with a fork until smooth. Add to the milk and mix thoroughly with rotary beater until well blended. Add honey or sugar, salt and vanilla and shake well before serving. Serves 4 to 5.

B E R

RASPBERRY EGG NOG

2 eggs
1 cup raspberry juice
1 cup milk
2 tablespoons honey or sugar
1/4 teaspoon salt
1/2 teaspoon nutmeg
Crush 2 cups of raspberries with 1/2 cup of water, bring to the boil and boil for 2 to 3 minutes. Drain through a sieve, add sugar and water to make a cup of juice. Beat eggs with salt and honey or sugar until light. Add milk, raspberry juice and nutmeg and beat well with rotary beater. Chill well before serving. Serves 3 to 4

The concern of government should be what motivates men, not just who manages them.

The Same Answer

Strikes, disputes, political disputes. The headlines, these days, have a common denominator. It is the lowest possible common denominator—the denominator of selfishness. They all spell social breakdown trouble in the world. But they also have a common answer—teamwork.

The strikes and lockouts which are ripping up the fabric of democracy can be settled by violence which injures everyone, by compromise with selfish nobody, or by teamwork which satisfies all.

Marriage rows can end in a divorce which breaks up the home and leaves children at home mute; by a grin-and-bear-it stalemate which is little for an "unclouded" home, or by teamwork which gives the whole family something to fight for instead of something to fight about.

International disputes can be ended by an arm bomb which, next time, is likely to end the world along with the war, by uneven mutual agreement which, at best, is only a breathing spell—a postponement of the big crunch; or by teamwork where each nation finds its destiny and contribution to the amount of the whole.

Teamwork makes the maintenance of unity more important than the production of utensils or the jurisdiction of nations. It makes the people pen work with more important than the things you work at it makes holding to the lowest-water way more important than each having his own way. And it makes winning our international opponents the real key to ending international disputes.

The president of the UNO Security Council may thus have very different problems than the rotary soldier who is gripped by the industrial wrangles he finds back home. The latter, it turn, may have different problems than the newspeak in their first tiff. But to all of their problems there is one and the same answer. They all depend on revolutionary teamwork to achieve a world that works.

World of Wheat

By H. G. L. STRANGE

Director "The Crop Testing Plan"

(CWNA) (CNS) (CP)

The "Crop Testing Plan" the last winter and spring distributed to farmers just over 20,000 bushels of Registered and Certified seed and sealed in the ch.

In the wheat Thatcher was far and away the most popular variety demand, followed closely by Red Bobs Thatcher is the result of cross ing Marquis with Regent which year by year is showing an increase in popularity There was a genuine demand for Garnet thus for many years past.

With the oats, an equal victory was for and away ahead; followed used with substantial quantities of Ajax, the new producer of our Rust Research Laboratory at Winnipeg. Ajax, therefore, is a variety to watch.

With barley, O.A.C. 21 as usual was in far and away the greatest demand. The revolutionary poplarity being Plush and then the new stiff-strawed feed barley Titan, which also is worth watching.

Many farmers, unfortunately, who wanted Registered and Certified seeds were disappointed to learn they sent in their orders too late, and the supply last year was quite limited

My most earnest advice, therefore to farmers who have made up their minds that they require better seed next year is to place orders for Registered and Certified seed as early as possible, this fall, so as to be sure of early delivery next spring.

B E R

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Sunday of wheat and coarse grains is completed over a large part of Argentina and reports such clarinet predictions of larger acreages U.S.A. winter wheat and spring wheat crops are estimated at a record high of 1,132,975,000 bushels.

Italy's wheat crop is larger than last year, but still below pre-war averages, and sizeable wheat imports are anticipated.—Wheat production in Australia is now estimated at 120,000,000 bushels, compared with an earlier estimate of 200,000,000 bushels.—Food supplies in southern and Asia continue poor, with no hope of a higher ration in sight.

Goods Subject to Price Control

To assist in the interpretation of the recent Price Board Order which lists those goods and services still under price control, the Board has issued a notice clarifying certain of the listed items.

It has been ruled that the following are regarded as being included and therefore are subject to price control:

Soya meal; pea meal; soup strainers; attache cases; cream separator brushes; vending, foam pants, pickets and gates; brooms made of Missouri fibre, horse hair, nylon bristle; broom corn; bunting, florida grass and other types of grass; bubin bass and polmyra and mixtures of these materials; saddlers designed for the serving of drink as well as the serving of food when the chief component is china, porcelain, semi-porcelain, white granite, earthenware, or glass, except stem or footed glassware.

The following have been ruled as suspended from price control:

Dishes for the serving of relish as or pickles; power driven or horse drawn lawn mowers; automobile light bulbs and reconditioned motor vehicle parts.

Ration Coupon News

Meat coupons M-40 to M-80 and butter coupons R-16 to R-17 in consumer ration books will become invalid for the purchase of these commodities after August 31, the Ration Administration of the Wartime Prices and Trade Board has announced.

"Beaver" and "Buffalo" coupons, issued to members of the armed forces and other temporary ration card holders, will not be affected by the change, and all super coupons will remain valid until further notice.

GOOD FORESTRY PRACTICE

It is good forest practice to cut mature timber stands. Such stands of Black Hills vary greatly and diameter makes the value of the timber.

Royal Winter Fair Reopening

Toronto—Many Club Members are making annual journeys throughout Alberta will be interested to hear that the Royal Winter Fair at Toronto and the International Live Stock Exposition at Chicago will both commence the last week of these fairs were discontinued during the war and both events will be well represented at the harvest time.

Canoe Club members of Alberta will again be able to compete with club members from other provinces and it is hoped they will contribute their high record of winnings in wheat, oats and barley. Alberta club members in past years were an outstanding success at the Canoe Club and have also had their share of winners in the meat classes at the International. It is the meat year for junior club members to compete and succeed over exhibitors from both Canada and the United States.

Although meat dates have not yet been announced, these fairs will be held in late November and early December. For the present club members are advised to start planning now, some entries must be in early in October and complete in Toronto early in November. The changes in mind with refreshments as club exhibits—an entry will return of 10 lb. of grain, and not one peck as formerly either vegetables worth remembering are that each club is allowed of not more than three exhibits, and each exhibit must be taken from the crop of the current year

A FROZEN FOOD LOCKER

The Low Cost Solution

To Food Storage Problems

Man has always preserved and stored food in times of plenty to protect himself in lesser seasons. But methods of preparation and storage were rarely proof against storage losses—and they were never easy! Even today, thrifty housewives spend long hours over hot stoves, canning and preserving vegetables, fruit, berries and meats.

Our Frozen Food Locker Plant now makes home canning unnecessary and escapes freedom from spoilage losses. We have refrigerated rooms for the chilling and fast freezing of food products—and generous sized, individual lockers for safer and sanitary food storage at zero temperature. Now you can keep meat, fowl, fish, game and vegetables in fresh, tasty condition for long periods of time—all at a cost of only a few pennies per day!

You are invited to inspect the plant and convince yourself of the great possibilities in having such an industry in your community.

IMPORTANT NOTICE

to all Farmers entered in

$25,000.00 National Barley Contest

Sponsored by the Brewing and Malting Industries of Canada

BARLEY QUOTA INCREASED

to producers of malting barley

Under new instructions issued by the Canadian Wheat Board "there may be delivered from each farm, covered by a delivery permit book, one full carlot of barley accepted by a maltster or shipper and upon which a premium is to be paid for malting purposes.

This means that while the general barley quota remains at ten bushels per acre contestants in the National Barley contest and producers of malting barley obtaining a premium can ship up to one full carlot.

A premium of five cents per bushel will be paid on carlots of barley selected for malting.

Address all correspondence to

NATIONAL BARLEY CONTEST COMMITTEE

205 GRAIN EXCHANGE WINNIPEG

Board Changes Barley Quota

Effective August 7 an order of the Canadian Wheat Board conditionally extended the barley quota so that contestants in the $50,000 National Barley Contest will be free to ship a carload of 1,667 bushels, the minimum required to qualify in the competition.

The original quota was 10 bushels per seeded acre. "It has been decided" says the August 7 order, "to extend the barley quota in cases of low seeded acreage so that producers of malting barley are permitted to ship a carload".

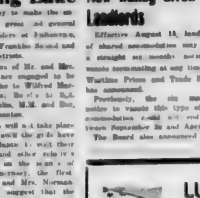
Thus while the general barley quota remains at 10 bushels per seeded acre, those may be delivered at town each farm covered by a delivery permit book one full carload of barley accepted by a maltster or shipper and for which a permanent is to be paid.

The cost of barley shipped under this permanency is not, it adds not to the general quota which stays at 10 bushels per seeded acre.

In other words the maximum barley quota for each pools six either 10 bushels per seeded acre or one carload of malting barley, wherever is the greater.

Producers are cautioned not to deliver on the 10 bushels quota if they want to deliver a carload for example, if a grower delivers his 10-bushel quota to the elevator, he cannot then deliver his carload lot. The carload delivery, if he makes one, includes the 10-bushel quota.

Canadian Bantams -



Edmund Hockridge the Canadian baritone who gained prominence in British radio and concert fields during the war, has come home at the invitation of the CBC After a holiday in his native Brantford Columbia, he will make his Canadian radio debut from Toronto early in October He is to be a featured artist on the CBC Dominion network.

Profit in Hogs

Here are some figures from A J Chatfield, farm registration it ostensible, Lower-each Supervisor for the Alberta Department of Agriculture.

Quarter farm add to 200 pounds of balanced feed to make 160 lbs. of grain, at a total of about 750 lbs. of feed to raise a pig from weaning age to 200 lbs. live weight.

At present, still graded hog prices are: Local hogs at Edmonton plants, A grade $19.75, B 1 - $19.25. Prices on hogs for coast shipment are: A grade - $20.50; B 1 19.00 per 100 lbs. dressed weight.

In addition to these prices, there is a Dominion Government bonus of $2.00 per head on grade A hogs and $1.00 per head on B 1's. A well fed, good 200 lb. live weight hog will dress out a 150 lb. carcase.

A home that is paid for is a good thing So is a home that is prayed for.

Cooking Lake

We are happy to make the announcement of genial and general interest to readers of Sabbaton, Cooking Lake, Franklin Beaver and surrounding districts.

Two daughters of Mr. and Mrs. Cliff Hanson are engaged to be married: Eleanor to Wilfred Martin of Daughter; Beatrice to R.A. Bonds McLaughlin, M.M. and Bar, of Calder, Edmonton.

The weddings will take place on an early date and the girls' parents the Atlantic to visit their grandparents and other relatives of the family in the states of Jersey and Gurnsey, the first homes of Mr and Mrs. Norman But we would suggest that the double wedding come first, and that the visit to the Channel, where Mr. and Mrs. Norman had their honeymoon, be the double honeymoon of their daughters. And how delightfully funny that would be, and for the two bridegrooms, who have served in our Canadian forces overseas and therefore know the Atlantic well, to introduce their brides to those "wandering fields of foam." What a honeymoon that would be! We earnestly recommend this idea to the fortunate men and their happy brides to be.

New Ruling Given Landlords

Effective August 15, landlords of shared accommodation may give a straight six months' notice to vacate terminating at any time the Wartime Prices and Trade Board has announced.

Previously, the six months' notice to vacate this type of accommodation could not end before October 31 and April 30 The Board also announced that a basis for commercial accommodation as provided by Order 543, may contain a clause stating that land and I must agree to the effect that it can be terminated by the tenant only at a time specified and agreed upon notice. Necessarily, the lease could not be terminated by such a notice previous to the end of the first year of use.

Tweedsmuir, not less work, more dividends—it must pay—is our hope for holding to democracy in industry

Cooking Lake

Mrs. C. H. W hopper and family left Monday for a two week vacation at Shallow on Kenning Lake, Sk.

St. George's W.A. will meet at the home of Mrs. T. Holt on Wednesday, September 4 at 8 p.m.

St. George's W.A will hold an afternoon tea and novelty contest at the home on Mrs. C. H Williams on Tuesday, September 10 from 3 to 6 p.m.

Congratulations to Mr. and Mrs. Milton Lethbridge of Edmonton on the birth of a daughter, at the Royal Alex hospital., Friday, August 23.

Mesa Helen Hansen of Innisfail is visiting at the home of Mrs. John Jenkins.

Mr Wesley Semmens was a visitor at the home of Mr and Mrs. Hirsch for a few days last week.

Mrs. R. Simmons has been entertained by many old friends at bridges and teas, during the past week.

Mrs. S. J. Williamson of Edmonton spent the week-end at the home of Mr. and Mrs. E. A. Wainwright.

Mr. and Mrs. L. Jones and family, wynnyard have been their visitors at Jasper, Monday.

Mr. Roy, manager of Massey-Harris Branch in Paris, France, was a visitor at Fort Saskatchewan, Tuesday.

Mr. Roy is making a tour of Canada and United States, gathering information on methods of farming in Canada and United States.

Congratulations to Mr. and Mrs. Mick Ritz on the birth of a daughter, Lenore Marie Hathaway, Sunday, August 19, in the Edmonton General Hospital.

Who says I don't need an air strip in the Fort? Several airliners are really getting air-minded and the building of such an air strip would be no small.

Dick Hauger hopes to have his plane ready to fly the skies again in the near future, but unfortunately he will have to take off and land from a hay meadow the same as Dick Bacon Jr.

Muddy roads don't bother Dick from having cream in his coffee. He flips out to the A. and M. and uses the hay meadow for a runway (providing it is not too wet. Last Thursday morning he flew out supplies that were needed and dropped them in the yard by a small parachute. Since he purchased his Tiger Moth the first of July many eligible bachelors had the privilege of taking the home and country around the Fort from the air.

The United Church W. A. will meet at the home of Mrs. Selby Thorne on Wednesday, September 5th at 8 p.m., Visitors are welcome.

Wye

Mr. and Mrs. J. A. Sanford are away on holidays, Motoring to Wetaskiwin and Banff.

Mrs. C. O. S. Tremblecon celebrated her seventy-first birthday on Sunday. The family gathered to wish her many happy returns of the day and we hope she has many, many more.

Another old timer celebrated a birthday on Sunday, Mr. J. Miller.

We wish you many many returns of the day Mr. Miller, and sincerely hope you have many, many more.

Hallon Bank Latecomers Warned

Suggestions to Alberta tax-loan bank holders on how to get the most Hallon Bank No. 6 to be issued in September were outlined by Wartime Prices and Trade Board officials. It was stressed that all citizens should give their new bonds during the distribution days to show community. The period from September 9 to 16 has been set aside for the distribution and cash loan interest is not will select suitable dates for their distribution.

The government, enacted BB 191, on the basis of the present re-loan bank No. 6 is the key. This groups need is not to be filled in by each cabinet bank but it is to work with the central distribution plan. The principal agent of the bank is the bank. This group need is not to be filled in by each cabinet bank but it is to work with the central distribution plan. The principal agent of the bank is the bank. This group need is not to be filled in by each cabinet bank but it is to work with the central distribution plan.

Those who do not get their new issue bonds during the distribution period will become "latecomers." Ration officials pointed out that these "late-comers" will not be able to obtain their new ration books till after May ember 30 M ca-tables 2 meat, 8 butter and 2 sugar coupons will become due on September 9 to 16 September 30 respectively. Latecomers will not be able to use these extra coupons until October.

"We strongly urge all ration book holders to get their new Ration Book No. 6 during the Victorian period from September 9 to 16", said a Prince Board official in pointing out latecomers will inconvenience both themselves and the volunteer workers at the local distribution centres.

Mrs. Ed Lawrence was the guest at an enamel and apron shower given by Mrs. A. Doty and Mrs. Thomas Walker, recently. A very pretty decorated tub in red, white and colored crepe with each present wrapped in colored paper and stars was brought in by Marjorie and Coral Kreemer. Short shiny prizes gathered to wish the bride every happiness in her new venture. In return she thanked every one for their part in her lovely shower.

A lovely luncheon was served by the hostesses.

Mr. S. N. Whitlam has moved to the city. Don't run too far away to the city. Don't get too far away,

Regulations Regarding

A summary of the regulations as they apply to Alberta. Open seasons, bag dates inclusive.

WILSON'S SNIPE

Throughout the province from one-half hour before sunrise September 15 to one-half hour after sunset November 30.

DUCKS, GEESE (other than BRANT GOOSE), BABA, COOTS

in that part of Alberta lying north of the right bank of the Athabasca River going down stream to its intersection with the north boundary of Township 72 and north of the said boundary of Township 72 from the Athabasca River to its intersection with the interprovincial boundary between Alberta and Saskatchewan: From one-half hour before sunrise September 7 to one-half hour after sunset November 30.

Throughout the remainder of the province of Alberta: From one-half hour before sunrise September 15 to one-half hour after sunset November 30.

There is a close season throughout the year on Elder Ducks, Wood Ducks, Swans, Brant Geese, Cranes, all above birds except Wilson's Snipe, and all migratory non-game and insectivorous birds.

Migratory Birds

Migratory game birds killed during the open season may be possessed in Alberta at any time, but the case of proof that birds possessed were lawfully killed shall be on the person having the birds in possession.

BAG LIMITS

In any day: Ducks, 10; of which not more than 8 shall be species other than Mallards; Geese, 5; Coots and Rails, 25; Wilson's Snipe, 5.

In any open season: Ducks, 100; Geese, 25; Rail's and Coots, 100; Wilson's Snipe, 100.

No one shall have in his possession at any time more than 60 Ducks.

GUNS, APPLIANCES AND HUNTING METHODS

Forbidden—The use of an automatic (auto-loading) gun, or swivel, or machine gun, or battery, or rifle, or shotgun loaded with a single bullet, or any gun larger than number 10 gauge, or any weapon other than a gun or a bow and arrows; the use of live birds as decoys, or of any aeroplane, power-boat, sail-boat, or night-light, and shooting from any motor or aircraft vehicle, or a vehicle to which a motor or sail boat is attached. The hunting of migratory game birds by the use or aid of baiting with grain or other artificial food is prohibited.

The shooting of migratory game birds earlier than one-half hour before sunrise or later than one-half hour after sunset is prohibited.

The penalty for violation of the migratory bird laws is a fine of not more than three hundred dollars and not less than ten dollars, or imprisonment for a term not exceeding six months, or both fine and imprisonment.

LEGION MEETING

The regular meeting of the Fort Saskatchewan Branch No. 27 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, Sept. 3rd at 8 p.m.

All members are requested to be present.

For the World's Hungry

Food products of every kind are even now more urgently required than during the war years. Canadian farm girls are working on the farm front helping to harvest the crops. Two promises to be turned more grain are needed to feed livestock for meat for the people of Canada and to help feed the hungry millions in other countries. Many farmers may more additional grain by raising their stubble this fall.

Josephburg

The Josephburg Young People held their meeting for August last Wednesday evening in the church basement. Mr Hilda Meyer who attended the Union church camp at Sylvan lake gave an interesting report of his experiences there. Arrangements for the meeting were left in the hands of a committee with instructions for an outdoor program early in September.

Five new grain delivery houses that are Mr Mr Mr Mr Mr Mr Mr and Mr. Ernie Lawrence who delivered their first loads of the season to Mr. Charlie Walker's Post on Friday, August 23. This barley had been sown bed some 8 to 10 days previous and has all dry Wilmot's charming and capable examiner had a merry 2 hrs hitched for her 1 hr. hills were no obstacle, but it was return riding

If present warm weather continues continue, harvester will be general towards the end of this month.

Looking up some sewer we re Johnny Nesky bant as it is his newly acquired wedding shop.

The next food raffle is going on rent by at present being donated with a coat of paint.

Ardrossan

Shirley Hankins of Edmonton has been holidaying with Gertrude Kmith of Brosseur.

There is a lot of difference between what is said and meant and what merely sounds good.

East Edmonton

Mr. and Mrs. Harry Fulton and their daughter and son-in-law Mr. and Mrs. Parsons of New Westminster, B.C. are renewing old acquaintances in the district. While here they are the guest of their son and daughter-in-law, Mr and Mrs Max Fulton on Ardrossan.

We are glad to know Mr. John Mullen has returned from the hospital and is able to be about again.

Mr Julian (J.J.) Buffil, who recently returned from overseas, has received his discharge and is resumed to his former employment at the North West Brewery

Mrs J Bishop and Mrs Jackman have returned from a holiday at Jasper Park

Mr and Mrs. T. A. Hutchings and young son of Edmonton, Manitoba, spent several days with Mrs. Hutchings's mother, Mrs J Bishop Mrs. Hutchings is the former Bostonier Bishop.

Mr and Mrs. Carl Johnson and family of Dalhousie, were week end guests at R. F. Hosford' farm

We hear that John de Revue is going to Hythe to visit his folks. We wish him a very happy journey and hope his stay will not be too long as we shall miss him in the district.

We are very sorry to hear that Mr. Tretheon's grandson is in the hospital with a broken leg We hope his recovery will be speedy.

Summer Camps Greatly Enjoyed By Boys and Girls

The annual summer camp for boys and girls under the management of the United Church was held again at Lake View and came to a close on Thursday, August 16, when the boys and their leaders sent their reluctant goodbyes amid August-like rains round areas.

This is a good opportunity to pay some words to the camp as a whole, the grand lads of the boys and girls and their parents in the able leaders who for two weeks had the young people in their care. They were—

Rev. Bain, Camp Manager and Padre. Mr. O'Brien, Camp Mother. Mrs. Frey, Camp Nurse. Mrs. H mmon, Camp Chef. Mrs. Keats, Mrs. Cormick and Mrs. Shirley Wynne C.G.I.T. leaders from Lacombe. Miss Jean Craig, Alexia Mercer, Ray Clark, Alfred McGhee, Arden Wingrove Steele Murdock and Charlie Goldstone.

There were 29 girls in camp the first week and 17 boys the second week. The daily program was as follows:

8.30 Rise-Pa PT "Jerks", followed by a dip in the lake for the hardy shrouds and for the tender plants a quick wash. 9.30 Morning watch. 9.30 Breakfast. Inspection. 9.30 Bible study 10.15 recreational games or Free and Camp craft 11.00 Handicraft period, or, Nature study. 11.30 Swim 12.30 Dinner 1.00 Horizontal period or rest. 2.00 Sports hikes-swim. 6.00 Supper. 6.30 Ball game, Camp Fire; 9.30 Camp fire community singing counts. 9.30. Refreshments, Inches outdoors Evening to bed items - Devotional leaders from Brosseur who found the beach very alluring for some reason unknown by name.

The high lights of the girls' camp were: The Sunday evening when Rev Chubb's four appointments—Mirfield, Looma Vista, Hastings Lake and St. Mark's combined with the camp for vespers. The one very wet day, which proved a damp, dull day for real experience, because, by the concerted leadership of those in charge a memorably eve ensued. The climax was reached at the dinner table, when, everyone was transformed by the wand of Cinderella's fairy godmother perhaps into some chanter terrible or tender, grave or gay Mrs Keats, in longest skirt and with baseball bat for club, appeared as a cannibal chief Mr Rare became a distinguished and very noble European butler. Other transformations

PATRONAGE DIVIDENDS
to
PIONEER CUSTOMERS

Customers who delivered to us in the season 1943-43 will receive cheques for their patronage dividend as soon as possible after the necessary Legislation has been passed by Parliament.

It will not be possible to pay patronage dividends for the years 1943-44 and 1944-45, as the Government has decided that patronage dividends cannot properly be regarded as an expense for these two years in view of rulings handed down in 1943 by the Department of Justice.

Customers who delivered to us in the season 1945-46 will receive cheques for their patronage dividend as soon as the amount can be determined.

It is our intention to pay a patronage dividend on grain delivered to us in the season 1946-47, if our earnings permit.

Keep in touch with our agent who will inform you when these cheques are ready for distribution.

Deliver Your Grain to

Partridge Hill

A very enjoyable event took place last Wednesday evening at the Partridge Hill Hall, when friends of Mr. Ed McKnight turned out to welcome his bride who recently arrived from Ireland. A song was led by Mr. Alfred Frey was followed by a musical contest and a reading by Miss Rosebud Gray, after which Mr. Allen as chairman, called on Mrs. Gillison, who on behalf of the district extended a welcome to Mrs. McKnight and good wishes to the happy couple and presented them with a well filled basket of gifts. Mr and Mrs. McKnight expressed their appreciating for all that had been done for them. All joined hands and sang "For They are Jolly Good Fellows" which was followed by an hour of dancing.

A delicty lunch was served which brought to a close a very pleasant evening.

List of Missing Persons Sought by Their Relatives or Friends

List of missing persons thought to be in Canada and sought by their relatives and friends by either committee.

La Plante

Saturday nights the CBC invites Canadian listeners to go south of the border to the mythical city of "La Plante" for a half hour of Latin American rhythms. David Holmes and Irene Lawrence, as Pops and Lolita above, star the Spanish and Portuguese Dance Troupe Collegiate, and the Gibson orchestra present their original arrangements of tangos, chamber, bagatelles, rumbas and pass dables. Welcoming all of tourists is narrator José Bingham. Listen to "Welcome to La Plante" Saturday Night. Deliver near La Plante's famous Garden Cafe. The short originates in CBC's Vancouver studios and goes nationwide over the Trans-Canada network.

The Recipe Corner

With hot summer days prevailing over, more hot dishes are the order of the day. Late summer vegetables are coming on and the variety that requires cooking, but they have the advantage of being good winners, and combined make scrumptious delicious dishes. To mention a few of the vegetables available besides the roots, there are broccoli, squash, vegetable marrow, Jerusalem artichokes, tomatoes, corn, egg plant and cucumbers.

There are many ways to prepare vegetables — in casseroles, baked, stuffed, au gratin, in omelettes, etc., but it is very important that they are properly cooked, rather but not over-cooked.

The home economists of the Consumer Section of the Dominion Department of Agriculture say that if the vegetables are to be boiled, their recommendations are to peel the vegetables as thinly as possible and to cook them in a very little boiling salted water as possible and to cook them until just tender but not overdone. Add seasonings to the vegetables. Potatoes are the only vegetable that requires long cooking. Onions, parsnips, they are a starchy vegetable and have consequently a tendency to scorch. Some vegetables, like beets, need a pressure cooker, may be parboiled whole for a few minutes so they're being boiled, either skin or cut in half if needed. This parboiling cuts down the baking time, but is not otherwise necessary.

* * *

Many people do not like *Scrapple*, an Australian because they don't know how to cook them. The articles (Scrapples) should be parboiled or cooked in cold salted water, that is water (1 quart) to which 1 teaspoon of lemon juice or vinegar has been added. This will prevent the articles from discoloring. After being drained they are cooked like other vegetables in a small amount of boiling salted water, until tender, then served with a cream sauce or seasoned with salt, pepper, butter and chopped parsley

* * *

BIG PLAIN CREOLE
1 medium egg plant
Boiling salted water
2 tablespoons salt-flavored fat
1 small green pepper, chopped
1 small onion, chopped
1 tablespoon flour
½ teaspoon salt
1 tablespoon brown sugar
2 large tomatoes (peeled and chopped)
OR 2 cups chopped canned tomatoes
½ bay leaf, crushed
¼ teaspoon cloves
¼ cup bread crumbs
1 tablespoon butter
OR 2 tablespoons grated cheese
Peel and dice egg plant. Cook for 10 minutes in a little boiling, salted water Drain Place in greased baking dish Melt fat, add green pepper and onion and sauté 3 minutes Add flour, salt and sugar, brown Add tomatoes, season with bay leaf and cloves and simmer cooking 5 minutes Pour the tomato sauce over egg plant and top with bread crumbs which have been combined with the butter or grated cheese Bake in moderate oven, 350 degrees F for 30 minutes.

* * *

APPLE AND SQUASH CASSEROLE
2½ cups diced, cooked squash
1½ cups sliced sour apples
1 ½ cup brown sugar
2 strips side bacon, diced
¼ teaspoon salt
Boil the squash in pre-cooked casserole. Cover with half the apples. Sprinkle with half the brown sugar and salt and lay the bacon. Repeat with remaining ingredients. Cover and bake in moderately slow oven, 325 degrees F., for 30 minutes Uncover and bake until apples are soft and top is browned, about 15 minutes longer If the mixture appears dry, due to lack of juice in the apple, add ½ tablespoon water this manner.

* * *

BEETS IN GREEN PEPPERS
2 large green peppers
2 tablespoons fat
1 tablespoon flour
1 cup milk
¼ teaspoon salt
Dash of pepper
1 cup grated cheese
2 cups diced cooked purslane
Wash peppers, cut in half lengthwise and remove seeds Parboil, uncovered, in salted water until tender but not soft. Drain. Melt fat, all flour and blend well Add milk, stirring constantly until mixture thickens. Add salt pepper and cheese. Add more cheese to melted. Add purslane and heat over low heat until hot Serve in green pepper cases. Six servings.

The Place To Begin

From early days democracy has depended on the school room, the pulpit and the public platform to fit its people for self-government. Today we have more school rooms and pulpits than ever before while the radio has carried the platform into every private home. Do we govern ourselves better than we used to? Have we found a better solution to our problems?

One lesson that our schools, churches, forums and town halls do not seem to have taught us is that, when we want a change we have to want a change. Starting with ourselves. We still like to stand behind a teacher's, preacher's or speaker's desk and tell other people to be wiser, kinder, more unselfish. And nothing much happens.

Somewhere along the line we have failed to grasp that you can't get values by clamoring just by suggesting or demanding that they do so. People have to be inspired to be different. And the only people who can possibly inspire them is those who themselves have become different.

Once and for all we need to let go the idea that the public school as such can fit us for public rule, or that Sunday School or the Church as such can do broadly what must be done by individuals through moral reform or any sort of wholesale demand made upon other people Whether they are teachers or just fathers and mothers—it is only the example of a pioneering spirit in some one person, or group which sets the pace and supplies the inspiration for public progress World changes can grow only out of personal changes. And the only place a man can successfully begin is with himself

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

STILL ANOTHER HARDSHIP ON FARMERS

Wheat in Britain is being sold at $1.40. Wheat in all other countries at $2.65. The people of all these countries are grossly disarmed, their standard of living is low.

In Europe and Scotland in October from the war Millions of people are hungry off now than when the war started, particularly industrial labor, and yet we find that industrial labor and other people are only paying for their wheat, to make into bread and flour, 77½ cents a bushel, compared with $1.56 to Britain and $2.05 to the people of other countries. The farmers is receiving $1.35 only for that same flour. Canadian consumption for the farmer is housing all the people of Canada 10 cents a bushel for wheat. 70 million tonnes to be made into bread and flour but very few people realize that having doubles the British Ration by average The trend in Ontario and the Maritimes is to buy more production in the more northerly parts of the province

Order Rams And Boars Early

Farmers who need pure bred rams, boars, or bulls for the Edmonton District to place their orders at an early date. Purchase of rams for delivery under the Sheep Improvement Policy will be made at the Fall Sales around the 15th of October. Registered animals however well in advance will enable representatives of the Branch to purchase at the Ram Sales will be purchased only in sufficient quantity to fit applications. Early application will result in a better selection of a fine quality sire; late application may mean disappointment.

Early application for pure-bred boars is equally important. With the rumored reduction in hog production, farmers will want the best on the hoofs on their young boars, unless there is some assurance that these animals will be needed for breeding purposes. Even though delivery may not be required until December, orders should be placed now to avoid disappointment.

Application for purchase of pure bred rams, or boars, should be made as early as possible to the nearest District Agriculturist, or to the Livestock Branch, Alberta Department of Agriculture, Edmonton.

Missing Persons

Continued from Page Two

Peter—Born, in 1900 in Schostal near Kovarsk Crimea (Russia) and came to Canada in 1925. Solomon, John—About 42 years of age, born Poltimaine, Poland (Others in family, Simon, Rosie, Sebastyn Simon). Hanson, Johny—Born Parma. Estonia, left after the first world war for Canada. Married a Canadian and lives on a farm. Hanson, Gus —Born 23. 2. 1900 at Kongsberg, Norway. Has lived in Canada since 1927. Janik, Josef—Born 11.10.14 in Rzeszowow, Poland. Thought to have come to Canada since 1945. Jerusalev, Jacivbus—About 56 years of age, Russian. Job, Ludwig —About 43 years old, sought by Edward Gross, cousin. Kuchner, Mihata)—Came to Canada before 1930 from Poland. Jakoweborchuck, Annie Abram—About 60 years old, Russian, born in Ukraine, Wrotzwal Rzgaczik, and went to Canada in 1929. Kaplunman, Jacob —32 years old, born in Warsaw, Poland (Jewish). Goat, Bastish—About 45 years of age, born in Tarnopol, Ukrainiaska, Ukrainian. Kapak, Alma or Olmo—Born 1900 in Latsuka-Kolowrzja, Daughter of Dyzaki. Rzeshkowycz, Dorjyan and Alexander—Ustyna Born 1905 in Sichotyna, Stanislow, Poland, (Ukrainian) thought to be near Winnipeg. Hansen, Martin Meller —Born 15.9.80 at Santeloke Bolle, Lemvig, Danish. Johansen, Lars Peter Karl—Born 24.3.80 in Orsslev pr Farlev, Danish. Overcamp, Gregory—Born 1885, Polish. Marcavski, Adolf—Born 1883, Polish. Jones, Jens (Dayon)—Born in Ralsvig, age 46 years, shoemaker. Hemprates, Bec, Christian and Ole —Ole Born 12.12.1898. Bagsbrev, sister in Norway, Christian born 8.10.1899 last known address Harry Station, near Cochrane, Ontario.

Anyone knowing the whereabouts of any of the above mentioned persons please contact The International Red Cross Society, 88 Bloomsbury Street, Toronto, Ontario.

The man who don't crank good knows he isn't good for much. But the man who is no good thinks he is perfectly all right.

Canada's Apple Industry

The stage is set for a tremendous increase in apple production in Canada in the next 10 to 15 years, according to H. S. Davis, dominion horticulturist. He says the average production is presently at around 12 million bushels a year and may be increased to 20 million bushels or more in the near future says Mr. Davis. Canada will have no cut more fruit than the export demand will increase the population to take care of this potential production.

At the present time British Columbia supplies all other provinces as a actual apple production, with Nova Scotia not far behind. Ontario, Quebec Prairie and New Brunswick fifth in production, production for the next 10 years has been in the province of Nova Scotia and British Columbia are about equal with Ontario with Quebec and New Brunswick not having doubts the British Columbia average. The trend in Ontario and the Maritimes is to buy more production in the more northerly parts of the province

600 Given Permits Use Alaska Road

Already this year more than 600 permits have been issued by the traffic control at Edmonton for cars to travel over the Alaska highway, according to information received by the Alberta Motor Association. These carried an estimated 2,100 people.

While the restrictions have not yet been lifted for tourist traffic, it is seen that there already is a considerable movement over the road. Most of those applications were people travelling to Alaska for business purposes. Some were prospective settlers from the U.S.

Officials have announced that touring parties may obtain permits to shoot game in territory adjacent to the highway, providing necessary permits are obtained in Banff, Edmonton or Ste. Yassie.

Judging by the interest being shown, there will be many establishment along the highway catering to the public next year. Service stations already are operating at a number of stopping places. Official tourist bureaus are to be established at Fort Nelson, Fort St. John and Dawson Creek, where at least on the 1,000 mile road

Q. Is there an age when whooping cough is checked?

A. Some forms of pleurisy seem to be resistant to ordinary treatment. However, most of them are benefitted by ultra-violet ray applications, physical agents, etc.

* * *

Q. Should one go to bed when fever is present?

A. Yes. By resting, the body has the best chance of combating the fever, and there is less absorption of poison and lessened heart beat and respiration.

Girls-Boys Camps

Continued from Page One

to instant privilege they were too unsettled to speak, and perhaps they knew well that instead of bringing Boy's words to confession, they had subconsciously clarified and intensified his characteristics of the true oneness of society — the worshippers of God and the worshippers of mammon.

The high lights of the boys' work are not so easy to discover. Perhaps there were so many high lights that none was markedly prominent. But we have heard much about their last evening together, when they hiked to a distant part of the lake and had an outdoor supper. There was such a variety and abundance of good things set out that even 17 hays and their leaders who are still boys at such times, were fully satisfied.

The happy camp did not describe without planning plans, tentative and of course, for the acquisition of a permanent camp site to relieve and provide for expansion in accommodation and popularity of this movement for the development of our young people. More will be heard of these plans later. For we believe the parents and friends of the boys and girls will be keenly interested.

Prevent Waste

These of us who produce food for our own consumption have a double responsibility today, says Miss R. J. Lowe, Nutritionist for the Home Economics Division of the Alberta Department of Agriculture. Not only do we have to consider the needs of our family — but we must remember that other people in the world are starving. It is up to us to avoid waste, to preserve and store as much as possible. The more home grown products we store for winter use, the more commercial products will be available for others.

Bulletins on "Home Canning of Fruits and Vegetables", "Canning and Preserving with Honey", "Preserve by Freezing", and other information to help with canning, preserving and pickling are available from the Home Economics Division of the Alberta Department of Agriculture, Edmonton.

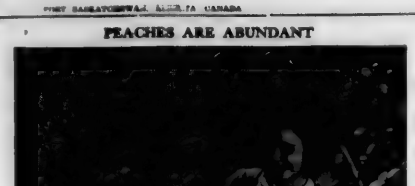
PEACHES ARE ABUNDANT



This year a record crop of peaches is being harvested in Canada, especially in the Province of Ontario. And Canadian grown peaches are of incomparable quality and flavor. But then fruit, in shortcake, like this young lady is doing, in the open air, and then by winter use. There's plenty available at reasonable prices.

Poultry Notes

Pullets on range should be on feed and managed that they will reach the age of approximately six months before production is started. This allows proper body development, to withstand the strain of heavy laying. Egg production at an early age means an abnormal number of small eggs and heavy moulting. When pullets are put in to the laying house, conditions in the house should duplicate range conditions as possible for a short time at least. Continuous lighting and proper feed combination results when it is put on pen, then chances of adult fat or laying mash. A reduction in supply of grit and oyster shell should be noted.

The production of turkey meat is an important phase of poultry raising during the fall and early winter. The Chora can be an intermediate hen, for the organism causing Blackhead in turkeys is found in large numbers of chicks. Growing turkeys then, should not be allowed to range out to mature maggie in any way with other fowl. Blackhead has already made its appearance and every care should be taken to prevent its spread. Good sanitary practices and range rotation are necessary.

Tape worms have been found in many young turkeys lately. The common fly is the intermediate host for this parasite and control measures should be put into effect to eliminate the fly. Clean up the manure piles and other breeding places. The use of D.D.T. according to directions will help materially in fly control.

IN MEMORIAM

In loving memory of Reinhold Mann who passed away September 1, 1945.

Day in the heart lies a picture
Of a loved one laid to rest;
In memory's frame we shall keep it
It became to we one of the best.

Sadly missed by his wife and children.

In loving memory of our dearest Son and Brother, Cpl. Gordon C. Sanford, R. 66666, who was killed in action in Italy, August 30, 1944.

"Two years have passed dear Son, Since you were laid to rest.
And those who think of you today,
Are those who loved you best."

Sadly missed and dearly remembered by his loving Mother and Dad, Sisters and Brothers.

Precision Fishing Reel

A dual purpose fishing reel which supersedes a considerable number of previous types is now being manufactured by a London firm. One outstanding feature of his reel (known to the "bonnet") is that it is a precision article, modern in conception and many experience gained in the production of precision parts during the war. It is made from duralumin and has an anodic finish which renders it corrosion-proof against fresh and salt water. Its other advantages are: a well-designed clipping device which permits the use of fine lines without fear of breakage; a three diameter spool which gives a rapid recovery of line without the complications of

It's good to know what one is — even better to know what to have.

Air College to Open In October

Britain's College of Aeronautics, an educational establishment which will be unique in the world, is to be opened in October 1946. The college will be open to students from all parts of the Commonwealth and Empire as well as Britain. It is primarily designed to provide a practical education in aeronautical engineering at post-graduate level for men destined to take a leading position in the aircraft industry. Full-scale laboratories and the services. There will be three main departments dealing respectively with aerodynamics, aircraft design and aircraft propulsion. A flight section will also be provided. When the buildings are finished and all the necessary equipment installed, the cost of this new college to the nation will be more than three million pounds.

Canada Grain Exports

For the 12 months ending June this year, wheat and flour exports totalled 297 million bushels. This compares as almost with the second largest in the history of the Canadian wheat trade. It included the record sales from 1943-crop and the lean of Canada's war time years.

Exports of both wheat and flour increased substantially during the last month, when 40,000,000 bushels of grain were shipped to Europe for various destinations.

A notable feature was the shipment of 100 million bushels of wheat, during the first months from the Lakes ports. During the period the government called on Canadian farmers to deliver all possible wheat, and during a time when normally many roads are impassable, farmers were through with no serious hardship in getting their wheat to the elevators. These farmers deserve well the helpers of the Dominion Government.

The movement of Canada in wheat and flour to a hungry world during a critical year is a most notable one. This season, nearly 12 million people came through with sufficient food to supply 20 per cent of the urgent need of

The 300,000 farm families in the prairie provinces of Manitoba, Saskatchewan and Alberta, who produced the 297 million bushels of wheat and 12,500,000 bushels of oats for overseas shipment from the United States. The government had to offer a bonus of 30c a bushel to encourage farm deliveries and it did, and then gave a substantial increase in wheat prices. In Canada no such inducements were offered to the farmers growing The spend is so designed as to prevent the line "piling" and being badly laid on. Added to this is the simple design which permits all components to be readily dismantled and adjusted with no more tools than a screwdriver or

Vol. 37. No. 35. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, SEPT 4, 1946 Subscription $2.00 year, U.S. $2.50

Around the Town

The ladies of the W.I. will meet in the Union Hall on Wednesday, Sept. 11 at 2.30 p.m. Gramophone lists will be featured and a special program has been arranged for this occasion.

Section Officer Marjorie Lesher of Ottawa is at home to have with her parents Mr. and Mrs. Harry Lesher. Marjorie flew to Alaska Tuesday for a short visit. She will return to her post at Ottawa on September 12.

Mr and Mrs. Lesher and Marjorie spent the long week-end visiting with their daughter and son-in-law, Mr. and Mrs. J. L. Price of Beauty Lake.

Mr. and Mrs. A. J. Dawson and family and Mr. and Mrs. Ken Robinson spent the holiday week end at Jasper.

Mr and Mrs. R. E. Phillips and Ronald have left to visit Mr. and Mrs. Phillips of Jasper after spending a few days with Mr. A. B. Ling.

Primrose Rebekah Lodge No. 82 will hold its first meeting on Wednesday September 11 at 8 p.m.

Several of the young people from the Fort have gone to the city to take courses at the various colleges and schools.

Dr. and Mrs. Henry left Sunday morning for a two week vacation at Jasper.

Rev. the Lord Bishop Mount Rainbow and Dorothy Smith have been holidaying at the home of their parents, R. R. 3, Fort Saskatchewan. Bishop returned to Edmonton to resume her work at the university but Dorothy will remain for some time. Bishop Mount Rainbow is known to Dorothy's friends in the Fort as Washington where she will do post-graduate work in nutrition at the state college.

Dr. and Mrs. A. J. Johnstone spent the long week-end at their cottage at Sylvan Lake, Pigeon Lake.

Dr. R. A. Pollard of Ottawa returned to Edmonton on Friday from a Summer's holiday spent with his Canadian Rockies. Other members of this party were Dr. Howard Ross of Ottawa and A. J. Brohaug of Ottawa and Carl Reed, one of the noted Harvard botanists.

Dr. and Mrs. Turner entertained the party over the week-end at their home here.

Mr. and Mrs. George Pinnell and son returned Monday from Pigeon Lake where they have been holidaying for the past week.

Mr. E. H. Caldwell returned home last Thursday from Norman Wells, where he has been working for the past year. He departs on vacation here until the middle of September and then proceed to Yellowknife.

Sandy Lake

Miss Brake, our former school teacher, was a visitor for a short time visiting some of her friends. During the week-end she will be spending at Wabamun.

Mrs. F. E. Hiest from Vermilion has been visiting with her sister, Mrs. C. Hiest.

Miss Sandy Lake school opens Mr. Cairns will be the teacher.

Mrs. Morris from Hammond was visiting for a few days last week. During her stay in Edmonton she attended the C.N.E.

The running of grain is well under way in the district. The weather conditions being up to it won't be long before its all stored up for the winter.

Miss Irene Hiest has returned to Edmonton where she will attend Strome High School.

Every farmer owns to a great extent by their duties and by definite regulation to do. Edgar F. Dickson

Municipal Council Notes

The Council of the Municipal District of Strathcona, No. 20 assembled the date of its July number meeting by one week holding it on Monday last, the second of September. All members were in attendance. Reeve commenced by the adoption of the minutes of the previous meeting.

The Council approved and confirmed an agreement made with Mr. Hitzman, owner of the S.W. 5-53-25-4 for the purchase of gravel area of his property containing gravel for the sum of $200.00.

Council also approved and confirmed a contract was let by Councillor Salstrom to L. B. Bergen to gravel and reprovel certain roads in his division.

Mrs. Lochner was in attendance to protest the sale of certain lots in Alexander Park to Wm. Pollock which were authorized by the Council at the previous meeting. She claimed that she had been promised that she would be given an opportunity to bid on this property when put up for sale. The Secretary was instructed to investigate the possibility of selling Mrs. Lochner other property to Alexander Park and to make a full report on same at the next meeting.

By-laws were passed providing for the sale of Lot 18, Block 10 and Lot 26, Block 2, Terrace Heights for the sum of $80.00 each.

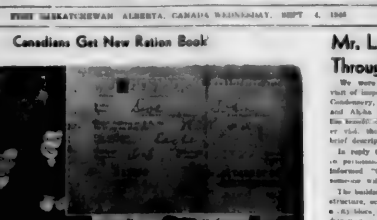
A by-law was also passed authorizing the sale of a lot in King George Park to D. B. Harper on the basis of $200.00 per acre with the usual 5% count that has been given to returned veterans.

Four appeals were received against the assessment placed on for farms in the district. The Council set the 15th of October, the date of the next meeting as the time for hearing of these appeals.

Arrangements were made with the Cotswold Coal Company for the purchase of crushed gravel for the surfacing of certain roads in the district.

Consideration was given to the installation of a public scale at West Salisbury corner at Clover Bar. Inquiry into both these matters is to be made and a report submitted at the next meeting.

The Council as a committee inspected the road grading and crushing project that is being done in the Manola District which in future will be known as Pioneer View. This, of course, is not to be confused with the Pioneer View district east of the Fort. For the information of residents of the district, one new Pioneer View is a voluntary housing project embracing 160 acres which is divided into ½ acre lots with the exception made for community grounds, schools and stores. The area is fully developed, with approximately 750 residents. At the present time 70 are completed and a number under construction. After viewing the work being done here, the Council directed that the application for the sale of such lands as shown on lower left, three houses and a distribution centre ready to



Canadians Get New Ration Book

Josephburg

Last weeks news item made mention of an outing of our Reformed Church Young People were to have had. This took place on Sunday in Thomas's woods north of the hamlet. The many who came had a wonderful day by all accounts. At dusk all paraded with lunch pails in hand to the big box that was to be their dining room for the supper hour. Here preparations took place. The roll call was answered by an outstanding incident of once called Mr. A little imagination was used by the leaders and games were thought out for the day. Members of our junior choir were present and sang joyfully.

We were pleased to have with us Mr. Arens Gunther and others from the Webber League. Mr. Gunther spoke briefly to us outlining the aims and objectives of Luther Young Peoples not only at home in Edmonton but also abroad. When he had concluded all felt that as neighboring communities serving for the same goal in Christian youth—in movements much could be gained by pooling together occasionally.

Miss try to convert the world to their way of thinking as they are confident undisturbed in their way of living.

Bremner

Miss Verna McGhee spent an enjoyable week-end holiday at the home of Mr. Orvin Wallis of Fort Saskatchewan.

Mr. Donald Cousens has been holidaying at his uncles farm, Mr. Gordon McGee.

Congratulations go to Mr. and Mrs. Jack Lyon on the birth of a daughter, Shirley, on August 29.

Miss Carol Williams returned to Edmonton to attend university is for very near future.

Miss Peggie Lang returned to Edmonton to start her grade 12 studies, after spending the holidays with her parents.

The Ladies Goodwill Club will meet at the home of Mrs. Gerry, September 11. Everybody welcome.

The district extends sympathy to Bob and Alma Hildebrand in the recent loss of their father, Mr. F. Hildebrand at the age of 82 year. Mr. Hildebrand came to these parts 40 years ago, and with his passing we lost another of our honored pioneer.

Kenny and June Lyon have recently spent holidays in the city.

Little Miss Carol Hughes and Miss June Stannard have been visiting in the district.

SEND IN THE NEWS!

Many Out-of-Town Pupils Attend F.H.S.

Many new faces were seen around the Fort on the opening day of school.

So far the enrolment to date is approximately 240 but this will probably be higher when all students have reported.

Three bus services are now running into the Fort bringing students for the high school. Twenty-eight come from Clover Bar, twelve from Deep Creek and twelve from Pedmore. This, making a total enrolment of 52 for the high school.

The teaching staff remains of Mr. R. Larson, principal; Mr. Ed Richardson, Vice-President and Mr. T. Siddell, who will teach high school.

The public school teachers are Miss Harrold, grade 9; Mr. McLellan, grades 7 and 8; Mrs. Lewis, grades 5 and 6; Miss Greenbaugh, grades 3 and 4 and Mrs. E. Hagar, grade 1 and 2. The latter three teachers are new additions to the Fort staff, replacing Mrs. R. Ellis, nee Miss Beth Thorne, Miss Betty Ballon, Miss Davies who resigned.

During the past years the pupils have reported their various activities through their "School Flashes". We again extend to them the use of these columns and wish them every success in any program they may undertake.

Mr. Leo Piercy Discribes Visit Through Red Deer Condensery

We were privileged to pay a visit of inspection to the Red Deer Condensery, the home of Pacific and Alpha evaporated milk. For this benefit of those who may never visit the plant, we submit a brief description.

In reply to our pleased request on permission, we were courteously informed "Come over home and some-one will take you round".

The building is a handsome brick structure, occupying the length of a city block, with spacious entries driveway in front, some-some clear on the side and back and the rest consisting of the plant proper, the power house being attached at the north end fully equipped, adequate lighting, spacious cleanliness, inside and out are one's first impressions.

Passing through a side door we are met with, one notices the churning pools, twelve gallon milk is separated, skimmed and stored into tanker, in a churn whose capacity is one thousand pounds per churning. The cream was just here, unloaded and we did not see any at the butter because it is stored.

A small, game-sanitized office, housed a white-smocked chemist, busily engaged in testing samples of milk and cream as it was received, whereby that he had seen other visitors in of white powder, presumably preservatives — stamped into a commercial churn which stirred for the fast that cream will factor keep for two. The chief butter maker served us test cleaner, pasteurization and salt which are their formula for preservation.

Through a second door we entered the main floor of the condensery—a vast well lighted, concrete floored, modern factory; a somewhat noisy, somewhat overwhelming, but positively free from odor or fumes. It is not one man day in the whole building.

Our first impression was a bewildering vision of vast machinery which, however, under an able guide, soon resolved itself into low and order. In the near corner the farmer's milk, after being tested, is emptied from the cans, which cans are immediately passed through a vast apparatus which washes and sterilizes them ready to go out again.

The milk is then pasteurized and flows along to the condensing and cooling towers where moisture, very reached by steel stemtrays powers to the ceiling. Three separate units plainly labelled (Vacuum) 'Condensing' and Irradiating compose this group, and are controlled by one man only. Here 60 percent of the bulk is removed and the milk is irradiated by means of subjecting it to the rays of four powerful arc lights.

The finished product passes into the can-filling contraption, which run tubes somewhat a huge 27 wheel passed on its hub, the entire rim being surrounded by cans, previously sterilized, each with a small hole in the centre of the top. The wheel slowly revolves and as each can reaches the rim a tap is automatically turned on and before the can has made a complete circuit, a second slower turns the tap off. The milk itself which comes at the hub is distributed to each can through small bored copper pipes which form the spokes of the wheel. Before making a complete revolution a pin of steam blows off any surplus milk and a second jet of live steam dries the surface. The filled cans follow one another side by side along the conveyor which carries them forward to the automatic sealer and after being sealed, the packed cans are passed under water to detect any which are not air-tight. Two men tend this machine, one taking out doubtful cans, the other considering them by hand and returning them to No. 1, the men once more taste them under water.

The conveyor obtains them along quite a journey till they reach a vast rotating drum wherein they are subjected to a temperature of 242 degrees for some forty minutes. The same conveyor obtains them out and transfer them to a similar drum where they are retained and cooled to blood heat.

Once more they journey on unassisted and this time they travel downstairs. Here they run through the labelling machine. First cans

Canadian Cattle Exports

Canada and the United Kingdom have agreed to export 350,000,000 pounds of beef to New Zealand to relieve an acute shortage which now exists in that Dominion.

Dr. Blair Stewart, who recently returned to Canada after spending six years as Trade Commissioner in Auckland, explained the apparent shortage as being largely due to New Zealand's scarcity of female cattle, which caused a considerable reduction in local production.

PREFER CANADIAN CATTLE

A large number of Mexican farmers prefer Canadian cattle to those secured from United States, D. S. Cole, Canadian Commercial Counsellor, reported from Mexico City.

This preference is based on the belief that the Canadian animals produce the most fat without diminishing their production of milk.

The United States is flooding Mexico with animals of poor quality at low prices, Mr. Cole said, and most Mexican importers now look to Canada to supply the high quality of Jersey cattle, both bulls and cows, they desire for breeding purposes.

Exports of Canadian cattle to Mexico are expected to be even greater this year than in 1945 when 1,561 head, valued at $397,-118.00, were shipped there.

EAST EDMONTON

The East Kenmares Community Hall was a scene of activity Wednesday afternoon, August 28, when the Willing Workers Club entertained the retired pet. Perfect weather prevailed and with sunshine and masses of summer flowers, the day turned out an inviting appearance for the party.

Entertainment took the form of a musical party with Mrs. Chamberlain and Mrs. Jackson doing some basic work. There was also a sound picture show to provide diversion for the ten-tubers.

Refreshments were in the capable hands of Mrs. Underwood and Mrs. Fracher, with Mrs. D. J. Christie presiding over the tea urns.

A white elephant table, in charge of Mrs. R. Bishop proved to be an excellent source of revenue, and together with the receipts from the tea tables made possible a gratifying addition to the Hall Improvement Fund.

Radiograms

A WISH AT THE KEYBOARD

Pte. Hall received to date the last numbers to complete [illegible] form a radio [illegible] Cooper, CJCA's staff pianist re[illegible]mporary. Though Lloyd is by no [illegible] to Wilson Cousins [illegible], CJCA is "pinned on [illegible]" to have acquired his services on a definite basis. During the war years while posted at various training centres with the R.A.F., Lloyd played recitals over CJOC, Lethbridge; CFAC, Calgary; CKCR and CKRM, Regina and CJCA, Edmonton.

Before joining the R.C.P., he was a prominent pianist in England, being a regular contributor to the Reading School Revivals and playing regularly with such world famous orchestras as Jay Lees, Debroy Somerers and Jack Hilton.

It is interesting to note that Alec Templeton was also a pianist with the Jack Hilton Orchestra.

One of the major achievements to the acceptance of his position as the theme waltz for the film "The First Mrs Fraser".

In spite of his youth—he is 23 CJCA's amiable Regrwel pianist crammed 18 months of regular piano playing on International Broadcasting Company programs overseas.

Major reason for Lloyd's decision to make Edmonton his home is his "third date" of three years ago—choosing Alice Beerbeemke who is now Mrs. Lloyd Cooper.

Lloyd is heard over CJCA twice daily, Monday through Friday, and the listeners are clamoring for more.

Youths of Today Have Language of Their Own

Walt Disney's latest hit "Make Mine Music" brings back memories.

It was in your high-school days when you thought you were just "a bit" Your feelings were best because you knew that you had a mind of your own, your own out of blues and dislikes, your own hero and heroine.

And now you're older—and wiser. But those who have replaced you in school still have those private feelings—and today their writings are in a large measure baffled. They have a "dictionary" all their own. The money they spend has revolutionized merchandising in certain lines to such an extent that many stores have redesigned their shops to include a kids-out sub or only Teen Agers can shop. Publicists have even been renamed "boitrents" after their favorite fashion designer, Betty Rose. They even have their own kind of greeting cards.

They have more money to spend — record sales in teen-agers is more than two million purchasers in Canada between the ages of 10 and 20 with approximately $40,000,000 to spend each year.

Disney's "Make Mine Music" is a case of "new wine in old bottles" and modern music. After brushing up on their vocabulary with a screening of the film, you may consult to overhear the following conversation anywhere: "How ya doin', Bug, are you a zombie pusher?—You're not!—You're a Crabs Jones! Okay then, here's a neat grout—Hi Colory! let's chill! (Whoa, there (translated all mean: "How are you, girls! are you lonely and low?—You're cat! You're a gal who digs records! Well then, how about this dance?).

As you can see, young folks in their teens have something that is different. Yet, withal, it goes with their modes of dance and entertainment—good, clean, wholesome fun.

Would you like us to "in the know" on the prevailing Teen Age slang? Below is an up-to-date list of many expressions. Try them on your friends.

Alligator—caring fan
Alligator bait—girl
Atomic—super wonderful
Excellish—attractive girl
Bird-Dogg—automobile
Bone-Head—stupid
Bread—money (3 to the bar)
Callaway—chocolate
Clam Up—stop talking
Collegiate—a swoony, gaudy sweater
C.O.D.—comes over, dear
Collegian—ok there
Corner Cooler—favorite hangout
Crazy on Some—girl who gets around
Crush Hustling—heavy work
Dig me—understand me
Dig the Drapes—buy a new dress
Do a dizzy—pull a boner
Doodles with rolls—a grind
Dream—combines'ion drip and goon
Ether Waves—a radio
Fair Hair—a girl who smokes
Farble Grabble—unpopular girl
FBA—a loan of money
Flim—nothin
Flunkies—ends lurker
Gas it—put going in a hurry
Give with the gas—captain is de-tail
Glump—unpopular person, drip
Gone Gal—terrific or wonderful
Gusher Gee—hello treasurer
Heavy Cooler—a kiss
Hubba hubba—favorable exclamation
In a gazelle—I'm feeling good
In the shade—feeling blue
Ish Kaubibble—zombie around the joint
Jam—argument
Jocker Wedl—kid brother
Large Charge—wonderful
Latch on—get wise
Lay—kidding
Make like a bold—go away
Marble shit—soda fountain
Money from home—good news
Off the cob—screwy
On the Screen Beam—public
Overhaul—your appearance
Paws the Ground, Gentle—what's new!
Pictures—phonograph records
Potent Pigeon—girl who votes
Powderpuff—lip stick
Rat Race—school
Red Mike—a women hater
R-ot, George—you're right
Riffs—music
Retard—beauty treatment
Salty—angry
Schoolosophy—regular schoolmate
Skin me—shake hands
Sky juice—water
Slob—sandwich
Slick chick—potent pigeon
Slide your jive—talk freely
Square—a person who doesn't dance

The Recipe Corner

The unexpected and most acceptable windfall of certain radio guests this month means that many homemakers are changing their plans and will be making more jams and pickles than they had intended. The home economists of the Consumer Section, Dominion Department of Agriculture, point out that sugar still has to be used with a careful hand and in this year's tables "Jams, Jellies and Pickles" the limited recipes which include "Corn Relish" are blended with this in mind. Speaking of the latter, a copy may be obtained by writing to the Dominion Department of Agriculture, Ottawa.

Each of the three recipes which follow suits for tomatoes, either red or green. The Chili Sauce and Corn Relish should be made right away while ripe tomatoes are at their best, but the Green Tomato Chow-Chow may be left until a little later. Chili sauce is so good and even though one batch takes almost half the entire two pounds of sugar allowed per person, it is well worth using the sugar for this purpose. The same might be said about the Green Tomato Chow-Chow which, incidentally, is an excellent way of making good use of those tomatoes in the garden which refuse to ripen.

CHILI SAUCE

1 tablespoon whole cloves
2 tablespoon whole allspice
1 gallon chopped, skinned ripe tomatoes (6 lbs.)
2½ cups chopped, peeled onions (2 medium)
2½ cups chopped, seeded green or sweet red peppers (6 medium)
1½ cups sugar
1 tablespoon salt
4 cups blended pickling vinegar

The spices in cheesecloth bag. Combine remaining ingredients in saucepan. Cook, uncovered, 2½ to 3 hours, or until quite thick, stirring frequently. Remove spice bag. Pour into sterilized sealers or jars and seal. Yield: about 6 pints.

CORN RELISH

6 cups corn (cut from cob)
4 cups coarsely chopped cucumber
4 cups coarsely chopped ripe tomatoes
4 cups coarsely chopped celery
1 cup chopped green pepper
2 cup chopped sweet red pepper
2 cups chopped white onions
2 tablespoons salt
2 tablespoons mustard
1 tablespoon turmeric
4 cups pickling vinegar
2½ cups brown sugar

Mix ingredients well. Simmer uncovered, until thickened . . . about 30 minutes, stirring frequently. Yield: about 8 pints.

GREEN TOMATO CHOW-CHOW

10 medium green tomatoes (7½ pounds)
6 large onions
½ cup salt
1 tablespoon mustard seed
1 tablespoon whole allspice
1 tablespoon celery seed
1 tablespoon whole cloves
1 tablespoon dry mustard
1 tablespoon peppercorns
½ lemons
2 sweet red peppers
2 cups brown sugar
2 cups cider vinegar

Slice tomatoes and onions thinly and place in a crock or enamel vessel in alternate layers with the salt. Let stand overnight in the morning, drain thoroughly, rinse in cold water and drain well again. Tie all spices loosely in a cheesecloth bag; slice lemons thinly, remove stem and seeds from peppers and slice thinly. All spice bag and sugar, bring to boiling point, then add tomatoes, onions, lemons and peppers. Cook for ½ hour, stirring gently to prevent sticking. Remove spice bag and pack pickles in hot, sterilized jars; seal and cool. Yield: about 8 pints.

Knowledge is knowing the facts. Insight is seeing their cause. Wisdom is knowing what to do about them.

Who Speaks For You, Mr. Farmer?

The Northwest Line Elevator Association (according to their own brief) "have taken all means available to them" and have made "six years of unremitting effort" to get the Pools taxed, and have successfully criticized the Pools and the Federal government for the examples set by the Pools have been of benefit to growers delivering to other elevators.

Line Elevator Assertions

The line elevators' statement:—

"On November 30, 1941, the United Grain Growers Limited, faced with the necessity of meeting the policy of competition then followed by the Pools, in turn declared a patronage dividend of $500,000." Here farmers apparently benefited according to Section 39 of the line elevators' brief:—

"On August 24, 1942, the association again wrote the commissioner of income Tax a letter calling his attention to the correspondence which had been had with him on the subject of patronage dividends, starting with the association's letter of November 17, 1941, pointing out that several elevator companies had been obliged to accept the decision of the Pools by making payments of the nature of a patronage dividend and concluding with the following paragraph:—

'As your department has had this matter before it now for some months we would appreciate it greatly if you would advise us as to whether or not you have rendered the point of issuing a ruling which we could pass on to our member companies.'"

And Section 39—

"On October 31, 1942 the association interviewed the Minister of Finance and had before him figures showing the extent to which patronage dividend payments were paid out of money which otherwise they would have gone to the government in taxes and stressed the evidence that a number of the line companies had been forced during the current year to pay patronage dividends in order to meet the Pool competition."

The line elevators feel that they have made an exhaustive effort to have the Pools taxed and that nothing has been left undone that might achieve that end.

Section 41 states that:—

"After six years of unremitting effort on the part of the association and its members of the Pools are still enjoying practical immunity from the taxation bearing so heavily on their competitors and will continue to do so for so long as the inducement to enforce this law is permitted to continue."

Wheat Pool Comment

The line elevators have used all the strength they could muster to persuade the Federal government to tax the Pools, and this support has not been asked.

Farmers delivering to the "several elevator companies" have received patronage dividends, despite of this exemption payments, by patronage dividends.

Payment of patronage dividends by line companies to co-operatives has been vigorously opposed by the Minister of Finance, should bear about it.

If you think the effort of the co-operatives has been small while they have been busily engaged in helping you by delivering all your products to the co-operatives, then perhaps you had better talk to Alberta Pool Elevators.

Inadequate Service

The service supplied by the bus company falls short of what it should be. Day after day residents of the town wait around the depot for the bus from the east that should leave the Fort for the city at 12:30, but more often than not it leaves late.

We realize that the bus company cannot get all the buses required to service all their routes, and the ones on the road today must do double duty. This of course places a greater burden on them with the result of more frequent break downs.

But apart from all this the public is entitled to a service that should conform to their schedule and if it is impossible for buses to arrive and leave on time, the least that could be done is to phone ahead and inform the depot at what time it will arrive.

If those taking the bus were informed that it would be late, they could employ their time more profitably than by waiting around the depot.

HEALTH NOTES

Department of National Health and Welfare

EXCESSIVE SMOKING

While admitting the comforting effect of smoking on adults accustomed to it, health authorities condemn excessive smoking. This, they point out, can cause a tiresome chronic cough and catarrh, and will have a detrimental effect on endurance by making the heart irritable, with consequent onset of fatigue. Moderation is advised in smoking as in [illegible].

* * *

HAND CLEANSERS

Use of industrial chemicals and solvents as hand cleansers is frowned upon by authorities. The Department has issued a warning against indiscriminate use of such cleansers as turpentine, gasoline, kerosene, alcohol, acids and alkalis, and has pointed out that the safest cleanser is hot water and mild soap. The warning is addressed particularly to those in [illegible].

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Belgium has made initials on queries to purchase 12,000,000 bushels of Canadian wheat.—Its means crop is officially placed at about 70 million bushels which is only half of the 1938-39 average.—Finland's wheat crop is estimated at below average, owing to excessive rainfall.—Bread rationing has been abolished in Turkey with the exception of the Istanbul, Ankara and Izmir areas.

Eire's crop is estimated at 39 million bushels, and is apparently nearly 2½ times greater than previous year.—The bread grain crop in Sweden is estimated at 960,000 tons, an increase of 70,000 tons over last year.—The U.S.A. spring wheat harvest is progressing rapidly, under good conditions.

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"
A SOURCE OF GOOD CHEAP [illegible]

Thousands of farmers this last spring sent samples of their seed wheat which they sowed in 1946, and which therefore represents their crops now being harvested, packed up a letter and a ring and [illegible] got what he want-ed through the efficiency of the [illegible] system, whose samples were found on test to be equal to maximum-to-variety certified, entitled to be registered seed. These farmers will soon be notified of the classification of their crops. Those, therefore, who have doubts about the trueness-to-variety of their pedigreed crops, or who may wish to change over to an entirely new variety, and who need therefore to purchase a large quantity of home-to-variety seed for this next year, might well enquire if some farmer in their neighborhood has "Crop Testing Plan "A" stocks. If so they would certainly purchase a quantity of such good seed at a small premium over the elevator price.

In addition to purchasing a quantity of such "Crop Testing Plan" "A" seed, farmers would be wise to sow also five to ten acres of clean summerfallow to Registered and Certified seed sealed in the sack. This would be a fine money-making investment, for it would provide a good deal of excellent seed at low cost for the [illegible].

* * *

I would stop all wars for a hundred years. But why, the limit? I would [illegible] marshal with some [illegible]. I think [illegible] perhaps, that if the people found it written were for a hundred years, they would never want them again. If however, they wanted them then [illegible] would be ported. Far enough, isn't it? One more chance then out you go!

Now with Hamlin's lamp and ring I would talk to the leaders of labor, (my secretary has just reminded I would need to do more). She may be right. Where Brookington failed who could possibly succeed. Still Mr. Hoover with Hamlin's Aladdin's lamp and I am assuming that I have. I would explain to the leaders of labor that raising wages never can increase the total real earnings of labor. Total wages rise only with increased production. I would make it clear to the labor leaders that wages are a part of costs and that when costs go up prices rise and all the leaders can provide for their men is a nominally higher wage rate but no increase of purchasing power. The dijmens of the lamp have appeared to me stating that everybody knows this, including the labor leaders. If they didn't why did the CIO demand that with the increase in wages rates in the United States there should be absolute control of prices and rents? The claim was intended to prove to world that they had Aladdin's lamp. If they hadn't they couldn't put that one over.

Still holding tight to the lamp I would point out to capital that power cannot provide everything in this world unless it is used with the wisdom of Aladdin. I would suggest to capital that it concentrate on efforts to reduce the price of commodities so that people could buy more. Monopoly does not give power but it does promote chicanery. The safest business is the

Continued on Page Four

Start Work on New Highway Bridge

Work on the new $160,000 Calgary-Edmonton highway bridge across the Red Deer river at Red Deer will commence early in September, according to information received by the Alberta Motor Association from the provincial public works department.

Equipment is being moved to the bridge site in order to get items under way.

Two large outfits are working on the Crossfield-Penhold highway section and it is expected that this work will be completed before freeze-up. Outfits and crews are working out of Red Deer.

Hon. W. A. Fallow, minister of public works, said final road [illegible] every piece of machinery and equipment of the department is being used on the current provincial road program.

There are bright prospects for the completion of the High Prairie-Grande Prairie road. The project is 70 miles in length.

When this highway surfacing is completed, there will be an all-weather road from the international boundary to Grande Prairie, leaving only 30 miles not yet graveled between Grande Prairie and the B.C. boundary of a stretch of 60 miles.

Give Me Aladdin's Lamp

By R. A. DEACHMAN

I read, recently, an item in [illegible] which [illegible] with [illegible] Aladdin's lamp. Recall [illegible] the adventures of Aladdin. He [illegible] specially of benefit, that is to say in the nature of a cure, for tuberculosis of the lungs. Many sufferers are of benefit for the various conditions associated with lung disease.

* * *

Q. Would a glass of orange juice at breakfast be of any special benefit or would it prove harmful in the treatment of pulmonary tuberculosis?

A. It is all probability it would not prove harmful and may in connection with and lower oil, be of benefit in a general way One of its valuable ingredients is vitamin C.

* * *

Readers desiring questions answered are asked to send them to Calgary, where careful attention and early reply will be given.

The permanent schools of agriculture at Olds and Vermilion have conducted accommodation for only 60 students. Applications for the new term, which commences Oct. 21, far exceed accommodation.

How You Can Save $50 to $100 Per Year on Your Food Bill!
Figures don't lie! See how simple it is to determine your actual savings by using a Refrigerated Locker:
A saving of only 10c per lb. on the average of 500 lbs. means a gross savings of $50.00
Less locker rent 12.00
Quick-freezing, including wrapping and cutting @ 2c per lb. 10.00 ..... 22.00
Net savings to you $33.00
Thousands of families in every province of the Dominion have found these figures correct and are saving millions of dollars on their annual food bill. Why should you deprive your family of this extra income now that refrigerated locker service is available a your community? Come in Today and talk it over with us—or write or phone and tell us that you, too, want to make the savings possible for your family. RESERVE YOUR LOCKER TODAY and derive the full benefits of this new, splendid food service yourself!

What Each of Us Does

"Lollada such as State, industry, nationalization is themselves using tools," said Herbert Morrison in a recent talk. "Whether these things work, whether they give us what we all so fiercely desire, all depends on the sum of what each of us does."

On every hand statesmen, and the ordinary man, are seeing that new administrations, new systems and new deals can do little good unless there is some new attitude or effort on the part of individual people. With each growing recognition of our real and basic need, it is surprising that there is still so much effort spent on plans and systems and so little on attitude and spirit. That so much import now is publicly attached to "what each of us does" while privately we each do so little about it.

What can we do? A baker said, "I am busy with my own home, my own bakery and my own industry. I can try to make those models of what homes and bakeries and industry should be in demonstrating. Free from blind selfishness on one hand and blind bitterness on the other. Free from personal dictatorship either at the business conference table or the family breakfast table. Free from fear of either, my communities or countries. Free to do what's right without reference to either profit or profits."

The butcher, the handyman, waiter and everybody else are just as free. These are things each one of us can do. You do not have to be a baker to form this kind of heaven at the lump of present day society.

Ontario has good crops on the average and the quality is high. Quebec, however, looks for lower totals in the Maritimes, crops are about average, except that potato production is lower in New Brunswick and may be decreased in Nova Scotia and Nova Scotia.

Aladdin's Lamp

(Continued from Page 1)

world is the one which provides the highest value for the dollar it takes. Aladdin said no that, or I got it from the lamp and besides that, I knew it before—so it must be true!

* * *

Then away my lamp and the ring, I would call on the bankers in the local offices in the larger cities, but there, strange to say, I would be carrying coals to Newcastle. To give the money lenders their due they are not shy of using an mark for their business as they formerly did. Money is still in boom demand but the rates are fairly low. Whatever the effect upon the country as a whole, and there is an argument in regard to that, the borrower always wants to get his money at a low rate. The banks while functioning at a low rate of interest have made fair sized profits, proving that the lowering of prices is not the real evil, always an evil, Aladdin says: "No, Aladdin, you should give more for what they get." This statement is a paradox in the real meaning is that those who do this number more for what they give.

I would talk to the farmers and tell them that the easiest way to get what they want is not to be found in long term contracts for the marketing of farm products, in governmental schemes or in extravagant subsidies, but in providing food at the lowest prices consistent with fair profits. The producers of the lamp would have me out in this: if all others did the same thing! Normally other groups would not do so, apart from him. The task of mankind is not solely to make money, it is to produce in abundance and sell at reasonable prices so that the world may be rich in the abundance of commodities and in greater happiness for the most. I am through. What shall I do with the lamp and the ring now that I have them? I believe I will turn them over to the farmers, not exactly in the hope that they will use them wisely but in the fond belief that their wisdom might be at least as great as some others more eminent in their domain. Besides, Aladdin was born on a farm and remains, at heart, a farmer.

Australian Conductor

Professor Bernard Heinze, Australian conductor, is coming to Canada in December at the invitation of the CBC. While here he will direct a series of symphonic broadcasts in Vancouver, Toronto and Montreal. Professor Heinze has had great influence on Australia's musical life. For many years he has shown particular interest in the musical education of youth, and his "Young People's Concerts" in Melbourne bring great orchestral music to over 70,000 school children annually.

Soapless Suds

The scarcity of soap in stores these days has brought many soapless cleaning products to our attention. Here are some facts from the Home Economics Service about these preparations and suggestions as to their use in the home:

Like soap, these new products increase the "wetting power" of water so that it reaches the important parts of the material. Many of them cause water to wet materials even more effectively than soap. In hard water they have an advantage over soap. Because they do not combine with the minerals in the water, there is no curd to soap down, they clean as well in hard as in soft water. Because their solutions are not alkaline they can be used with some fabrics and dyes that will be injured by soap. In hard water they do not give the disagreeable deposits of soap. While they may appear expensive a little goes a long way.

These products should not be thought of as soap. They do not remove some kind of soil that soap removes. On the other hand they remove fats and oils so completely that it is advisable to use creams and lotions on your hands as they tend to dry the skin.

These products are excellent for washing greasy dishes, removing grease from frying pans, oven and broiler, cleaning bathroom fixtures and sinks of hard water deposits, and cleaning clothing that have become greased and stiffened by washing with soap in hard water.

Some of these products must be used sparingly if at all on linens, pallet, furniture, and other materials in which oil is an important constituent. However, some of the newer products have been made especially for cleaning paint and linoleum. It is important to read the labels on the packages which tell where and how these products may be used.

CANADA FIRST AN ISLAND

Canada is now the principal source of supply for South-East imported by St. Vincent in the Windward Islands, T. G. Magor, Canadian Trade Commissioner, reports from Port of Spain, Trinidad.

Eleven thousand tons was the figure, he said, the island has already this year made substantial increases in its purchase of Canadian beer, tobacco, automobiles, automotive parts and lumber.

Canada's share of St. Vincent's trade was also made significant at 37 per cent. Of automobiles and parts being imported into the island, the Dominion now sells 60 per cent.

ORANGE JUICE COMING SOON

Jamaica will ship sweet orange juice to Canada toward the end of this year, but only a moderate quantity may be expected since the outlook for the crop, with cutoff in from September onwards, is poor.

Fairly good returns of grapefruit, bitter oranges and limes are expected from Jamaica, however, according to the results of a survey conducted by H. B. Palmer, Canadian Trade Commissioner at Kingston.

Some payments on the 1942-43 Wheat Board participation certificates will be issued in the near future. The payment on 1 northern wheat is $1.13½ per bushel. This price covers about 90 per cent of all the other crops.

The Agricultural Service Board

Minutes of a meeting of the Agricultural Service Board of the Municipal District of Strathcona, No. 20, held in the Council Chamber on Tuesday, the 20th of August, 1946.

The following members were in attendance.

E. Keith, Chairman
F. H. McCalla, Member
F. H. Metcalfe, Member
H. L. Stetson, Field Supervisor
D. Roberts, Secretary

Minutes recommended at 8:00 o'clock p.m. with consideration of the minutes of the meeting held on Monday, June 24th, copies of which had been mailed to all members of the Board.

Moved by F. H. McCalla,

That the minutes of the meeting held on June 24th, 1946, as submitted by the Secretary, be adopted and confirmed. Carried.

The Field Supervisor submitted a detailed typewritten report for the period from June 24th to July 20th to the 31st of July. He gave a general outline of the visits he had made to the various farms in the district and the work he had undertaken to improve on the standard of their land and crops. He also made a report on the question of also "setting" of a ditch used in the land and crops in the district. He intimated that much research work was yet to be done in this matter but that it was the consensus of opinion of agriculturists that the black soil areas were not suitable for the production of alfalfa seed.

The matter of back-sloping ditches on roads was then dealt with. Mr. Stetson explained that officials of the Department of Agriculture had regretted that the Council had not kept to a policy to undertake the work of back-sloping and cowing down of ditches on the Provincial highways. It was felt however, that it would be advisable to have the Field Supervisor instruct one pair of road outside for back-sloping and cowing to act as a demonstration unit for the public to observe.

In the matter of weed control operation on this matter, the problem of distributing the sample dust other the grader and tool boxes of the car was discussed. The Board felt that the back-sloping on very deep cuts would have to be passed up. The surplus dirt in the sections backsloped might be distributed evenly along the ditch bottom without seriously interfering with the ditch level.

It was moved by E. Keith,

That instructions be issued to the Field Supervisor to locate one mile or more of road on the Portage Trail, Josephburg, for back-sloping so that it could be availed down to grade to act as a demonstration plot for the public to observe. Carried.

The matter of making plans and arrangements for the holding of the field days next year was briefly discussed and left in abeyance until a later date.

Reasons was quoted in discussion for the question of formulating a policy of enforcing provisions of the Noxious Weeds Act by way of issuing condemnation notices as well as the issuing of instructions to prohibit the cutting of land to be found with noxious weeds. It was felt that the policy adopted should be one of education and voluntary co-operation by the farmer rather than by arbitrary methods. It was suggested that the Field Supervisor should select demonstration plots in the different rural areas of the district to show what could be done in the control of weeds through proper pest cutting methods as well as the application of proper tillage after the crop had been cut. It was also agreed that infested fields or farms should be catalogued on a farm survey sheet.

It was accordingly moved by F. H. Metcalfe,

That we recommend that a supply of farm survey sheets be prepared so that all farms in the district will eventually be catalogued on a farm survey sheet, as to the prevalence of noxious weeds. Carried.

In the resulting discussion as to the Council continuing to distribute forage crop seed on a cost basis, it was opined that it was in the interests of agriculture and we further that the Council continue these arrangements.

While there was no reason to believe or suspect that the Council would discontinue these arrangements it was nevertheless moved by F. H. McCalla,

That we respectfully recommend that the Council continue its policy for the distribution of forage crop seed on a cost basis. Carried.

The matter of allowing the removal of straw containing noxious weed seeds from farm to farm came up for discussion. It was established that it was a very difficult matter to prevent this pressing and Kimberly when fodder was scarce. While no definite action was taken or suggested to prevent the practice, it was felt that some action would have to be taken eventually.

At 5:30 o'clock, the meeting adjourned to meet again at the call of the chairman.

Ministik

An ideal lesion Summer day shone in blessing on Ministik Hall on Sunday afternoon and on the gathering congregation of worshipers and their friends, brought together from a wide area to keep green the memories of the lads who gave themselves, some to the uttermost, for King and Country in the two Great Wars. Rev. Dr. Chas conducted the service. Miss Lorna Hennessy presided at the piano, and Gordon Ashy for Mrs. Reddish, accompanied by an injured wrist. The flowers below the Honor Roll, fragrant and beautiful in the memory of the men named above them, were the loving tribute of the ladies. The order of service was as follows:

The Doxology; Intercession; Hymn, Onward Christian Soldiers; Psalm, Responsive Reading; Lesson, Reading by Minister; Prayer; Hymn, Reading of Honor Roll; Silence of Two Minutes; Hymn, Abide With Me; Anthem, God Save the King; 23 Psalm, Responsive, by Mrs. A. Forgan and Sermon; Hymn, O God Our Help in Ages Past; Benediction. Then followed a truly enjoyable social half hour when, veterans of the old wars, and their friends, met in neighborly chat spiced here and there with twinkling red banter and happy, kindly laughter. During a confession to any Memorial Service, a consoling the men who died for us would surely favor. So we dispersed.

Uncas

Sergeant L. J. Gerling has left for Calgary for his discharge.

* * *

Miss Regina Kuenzler is attending West Glen High in Edmonton.

* * *

Diane School has had another stroke of good luck. Miss Griffin is still behind the desk.

Monty Autographs Prized Photo

Whom D. C. Coleman, C.M.G., chairman and president of the Canadian Pacific Railway and Mrs. Coleman met during a dinner with Field Marshal Montgomery at Windsor Station, Montreal, before he boarded the special C.P.R. train for Ottawa, the Montgomery party was presented with a picture of their own [illegible] at C. Coy. [illegible] Mr. being presented with the Military Cross by Monty during the Italian campaign [illegible] command of the Lincoln and Welland Regiment. Left to right, Mr. and Mrs. Coleman, Brig. W. J. Home, M.C., 11th Military District No. 4; Viscount Montgomery and an R.C.M.P. constable.

Service Club Holds Regular Meeting Wed.

A meeting of the Fort Community Service Club was held in the Community Hall, Wednesday evening. The meeting was not large due mostly to the farmer members harvesting.

The minutes of the last regular meeting were read and adopted.

Letters were read by the secretary from the secretary of the various committees making them to report on the Community Hall Dance. Two members from the Service Club to act as committee to form Junior Hall, Girls' and Senior Clubs. The secretary stated that only ten replies had been received and after a lengthy discussion it was decided to make personal contact with these organizations and have someone appointed as that these clubs could get functioning.

The question of putting the ball park into condition was brought up and it was decided to leave the matter in abeyance until such time as it was ascertained where the new road was going to be. If the new road goes out of the ball park in all probability it would go through the existing ball park and the money, if spent on it, would be wasted.

It was decided that the next meeting be a social evening. Members are to bring their wives and friends. The form of entertainment for the night has not yet been definitely settled, but it is hoped that every members, his wife and friends will come and have a good time.

The meeting adjourned at 10:30.

Honor Grandmothers

A large number attended the regular meeting of the W.I. held Wednesday afternoon in the Union Hall. The meeting was marked by a special occasion, that of grandmothers' day. Fifteen grandmothers were present and each received a bouquet of flowers.

Following the business meeting two readings were given by Mrs. Floyd Baker, "Minuet" and "Granny Came to Our House", which were greatly appreciated.

A guessing contest was held for the grandmothers which was won by Mrs. Chas. Lowe, who received a potted plant.

Mrs. Hiram Staples, on behalf of the grandmothers, thanked the ladies of the W.I. for the pleasant afternoon. A dainty lunch was then served to bring a very enjoyable afternoon to a close.

ARDROSSAN

We are sorry to report that Miss Gussie Klotz is in the University hospital and underwent a serious operation.

Josephburg

Here we are back in the air once more and will continue to broadcast, we hope, for the winter months. The Josephburg has been moved, our program is billed for the same day Tune in if you wish to hear the very latest about Josephburg.

* * *

The said city has grown and since last we were reporting we notice three new business establishments—a Crushing and Feed Mill building; an ever growing saloon and a new oil distributing location. The Josephburg Co-op Coffee Shop recently commenced and are going strong and the Fred Thomas home is resplendent in a new coat of paint.

* * *

Grade XI has shaken the dust of Josephburg from their feet and travels daily to the Fort to educational needs. Mr. Carl Hennig has undertaken to drive the school bus, but to date has been unable to secure any satisfactory veh. 1.

Meanwhile Josephburg school settles down to another year's routine. Miss Dewar will further pursue the mysteries of English and the staff and pre-[illegible] over the Junior Room. The sch. house looks considerably better for its [illegible] and [illegible].

* * *

Socially, the district [illegible] time for a while, harvest operations hold the spot light, but we hear rumors of impending events in Albera. Plevy about it to be the principal, is to be married to Robert Ryar, who is in business in the city. The couple will make their home there.

* * *

We miss the company of Mrs. Lyle (nee Hennig) and her family, who have made our district their headquarters while Mr. Lyle was overseas.

The family, once more united, has located in the Fort, so that, if not with us, they are not far from us.

* * *

Four beginners—Orville Thomas, Audrey Underwood, Carol Frey and Victor Thomas join the school ranks this year. Gordon Thompson, who made his home with the Hiram Mohrs has left and his place can be taken by Stanley Smith.

* * *

The new ration books will be ready for distributing this week and those who are wise will see to it that their application is in before the end. We are no more fond of rationed articles than others but we should like to see laundry soap included until plenty is restored.

* * *

Our poor husband, and we mean none, took a like beating from the

OUT OF THE NORTH

Two events in Northwest Canada—one thoroughly planned, the other purely accidental—have drawn ten CBCA staff members northward.

Emerson North, a Canadian Army Expedition along the Alaska Highway as far north as Manitia Lake is of present making military history and is regarded as important to military circles in Edmonton Month.

CBCA's Ed Bryant is one of the personnel, besides the equipment for speedier CBCA and CBC broadcasts.

A forced landing of an American privately owned plane 60 miles north of Hilton has sent CBCA's special events commentator Hal Tennis to the spot on two occasions. He accompanied the owner pilot in his first attempt. They returned after deciding that a hundred mile hike was a bit too much for the owner. Hal Tennis is the spot on two occasions. He accompanied the owner pilot in his first attempt. They returned after deciding that a hundred mile hike was a bit too much for the owner.

CBCA's Ed Bryant is one of the personnel, besides the equipment for speedier CBCA and CBC broadcasts.

A forced landing of an American privately owned plane 60 miles north of Hilton has sent CBCA's special events commentator Hal Tennis to

Vaccination for Tuberculosis

Vaccine as a preventive of tuberculosis was discussed by T.B. specialists from all points in Canada at the annual meeting in Calgary of the Canadian Tuberculosis Association, September 9, 10 and 11.

A discussion followed a paper by Dr. B. G. Ferguson, medical bacteriologist of the Saskatchewan Anti-Tuberculosis League.

The vaccine is named B.C.G. (Bacille Calmette-Guerin), after the two French doctors who developed it.

Dr. Ferguson described the use of B.C.G. in some Saskatchewan hospitals and sanatoria, where considerable success has attended its use. Great interest was aroused in the United States following Dr. Ferguson's paper at the annual meeting of the National Tuberculosis Association.

The first mass-conducted test of B.C.G. in the United States was among 2,000 American Indians from 1 year old to 20 years old in four Western States and a village of Southeast Alaska. Results indicate that B.C.G. gives definite protection against tuberculosis.

Q. What effects have aspirin tablets upon the body when taken for the purpose of reducing temperature?

A. Aspirin is a general somatic and nerve depressant. It also reduces pain, and, if not taken to excess, will have no apparent ill effect on the body except perhaps th extension of hyperaemia in the stomach. If the temperature is elevated, aspirin will usually lower it, but if not elevated below normal, aspirin, no effect may be noticed.

Q. I am very much interested in the gold cure. Can you tell me something about it?

A. The treatment of tuberculosis by means of sanocrysin or other gold salts has been carried on in various countries. Some say it is a valuable procedure in certain types of cases; others do not have faith in it. It has not been used much in this country.

What is your ambition? To get on in the world or to help the world get on?

ENGAGEMENTS

Mr. and Mrs. Adolph Becker wish to announce the engagement of their daughter Lesille Catherine to Harold Joseph Berg of Edmonton, son of the late Mr. and Mrs. Gus Berg. The marriage to take place October 2nd at the Josephburg Reformed Church.

IN MEMORIAM

In loving memory of our darling grandson, Neil E. W. Sherlowe. Who passed away on September 10, 1944.

He little thought when leaving home
He would no more return
That he to death so soon would sleep
And leave us here to mourn.
We do not know what pain he bore
We did not see him die
We only know he passed away
And could not say goodbye.
His is gone but not forgotten
And as drawn another year
In our lonely hours of thinking
Thinks of him are always near.
Days of sadness will come o'er us
Friends may think the wound is healed
But they little know the anguish
That lies within the heart concealed.
Sadly missed by his loving Grandpa and Grandma Sherlowe.

Ask Citizens Support Salvation Army Drive

Residents of Fort Saskatchewan and district are asked to give their financial support to the Salvation Army drive commencing September 22nd.

$2,000,000 is needed by this organization to carry on the work of helping people in the 92 institutions operated by them across Canada.

The following is the committee that will undertake to help them in their drive for funds:

Leonard Browne, Chairman and Treasurer; Dick Harper, Vice Chairman; Ben Knowles, Secretary; Chas. P. Lowe, Mrs. Harry Horton, Mrs. Wesley Aircwell, Mrs. C. Bradshaw and Mrs. R. M. Baron.

Give what you can to the worthy organization that they may help those less fortunate.

Josephburg

Continued from Page One

cannot come within one mile roads were almost impassable. It was some shower. Fronts to date have been light but each morning we rise with fear and trembling to reconnoitre the damage. Only steady rains saved us from the real thing.

Gardens, except on the northern borders of the district where hail was unfortunate, are good. Crops generally prolific and there should be no lack of fresh vegetables. The wild fruit has been excellent both as regards quality and quantity. Housewives have learned that fruit can be canned without any sugar at all.

R E S

Approximately fifty men, mostly farmers, were present in our school-house on Tuesday evening to hear A. R. Mingay of Lamont explain the aims of the farmers in staging their strike. Mr. Wilson Undersheitz occupied the Chair. The meeting generally approved the action of the committee.

Josephburg Inc. of Edmonton submitted an excellent aerial photograph of the Josephburg School Plant. It was decided to purchase a copy to be framed and hung in the school house. A collection was made on the spot and the necessary donations were forthcoming. The firm will submit another of the photograph reduced to postcard size which will be offered for sale to individuals. These will be on view at the school to interesting purchasers in the course of a few days.

Recreation Classes Start October 15

All residents of Fort Saskatchewan, 10 years of age and over, who are interested in joining the Health and Recreation Classes are asked to attend a meeting on Monday, October 7, at 8 p.m. in the basement of the Community Hall.

Mr Dick Magor will be chairman of this meeting, the purpose of which is to enable members for the various classes to be held, and to appoint a social committee.

The classes will get underway on October 15 under the direction of Mr. Henry Lemmens, and Mr. Henry Gammont, who will instruct the members in fundamentals, handling, vaulting and pyramid building. Games will also be played. It is also planned to have a social evening once a month.

These classes, which are free, are under the supervision of the Health and Recreation Branch, Department of Education, and they should prove very popular, and be of great benefit to those who wish to keep fit.

East Edmonton

The September meeting of the Willing Workers Club was held at the hall with 15 members and 1 visitor present. Mrs. Bishop presided over the meeting in the absence of the president, Mrs. Jackman.

Mrs. Mullen was in charge of the serving of a lovely lunch, which was enjoyed by all.

Mrs. Wm. Pritt will be hostess at the October meeting.

R E S

Miss Violet Pritt is in a city hospital. We all wish her a speedy recovery.

R E S

Mr. and Mrs. Lloyd Christie held a farewell party at their home for Mrs. Pritt and her family, who are moving to a farm in the Bremner district.

R E S

Mr. and Mrs. Seebach announced the arrival of a son born August 31.

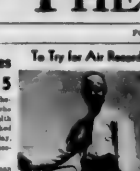
R E S

Mrs. F. Gould (nee Hollie Campbell) and her children Harry and Diane, have returned to their home at Nelson, B.C. after a week's visit at the home of their uncle and aunt, Mr. and Mrs. W. R. Chamberlain.

Radar Controlled Port

The United Kingdom is about to have the first radar-controlled port in the world, the system of thirty-eight radars which handles a large part of the Anglo-American sea traffic, is erecting a radar control station that will be able to plot, at any second, the precise position of every ship within 40 miles. In all the seaways approaching the London pool docks, pilots will be kept constantly informed of the position of every vessel in their vicinity. No matter what the weather, ships will be able to berth and set sail in perfect safety. In this way, millions of dollars will be saved every year since it costs an average cargo vessel anything from $600 to $2,000 when a tide is missed. When the idea is extended to every country, it is expected to speed international traffic considerably for several other great sea ports of the world—Rotterdam, London, San Francisco and Southampton—all suffer from the delays of fog and mist. Captains of ships will be able to "navigate on the radar beam" and dock safely even though they cannot see the water. New York, the busiest port in the world, will probably be able to speed up its night traffic.

To Try for Air Record



Plans for an early attempt to raise the world's air speed record, already held by Britain, are being made by the Air Ministry. A Gloster Meteor Mark IV jet aircraft will try to beat the record over a course between Littlehampton and Worthing, on the Sussex coast. The Royal Air Force man who will make this attempt are Group Captain Edward Donaldson, D.S.O., A.F.C., Flight Lieutenant Neville F. Duke, D.S.O., A.F.C., and Squadron Leader W. A. Waterton, A.F.C.

Photo Shows:- Group Captain Edward M. Donaldson about to climb into the cockpit of a Gloster Meteor Mark IV jet aircraft.

Oil Company to Drill in District

With a crew from the Anglo Canadian Oil Co. in town, speculation is rife as to where, and on how many farms the company are planning to drill.

At present the crew that is in and out of town are erecting a derrick 4 miles east and 4 miles north of the Fort in preparation for the drillers, who we understand will be here at a later date.

Minitik

Last Sunday was a memorable occasion at Minitik, when the members and friends of Roy Chubb's four promising appointments: Hastings Lake, Lennox Victa, South Cooking Lake and Minitik, gathered together to see congregation in a Community Service administered by Rev. Thos. H. Hart, D.D. Over seventy shared the sacrament together.

This service was memorable not only for the large number of worshippers and for the almost equal large number of those who shared together the sacrament of communion with their Lord and Saviour, but also for the reception into His Great Company of eleven children by baptism and nine young people by profession of membership.

The eleven children were:
Carol Rae Dunn, Evelyn Frances Hooper, Karl Robert Johnson, Patsy Anita, Gary Archibald, and Murry Steele Rowland, David Robert and Lawrence Alexander Dewbery, Ronald Earl, Lester Roger and Victor Thomas Wright.

The young people received into membership:
Robt. and Tom Seabolsbee, Marcourie Bell, Jos Davenport, Doris, Margaret and Pete Dunnan, Percy Hooper, George Kleinsbrink and Reeves Reddick.

The benediction—not the bumble bee—certainly did his best or rather bee best—for we understand and make bees comment on their work by the quantity of honey they produce. Many were impressed by without any thought of demanding more pay or better working conditions. It is strange that bees who specialize in organization for production, have not voiced their claim for a higher standard of living or anyway for party prices. A regular boon of conversation proves the envy of such colonies but not once have we heard of bees voicing dissatisfaction with working conditions.

"There not to reason why; There but to do and die." appears to be the Bee code.

Hold Showers for Miss Lois Wilson

On Saturday evening last Mrs. E. McLellan and daughter Kay entertained at a miscellaneous shower in honor of Miss Lois Wilson. The early part of the evening was spent playing Court Whist, the bride-to-be winning first prize.

Miss Wilson was then presented with some lovely gifts for which she thanked her many friends.

A dainty lunch was served by the hostesses to bring a pleasant evening to a close.

On Monday evening of this week, Mrs. C. B. W. Magor also entertained at a miscellaneous shower in honor of Miss Wilson, who is to be married Friday.

A "Hedge-Podge" Contest was very much enjoyed by those present, and Miss Grace Wilson captured the [illegible]

Trevor and Dora Magor, young son and daughter of Mrs. Magor presented the gifts to the bride-to-be who expressed her thanks.

A dainty lunch was served by the hostess assisted by the Misses Shirley Rae, Ada Williston and Grace Wilson.

Josephburg

The heavy showers which visited the city last Saturday night gave the district the pleasure. A little rain, enough to lay the dust, fall, but not enough to hold harvesting seriously back. Most of the grain is cut and the necessary stooking thanks to more plentiful labor, is being completed. The wheat is far than average coarse grains are somewhat spotty. Garden produce, with the exception of corn, is well above average. Cool summers such as the one past are not conducive to good corn. Naturally the crop is wanted but in most cases the cob has neither filled nor ripened the way it should.

"There is no flock however well attended

But what shows change in disposition and again—

"If it's good for the clover and hay

It's sure to be bad for the oats."

And weather that's good for [illegible]

Is sure to be bad for hops".

So we need feel no surprise if one article fails to make good.

R E S

The canning season which comes so large a portion of the farm wife's business, rapidly draws to a close. Imported fruit prices have been reasonable and the quality of the product beyond reproach but the sugar situation seriously cramps the housewife's style. She has learned that fruit can be successfully canned without sugar but the day of rechoosing comes when the cans are opened.

The frozen food lockers have greatly helped a difficult situation, but, boy oh boy, won't it be a glad day when one can order a 100 lb. sack of sugar as easily as ordering that someone, somewhere, somehow, must go short!

It is a moot question whether we, who have passed through this lengthy period of scarcity, will find an appetite for sugar has decreased or whether we shall return with redoubled zest to uncontrolled supplies of sweetness.

The honeybee—not the bumble bee—certainly did his best or rather bee best—for we understand and make bees comment on their work by the quantity of honey they produce. Many were impressed by without any thought of demanding more pay or better working conditions. It is strange that bees who specialize in organization for production, have not voiced their claim for a higher standard of living or anyway for party prices. A regular boon of conversation proves the envy of such colonies but not once have we heard of bees voicing dissatisfaction with working conditions.

"There not to reason why; There but to do and die." appears to be the Bee code.

R E S

The Clover Bar Sub-Local of organized teamsters held its initial meeting on Saturday and decided to leave the appointment of a new executive for the coming year till its next regular monthly meeting, by which time the Convention will be over and teamsters will know who is who.

The Agricultural Service Board

The average weed seed content of most of the grain growing land in the Strathcona Municipality would under actual count be surprisingly high, for the reason we should consider it necessary to groan and destroy a crop of weeds year before seeding.

So much surface tillage as possible should be done in the fall in order to stimulate growth of weed seeds next spring. It is better to do this work in the fall if at all possible as the most spring cultivation tends to dessicate moisture. If however it is not possible to get this work done at the fall it is much better to do it, as early as possible, in the spring and get a weed growth before seeding.

We wish to again remind you that cultivation, on your summer-fallow ground between now and [illegible]

S.C. Study Group Hold First Fall Meet

A large number attended the opening fall meeting of Fort Sask. Credit Study group, held at the home of Mr. G. A. Cranston, on Tuesday evening, September 10 Mr. Cranston presided and after the business discussion period, the chairman called upon Mr. Byker M.L.A. to address the meeting. Mr. Baker gave some highlights on the Bill of Rights This, when put into effect, will solve a great many of our economic problems. A discussion period followed Many of the members present expressed their views on various subjects.

The group was specially privileged in having a guest speaker, Professor A. A. Irving of Victoria College, University of Toronto. Professor Irving expressed his unbiased opinion of Social Credit, and without doubt we found he was very favorably impressed. He is collecting information on the movement, commencing with its earliest stages, for the purpose of publishing a book. The old slogan still rings true. "The eyes of the world are on Alberta".

Silver Fox Best For Small Rancher

W. R. Ritchie, Chief, Fur Grading and Inspection Service, Dominion Department of Agriculture, states that the average Canadian fur rancher is better off breeding for standard full silver foxes than experimenting with new types. So risky is the business of breeding for platinum types of foxes, accompanied as it is by so much uncertainty as to the regularity of markings in the litter, that it is best carried out by large ranchers who can afford the experiment.

The production of the platinum type is too risky for this reason —when a rancher sees his best silver female in breeding for platinum and other mutations, he is likely to get a mixed litter. For every true platinum, there will be several off-grade mixtures which will bring him a price far below that paid for standard silvers. A small rancher breeding his limited number of females for platinum types succeeds in producing only a mixed lot of pelts so irregularly marked that they do not appeal to the buyer. At the same time, the small rancher has lost the use of his females for producing standard silvers by diverting them to produce the rarer types.

So Mr. Ritchie recommends that small ranchers strive to produce standard silver foxes, grading them up to the full silver coloration and density of fur. "Uniformly good standard silvers" he says "are the small rancher's best bet."

The atomic bomb may mean the end, unless we make a new beginning.

Hunters Shoot At Turkey Flock

It is quite evident some shotgun enthusiasts in this district who indulge in shooting anything they see.

On Tuesday afternoon a party of hunters going through Josephburg, shot into a flock of 50 turkeys that were near the road on the farm owned by Mr Carl Hennig They killed two turkeys and wounded another two that had to be killed After shooting the birds they just left them and drove off.

One could understand mistaking a turkey if it was in dense brush, but when out in an open field there is no excuse whatsoever.

It is such incidents as this that creates bad feelings between the hunters and farmers.

Sharp Drop in This Year's Honey Crop

Present estimate of the 1946 honey crop is in the neighborhood of 30,000,000 pounds as against 37,900,000 pounds in 1945. The short crop is due largely to a virtual crop failure in Ontario which is always a are at a loss to understand in view of favorable weather and forage conditions which prevailed throughout the season. The clovers simply did not yield, and many of the larger commercial honey producers of Ontario have had to feed their bees throughout the summer.

Dr. Frank Pierce Jones, specious as it is, to the tune.

Electric light, supplied by Mr. Gillen and good music by the Kodaks and Pateman orchestra, ensured the success of the evening. The Cooking Lake Cafe supplied a timely lunch.

The net proceeds amounted to $16.05 and the thanks of the community are here expressed to the Bakers for the use of their bars.

West hanover weather rather than drought is the bane of northern European farmers. This season Britain is suffering disastrous losses from continuous rains. Last Sunday prayers were offered for a success from rain.

Around the Town

Dr and Mrs. Henry returned home Sunday after a two-week vacation at Jasper and Banff.

R E S

Mr Jack McLellan is spending his vacation with his parents.

R E S

Mr and Mrs. Ken Melville Sr. will have as their guests, Mr. and Mrs. George Harvey of Santa Paula, California.

Roger and Wesa, sons of Mr. and Mrs. Harvey will fly here in the early part of October to join their parents. The boys will then proceed to the mountains to hunt big game.

R E S

Mr. and Mrs. Henry Dennis have as their guests their daughter-in-law and grandson, Mrs. Eva Dennis and Ricky of Loch Walk, Edinburgh, Scotland. Mrs. Dennis and son landed at Halifax on September 11 and arrived here in a Ford.

R E S

Mr. and Mrs. Wm. Barnes Sr. guests of their son and daughter-in-law, Mr. and Mrs. W. W. Barnes, left Monday for their home in Victoria, B.C.

R E S

Lieut. Edith Pettis, sister to Mrs. W. W. Barnes, who has been holidaying with Rev. and Mrs. Bunton, left Monday evening for Toronto to report back for duty.

R E S

Members of St. George's W.A. journeyed to Edmonton Tuesday to visit Elizbeth House, the home for elderly ladies. A very enjoyable afternoon was spent inspecting the home, after which Sister Annetin served tea.

R E S

Susan Ann, baby daughter of Rev. and Mrs. Bunton was baptized in St. George's Church last Sunday morning Rev. W. J. Jones of Victoria, B.C. read the service. Rev. Jones left Monday for Saskatchewan to attend the Synod.

Cooking Lake

SOUTH COOKING LAKE

The large Belora bury was kindly placed at the service of the Franklin community recently, when a dance was held in aid of the fund toward the erection of the new hall. Dancers gathered from near and far and filled the barn, spacious as it is, to the limit.

Electric light, supplied by Mr. Gillen and good music by the Kodaks and Pateman orchestra, ensured the success of the evening. The Cooking Lake Cafe supplied a timely lunch.

The net proceeds amounted to $16.05 and the thanks of the community are here expressed to the Bakers for the use of their bars.

New Car Designed For Disabled Veterans

A [illegible] motor car, specially constructed as a means of locomoting for disabled ex-service men and crippled persons, has been shown in London. The car is constructed as a single-seater and is a semi-saloon, enabling the occupants to be warmed in accordance with the driver's disabilities, either by fuel gas, by hand, or by a combination of both. It should have a cruising speed of 35 miles per hour with a gasoline consumption of 45 miles per gallon. The chassis is so narrow that it can enter a narrow gateway 2 ft. 6in. in breadth and can be garaged in the small-est shed. The selling price of the car is $700.

Facts About Fertilizer

None of the fertilizers commonly used in this province can harm the soil. Fertilizers are scientific preparations of plant food that are added to the soil to make up any [illegible] deficiencies. Continuous cropping depletes the soil of the elements required for plant food. The use of chemical fertilizers is one very important method of replacement thus.

Some people have the idea that if they start to use fertilizers, crop products will suffer unless the fertilizer is applied every year and when there is wrong. Fertilizers encourage increases in yield until they are cropped out of the soil— and from then on the crop will be no worse than if fertilizer had not been applied. Yields do not fall off because fertilizer practice has been stopped but because the plant food has been used up and it is time to add more. The idea then is to feed your soils like you feed your livestock —when they need it.

Further informa I on the use of fertilizers in Alberta may be found on the circular of the name "Suggestions for the use of Fertilizers in Alberta." This circular, prepared by the Provincial Advisory Fertilizer Committee, can be had free of charge from the Alberta Department of Agriculture.

Horses Still Useful

Professor Grant McEwen, well-known prairie agricultural authority, says the horse will continue to be useful in Canadian agriculture, and farmers should keep a team or two of good horses to do work which they can do more ch eply than by tractors. The best mares on the farms should be kept breeding as big, quiet, y ung horses will shortly command high prices. Professor McEwen thinks the ultimate practice of raising horses in large bunches on the open range should not be encouraged. It is the sturdy farm-raised colt which is in good demand and readily finds a good market.

SEND IN THE NEWS!

What About Markets for Farmers?

Recently concluded agreements with Britain have assured markets for several years for a variety of Canadian farm produce. The wheat farmers, as well as producers of meat, eggs, poultry, dairy products and several other commodities have been relieved of any uncertainty in connection with their future.

But what will happen after 1949 or 1950? That depends in part on the outcome of reopening world trade talks. In an article entitled "Agriculture and World Trade Negotiations", published in the August, 1946 issue of the Economic Annalist, Dr. L. Lorenzo draws a picture of the intricacies of post-war trade relations as they affect post-transition farm produce markets.

Before the war, the United Kingdom and Germany absorbed the bulk of the world's bread-ch product exports in addition to large quantities of other agricultural commodities. The percentage of world imports taken by these two countries (with Britain's share shown in parentheses), were as follows:

Beef, 70 (33); Butter, 59 (30); Cheese, 63 (36); Pork and bacon, 67 (79); Eggs, 52 (37); Wheat and flour, 41 (22).

Other nations importing large quantities of foodstuffs were Belgium, Holland, France and other Western European countries. Before the war, all these nations derived large incomes in foreign currencies from their investments abroad, which enabled them to fill the gap between export earnings and much higher expenditures for imports. During the five years 1934-38, the European nations imported goods valued at 7,525 million gold dollars, while merchandise exports totalled only 5 000 million gold dollars. The 1,725 million gold dollars "excess" of imports over exports was largely covered out of investment income. From the 1,725 million total, the United Kingdom accounted for 1,311 million. France for about 300 million, and the Netherlands, Italy, Belgium and some other countries for the balance.

All these countries have now lost, or are losing, most of their foreign investments. As a consequence they must increase their exports and decrease imports. The question is, however, where to find such a for those exports.

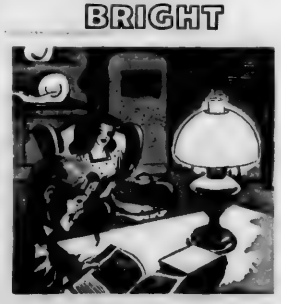
Present creditor nations, the United States and Canada are large, rich countries that need little in the way of imports. At the same time, they have also made plans to increase their exports to an unprecedented world, several times the pre-war levels in some cases. Unless they can do this there will be unemployment. The wheels of industry must turn at full speed to produce large individual increases above before the war, if heavy debts incurred during the war and an amount of current social legislation are not to result in taxes so heavy that living standards will suffer seriously.

How to find such a for the additional goods turned out, in a world where every nation seeks to export and most nations must watch what they spend abroad, is the 64 dollar question that the forthcoming International Trade Conference will have to answer.

The U.S. department of agriculture is now planning to restrict potato production next year. It has announced that its 1947 potato-price support program will be extended only to farmers who plant within the acreage restrictions

this WINTER keep your home

LIGHT and BRIGHT



with Esso KEROSENE

All kerosenes are not alike! Esso Kerosene throws a whiter, brighter light . . . burns cleaner, too . . . helps keep lamp chimneys clear.

In lamps, lanterns, stoves, refrigerators and all home and farm appliances which use kerosene, you'll find that Esso Kerosene gives noticeably better and more economical performance. It pays to ask for Esso Kerosene by name!

BLUE PRINT for a NEST EGG

Let's talk a minute about savings . . . your savings. Chances are they are in a healthier state right now than for a long time. All through the war you made it a point of hanging on to buy—and hold—all the Victory Bonds you could. Now they amount to a surprisingly large sum.

In short, you proved you could save. And you discovered, perhaps for the first time, what a nice feeling of extra security and independence could be yours with a "nest egg" of savings safely tucked away.

Now there's no war to serve as a spur but you're becoming less particular about putting aside a set sum every month! Are you losing the saving habit? Remember . . . the money you "save for yourself" is the most important part of the money you earn.

In please consider this simply a friendly reminder that savings do have us be planned; that sticking to the plan sometimes means doing without an occasional unbudgeted "want", and that making regular deposits in a Royal Bank Savings Account is still a good way to get somewhere with your personal finances . . .

and with your ambitions for yourself and your family.

The Hunter and the Farmer

The opening of the shooting season once more brings to light the indiscriminate use of firearms and the damage caused by would-be hunters. "No Shooting" signs are becoming more prominent on the fences of farms due, in no small measure, to those would-be hunters who have no respect for the farmers property. They trample down his grain and pull his stooks all over the field with no thought of what it costs the farmer.

The real sportsman has more consideration, he invariably asks the farmer's permission to shoot on his land, if granted, he respects the farmers property for the privilege of shooting there. These real sportsmen should not be penalized for the action of hoodlums.

Farmers are just as good sportsmen as anybody, they love to shoot and hunt themselves, and would grant permission to shoot on their farm if they could depend on the hunters not to destroy their property. But when they see the damage caused by hoodlums, who neither care nor ask permission, they are forced to erect signs to protect themselves.

World of Wheat

By H. C. L. STRANGE
Director "The Crop Testing Plan"

A NEW WHEAT NEEDED

I have just returned from a trip throughout the West, and from what I saw and heard there were many fields of Garnet in Northern Alberta which were completely destroyed quite early, except the front and so gave a clear bright kernel and a high yield, whereas other varieties, which were all later in maturing, were caught by the frost of July 24th and so lost grade and yield.

Garnet, however, has not as high all-round milling and baking qualities as has Marquis, the standard of quality, so it cannot be placed in the top Northern grades. It is obvious, therefore, that thousands of farmers would be benefitted if our plant breeders could produce a new variety which would be as early maturing as Garnet and with as high milling and baking qualities as Marquis.

Dr. L. H. Newman, the Dominion Cerealist, with his associate Plant Breeders and Plant Pathologists, have for long been working to produce just such a valuable early variety, together with new and improved strains of oats, barley and flax. Let us hope that continue will soon crown their worthy efforts.

What a great debt, I thought to myself, our farmers and all of us owe to these quiet, modest and highly talented plant breeders, plant pathologists and other scientific agricultural

WHERE TO INTERVENE IN THE WORLD'S SURPLUSES

Turkey has concluded contracts for the export of 150,000 tons of wheat—The U.S. will rush 234,000 bushels of feed grains to India this month to avert a threat of famine —Iraq has obtained a good barley crop and the British Ministry is negotiating for the surplus of 200,000 tons.

The U.S. export goal has been increased from 350 million bushels of wheat and flour to a probable 400 million bushels of all grains and grain products—Argentina and Ecuador have signed an agreement by which Argentina will furnish 10,000 tons of wheat and quantities of livestock at fixed prices.

We won't get a new world made to order. It must be [illegible]

Letters to the Editor

Sir:

In the past few weeks much has been said for, and against the action taken by the membership of the Alberta Farmers' Union in entering a non-delivery strike of farm produce. Apparently, from material appearing in local papers throughout the province, it would appear there has been some misunderstanding regarding the facts leading up to strike action being taken, and the demands made to the Federal Cabinet in a brief presented at Ottawa August 29, 1946.

The brief, as presented, if carefully analyzed, is self-explanatory The principle clauses in the brief asks for the establishment of a fact-finding board to determine Parity Prices, personnel of such board to be appointed equally by farmers' direct membership organizations, labor, business and government. The establishment of such a fact-finding board has been approved by so many groups, not connected with agriculture, that their voluntary and unsolicited support has resulted in the appointment of strike action misconstruing this support and publishing state ments to the effect that the policies of the A.F.U. are being directed by various political parties and labor unions. The Board of Directors of the A.F.U. take this opportunity to deny such statements. All policies of Alberta Farmers' Union are formulated by the members of the Union themselves and the Board is elected by the members to carry out their mandates.

The officers of the Alberta Farmers' Union are directed toward the establishment of price levels for Agricultural products in relation to prices of all other commodities and to prevent restricted production resulting from a spiral of increasing prices. Our main objective is security for Agriculture.

Agriculture, being the basic industry, is the foundation of prosperity for all other groups in Western Canada. If agriculture [illegible] we therefore appeal to the [illegible] and [illegible] to [illegible] the [illegible] their sympathy and support. We [illegible] the effect Security for agriculture will have no immediate bearing on consumer production, and will prevent a other depressions such as we are [illegible] in the [illegible] We [illegible] the [illegible] farmer, is to be [illegible] as a whole.

Propaganda has been published and broadcast in an effort to create a rift between farmers and city workers, and every answer of the farmers themselves it has been charged that Labor Unions are subsidizing production. In striking action and [illegible] implied that, in the case of organized labor is responsible for the shortage of farm machinery, which is [illegible] [illegible]

Labor and farmer do not gain strike for the purpose of [illegible] ing production. Such a [illegible] labor, as last winter's [illegible] better an alternative to [illegible] of living. In the case of the farmer strike after passing resolutions [illegible] begging for many [illegible] remedial measures is a very [illegible] step. The Alberta Farmers' Union, as a last resort, [illegible] strike action. A complete study of the position of agriculture and the demands made by the Alberta Farmers' Union in the brief presented to Ottawa, will greatly clarify the situation and prove the justifica tion of such action.

R. J. Scallion
Secretary,
Alberta Farmers' Union

The present beef contract between Britain and the United King dom [illegible] December of 1946 and the British authorities [illegible] a desire to take our surplus in 1947 and possibly 1948. Contract negotiations are now under way

British Birth-Rate Up

A [illegible] the birth-rate and a fall in the death rate are a cause [illegible] upon as a favorable [illegible] Journal progress. The United Kingdom [illegible] at a rate, in [illegible] quarter of 1946, no less than 181 445 births were registered in Britain, which represent a birth rate of 17.2 per thousand people, as compared to 17.1 for the first quarter of 1946, the [illegible] age for the first quarter was 16.9

Against this satisfactory figure, deaths totalled 156,159 or a rate of 14.8 per thousand population, which in the five years period mentioned above the average 15.7 was recorded. In the second quarter [illegible] 156 [illegible] 16 [illegible] 14.8 [illegible] 15.7 [illegible] 15.6 [illegible] 15.7 [illegible] 15.6 [illegible] 15.7 [illegible] 15.6

After a Year of Victory

V-J Day! Some of us who lived through it will ever forget it. We know it was coming but could hardly believe it when it came—the relief was so great.

But how do you feel now after a year of victory? Secure, happy about the future?

A realistic picture of the world we're living in shows us a young crossroads of strikes and crime waves at home. Abroad—dwindling political unrest, violence civil war and discord between the great powers. Behind it all is the ruthless march of tyrannous force with a purpose. Its conquests the world will never see it. Nothing stops it, nations your city your street. This threat upon the screen the ever-present shadow of a new atomic war.

A statesman said recently "Unless we win the war of ideas we shall have to fight another war of arms." He was right. But one hope is to prevent this fact and act accordingly. Free things are needed to know how to live and fight for our great ideas, and how to remember, understand and fight against the idea of the enemy. "We," said William Penn, "must be governed by God or they will be ruled by tyrants." The is the heart of the war of ideas. Men

Canada's Horses to Help Rebuild Europe

Sturdy Canadian draft horses are being purchased and shipped by the thousands of UNRRA for service in war-devastated Europe. The "receiving centre" is Eastern Public Cattle Market at Montreal, where already more than 2,500 have been cared for. Eventually, 18,000 will be shipped to European countries. After their long train trip by Canadian Pacific Railway from Western Canada, horses are herded into large barns (upper left) where they are fed, watered and groomed. A horse auctioneer (upper left) watches Dr Charles E. Taylor, Cookshire, Quebec examine a fine specimen to determine its weight, age and condition. Men at the table register horses if declared fit for overseas duty. Several inoculations for each animal are part of the precautions to prevent sickness in transit or in Europe and in better left, Dr Romeo Bernier, Montreal, inoculating veterinarian, applies the

An After the inoculation a workman hands the horse's left shoulder with the letters UC, which signifies UNRRA-Canada.

STRIKE ACTION BRIEF UNITED FARMERS OF ALBERTA FARMERS' UNION

TOGETHER WITH UNITED FARMERS OF CANADA (SASKATCHEWAN SECTION) Presented to DOMINION CABINET IN AUGUST, 1946

This brief is being presented by the Alberta Farmers' Union and the United Farmers of Canada (Saskatchewan Section) representing a total of 102,000 members.

This delegation has come to Ottawa with a very definite purpose in mind. We represent the farm organizations which we represent, have worked to improve and feel that we are entitled to speak for the general rural portions of our population.

We realize numerous problems confront the National Government at this time, but we farmers feel that many according to latest available figures. Agriculture now receives about 8% of the gross income, while it is receiving far more than one-third of the people of Canada are employed in Agriculture.

During the war Canadian farm men submitted to deliberately ridiculous, to assist the National war effort, but they will no longer tolerate such discrimination. The dissatisfaction engendered by this situation is seriously affecting production in the West at the present time.

We consider the announced desire of the Food and Agriculture Organization (FAO) to establish a definite measure of stability for the Agricultural Industry in order that a maximum production of high quality food may at all times be available, to be of the utmost importance to us at this time.

It is the considered opinion of the Western Canadian Farm Organizations that to maintain a high rate of a normal production it is absolutely essential that farmers be paid a price for their products that will provide an equitable standard of living.

We maintain that any price paid for farm products which will provide efficient producers with a standard of living equivalent to that enjoyed by other sections of the community, must of necessity result in increased production and consumption. Lower relative intake and consumption would result. Keeping in mind the probable future need for some means of stabilizing and maintaining consumption.

With a view to remedying the conditions outlined in this presentation we are submitting for your consideration, the following definite requests and urge immediate action on same:

1. The immediate establishment of a permanent fact-finding board for Agriculture, Parity Prices, personnel of such board to be appointed equally by Farmers' direct membership organizations, Labor, Business and Government.
2. Prices for all farm products to be set on a basis of Parity as soon as such basis can be established by the fact-finding board such prices to be equal to parity at any time.
3. Farm Prices until Parity is established
   (a) Floor prices for wheat $1.56 per bushel basis No. 1 Fort William for wheat produced.
   (b) Other farm products to be maintained at present levels.
   (c) Prices of all goods which affect farm production costs to be reinstated as of September 10, 1945.
   (d) Abolition of the present Domestic Price system of wheat whereby the Canadian public is subsidized at the expense of the wheat producer.
   (e) Participation Certificates for each year's wheat crop to be added separately as soon as the crop is disposed of.
4. Revision of the system of bonuses on feed grains whereby the livestock feeder who raises his own feed grain will also receive the full benefit of the bonuses.
5. Removal of the 2 cent Federal Gasoline War Emergency Tax.
6. Insurance Tax have to be assumed or to cover/pay with brief presented by Canadian Federation of Agriculture.
7. Co-op Institutions should not be overlooked in the same category as Joint Stock Companies and should therefore not be subject as any corporation or income tax.
8. A revision of the freight rate policy which discriminates against Western Canada.
9. The future per-diem use and retention of the Port of Churchill.
10. Immediate abolition of the Winnipeg Grain Exchange. Respectfully Submitted.

Overcrowding of Laying Quarters

Early hatched and early maturing pullets are now being moved to the laying quarters and sometimes requests are arriving at the office of the Poultry Commissioner about various troubles developing with the pullets. The Poultry Commissioner, C. W. Treves, says that practically all these troubles are due to overcrowding and to faulty management and feeding.

Many farmers buy more chicks and rear more pullets than they have laying house accommodation for. Birds of the heavier breeds such as Barred Rocks and Hampshires require four square feet of floor space per bird while those of the lighter breeds such as Leg-

horn require three and one half square feet. In pens holding 200 birds or more this space may be reduced by one quarter or one half square foot per bird.

Overcrowding of pullets causes a slower growth and retardation, loss of body development, and consequent loss of vitality which tends to bring on colds and roup. This all adds up to poorer egg production and loss of egg products.

Remember that the pullets have been used to lots of fresh air and room for range. In laying pens it is proper to install and if weather should be wet, open to allow as much fresh air as possible. Give a liberal amount of green feed each day. This should have a hopper of developing mash before them until they are layers at least 20 percent. Then, gradually change a laying or breeders mash.

Good quality whole oats should be available to the birds at all times.

If you have too many pullets for the laying are some I can remember that you will get more eggs and larger eggs, with less mortality, from 150 pullets in proper quarters than from 200 overcrowded pullets in the same quarters. Usually there is a demand at good prices for your surplus pullets if they are well developed birds. A small advertisement in your local paper helps to sell the surplus.

Remember that overcrowding of the pullets in laying quarters is possibly the worst feature of the poultry business that we have to contend with each fall.

Hard cost are often the result of soft living, and great loss of hard times.

The Recipe Corner

Fall [illegible] makes the homemaker think of planning meals a much more simple affair. However, during the winter when this variety is just a pleasant memory, the fruit cellar can supply many a meal of vegetables or jam to help dress up the winter meals.

Apple sauce is a versatile addition to any fruit cellar. It can be used as an accompaniment to meat, as a base for a pudding or in a pie. It all is a way, at the present time, of conserving those windfalls from the orchard which [illegible] the season. Sauces [illegible] the National Council of Canadian Women suggest and then sweetened later when it is used. In this way, it will not make demands on the sugar supply at a time when sugar is wanted for [illegible] other fruits.

The [illegible] consists of the following Agriculture Consumer Section recommend the following directions for canning unsweetened applesauce, making a plum jam, and for immediate enjoyment, they include a recipe for Plum Roly Poly.

* * *

CANNED APPLESAUCE

Make applesauce in the usual way, but omit the sugar. Pack hot into clean, hot sealers or plain tin cans. Leave a headspace of ¼ inch. Adjust rubber rings and glass tops on screw or spring top sealers, and partially seal. Completely seal tin cans. Process in the boiling water bath for 15 minutes for pints, quarts and twenty and twenty-eight ounce cans.

* * *

PLUM JAM

(Using plums other than Damsons)

5 cups pitted, quartered plums
½ cup water
4½ cups sugar

Place prepared plums and water in kettle. Simmer uncovered, 10 minutes. Add sugar and boil 8 to 9 minutes, stirring frequently to prevent sticking. Pour into hot sterilized jars, seal slightly and wax. Yield 40-42 6½ cups. To test consistency of jam, remove kettle from the heat, place a spoonful on a chilled saucer and cool quickly. If the jam does not set to the proper thickness, return kettle to heat and continue to boil a minute or two longer and repeat test.

* * *

PLUM ROLY POLY

3 cups halved or quartered, pitted, sweet plums
½ to 2 3 cup sugar
½ teaspoon salt
1 1 3 cups boiling water

Wash plums and cut in halves or quarters, remove pits. Add boiling water to sugar and salt, bring to boiling point. Add plums and stir. Cook 5 minutes. Drain off syrup and measure.

1½ cups sifted all-purpose flour
3 teaspoons baking powder
¾ teaspoons salt
2 tablespoons sugar
3 tablespoons mild-flavored fat
¾ cup milk

Mix and sift dry ingredients. Cut in fat, using two knives or a pastry blender, until the mixture resembles fine bread crumbs. Add milk to make a soft dough. Turn out on a light floured board and roll to a rectangle ¼ inch thick. Spread plums over dough and roll like a jelly roll. Place in a greased round tin and pour ¾ cups of the plum syrup over the roll. Bake in a hot oven, 425 degrees F, for 25 to 30 minutes. Serve hot with the following sauce.

1 ¼ cups syrup from plums
2½ teaspoons cornstarch
OR 5 teaspoons flour
2 tablespoons cold water

Q. What is the value of sanatorium treatment as compared to home treatment?

A. The sanatorium offers a place for carrying out a definite routine of treatment under the best circumstances. i.e., free from the responsibility of home life, freedom from contacts, the air which usually occur in the cities, the example of other people following the routine treatment and a community life which stimulates the patients mentally. Constant medical and nursing supervision are an additional safeguard and the patient receives an education in the treatment of his disease that he can duplicate nowhere else. Then, too, with the patient in a sanatorium, the danger of infecting others in the household is removed. A change in environment may be followed by a more rapid gain in weight. A preliminary stay in a sanatorium is always advisable, to learn methods of treatment. If this has been acquired, treatment at home may be successfully carried out in some instances.

Iron for Pigs

In view of the fact that the question of how best to administer iron to young pigs as a preventive of anemia is still discussed by several hog raisers, the result of experiments carried out by the Animal Husbandry Division, Experimental Farm Service, for the control of this disease should prove helpful. In experiments dealing with the control of anemia, four treatments were carried out with three litters each. Reduced iron, powdered ferrous sulphate, ferrous sulphate solution and ferrous and ferrous sulphate solution painted on the sow's udders were the treatments studied. The weights of the pigs, the mortality from birth to weaning, and tests of the hemoglobin content of the blood were the facts collected. A check lot of pigs received no treatment.

Among the various treatments, the results of the experiment indicated that ferrous sulphate solution on sods was the best. Next in order, and to that a close second, was powdered ferrous sulphate. Of lesser value, as indicated by the results of the test, were reduced iron given on the tongue, and ferrous sulphate painted on the sow's udders.

Possibly, suggests the Division, one explanation for the good results with ferrous sulphate solution on sods was that the pigs had a supply of iron continually available to them. From the experimental point of view, it is interesting that the lot of pigs given sods was superior to the others and it is also a valuable finding from the practical standpoint that as simple a treatment for anemia as ferrous sulphate solution on sods should prove a good preventive treatment for anemia in young pigs.

New Alberta Road Contracts Awarded

At the present rate of progress the provincial road program for the current season will be completed before freezing, according to Commissioner Hugh Allen of the Motor Association has announced to the public works department.

Traffic is moving over the main highway between Calgary and Edmonton, all detour having been dispensed with. Hard surfacing on the Dominion Tuberculosis Association has been extended to Dishbury.

A contract has been awarded for the construction of a new link Stettler highway, while the gravelling of the Calgary-Edmonton highway also is under way. This is expected to be finished this season.

Good progress is reported on the completion of the grading and graveling of the High Prairie-Grande Prairie highway. Reports also reveal that steady progress is being made on the new highway from Grimshaw to Great Slave Lake in the north country.

Farmers Asked to File Barley Forms

The National Barley Control Committee has announced that farmers who have not already done so are required to file forms with the Canadian Wheat Board before they can deliver barley for sale. The forms are being used as applications to establish a ratio with the quantity of barley they have to sell.

The bottom portion of the forms will be returned to the farmers who have filled them out. Farmers who have [illegible] entitled to the National Barley Control Committee, 200 Grain Exchange, Winnipeg, not later than November 15.

Farmers who did file their forms before the September 15 deadline will receive their delivery permits as soon as possible, it is stated. The committee says that it will be impossible to make deliveries until the forms are returned to farmers.

From August 1st to September 8th of this year deliveries of wheat to the primary elevators totalled 17.7 million bushels. Visible stocks of Canadian wheat on September 8th totalled 87.5 million bushels.

There are three copies of the forms—one white, one pink, the other buff. The white copy must be sent to the grain committee at Winnipeg. The pink copy must be given to the inspector when he comes to sample and inspect the grain. The buff copy is for the farmer's own display sample. The farmer keeps the blue copy himself.

Follow these instructions carefully, the committee asks, bearing in mind what is said here applies only to cases where the contest barley is being held for seed. And if possible, get the white copy of the forms in the contact committee as soon as possible even though up to November 15 is allowed for mailing it.

From August 1st to September 8th of this year deliveries of wheat to the primary elevators totalled 17.7 million bushels. Visible stocks of Canadian wheat on September 8th totalled 87.5 million bushels.

Be sure that the card is filled in completely before mailing, and that your name and address are printed.
DELAYED APPLICATIONS will have to be cleared through the main office of the Ration Administration—and your new book will be mailed you as soon as possible.
WAR PRICES AND TRADE BOARD

He can't always wait for his money...

The time you work for may operate a large plant with costly machinery, and still need ready cash. That's because months often pass before its products are finished, and sold, and paid for. Meanwhile, it has a payroll to meet every Friday...
BANK CREDIT BRIDGES THE FINANCIAL GAP
Every day, business firms make use of bank loans to keep men working, machines running, goods flowing. This bank credit may be used to meet continuing expenses while goods are being processed; to build up stocks of raw materials; to purchase component parts. As finished goods reach the market and payment is received, the loan is repaid.
Enterprising farmers, fishermen, merchants—all make similar use of bank credit to meet their short-term financial needs. Thus your bank helps Canadians maintain steady operations—to take advantage of favorable opportunities both at home and abroad—to grow. And this, in turn means more work, more goods, a higher standard of living for you and for every Canadian.

Canadian Bacon At Assured Prices

Under the British food agreement of Danish bacon will be 5 shillings tuppence per 112 pounds above that of Canadian bacon until September 30, 1947, this difference to be less than it was following the first World War states the Meat Board. In 1921, Danish bacon averaged 17 [illegible] above Canadian quality export to Britain, the estimated 1946 Danish supply available for export is 40 per cent [illegible] Britain will probably be less than one-half Denmark's pre-war [illegible]

The Canadian contract provides a relatively steady [illegible] for the contract period [illegible] mean a high price for a short time. Discussing a new [illegible] With no assured price and a guaranteed market for all reasonable surplus, Danish farmers can plan a production program with a greater degree of confidence than ever before, states the Board [illegible]

Synthetic Timber From Heather

Britain is not one of the big [illegible] countries but even a small supply surplus member to others. A large proportion of Britain's timber requirements must be imported; but science is making progress. The Scottish Cooperative Wholesale Society has been conducting experiments with a tough fibrous mass known as "Heather wood", a synthetic timber, which not only has all the outward appearances of real timber, but all the natural properties. The material has its leaves, roots, earth and other impurities, removed in a sandblast, and the remaining fibrous mass is treated with synthetic resin, and then compressed into hard, flat blocks which must be described as synthetic timber. It is reported that this "Heatherwood" will play an important part as flooring and in the manufacture of furniture.

Harvesting Legume Seed

Knowledge of harvesting methods for legume seeds has not kept pace with the rapid increase in production of these crops. To take up the slack the Alberta Department of Agriculture surveyed the situation in 1945 and made some detailed studies. On the basis of this work and practical farm experience certain suggestions may now be made.

A number of combines were tested and it was found that in [illegible] combines [illegible] the difficulties encountered could be overcome with adjustments to the machines or with recommendations with regard to attachments and adjustments were followed.

Further studies are necessary but tentative recommendations for the different crops are as follows:

Alfalfa should be harvested with the binder, tied in small sheaves, stooked in small stooks and threshed from the stook or stack with a properly equipped and adjusted threshing machine. As all-sweather method is to straight combine. Some pods are likely to break off but the loss is not thought to be serious.

Sweet Clover should be cut with a binder and threshed with a threshing machine in the same manner as recommended for alfalfa.

Alsweede Clover can be harvested [illegible]

Food Hopper Waste

Waste of feed from hoppers is the most indefensible loss, as pond fly management. Both the height of the feed hopper from the floor and the height of the feed hopper itself have a great bearing on the waste of feed. Low hoppers prevent waste of feed because the birds have to stoop down to get the feed and also can't scratch it about. Also what is spilled does not [illegible] the hopper

High hoppers encourage waste because the birds, especially turkeys, tend to play with the feed. They pull it out and [illegible] Also the feed is exposed [illegible] higher than necessary [illegible] the lip of the hopper. The longer the feed is kept in the trough, the less tendency there is for the birds to scatter it all over the place.

The principal men who stand out finally are those who stand out for principle

WEDNESDAY, SEPT. 15, 1946

Your Place at The Peace Table

Several men with different ideas of life sat down to draw up an agreement. One had gone to Sunday school as a boy but grew up to believe that God helps those who help themselves. "It is profitable?" became his standard.

Another, as a boy, had gone to very select schools. He grew up believing in being a gentleman. "Is it ethical?" became his standard.

A third had no baptism. He grew up all of a sudden in the school of hard knocks and called himself "realistic". He believed that his needs justified any means. Political expediency became his standard.

These three men, naturally, could not agree. They had no common standard.

Something very like this prevails at the Paris Peace Conference. The nations meeting there have no common ideology. Some have no ideology at all. Their judgment of what is right in international affairs is warped by their ideas of what we live for.

But what can anybody do about it? The ordinary man has no place at the peace table. Or has he? Suppose you decide what you are really living for yourself. Profits? Pride of race or breeding? Gaining your own ends? Or to set up moral order in the world as God intended?

Then run your life, your home, your business and your politics that way. If you make a great success of it, others may still follow. Your whole nation very likely will in time adopt your ideology. Other nations will follow suit. Then they can sit down together and agree. And peace will finally be possible.

Feeding Calves

Skim-milk is the standard feed for young calves that are being fed from the pail, but one disadvantage is the low fat content of the milk. In studying this problem, the Dominion Experimental Farm in Brandon, Manitoba, has evolved a home mixed calf meal which has recently demonstrated its value.

The meal mixture is made up of two parts of *Cleaf* (a dried alfalfa meal chop, two parts of finely ailed barley chop, and one part of flaxseed. The flaxseed is prepared for feeding by adding cooking water to the meal a few hours before being fed. The mixture when used forms a jelly, and it is in this form that it is added to the milk. Two heaping tablespoonfuls of the dry meal is fed alternately given to young calves. The amount is gradually increased until about one-half pound daily is being consumed. The milk and meal mixtures are given in three feeds daily at as near blood temperature as possible. Overloading the calf's stomach is a common cause of scours. In addition to the calf meal mixture, young calves may be satisfied with a mixture of whole oats and bran and they are supplied with good quality hay as soon as they will eat it. Access to a supply of clean drinking water is also important.

IN MEMORIAM
In loving memory of our dear Son and Brother, R51686 Pte. Raymond Whitton who gave his life for his country while fighting in Italy, September 20, 1944.
What would we give to clasp his hand
His happy face to see
To hear his voice and see his smile
That meant so much to us.
Always remembered by Dad, Bob and Jean.

In loving memory of Sigmund Krebs who passed away on September 20th, 1944.
Two years have passed dear father,
Since you were called away,
How well we do remember
That sad and weary day.
You suffered much, yet uncomplained,
We watched you day by day.
We cried and prayed that your dear life
Would not be taken away.
Sadly missed by your loving wife and children.

Fort Couple Married in First United Church Here Friday Evening

The First United Church, Fort Saskatchewan, was the scene of a very pretty wedding, Friday evening, September 20th, when Dorothy Lois, elf, eld daughter of Mr. and Mrs Roy Wilson, became the bride of Mr. Robert Omer Willsteen, son of Mr. and Mrs. A. A. Willsteen, Fort Saskatchewan. Rev. W. D. [illegible] officiated.

The church was [illegible] tastefully decorated with pink and white streamers, pink and white sweet peas and other pastel hued [illegible]

Given in marriage by her father, the bride was her gown in a slipper length gown of white satin, featuring a bolero with sweet-heart neckline and long sleeves which tapered to a lily point over the wrists. The full skirt terminated into a light train. Her embroidered floor length veil was held in place by clusters of orange blossoms at the sides. A string of pearls, gift from the groom, was her only ornament. She carried a bouquet of red roses.

Miss Grace Wilson, sister of the bride, was bridesmaid. She was gowned in turquoise blue moire taffeta, fashioned with fitted bodice, short sleeves and full skirt. She wore tiny sheaves of white flowers in her hair and her mitts were to tone with her gown. Her bouquet was of pink and white [illegible]

Best man was Mr. Rud Willsteen, brother of the groom. The ushers were, Mr. Dick Bacon and Mr. LeRoy Willsteen.

Mrs. W. D. Bass played the wedding march and Mr. R. H. Bacon, and Mrs. J. A. Dawson sang a duet, "When Song is Sweet".

A reception in seventy-two guests was held in the Union Hall. Receiving with the couple, Mrs. Wilson wore a soft wool frock of turquoise blue with black hat and accessories. Her corsage was of deep pink roses. The groom's mother, Mrs. Willsteen, chose a mauve crepe dress and mauve accessories. She wore a corsage of [illegible] roses.

Tea bride's table was laid with a lace cloth, and centred with a three tiered wedding cake, flanked by pink tapers in crystal holders. Bouquets of pink and white sweet peas completed the arrangement. The ceiling and walls of the hall were hung with pink and white streamers.

Mrs. W. H. Bass [illegible] of the evening and Mr. C. R. W. Wagar proposed the toast to the bride and groom. During the reception the couple received a wire of congratulations from Mr. and Mrs. L. Stevenson, Manitou, B.C., aunt and aunt of the bride.

The newly weds left by plane for Calgary and Banff, the bride travelling in a rose wool dress with black fall coat and rose and black accessories. Upon their return Mr. and Mrs. Willsteen will reside at 9923 - 81 Avenue, Edmonton

Out of town guests were:

Mrs. G. Wilson, Edson, Saskatchewan, gran mother of the bride; Mr. and Mrs. H. Adams, Miss Sophie Adams, Mr. D. Adams, Mr. G. H. Adams, Mr. and Mrs. Bud Willsteen, Mr. and Mrs. Bob Simons, Mr. and Mrs. G. Audley, Mrs. F. W. McDougall, Mr. and Mrs. P. A. Sipe, Mr and Mrs. W. F. Miller, Miss Fern Thompson, Miss Jean Olson, Miss P. Palestine Miss P. Love, Mr. D. McDonald, Mrs. T. Turpan, Mr. T. A. Grose, Miss E. Lovatt, Mrs. C. Anderson, Mr. and Mrs. C. Rattan, all of Edmonton, and Mr. B. Lamb of Vancouver, B.C.

Western Weekly Editors Attend Convention

Attending their first annual convention since the war, more than 200 members of the Canadian Weekly Newspapers Association travelled from Montreal to Halifax by special Canadian Pacific Railway train, crossed the Bay of Fundy on the Canadian Pacific's Princess Helene and finished their journey on a special Dominion Atlantic Railway train. Stop plans change a dozen, at British Columbia editors and their wives in a lounge room of the Prince Rupert Hotel, across the Bay of Fundy. They are, left to right, S. P. McKinnon, Cloverdale; Irving Wilson, Port Alberni, who came the greatest distance to the convention, K. B. Warner, Smithers; William J. Hinnel, Vanderhoof, Mrs. I. Wilson, Ralph F. White and Paul [illegible] Jr. [illegible] mals; C. F. McKenzie, Rossland. In a letter car aboard the Dominion Atlantic train are photo: Mrs. Bert McKay, Moosomin, Sask., and Mr. McKay; Mrs. E. F. Gotsbury, Esterhazy, Sask., and Mr. Gotsbury; and the editor and his wife. The only word from aboard the train from Alberta (lower photo) are absent in front of the Grand Pr. shrine, on of the points of interest visited. The picture includes A. H. Avery, Taber; Mrs. Avery; Mrs. C. C. Jessop, Nanton; Mr. Jessop; Mrs. Ben A. Hardy, Mr. Hardy; Mr. Bardell; F. P. Galbraith, Red Deer; Mrs. H. G. Thansell, Viking; Mr. Thansell; Mrs. H. T. Halliwell, Fort Macleod and Mr. [illegible]

Josephburg

On Saturday last our neighborhood was visited by a good old-fashioned snow-storm as opposed to more sleet conditions obtaining farther West. By noon next day, power p.h.o. phone posts, fence posts and ground generally still bore the fruit of the attack. Before nightfall all traces of the leaden-ing had disappeared.

The weather has not been congenial as the snow conditions conducive to harvesting large agriculture. The farmer must mark time.

Fred Peters Passes Away Tuesday

Fred Peters passed quietly away on Tuesday morning, Sep ember 24th, at the home of his brother, Harry B. Peters. He had been an invalid for five years, and the end was not unexpected.

Born in Grey County, Ontario, 68 years ago, Mr. Peters spent the greater part of three years in Manitoba, came with his brother to Fort Saskatchewan 42 years ago. He later returned east to attend Toronto University. A severe illness interrupted his University course, and he worked in Toronto until the outbreak of World War One, when he enlisted with the Queen's Own Rifles, and was an active service for four years. Following his discharge, he returned to Fort Saskatchewan, where he farmed ever since. He was unmarried. Two brothers survive to mourn his loss: H. B. Peters, Fort Saskatchewan, and C. H. Peters, Grande Prairie.

The funeral service was conducted by Rev. W. D. Bass in First United Church, Thursday afternoon and burial followed in Fort Saskatchewan cemetery. Pall-bearers were Major Dawson, Percy Galloway, George Spalik, James Armstrong, Harry Stetson and Tom Charlton.

Some of us only think of our heart when it comes into our mouth.

Service Club Plans Social Evening

At a meeting of the executive of the Fort Community Service Club, Tuesday evening, plans were made for the social evening to be held on Wednesday, Oct. 9th in the Community Hall and Mr. R. P. Enrico met in the Town Hall on Wednesday evening and made plans to convene the Lion to aid of the Salvation Army.

Mr. Bowerne, as chairman, opened the meeting and after considerable discussion everyone was elected to members of the committee. Mrs. Attwell and Mrs. Stetson will cover the country points and the balance of the committee will canvass the town.

The committee urges everyone to donate to the Salvation Army cause.

Statement of Principle

Farmers have had a great part in the development of democracy. It has been the men who cared for the soil who have always had the fight for responsible freedom. We have been aware of the moral values needed to make freedom possible.

We have just fed and helped to arm and man the forces which have held and then defeated the military might which menced our way of life. Total victory however, still awaits victory in the war of ideas. Now we face our greatest test. We know that democracy can not live unless our decisions are made on a basis of not who but what is right. We must have an inspired ideology for democracy.

Millions are starving in our world today. It will mean sacrifice for us to bring them through this year of crisis. There are those who would have us forget the need of people and only remember the opportunity for gain.

WE ACCEPT our responsibility. If everyone cares enough and everyone shares enough, everyone will have enough.

WE EMBRACE this responsibility to build foundations for lasting peace and a decent chance for everyone.

WE WILL MAKE the necessary preparations to get our food to the point of need.

WE BELIEVE our destiny under God is to feed mankind and to develope human character which will make for harmony in the world.

WE GIVE the lie to those would use us to promote the class struggle. Science has made our world a neighborhood. Our task is to make and keep it a brotherhood.

NOTE—According to a letter received, the above Statement of Principal was circulated in Rural South Edmonton and Leduc farmers, and signed by many of them, who were in accord with the principals outlined. It is published here, that all farmers might have an opportunity to read it.—Editor.

NOTICE
TO FULTONVALE RESIDENTS

At the September meeting of the Good Will Club, a resolution was unanimously passed to move the community plaque to the school. Notice is here by given of this action. Anyone wishing to protest must, within a week, communicate with one of the following committee: Mrs. J. Lang, Mrs. Currie, or Mrs. C. Mitchell.

LEGION MEETING

The regular meeting of the Fort Saskatchewan Branch No. 57 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, Oct. 1st at 8 p.m.

All members are requested to be present.

S.A. Drive Starts Monday

A committee comprising of Mrs. W. Attwell, Mrs. H. Stetson, Mrs. Bradshaw, Mr. Dick Magor, Mr. Chas Fowler, Mr. Leonard Brown and Mr R. P. Enrico met in the Town Hall on Wednesday evening and made plans to canvas the Lion to aid of the Salvation Army.

Mr. Bowerne, as chairman, opened the meeting and after considerable discussion everyone was elected to members of the committee. Mrs Attwell and Mrs. Stetson will cover the country points and the balance of the committee will canvass the town.

The committee urges everyone to donate to the Salvation Army cause.

THANK YOU

Mr. Leonard Brown wishes to take this opportunity to thank all those ladies who so generously gave their time and help in issuing the ration books.

The estimated production of wheat in France this year is around 220 million bushels, almost [illegible] 70 per cent below the pre-war average annual production.

[illegible] to help them in their task of making all those in need.

Around the Town

St. George's W. A. will present a Jamboree Lecture on Wednesday, October 2 at 8:15 p.m. in the United Hall. The subject will be "Some Town Clergymen"—the story of work being done by two missionary societies of the Church of England in Africa, India, and the Far East. Rev. W. W. Buxton will give the accompanying lecture. A silver collection will be taken.

* * *

St. George's W. A. will meet at the home of Mrs. A. McNair, to-celebration on Wednesday, October 2 at 2 p.m.

Members will please meet at St. George's church at 1:30 p.m.

* * *

H. E. King, sales Representative [illegible] McLaurin's Bakery Ltd., of Regina paid his son-in-law A. B. King a short visit this week.

* * *

A. B. King attended a meeting of Northern Managers of the Royal Bank of Canada held in Edmonton, Wednesday evening to meet Mr. [illegible], General Manager of the bank.

* * *

Alfred Lobay returned home Tuesday from Yorkstowbe to continue his studies at University.

* * *

The W.A. of the United Church will meet at the home of Mrs. Ken Robertson, Saturday, October 5 at 2 p.m. Mrs. Robertson is living in Mrs. Ed. Graham's house.

POST TOBACCOS

Radiograms

Revenge! Revenge! That's the war cry of the vanquished Sunnyvale Braves who can now rage some time to live with "The Greatest"—for month, of course, the CJCA Dogpatch Dodgers.

One year ago the score in that masterpiece of pronunciation—the Memorial Whatsis—was:

CJCA 9; CFRN 8.

By popular request a repeat performance will be "played" at CJCA Studios under Bandleader, 7:00 p.m., Monday September 23.

Everything goes—but the actual umpiring. The Sunnyvale Braves "from the suburban South down the way" (Sportscasts September 16) will be decked out in colorful overalls, homebrewed corncobs, whooping up the war cry, determined to celebrate extra revenge for the lacing of one year ago. The Dogpatch clan, "the jerks from Herbs" (figure) Review September 17) led by "Li Abner," Lena the Hyena, Pearlena Pendleton, et al—are feverishly downing "synthetic suds and masses of relishing the "red-face rendition."

Whoever wins the game, two things are certain:—

1. Both radio stations will get a big bang out of it!
2. The Edmonton Community Chest is bound to win, as all proceeds go to that worthy cause.

Although the number of casualties and fractures are not known as yet to the fortunes on record, there still remains a heavy backlog of injured Mixed-Doubters cannot possibly have sufficient machines to satisfy the demand.

As required by the Income War Tax Act, this will advise our customers, as referred to in the said Act, as amended, that in accordance with the terms and conditions and within the times and limitations contained in the said Act, as amended, it is our intention to pay a dividend in proportion to the 1947 patronage out of the revenues of the 1947 taxation year, or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospect of the payment of a patronage dividend to you accordingly.

ELECTRICAL POWER IS DEPENDABLE

BEHIND the switch that brings you instant fingertip service like the constant vigilance of many men. Through the dark hours of the night, when you and your neighbors sleep, their unceasing watch goes on. In storm, cloudburst and winter blizzard danger, fire and otherwise danger and their toil, but in the subsequent days of those who, when traversing the countryside to your homes and the homes over there and the thousands of farms beyond that, has their duty.

To them there is no such thing as service beyond the call of duty, for they know only the importance of uninterrupted electricity. They know that necessity is kindness of time and that consequences come at any hour. They know that when darkness settles or night light is the first demand. Lights that is a symbol of the duty of a fingertip with no thought that it might not be there.

That is your tribute of which they are so proud . . . you took it for granted. That is the way they want you to continue to feel, that ELECTRICAL POWER IS DEPENDABLE.

CALGARY POWER COMPANY
SERVING ALBERTA

The Recipe Corner

After a hard day's work, whether in the field, factory, office or home, appetites are usually pretty keen and ready with under conscience to help put an edge on them. The young fry don't have to be driven around until 9 p.m. supper as a rule these days either.

Many housemakers claim that supper is one of the hardest meals to plan, but if there is a good file of substantial supper dishes to draw from, this problem is easily solved. The supper menu usually may consist of a meat and vegetable dish, a cheese or egg dish, hearty salad or vegetable casserole. While the actual listing of these dishes does not appear to offer much variety, the number of combinations possible in each can be practically unlimited.

Variety in the supper menu can often be introduced also, in the dessert. There are still many delicious desserts to dig into from such as cobblers or cottage puddings, made by topping fruit with slightly sweetened tea biscuit dough, or plain cake batter, baking and serving with a fruit sauce. Baked Brown Betties made with alternate layers of fruit and dry bread crumbs, mixed with a little fat and sugar are always popular fa'orites.

The home economists of the Dominion Department of Agriculture's Consumer Service, offer recipes today which will make their hearty main courses, or, as in the case of the Cucumber Soup with the addition of a good salad and dessert, will round out a substantial supper menu. The two recipes:

CREAM-POTATO SCALLOP

4 cups sliced raw potato (cut in ¼ inch slices)
2 cups corn meal from the cob (raw or cooked)
OR drained canned corn
6 tablespoons chopped green or sweet red pepper
OR pimento
½ cup chopped onion
2 tablespoons flour
Salt and pepper to taste
2 cups milk
½ cup grated cheese

Place a layer of sliced potato in greased casserole, add a layer of corn, chopped pepper and onion, sprinkle with salt, pepper and flour. Repeat layers until all vegetables are used. Pour milk into casserole and bake covered in a moderate oven, 350 degrees F., for one hour. Remove cover, sprinkle the top with grated cheese, and return to oven for 10 minutes or until cheese is melted. Can be browned quickly, if desired. Six servings. The cheese may be omitted and slices of bacon used as a topping.

STUFFED CUCUMBERS

2 medium cucumbers
1 cup sausage meat
1/3 cup finely chopped celery
Butter
2 tablespoons chopped onion
¾ teaspoon salt
¼ teaspoon sage
1 cup soft stale bread crumbs

Cut cucumbers in half lengthwise, remove seeds and soft portion with a spoon. Cook cucumbers in boiling salted water for a short time, until fork passes easily through. Drain well. Cook sausage meat, add onion, seasonings and simmer for five minutes. Fill cucumber shells with sausage mixture, add bread crumbs. Place in a greased baking dish and bake in a hot oven, 400 degrees F., for 25 minutes, or until cucumbers are tender. Six servings.

NOTE. Creamed meat or vegetables may be used in place of the above stuffing.

CUCUMBER SOUP

2 tablespoons minced onion
2 tablespoons butter
2 cups diced cucumbers
1½ cups tomatoes
½ teaspoon salt
2½ cups thin cream sauce

Brown the onion in the fat. Add cucumbers, tomatoes and salt. Cook gently until cucumbers are tender. Then press through a sieve and add to the hot cream sauce. Serve piping hot with toasted bread crumbs.

EFFICIENT MAIL ORDER SERVICE

Have YOU Got YOUR Locker Yet?

Big game hunting will soon be in full swing and Locker Storage Space will be all taken.

At present we still have available two large size and two double lockers, also a very few small lockers.

We advise placing your order for a locker now, and be assured of a modern, sanitary place to store your butter, fowl and meats. The money you save buying in quantity and with no waste through spoilage will more than offset the initial cost of a locker.

Q. Would you advise a housewife next to enter a sanatorium for three days if she is overweight, is without symptoms of anemia and for seven months has had a satisfactory X-ray?

A. If the patient has never been to a sanatorium for treatment, and has not learned the methods of proper rhinin and rest treatment, she could have a period of residence in a sanatorium. If the hemoglobin (the result of certain diseases or fat-cured by relapse, cannot start treatment she'd be I'll wed out.

Q. Although I have been resting for six months, I have lost weight constantly, am intensely tired all the time and have temperatures to 99.4 degrees F. and pulse 94. My X-rays show no activity. Would considered consent be advisable? I took treatment 9 years ago.

A. Apparently your disease is again active. Sanatorium treatment is therefore advisable unless your symptoms are proved to be due to other causes.

Readers desiring questions answered are asked to send them to Calgary, where careful attention and early reply will be given.

Co-Operation Means Success

After a lapse of two months the Fort Community Service Club is once more starting to function.

The next meeting will take the form of a social evening at which all members, their wives and friends are invited to attend.

At present the club has a membership of about 300, but it is hoped that many more will be interested in joining this fall.

For a community of this size, which the club is endeavoring to serve, 300 members is not nearly enough. The club should, and can have a membership of 1,000, if everyone would forget their own pet grievances and work for the benefit of the entire district.

In the short time the club has been operating it has made some progress in any project it has undertaken, but just think what could be accomplished by 1,000 active, determined members.

Nothing is impossible to a community of people who are willing to co-operate. It is only through such co-operation, that any task undertaken can be completed.

Government Order Causes Loss to Barley Growers

In a telegram dispatched to Prime Minister King the Line Elevator Companies have protested against Wheat Board orders having penalized 40 cents per bushel on feed barley and 77 cents per bushel on malting barley that has been driven through an order of the Dominion Food Administrator banning the export of barley to the United States in order to make it available to Eastern and B.C. feeders.

The Line Elevator Companies, in their wire, point out that as long as the Government continues a policy of forcing Western farmers to supply cheap feed to Eastern farmers the Eastern farmers will continue on growing more profitable crops and depend on getting cheap feed from the West.

The wire sent to the Prime Minister reads:

Under an order of the Dominion Food Administrator the export of Canadian barley to the United States is prohibited on the grounds that the entire crop is required for use in the Western Canada farmer, under government regulations, receives only 79½ per bushel for feed barley delivered at Fort William and 64¾ per bushel for barley accepted by the Canadian maltsters for malting purposes. The American farmer is today being paid $1.35 per bushel for feed barley and $1.77 per bushel for malting barley delivered at Chicago or Minneapolis. After allowing for the 1.5 duty of 15c per bushel on barley imports it means that the Western farmers is being penalized 40¼c per bushel on feed barley and 77¼c per bushel on malting barley as a result of the order of the foods administrator.

Western barley growers are being denied access to the American markets in order to make their barley available to feeders of Eastern Canada and British Columbia.

As long as the Government continues the policy of forcing the Western farmers to grow cheap feed for the Eastern farmers, and as long as the Government keeps on paying the freight on the movement of feed grains the Eastern feeder will not endeavor to produce his own feed to the fullest extent. He will concentrate his efforts in seeking to grow more profitable crops and depend on getting cheap feed from the West.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

UNREST AMONG FARMERS

There is considerable unrest among farmers—and well there might be. Most of them are not satisfied with the present price they are receiving for their wheat. Farmers are beginning to feel they are paying too many subsidies to too many other people. Here are the facts:—

Our farmers alone are subsidizing Britain at this moment to the tune of 30 cents a bushel on 100 million bushels a year. Is that fair?

The Canadian Government is withholding between 30 and 40 cents a bushel from our farmers—based on the price the Government is actually receiving for the wheat they are selling—and withholding this 30 to 40 cents for five whole years. Is this right?

Our farmers are subsidizing all Canadians on 70 million bushels of wheat, used in Canada as flour and bread, for at least 30 cents a bushel (the difference between $1.36 and $1.55). In addition our farmers are paying their share of the taxes required to allow millers to buy wheat for home consumption as flour and bread at 77¾ cents a bushel. Is this just?

I for one agree with our farmers that these price disparities, so discriminating against wheat growers, are neither fair, right nor just. They should, therefore, be immediately corrected. The Government can remove these discriminations overnight. Why don't they?

ITEMS OF INTEREST IN THE WORLD OF PRODUCTION

Drought in Rumania is proving harmful to the maize crop, the country's principal food crop, and will affect the amount of wheat available for export—increased acreage and favorable harvesting weather in the Soviet Union point to a somewhat larger crop than last year, but exports depend largely on the policy and decisions of the Government.

The U.S. Department of Agriculture on September 1st estimated the wheat crop at 1,167 million bushels—Argentina's wheat acreage is estimated at 16,000,000 acres, an increase of 2,000,000 acres over last year—The Dominion Bureau of Statistics first estimate of wheat production in Western Canada is 420 million bushels.

Set Wholesale Prices for Grade A Turkeys

The Wartime Prices and Trade Board announces the effective September 2, maximum wholesale prices for grade "A" turkeys in or about will be 2½ cents per pound higher than those in effect during the 1945 packing period. (November, December)

These new maximum prices will apply throughout the year and will be at least 1½ cents below the highest seasonal ceiling previously in effect.

Maximum wholesale prices in 1945 varied between 35½ cents and and 39 cents per pound according to seasons.

Previously, Board officials pointed out, producers had marketed too heavily during the early fall season, with a consequent scarcity at Christmas.

The schedule of maximum prices for roasters and fryer type chickens of all qualities is also revised, and the annual packing period reduction of 2½ cents per pound will be loosened, and will be effective in stages over a period of three months.

The new order (A-2085) consolidates all previous poultry orders issued by the Board.

WHEAT POOL PATRONAGE

The Alberta Wheat Pool desires to advise its members that it intends to carry on for the crop year 1946-47 on a co-operative basis paying a patronage dividend in keeping with the principles under which the Pool was formed. The following notice is published to comply with the provisions of the Income War Tax Act which was amended at the last session of the Parliament so as to tax co-operatives.

"As required by the Income War Tax Act, this will advise our members, as referred to in the said Act as amended, that, in accordance with the terms and conditions and within the times and limitations contained in the said Act as amended, it is our intention to pay a dividend in proportion to the 1947 patronage out of the revenues of the 1947 taxation year or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospects of the payment of a patronage dividend to you accordingly."

Pratt-Bedell Vow In Afternoon Ceremony

In a quiet ceremony Friday afternoon at the home of Mr. and Mrs. A. S. Bedell of Bremner, their only daughter, Lenore Myrtle became the bride of Mr. James Harvey Pratt, son of Mr. and Mrs. J. L. Pratt of Napier, Alberta. Rev. M. A. Johnson of Bremner, officiated.

For her wedding, the bride chose an afternoon dress of sand blue jersey. Her corsage was of Talisman roses and her jewellery, a double strand of pearls, and a locket watch, a gift of the groom.

The attendants were Mrs. Henry Pyper, sister of the groom, who wore a frock of powder blue and corsage with a corsage of pink roses. The best man was Mr. Lewis Bedell, brother of the bride.

Mrs. Bedell, the bride's mother wore a grey crepe dress with green trim. Her corsage was of red roses. Mrs. Pratt, mother of the groom, chose a black crepe dress with corsage trim. Her corsage was of red roses.

The wedding table was laid in basket-side lace and was centered with a tiered wedding cake on a mirror base. Bouquets of autumn flowers throughout the rooms completed the decorations.

Guests from a distance included: Mr. and Mrs. J. L. Pratt; Mr. and Mrs. Jack Pratt and Master Lawrence Pratt of Napier, Alberta; Mr. and Mrs. Henry Pyper and Master Allan Pyper of Clive; Mr. and Mrs. Wm. Gavrie of Barons, Alberta; Mrs. Sadie Quisenberry of Pingree, Idaho.

The newlyweds will reside in Edmonton.

A total of 977,200,000 young chickens were raised on farms in the U.S. in 1945, a decline of 10 per cent from that of 1944.

Herbert-Cheshire Nuptials Held

Holy Trinity Church, Edmonton, was the scene of a very pretty wedding on Monday, September 2 at 4 p.m., when Lorna, younger daughter of Mr. and Mrs. Wm. Cheshire of Lamont became the bride of Mr. Jack Herbert, son of Mr. and Mrs. G. H. Herbert of Fish Tor, Saskatchewan. Rev. W. Molony officiated.

The bride who was given in marriage by her father looked lovely in a gown of white chiffon with white spaish appliqus at the waist and neck line and a floor length veil. She carried a cascade bouquet of pink gladioles.

Miss Lenore Cheshire, sister of the bride was her bridesmaid and looked charming in an off-the-shoulder blue lacemade gown and carried a cascade bouquet of pink asters and gladioles.

Mr. Douglas Herbert, cousin of the groom, was best man.

During the signing of the register of Mrs. A. Hughes sang "I'll Walk Beside You".

Reception for immediate relatives and friends was held at the Cottage Tea Room. Mrs. Cheshire, mother of the bride, wore a green frock with matching accessories and corsage of pink carnations.

In the evening a dance was held in the Lenora Hall where many friends wished the bride and groom good wishes.

The happy couple will reside in Saskatoon where they will both attend the University of Saskatchewan. The bride studying Household Economics and the groom studying law.

Lovingly remembered by her family.

Erickson Lawrence Honeymoon at Shower

A china shower, last Friday afternoon at the home of Mrs. Wilson Ahrig with Mrs. Geo. Ostenfeld as joint hostess, was arranged to honor Kathleen Lawrence, B.N., a bride-elect of the month.

The rooms were bright with Autumn flowers. Entertainment featured readings by Mrs. Magee Aiken and Jessie Aiken. A Mexican dance by Jessie Aiken was also given.

Miss Lawrence received her presents on a miniature train, which included all "Honey Agga of Mary". The honeymoon suggestions were conducted by Mrs. W. D. Rose.

An Observation Contest followed with Mrs. Rose and Mrs. J. W. Attewell the most and best observers respectively of these present.

A reminiscing game next proved the skill of Mrs. Harvey Lawrence, Mrs. Chas Kelly (now consolation prize in this affair).

On behalf of the guests, Mrs. C. H. Flintoff extended good wishes and some timely advice (which like as not will be heeded).

Dorothy Attewell and Mary Smith presented a basket basket of lovely gifts.

At the pretilly arranged tea table, Mrs. V. R. Lawrence and Mrs. Aaron Ostenfeld presided. Mrs. Wilson Dorothy Attewell, Jessie, Margaret and June Aiken assisted in serving.

Josephburg

Continued from Page One

month, not the second Wednesday. We apologize.

* * *

We are pleased to note that the Service Club is stepping out with a bid to obtain more interest from members at large. October 9 should prove a red letter day. A few bubbling social hours fulfilled their part towards its success, but we of the rank and file have sat back and watched them do their stuff unaided.

* * *

Recalling to a shattered youth, enabled by the protecting arms of mother trees, its forebear's quarrel by the uphill harvest of a neighboring church spire, its back propped against a grassy embankment among whose lowed crest twin shining strains of steel vanish into the distance of the unknown to right hand and to left, lies a tiny hamlet. No roar of traffic disturbs its slumbers: no clubfoot street-cars with clanging gong and grinding brakes rear its repose; no helmeted policemen, plotting helpless humanity with shrill whistle, disorder its decorum.

The kindly sun warms with dappled rays this cozy cradle, the gentle breezes temper its every motherly journey to mellow that man's solace, pearly dew-drops fall at night to regard its raining last and tender storm: the very angels of heaven, methinks, must come careless home in its embrace.

The feverish world speeds past its very door and is unheard, yet fails to ruffle the calm serenity of my tiny hamlet.

This is Josephburg.

* * *

While attempting to illustrate the essential difference between the rural and poetry, our scribe soon evolved the above.

We first composed a prose description of our hamlet, designed to serve as a source of information to prospective citizens. It was a dull, uninteresting effort of the present status of Josephburg.

We then altered our inspiration full rein with view to producing a poetical version of those facts. Above we succeeded!

T.B. Seals Sale Starts Nov. 25

A shortfall throughout symbolizing the unsung gifts of fresh hope after the darkness of the past years, is featured on the 1946 Christmas Seal, which has been produced at headquarters of the Alberta Tuberculosis Association, according to Eric Connolly, President.

The 25th annual Christmas Seal Sale, to raise funds for the control of tuberculosis, will be conducted throughout the nation from November 25 through Christmas. Of the money raised in our community, 70 percent will be spent for our local campaign against tuberculosis. The remaining 30 percent will be forwarded to the Canadian Tuberculosis Association to pay for supplies and services.

Christmas Seals were first sold in this country in 1907, the idea originated in Denmark and spread to all parts of the world. Before the war so many as fifty countries purchased Christmas Seal sales to support the work of tuberculosis control.

Mr. Connolly said that the quota for the Alberta Tuberculosis Association this year has been set at $100,000.00.

Fort Skating Rink Ready For Winter Sports Activities

The skating rink at the Fort has had its floor lifted so it stands two feet higher. Boards have replaced all around the rink walls and doors put in the south end of the rink so that there are now be cleaned off instead of being thrown over the side.

The penalty box has been enlarged and a private door has been put in the dressing room for the hockey team.

A new canada ticket office has been erected, which will eliminate the jam in the waiting room where tickets were paid in former years.

The one thing that will be appreciated most by the spectators, who wish to watch the skating and hockey games, is the new road that has been put over the spectators stand. Formerly, one stand knee deep in snow to watch any shinny or game. In the future they will be on dry ground and more or less sheltered from any wind.

A rent of white wash has also been applied to the inside of the rink.

Considerable money has been spent on renovating the rink, but most people will agree that it was about time something was done to put the rink in better condition

Around the Town

The regular meeting of the W.I. will be held next Wednesday, October 9th in the Union Hall at 2:30 p.m.

This will be a handicraft meeting and members are requested to bring samples of work on which hors are also requested to bring suggestions for suitable Christmas gifts.

* * *

Mr. Cam Lyons, who recently left the Fort to reside in Kelowna, B.C. was a business visitor here last week-end. Mr. Lyons visited the Record office and stated he liked his new town of residence.

Mr. Lyons has created a new building for a coffee shop, but like many other people, has not yet got his due to shortages. He expects, however, to be operating his new business in the very near future.

* * *

Mrs. R. E. Phillips is the new C.G.I.T. leader for the coming season. The first meeting of the organization was held Monday at the home of Mr. A. E. King.

* * *

Plans are afoot to grade all the roads in town as soon as the municipal road grader is available.

* * *

Mr. and Mrs. J. D. McLane had as their guests last week-end, Mrs. McLane's parents, Mr. and Mrs. Shaw of Edmonton.

* * *

All those interested are invited to attend the Health and Recreation meeting in the basement of the Community Hall on Monday, October 7th at 8 p.m.

* * *

Mr. and Mrs. Robinson, who have been guests at the home of their son and daughter-in-law, Mr. and Mrs. Ken Robinson, left Monday to return to their home at Jasper.

Neighbors and friends turned out en masse at the Community Hall Thursday night for a community shower in honor of Mr. and Mrs. Lovell Scott, nee Kathleen Lawrence, whose marriage took place Wednesday.

They were recipients of many lovely gifts and good wishes expressed on behalf of the friends by Wilmot Allen and Charlie Ostenfeld. Mr. and Mrs. Scott left Thursday night for their new home in Edmonton, B.C.

* * *

AVOID THRESHING TOUCH GRAIN

Harvest has been delayed in parts of the province by inclement weather. As a result, threshing in many cases are only midway to start threshing.

Warning comes from the Field Crops Branch to members standing in rapid heated from threshing damp grain. It is much easier to dry grain in the stook or swather than with damp grain in the bin.

Shower Held for Lucille Becker

Mrs. Frank Becker and Mrs. Ge'ge Geisinger were hostesses at a shower given in honor of Lucille Becker at the Reformed Church on Sunday afternoon. They were assisted by Elsie Nohr.

The guests indulged in some community singing led by Mrs. Ed. Mohr and to the tune of "Roll Out the Barrel", a barrel loaded with useful and ornamental gifts was rolled into the presence of the bride-to-be. The gifts having been duly inspected, the recipient artfully thanked the donors.

A delectable lunch followed and the gathering dispersed.

The marriage ceremony will take place at the Reformed Church, Rev. Kreiger officiating. A reception to some fifty guests will be held at the home of Mrs. Walter Frey, sister of the bride-to-be, and a dance at Partridge Hill Community Hall will write Vinis' to the jubilation.

Rich Lake Couple Wed Here Sat.

At a quiet wedding ceremony on Saturday, September 28 at the United Church Manse, Hazel Ethel Trisher, second daughter of Mrs. Rhoda Trisher of Rich Lake, Alberta, became the bride of Ira Alexander Kemple, eldest son of Mr. and Mrs. G. Kemple of Rich Lake. Rev. W. Race officiated.

The bride was lovely in a gown of white net over satin. She wore a finger tip veil, held in place by clusters of flowers. She carried a bouquet of pink and white asters. Her only ornament was a single strand of pearls.

Miss Dorothy Armstrong, cousin of the bride, was her only attendant. She wore a gown of sky blue net and a chapel veil. Her bouquet was pastel shaded asters.

Mr. Calvin Kemple, brother of the groom, was best man.

Mr. and Mrs. Kemple will reside at Rich Lake, Alberta.

Mrs. Kemple is the neice of Mrs. Alice Armstrong of Fort Saskatchewan.

Police Court

As a result of a Fracas which took place in town, last week, Leonard Whitford was fined $50 and costs on a charge of assaulting the hotel proprietor, and also received a sentence of 30 days with no option of a fine on a second offence for assaulting the peace officer and resisting arrest.

On the same docket, Mr. Constavics was fined $50 and costs for entering a licensed beer parlor on a minor.

District Passenger Agent

M. J. Dupuis has been appointed district passenger agent for the Canadian National Railways in Alberta, succeeding S. M. Cooper, transferred to Vancouver. Mr. Dupuis has been stationed in Winnipeg since 1914 when he entered the service of the Canadian Northern Railway as assistant clerk. In August, 1916, he was appointed chief ticket clerk and in May, 1917, was made chief clerk in the general passenger department. He held this position until June, 1946, when he was appointed district passenger agent for the Manitoba

Josephburg

Beaver Hills Church W.A. met at the home of Mrs. Piercy. A discussion on maintaining this equipment to such first class condition are to be congratulated.

* * *

A social meeting of the Beaver Hills Church W.A. met at the home of Mrs. Piercy. A discussion along with the United Church Women's Missionary Society took place. The motion was favorably received and it was decided to ask Mrs. O'Neil of Fort Saskatchewan, a prominent member of the society, to be present at the initial meeting.

The question of undertaking a play under the directorship of Mrs. Piercy was brought up, and the director was instructed to secure a suitable d ama and present it to those interested in the near future. The neighborhood has secured quite a reputation for its dramatic offerings. It is hoped that the play will be presented before Christmas.

Fultonvale

Mr. Jay Lyon started his threshing run on Saturday, September 28 with a full crew, good luck boys.

* * *

Our high school students who ride to Edmonton every day are living in hopes of having a new bus before it gets much colder.

* * *

Mr. Ernest Bishop spent the week-end with his old friend, John Lang, and did a real job on the end of a grain shovel. We find city living has not softened Ernie for farming chores.

* * *

The Goodwill Club will meet at the home of Mrs. Tom Reel, October 9th. Everybody welcome.

* * *

The Spicer Bros. held a dance in their new barn, a lively time was enjoyed.

* * *

The diet int extends sympathy to the relatives of the late Mr. Percy Sanders. Mr. Sanders was a great pioneer of this district and will be missed by all.

* * *

The geese are beginning to go south. We hear our old friend Ray Simmard put one with a fill repeater, good shooting Ray.

Uncas

In honor of Mr. and Mrs. L. J. Cooling, a shower and dance was held at Uncas school September 27th.

The young couple were presented with many lovely gifts, which were unwrapped by Mrs. Cooling, assisted by Miss Linda Shewchuk and Miss K. Cooling.

Thanks are extended to the people of the district for their appreciation of in making this party a complete success.

* * *

Mr. C. N. Cuzzo who has been in hospital undergoing an operation returned home this week.

* * *

The Uncas School Division has finally secured the teacher for a new term.

Thief Loots Room As Man Sleeps

On Monday night last, someone broke open and entered the room occupied by Mr. O. Dubbs, a guest at the Fort Hotel and stole cheques amounting to $200.

Mr. Dubbs was asleep when his leather windbreaker was pushed away in his existence, by the thief, and not removed. Possible cause of the movement by Mr. Dubbs is his sleep frightened the robber and he left hurriedly.

An R.C.M.P. officer and the town policeman, Ken Thomas are investigating the robbery and it is expected the guilty party will be apprehended in the near future.

Fire Equipment in Good Condition

Residents of Fort Saskatchewan can feel quite safe in the efficiency of their fire fighting equipment.

According to a report made by H. Wicks, a fire underwriter Inspector of Winnipeg, the equipment here is in first class condition. Mr. Wicks right made this statement after testing all the fire apparatus at the fire station

It is not often that a town gets such a good report and those responsible for maintaining this equipment to such first class condition are to be congratulated.

East Edmonton

Approximately ninety pupils were enrolled in the East Edmonton (Bank) Public School when it opened its doors for the fall term of 1946.

The building itself, with the exception of three class rooms keeps pace with the march of progress. A heating plant this summer has been converted to the use of gas. Electricity is projected for the near future.

To the teachers, Mrs. Ever, principal, Miss Kents, intermediate, and Mrs. Foster, primary, go congratulations for the good work they are doing, indented by the standing made by the pupils leading grade IX departmental examinations this summer.

The entire class of nine, Irene Adams, Marjorie Ashton, Barbara Bowen, Muriel Gerwin, Gloria Hawkins, Ellen Isbrucker, Norine Lange, William Phillips and Arthur Sverhardt, successfully passed the examinations and are entering grade X with three new pupils, Jean Bryan, Derek Hazzard and Verna Yakoumes, who are enrolled from the Salisbury district.

West Elk Island

The meeting of the West Elk Island club will be held on Sunday evening, Oct. 6th. Let's all turn out and get the plans for the winter under way. That means you!

* * *

A sure sight has attracted the attention of the entire district, a shinning new black sedan but off the assembly line. We believe the name began to native!

Floral Tributes Received At Fred Peters Funeral

The following are the names of those who sent floral tributes to the funeral of Mr. Fred Peters.

Harry, Annie, Charles, Tom and Helen; Art and Nina; Mr. Walter, Mr. Bernard and Bessie; Mr. and Mrs. Dawson; Mr. and Mrs. Bruce Bateman; Harry and Margaret Bateman; Dr. Bacon and family; George, Jack and Betty; Mr. and Mrs. George Wilson; Mrs. J. E. Cairney and family; Mr. and Mrs. Jack Armstrong; Mr. and Mrs. Fay Stetson; Canadian Legion, Fort Saskatchewan Branch.

Canadian Junior Red Cross Celebrates Enrolment Week

Five hundred tons of flour was but part of a Co edian Junior Red Cross gift of foodstuffs, raised at $61,548.00, to war-victimized children of Czechoslovakia. The shipment included infants in order to continue this good work in Czechoslovakian and other foor, tinned orange juice, European countries, the Canadian Junior Red Cross is celebrating Junior Red Cross week, September 29th to October 5th, during which time they hope to enrol or re-enrol 500,000 members throughout the schools of Canada.

Partridge Hill United Church Scene Of Pretty Wedding Wednesday

Pink and white gladioli and the warm tones of autumn flowers under a canopy of streamers and silver bells, provided an attractive setting in Partridge Hill United church, Wednesday at 4 p.m. for the marriage of Kathleen Mary, only daughter of Mr. and Mrs. V. R. Lawrence of Fort Saskatchewan, to Mr. Lovell L. Scott, eldest son of Mr. and Mrs. J. G. Scott of Kimberly, B.C.

Rev. W. D. Rose assisted by Rev. G. A. Sander of Bon Accord, uncle of the bride, officiated at the double ring service.

Given in marriage by her father, the bride wore a floor length gown of white sheer with sweetheart neckline, fitted bodice and wrist length Bishop sleeves. Her veil, held in place with a Mary Queen of Scots head dress, followed the lines of her gown. She carried a bouquet of red Talisman roses and white baby mums. A gold locket, the gift of the groom, was the bride's only ornament.

Miss Beatrice Bates, R.N. of Olds, Alberta attended the bride. She wore a tea length gown of rose pink sheer with shirred bolero. Her pink chapel veil was held in place with a wreath of apple blossoms. She carried a bouquet of yellow asters and baby mums.

Best man was Mr Norman Scott, brother of the groom. The ushers were Messrs Edwin and Verden Lawrence, brothers of the bride

Miss Rhoda Lawrence, a cousin of the bride, played the wedding music. During the signing of the register Mrs. Alf Frey sang "O Promise Me".

For her daughter's wedding, Mrs. Lawrence chose a cinnamon brown tailored suit, with hat to tone and a corsage of roses and yellow mums. The groom's mother wore a tailored suit of blue with pin stripe and a corsage of yellow and white mums.

After the ceremony a reception to a hundred was held at Partridge Hill Community Hall.

The brides' table was centered by a tiered wedding cake, resting on a frame of pink and white gladioli, roses of flowers and ornament in the pink and white motif completed the table decorations.

Rev. W. D. Rose introduced the toast list, Rev. Sander proposed the toast to the bride.

For traveling, the bride wore a mocha dress maker suit with black accessories and an egg shell white sheep top coat.

Mr and Mrs. Scott left for a quiet honey moon to Spokane, Washington, U.S. and will reside in Kimberly, B.C.

The bride is a graduate of the Edmonton General hospital class of 1945.

HOCKEY MEETING

The annual meeting of the Fort Saskatchewan Hockey Club will be held in the Legion Hall Monday evening at 8 o'clock. All players and those interested in this year's activities are expected to attend.

To change the system without changing people is like changing your shirt without taking a bath.

Plan to attend
The Social Evening

An invitation is extended to wives and friends of members of the Fort Community Service Club to attend a Social Evening.

Wednesday, Oct. 9th
at 8 p.m. in the
Fort Community Hall

A program of entertainment has been arranged which we feel sure everyone will enjoy.

Former members will have an opportunity to meet the new District Agriculturist, Mr. Whitbread. Mr. F. H. Newcombe and Mr. Floyd Baker will also be on hand.

KEEP THE DATE OPEN—COME AND ENJOY AN EVENING OF ENTERTAINMENT

Radiograms

"THIS IS OUR HERITAGE"

For the third time in the past year the CJCA Drama Club has earned a spot on the CBC Trans-Canada Network. Under the direction of Doug Rosenquist, this group of amateur artists has once received the opportunity to be heard on CJCA at 11:15 p.m. Monday for the next 13 weeks.

When you don't feel comfortably fond of your wife, see where you hope best to find it—yourself.

"This is Our Heritage" and the speaker broadcast next Monday at 11:15 p.m. is the story of the expansion of Canadian Pacific, a Canada girl of Edmonton, Alberta.

The entire series is written by Elsie Park Gowan of Edmonton and is dedicated to the men and women in the adventurous of whose lives is woven the romance of the Canadian Provinces.

Cast for next Monday's performance consists of Fernando Rowland, Olga Lennie, and Jean Mackay. Doug Rosenquist, of CJCA's production staff will produce the series. Music of pipers to be heard on CJCA at 11:00 p.m. Monday for the next 13 weeks.

Preparing Turkeys for Xmas Sale

Now is the time for turkey producers to begin to consider the Christmas delivery date. Turkeys ordered in Canada on the best time of the year to market turkeys. Turkeys which were hatched early in the spring usually reach desired market by the fall months and should be finished and ready by the Christmas season. There is usually a demand for birds of varying sizes for family requirements and in addition lots of turkeys may very all the way from eight to twenty-five pounds, depending on the breed and sex. The average turkey can accommodate a family of almost any size, says A. G. Taylor, Poultry Division, Canada Experimental Farm, Ottawa.

The turn following is applied to the finishing or conditioning of poultry for market, called the counter does not lose a dressed bird because of the fat it contains. The ideal dressed bird is one with an abundance of flesh and a fairly fat, yet with enough fat to cap the bird to keep the flesh moist. Excess fat simply rounds out and is the expensive part of the turkey. Hen turkeys are turkeys by name, but for the Christmas trade in that they will possess a maximum of flesh and a little fat.

The answer to is the method of feeding on the modern turkey farm. The practice of rearing turkeys has changed considerably during the last ten years. Turkey growers of today are confining the birds to limited quarters, usually on range or on range, and keeping proper feeds consistently before them, so that the pouit or growing turkey is in good flesh at all times, does not have to wander for and waste to find food enough for its needs, and has the feed which has been supplied in good forms and rounds.

Young turkeys are usually started on turkey starter mash for six to eight weeks then changed to turkey growing mash and mixed grain until market age. The mash and grain should be fed in separate hoppers. The feed hoppers should be self-feeding so that the birds can eat what they require as they want it. In this way they are never hungry and seldom eat a full meal at any time. As the weather gets colder in the fall the birds eat a greater proportion of grain than mash.

Turkey growers aim to influence the feeding to increase the fatness of feed and about the middle of October, when the supply of green feed is practically gone, is a good time to add extra feeding which may be desired. Moist mashes are palatable and if fed in the middle of the day in limited supply aid in promoting increased consumption. The growing mash

The Recipe Corner

By the Home Economists of the Consumer Section Marketing Service of the Dominion Department of Agriculture

Ancient writers used to describe honey as the "nectar of the gods", and Aristotle, the famous Greek philosopher and seven years physician, saying it was "bee dew, filled from clear and the quickest." Western, herbal and in fact, with its delicate flavor, lives up to all these descriptions.

Granted our sugar is being substituted for another, but there are many advantages in using it any of honey remain undissolved in the bottom of the cup when used to sweeten beverages as sugar often does. Liquid honey, warmed slightly and drizzled over the morning cereal adds flavor and sweetness. It makes an excellent sweetener for fruits, and cooked fruits. For example, mixed with a little cloves or cinnamon, it adds a new note to baked pears or apples.

Part of the sugar may be replaced with an equal quantity of honey in baking. Cookies and cakes retain their moisture longer when honey is used; but because of this increased propensity of honey that is its ability to absorb and hold moisture, it should not be stored in the refrigerator or in a damp place. It will absorb moisture and gradually become diluted to the point where sponges will appear. Honey should be stored cool and in a dry place. The pantry shelf is as good a place as any.

If granulated honey should start to ferment, it may be restored by heating slowly over hot water or by setting the container (if waterproof) directly in hot water until honey is completely liquified. Skim and cool as quickly as possible. It is a good idea to give this treatment to any honey which is to be stored in any quantity for a month of time.

The recipes for today feature honey, and it is suggested that any one of them would make a nice addition to the Thanksgiving menu.

APPLE SQUARE SCALLOP

4 cups squash cut in ½ inch slices
2 medium apples sliced (about 2 cups)
¾ cup honey
1 tablespoon water
1 cup soft stale bread crumbs
1 tablespoon fat, melted
1 teaspoon poultry seasoning
Pepper
1½ teaspoon salt

Place alternate layers of squash and sliced apples in a greased casserole. Drizzle each layer with honey mixed with salt and pepper. Add water. Top last layer with

The Minister of Finance announces

A NEW BOND ISSUE FOR PEACETIME SAVINGS

Canadians are thrifty people. Their record in war financing will stand for many years to come.

Through six years, millions saved and invested in Victory Bonds and War Savings Certificates in a way no one thought possible. Many thousands learned the convenience of regular, systematic saving, whether in small monthly amounts or by larger cash investment. As a result they have accumulated substantial personal reserves with all that means in increased future security and satisfaction.

Because suggestions and requests have come to me from all parts of the country that facilities for this kind of saving be continued in peacetime, the Canada Savings Bond has been created.

The issue of War Savings Certificates and Stamps to the general public will be discontinued on September 30th, and final instalments on the last Victory Bond issue will have been completed in the near future. Canada Savings Bonds, therefore, will provide an opportune means for citizens to carry on their regular savings habits without interruption.

The general public should note that this time there will be fewer salesmen than in the case of Victory Bonds. Although the new Canada Savings Bonds will be sold through banks, authorized investment dealers, stock brokers and trust or loan companies, these agencies will not be able to approach every individual Canadian. This means that for the most part it will be left to Canadians to assume the responsibility for their own purchases of Canada Savings Bonds. If they wish to grasp this opportunity, they should act for themselves without delay.

Canada Savings Bonds are designed to be the finest investment available to the public today. I recommend them to you as a safe, profitable and convenient investment for personal savings.

I now announce the terms of the new Canada Savings Bonds, which will be offered commencing October 15th.

... Features of the new Canada Savings Bonds

The Canada Savings Bond

The limit for purchases of the new Canada Savings Bond by individuals has now been set at $8,000. Purchases of the new security may only be made in the name of individuals and not in the name of firms, institutions, or in trust for second parties.

The decision to place a limit on purchases by individuals bears out a statement made by the Minister of Finance to the House of Commons last June. Mr. Ilsley pointed out at that time that, since the terms of the Canada Savings Bond would be more favorable than those available for comparable securities at the time of issue, it would be necessary to restrict individual holdings. If no limit were set, the new security would naturally be purchased in volume by institutions and larger investors for whom it is not intended. The Canada Savings Bond is designed solely as a personal savings facility.

All Canada Savings Bonds will be registered as to principal. This registration is made necessary by the need to control holdings, but will offer protection to holders against loss of their investment at the same time. Further, bonds may be registered in the name of minors as well as adults. It is probable that many purchases will be registered in the names of children and others by those who wish to take added advantage of the investment opportunity but who would otherwise be restricted to the $2,000 limit on purchases in their own name.

The interest rate of the new bonds is 2½% and one has the privilege of turning them into cash at any time for full face value, plus interest, at any bank. Denominations of the new bonds will be $50, $100, $500 and $1,000.

Cuba's corn crop is estimated at 20,000,000 bushels, which is reported to be fully sufficient for domestic requirements. Argentina under a recent agreement will supply the Union of South Africa with approximately 16 million bushels of corn before the end of the year.

Always wanting to be a big shot makes one just a big sucker.

World of Wheat

A NOTABLE ANNIVERSARY

This year, 1946, is the 40th anniversary of the first visit made by our Dominion Cerealist, Dr. L. H. Newman to the Dominion Experimental Farm at Indian Head. I had the pleasure of accompanying Dr. Newman on his visit that year, and I could see that through his mind was running the memory of the great advances that have been made in the Plant Breeding Experimental Farm in 40 years. advances that have so materially contributed to the improvement in the welfare of our prairie farmers. I could see how he was thinking of the many cereal varieties that had been developed and used over the years at this Experimental Farm Take the march of wheats alone—Red Fife, Early Red Fife, Pioneer, Marquis, Ruby, Reward, Renfrew, Red Bobs, Bolingoe, Canus, then Thatcher, Regent, Rescue, Apex, and last Redman and Huron. Each of these varieties were achieved them to Calgary where careful analysis and study could be given

Dates for Fall Sales Announced

The fall sheep and swine sales will be held this year on Tuesday, Decembe 21st to 24th and Johnston, October 29th to November 1st inclusive. Interesting annual Alberta sheep and swine breeders are taking extra steps to bring out superior animals. Competition in top places are expected to be keener than ever. The general abundance of feed and the excellent prices, as a result of early fall rains, will help in the fitting of show and sale animals.

Farmers who require to sell are urged to personally attend these sales. One can learn a great deal about what is going on and what types of animals are most desirable and usually after by the leading breeders and auctioneers. By live stock Those farmers who for some very good reason cannot attend these sales, should apply for purchase of animals through the Alberta Department of Agriculture under the Sheep and Swine Improvement Policies

Sheep owners should note particularly that good breeding rams will not be available after the sale Application should be made while there is still time, to the District Agriculturist, or to the Live Stock Branch of the Alberta Department of Agriculture, Edmonton.

Preparing Turkeys

Continued from Page Two

which is being fed the turkeys should be moistened with skim milk if available for each feeding Water can also be used if skim milk cannot be obtained. So as to keep the birds with good appetites they should be fed slightly less than they will clean up at each feeding

About three weeks before the birds are to be killed for market they should be given a light feed of wheat corn just before they go to roost at night. Make sure the corn is dry and free from moulds. New corn should be fed sparingly at first and particularly so when it has been well ripened. As the weather becomes colder the intake of feed will increase and the amount of corn can also be increased for the evening feeding.

Water, grit and shell should be before the birds at all times.

Prospects for a ready market for turkeys this year are good, particularly for well finished birds.

Don't fly in—flight on.

Q. For how long would you advise sanatorium treatment?

A. This is an individual matter and cannot be determined except by personal consultation between the patient and a competent physician. Each case is a problem in itself and requires careful consideration. A consideration of three months should be minimum for adjustment to the procession of collapse, others and to the methods of treatment.

Q. What is the latest known treatment in Tuberculosis?

A. There is no "latest known treatment" for tuberculosis. Treatment still consists of rest, food, physiological rest and surgery when necessary by mechanical means with plenty of food and

What is Progress?

By R. J. Deachman

Pay some time the railways in the United States have been at work on an attempt to develop a new type of locomotive, they consist of one which would burn cheap coal, instead of oil, operated by gas or coke, provide generally a more efficient source of power.

They have it, or they think they have, and according to the New York Times an engine, to be built according to the new principle, has been recently ordered. The coal will be ground into an unexplosible powder and blown into the engine. Consumption of fuel will be complete, there will be no smoke and no dust. It is so-stated that it will bring about a major-

Quality Materials And Workmanship
It is essential that all material and workmanship in the repairing of your Car, Truck or Farm Machinery is of the best. Otherwise defects will show and the cost of operation will increase by leaps and bounds.
We use only quality materials and guarantee every job we undertake.
JACOX and LEE
Fort Saskatchewan

Reduction in Goal

Ind reduction in the cost of food and other operating costs. It will take time no doubt to put it into commercially operation but it seems by no means as difficult as some other things which have been accomplished, we may look forward hopefully to this great improvement.

WHY, AND WHAT FOR?

The change gives promise of material savings in railway transportation. It may have the advantage of the Diesel engine, with lower operating costs. There are also other elements of saving but I come to the real question: Who gets the gains arising from improvements in this technological change?

Looked at as one way it might be argued that the entire gains should go to the railways which by joint action may bring this new development into use If capital is to gain nothing from the changes and improvements which it brings about it cannot be expected to make the effort and take the risks, but capital cannot and will not take all the gains. In the effort to expand the volume of business it becomes costs or gives a better service. Meanwhile other in the transportation business will

Worn Machery

Mrs. C. R. O'Brien of Denver runs a worn farm, states New Agriculture, an Agricultural Monthly, published in the United States. She claims it is the biggest worm farm in the world, although it is only a dog-up vacant lot with piles of leaves scattered around. It has an important name however, "The Colorado Earthworm Hatchery" and customers range throughout many countries. Worms are important to more people than week-end fishermen. The worms are heralded by farmers and engineers to aerate the land; fish hatcheries buy them for fish food; colleges use them for educational demonstration, and commercial angling companies use them for bait for fish.

Women of Yellowknife

By Elsie Jacox

Women of Yellowknife have a little problem transportation problem on their hands that hasn't been solved yet.

You see, there is no bus or street car service there, no way of getting their groceries from the Hudson's Bay's and a most shopping bag, that gets mighty heavy by the time they've plodded that long, long mile between the wagon front (where all the stores are) to their homes on the new townsite.

Unless you've struck a gold mine lately you've not likely to have a car of your own. Like every place else they're aware as how's teeth and cost like nobody's business, on account of the long freight haul.

Transportation is the biggest of the thriving new settlement. A thousand miles from the nearest city, woh-mm-h eight men be of the year, the cost of freighting runs from $60 to $6,000 a ton, depending of course on the weight of the load. Which is why the only way to get your own,

We must go beyond our duty to keep a Millions safe.

Many a big deal has been made possible through a Want Ad.

GOLDEN "MIKE" STAYS AT DUGOUT

Edmonton's Community Chest has won again, this year to the tune of $026. Next in line with a win was CJCA's Dugout Dodgers who sent the Sawmania Braves scurrying back into their teepees smarting under their second straight football whitewash. This year the score was CJCA Dug-outs Dodgers 15, OPEN Sawmania Braves 11

Played under floodlights at Edmonton's picturesque Clarke Stadium, the game lived up to all expectations. From standpoint of guts, stunts, feature, color and humor, it was a masterpiece. From standpoint of real Pro ball - well - must we go into that?

The Braves and maidens from the Sawmap a training camp spent all the fireworks by "war dancing" onto the field carrying Stanley tomahawks and "p-p-p-owwing" in holy fashion all this to the "tom-tom" strains by the Edmonton School Boys Band The Dugnacth Dodgers came rueling on the Field Virginia style—to tunes provided by the fans of the West.

The players of both teams were then introduced by mediator Sam Bonn. Mayor Amiay and radio officials then "officially opened" the game After a series of brief "interpretive" dances as "Alpine-ear" rags, tune filling in the darkness, cross-country lines running, grapefruit substitutes, etc., the game got under way at 8:30 with the stands above a whisper are all.

The three-week campaign over both stations climaxed by the game resulted in a tremendous publicity stunt in support of Edmonton's Community Chest and came to a conclusion with the $900 added to the Chest coffers. Mentions the golden noisy-chaos enthusiastic of the "championship of the really world" remains a CJCA's mantle for another year.

The Recipe Corner

By the Home Economists of the Consumer Section Marketing Service of the Dominion Department of Agriculture

Thanksgiving day has been celebrated ever since the early settlers, after suffering many privations and hardships had their efforts rewarded by a bountiful harvest promising food for all. All over the world this year people in many lands will be offering prayers of thanks for the food that has been harvested. For many it will be the first real harvest for a number of years. The people of Canada should be more thankful than any other for the bountiful harvest they have been given.

Poultry, either chicken or turkey is usually the most served at the Thanksgiving Dinner. If you have a nice fat chicken for the occasion there will be quite a bit of fat to take out when it is being cleaned. This chicken fat, after it is rendered, as well as the fat saved during the cooking is one "best for baking. Because fat should be taken off while the chicken is roasting, leaving only enough in the pan for basting and for making gravy. With the scarcity of fats to go around, it is a wise homemaker who saves all the chicken fat she can. It has the texture and richness of butter, but like other unsalted fats, requires the addition of a little salt in the amount asked for in the recipe.

A simple menu with recipes for this Thanksgiving dinner.

Roast Chicken or Turkey Dressing
Brown Potatoes Pickled Beets
Tossed Raspberry Bowl
Cranberry Jelly Grape Neapolitan Tarts
Coffee

1 medium eggplant (about 5 to 6 inches in length)
2 tablespoons fat, melted
3 to 4 large tomatoes
Salt, celery salt and pepper to taste
Grated sharp cheese

Slice eggplant in ½ inch slices and peel. Brush or both sides with melted fat. Sprinkle lightly with salt and pepper. Preheat broiler to 400 degrees F. Place slices on rack and broil on one side until lightly browned, about 5 minutes. Turn and broil on other side until tender. Top each slice with a thick slice of tomato, sprinkle with celery salt and a teaspoon of grated cheese. Return to broiler and broil until cheese melts. Serve at once. Six servings.

Gas Turbine for Ships

The de-luxe passenger liner that will skim the world's oceans at top speed may not be a dream of the future for much longer. Intensive work is being carried out in Britain on gas turbine type boilers for ship propulsion. On a much smaller scale, for experimental purposes, the principle of jet-power is being applied to rivercraft to demonstrate its possibilities for cheaper, faster river transport. A U.S. engineer has invented an outboard motor that is propelled by a waterjet and large models have been constructed for export. The engine unit is exported to sell in Britain for about $170.

Meat, Butter Coupons Invalid October 31st

Meat coupons Q1 to Q4 in the No. 5 Ration Book and M41 to M56 in the new book and butter coupons B16 to B21 in the old book and B25 to B32 in the new, will become invalid for the purchase of these commodities after October 31, the Ration Administration of the WPTB announced.

At the same time all temporary ration coupons for butter, meat and sugar, unnumbered and bearing a heavy design, will cease to be in the hands of the consumers "Ration" coupons for evaporated milk, only, will continue to be valid

Consumers holding unused "Ration" coupons may, on application to a local ration board, have them exchanged for the denominational "Ration" coupons.

The C.P.R. has been handling daily through its Winnipeg yards 16 transloads of grain, each consisting of from 60 to 70 cars.

Why VICKS Is So Good
For Relieving Miseries of
Childrens Colds

Many times two generations ago—in grandmother's day—mothers first discovered Vicks VapoRub. Today it is the most widely used home-remedy for relieving miseries of children's colds. And here is the reason

The moment you rub VapoRub on the throat, chest and back it starts to work two ways at once—and keeps on working for hours—to ease coughing spasms, help clear congestion in cold-clogged upper breathing passages, relieve muscular soreness and tightness. It promotes revitalizing Vicks vapors at the source of the cold to speed its recovery! That's why VapoRub is so good to use when colds strike. Try it!

Fire Prevention Week

This is Fire Prevention Week, a week when people everywhere should stop to consider the appalling loss of life and property caused by fire. Over 601 persons lost their lives and $62,000,000 worth of property was damaged during 1945.

Much of this loss is caused by people leaving burning cigarettes and matches lying around, using inflammable liquid to start fires, not having their heating system in good condition and in many other ways.

Fire insurance cannot begin to cover all the goods lost in fires. Many pieces of china and other knick-knacks are accumulated over a period of years, some are of great value, others are kept for sentimental reasons, which once lost, cannot be replaced.

Although one week in October each year is set aside as Fire Prevention Week, people throughout the country would be well advised to check their homes and buildings for fire hazards each and every week.

Unless everyone is determined to eliminate the possibility of fires, they are bound to increase, which will place an added expense on the individual who already has to pay enough out of his earnings to forms of taxation.

Remember fires are not only a danger to your own life and property, but also that of your neighbors.

Where Does the Money Go?

Shortcuts and labor savers mean reduced costs and increased profits. Did you know that 80 per cent of the total cost of milk production in Alberta goes for labor and feeding charges? The deliryman's first objective is to cut down costs of labor and feeding. With this in mind he turns to consideration of proper herd management, correct feeding practice, and the right type of cow. Few farmers realize the extent to which individual production varies. The only way to find out definitely wh-ther or not your cows are worth the time and effort expended on them is to test each one separately.

To help farmers determine the milk and butterfat production of each cow in the herd, a system of cow testing is offered by the Alberta Department of Agriculture to all herd owners in the province. The service is intended chiefly for the owners of grade herds but pure-bred breeders may also enter their herds on test. Full particulars of this cow testing service may be obtained on application to the Dairy Branch, Alberta Department of Agriculture, Edmonton.

FRESHER FIFTH

Countries interested in frozen food have been notified by the New York office that the Frozen Food Institute will hold its 6th annual convention in Boston, Mass., from March 31 to April 4, 1947. Such matters as legislation, standardization, proper labelling, engineering and processing advances, transportation and trade ethics, as they pertain to the frozen food industry, will be on the agenda.

Make Your Home More Attractive

The coming guide of a "day or two" each month for making the home more attractive and desirable inside and out is advocated by Miss. Grosvenor J. A. Bernard of Prince Edward Island.

"The beautifying of our home is one of the vital stages in a happy and contented family life, and often it happens to be one of the stages of "under which leads to success", said the Lieut. Governor on a farm field day at Hazelridge, P.E.I. "Our standards of beauty and neatness both inside and outside our homes if we would entrust the next out of living.

"From the exterior point of view, all houses are not attractive and although we admire those where buildings are kept well painted, where fences are kept in repair and where the approach is inviting, it is regrettable that by too many homes have a neglected and forbidding appearance from the highway.

"Encouraging the hope that "in those days of greater abundance, more attention would be paid to maintenance of attractive homes" the Lieut. Governor put forward his suggestion that a day or two be set aside each month for home improvement.

"A good idea", he said, "is to mark that certain day on the calendar at the beginning of the month so as to make sure that it will not be neglected.

The occupants of a home may be of the most congenial type, they may possess many of the finest virtues, and their children may be outstanding citizens of the district in which they reside; but unless the care of their home has been given the attention and repairs necessary to improve and beautify it, the passer-by does not get a very favorable impression

As a result of even a few hours in any one locality having been devoted to the beautification of the home, the whole community will have benefitted in some degree. Some of the additional cost of the material should be made, but where not possible the grain and milk mixture should suffice

Birds should be starved for 18 to 24 hours before fattening and dosed with epsom salts (¼ lb. per 100 mature birds). They should have water to drink between feedings. Foods should be mixed to consistency which will just pour and be given twice daily in such quantity that they will clean it up in twenty minutes, any residue being removed. Some say the birds for 10 to 14 hours before killing and chill as quickly as possible after killing. Such fattening treatment should prove a profitable venture and produce the quality which encourages return orders from satisfied customers.

INTERIOR B.C. HONEY

The interior will produce over a million pounds of the 1,244,320 lbs. B.C. honey crop for this season.

Preparation of Cockerels for Market

Because of the time of capons, some degree of fattening or finishing of birds for market is necessary to produce a carcass which will grade No. 1 Canada. The amount necessary depends largely upon the grade you wish to produce. Birds which will grade well with little or no fattening, says H. V. Gatteridge, Poultry Division Dairy, Experimental Farm, Ontario. They also should be immediately commenced the practice of fattening for market immediately that the weight gained during fattening is the most economical of any gain made during the whole growing period and that the premium paid for the improved grade of the market bird is paid not only upon the carcass but also upon the whole weight of the bird.

Prior fattening and pre-fatter are the principal methods of fattening. Fattening or rations is the most desirable because it produces the best grade and fat in a shorter time and softens the flesh producing a very tender carcass. By fattening in batches of small numbers at a longer time to produce the same effect and is therefore less economical. Under satisfactory conditions two weeks of fattening should be sufficient to produce the grade birds with crop's storage. Care should be taken to allow a necessary if fattening is done in pens

If possible, skim milk or buttermilk should be used to mix fattening foods Unwatered whey also gives satisfaction that ground wheat or two parts of ground barley oats from which most of the hulls have been sifted or ground corn are the most efficient of the common grains for fattening purposes. Buckwheat, wheat, oats (twin hulls) ad barley are the next best in order of merit. A mixture of the best of the above grains, wet-mixed as stated above, will give satisfaction. If 7 to 10 per cent of meat meal is added to the mixture, gains considerably in excess of the additional cost of the meal should be made, but where not possible the grain and milk mixture should suffice

Flooding by Radar

A convoyed tractor operating recently as if operated manually has been ploughing U.K. wheat fields remotely. The tractor is the ordinary wheel type fitted with the Queen Bee apparatus used for controlling pilotless planes. It was used to plough a 14 acre field in Southern England. In one corner of the field stood the transmitting van. The tractor was pushed into position and then began to move by itself. It ploughed ten furrows, each 65 feet long in 10 minutes. Left and right turns were made perfectly. This successful experiment was the result of considerable radar research which has been carried out by the Royal Aeronautical Establishment at Farnborough, Kent. Ploughing by radio control will, if generally adopted, mean a tremendous saving in manpower since one skilled operator can guide 6 tractors simultaneously.

HINTS ON HEALTH

HEALTHFUL DIET

Pointing out that nutrition is a science with daily application to every one, a health authority suggests that wise people will learn all they can about healthful foods and combinations. Only by careful study of nutrition, the authority points out, can one be sure of the best return for money spent and time and trouble invested in food preparations.

• • •

FOOD FOR HEALTH

Health preservation and food conservation go hand in hand. Canada's Food Rules suggest meat alternates, such as fish and legumes. They call for a whole-grain cereal (though not necessarily wheat). They stress fruits and vegetables, which are plentiful in this country. All in all, they emphasize that Canadians can eat the healthy way while still sending food abroad for less fortunate countries.

• • •

TOOTHACHE AND HEADACHE

Thousands of dollars worth of time is lost in industry every year because of toothache. "Toothache can be a headache to industry" a health officer said, "Dental trouble means loss of efficiency, it is a waster of energy, and will result in loss in wages and revenue." It is recommended that people should have frequent dental examinations.

• • •

HEALTH SAVERS

Many diseases are preventable, point out health authorities, in considering persons of scientific protection available against common childhood diseases. Since vaccination and inoculation are two weapons with which an infant may be armed against infection, it is urged that all children be given these safeguards and that parents consult their family doctors concerning why, how and when to take advantage of them.

• • •

HEALTH ADVICE

Wise people go to a recognized authority when they want the best in advice and service. It is suggested that this is never more true than when seeking health. Well-meaning but unqualified persons have caused a lot of trouble and suffering, it is pointed out. It is urged that a professional medical man be consulted on all matters concerning physical well-being.

Now It's Life--Or Death

Competition, always the life of trade, is also a matter of life—or death. It is no longer competition just to see who can make the best mouse trap. It is more a competition to produce a sort of mass trap—something that can catch the souls and minds of millions and control the thinking and living of the world! If the wrong forces win this competition it will mean, not the end of our whole way of life and, for many of us life itself. Few bombs will roll on a main never before known in history

Most of us realize the surrender of Germany and Japan did not end the struggle for world control. A struggle we still are going on at. Parts But most don't understand this struggle We think it is just between nations between the democratic and totalitarian powers Or between free enterprise and nationalization Between the Fascist and anti-Fascist forces, as the Communists would have us believe Or between management, labor and government for the control of business.

The real struggle, actually, is not over whom but over what? What ideas are going to control the controllers? It is a struggle between the world's moral and spiritual forces and its materialistic forces—under the dictatorship of God on one hand and of man on the other Some foolishly think we can still escape control and go on living as we please But that is impossible. Man unmotivated are not men but beasts. And, unless we have the moral forces that comes from God speaks to us in our hearts we will have the iron control of human dictators.

Competing on the side of God means cutting out some of our present forms of competition at home, in politics, in business Moral and spiritual forces can only win the battle for control by taking up a more moral and spiritual way of life, and proving to the world that it works better than any other

APPLE TREE SHELTER

Apple trees do not thrive best on any particular exposure Most fruit districts, however, suffer from the effects of violent wind at harvest time; therefore, a slope with some protection, particularly against wintry winds.

Peacemakers Must Be Peacemakers

In these days, with pe-ti-tions being raised rather than solved at the Peace Conference, with the cage rocket bombs falling on Finland and Genoa, and Soviet warships going to control the world, enabling demand after demand, creating division and confusion and using every pre-text as a wedge to split the world's structure, what is the matter?

The democratic nations of the world need to find a common mind and a common heart. They need to know what they want and then to fight for it with a determination, skill and unity that is more than human.

It is not a question of being forced "out on the spot", and of having to adjust and to cry "yes" or "no" to the carefully planned manoeuvres of other powers That was the way that Hitler and not the democratic nations, came to be the peacemaker of world history in the last decade An peacemak ers we need to take the initiative and ourselves become the shapers of history to this decade

The fact emerges ever more clearly from the Peace Conference that this is not "peace" but an ideological war that we are in. The only way to avert a third world war of arms is to fight and win this war of ideas. And the way to fight and win an ideological war is not to take up a gun and say "We're right!" It is to take up our own idea and live it out till it proves we are right. To act in case is a way of life that gives others to it in the end a way to find peace in life and to make peace in the world.

LEAD BY EXPERIENCE

Canada's courage says about service in British this re ven in the filmest possible condition, because they are being hand's entirely under a fragmentary from start to finish. Regraded and pushed at strange temperatures there are sent to sunburned in heavily iced cars, and shipped to Britain in re frigerated ships by the complete shipload The adventure of solving this new method of the full ship load is that the whole load can b dealt with as an unit and therefore under possible medical hazard during the voyage and delivery to storage in the United Kingdom.

Rate That Help the Farmer

Fusion constitution of this and hundreds of other white rate during whether normal feeding oils and fortified whole milk powder contain as much Vitamin A as cod liver oil. Here, a technician in the Vitamin Laboratory of the Division of Chemistry, Science Service, Dominion Department of Agriculture, Ottawa, is preparing to put in the Vitamin A that supplies the rat its daily Vitamin A. Farmers' organizations and food economists are interested in this testing of animal foods.

Importance of Animal Protein in Hog Feeding

Protein is one of the essentials in a good ration and one that is frequently skimped. The main consideration in making up a balanced ration for pigs is to incorporate the highest levels of protein. The commonly grown farm foods, including the cereal grains, are low in protein. Therefore, a ration restricted to the cereal grains would furnish insufficient protein to meet the requirements of growing pigs, pregnant s ws and nursing litters. The protein content of these grains is not equal to the needs of animals that grow rapidly, says R. H. Wilson, Dominion Experimental Station, Alberta.

A brood sow fed only with its good distribution of bone requires a plentiful supply of protein food. The use of protein supplements all sows considerable quantities of grains as well as insuring a marketing of superior quality. The provision of protein-rich foods, particularly during the early life of the pig, speeds its growth and at the same time has an important effect on the proportion of fat i tion in the pig when it reaches market weight. I. should also be ..., since feed has too low a level of fa is contains in the diet fosters a general lowering in the vitality of the rapidly growing pig thus lowering his resistance to disease and harmful infestation.

Pregnant sows should always receive a good supply of protein, as rations lacking in the muscle building food are likely to produce small litters of weak pigs. Pregnant brood sows are up to m.Ter from Lack of protein in their feed more perhaps than any o ber kind of farm animals. One reason for this is that in producing two litters of pigs per year a great demand is made upon the prot in supply of the mother's body.

Oats, barley or wheat with a the addition of any other feed is not a suitable feed for a nursing sow. It is important that the protein content of the ration be maintained at a high level in order to support milk flow. Nursing sows require rations of higher protein level than dry stock to meet the needs of lactation.

Because of the fact that pigs will eat almost everything supplemental protein material of animal origin, skim milk, buttermilk, tankage, meat meal, fish meal or a commercial concentrate to which the animal proteins are permanent are incorporated as supplement. From the standpoint of nutritive properties the produce of animal origin are much superior to those from a plant source, such as oilcake meal, linseed oil meal or other protein rich vegetable products. However, products of vegetable origin can be used in mixtures in conjunction with products of animal origin, with particularly good results. Milk is still the best single protein supplement and the pig raiser who has an adequate supply, has a big advantage in producing economical and healthy pigs. When enough skim milk or buttermilk is available there is little necessity for the purchase of supplemental foods.

The results of tests conducted at the Experimental Station, Lacombe, show that protein foods have their greatest value immediately after weaning. The need for protein is greater in young pigs than in the case of those which have reached the finishing stage. Once the framework has been constructed, feeds of a more fattening nature may be used so that the final product will carry enough fat to tenderize the lean meat and make it palatable.

Plastics in British Shipbuilding

Two wooden plants of the "Bentonaut" design are to be replaced by sintered plastic. The new design, which is just as strong as wood thinking, has a number of advantages over the old type; it is easily washable, does not need babysitting and will not absorb oil or grease. This plastic decking is a Clydeside development. Green plastic has been tried successfully in the "Blackburn", a vessel in naval service. It is claimed to be springy underfoot, proof against tropical heat or Arctic cold and will not crack flex. It is restful to the eyes against sea glare. Another use of position in British shipyards is on the Queen Elizabeth, whose hull is being treated below the waterline with a plastic composition. This will present a smooth surface to the sea and so prevent friction at high speed. The Queen Mary is expected to be similarly treated.

Tenants of Housing Are Still 'Frozen'

Tenants of housing accommodation are still "frozen" according to H. Fraser, ... officer for the Alberta region of the WPTB. A general rule under present rental regulations tenants cannot be evicted for any reason if they pay their rent promptly and are in the generally accepted term "well behaved".

Those harassing regarding their rights may find that a court in cases of the slight change in the regulations governing shared or accommodation. Mr. Primrose explained. Formerly a tenant could not be asked to vacate shared accommodation during the war except he, but now under Board Order No. 649 tenants of shared or accommodation can be asked to vacate by the landlord giving six months' notice on a form provided by the Board. This notice may require the tenant to vacate at any time during the year.

Shared accommodation is accommodation where rooms are a part of the residence of the landlord by the landlord's agent and the main entrance and a kitchen, bathroom or a similar type of housing accommodation where tenants may be asked to vacate at any time. Mr Primrose pointed out.

Milking Record

Canadian production of flour in the last crop year (August, 1944 July, 1945), was the highest on record with 20,436,341 barrels against 24,054,400 barrels for 1944-45 an increase of 1,780,598 barrels in the yearly output. A highlight of the year was that production remained above the two million mark, month by month, ranging from the lowest monthly output of 2,000,000 barrels in August, 1945, to the highest monthly output of 2,202,267 barrels in March 1945.

Milfred production the crop year 1944-45 has attained a record output for any single year under review with a total of 201,544 tons

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"
THE RESUMPTION OF FREE TRADE

Mr. Hugh Dalton, Chancellor of the Exchequer, for the British Labor Government on September 25th informed a press conference at Ottawa that Britain was anxious to get multi-lateral world trading established at the earliest possible moment. He believed, he said, in much freer world trade.

On August 19th, before the Paris Peace Conference, the Honorable Mr. Alexander, one of Britain's official delegates to that conference, stated the firm opposition of the British Government to bilateral trading between individual countries, which, he said, was restrictive in nature Here Mr. Alexander took expressed himself in favor of multi lateral trading and freer international trade.

This is all mighty good news for our prairie farmers to hear, for the simple reason that there does not exist anywhere in the world a group of three million people living and working in one farming area, who depend as much for their prosperity on freer international trade as do our prairie people, or who stand to be harmed so much by those vicious bi-lateral trade agreements. We can hope, therefore, that the bi-lateral trade agreements which Britain has already made are merely temporary expedients, and that they will be abrogated as soon as freer international trade can be set up in this sad, complex worried economic world. In the meantime Canada could well set an example by lowering her own tariffs against British and foreign goods.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Food rationing in Russia will be extended late 1947, owing to heavy drawings on reserve stocks— Britain's wheat crop is now estimated at 68 million bushels compared with earlier estimates of 75 million bushels—France's wheat crop is expected to provide a larger part of the country's needs than last year, but imports will still be necessary.

Italy's maize crop is estimated at from ten to ten and one half million quarters, which is near the pre-war average —Australia's wheat crop is estimated at 155 million bushels, and Australia will have approximately 80 million bushels for export in 1947—The Dominion Bureau of Statistics estimates Canada's total wheat supplies for the 1946-47 season at 510,000,000 bushels.

Vegetables for winter use

● It's time to arrange for the storage of vegetables from the garden. Before putting in storage see that the vegetables are free from decay, disease, and damage caused by insects or rough handling. Store in a clean, well ventilated part of the cellar. If the floor is of earth, be careful to build a little water screen around it to maintain the necessary humidity. Beets, carrots, parsnips and turnips keep best in sand.

U.S. CHICKEN CROP

A total of 677.2 million young chickens were raised on farms in the U.S in 1946, the smallest number since 1940 according to a preliminary estimate by the Bureau of Agricultural Economics This is 10 per cent less than 1945 and 5 per cent less than the 1935-44 average

Control of Gladiolus Thrips

If gladiolus plants were infested by the gladiolus thrips in the summer of 1946, this does not mean that the insects remain dormant If present, treated during the coming season, spring and fall of the summer months will control the corms rendered completely thrips free, says Alan G Dustan Division of Entomology Dominion Department of Agriculture

The gladiolus thrips are not able successfully to pass the winter in the open anywhere in Canada. Only those thrips survive which are carried into storage in the corms If every grower of gladiolus in Canada would treat his corms before replanting next year or other of the spring and methods those insects would practically disappear

There are several ways in which this can be done. Among the other methods the use of naphthalene flakes or corrosive sublimate is still recommended. Large lots of corms can be dusted or treated by fumigation with calcium cyanide or methyl bromide Dipping in lysol has become popular in recent years and has proved cheap and effective Recently DDT has become known to be useful in the treatment of corms and have given excellent results.

No matter which of these methods is adopted the corms must be thoroughly cleaned and ripened before any treatment is carried out. Immediately after lifting the bunches are stripped off This means that treatments should be delayed until late autumn or early winter January is a good month in which to commence this work.

Full directions regarding the different treatments will be supplied by the Division of Entomology, Dominion Department of Agriculture, Ottawa.

Alberta's wheat crop this year is estimated at 162 million bushels by the provincial department of agriculture This compares with 142 million bushels estimated by the Alberta Wheat Pool.

FARMERS!

GENERAL

Q *What are Canada Savings Bonds?*
A Canada Savings Bonds are the successor to Victory Bonds and War Savings Certificates. They are your country's promise to return your money to you at any time and to pay you interest at an attractive rate.

Q *Why are Canada Savings Bonds being offered?*
A Because during the war, millions of Canadians learned the savings habit by buying Victory Bonds and War Savings Certificates. A recent survey shows that 85% of them want to keep on saving by a similar plan.

Q *Is the Government asking Canada Savings Bonds just to raise money?*
A No. Borrowing needs of the Government can be met by other types of loans. The main purpose of the Canada Savings Bond is to provide Canadians with a convenient way to continue this kind of saving and investment in peacetime.

Q *Is there any limit to the amount of Canada Savings Bonds that one person may hold? If so, why?*
A Yes. There is a limit of $30000 for each individual, but each member of a family may hold bonds up to the limit.

Q *What is the price of Canada Savings Bonds?*
A 100%. That is, a $100 bond costs $100. If payment is not completed on or before November 15th, 1946, interest will be added to the purchase price.

Q *In what denominations are Canada Savings Bonds available?*
A $50, $100, $500 and $1,000.

CASHING OF BONDS

Q *Can I cash my bond at any time before November 1, 1956?*
A Yes, any branch in Canada of any chartered bank will cash your bond immediately at full face value, plus interest at 2½%, upon your identification as the registered holder.

Q *Can Canada Savings Bonds be assigned or transferred?*
A They can be cashed, but not assigned or transferred. This is necessary to prevent any individual from acquiring more than the authorized limit.

INTEREST COUPONS

Q *What interest is paid on Canada Savings Bonds?*
A 2½%—payable yearly on November 1st from 1947 to 1956, by coupon cashable without charge at any branch in Canada of any bank.

Q *Are interest coupons registered?*
A No. They are payable to bearer.

REGISTRATION PROTECTION

Q *Why is it necessary to register Canada Savings Bonds?*
A Registration gives protection in case your bond is lost, stolen or destroyed. It is also the simplest way to ensure that individuals do not hold more than the $3,000 limit.

Q *In whose name can Canada Savings Bonds be registered?*
A They can be registered only in the name of one individual, adult or minor, up to the amount of the authorized limit.

Q *Can Canada Savings Bonds registered in the name of a child be cashed?*
A Yes. Banks are familiar with the necessary regulations

Q *Can Canada Savings Bonds be disposed of when registered in the name of a deceased person?*
A Yes, any bank will supply the necessary information.

Q *Can I replace my Canada Savings Bonds, if they are lost, stolen or destroyed?*
A Yes. It is wise, however, to keep Canada Savings Bonds in a safe place, as you would any other valuable documents. In case of loss you should immediately notify the Bank of Canada, Ottawa, of the circumstances.

HOW, WHEN AND WHERE TO BUY

Q *Where can I buy Canada Savings Bonds?*
A At any branch of a bank or from an authorized investment dealer, stock broker, trust or loan company—or through the payroll savings plan if this is in operation at your place of employment.

Q *How do I pay for Canada Savings Bonds?*
A In any of the following three ways:

1. By payment in full at time of purchase
2. By monthly instalments through a bank, trust or loan company
3. By regular deductions from pay, where employers operate the Payroll Savings Plan.

8 out of 10 will buy again....

Canada Savings Bonds

A Practical Basement Storage Room

Most of the difficulties in storing staple vegetables and some horticultural products, in the average basement, is the problem of controlling such important factors as temperature and humidity.

At the Dominion Experimental Station, South Vancouver, Dept. H Hinchey says this was overcome by constructing a small, insulated storage room in the northeast corner of a basement. It was so constructed that it included one of the basement windows, which was used in the installation of the cooling and ventilating system.

The room can be subdivided over one is found convenient. A useful size for the average family will be 6 ft. by 8 ft. Partitions should consist of 2 in. by 4 in. studding sheeted up on both sides with shiplap or whatever material may be available. The four-inch space between the studding should be packed with shavings for insulation. The plan also calls for a layer of tarpaper beneath the inside sheeting. The first floor joists should also be covered with tarpaper and sheated on the under side. Here again, the space between the joists should be filled with planer shavings. For the control of rodents and insects that fondly into the shavings or they are being put in: 10 parts by

storage room, 4 parts of ammonate of lime, and 4 parts of flowers of sulphur

Of much of the basement form durion wall is exposed above ground on the outside it may be necessary to shut the wall and board it up on the inside using planer shavings to fill the space between. This, however, is not usually necessary. A tight fitting door should be installed to provide an insulated room separated from the warm, dry atmosphere and the heat of the outside basement.

The outlet for the warm, cool air consists of an opening through one section of the basement wall. A useful size for the average family will be 6 in. by 8 in. Positions should consist of 2 in. by 4 in. studding sheeted up on both sides with shiplap or whatever material may be available. The four-inch space between the studding should be packed with shavings for insulation. The plan also calls for a layer of tarpaper beneath the inside sheeting. The first floor joists should also be covered with tarpaper and sheated on the under side. Here again, the space between, the joists should be filled with planer shavings. For the control of rodents and insects that fondly into the shavings or they are being put in: 10 parts by

Winter Stores for Bees Important

C. B. Gooderham, the Dominion Apiarist, gives a timely reminder to beekeepers about having sufficient food for bees during the coming winter All colonies, he says, should have at least 40 pounds of wholesome stores for the winter. Bees should be in the hive by the first of October in good bee condition or by the middle of October in more southern latitudes where it is likely to remain warm until later. Unripened honey or honey from honeydew should be left for the bees. Honey from honeydew is usually unsuitable for winter stores, because it contains a large amount of sugar, or sugar substitutes, that are not digested by the bees and may cause dysentery.

Examination of the honey stores should be made in the fall. Combs of honey or beekeeper honey are excellent for this purpose. A good plan, and one that is recommended, is to supplement the stores within the brood chamber with a syrup made of two parts of granulated sugar to one part of water. One pound of sugar should be allowed for every pound of stores required.

If combs that have a good enough honey in the brood chamber for the winter are not available, the beekeeper chance of wintering safely if given 10 to 15 pounds of sugar made into syrup in addition to the honey they already have.

In localities where there is a danger of the honey granulating in the combs, the addition of dextrin or starch an abundance of pure grade honey is stored in the brood chamber, some of the honey in the combs containing the most honey should be removed and empty combs placed in the centre of the hive, and the bees fed sugar syrup.

RESTORE PIG INDUSTRY

Northern Ireland is being urged to restore pig production, and, quotes the Canadian Trade Commissioner, the reconstruction of the industry is being considered by the Minister of Agriculture there as the most immediate requirement of that territory.

IN MEMORIAM

In loving memory of Father and Husband, J. C. Cripps, who passed away October 16th, 1946.

He bade none a last farewell
He said good-bye to none
The Heavenly gates were opened wide.

A loving voice said come.
Ever remembered by wife and family.

SEEDTIME and HARVEST
by
DR. F. J. HEANEY
Director,
Lac Ste. Anne Experimental Farm,
Onoway, Alberta

A Complete Seed Testing Service

For the benefit of greater farmers, Lac Ste. Anne Farm Performs an intensive and complete test of the seed samples sowed and harvesting kinds grown in Canada. It is seed supply and will thereby assist in the production of more and better crops. Complete information regarding the germination of your seed, and particularly seeds of noxious weeds.

Germination Tests Will be made for interested in the purchase of seed, and other materials, and will be glad to advise on the best methods of seed treatment.

Samples for Test Purposes will be examined for the presence of noxious weeds, particularly seeds of noxious weeds.

Samples should be sent in packets and full name and address should be written on the outside of the packet.

A Charge of 10c per packet of seeding lots, and other materials, will be made.

Remittance should be made by postal note or money order and not by cheque.

Results will be reported to the sender within two weeks after the samples are received.

Tests will be completed more quickly at first unless the number of samples increases greatly.

Samples should be sent to the Seed Laboratory, Lac Ste. Anne Experimental Farm, Onoway, Alberta.

DDT Effective Against Cockroaches

Cockroaches are frequently abundant in apartment houses, hotels, dwelling houses, restaurants, stores and, in short, in any buildings where there are warm moist conditions and a plentiful supply of food. They have been known to invade homes from local garbage dumps. They move quickly and take refuge in cracks and crevices in walls and floors. They remain hidden during the day and emerge at night to prowl about in search of food. They are principally nocturnal animals and are particularly fond of foodstuffs favored by man. Cockroaches may are usually most abundant in old buildings and gain access and other places where food is readily accessible.

In Recommendations: It must be stressed at the outset that cockroaches are a common species of household pests, the formulation of DDT for the control of cockroaches in a low per cent powder. Preferably it should be applied by a dust gun to the recesses and cracks around the kitchen and bathroom or wherever the insects are found running or hiding The powder must be applied at least Two treatments should be repeated three or four weeks later after the first application. Two roaches will be eliminated rather slowly at first unless the powder also contains pyrethrum or it may take several weeks. Usually after a few days the cockroaches will be found running around in their normal manner.

Roaches are also readily controlled by sodium fluoride dusted in the places frequented by the roaches The sodium fluoride should be in the legs of the roaches and in cleaning themselves they are poisoned. It remains effective seven and may be left undisturbed for a considerable time while the insects have completely disappeared. As this chemical is somewhat poisonous, precautions should be taken to prevent children or domestic pets from gaining access to it.

Two other materials which form the basis of many proprietary insecticide preparations are pyrethrum and borax. Pyrethrum has proved to be less effective than sodium fluoride and borax. Nevertheless, where exposed to air. Borax is also

PENICILLIN FOR CATTLE

Britain's Minister of Supply announced that by arrangement with the Ministry of Agriculture and Fisheries, penicillin is to be made available for use of veterinary surgeons in the treatment of bovine mastitis and other diseases of dairy cattle

Q. Why is rust of value to the body?

A. During mental and physical rest fewer demands are made on the body than at any other time. The heart beats more si why; the breathing is slower. Consequently the lung rust and skin cycles of poisons from the disease is lessened. With less to do, the body can do it's work better and at the same time fight the disease to better advantage. Just as an individual does better work when his body is not pois ned by fatigue.

Q. If a tuberculosis patient is resting in bed, would worry and anxiety hinder the healing of the lungs?

A. Although supposedly quiet he cannot be if he has worry and mental u rest. These conditions do influence hurried by the disease of the lungs.

Sunshine during convalescence is essential are added in need them to Calgary, where careful attention and early reply will be given.

New Development in High-Speed Building

A new system of high-speed precast building, which on blue houses to be completed within one week, has been introduced by a Sheffield, England, engineer-builder. Techniques involves the use of moulds of steel casing, cellular concrete cassettes found with insulation brick, stone chippings or pebble—which are cast with the pieces of jigsaw all dovetail of to make a rapid and complete fit. It was first employed in the erection of two experimental houses in Sheffield. It is claimed that by the same system factories can be built in a few weeks and a cinema, seating 1,100 people, in one month.

The Recipe Corner

By the Home Economists of the C... of the Dominion Stor...

During the past few months, Dominion Summerside Store staff have had different types of "demonstrators" for cannon etc. Many inquiries have been received as to the recipes thickening power of wheat, potato and rice flours, cornstarch and meal recently wheat starch. After experimenting with these different flours and starches, they have found that rice and potato flours and wheat starch have approximately the same thickening power as cornstarch and twice as much as all purpose flour

Eggs are also thickeners and when the supply is plentiful they can be used in place of starch or flour thickeners. Conversely when they are scarce and consequently high priced they may be replaced, at least in part, by other thickeners. One-half tablespoon of corn starch or 1 tablespoon of all-purpose flour may be substituted for 1 egg and vice versa.

Comparative Table for Thickeners
Cornstarch - 1½ tablespoon to 1 cup of liquid.
White flour (all-purpose)—2 tablespoons to 1 cup liquid.
Wheat starch—1 tbsp. and 2 teaspoons to 1 cup liquid.
Rice flour—1 tbsp. and 2 teaspoons to 1 cup liquid.
Potato flour—1 tbsp. and 2 teaspoons to 1 cup liquid.

CHOCOLATE CREAM
2 ounces unsweetened chocolate
2 cups milk
4 tablespoons cornstarch (heap) or 2 tbsp. white flour (¼ cup) or 4½ tbsp. of either wheat starch, rice or potato flour
1/3 cup sugar
¼ teaspoon salt
1 egg
1 teaspoon vanilla

Add chocolate to 2½ cups of the milk and heat in top of double boiler until chocolate is melted. Mix cornstarch or white flour or either of the other thickeners with sugar and salt and blend with the remaining half cup of milk Add slowly to hot mixture on top of the double boiler and stir constantly until mixture thickens. Cook for 20 to 30 minutes stirring occasionally. Beat egg yolk and cook 2 minutes. Remove from heat, add flavouring and fold in the beaten egg white. Chill for servings.

LEMON SNOW

4 tbsp. cornstarch (½ cup) or 4½ tbsp. of other wheat starch, rice or potato flour
1 3 cup sugar
½ teaspoon salt
2 cup. boiling water
1 lemon
2 egg whites

Mix cornstarch or other wheat starch, sugar, potato flour with enough cold water to make a thick paste. Add boiling water gradually, stirring constantly. Cook over direct heat until thick and clear, about 5 minutes. Add grated lemon rind and juice (3 tablespoons) and pour the hot mixture slowly over the stiffly beat egg whites, stirring until well blended. Pour into individual sherbets and chill. Serve with custard sauce using egg yolks. See above.

Fall Painting

Early fall is an opportune time for painting around the farm because it is then that the farm buildings are most in need of protection supplied by good paint. Wood that has become parched and dry during the summer will be exposed to the rigours of winter

Metal, too, needs protection with paint against rust. Implements should be painted after the summer and fall work is done. Much of the life and serviceability of farm equipment depends on the protective care given during the fall and winter.

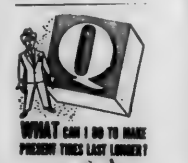
Buildings in out of the way places, such as eaves, should be well caulked with paint. Using an old brush to get at awkward corners will save a good brush for the common ones whenever. Paint pipe ventilators, eaves and gables next. Because around the farm if metal is rusted, it should be sand-papered or wire-brushed down to the shiny metal before painting and painting. Paint will prevent rust on a clean pipe, but it will only retard, not stop, the work of rust going on under the paint.

Ever since October 15th there's been a steady stream of folks flocking to buy Canada Savings Bonds. Already thousands of Canadians have become happy owners of these new bonds.

Hurry!—don't delay another day—get your name in for your bonds now. Put all your pennies and future savings into Canada Savings Bonds—up to the $2000 limit, of course. If you should need the money you can cash Canada Savings Bonds at full face value, with interest, at any time at any branch in Canada of any chartered bank.

But please remember this point. These are "Serve Yourself" Bonds. This time there are fewer salesmen. They will not be able to call on everyone. So it's up to you to take advantage of this fine investment opportunity—without delay.

You can buy them at any bank; authorized investment dealer; stock broker; trust or loan company—for cash or by the Monthly Savings Plan. Where your employer offers a Payroll Savings Plan you can buy Canada Savings Bonds by regular deductions from your pay.



Our expert tire service will add many, many miles to their life.
We use Goodyear methods and materials exclusively.

Many Enquire About New Bonds

Advance inquiries at branches of chartered banks, investment dealers and brokerage houses about purchases of Canada Savings Bonds first offered for sale on October 15 indicate a valid desire by Canadians to continue wartime Victory Loan and War Savings Stamps saving habits, Canada Savings Bonds national headquarters reported.

Sales of war savings stamps and certificates have been terminated and final instalments on Ninth Victory Loan purchases will have been completed by the end of the month. The Canada Savings Bonds, which bear 2.75 per cent interest and can be cashed at any time at face value, offer a means of maintaining the savings habit

Just returned from the Food and Agriculture Organization meeting in Copenhagen, H. H. Hannam, president and managing director of the Canadian Federation of Agriculture, has written in a letter on Canada Savings Bonds addressed to Graham F. Towers, Governor of the Bank of Canada:

"During the war the Canadian people came to have great confidence in this type of investment, because of its bedrock security. Generally speaking, they will welcome the government's decision to continue to offer this form of security, one in which the ordinary citizen can readily participate."

"A feature of the new offering," shortly to hot mixture on top of the double boiler and stir constantly until mixture thickens. Cook for 20 to 30 minutes stirring occasionally. Beat egg yolk and cook 2 minutes. Remove from heat, add flavouring and fold in the beaten egg white. Chill for servings.

LEMON SNOW

4 tbsp. cornstarch (½ cup) or 4½ tbsp. of other wheat starch, rice or potato flour
1 3 cup sugar
½ teaspoon salt
2 cup. boiling water
1 lemon
2 egg whites

Mix cornstarch or other wheat starch, sugar, potato flour with enough cold water to make a thick paste. Add boiling water gradually, stirring constantly. Cook over direct heat until thick and clear, about 5 minutes. Add grated lemon rind and juice (3 tablespoons) and pour the hot mixture slowly over the stiffly beat egg whites, stirring until well blended. Pour into individual sherbets and chill. Serve with custard sauce using egg yolks. See above.

Fall Painting

Early fall is an opportune time for painting around the farm because it is then that the farm buildings are most in need of protection supplied by good paint. Wood that has become parched and dry during the summer will be exposed to the rigours of winter

Metal, too, needs protection with paint against rust. Implements should be painted after the summer and fall work is done. Much of the life and serviceability of farm equipment depends on the protective care given during the fall and winter.

Buildings in out of the way places, such as eaves, should be well caulked with paint. Using an old brush to get at awkward corners will save a good brush for the common ones whenever. Paint pipe ventilators, eaves and gables next. Because around the farm if metal is rusted, it should be sand-papered or wire-brushed down to the shiny metal before painting and painting. Paint will prevent rust on a clean pipe, but it will only retard, not stop, the work of rust going on under the paint.

Potato Growers Ask Price Supports

The first formal application for action by the Agricultural Prices Support Board formed in August, 1944, was made in Ottawa on October 7, 1946, by a thirty-man delegation representing potato growers in the five Eastern provinces. Four of a further deputation potato markets caused by a large crop in New Brunswick was announced by the delegation who were told by J. G. Gregoire, Board chairman, that there is no need for the present depressed state of the market.

Estimated potato production in 1946 of 76 million bushels is not alone responsible for depressed prices, said Mr. Taggart He attributed reduced prices partly to the dissemination of misleading statements on the danger of a big surplus.

Delegates asserted that growers now receiving as low as $1 to $1.25 per 165 pound barrel at shipping points are not recovering production costs Mr Taggart suggested that if every potato grower were to realize that they year's potato supplies were little larger than in recent years, dealers might not be able to buy at their current offer. He cited estimates by Dominion Department of Agriculture economists that reduced imports of United States potatoes in the winter of 1946-47 would result in available supplies being only two million bushels in excess of the 1942-46 average.

Requesting government action, delegates said they recognized that any prices support policy lacking production and marketing control would increase acreage and inflate production, with eventual disastrous results to the grower

The chairman and delegates agreed that support measures in order consideration of a swift and [illegible] Canadian and continental European markets for additional and immediate export sales; full development of potato dehydration and conversion to starch and glucose; regulation of marketing; and a future price insurance scheme. The government would accept delivery of specified grades of unsold potatoes at a minimum price next spring.

Production of potatoes in Canada this season is estimated at 44,000,000 hundredweight from 520,000 acres, or an average of 84 hundredweight per acre. This is an increase of 25 per cent over the 1945 crop.

World of Wheat

By W. G. L. STRANGE
Director "The Crop Testing Plan"
NEW VARIETIES TO WHEAT AND OATS

A distinguished visitor called upon us the other day. Dr. H. C. Trandin of the University of Adelaide, Australia, who was delighted to show us some very interesting new white wheat Pierre Breeding Institute had developed in Australia for the special Wa... which is resistant to [illegible] leaf rusts what don't weather.

Canadian Plus Pierre is now in with the new wheats. Redman and Benger are making great strides. Our Rust Research Laboratories at Winnipeg has developed [illegible] new overwintering oats which are considerably resistant to all present forms of stem and leaf rusts cause The kernel is of a nice size, and these new oats have other favorable qualities. One will see the farmer-fire of these new oats in coated R.L. 1272, and one of 67 between Victory and R.L. 1551. The other is called R.L. 1602 and is a cross between Victory and R.L. 1272 in the [illegible] pedigree. Seed of these new varieties is now being accepted and contract seed for general farm use, however, will not be available for some years.

What crop plant breeders and agronomists derive from agricultural Plant Breeder. It is evident however that our Government must be prepared to encourage the work of our own Canadian Plant Breeders so that we may not have to rely entirely upon [illegible] for our seed supply.

* * *

ITEMS OF INTEREST IN THE WORLD OF PRODUCTION

Wheat production in France is officially estimated at 244,552,000 bushels compared with 193,536,000 average of 286,510,000 bushels. Normal fall rains is estimated to supplies here [illegible] quarter of her crop comes by air. Fire, following destruction of a [illegible] sank some 350,000 tons of wheat from Canada and the United States, compared with her normal imports of 150,000 tons.

World wheat production is estimated at 5,373,000,000 bushels, slightly below the pre-war average of 5,514,000,000 bushels. India and Argentina have concluded a new agreement calling for the exchange of maize and wheat products for Indian hessian and jute. The United States wheat production is now estimated at 1,107 million bushels.

"Where were you on the night of the 17th?"

"I thought I told you to keep away from here," smiled Bob.

"My dear, I never see you any more, since you turned the cellar into a shop," protested Ethel. "If a cop were to ask me where you were on the night of the 17th, I wouldn't even have to think. What a lovely table, Bob! Who's that for?"

"It was to be a surprise for your birthday, but you see what you get for snooping. I've put in every free night for three weeks on it, but I've never been so happy in my life. For years I figured I couldn't afford the tools and the lathe and stuff. But when we got down to a budget that looked after our life insurance and other essentials first, I saw I could indulge myself and do a bit of tinkering."

* * * * *

A man with adequate life insurance enjoys a freedom from worry that nothing else can give him. Premium payments call for systematic saving and budgeting. Once the future of his loved ones is secure, the hand of a family can relax and derive pleasure from his hobbies.

Have you, or a life insurance agent. Ask him for advice in budgeting income. It is good citizenship to own life insurance.

New Workers Housed in Model Village

Street scene in Canada's newest "Village" as Massey-Harris men come home from work after 5 o'clock

The Massey-Harris Company has housed 54 families and 91 single men in buildings that have become known at the former No. 5 R.C.A.F., R.C.A.F., as Brandon and a village that will eventually have a population of more than 7,00 has been born. The community a comfy has its own water system, electric sy tem, heating, junior and s ni r high school, baseball diamonds, swimming pool, trunk, store, community centre. It will have schools, a chapel (since a general store, his barber rains indoor, a roller rink, a big playground to supplement the playgr und at the early school, a refrigerated p ol, a canteen, grade school and its own government, elected by ballot.

A unit new body undertaking reviving hundreds of dollars it is proof of how far the agriculture of implement industry will go to provide Canada. Rescues with the implements they need, residents of the "village" noted. It is the answer of the Massey-Harris C. officials said, to the challenge to find homes for the workers is needed.

There is no other post-war village like it anywhere in Canada where private enterprise has done all the work.

"We needed homes. They needed skilled workers. They were willing to go a long way for us. We approached it," the villagers knew said.

The living of women is a thing of the past for them.

The former service flying who l, where hundreds of pilots were turned out to help beat the Nazis and the Japs, including the only R.C.A.F. pilot to get the Victoria Cross, is located a few miles west of Brantford on No. 53 highway.

"Re-chi" "Ten-about" that rolled over the grounds of the compound was in full cry has given place to the cayuse "May — coo!" "John — on!" of the lawn-with other boy rompe. The lush green acres of the finest, safest, manned playground kids ever had.

Consumer: Names are best. Being the time marching fast and to beat. Rapid growth of the village is no accident. A year before the war ended the company saw the possibilities in the camp fr relief from the hungry ghe tage Brantford fiend. Hospitals not be-gun. Almost a year after the war ended fixed arrangements were made with the government to leave 53 buildings for a three-year period with an option to extend the period to five years.

As soon as it had the paper work done the company started remodelling. Four trucks bake the first "settlers" arrived. They're still there, Mr. and Mrs. Thomas G. Phillips. He is a production man at the plant. The plumbers had scarcely moved out before he moved in with his wi e and two chi ren.

"This three-roomed apartment, we love it", he said. "When we got it it was pretered. It still is and a home besides."

The six school rooms 300 cens formerly owned by a private man who moved it over to the R.C.A.F., enlisted, got bi tents up on the counter and later was moved further back in Germany.

The station had already made conveniences, hot and cold running water, steam heat, garage disposal, garbage incinerator. The building the company took over are three, four and five-roomed apartments now.

The shining cinds will go into the fall and winter fill necessary repairs and alterations.

The former officers' mess is now "an attractive lounge, free to all the "villagers". There is a snack [illegible] at Page 24.

Radiograms

AN EPIDEMIC

This is the story of an epidemic that's welcomed at any radio station — an epidemic of new programs.

This week marks the beginning of three nets of drug store broadcast by Maple Leaf 580 Bug C. L. G. George Murray of CBC staging fame is featured on one show for Monarch Flour five times a week. Twice a week the Rat River Broadcasters go to bat for Rat River Cereal and on alternate da- A western Assignment h lops on the relay points for Bren Cereal.

Johnny Wayne and Frank Shuster of Canadian Army S ow fame are quickly gaining recognition as Canada's number one comedy team. They're heard every Thursday evening for RCA Victor.

Amos 'n Andy, supported by such outstanding impro vocalists as the Dubs Rhythm Boys and others, go to bat for Rinso every Tuesday evening. And speaking of soap shows, CKOA now broadcasts the Jack Smith Show five times a week for Drene and Orzol.

The new shows offering generous prizes each week are Cheng Scrapbook on Tuesday and Dr. Mercy's Lucky Listening on Thursday. Three programs on Wednesday that make listeners leap with envy. Refrigerators, furniture, radios, dozens of suits of spices are more run-of-the-mill affairs.

Incidentally, Cheese Scrapbook features Boy Ward Dickens, one of radio's first quiz masters who became internationally famous as emcee of the Here You program a dozen or so years ago.

These are a few of the major new shows announced by CKCA. Besides, the schedule is packed with numerous other new attractions. It all adds up to an embarrass of new shows—but one that can be tolerated with the greatest of pleasure.

STREET SCENE - 1946

All SIZES always every second
You may receive Government cheques. You can cash them without charge at any branch of any chartered bank in Canada. In one year some thirty-odd million cheques were issued for Family Allowances, the Armed Services, Merchant Seamen, Provincial Governments, Companies and the like. More than one for every second of the day and night!

Can you imagine the expense to taxpayers if this money had to be distributed in cash through thousands of special pay offices around the Dominion instead of having to go to each office to get your money?

Taken in Stride
Your bank performed many such public services throughout the war and is continuing to do so. It is taking these additional tasks in stride — happy to play its part in assisting Canada's trade and industry.

Men Needed in Lumber Industry

"In view of the continuing shortage of lumber and other forest products it is recognized that special efforts are needed to help meet woods labor requirements", said A. MacNamara, Deputy Minister of Labor, in a special appeal issued to all employers in the woods industry.

Labor Department officials are staging a Dominion-wide campaign to obtain additional volunteers for lumber camps and concerted attempts are being made to obtain any man who can be spared for this all-important industry.

In his directive, Mr. MacNamara suggests that individual operators keep in close touch with their local employment offices. "By keeping those offices fully informed of your needs, they will be in a better position to render service to you either in recruiting workers available locally or in other office areas," he stated.

Farmers who can be spared from agriculture on case an harvesting is completed might be another source from which recruits for the lumber industry might be obtained, suggested the Labor Deputy Minister.

The United States corn crop is estimated at 3 1 2 billion bushels, or about 33 bushels for every man, woman and child in that nation.

An ex-boy soprano, Eddie [illegible] for a two-week try-out in 1938 and has been singing and playing at the Monday to Friday broadcasts ever since.

Growth of Widely Spaced Trees

Every species of plant has a characteristic habit of growth. Some are spreading, some are upright, while others may be intermediate in habit of growth. Among trees the form of Lombardy Poplar or Weeping Willow is well known to many people.

The natural growth habit of a plant may be modified somewhat by environmental conditions such as exposure of planting site, type and fertility of soil, nearness to other plants The manner in which trees in native Alberta groves "lean" towards limestone as adaptation to environment, says John Walker, Superintendent, Forest Nursery Station, Dominion Wind, Sask.

Just how environment will affect habit of growth is also forcibly illustrated in the types of Lodge Pole Pine trees growing on the Cypress hills in Saskatchewan. Those standing by themselves in open spaces are spreading, low growing specimens. Each radiating from of a more erect sterling grows branches at the top. Trees at the margins of such areas have retained many green branches near ground level.

On the other hand trees [illegible] upward to secure sufficient light to maintain growth Only a few branches of each tree secure enough light to remain alive On the other hand light is available from every direction. Although the environments of the trees and conditions are favorable for every branch remaining alive and grow ing vigorously.

Growth of widely spaced trees is therefore likely to be more spreading than is the case with closely-spaced trees. As the former continue to grow, pro uce additional space is available they will continue to develop in width rather than in height Development of closely spaced trees will be restricted in heigh growth rather than in width

In farm shelterbelt- height and density are both desired. At relatively close spacing, namely four feet between trees and between rows, density is provided by outer rows (usually caragana or willow in outside row and ash in inside row), while height is provided by inner rows (usually maple, poplar, elm and sometimes ash) As growth height is reached by trees in outer rows, and branches on trees in outer rows are allowed to develop near ground level, conditions on the ground among the trees become unfavorable for weed growth and favorable for building up a forest floor, composed of dead twigs, fallen leaves and other intermediate organic matter.

Hog prices declined $2.25 a hundredweight on the Calgary market on Wednesday of last week. At Edmonton the drop was $1.50 a hundredweight The drop in Calgary amounted to about $2.50 per hun.

UNDERWATER PHOTOGRAPHY OF WRECKS

In order to assist salvage operations Britain's Admiralty is experimenting with the underwater photography of wrecks The object is to determine scientifically the practical application of this novel technique Lack of light in muddy waters, local tide conditions, and the depth of the wrecks are all limiting factors which will have to be carefully analyzed Such researches, if successful, will save considerable time and labor in salvage undertakings.

8 Perspicacious People

According to Polaroid, this four-feller used square shoe-signed—of course neutral colors or chromatonal . . . which proves well shows that the "right use of tint" also plays its honor in Canada Savings Bonds.

IN RECENT ADVERTISEMENTS we have been suggesting that the way to save money is to have a plan and stick to it.
Now comes this Dominion Government savings plan, ready-made for your needs. It enables you to add to your present holdings of Victory Bonds by the same tried-and-true method you used during the war; paying for your purchase in cash, if you like, but better still by convenient instalments, as you earn.
You found out for yourself, with every Victory Bond you bought, that this is a savings system that sends . . . convincing proof that you are "save some for yourself."
Simply call at your Royal Bank branch, sign an application for one or more bonds, to be paid for by convenient instalments spread over a year if you wish. Keep up the war-time saving habit. Invest in Canada Savings Bonds.

CANADA SAVINGS BONDS
- Are as good as cash—backed by the Government of Canada . . .
- Can be bought for cash, or by instalments out of income, at any branch of this bank . . .
- Can be bought by salary deduction at your place of employment . . .
- Can be sold at any chartered bank any time, for what you paid for them, plus earned interest . . .
- Are available in four denominations: $50, $100, $500 and $1,000.
- Are registered — each bond you buy is registered in your name at Ottawa.

Restraint Urged by Producer, Consumer

Recent rumors and tantalizing statements about price control have intensified the concern already felt by consumers over the recent increase in the cost of living, according to the WPTB.

However, to strengthen out the consumer-minded the daily component of what has happened since the First and Second Great Wars is interesting in August, 1945, one year after the Second Great War, the cost of living index showed that prices had risen 34.4 points above the war's outbreak." In November, 1945, one year after the close of the First Great War, when there was no price control system, the index had risen 46.2 points above its immediate pre-war level. However the inflationary spiral continued until it reached its highest point in July, 1920, when prices had almost doubled.

While there is perseverance in the comparisons, it also gives grave cause for alarm when one realizes that the present intense pressure against the stabilization program should prove too strong to be resisted. The best answer to these pressures is restraint, the Prices Board points out. This should be

THE GAME

Let's play it out—this little game called Life.
Where we are listed for so brief a spell;
Not just to win, amid this tumult rife,
Or where excitement and gay appearance swell;
Nor just to conquer where some one must lose,
Or reach the goal whatever be the cost;
For there are other, better ways to choose,
Through in the end the battle may be lost.

Let's play it out as if it were a quest
Wherein the game is better than the goal,
And travel minded life truly conquest
Of errors made, if such with dauntless soul
But stick it out until the day is done,
Near vanishing fairness for success or fame,
Its urban line battling hour after hour,
The world at least can say: "He played the game."

—Grantland Rice.

We condemned for every Canadian consumer and producer Restraint in consumer demands for goods in short supply, restraint in producers' demands for increased returns.

Getting back to the cost of living, the recent increase which has taken place does not mean that price control has broken down. On the contrary, it means that Canada and their price control system are being inflating to check. We must continue to hold it in check.

It is true that upward pressures on our price levels are great and the end of the war has not dropped it entirely. A certain amount of adjustment that price control measures have been successful in limiting this was inevitable to the minimum practicable extent, as clearly indicated by the experience of the United States when the powers of their price control agency expired, and by the record of the First Great War period.

Coal is needed more than food in Europe according to a delegation of agriculturists from the U.S. which recently toured that continent.

How to Have Good Plants in the Home

Home plants add to the comfort and enjoyment of a home, particularly during the winter months. The tough old Aspidistra and the vigorous Asparagus Fern add a great deal of support in dry or draughty shaded corners but most plants respond quickly when given a more favorable environment, states R. W. Glover, Division of Horticulture, Experimental Farm, Ottawa.

Most flowering plants, like Geraniums, Chrysanthemums and Primula like plenty of sunshine, but cool temperatures. The dry, hot winter atmosphere of most Canadian homes does not appeal to plants that require moist air and a cool root temperature. This is the usual cause of the Cyclamen plants, obtained from the florist at Christmas, failing to bloom in a room in the kitchen of the Lady Mac and Christmas Cheer type, Asbrean Vision and Lafayette are two of the best factory flowering plants for the average home where heat is plentiful and sunlight poor.

Ferns, and most foliage plants, as well as African Violets, are the most suitable plants for sunlight exposures. Begonias, Cineraria, Spring Bow, and Wagtail Trees grow in even less light but Coleus are more brightly colored in sunlight.

Soil varies for different plants from the mixture of grit, peat and leaf mould suitable for ferns and succulents to the heavy clay loam preferred by the Geranium. In general, an open soil mixed with plenty of decaying root fiber is best as a basis. Sand or leaf mould can then be added to suit individual requirements.

Water for home plants is best supplied from the bottom by standing the pot in shallow water for 1 to 1½ hour until the moisture reaches the surface of the soil. This will only need to be done once or twice a week. Plants growing rapidly in moisture at high temperatures require more water often than those under opposite circumstances.

Hot, dry air is not only detrimental to the growth of home plants but encourages the development of white fly, red spider and mealy bug, three annoying pests. The best method of controlling such pests is to smoke the pests, where possible, on a tray of moist gravel and to spray with Nicotine concurrently with a fine spray of cool water.

Model Village

Continued from Page One

ber. The theatre is being remodelled. Once a week, at least, 1000 villagers and guests will see a movie, with feature, shorts and cartoons. Concerts, dances are being organized. Badminton, and basketball are on the program. A nine-hole golf course is planned. Also under consideration is a park with lawns, flower gardens, ah-ahs (trees, rustic seats) and tables.

When the general store opens within a short time, the village accounts for drugs, hardware, groceries, meats and dry goods, housewives will do all their shopping in the village. The former attempt's now will become a reality.

At present the children of school age attend school in a converted Air Force building a few minutes walk distant. This arrangement will continue until their own school opens.

Elections for a self-governing body will not take place until the village is fully populated. There will be a new village council in Strathcona County then.

A seven-man committee composed of company employees now in the Strathcona area has been taken care of all public facilities and utilities.

Two British war brides are with their husbands there. A chevy Carpool is hand of the largest family. The Carnahans have six children. Their apartment has five rooms, living room, kitchen, three-piece bath and three bedrooms. The family came from Thornbury last May. Mrs. Carnahan is a former Bramford girl.

Villagers point with pride to the cleanliness of their quarters, their village street, their modern coal water and their convenient bus service to Bramford.

The water is pumped from the artesian well and stored in a 1,000-gallon underground tank and an 80,000 auxiliary tank. Pulling power for pumps is provided.

An award geared as on the village goals: It is Tom Money recently retired after 40 years with the Massey-Harris Co. Mr. Money's last point with the company was with the property group. He is now resident of the property of Near Anson's thermometer and the station.

Poultry Exhibits

Alberta exports to send the usual yearly quantities to this year for the re-opening of the Toronto Royal Winter Fair. Illness there in Hide time now to obtain a prize bird and be satisfied, the poultryman who wishes to send birds should immediately air mail his request for a prize list to W. A. Dryden, secretary of the Fair. Poultry exhibitors should also forward a list of their entries to C. W. Travers, Poultry Husbandman, Alberta Department of Agriculture, Edmonton, so that arrangements can be made to reserve the required amount of space.

Exhibitors should contact the Poultry Commissioner without delay as the last advantage may be taken of the express assistance supplied by government grant and the Alberta Poultry Federation.

The First United Church Y.P.U. held a re-appointment meeting at the home of Rev W D Rose on Tuesday evening, October 22nd. The next meeting will be held in the church at 8 p.m., on Tuesday, November 3rd. Miss Hope will report on the Young People's Convention. Officers and committees will be chosen at this meeting. All former members and all interested young people 18 and over are welcome to attend. Meetings will be held fortnightly on Sunday evenings.

NOTICE TO MILK CUSTOMERS

Commencing November 1st milk deliveries will be discontinued on Sundays. Customers are advised to keep a supply of milk on hand to carry over Sunday.

CARRCADDEN DAIRY

Don't forget the Whist Drive and Bridge Party sponsored by the St. George's W.A., Monday, November 28.

Prizes will be awarded for the highest scores.

Mrs. L. E. Hurlbut, an old time resident of Fort Saskatchewan is leaving here this week-end to make her home in Edmonton. Mrs. Hurlbut's father, who has been in hospital for a number of weeks is expected to be released soon and will make his home with Mrs. Hurlbut.

The Masquerade Dance, sponsored by the Fort Hockey Club, to be held on Friday, November 1st is promising many favorable comments.

It is evident from the conversations, one hears, that many men and women will be present in costume this year.

Here, dry air is not only detrimental to the growth of home plants but encourages the development of white fly, red spider and mealy bug, three annoying pests. The best method of controlling such pests is to smoke the pests, where possible, on a tray of moist gravel and to spray with Nicotine concurrently with a fine spray of cool water.

Between August 10th and September 30th nine ships carried 2,822,000 bushels of wheat from the Hudson Bay port of Churchill to the United Kingdom. The Churchill route is the shortest from Saskatchewan to the United Kingdom, being only about 2,500 miles by rail and water, while the Panama Canal route is 14,000 miles. Churchill's main handicap is its short shipping season.

A Reminder

Veterans of both wars are reminded to be at the Legion Hall by 10 a.m. on the morning of November 11th to participate in the parade and unveiling of the cenotaph. Please, if possible, wear your uniform.

Early Tuesday morning Mr. Percy Galloway was rushed to the Lamont Hospital where he was operated on for a stomach disorder. The operation proved to be a success. We wish him a speedy recovery.

Mrs. Galloway is spending a few days in Lamont to be near him.

Minutes of October Council Meeting Of Municipal District of Strathcona

The Council of the Municipal District of Strathcona, No. 23, held its October meeting on the 15th with all members in attendance. Reeve Lee in the chair. Minutes of the previous meeting and the financial statement for the month of September the matter of assisting in the installation of a public scale at West Saskatchewan was discussed. Councillor Adamson and the secretary were a committee appointed to make arrangements with Mr. Leslie Lot, regarding installation of the scales which he had agreed.

The application of Loyola and Melody of South Cooking Lake for a recommendation to operate a Class "B" restaurant, ice cream factory and tobacco store was considered. As the license was recently issue to Wm Millard to operate a restaurant at the same location there was some doubt in the minds of the Council as to the wisdom of recommending that another such license be granted. It was finally decided to leave the matter in abeyance until the next meeting so that Councillor Adamson could be advised of the intention when he would be in the neighborhood at an early date and report back to the Council at the next meeting.

By-Law No. 91 and 96 were given three readings authorizing the sale of Lot 11 in Terrance Heights to Mr. Glen Sikes for $65, and a number of lots in King George No 3 to Mr. D. B. Hargrave on the basis of $365.00 per acre.

The Council were notified of the appointment of R. J. Whitbread as the new District Agriculturist whose territory would include the Municipal District. Mr. Whitbread will also be the Government's official representative on the District's Agricultural Service Board.

The secretary was instructed to make application to the Chief Bridge Engineer for three new culverts.

In view of the uncertainty of the steel situation, the Council placed an order for a carload of steel culverts with delivery to be made during the season of 1947. The Council also confirmed an order given to the Fredman Building Supply for 10,000 feet of bridge planking.

At two o'clock the Council sat in the business of the meeting to sit as a Court of Revision to hear a number of appeals that had been entered against the assessment placed on fur farms. Three appellants were present to argue their case but after careful consideration the Court felt it had no authority to grant the appeals. After hearings had been completed, the sitting of the Court adjourned and he dens of the meeting.

Mr. Merryweather representing a committee for the Veterans Relief in the Plesman View subdivision, formerly called the Hardin Estate, was present to give additional information concerning their application for five protection with the City or Edmonton and the trustees of the committee of the previous meeting and the financial statement for the month of September the matter of assisting in the installation of a public scale at West Saskatchewan was discussed. Councillor Adamson and the secretary were a committee appointed to make arrangements with Mr. Leslie Lot, regarding installation of the scales which he had agreed.

Josephsburg

Josephsburg Reformed Church will celebrate its annual Harvest Home Pastoral on October 27 at 11 o'clock in the morning and in the Hamlet Hall at 2 o'clock in the afternoon at 8.30. The guest speakers will be Mr G. A. Rose of Edmonton and Rev. H. B. Rowbotham of Vegreville. Mr. Bragg is a former missionary of Korea and is now head of the Alberta Correspondence School work.

Chinese Box luncheon held their regular monthly meeting of the Sub Local at the Masonic Temple on Saturday last. The officers for the coming year were elected as follows:

President, Mrs. Clark. Vice President, Leo Piercy. Secretary Treasurer, Miss Leary.

A lively discussion ensured as to how one could encourage Local Men to be more interested in the Lodge. To this we were all agreed that the loss of such a club would be more irreparable and that the money they contribute should be more efficient, the better they would be pleased.

We in Josephsburg are fortunate in that we have a local Board that really does function. All three are members of parish committee of school and all three are keenly interested in the efficient management of the school. They hold regular meetings it is true, but no matter is too large or too trivial to claim their attention. The one request in which they are most interested is that they have no Sold Funds, but even have their recommendations seem to be accepted by the Divisional Board, as long as they are reasonable.

Added to that we have a Community Club which embraces every able-bodied woman around and which gets things done. They recently were that it is for the man-folks to procure the stoves of war; for the women-folks to see that what use it is made of those stoves. Our ladies are "varin' to go", and one would need only to call their attention to some needed improvement to induce them to fasten their teeth into it. Like the pr verbial bu'l dog, "What they is they hold".

There is one fish stocking from this powerful chain and that would be the formation of a Home and

There is an excellent article in the September issue of the Alberta School Trustee Magazine entitled, "Public Relations", which might well form the text for a Community Meeting. "There has been very little effort to enlist the help of the people or to keep the people informed not only as to what is being done in education but way it is being done."

"But," you may say, "the people are not interested." Then surely it is our duty as educators to see that they are interested. According to this article, we form one-fourth of the influences moulding the lives of their children, home teachers, school teachers, playmate teachers not community teachers. Through us we are last on the list, we are the only influence receiving payment for our duties. Clearly the duty devolves upon us.

"The fault dear Brutus lies not with our stars but with ourselves."

That we are underlings."

The topic is on the agenda for the next regular monthly meeting of the Local (2nd Monday) at 8 p.m. Teachers, note the time, the first Saturday of each month at the Masonic Temple at 2 p.m. not 2:30 as in the past.

The November meeting will take the form of a "pot supposition" evening, to be held at the apartment of Mrs. Obst, 9020 107 St., who welcomes all teachers accompanied by their boy friends, girl friends or just friends. The party is billed for November 16, 8 p.m. This will be Armistice Day week.

The Josephsburg Good Will Club turned out in goodly numbers, (considering the calls of thanking) at the home of Mrs. Piercy. December 9 was determined upon as the meeting day for the Hamlet, at which the committee minutes made by the members during the past months will be read by secretary. Watch the committee minutes made by the members during the past months will be read by secretary. Watch the committee minutes made by the members during the past months will be read by secretary. Watch

Seed Supplies for 1947

Yes, we're already thinking of seed grain for next spring. It's not too early either. This year, as for the past seven years, the co-operative arrangement whereby registered and certified seed is made available to farmers through district agent of the Canadian Co-operative Implement Association, fixed is also available from other grain sites or agents on similar terms. A farmer requiring seed of this quality to improve his crops or for seed purposes need only see his elevator man, or phone or order, and should do so at an early date if he wishes to be sure of getting the variety and grade he needs. The supply of the top grades is always limited and all grades of some varieties are likely to go quickly.

For those who do not desire registered or certified seed, indications are that there is no large surplus of the province in which, despite frost, drought or other hazard, there will not be seed to the farms for general seeding in 1947. There are some commercially by can't seeds as offered, but seed supplies are available within any reasonable distance in this area. The problem of seed supplies should not be difficult but when a farmer must buy seed he should be sure to get only high quality seed of a recommended variety. This can be accomplished only by arrangement for it early in the season while it is possible to plan seed cleans.

British Columbia has a huge seed crop this year—in excess of eight million bushels.

Fish Oil For Poultry

The main reason for feeding fish oil is to supplement the low level of Vitamin A and D in home grown grains, says C. W. Young, Poultry Commissioner. Vitamin A is one of our most invisible vitamins and even when fish oil is found that is being fed all the time, it is often advisable to give the birds a little extra fish oil. One fish might of cubs or cubbelliver oil is a good precaution to keep up the vitamin A and D in the diet for the additional of cases fish oil.

An easy and efficient way to feed the oil is to put the right feeding of grain in a pail, pour over it the careful of fish oil per recommended allowance, only the grain thoroughly and feed the oil soaked grain in troughs. Ample feeding space should be allowed so that all the birds get their share.

The feeding of cases fish oil should not be overdone or harm may result. Oil coated grain given every other night for three days will be ample. In cold weather, both grain and fish oil should be warmed before mixing. In the event of an outbreak of colds the treatment may be repeated once each week for a period. Oil given indiscreetly once each month throughout the winter is good feeding practice, especially for birds bred for breeding purposes.

The Recipe Corner

CANNING

Grain a large number of canning fruits and vegetables, of varieties, fruits, jellies and pickles, the homemaker is now counting her chickens for anything counting her.

Canning of fruit and fruit is an convenient to have when it is on—more a matter, a special meal has to be prepared for a Sunday convenient to have, in modern very good eating. What better way is there to make use of fruits and vegetables than by pumping over the harvest, can, with the result that they may have a shelf ripened for dishes that will prevent their getting a good grading and consequently a good price on the market. Those fruits that are not at canning to their duty, that is lacking vegetably, may be canned also.

* * *

The 5 Rowing are recommendations and directions for canning chicken of fruit:—

Chicken or fowl should stand for 2 to 24 hours after killing, then cut up in large pieces (drumsticks, joints, breast, legs and wings). All pieces should be boned except the drumsticks, then the raw meat is packed in clean jars or in pails in the bottom of which has been placed a little salt. Other seasonings in the form of 1 carrot and 1 small onion may be added to taste. No liquid should be added. Glass rubbers are then partially sealed and the cans completely sealed for processing.

Lions rubbers and the cans are processed for one hour in the pressure cooker at 15 lbs. pressure, or in the boiling water bath for 3 hours, counting from when the water begins to boil, that is a good rolling boil. The glass rubbers are sealed as soon as they are removed from the pressure cooker or the boiling water bath and cooled in an upright position. Sealed should never be inverted in cool. All meat must be cooled immediately and supply in a cold water bath or under cold running water.

* * *

For Pre-cooked Canning—

The reason fat should be removed as that the skin left on and the chicken or fowl cut up in pieces. The pieces are packed in a basket with water. To a feet of about 4½ lbs. 1 pint of water is added and the food boiled for 1 hour in the closely covered kettle. For a chicken of the same weight, 1 cup only of water is added and the boiling time is cut in half. After fowl or chicken is pre-cooked, the skin and bones are removed and the fine liquid strained through a

JUNIOR WHEAT CLUBS

Work of the Junior Wheat Clubs suffered during the war years, but there is now an increased interest therein. This year some 32 clubs with a membership of 500 were organized.

The Junior Wheat Club movement has done more to improve the quality of seed wheat in Alberta than any other single factor has ever been attempted. The movement deserves every encouragement.

8 Perspicacious People

According to Webster, the familiar word means shrewdness of understanding, mental penetration, quick grasp and clear vision. The "eight out of ten" who plan to invest in Canada Savings Bonds.

IN RECENT ADVERTISEMENTS we have been suggesting that the way to save money is to have a plan and stick to it.

Now comes this Dominion Government savings plan, ready-made for your needs. It enables you to add to your present holdings of Victory Bonds by the easy stated-and-easy-method you used during the war: paying for your purchases in cash. If you like, but better still by convenient instalments, as you earn.

You found out for yourself, with every Victory Bond you bought, that this is a savings system that works . . . convincing proof that you can "save money for yourself."

Simply call at your Royal Bank branch, sign an application for one or more bonds, to be paid for by convenient instalments spread over a year if you wish. Keep up the war-time saving habit. Invest in Canada Savings Bonds.

CANADA SAVINGS BONDS

- Are as good as cash—backed by the Government of Canada.
- Can be bought for cash, or by instalments out of income, or any bonds of the kind.
- Can be bought by salary deduction on your place of employment.
- Can be sold at any chartered bank any time, for what you paid for them, plus earned interest.
- Are available before denominations 50, 100, $500 and $1,000.

Income Tax and the Farmer

On March 20th, 1946, a delegation of fourteen representatives headed by H. H. Hannam, met with the Prime Minister and members of his Cabinet and presented a brief on behalf of Canadian Agriculture.

This presentation included a number of recommendations regarding income taxation and its effect on farm business. It is most encouraging to note that the Cabinet now fit to recognize the logic and fairness of the Canadian Federation's claims and included a number in the budget proposals announced in the House of Commons on June 17th.

One of the most important of the provision that allows farmers and fishermen to average their income tax over a period of three years. This will be a "moving" average, that is the three year period will be moved along with each succeeding year. The benefits of this provision will not become apparent until 1948 when the farmers will make their first three year average calculation. It means that a farmer should make out his income tax returns regardless of his net profit or loss. Crop failure may mean no profit in two of the three years. The returns of the third year which may be a bumper, can be average with the two preceding years before the income is taxable.

The second provision of import ance is that in which a working wife is allowed an income exemption of $2500.00 on income earned by herself in addition to the married exemption of $1,800 on the husband's income.

An other provision is that when there has been a delay of several years in checking and completing income tax returns, interest on amounts found due and payable after checking will not be collected for a longer period than twenty months. This is even better than the Federation's request for a two year limit.

A fourth provision provides for the establishment of a Board of appeal where claims against assessment of income tax in the year of 1946 and in subsequent years may be heard.

The removal of excess profits tax from a farmer who is sole proprietor of his farm and the increase of exemptions from $1,200 to $1,500 for married couples and $600 to $750 for single persons will be of benefit.

There is no doubt that the Canadian Federation of Agriculture was instrumental in gaining these concessions. While regard to "the three year moving average it is now up to the individual to make his returns regularly so [illegible] information is available for averaging his income.

We don't have to be good at everything, but everything we do should be good.

World of Wheat

Director "The Crop Testing Plan"

OUR FARMERS LOSING 63 CENTS A BUSHEL

A farmer friend wants me to speak to the citizens whether Britain is re-selling Canadian wheat to other countries which Britain purchases from Canada at $1.55, which I believe, Fort Saskatchewan and who receives the profits on such re-sales.

The British Government does not divulge this information. Britain has the right under the Wheat Agreement to re-sell Canadian wheat that she buys at $1.55 at any price she can secure, and anywhere she pleases. When she resells Canadian wheat she profits. It would seem incredible that countries like South Africa, New Zealand, Newfoundland, Denmark, Holland and others who want Canadian wheat should pay $2.10 (the official Board price—when Britain will have a surplus of Canadian wheat and can sell it at a cheaper price than $2.10 and make a great profit for herself. The British Government did announce in August that it intended to make a longer period than twenty months. This is even better than the Federation's request for a two year limit.

A fourth provision provides for the establishment of a Board of appeal where claims against assessment of income tax in the year of 1946 and in subsequent years may be heard.

The removal of excess profits tax from a farmer who is sole proprietor of his farm and the increase of exemptions from $1,200 to $1,500 for married couples and $600 to $750 for single persons will be of benefit.

There is no doubt that the Canadian Federation of Agriculture was instrumental in gaining these concessions. While regard to "the three year moving average it is now up to the individual to make his returns regularly so [illegible] information is available for averaging his income.

We don't have to be good at everything, but everything we do should be good.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Australia's unprecedented wheat harvest for the 1947 season is estimated at 70 million bushels. Before average wheat acreage is reported from Argentina and other South American countries—Severe drought is expected to ensure a massive reduction in India's wheat production—World rye production for 1946 is estimated at 1,550 million bushels, approximately 16 per cent below the 1935-39 average.

European wheat production is placed at 1,980 million bushels, some 35 million bushels above 1945 production, but approximately 16 per cent below the 1935-39 average —When production in Africa is estimated at approximately 135 million bushels, some 56 per cent above last year's small crop, and approaching the pre-war average.

Less Livestock on Canadian Farms

According to the survey of the principal classes of live stock on Canadian farms as at June 1, 1946, a decrease in number was recorded in all classes—horses, cattle, sheep and hogs—compared with 1945, as follows:

Horses, 2,204,856 in 1946, a decrease of 197,580 since 1945. Milk cows, 3,012,900 in 1946, a falling off of 94,300 compared with the numbers at the corresponding date in the previous year. Cattle (including milk cows), 10,388,900 in 1946, a decline of 272 600 from 1945. Sheep and lambs, 3,371,400 in 1946, a drop of 245,600. Hogs, 5,377,900 in 1946, in a decrease of 648,200

The decline of horses on farms occurred principally in the Prairie Provinces. In regard to sheep, the only Provinces showing a gain over 1945 in numbers is Saskatchewan where a slight increase is recorded ($18,400 head as against 813,200 in 1945). The all-over reduction in numbers of sheep for Canada was 245,400 or 6.7 per cent.

120 Million Pounds of Canadian Beef for U.K.

The federal government has signed a contract with Britain to provide a minimum of 120 million pounds of beef in 1947 and a maximum of 130 million pounds in 1948.

The price agreed upon for 1947 shipments is $24.25 per hundred pounds for choice quality red bond, $22.25 for good quality blue bond, $21.10 for medium quality, $19.30 for cow carcasses good to choice, all on the basis of frozen weight f.o.b. Canadian seaboard.

For boneless beef the price is to be $28.50 a hundred pounds for blade and $21.00 for frozen.

For the 1948 shipments it would appear that the British will pay approximately 2 cents less per pound.

The price paid by the meat board to Canadian packers are based on domestic selling prices, which vary according to the different grades

Crop Rotation Experiments Tested Famous Cows

Two types of rotations were studied for study on the Dominion Experimental Farm Indian Head [illegible] business in the longer rotation was that 3 the short rota tion (20 intervals) a difference of [illegible] business.

There is little doubt that the soil and its manure has helped make the [illegible] better in the two rotation practices the soil and [illegible] fertility [illegible] the latter practice. Average Head Experimental Farm Woods have been considered much more efficiently where the grass was good in the rotation and in 1942 more [illegible] were noted in the stubble wheat crop and more wild oats in the [illegible] wheat in the 7 year rota tion, than in any of the fields in the longer rotation.

Dr. C. Harper, herdsman at the Dominion Experimental Farm, Agassiz, B.C., has just retired after 26 years' service. During his service with the farm he tended many famous cows. In 1928 he had charge of Agassiz Sarie May Echo [illegible] made the world's record of 30,956 pounds of milk and 1,340 pounds of butterfat. Later under his care Agassiz Pietje Inka Sylvia produced 29,912 pounds of milk and 1,257 pounds of butterfat. The Agassiz Experimental Farm Herd had the enviable position of developing two cows each with over 1,250 pounds of butterfat, a record held by no other herd on the American continent until a few years ago.

SEE THE WANT-ADS.

Argentina Wheat Up

President Juan Peron of Argentina says his country is now getting $2.50 a bushel for export wheat. Apparently all that money does not go to the farmers, for the president said the profit being made by the government wheat board goes to subsidize consumers. Wheat for domestic consumption brings around 77 cents a bushel, or about the same as the Canadian domestic price.

The president said Argentina would not return to the old system of grain selling He mentioned that besides the profit on what exports, the government had Control over $77 million from last year's Record crop. Some said such profits should belong to the government and the entire country instead of monopolistic private interests

"TWO TON BAKER"

Big man of the United States' early morning airwaves, Rich "Two Ton" Baker, west international October 7 when Quaker Oats Company's Breakfast Parade made its debut in Canada, to run for 26 weeks. Two Ton has over 300 pounds of Baker to give solid backing to any show he lands, plus a certain amiable touch on the microphone.

Dirk Baker has been putting himself to music since he was three years old—at which time he astonished his parents by listening on the piano stool and giving a lively rendition of "Yankee Doodle", with no previous training except a brief session with a phonograph record of the song. At the age of four he began setting an accompaniment to his music, a semi-professional singer, in preformances at lodges and community affairs.

Since 1932, when he made his first radio appearance in Cedar Rapids, Iowa, while playing with a band, Two Ton had a continuous career in radio circles. For the past year and a half, in fact, he has participated in early morning piano and song programs on WEBC, Duluth.

On the side he was raising watermelons that he used down to the Mideast. Baker thought that, as the report may be made, he might be a little underappreciated. But on the band tours he found he was a old young. Every-here he went he met people who had heard his voice.

Baker's seven year old son has grown him extended training in music. The youngster inherited his father's musical talent, and the Quaker Breakfast Party should primarily interest youngsters during their hours.

Two Ton Baker may be heard every Monday, Wednesday and Friday at 7:45 a.m. over radio station CJCA.

The United States cotton crop is the poorest in 25 years. As a consequence, experts have been arbitrarily cut

Breeding Corn Hybrids

Here is shown single-cross corn hybrids in a greenhouse at the Division of Forage Plants, Central Experimental Farm, Ottawa. They will be crossed to produce double-cross hybrids and the seed contained will be used for distribution to farmers in 1947 and after. A yeast's work is started by marking the ears to be picked and dried.

Higher Freight Rates

By R. J. Deachman.

Transportation in the coming years will be highly competitive. Rising wage rates are motivating by an increasingly high volumes of traffic due to war. The future is unenviable. There is every right in the policy which labor has accorded rights to labor, rights to the nation as a whole. From 1939 to June Freight Rates (Mr. H.S. 386), July 7, 1946.

The cost of has happened. Increased wage rates have brought a request for higher freight rates. The 1945 Annual Report of our Canadian Pacific shows short increases in operating costs above present levels. Labor rates accounted for about of the increase, approved in direct wages and in higher costs of fringes.

We watched these changes, we know they were taking place. Labor received its increases in 1945, some back, received them again in 1946. The inevitable happened. These increases impinged on costs of moving the goods. When costs rise, freight rates must go up. Something must be done. We cannot see the arteries of trade and industry strangled within restriction, the railways of Canada must be put in a position to carry on.

I have pointed out these things times without number but if there is one purpose clearly fixed in the mind of the public it is this: I will not anticipate event. The announcement of coming wage increases did not cause a ripple on the shores of Canadian thought. The forces of resistance have held weakened in the last few years. We have a large and powerful government owned railway and no government owning a railway is in a position to negotiate with the workers of that railway on rates of pay. It will always have the strongest possible temptation to lose.

The farmers who should be vocal in these matters are hog-tied, they are hoping to raise world wheat prices by an iol control of 100 million bushels, coupled with "dumping" for the sake of charity. This induce a quiet and repose in regard to other problems—they left—labor to be it after freight rates.

The move the government is making on the wage complex arrangements, the more hopeless do the people become. There should be strong and vigorous opposition.

Place Safety Line on Main Highways

Alberta is to have a white centre strip on its main highways as a further precaution against accidents, according to information received by the Alberta Motor Association. This new marking will commence in the southern part of the province and will be advanced as far as possible during the current season.

Provincial officials feel that the centre strip which is used extensively in the U.S. will be a distinct aid to safe motoring in the province.

Another step is to place a layer of light sand on the shoulders surfacing of main highways. This is expected to meet the objects no of motorists to the highway which, they claim, had the effect of lessening the effect of headlights. With a fine light sand on the shoulders motorists are reluctant to drive off the highway when a car is being operated over blacktop surfacing.

Provincial officials also say that the sand will be worth while to the blacktop and serve to improve and strengthen the surface before the "load hard surfacing is laid.

The mind is like a purse: its worths best when it's open.

Canadian Seeds for Europe's Crops

An extensive acreage of grasses, clovers and alfalfa in Britain and several countries of Europe this year were grown from seed sent from Canada. In the 12 months ended March 31, 1946, total shipments of such seeds to Britain amounted to 3,332,000 lbs. To UNRRA went 2,100,000 lbs. Belgium had 1,264,000 lbs.; Switzerland 630,000 lbs.; Russia, 600,000 lbs.; Netherlands, 2,000 lbs.; Belgian Congo received 448,000 lbs. of alfalfa, alsike and red clover and grasses and flowers. France took 67,000 lbs. of alsike clover, alfalfa and red clover exports to the United States amount to 1,315,000 lbs.

The value of the total shipments of seed of grasses, clover and alfalfa was $1,870,453.

In the more 12 months 2,150,000 lbs. of vegetable seeds were sent to Britain, 1,150,000 bushels of seed barley went to UNRRA and 1,000 bushels of wheat, oats, peas and flax went to UNRRA and 14,300 bushels of flax flower seed to France. The aggregate value of these shipments was $16,0..,729.

The export shipments of all these seeds was arranged by the Special Products Board.

Canada's Health

DISEASE THAT CAUSES

For the sake of public health, as well as in the interests of style pride and neatness, garbage should always be put out for collection in substantial, covered containers. The Department of National Health and Welfare, Ottawa, has issued a caution on handling of garbage, pointing out that use of cardboard packages, paper bags or newspaper bundles for the discards of kitchen and closet makes not only unsightly and unsanitary, but also breeding places for flies and vermin, and for the spread of disease.

Flimsy garbage bundles, say the departmental officers, are liable to be disturbed and ruptured by scavengers, including dogs, who are among the most notorious agents in spread of epidemics.

S E E
SNORING

Snoring and bean king through the mouth are serious matters not always given the special attention they deserve. For instance, doctors know that mouth breathing, in children, can lead to permanent changes in actual facial structure.

Snoring indicates failure of the nasal passages to perform their proper functions and is common among those suffering from some form of blockage of the nose.

Medical advice should be sought for the cause of mouth breather and where there is a tendency, particularly in cold weather, for a child to develop nasal colds with persistent discharge, the family physician should be consulted at once.

S E E
LISPING AND STAMMERING

More than half the children who

QUARANTINE—confinement to home, during the period of "incubation" (development) of a disease. Disease of any one known to have been exposed to a disease cause.

SUSCEPTIBILITY — NON-IMMUNITY liability to a communicable disease (as in the case of a person who has not been found to have a natural or artificial immunity from that disease.

S E E
HEALTH BOOKLETS

By arrangement between federal and provincial governments, many free public health literature is distributed from the various provincial centres to all interested.

For information on Canada's National Physical Fitness program, on Nutrition, Child and Maternal Health and Industrial Health, enquiries may be addressed direct to the Department of National Health and Welfare, Ottawa.

S E E
LEAD POISONING

Lead poisoning is one of the most dangerous occupational diseases. Metallic lead or any of the numerous lead compounds may cause poisoning. In some industrial occupations anyone an exposure to lead and poisoning can occur in many of these cases per precautions are taken by employer and employee.

In an announcement on this type of industrial hazard, the Department of National Health and Welfare, Ottawa, points out that the most common cause of lead poisoning is the repeated breathing of lead dust or fumes. The control and removal of lead dust and fumes from a workroom by "housekeeping" methods, and adequate ventilation, is stated to provide the best protection.

Lead may also be absorbed through the skin or by swallowing lead compounds. Industrial health authorities declare that eating at the workbench is a common source of lead indigestion.

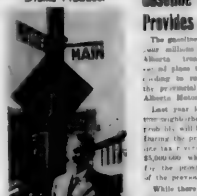
S E E
SKIN CLEANSERS

Use of industrial chemicals and solvents as hand cleansers is dangerous and may cause dermatitis, even industrial health authorities. Declaring that the safest cleanser for the skin is warm water and a mild soap, the experts list as possibly injurious such commonly used substances as turpentine, alcohol, wood alcohol, naptha, acetone, gasoline, kerosene, benzene and various other acids and alkalis.

They also advise against the too frequent use of abrasive soaps and stiff hand brushes from removing paint and other stubborn stains. These skin-irritants are bound to do harm. Rather, they recommend soft nail brushes

The farmers of Alberta are fully justified in seeking livier conditions on the farm which will at least approach those existing in urban centres today. A contented and prosperous farm population is the surest guarantee of stability, employment and prosperous times to towns and cities.

Drama Producer



Here at the Prairie Region's most famous street corner. For logs and Main Winnipeg is Archie Mac Chisholm hale of Vancouver, now CBC drama producer for the Prairies. This is said to be the oldest intersection in the world, but Archie seems comfortable enough in the bright sunshine of a Manitoba September

Gasoline Tax Provides Big Revenue

The gasoline tax is continuing to pour millions of dollars into the Alberta treasury, running in second place to liquor profits, according to reports received from the provincial government by the Alberta Motor Association.

Last year liquor profits yielded over eight million of $9,000,000 and trouble will, without doubt, repeat during the present year, the gasoline tax revenue is expected to run $5,000,000 which shall be saved for the premiers and well ahead of the previous year.

While there has not been a great increase in car registrations over the previous year, cars have been put to use and since the removal of all wartime restrictions on gasoline on August 1945.

The fact that the enormous revenue obtaining such a large revenue from the gasoline tax is expected to continually demand of the AMA

A [illegible] reference to expert estimates on the consumption and maintenance of automobiles.

The whole situation is expected to be taken up when the annual meeting of the AMA at Edmonton, Calgary and Lethbridge are held during November The provincial general meeting will convene early in December when there will be further discussion of the whole question and demands for action on the part of the motorist to earmark road funds for highways.

Agricultural Policy

The labor government of Great Britain plans to make permanent the present system of assured markets and guaranteed prices for agricultural products. Prices will be based on established costs of production.

Hon. Tom Williams, British minister of agriculture, says that self government within the agricultural industry through county committees holds the greatest hope for the future wellbeing agriculture as a great national asset, and assurance will be given to help it play an efficient part in the economic life of the nation.

THE FORT RECORD

Profitable Marketing of Turkeys

With screened resting pens for turkeys, producers are advised by C. W. Traves, Poultry Commissioner, to keep in mind available markets. The Christmas season is considered the best time for the buying marketing, but conditions are changing. Farmers now have either finished turkeys, and turkeys of better growing and developing strains.

A prime turkey is a bird of good market type, well finished, with a fair to medium covering of fat. Excessively fat turkeys are not a profitable buy for the consumer. Any time from now to the Christmas market, the producer should obtain a maximum price for prime turkey. The birds should be marketed when ready and not held for the Christmas market. This is particularly advisable if they are being raised on wire or slat verandahs, where they tend to go off their legs if held too long.

The producer should handle carefully each turkey in his flock, culling out the most desirable males and females as breeders for next season. The remaining birds should be divided into lots according to their age and market development. Any birds that are ready for marketing should be killed, dressed and sold without delay. The latter birds should be finished for market by keeping a liberal supply of fresh water them at all times. In addition to the usual feed they should receive a moist mash consisting of one half boiled barley and one half developing or fattening mash; preferably mixed with sour milk. This should be fed at noon, a little at a time until the birds are accustomed to it. The quantity is then increased until they are receiving all they will clean up in half an hour. If possible, there to be finished for market should be separated from those to be kept as breeders, since it is not desirable to have breeding birds lose well finished or fattened for the dressing season.

Value of Boars Shown by Records

That a high quality boar at twice the price of a cheaper boar will more than pay for itself when used in a breeding herd of six or seven sows, is illustrated in an example furnished by A. J. Charnetski, Livestock Supervisor.

A farmer in central Alberta who used a different boar each year for the three years 1942-43 kept accurate records of his swine marketings. This showed that the quality of the boar used in 1942 was higher than either of the other two boars. The pigs sired by the 1944 litters was the poorest type of the three boars used in the herd. A check of the grading slips showed that in 1943, 47 per cent of the marketings graded A; in 1944, 20 per cent graded A; and in 1945, 10 per cent graded A.

Prospective purchasers are urged to buy only the highest quality sires, preferably those of known ancestry coming from high scoring advanced registry herds. Advice and assistance in the choice of a suitable boar can be had from your District Agriculturist or from the Livestock Branch of the Alberta Department of Agriculture.

Know Your Potato Grades

Although most housewives buying butter or eggs now make sure of the grade, few seem to realize that potatoes should be purchased in the same way. There is considerable differences in quality among the grades of potatoes offered for sale.

The Alberta Department of Agriculture is co-operating with the Dominion Marketing Service to improve the quality of potatoes appearing on the market, most of which will be designated Canada No. 1, or Canada No. 2. All potatoes packed must meet certain grade specifications established by statute. There is no reason why somewhat misshapen, diseased, damaged or mis-shapen potatoes or potatoes below minimum size. These defects are not legally permitted in any grade and should not be on the market. When you buy potatoes make sure that the grade is specified on the bag.

ENGAGEMENTS
Mr. and Mrs. L. M. Kutch of Edmonton wish to announce the engagement of their youngest daughter, Hazel Lucille, to Mr. Carl Walter Stoltz, youngest son of Mr. Philip Schultz, also of Edmonton. The wedding will take place October 26 at 8 p.m. in Green Lutheran Church.

Partridge Hill

Misses Jessie Allen and Dorothy Attwell left Sunday to resume their studies at Vermilion School of Agriculture.

Mr. and Mrs. Wilmot Allen accompanied the girls to their destination. Mr. Allen reports that about 35 per cent of a bumper crop has been harvested between the district and Vermilion.

Meanwhile men and women here are working at top speed, early and late, to finish up one jump ahead of "Old Man Winter". About 10 per cent remains to be done.

Mr. Holgerson of Edmonton spent the week-end with his family here.

Mrs. Alf Frey has been on the sick list. We are pleased to report she is somewhat better.

Mrs. Meagher, Allen and little daughter, Doreen, were Edmonton visitors last week, guest of Mrs. Allen's father, Mr. Russell Stewart.

Mr. and Mrs. R. B. Dean of Victoria, B.C. were guests of Mr. and Mrs. George Cobaldenton last week.

Mr. and Mrs. Harvey Cranston and family of the Fort were Sunday visitors at the home of Mr. and Mrs. Cliff Allen.

School Flashes

The Executive Council of the High School Students' Union met on Monday, October 21 with six members present. Showed Galloway, the new president, opened the meeting and presented the suggestions received from the students. At the meeting the following officers were elected:

Editor, Eileen Jacques; Social Convener, Frances Schreter; Girls' Sports Rep., Myron Harker; Boys' Sports Rep., Bill Oliver.

The students have been working on a worthy project during the past year the raising of funds to purchase a Victor 16 m.m. Sound Projector This projector retails at approximately $700.00 but the Department gives a 50 per cent grant, and any unions does are waived on approved school equipment.

The membership of visual education have long been recognized knowledge of subjects far beyond textbook comprehension of the student can be imparted, in a fact time, by means of visual instruction. Visual education creates interest and concentration in the student, stimulates mental reaction in the learning process.

To enable the parents of child ren at school, and others interested in the welfare of the school, to see this in action, a public demonstration will be held in the Fort Community Hall early next month

It may only take a minute to change a lifetime.

Fire Commissioners Visit at Fort

On Saturday, October 26, the Fort was visited by the Dominion, Provincial, B.C. and the city of Edmonton fire commissioners.

These gentlemen, who are visiting towns across the Dominion, are making a survey of many of the buildings to check for fire hazards and are recommending means whereby the appaling loss of life and property can be eliminated to a great extent.

They also requested that all buildings in the Fort be inspected by the Fire Department, who will make suggestions how to eliminate these fire hazards. A report of all inspections made, along with any recommendations is to be sent to town. At a fix are date these men will return here to inspect premises on which alterations have been recommended, and see that these are enforced.

The commissioners were pleased with the fire fighting equipment, the way in which the organization is functioning at the Fort, however, they did suggest that the additional pumping equipment in the fire hall should be installed as soon as possible, as this extra equipment is needs for full fire protection of the town.

The city and provincial fire commissioners offered to come here anytime and show films on fire prevention which would be of great benefits to all. The city and provincial Fire Commissioners will be guests of the Fort Fire Brigade at their Annual Banquet.

Carbide Residue Available Free

Mr. Albert Jacobs wishes to announce that he has unconditionally barred of surplus carbide which is free to anyone who wishes to take it away. It will be necessary to bring your own containers.

Carbide residue is also a fine sweetener and can be used for a great many purposes, such as: whitewash, as a substitute for lime in mortar, interior and exterior plaster, concrete, stucco, drainage pipes, etc.

Mr. Jacobs has a pamphlet on the various uses it can be put to, also different formulas for mixing, and he will gladly give anyone the necessary information.

This residue has to be taken away before Monday, so any one using this and those desiring to take advantage of this offer are urged to act immediately.

Attend St. Albert W.I.

Mrs. J. D. McLeod, Mrs. Fred Sharman, Mrs. R. E. Thorne and Mrs. B. F. Knowles, four members of the Fort W.I., visited St. Albert Tuesday night to attend the first meeting of the W.I. that has been formed in that town.

Mrs. Morton of Vegreville, Provincial president also attended and gave a very interesting talk on how the Institute was first founded and the work of the Institute.

Mrs. Thorne, convener, also addressed the meeting, outlining her work and offered her assistance to the newly formed branch.

The new unit will have thirty chartered members.

Minutes of Agricultural Service Board October Meeting

Minutes of the meeting of the Agricultural Service Board of the Municipal District of Strathcona, No. 20, held in the municipal office on Tuesday, October 22, 1946.

The following members were present: E. Kieth, chairman; F. R. McCalla; R. J. Whitbread, District Agriculturist; M. L. Stetson, Field Supervisor; D. Robertson, Field Supervisor; J. Rowe, Supervisor of District Agriculturists, was also present for a short period.

The minutes of August 29 meeting were read and adopted. Copies of which have been mailed to all members of the board.

The Field Supervisor made a verbal report concerning interviews he had had with several owners of land adjacent to the Partridge Hill road regarding back sloping of the road ditches. He advised that E. Hamblin, Mr. J. Mayin Garret Hoesling and Frank Kulak had expressed their willingness to co-operate in the fullest manner possible to have the ditches along their respective fa ms back sloped As it is too late to undertake the work this year it was decided to leave the discussion of this matter with the Council until a later date. It was accordingly moved that the Supervisor's report on certain sections of the Partridge Hill road which may be back sloped subject to the approval of Council be adopted.

The Supervisors copies of the Field Supervisor's itinerary together with a brief outline of the work he will have completed during the months of August and September were submitted to the Board Members were impressed that his report was very complete. It was suggested, however, that a description of the farm visit as well as the crop conditions should be included.

The Supervisor also submitted a verbal synopsis of the business transacted at a conference of District Agriculturists and Field Supervisors from ten Municipal Districts surrounding Edmonton. Copies of his conference report as well as that of his itinerary were attached and were incorporated as part of the minutes of the meeting.

It was moved that the Supervisor's typewriting report covering the activities for August and September be well as his report on the crop census be received and placed on file.

The Field Supervisor also submitted a report covering a survey he had made concerning the location of fence

Continued on Page Six

Presented With Life Membership

A service was held in St. George's Church on Wednesday afternoon, October 30th, when Mrs. Graham, who has been a resident of Fort Saskatchewan for 47 years, was presented with a life membership of the W.A. by Rev. N. Buxton on behalf of the members of St. George's W.A. in appreciation of her years of work.

Mrs. C. H. Harris, Life Members' Secretary and Mrs. H. F. Read Diocesan Secretary of Edmonton were present. After the service the ladies were invited to the home of Rev. and Mrs. Buxton for a social hour. A dainty lunch was served by the hostess, who was assisted by Mrs. Magor, Mrs. B. Mann poured tea, Mrs. Neale and Mrs. Bradshaw, serving.

Council Briefs

The regular meeting of the Council was held Monday evening, October 28 in the Town Hall at 8 p.m.

Mr. A. R. Ring was present on behalf of the Hockey Club seeking information as to which nights would be available for hockey games and practices. Mr. King was informed that the council had not yet dealt with this matter and suggested the club make a list of what it thinks it preferred. The council will also check on what nights the school house need, also nights for rink and decided to deal with the matter at the next regular meeting.

The minutes of the last regular meeting were read and adopted.

Several applications to purchase property were dealt with.

Fire Chief Jacobs made a report on the inspection of the school by the fire commissioners, that were in the Fort last Saturday. Recommendations are for further safety of each of the doors that were made by those gentlemen will be sent to the school board to be dealt with.

With the passing of accounts and payments the meeting adjourned.

A very dainty lunch was served at the close of the meeting.

Around the Town

The annual meeting of the Curling Club will be held in the Legion Hall, Wednesday, at 8 o'clock. All curling enthusiasts including ladies are invited to attend.

In last week's issue we incorrectly stated that Milton Hayes would report on the Young people's Convention to the meeting of the First United Church T.P.U. on Sunday evening. Mrs. L. Actually Milton will speak about the Young People's Congress while camp he attended in July, and Jack Sime will report on the Methodist Alberta Convention held Thank giving. The meeting will start at 8 o'clock in the evening and all young people 18 and over are welcome.

The ladies of the United Church W.A. are pleased to announce that their Silver Tea supper held in the Community Hall Wednesday was a most successful affair.

After expenses of $72.80 were paid, a profit of $180.00 was realized. This will be used towards paying for the electric organ bought as a memorial gift to the church.

Mrs. G. Bradshaw, president of the convener, Mrs R. Wilcox, thank all who gave their time and donations to help make the supper and tea a success.

The W.A. of the First United Church will meet at the home of Mrs. J. D. McLean, Wednesday, November 6th at 2:30 p.m. Everyone invitation is extended to visitors and friends.

Dick Bacon Jr. and Dick Magor flew to Edmonton on business Tuesday. Mr. Graham, who has been a resident of Fort Saskatchewan for 47 years, was pre sented with a life membership of the W.A. by Rev. N. Buxton on behalf of the members of St. George's W.A. in appreciation of her years of work.

Mrs. C. H. Harris, Life Members' Secretary and Mrs. H. F. Read Diocesan Secretary of Edmonton were present. After the service the ladies were invited to the home of Rev. and Mrs. Buxton for a social hour. A dainty lunch was served by the hostess, who was assisted by Mrs. Magor. Mrs. B. Mann poured tea, Mrs. Neale and Mrs. Bradshaw, serving.

District Couple Wed Wednesday

The Manse of the First United Church was the scene of a quiet wedding, Wednesday afternoon, October 30, when Mrs. Ona MacWalker, third daughter of Mr. and Mrs. R. Bent Calgary and Edmonton, formerly of Fort Saskatchewan, became the bride of Ernest Ray Walker, 2 son of Mr. and Mrs. A. Walker of Fort Saskatchewan and the late Mr Walker. Rev. W. D. Race officiated.

The bride was lovely in an afternoon frock of blue wool crepe and wore a corsage of red roses.

She was attended by Miss Kathleen Walker, sister of the groom, who wore a light blue wool frock, with a corsage of pink roses.

The groom was supported by Mr. A. Lagance of Fort Saskatchewan.

The happy couple will reside on the Walker farm, south of Fort Saskatchewan.

Josephburg

On Sunday last the Reformed Church celebrated its Harvest Thanksgiving by devoting the hours of daylight to religious services held in Church or church grounds.

The interior of the church was beautifully decorated and guest speakers assisted the minister in conducting the services. Mr. Braun, head of the Correspondence Branch of the Department of Education, and missional missionary of ten years of effect in far Korea and China, was the speaker in morning and afternoon services. In simple but sincere words he endeavored to convince the young people of the concept of that in regard to missionary work "the harvest truly is plentiful, but the laborers are few".

He pleaded with the coming generation "to listen for the call and heed it" Incidentally he displayed typical clothing such as is worn by better class people in Korea, himself appearing in costume.

Rev. Rosener recently ordained and installed into the charges at Vegreville, gave the invocation and also delivered an earnest and inspiring address. Two choirs, the regular senior mixed and the regularly formed junior choir under the able leadership of Mrs. Carl Gutschlakl, rendered choral selections. Mrs. Frank Becker, after a few words of welcome for visitors, occupied her place as choir leader and gave a solo and Mrs. George Gutschlakl accompanied with voice and guitar. Mrs. Leon Kreb is a lovely duet, Mrs. Ed. Mohr contributed equally at home with piano and organ.

Community lunch was discussed by all church members in the basement of the church. The collection — a nobly pile — was donated to missionary effort. The entire celebration will long be remembered by those privileged to be present.

One year District Agriculturist, Mr. Whitbread, accompanied by Mr. M. L. Stetson, held a meeting of young people who had participated in the late barley competitions and others interested, with the object of instructing competitors in the selecting and preparation of their samples. The discussion proved most interesting. In addition mounted specimens of weeds found in the locality together with information for controlling them were on the agenda. A highly profitable evening's time.

Some of our guests are receiving photos entry to the Calf Club and a decision will be reached when competitive members meet at the Galloway home early in the week.

One reader of the Record has Continued on Page Six

Canadian President of Ford Motor Company Visits Fort

Making his first tour of Alberta since his election to the presidency of Ford Motor Company of Canada Limited, in April, Douglas B. Gregg of Windsor, Ontario, visited Fort Saskatchewan on Thursday to call on E. H Boyce of Boyce Motors. local Ford and Monarch dealer He was accompanied by C. McLaren, associate general sales manager, and Gordon C. Gerbutt, public relations manager, both of Windsor, William Bryant, manager of Calgary's north of the 51 and Monarch division, and A. E. Marhay, district sales manager.

Mr. Greg will travel 25,000 miles this year to visit representative dealers from coast to coast and to familiarize himself with current conditions throughout the Dominion. He arrived in Alberta last Sunday and will remain in the province for two weeks. Next month he will tour British Columbia.

The Ford president told Mr. Boyce that while his company had built more than 50,000 vehicles this year, material shortages are such that there is little prospect of increased producting for at least six months. He said he was much impressed by the development of Northern Alberta since his last visit some years ago, and was particularly interested in the rich potential resources of the north.

Mr. Greig and party left here to visit Athel Motors, Ford and Monarch dealer in Lamont.

Firemen Attend Films and Lecture

Eleven members of the Fort Fire Brigade made a trip to the Edmonton Red Cross Hut, Monday evening, to view films and hear lectures on fire prevention.

Speakers for the evening were Mr Chairman, Dominion Fire Inspector and Mr Meares, Provincial Fire Inspect r who spoke on the danger and hazards of leaving matches and oily rags lying around promiscuously. They pointed out that many fires are caused through neglect and carelessness in the use of inflammable liquids for cleaning purposes, electric wires left bare, burning cinders on and eggs left lying around and electric irons being left on.

He a so cond mned he practice of people who leave their children home alone.

Films illustrating reported the fires and lectures were interesting, educational and would benefit them in helping to fight fires.

YORKVILLE

Mr. and Mrs. R. Frothinge of Nelson, B.C. spent a few days of their honeymoon at the home of his brother and sister-in-law, Mr. and Mrs. H. Fryclinge.

Major and Mrs. Dawson are relaxing in the glad tidings from their daughter in En land of her arrival in Edmonton some time next week. They haven't seen their daughter for many, many years.

The Junior Band and Girls Calf Club was held at the home of Mr and Mrs. C. Galloway on Wednesday evening, October 30. The following officers were elected: President Lawrence; Vice-Pres. Roy Galloway; Sec-Treas Elwood Galloway. Mr. Whitbread, District Agriculturist was Master of Ceremonies and spoke to the members about the conduction of the meeting Everyone very much enjoyed the coffee, hot dogs and doughnuts served by the hostess.

AUDIO-VISUAL AIDS DEMONSTRATION
by
DEPARTMENT OF EXTENSION
UNIVERSITY OF ALBERTA
Using a Victor 16 m.m. Sound Projector
FRIDAY, NOVEMBER 8
at 8:30 p.m. in
Fort Community Hall
Sponsored by
PORT HIGH SCHOOL STUDENTS' UNION
Adults, 40c — Students and Children, 25c
(Please read School Flashes in this issue.)

School Flashes

The teachers and students locked up from their work questioningly when the Town Fire Chief rang the fire bell unexpectedly on Monday, Oct. 28. The school cleared in approximately three-quarters of a minute.

The executive of our Student's Union has made further plans for our first year's life here.

On Friday, November 15th the Fort Community Hall is to be the setting of a Radio Hawkins party. Educational activities are agreed that such visual instruction is a great aid to the presentation of material to students of all ages.

During the past two years the students of the Fort High have raised money by various methods and have laid aside the greater part of this into a fund for the purchase of a 16 m.m. Victor Sound Projector. This fund is now large enough to enable the projector to be purchased.

On Nov 8 at 8:30 p.m. a demonstration will be given in the Fort Community Hall (see advertisement in this issue). The purpose of this demonstration, is twofold:

1. To raise more funds for the above purpose.
2. To enable the parents of children at school and other interested, as in the welfare of the school, to see what material may be procured to the students by this machine.

I wish to solicit your patronage, chiefly for the last point. Come and see this machine in operation. Educational and other films will be shown. This demonstration will be primarily an educational feature; but I am certain that it will be entertaining as well.

B. Larson, Principal.

The Regular Meeting of the
Fort Community Service Club
will be held in the Community Hall
Wednesday, November 13th
at 8:30 p.m.
All members are requested to attend and voice their opinions on the business that will come up for discussion.

LEGION MEETING
The regular meeting of the Fort Saskatchewan Branch No. 27 Canadian Legion B.E.S.L. will be held in the Legion Hall.
Tuesday, Nov. 5th at 8 p.m.
All members are requested to be present.

Fire Brigade Meeting
There will be a meeting of the Fort Fire Brigade,
Tuesday, November 5th
in the Fire Hall at 8 p.m.
All members are requested to attend as there is considerable business to be discussed.

West Elk Island

A very interesting performance was given last week by the West Elk high school students and teachers of Walker School, when Audrey Schneider and Pauline Hoffman demonstrated the Tarzley Reading System. Both children, very small, showed keen skill, and considerable interest in the Tarzley System was aroused.

A number of Friends and acquaintances gathered at the home of Mrs. Bert Schneider on Tuesday evening to honor Miss Laura Cobb, bride elect, at a shower.

A delightful evening was spent at cards, games and music. Many beautiful gifts were received. A delicious lunch completed the event.

CO-OPERATION ESSENTIAL

Co-operation is a combination of the practical and the ideal. It of fers ample scope for putting into practice the ideas of the practi cal man, as well as the ideals of the idealist. It is not only the most efficient, economical and practical way of doing business, but, when carried to its ultimate conclusions, it recognizes equality and the in terdependence of all human beings.

If you heated your cow the way you heat some people, you would have a hot time to do with them. And a lot more to do with people.

Radiograms

"THERE'S TALENT OF THEM THAR PRAIRIES"

The gold rush days brought to the oft-quoted expression "There's gold in them thar hills." Today, CJCA's production department is following up on the sponsor's con viction that "There's talent on them thar prairies."

The Edmonton branch of Henry Birks and Sons, jewellers, are now sponsoring Birks Musical Awards, a half-hour weekly broadcast designed to encourage musical prowess by youthful artists.

Hi ho are offering six prizes totalling $200 in the six young artists judged best at the conclusion of 26 broadcasts. Contest is open to vocalists, instrumentalists and groups 21 years of age and under. Three contestants will be heard on each broadcast, which is heard over CJCA at 4.30 every Sunday afternoon. Semi finalists will perform on the last broadcast in December, and on April 4 and the winner will be announced on the final performance. The program originates in Birks-Ellis Piano Studios, before a select audience.

From CJCA's standpoint the show is a natural in every respect. It fails in line with the station's policy to find, encourage and promote local talent at every opportunity. During the last two years an exceptionally heavy slice of the CJCA schedule has been given over to local talent. Besides, CJCA offers three personal scholarships, one to a vocalist, one to an instrumentalist and one to the best in show biz.

It is isn't a great pleasure, therefore, that we announce the appointment of the services of Mr. and Mrs. Harold Lansdowne. Their talent is available and Henry Birks and Sons are out to find it.

TO KEEP YOU INFORMED

The Recipe Corner

By the Home Economists of the Consumer Section Marketing Service of the Dominion Department of Agriculture

Steamed the potato in a family vegetable and because it is a familiar part of the meal, all their lives, many people are inclined to give it very little attention and little imagination. Many visitors come and go during the year but the potato is always there, our national crop and good friend.

The people who love potatoes, who could eat them three times a day and others do so, are not much interested in the way they are prepared they like them any way. But there are others who do not have such a love for the humble vegetable and get tired of boiled, baked, mashed, scalloped and even fried potatoes. The following tasty recipes are offered which will find favor with all groups of potato consumers.

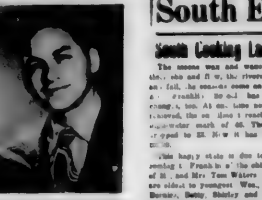
FRENCH PEASANT STYLE

2½ cups cold cooked potatoes, cut in 1 inch cubes
¼ cup bacon fat
1½ cloves garlic
1½ tablespoons chives or onions, chopped
1½ tablespoons parsley, chopped
1½ tablespoons chopped celery leaves
1½ tablespoon flour
1½ cups milk, or ½ cup stock and ½ cup milk
½ teaspoon salt
½ teaspoon pepper

Heat bacon potatoes in bacon fat until brown, or fry in fat. Remove potatoes and brown garlic in fat, remove it when brown. Combine potatoes and brown garlic in fat, remove it when brown. Combine potatoes and brown garlic in fat, remove it when brown. Combine

Streetcars, Bombers Converted into Homes

Minds of Their Own



Here are Johnny Wayne and Frank Shuster in that order who are responsible for the irresponsible hilarity on the "Wayne and Shuster Show," a Thursday evening comedy presentation on the CBC Trans-Canada network. The two boys, whose minds run on a track all their own, are old hands at collaborating, having been a writing and acting team, alone entering high school. Associated with them are Georgia Dey, vocalist, and an orchestra directed by Samuel Hersenhoren.

Re-storms in the present housing crisis on the west coast of the United States is to discarded streetcars, prison bins, and even the fuselages of airplanes, bombing planes are now being used for living quarters.

These unusual uses are described in a housing survey report compiled by R. J. Bushnell, Assistant Commercial Secretary at the Canadian Embassy in Washington. It follows the U.S housing shortage report which recently made the most acute stage being he next few months.

On the west coast, where conditions are most serious, old time boats and pleasure yachts are being suggested as homes for war veterans. Tourist camps and motor courts are becoming permanent residential districts. Houses in former mining towns are moved by trailer truck to over-populated areas hundreds of miles away.

Mr. Bushnell believes the present housing crisis in the United States will last until 1,000,000 new units have been built.

The world's population of human beings is estimated at around 2 billion 300 million. The Food and Agriculture Organization reports that this will increase to 2 billion 700 million by 1960.

Canada's Health

PUBLIC HEALTH CARE

For families with school age children, the Child and National Health Division of the Department of National Health and Welfare, Ottawa, has drawn up five Safety Rules" which, it says, should be memorized and followed by every household:

1. Adequate rest, plus a properly balanced diet, will set up early guards against the ravages of ill-health.
2. Never allow a child to go to school [illegible]
3. Allow sufficient time in the morning for proper toilet habits, dressing, eating (not just stuffing)—and caution the child against the traffic hazards on the way to school.
4. Make sure that your child receives the "protective" dose of Diphtheria toxoid. Diphtheria still kills Canadian children.
5. Protect your child with Vaccination. Smallpox is almost a thing of the past here, but it can return, if all children
6. Teach your child to drink at least three glasses of water daily. This aids in elimination of waste and poisonous products by washing the body tissues.
7. Dirty handkerchiefs spread disease. Teach your child the safe way—use of sanitary tissues.
8. Clean hands and clean teeth discourage disease. Examine this several times daily, plus a bath bath at least weekly.

TUBERCULOSIS

Half a century ago, 200 out of every 100,000 Canadians died of Tuberculosis. Today the toll has been cut to 47.7 and there is hope for an even greater decline.

South Edmonton Rural News

South Cooking Lake

The season was and warm, the ... and fine, the rivers ran ... full, the ... came and go, a ... healthy ... so-so ... has ... and, in a ... time not for ... moved, the ... does ... reached a ... winter mark of 65. Then it ... and by ... Now it has risen ...

This happy state is due to the ... Frank ... of the children of ... and Mrs. Tom Waters. They are oldest to youngest Wm., Neil, Bernice, Betty, Stanley and Lois, the latter just beginning her school life. We welcome them all to Franklin, and the welcome is the warmer that the family is a veteran—Tom has not long ago returned home from ...

Mrs. Griffin and Mary are visiting at Duncan, B.C., where they are the guests of old friends, Mr. and Mrs. George Butler Dalton. he is reported to on that Mary and her mother are emerging from the attention of the flu. The entire village, except Ry that of the noble ... that their ordinary ... are ... unusually rapid by the ... wealth of apples, pears, peaches, ... plums, etc., etc.; but the ... boy would not ... that their ... is largely attributable ... the ... Mr. Griffin's ... of these who say, "Oh, thanks! I have no children going to school! Why should I bother?"

Could there be anything more illogical, to say the least? Do they not pay taxes? Do they not pay the necessary curing? And do they not live in the same community with those young people who attend that school? Do they not breathe the same air? And above all, do they not know that they are responsible, in effect, the words of that one who, with his brother's blood still staining his hands, cried, "Am I my brother's keeper?"

East Edmonton

The 11th annual meeting of the ... was held in the East Edmonton Hall on Friday evening, October 25, when the ... ceremonies ... Mrs. W. R. Chamberlain.

A musical program, games and competitions were enjoyed by ... and Mrs. ... Stewart and Mrs. L. Briggs were in charge of entertainment, and ... minute was filled with ... fun.

Mr. De Sautoy generously provided prizes for the competitions and ... Supper ... South ... kindly!

Mrs. S. Hawkins and Mrs. Asbert ... catered to the ... with delicious lunch.

Those taking part in the program were the Misses Dolores Lobe, D. and M. Ritchie, Mary Hawkins, Myrna Isherwood, B. Hosford and Joy Briggs.

Mrs. Chamberlain, Mr. and Mrs. Maurice Buffel and Miss Gladys Hawkins ... music for dancing.

Evidence given before the board of public utility commissioners ... the ... against the federal government subsidy, the average ... an Edmonton district milk producer ... 300 pounds ... with a day was 54 cents a day ... showing an average wage of 41.3 cents per hour.

Our Jacqueline Correspondent

Always helpful, was especially timely and challenging in his column last week. His urgent ... for greater interest and more devoted ... is to be life and work and plans of the school in the community should touch a responsive, vibrant chord in every heart and mind. It is undeniably and unfortunately true that the passing of the active ... board is an "irreparable loss" to both ... and ... community. Solid ... correspondence hopefully ... with the hope that in due not only to ... of powers and ... but also, and perhaps more so, to the absence of active interest on the part of the rank and file of the ... and also that this again is largely attributable ... the ... Mr. Jacqueline's ... of these who say, "Oh, thanks! I have no children going to school! Why should I bother?"

Great Demand for Canadian Newsprint

Newsprint has become the largest single manufacturing industry in Canada and this country remains sole supplier for almost half of the world's requirements.

Newsprint is probably in shorter supply in markets of the world than any other major commodity, he said. To meet those world requirements, the industry in Canada is currently operating at an all-time high of 10.3 per cent of its rated capacity.

Canadian production values, barring the lost quarter of a century, have jumped from $80,000,000 in 1939 to more than $150,000,000 in 1945. Of the total amount of newsprint produced in Canada, 81 per cent is being exported to the United States and an additional 13 per cent to other world markets.

Receives Application for Pension Plan

Mr. J. H. Minnes, of Edmonton District Office, receiving from Mr. Wm. Parker, Superintendent of Edmonton Branch, his application for participation in the British American Oil Company's Pension Plan. Mr. J. H. Minnes has been in the service of the company for twenty-seven years, and he is the Alberta Provincial President of the B-A Oil Employees' Association for the current year. Mr Parker has also been in the service of the company for close to twenty-seven years.

British American Oil Co. Give Details Pension Plan

Additional evidence of industry's conception of its social welfare responsibility to employees was seen in the announcement this week by the British American Oil Company Limited of a pension plan for all its employees in Canada.

Psychologists have pointed out that fear of insecurity due to sickness, old age or other disability has been a basic cause of industrial unrest. Freedom from fear of insecurity has been given employees of British American Oil Co. with the announcement by its president, William K. Whiteford, that in addition to the sickness and life insurance benefits in force for years, British American Oil will contribute generously to a retirement pension fund.

Officials of British American Oil pointed out that the B-A retirement income plan was developed at the request of the employees by the Employees' Association. The plan has been established on a contributory basis, the Company supplementing each employee's contribution, which has been fixed at a percentage of his salary or wage, and the more valuable an employee makes himself the higher his retirement annuity will become.

On the basis that long-service employees made the Company what they are today, B-A will pay the "veterans" of annuity payment that long service employees would have received if the policy of payment of his pension when the Company was established 40 years ago. Payment of "arrears" will be made for all employees who have been more than five years with this expanding company whose personnel have increased by 50 per cent in the past 10 years.

All contributions to the pension plan are returnable. An employee who leaves the Company before retirement income is payable—at 65 for men and 60 for women—may withdraw all his or her contributions. If the employee has given six or more years of service, he also may be credited proportionately with the Company contributions. This credit is based on a sliding scale up to 100 per cent of the Company's contributions for fifteen years' service.

Retirement income is for life with a guaranteed minimum of five years' payments to ensure that a retired employee will receive on the average at least twice as much as he contributed. If death occurs within five years after retirement, the balance of payments for that period will be made in a lump sum to the retired employee's estate or heirs. Arrangements also have been made whereby an employee may retire on proportionately smaller pension, 10 years or more before normal retirement age.

In addition to the retirement income plan, British American Oil will continue the group insurance it pays for, ensuring payment of a lump sum of money to each employee's family at his death. Present sickness and disability benefits for employees will be kept in force.

"Pension plans of approximately 60 other companies were studied after members of the Employees' Association, in answer to a questionnaire, reported almost unanimously that their greatest worry was for some form of security for their old age", said President William K. Whiteford. "It was decided to institute a formal pension plan, even though throughout its history the Company always has given sympathetic consideration to employees who have stepped work because of old age, ill health or other disability.

"The oil industry has been fortunate in attracting men and women who felt that the most effective measure of security was through development of their inner capacities to the end that the steady and sure growth of the Company would bring reward in the form of wide opportunity and greater income for those who employed their capacities. It was apparent, therefore, that any pension plan considered, in addition to giving an added sense of security, should incorporate the principle of continuing to reward merit without attracting or developing the pension-minded person. The British American pension plan was developed against this background and

Time Extended to Fill Barley Forms

The National Barley Contest Committee on October 25 decided to extend the time within which farmers may file their applications for judging their barley.

Each contestant has already received an application for grain judging. The form is in triplicate. The top half is to be used by contestants who ship their grain. The bottom half is to be used by contestants holding their barley on the farm for seed.

If a contestant is shipping his carload of barley, the ... which applications for judging ... to be completed ... has been extended to December 15. The old date was November 30.

If the grain is being held on the farm for seed the time within which the application forms must be mailed has been extended to November 30. The old date was November 15.

If any contestant has not received an application form, please notify the contest committee immediately and the form will be forwarded.

Please note the new dates, November 30 and December 15. Send the completed forms to the Chairman of the National Barley Contest Committee, Dr. Grain Research Lab., Winnipeg, Man.

To encourage the delivery of livestock to market, the United States government has removed all price controls on meat. Hog prices rose from selling floors of $16.25 to $25 a hundred pounds liveweight.

Q. Can one rest too much in taking the cure, and would exercise be beneficial?
A. There comes a time in the treatment of tuberculosis when it is very desirable to have the patient exercise. However, this must be determined by the physician who has charge of the case. Resting is dangerous for the patient to take it upon himself to exercise without the advice or guidance of his physician. As a rule, however, more harm is done by too much exercise than by too much rest.
Q. Do you think, sweeter ever helps to heal tuberculosis of the lungs?
A. In certain phases of the disease this is just as essential as rest.

Junior Calf Club Notes

The following is a synopsis of the club's meeting held at the home of Mr. Charles Galloway, Wednesday, 30th inst.

The meeting opened was 5 finances on hand of calf to fund for the 1946-47 season. This will be voted to feed Hereford's again this year, the buying committee, Messrs. Galloway and Bruce agreeing to proceed with R. J. Whitbread to make the purchases November 8th and 9th.

It was agreed that $20.00 should be collected from each member prior to October 15th, so that the money may be on deposit to pay for the calves when purchased. Ten members paid in their cash at the meeting.

The new executive elected is: President, Edwin Lawrence; Vice-President, Roy Galoway; Secretary Treasurer, Allen Galloway. Exhibition Committee and Club Leaders: Charles Galloway and R. H. Byers.

The financial statement read to show $8.50 in the treasury on hand.

The meeting was followed by a most enjoyable lunch, served by Mrs. Galloway and Mrs. H. Stetson.

Equality won't come through the distribution of wealth but through a change of heart.

The Recipe Corner

By the Home Economists of the Consumer Section Marketing Service of the Dominion Department of Agriculture

Many mothers wonder how they can possibly prepare a lunch box that will satisfy the hearty appetites of their school going children. After trying, and they admit not always successfully, to fill them up all corners, they wonder why they are not able to put in the lunch box the same quantity of food that the children consume when at a home meal. The point to remember when preparing supper lunches, is that quality must replace quantity, which in other words means that the same amount of food in the lunch box must give that well satisfied feeling.

Certain schools have cooking or at least warming up facilities, this eliminates the problem of keeping something hot for lunch. Thermos bottles are easily available now to most when these facilities do not exist. In them, soups, macaroni or spaghetti, baked beans, chowders, stews, hash etc., are easily kept hot and ready to eat. If the child does not like the soup-at-home will have the same lunch it makes him feel more satisfied with his lot.

* * *

Recipes which will prove good either at home or at school.

BOCKERS BAKE

2 tablespoons fat
½ pound minced beef or left-over cooked meat
1 onion, sliced
2 cups grated raw potato (4-5 medium potatoes)
1 tablespoon vinegar
1 cup rolled oats (quick-cooking)
1 teaspoon salt
¼ teaspoon poultry seasoning
Melt fat in frying pan, add minced meat and onion and brown. To the grated potatoes add the remaining ingredients, then add the cooked meat. Blend thoroughly. Press into a greased loaf pan and bake in a moderately hot oven, 375 degrees F., for 1½ hours. Six servings.

* * *

HAMBURG VEGETABLE CROQUETTES

½ pound ground beef
2 tablespoons fat
2 cups canned tomatoes
2 medium carrots, diced
½ cup celery, diced
1 medium onion, chopped
1 teaspoon salt
¼ cup barley
¼ teaspoon pepper
1½ quarts water
2 cups potatoes, cubed

Brown meat in fat. Put all ingredients except potatoes in a large kettle and simmer slowly one hour. Add potatoes and continue simmering an hour longer. Serve with toast or crackers as a main dish. Serve 6 to 8.

Y.M.
CHRISTMAS
SPONSORED BY THE ALBERTA TUBERCULOSIS ASSOCIATION

Q. I'm a fair advanced case of tuberculosis ever hope to be able to do full time work?

A. This depends entirely upon the [illegible] and [illegible] was when tuberculosis was found. In the more advanced the lesions the less likelihood of recovery and of ability to work.

* * *

Q. After a tuberculous lesion within the body has started to heal, could a person again lead an active life and have that healing will continue?

A. Yes, but only when all symptoms and other evidence of activity have subsided. The patient must always be under the guidance of a physician.

* * *

Readers desiring questions answered are asked to send them to Calgary, where careful attention and early reply will be given.

Canada has exported beef cattle to the United States since early in 1946. A heavy rush of cattle delivery is anticipated in this country this autumn. There is little hope of the United States market being made available for any Canadian cattle, as American cattle raisers are fearful that such imports would break down the high premiums they are now receiving.

West. Farmers May Get Break

It seems at last the farmers of Western Canada are about to get a break. It was reported recently the Alberta Farmers' Union obtained from the federal government a statement on its plans for removal of the 30-cent subsidy paid by wheat producers to Canadian flour millers.

The subsidy is patently unfair to the farmers and it was levied against their will. If the government is anxious to keep down the cost of bread to Canadian consumers the government should pay the full subsidy and collect it from all taxpayers instead of collecting 30 cents of the subsidy from the producers, as they do now. The Canadian Federation of Agriculture and all the western farm organizations have pressed the government to correct this injustice for a long time but no progress was made.

When the A.F.U. strike leaders were in Ottawa, they talked with government officials about this as well as other complaints. Their first report was that they had been "promised" the subsidy would be removed by March 1, but Mr. Gardiner, the minister of agriculture, has since explained, according to another report, that he mentioned no date. He said that the government had already considered the matter but decided it could do nothing at present, though they realized that the matter should be corrected "at the earliest possible date". This, he said, is what was reported to the A.F.U. leaders.

This is the first intimation any farm group has had that the government even wanted to remove the subsidy. However unsatisfactory Mr. Gardiner's explanation may be, and however indefinite his commitment, he has at least given the western farmers some hope that they will not much longer be denied this extra $15,000,000 annually which is rightfully theirs. The A.F.U. is to be commended for getting the government to at least commit itself to a slight extension

FAR TOO MUCH FOR FAR TOO LONG.

The government is withholding from over a million farmers quite large sums of money for five long years [illegible] millions of dollars for each of two years are being held in Reserve at $1.55 basis No. 1 Northern, Fort William, and the government is paying our prairie farmers on a basis of $1.25 only. This means the government is withholding from farmers 30 cents a bushel for five years [illegible] bushels. Multiply that by 5 years, and you have the huge total of $1,500,000,000 half the wheat that has to be sold to all [illegible] countries. That is a prize far in excess of $1.55. The price today for this other so-called "free wheat" is $2.10 a bushel. This means that on about one half of our wheat the government is also withholding from farmers around 85 cents a bushel, again for five years. This, or some of it, is unnecessary! All this money would be far better, I for one think, in the hands of our farmers [illegible] the hands of the Dominion Treasury for years. In short, it seems to me, and to many others incidentally, that the government is withholding from our prairie farmers, in cash, far too much for far too long.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Wheat is in [illegible] supply in Mexico and some flour mills were forced to close during September owing to lack of wheat for grinding. [illegible] imports start in January. Before midwinter, China will be faced with a serious food deficit equal at least to pre-war average import.

European wheat production for 1946 is estimated at some 900 million bushels above last year. Chile's wheat acreage is placed at 1,919,00 acres, an increase of some 6 per cent over last year's plantings of 1,803,000 acres—Spain's wheat crop is estimated at 181,-200,000 bushels, compared with last year's crop of 61,000,000 bushels.

Milk, Butter, Cheese Production Down

Total production of milk in Canada continues on decline and present trends indicate that production in 1946 will be about 5 per cent or around 500 million pounds less than in 1945. Fluid milk [illegible] is not affected as yet, but manufactured milk will show a [illegible] decrease. Fort William and the government is paying our prairie farmers on a basis of $1.25 only. This means the government is withholding from farmers 30 cents a bushel for five years [illegible] bushels. Multiply that by 5 years, and you have the huge total of $1,500,000,000 half the wheat that has to be sold to all [illegible] countries. That is a prize far in excess of $1.55. The price today for this other so-called "free wheat" is $2.10 a bushel. This means that on about one half of our wheat the government is also withholding from farmers around 85 cents a bushel, again for five years. This, or some of it, is unnecessary! All this money would be far better, I for one think, in the hands of our farmers [illegible] the hands of the Dominion Treasury for years. In short, it seems to me, and to many others incidentally, that the government is withholding from our prairie farmers, in cash, far too much for far too long.

JOSEPHBURG

Gospel service is being held at 8 p.m. each Sunday night, in Josephburg school. Beginning Sunday, October 27.
Choruses and story for the children. Come and bring your family. Everybody welcome.
"Come now, and let us reason together." Isa. 1: 18. Pastor Brendler, R. A. Dalmark.

Three Kinds of People

It is easy to generalize and say, "There are just two kinds of people in the world". The optimist, with rose-colored glasses, who says "Everything will work out all right. It always has." And the pessimists, with darkbrown taste, who say—"Everything is working out all wrong."

If there are only two kinds of people, the optimists will soon find their rosy gumms smashed. They will find that everything has not always worked out all right. They will find at least seven former civilizations that did not work out that went out instead, and that are now entirely extinct. They will find the present age spending recklessly on its way to becoming the eighth extinct civilization. And that the pessimists are right in thinking everything is working out all wrong.

There is fortunately a third kind of person [illegible] from who think everything is all right or all wrong—but who think everything can and should be all different and are giving everything they have and are to make it so. As described by Peter Howard in his book, "Lions Have Legs", they introduce "into every equation of hopelessness the true element of change".

The fate of the world hangs on the success of this third kind of people. The fate of your town, of your business and of your school and home. Are you yourself one of these people? Or are you what Peter Howard calls "one of the Missing and Many Millions"? There are the people, he adds, who say "that the world is in a mess but do not believe that they had anything to do with putting it there, and cannot see that they have a part in pulling it out again. They all want to have the other fellow changed and are all waiting for the other fellow to begin."

This kind of mail explains the delays in new service connections—even though we are now and have been making service connections at a more rapid pace than we did before the war. Equipment is even harder to get now than during the war -- we have not been able to keep up with our orders for new connections, and new transmission line construction is also being delayed. We are doing all we can -- and thank you for your patience.
Rolly Wardell
Power District Manager

North West Pig Starter

There is no time in a pig's life when it is as important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anaemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

NORTH WEST MILL & FEED CO. LIMITED

EDMONTON

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable as long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a feeding of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

South Edmonton Rural News

East Edmonton

In a double ring ceremony in South Mission United Church, on Saturday, September 14th, Corrine Kloeser, daughter of Mr and Mrs. W. R. McColl, became the bride of Malcolm Robert Dunn, son of Mr. and Mrs. Peter Dunn and Calgary, formerly of East Edmonton and New Forgate. The ceremony was performed by Rev. L. Lougheed.

The bride, gowned in a flowered silk jersey dress, wore an orchid corsage. Mrs. R. J. Gray was matron of honor and was in a grey dress with black accessories and a corsage of roses.

Mr. Barry Anderson was best man.

After the ceremony a reception was held at the home of Mr. and Mrs. R. G. McColl, Mr. W. R. McColl and Mrs. Peter Dunn assisted the bride and groom receiving the guests.

Mrs. George Cox and Mrs. Josh Simpson presided at the tea table, which was centred with a three tier wedding cake, surrounded by smilax and stands and flanked by white tapers and pink rose buds.

Mr Mah Ponsch prepared the toast to the bride, with the groom responding.

In the evening the bride and groom left to spend a honeymoon in Calgary. For going away, the bride wore a light green dress maker suit with brown accessories.

On their return the happy couple will reside in Lethbridge.

The November meeting of the

Bus Kills Youth In South Edmonton

Edward Ian Fowler, Namaka, Alta., 18-year-old delivery boy, was killed almost instantly Tuesday afternoon in South Edmonton when he was struck by a northbound Low Level trolley bus while riding his bicycle at 99 street and 84 avenue. He was the son of Mr. and Mrs. Ian Fowler of Namaka.

The boy was thrown about 60 feet by the impact. He was rushed to the University Hospital but was pronounced dead on arrival. The body was removed to Hainstock's funeral chapel.

It was the youth's first job in the city, having arrived there just recently.

Kenny Anderson, driver of the bus, said there was half way through the intersection of 99 St. and 84 Ave. when he observed the cyclist about 12 feet ahead and to the right side of the bus. Seeing a person going toward the curb the bus driver reserved the other way. As he did so the boy ran directly in the same direction and was hit, said the bus driver.

The cycle, badly smashed, was picked up about 47 feet northwest of the point of collision.

White Mud Pair Holds Silver Anniversary

A surprise party was held for Mr. and Mrs. Milo Sarsenik at their silver wedding anniversary on Sunday afternoon when 100 people gathered to celebrate the occasion.

The young couple's table was decorated with an extra table cloth and a three layer wedding cake. The couple were presented with a gift of a three-piece silver tea set, and an enjoyable afternoon was spent by all.

The out-of-town guests were: Mrs. Woodrick, Mr. and Mrs. M. Fedun, Mr. and Mrs. J. Medvenny, Mr and Mrs. P. Bothocky, Mr and Mrs. Hudyma, Mr. and Mrs. Kozelish, Mr. and Mrs. Jarvis, Mr. and Mrs. Mobey, Mr. and Mrs. Stavenuk, Mr. and Mrs. Halwa, Mr. and Mrs. Shevchuk, Mr. and Mrs. Prospiuk, Mr. and Mrs. Maday, Mrs. Sarsky.

Willing Workers Club will be held at the home of Mr. and Mrs. Russel Bishop, 9722 76 Ave., on Wednesday, November 13th.

We do hope Mrs. Watson and Mrs. Jack Weir, two members, who have been confined to their homes with illness, will soon be better again.

* * *

Mrs. Peter Dunn of Calgary spent the week-end at the home of her father, Mr. W. F. Rawlins.

The thing that keeps us apart from others is wanting to be better than they are.

Achievement Day Barley, Oat Clubs Tuesday, Nov. 12

Josephburg Old Barley Club and Partridge Hill Eagle Oats Junior Crop Club will hold its Achievement Day, Tuesday, November 12 in the basement of the Fort Saskatchewan Community Hall commencing at 1:00 p.m.

The program will consist of:

1. Grain exhibit for judging.
2. Grain judging contest.
3. Signing of forms and listing of prize winners.
4. General meeting.

Judge's report on samples exhibited. Awarding of special prizes by sponsoring organizations (Limited Time Montreal commencing the year's activities.

Instructions re—preparation and showing of grain samples:

OAT SAMPLES—15 pounds should be cleaned for show. Commence with at least a bushel of your plot oats and put through the fanning mill several times to take out all light kernals and other materials, particularly weed seeds, light and small oats.

You can greatly improve your oat sample in appearance and weight per measured bushel if you rub or pound the sample while in a sack. It takes the long ends off the hull and polishes the kernals. Do not rub or pound the sample such as to shell off the hulls. As a final preparation hand-pick your sample for any off-sized or discolored kernals which may still be present such as wild oats and barley

U.S. TIMBER DISAPPEARING

The annual cut of saw timber in the United States, together with natural losses, exceeds the growth by 50 per cent. In the eastern half of the United States, where more than three-quarters of the nation's commercial forest land is situated, there is not enough growing stock to sustain the present rate of cutting. Since 1909 the accessible timbering area—other than farm woodlots—has declined from 1,700 to 1,300 billion board feet.

MY WEEK

By R. J. Deachman.

I met a chap on the way down town this morning. I have known him for years. He is a cobbler of a good kind. He is interested in almost every good move. He wants to solve the housing problem. His suggestion is "Resume the Building of Houses."

I want to ask this question: If the government will promise you a bonus of a substantial bonus say $2,000 to help build a house or an old house, say offered $2,000 to buy a motorcar, which would you take, which would your neighbor take?

Am I wrong in suggesting that most people if they had their choice would take the motorcar and not the house? This is a democratic country. Perhaps any party could carry an election on the plat form: "Every man means to have his own motorcar." Why can't every family have both. The reason is that costs save gone up. Things mean more expensive as things and the more they cost the fewer we can have. Taxes are higher and still going up and must continue to go up if the state provides more things we don't need. The result — the average man can't afford a house and a motorcar.

But my friend wants to house housing! Suppose we let him, what will happen? The house must come from the state but the state has no money except what it gets from taxes and so taxes must go up By this round about way we are, as my father used to put it, fifty years ago: "Busy beating the devil around the bush". He's pretty hard to catch. My friend suggests, however, that it wouldn't be necessary to tax everybody. That is we should limit the tax strictly to the upper classes, to those who have. Then what happens? We restrict investment, reduce savings and when those men save less and invest less, there is a restriction in the volume of business, a smaller investment and therefore capital and a limitation of the volume of employment. It is quite impossible to solve any human problem by taxing people to death while hoping that, in some way, the tax collector will ship us.

What is you answer to the question? How can we build better

Turkeys for Christmas

There will be a ready market for turkeys will be a ready market for turkeys in Calgary and district this year for Christmas. Now is the time to put the finishing touch on them by fanning them properly and well. The assistant Dominion Experimental Farm will gladly advise on the details of fanning.

Beaver Hills United Church held its regular monthly meeting at the home of the minister, Mrs. Wm. Fisher.

Mrs. Ross brought from the Fort, Mrs. O'Brien, as guest speaker on behalf of the W.M.S., who explained fully the aims and ambitions of the association. It was agreed that Beaver Hills affiliate with the Presbyterial and endeavor to promote the good work for which it stands.

It was unanimously passed that a congregational social evening be staged in the very near future and Rev. Ross the ordainment to supply the program.

In answer to an S.O.S. appeal from the Salvation Army it was decided to donate the "coffee money" taken in that day to this worthy cause.

* * *

Flo and Joan Collinson and Mr. Billie Robinson spent the week-end with Mr and Mrs. Fred Pohl.

* * *

Mrs. W. E. Hooker and Miss Marion Dewart, journeyed to Vegreville on Nov. 1 to attend the marriage of Mr. Norbert Horton and Miss Gertrude Dewart.

* * *

Mr. and Mrs. Sam Kinch have returned to take up residence on the farm. Their son, Douglas, is attending the school here. Minnie and Douglas had lived with Mrs. Kinch, Sr., in Edmonton during and since the war but we welcome them back to the district now.

* * *

Mr. Jack Corcoran is laid up with rheumatism in his back. Hurry up and get better Jack or you'll miss the roundup.

* * *

At the October meeting of the Goodwill Club a vote of thanks was passed to those who moved the piano, especially to Jack Lynn whose truck was used to do the job others helping Ralph Lynn were Victor Donaldson, Bill Thomson, thanks boys.

* * *

A happy band of High School Students headed their new bus October 29 with Jack Portas at the wheel.

Just a few regrets spoonsed for the passing of a good student, Kathleen's cousin.

* * *

We are glad to hear Mr. and Mrs. Lloyd Mellhen's son is home from the hospital and is making speedy recovery.

* * *

The Wye Red Cross Ladies Aid held a special meeting at the home of Mrs. Caldwell, to make arrangements for a banner.

There was very beautiful needle

work turned in by the ladies and such a good selection of aprons all in good quality prints.

We learned from Miss Annie Thompson that the Junior Ladies Aid was to assist in the needle work and needed aprons for the home of which we appreciated their kind offer.

At the conclusion of the meeting a lovely lunch was served by the hostess.

Brookville

Well, at last, our new school has arrived. Mr. and Mrs. Olson returned from their trip east on Thursday and commenced the last week on Nov. 1

* * *

Hockey League Annual Meeting

The annual meeting of the North West Hockey League was held in the Synod Office at All Saint's Cathedral Saturday night and representatives were there from six towns. It was decided to enlarge the league this year to a seven team league and Morinville, Tharsby and Bremner were admitted. A schedule of 16 games will be drawn and at the conclusion of the season an All Star team will be picked from the League to participate in the Intermediate Playoffs of the Alberta Amateur Hockey Association

A. B. King a past president and life member of the Alberta Association was re-elected president and Edgar A'peagh of Leduc, secretary.

A committee of three, consisting of the president, Mr. W. W. Buxton and Wm. Campo will draw up a schedule and games will commence early in December. A schedule will be published in the Record as soon as prepared.

Pioneer Settler, C. Ginther Dies

One of Fort Saskatchewan district's earliest settlers and pioneers of Edmonton since 1913, Carl Herman Ginther, 69, died Wednesday

He immigrated from Saxony in 1892 and homesteaded at Beaver Hills in the Fort Saskatchewan area. During his early years on the farm he made regular trips with produce to Strathcona marked by

He retired from farming in 1913 to make his home in Edmonton. In September, 1946, Mr. and Mrs. Ginther celebrated their 55th wedding

Besides his widow, he leaves two sons, Max and William, both of Fort Saskatchewan, three daughters, Mrs. A. Schneider, Chilliwack, B.C.; Mrs. Frank Becker, Fort Saskatchewan, and Mrs. V. C. Carlson, 11286 91 street; 17 grandchildren and 2 great grandchildren.

Funeral arrangements was held at 2.00 p.m. Wednesday at St. Peter's Lutheran church with Rev. A. J. Moller officiating. Burial is in Beechmont cemetery.

Ardrossan

Mr. and Mrs. Gladden Rice are renewing acquaintance and visiting relations in Saskatchewan.

* * *

Miss Evelyn Fawcett has gone to Edmonton for the winter

* * *

A very enjoyable Remembrance Day concert was held in Ardrossan United Church. A varied program was given by local talent and Rev. M. A. Johnston showed some very interesting slides on Holland.

* * *

We are glad to hear Mr. Robert Alexander has returned home improved in health, after his sojourn in an Edmonton hospital.

Badminton Notes

Mrs. A. J. Dawson, president of the Badminton Club, attended a meeting of the community Hall Committee recently to arrange the nights for badminton play.

In future the Community Hall is reserved on Tuesday nights and Sunday afternoons for the club.

The club may also have the use of the hall on Monday and Wednesday nights providing it 's not rented to other parties.

The club membership is quite some time last Friday, but in future practices will only last thirty minutes.

Josephburg

The Reformed Church Y.P.A. held its last regular meeting on the evening of November 6. The meeting took the form of a belated Hallowe'en party. Some twenty members were present and these indulged in a program of sports and stunts. Lunch followed, the table being decorated with pumpkins and Hallowe'en insignia. The participants voted it a very successful evening.

* * *

Beaver Hills Church held a congregational meeting following the morning service. Partridge Hill, the second member of the Charge, has been anxious to exchange their time of services for ours in order that their young people, of whom they have a great number, might have an opportunity to take in both the service, the Sunday school and legitimate sports.

Beaver Hills has few young people who would be affected and it seemed only fair to accede to the expressed wishes of Partridge Hill. A motion "that we accept the suggested change in the hours of service with Partridge Hill until, but only until, such time as we have a minister resident on the field, in which event we revert to the usual morning hour" was unanimously adopted.

* * *

Beaver Hills Church and Partridge Hill Church are planning an exchange of regular hours for Public Worship, effective Sunday, December 1st. From that date on, Rev. W. D. Ross will conduct Worship at Partridge Hills at 12:45 noon and Beaver Hills at 4:00 p.m. every Sunday.

* * *

Rev. W. D. Ross.

* * *

Our hearty congratulations to our assistant foreman, Jimmy Strosheimi It appears that Mr. Strosheim is a master landscape gardener when he sets about the distinction with him. The C.P.R. offers two prizes—one for the best kept established garden, a second for the best kept of the new garden. The competition applies to employees whose homes are situated beside the right-of-way, the object being of course to beautify the surroundings of C.P.R. stations. Mrs. Strosheimes were awarded first prize for their successful efforts in the latter direction. This is the second time they have emp-

Curlers to Register November 30th

A largely attended meeting of curlers including ladies met in the Canadian Legion Hall Friday night.

The president, Mr Chas. F Lowe, reported progress in the purchasing of lumber for the new rink It is expected that with funds on hand and loans from members a definite start on the building will be made in the spring

Owing to the prospective expense of the new building and increase in curling expenses it was decided to increase the men s fees to $50 for town members, $7.00 for country members and $2.50 for students. It was revised that the fees have not been sufficient in the past and the new rate will meet with approval.

A large number of ladies attended and the meeting agreed to set aside one night a week for their club, this to be decided as soon as the two clubs get their

Members and all prospective members are to register with the secretary by November 30th and clubs to be drawn December 2nd.

The matter of a caretaker was left in the hands of the executive.

Partridge Hill

The holiday week-end was the occasion of some coming and much going of our citizens, to wit, Misses Jessie Alton and Dorothy Attowell and Mr Bob Moore were up from the Vermilion School of Agriculture.

* * *

Messrs. Cliff Alton and Arnold Whitmore journeyed to Red Deer to visit their daughter and sister, Mrs. Edith Cranston. Keith and George Alton spent the week-end

* * *

Mr. and Mrs. Johnny Flesher motored to Tomahawk over the week-end.

* * *

Mr. and Mrs. Adam Oshkiderton and Walter motored to Penoka on Friday to visit Mrs. Oshkiderton's brother, Mr. Walter Godard.

* * *

Mr. and Mrs. Tom Stevenson, Orville and Bill of Edmonton were Sunday visitors at the home of Mr. Wm. O-hoi-ton.

* * *

Mr. and Mrs. Fred Helgason and family and Mrs. C. H. Fimtoff were dinned guests of Mr. and Mrs. Wilmot Alton on Sunday.

* * *

Mrs. V. R. Lawrence was hostess to the W.M.S. and W.A., Thursday of last week.

* * *

Remembrance Day was observed at a regular church service Sunday the 10th featured by a special address, prayers and reading, Rev. W. D. Ross was the preacher.

* * *

Monday evening, Dec. the little son of Mr. and Mrs. Ernie Lawrence suffered severe burns about the face as a result of a gasoline flare-on. He is at present in the Royal Alex Hospital.

* * *

Mr. and Mrs. Garnet Honston are receiving congratulations on the birth of a daughter in the Lamont Hospital, Friday, November 8th.

Ypres Valley

A meeting was held at the Ypres Valley School November 11th.

It was unanamously decided by the joint district of Ypres Valley and Brookville Comfort Fund to turn the balance of the money on hand to the Od. Newberry Hospital for the Christmas Benefit Fund.

It was decided that the rink should be kept and unblanked this coming season.

The following committee were nominated as follows:

President, Gourley Harvey; Secretary, James Davies; Directors, Cmff Dittrich, Everett Reynolds, Hugh Irwin, Stan Kinch; Janitor Corcoran and Wm. Walker.

* * *

Mr. and Mrs. Arley Pence and

Irene Thomas Married at Candlelight Ceremony Late Friday Afternoon

In a candlelight ceremony, late Friday afternoon in the Josephburg Reformed Church, Irene Beatrice, only daughter of Mr and Mrs. Wm. Thomas, became the bride of Arnold James Frey, second son of Mr and Mrs. Edward Frey. Rev. J. Krueger performed the ceremony.

Entering the church with her father, who gave her in marriage, the bride wore a white lace gown over satin The fitted bodice with tiny satin buttons down the back was styled with a sweetheart neckline and long sleeves which tapered over the wrists. A panel in her full length ve... of tulle embroidered with seed pearls was attached to the back of orange blossoms. She carried an arm bouquet of red roses and white, as her only jewelry, a three strand pearl necklace, a gift of the groom

Mrs Carl Undervultis, sister of the groom, was matron of honor and Miss Lorraine Frey, cousin of the bride was bridesmaid They both wore identical gowns in floor length crepe Mrs Undervultis carried a bouquet of large yellow mums and were yellow roses in her hair Miss Frey carried a bouquet of large mums and roses with yellow ribbon in her hair Flower girl was little Audrey Underhultis, niece of the groom. She was frocked in white satin with white net overskirt which was trimmed with rose velvet bows. She carried a colonial bouquet of baby mums and wore in her hair a rose velvet ribbon

Best man was Mr Elmer Thomas, brother of the bride and ushers were Mr Wilbert and Donald Frey, brothers of the groom

Miss Elizabeth Krieger played the wedding music and during the ceremony Miss Norma Flimtoft sang "The Lords Prayer"

After the ceremony a reception to about a hundred guests was held at the home of the groom

* * *

For receiving the bride's mother wore a brown crepe two piece dress with brown accessories and a corsage of yellow roses. The groom's mother wore a black crepe dress with black accessories and a corsage of pink roses.

Achievement Day Held Tuesday

Twenty well prepared samples were entered by the Josephburg Girl Rarity Club and Partridge Hill Eagle Butte Junior Club at Achievement Day, held in the Fort Community Hall, Tuesday afternoon

Mr B J Whitbread, District Agricultural Instructor was judge and awarded prizes as the following:

Lincoln Courchine, first; Earl Mc Kinnon, second and Alvin Frey, third, on the best exhibit.

In the oral contest winners were Marjorie Alton, first; Jessie Alton, second and Stewart Hamilton

Following the judging, a meeting was held with Alvin Thomas, President of the Josephburg Club, in the Chair.

The minutes of the Josephburg and Partridge Hill meetings were read and adopted

Speakers during the afternoon were Mr. J. E. Birdsall, of the Field Crop Branch, Department of Agriculture. Mr Alton, on behalf of Partridge Hill and Mr. Hale, representing the U.G.G., sponsor of the Oat Club.

All speakers were unanimous in their praise for the splendid cooperation these clubs received from Mr Chas. F Lowe and the Fort Community Service Club, also for the refreshment rendered them at the close of their meeting.

* * *

daughter, Arelina, just returned from Lethbridge after visiting with Mr. Pearce's sister and brother-in-law, Mr. and Mrs. F. Rae.

Many Attend School Show

Last Friday evening Mr. H. P. Wilson from the Extension Department, University of Alberta, gave a demonstration of a 16 m.m. Sound projector, one of which is being purchased by the students of Fort Saskatchewan School.

The principal, Mr. Larson, opened the meeting and was followed by Elwood Galloway, president of the Student's Union, and Mr. R. M Mr. second, and Alvin Frey, third, on the best exhibit.

In the oral contest winners were Marjorie Alton, first; Jessie Alton, second and Stewart Hamilton

Following the judging, a meeting was held with Alvin Thomas, President of the Josephburg Club, in the Chair.

THE WEEK TOOK THINKING

This week the Hudson's Bay Co. threw out a challenge to thinking Edmontonians. They are going on the air with a half hour program titled "What Do You Think?".

Public opinion is being sought—via press, bulletin boards, soul-absorbing tapes as ladies' hats, parking areas, milk prices, men and fashions, sweepstakes and so on.

Answers as received on computers are compiled during the week. Each Tuesday evening at 7:30 "What Do You Think?" goes on the air from the stage of the Empress Theatre. If the air conditioning units answers jibe with the thinking of the majority, they win cash prizes totalling $50.

This cycle of planning, promoting and playing continues from week to week, with the volume of ballots increasing as more and more Edmontonians get to thinking about the variety of questions presented each Tuesday.

THE UPPER CRUST IS OUT OF FASHION

Society speaking, the term "upper crust" has been used to refer to those folk who complete themselves superior to others and the expression has become synonymous with "high quality".

The "upper crust" referred to here does not, however, refer to humans, but rather to the origin of the expression in other words, to the "high quality" top covering of a well-made pie.

In pie language, the upper crust may be out of fashion nowadays with fats still scarce, but the bottom crust can still be of top quality, tender, crisp and good enough to eat to the last crumb.

To prevent the bottom from becoming soggy and tough when baking an uncooked filling such as a custard, the Consumer Section suggests pre-cooking the crust for ten minutes before adding the custard, then baking the pie at a moderate temperature until the custard is set. With fruit pies, the addition of an upper crust can be given by using the trimmings of dough and criss-crossing them over the filling.

The fillings for both the lemon cream pie and the chocolate topped pie, may be served as desserts, instead of being used to make one crust thick.

* * *

CHOCOLATE TOPPED PIE

1 baked 9-inch pie shell
1½ cups milk
1 envelope plain, unflavored gelatine (tbsp.)
¼ cup cold water
2 eggs
1-3 cup granulated sugar
¼ teaspoon salt
¼ teaspoon nutmeg (optional)
½ teaspoon vanilla extract
2 tablespoons grated chocolate
Shred milk in top of double boiler. Soak gelatine in cold water for five minutes. Beat egg yolk with sugar, salt and nutmeg if used. Add milk gradually then cook in top of doubleboiler until thickened about 10 minutes. Remove and stir in gelatine and vanilla. Chill until partially set. Then beat with rotary beater and add to stiffly beaten egg whites. Pour into the baked pie shell and sprinkle with the grated chocolate. Chill until set.

* * *

LEMON CREAM PIE

1 baked 9-inch pie shell
½ cup sugar
2½ tablespoons cornstarch
⅛ teaspoon salt
1½ cups milk
2 egg yolks, well beaten
¼ cup lemon juice
¼ teaspoon grated lemon rind
½ cup whites
2 tablespoons sugar
Combine sugar, cornstarch or flour, salt, milk and beaten egg yolks and cook in top of double boiler thick, stirring frequently. Add lemon juice and rind. Cool custard slightly. Fill baked pie shell. Top with a meringue made from the 2 egg whites and 4 tablespoons sugar and brown in a moderate oven, 325 degrees F.

* * *

BUTTERSCOTCH APPLE PIE

1 deep, uncooked, 9-inch pie shell
½ cup brown sugar
6 to 8 medium apples
2 tablespoons brown sugar
1 tablespoon butter
½ cup shortening, half-flavored fat
2 tablespoons flour
1 cup milk
Sprinkle ½ cup brown sugar over the bottom of the uncooked pie shell. Peel apples and slice thinly. Fill the pie shell, heaping apples slightly in the centre. Cream 2 tablespoons brown sugar with the fats and the flour until well blended. Crumble the mixture over the top of the apples. Pour the milk into the pie and bake in a hot oven, 450 degrees, until top is brown and apples are tender, about 45 minutes. Cool and serve.

* * *

CHOCOLATE CREAM PIE

1 baked 9-inch pie shell
1¼ cups milk
1 envelope plain, unflavored gelatine (tbsp.)
¼ cup cold water
2 eggs
1-3 cup granulated sugar
¼ teaspoon salt
¼ teaspoon nutmeg (optional)
½ teaspoon vanilla extract
2 tablespoons grated chocolate
Shred milk in top of double boiler. Soak gelatine in cold water for five minutes. Beat egg yolk with sugar, salt and nutmeg if used. Add milk gradually then cook in top of doubleboiler until thickened about 10 minutes. Remove and stir in gelatine and vanilla. Chill until partially set. Then beat with rotary beater and add to stiffly beaten egg whites. Pour into the baked pie shell and sprinkle with the grated chocolate. Chill until set.

* * *

LEMON CREAM PIE

1 baked 9-inch pie shell
½ cup sugar
2½ tablespoons cornstarch
⅛ teaspoon salt
1½ cups milk
2 egg yolks, well beaten
¼ cup lemon juice
¼ teaspoon grated lemon rind
½ cup whites
2 tablespoons sugar
Combine sugar, cornstarch or flour, salt, milk and beaten egg yolks and cook in top of double boiler thick, stirring frequently. Add lemon juice and rind. Cool custard slightly. Fill baked pie shell. Top with a meringue made from the 2 egg whites and 4 tablespoons sugar and brown in a moderate oven, 325 degrees F.

"I'd like 11,506,651* others to hear this"

"NO post enrolment" warned Ida, glancing at Bash. "The game's over. Besides, your husband looks as though he has something on his mind."

"I sure have," said Bill. "Only I'd like the other 11,506,651 Canadians to hear this too. To-day I got hold of some figures that made me proud of the business I'm in. We Canadians now own more than 10 billion dollars worth of life insurance! And protected? During 1945 alone, life companies paid out almost 661½ million dollars to widows, children and other beneficiaries. And another 95 million dollars was paid to living policyholders through matured endowments, disability claims, pensions and cash surrender values. That's what life insurance is doing for us Canadians.

"These life insurance benefits helped to pay off mortgages on homes, start youngsters off to college, enable older people own comfortable retirement. Canadian families have thanked their stars for life insurance in sums of need. Many, many others who are now building future security through these policies will be glad of it. But I want every living Canadian to realize the importance of Life Insurance."

* * *

Every life insurance dollar, while earning to be paid out to its claimant, is working and growing as the servant of the public, creating many jobs and more goods for more Canadians. Of that dollar about 1¢ comes in new investment as Government bonds, 5 cents is laboring for municipalities, 20 cents is building industries and public utilities from coast to coast, 8 cents is at home and urban mortgagees, another 5 cents is on loan to public buildings, 1½ cents is represented by coal cents and 3½ cents is in cash and miscellaneous assets.

Life insurance not only grows in the usage of its possession, year after year, but is continually being employed for socially desirable purposes.

A message from the Life Insurance Companies in Canada and their agents.

*Department of Canada, 1941 Census, 11,506,651

Overseas Airmail Postage Cut in Half

Reduced postage on air mail from Canada to countries in every quarter of the globe becomes effective on November 1st, the Honorable Ernest Bertrand, K.C., M.P., Postmaster General of Canada, announced.

The lowering of postage will give an added impetus to Canadian business will also be advantageous to private citizens mailing by air to Europe, Africa, Asia, Australia, and many countries of the Western Hemisphere.

The reduction grows out of the recent Congress of the Postal Union of the Americas and Spain attended by the Postmaster General at Rio de Janeiro, when the question of reduced air mail charges was to the fore.

The Congress confirmed the [illegible] of an air mail unit of weight of 5 grammes for those countries using the metric system, and the nearest equivalent to 5 grammes for other countries—which is ⅛ ounce in the case of Canada.

It is the policy of the Canadian Post Office Department to pass on to the Canadian public such benefits of this kind and the re-letter of the present half ounce air mail weight unit to one quarter of an ounce has cabled the Department to introduce more attractive rates.

The new rates will at least cut in half the present cost of air mail letters to Europe, Africa, Australia, New Zealand, and many countries in Asia.

To illustrate the material cut in charges that the public will now enjoy, it will be possible to send a normal letter, written on light-weight paper, to the United Kingdom and Europe, for on 7 15 cents compared to the 30 cents per half ounce charges now in force.

With a new rate set at 10 cents, rolls will also be up appreciable reduction in the charges on mail from Canada to all South American countries, ranging up to 15 cents an item.

The 10 cents per quarter ounce rate now in force will continue to apply to British Guiana, Mexico, the West Indies, Bermuda, Cuba, and Central America, including the Canal Zone.

It will be possible to mail a quarter ounce letter to China, including Manchuria, for just 10c, instead of 20c as at present. The 20c rate will also apply to a quarter ounce letter addressed to the Philippines and Guam, where the respective charges were previously 30c and 60c for each half ounce.

The 20c rate at least halves the cost of sending an air mail letter to any other country where air mail service operates in the following zones—Africa, the Middle East, Asia, and the Orient, and the Pacific area including Australia and New Zealand.

It should be emphasized that the new airmail rates will not affect the "Canada Air Letter" a form which combines envelope and paper, and is now used for correspondence by air between Empire countries. The "Canada Air Letter" rate will remain at 10c to the United Kingdom, Northern Ireland, and Eire, and 15c to those countries beyond Britain to which service is given. The rate for "Canada Air Letters" addressed to members of the Armed Forces, regardless of destination, is 10c each.

To reap full advantage of the savings in air mail, co-operation is essential in making sure that letters are kept well within the quarter ounce weight limit. Other wise these will have to be rated at double deficiency. The advantage, therefore, of using a small stationery for correspondence is apparent. Under the quarter ounce weight unit a letter may be mailed consisting of two sheets of light weight paper, written or typewritten, and enclosed in a light weight envelope. As a special reply a writer who is unable to obtain lightweight stationery necessary to keep the weight within a quarter ounce may use a "Canada Air Letter" form. Such a form however, must be correctly addressed as the air mail rate is the country of destination, if such country is not already in the scope of the Canadian Air Letter rate system.

Only A Kid

A burglar bungled and was caught "Why," exclaimed the cop who had him by the collar "he's only a kid!" Only a kid but, in our growing crime wave, age group seven out of every ten is the fastest growing group in Canada. Our country is becoming terrorized by its juvenile delinquents.

Juvenile delinquency is due, it's often said, to delinquent parents. Not just a father and mother who step out a bit themselves. But parents blind to the future and need of children. Parents who neglect, spoil or dominate their child. Parents too because they are "just kids". And children don't grow up because they're kept in cotton wool or [illegible]

Effective in meeting this serious situation has been the work of Major E. Armstrong Effective because it strikes at the root of the trouble. It starts with the home—gets parents to change and begin to treat kids grown-ups. To take their hands off.

Then it gives the kids adult responsibility a grown-up program. Not more playgrounds or boys' clubs but a plan for their country. A plan to build basic home choice where they go because they want to, not because they have to escape which are out to build up the town, not tear it apart.

Starting from scratch just a little while ago, hundreds of homes have already been saved from disaster. A new spirit has swept through scores of schools. A group of former hoodlums have become assistants to the fire department. The school board and town council have united as never before in one major city.

Only kids—but what a difference!

World of Wheat

By E. G. L. STRANGE
Director "The Crop Testing Plan"

THE NEW CEREAL VARIETIES

Three new cereal varieties [illegible] of wheat and one variety will appear on the prairies this year.

Bedford Wheat—[illegible] what earlier than Thatcher. Resistant to stem rust and to bunt or stinking smut. Highly resistant to leaf rust. Loose smut and root rot. Slight in milling and baking value. Yields well. A small amount has been distributed in Manitoba and some applications have been received. Supplies are now exhausted.

Rescue Wheat—Rescue is somewhat later than Thatcher in maturity. Resistant to stem rust, to bunt or stinking smut. Highly resistant to leaf rust. Loose smut and root rot. Slight in milling and baking value. Yields well. A small amount has been distributed in Manitoba and some applications have been received. Supplies are now exhausted.

Regent Wheat—Regent is not quite as early as Rescue, but not quite equal to Marquis in baking quality. Our only grade No. 2 Northern. Those who [illegible] could advantage should apply to the Dominion Experimental Farms at Lethbridge or Swift Current.

Montcalm Barley—A smooth awned barley closely resembling O.A.C. 21. Has high malting qualities. Those who require a few bushels should apply to the Alberta or Saskatchewan or Manitoba Crop Improvement Associations or to the "Crop Testing Plan". Write [illegible]

A new oat variety—Considerable publicity has already been given to an outstanding new oat variety. The fact is that there are several new varieties which [illegible] to be [illegible] soon by the Dominion Plant Breeders' Committee. Should one of these varieties be a [illegible] the small lots available will probably be distributed to professional seed growers only for further multiplication.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Australia's wheat production is now estimated at 130 million bushels, a drop of 25 million bushels from earlier estimates of 155 million bushels.—The United States Office of Price Administration has removed price controls from all foodstuff, with the exception of sugar and rice.

Chile's wheat acreage is placed at 1,910,000 acres, an increase of approximately 6 per cent over last year.—Italy's wheat production for 1946 is placed at 224,000,000 a gain of 68,000,000 bushels over last year's production of 156,200,000 bushels. Argentina's wheat crop is, now estimated at 234,000,000 bushels, compared with 169,000,000 bushels last year.

U.S. COST OF LIVING

The cost of living in the United States rose from the index figure of 160 (average of 1935-39) to 163.7 as at August last, according to the United States bureau of labor statistics. Food rose to 171.2, clothing to 159.7, rent 108.7, fuel, ice and electricity 113.7, house furnishings 130.1 and miscellaneous 126.1.

The cost of living in Canada, calculated on the basis of 100 for August, 1939, was 126.3 on October 1st, 1946. The cost of foods alone during the period rose from 109 to 146.5.

GRAIN INTO HUMAN FOOD

To produce 100 lbs. of human food, it has been estimated:
A cow requires 1,000 lbs. of food.
A hen requires 1,000 lbs. of food.
A hog requires 600 lbs. of food.
A dairy cow requires 900 lbs. of food.

The above table provides farmers with the facts of the relative efficiency of various classes of livestock in the utilization of coarse grains, a matter to which western farmers must give more and more attention if the livestock industry is going to make its maximum contribution to agricultural recovery.

Time goes faster if you watch your work and not the clock.

THE THINGS THAT MONEY CAN'T BUY

HEALTH; A HAPPY HOME; opportunity for your children; your own peace of mind—these are priceless gifts. You can't buy them with money.

But reasonable financial security, based on a planned programme of personal saving, can help to guard and guarantee them.

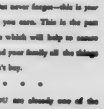
Take your Victory Bonds, for example. Every economy to have them cashed away as a financial reserve, always "on call" in time of opportunity or need. Penny conserving proof, too, that you really are sure when there's a real saving job to be done.

Perhaps today's rising costs or other factors are making it hard for you to carry on your savings programme. By the time you have met all your expenses, perhaps there's mighty little left for that all-important item marked "Savings".

Try putting savings first, not last, on your budget list. Owe yourself a definite amount each month, and make sure you collect it. It means careful budgeting, and passing off buying a good many things you'd like to have. But never forget—this is your share of what you earn. This is the part of your income which will help to assure for yourself and your family all the things that money can't buy.

* * *

PERHAPS YOU are already one of the hundreds of thousands of thrifty Canadians who have a savings account with the Royal Bank. If not, we invite you to come in and open one. Perhaps your first deposit will have to be small; don't let that worry you. The important thing is to start. It will be a pleasure to serve you.



THE ROYAL BANK OF CANADA

North West Pig Starter

There is no time in a pig's life when it is as important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real grand lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable as long as it has not been rained on, and is green and dry and kept largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

Buying Health

Despite all assertions that money cannot buy health, authorities in the nutrition field now suggest that strength and personal well-being are, in fact, purchasable commodities. Health, they say, comes to shopping bags when those bags are filled with health-giving foods.

For a long time science has known of the importance of diet in preserving health. Modern nutritional science goes further and states that some foods are definitely health-giving while others tend to favor lowered body resistance to disease germs.

Among the health'ul foods recommended by the Department of National Health and Welfare, Ottawa, and listed in the booklet called "Canada's Food Rules," are — milk, citrus fruits or tomatoes, other fruits, potatoes, green, leafy (or other) vegetables, whole-grain cereals, Canada Approved bread, meat, eggs and cheese. With these, say the experts, every member of the average family can e rest assured that his needs are definitely health-giving while others tend to chance this optimum health and stave of the bridegroom, was garbed in a floor-length taffeta with a blue shaped veil, all tastefully complemented by her bouquet of pink and white chrysanthemums.

Stanley Bell, brother of the bride was best man. The ushers were John Hart, son of Dr. Hart, and Lennie Dunnett, brother of the bridegroom.

During the signing of the register, Mrs. Hart, aunt of the bridegroom sang "I'll Walk Beside You".

After the ceremony a reception to 50 relatives and friends of the happy pair was held at the nearby home of Mr. and Mrs. Griffin. The house receiving the guests were Mrs. Robert Bell, mother of the bride, Mrs. John Dunnett and Mrs. John Lang, mother and aunt respectively of the bridegroom. Mrs. Bell was gowned in mauve crepe with black accessories and corsage of yellow chrysanthemums. Mrs. Dunnett was gowned in figured grey with black accessories and corsage of mauve chrysanthemums.

The ladies who poured tea were Mrs. Horace Harding, Mrs. Nettrouer, Misses Joy Boyce, Dollie Perrins and Isobelle Grummet.

At the cutting of the three-tiered wedding cake, by bride and bridegroom, Mr. Griffin rose and proposed the toast to the bride.

South Edmonton Rural News

South Cooking Lake

St Mark's Church was redolent happy once more on Friday afternoon, November 1st, when after a long, lonely neglect of 33 years, she again welcomed a bridal party and a numerous following of glad by interested friends and neighbors. Yes, 33 years ago, a happy wedding party thronged our little church by the side of the highway, leaving behind loveliness to her quiet seclusion; and now again, on the first afternoon of November, the ideal Autumn shadows d ws upon them and for them, as she has fallen company comes, with bride and bridegrooms, to St. Mark's Church to gladden her with her share of their happiness.

It was the wedding day of Marguerite Burton, daughter of Mr and Mrs. Robert Bell, of South Cooking Lake, and Peter Dunnett, son of Mr. and Mrs. John Dunnett, of Sidney Creek. Rev. Dr. Hurtmole of the bridegroom, conducted the ceremony.

Given in marriage by her father, the bride wore a floor-length gown of white sheer with lace, and an Elizabethan veil and train, all beautifully complemented by her bouquet of white and mauve chrysanthemums. Her jewelry was a gold locket and a bracelet, the former, the gift of the bridegroom, the latter the traditional "something old", the gift of the bride's aunt, Mrs. Ada Perrston.

Mr and Mrs G. Briggs have left for a motor trip to the southern part of the province where they will visit relatives at Calgary, Medicine Hat and Edmonton.

Born to Mr. and Mrs. J. Myers at the Misericordia Hospital on October 31st, a daughter, a sister for Rory and Lyle.

Seaweed as a Basic For New Industries

The old world use the sea kelp until quite recently, but only the French Association, formed two years ago. The Orkneys and the Hebrides were formerly looked on as most valuable chattels by farmers but the association has produced evidence that there is a valuable wealth contained in the common seaweed edible fucus. Research has shown that it is great nutritive value as well as being easily digestible For this reason, it is admirably suited for use as fodder for sheep, pigs and poultry It has further been established that a number of industrial products can be manufactured from seaweed such as lightweight synthetic wool, transparent paper, plastics, surgical bandages, medical capsules. Anything in concentrated form is required. It is expected that the industry for the exploitation of seaweed will bring much wealth to Scotland and the outlying islands.

Autumn Traveling Growing Popular

The Canadian landscape is world renowned for its autumn coloring. From the earliest times explorers, explorers, travellers, traders and new settlers have extolled the charm of autumn in the Canadian woods. It is in many ways the most delightful season of the year in Canada. Yet a vast majority of vacationists still do their sightseeing during the summer months, crowding tourist centers to capacity until the end of August. There are, of course, reasons for this practice. Parents with children of school age tend usually return to their homes by the beginning of September when school opens for the fall term. Others prefer to get away to the woods and lakes and s ream during the hot mid-summer weather, even though they may find tourist accommodation more difficult to obtain at that time of the year Many who bring along their camping equipment and spend their holidays under canvas prefer the warmer months of June, July and August for sleeping out of doors.

There seems to be a growing tendency however, especially on the part of those who are free to choose any time of the year for their annual vacation, to defer it until the autumn. An example is to be found in the number of visitors to the national parks during September. According to figures released by the Honorable J. A. Glen, Minister of Mines and Resources, visitors to the national parks during September of this year number 104,000, an increase of 30,000 over September, 1945. This brings the total visitors to the national parks up to the end of September to more than 923,000, and it looks as if the final figure will equal, if not exceed, the peak year before the war when more than a million visitors entered the national parks in one year.

Some of the more spectacular increases were shown in Waterton Lakes National Park, Alberta, with 120,849 visitors to the end of September compared with 40,724 for the same period last year, an increase of 80,115; Banff with 360,479 compared with 118,444, an increase of 91,035; Riding Mountain National Park in Manitoba, with 156,426 compared with 102,207, an increase of 53,138; Kootenay Nation Park in British Columbia, with 66,200 compared with 25,398, an increase of 40,804; Point Pelee National Park in Ontario, with 70,643 compared with 50,272, an increase of 20,770; and Prince Albert National Park in Saskatchewan, with 81,870 compared with 13,020, an increase of 12,850 over the previous year

There is much to be said in favor of autumn travel in the national parks. Apart from the glorious colors coloring the park roads and trails are less busy, accommodation is more plentiful, insect pests have largely disappeared, the days are usually bright and sunny and the nights crisp and cool Wildlife is more in evidence and it is one of the best times of the year for the camera enthusiast to reap a rich harvest of trophies for his snapshot album Some species of game fish are biting well and it is much easier to travel long distances by motor or on horseback. Hikers and cyclists find it an ideal time to do their park sightseeing, and visitors interested in color photography are able to record never-to-be-forgotten autumn scenes.

With more than 5,000 miles of park roads and trails to explore in an area of nearly 12,000 square miles of complete scenery, the national parks of Canada are able to provide ample opportunities for [illegible] vacationists.

Samples Will Decide

Competitors in the National Barley Contest are reminded again by the contest committee that November 30th is the last day for getting in applications for judging if the barley is being held on the farm for seed

If a competitor is shipping a car load for sale, he has until December 15 to get in his application for judging

With rust and smuts, the samples for judging will be the official samples taken by the committee appointed by the Board of Grain Commissioners.

If the grain is being held on the farm for seed, the sample for judging will be taken on the farm of the contestant by a representative of the Experimental Farm Products Division

Judging shall be on the basis of the samples collected, cleaned to specifications and graded by the Board of Grain Commissioners.

Competitors will first be graded on the inspection branch Only those samples grading No. 2 C.W. Six Row barley or better shall be eligible for judging In event of quality being generally poor because of bad harvesting weather, the National Committee may designate a lower grade.

Canada's Health

FOOD FOR DEVELOPMENT

Pointing out that the food people eat may be compared to the soil in which plants are set to grow, nutrition authorities of the Department of National Health and Welfare urge more attention to the daily diet for growth, development and replenishment.

"The body's source of nourishment requires the same care and selection as is given to the soil," said a leading food authority "Meals may be as nutritious as they are tasty. There are certain basic rules to follow—eat a complicated regimen, simply realization and practice of well-known laws maintaining essential food requirements."

As a guide to those who realize that health is wealth, and that from these most luscious commodities in food purchases, the government has printed a set of "Canada's Food Rules." These, and other informational material, may be obtained, on application, through provincial Health Departments, or the Department of National Health and Welfare, Ottawa.

Only 7 Per Cent Of Land Cultivated

In its world first survey with reference to the development and use of land, the Food and Agriculture Organization of the United Nations (FAO) says that in a few parts of the world, the area of cultivated land is less than one-half acre per head of population, and that it is increasing as population rises. At present only about 7 per cent of the land surface of the globe is cultivated. Much of the rest is unfitted for cultivation by present methods but there are large areas that could be opened up if capital were available for basic improvements by modern technical methods, including irrigation, drainage and drainage. Extensive information might be devised concerning the deadly pests that are the main enemies of man and his animals and crops, and which are responsible for enormous losses. Organized campaigns against these pests are recommended as well-organized.

WORK

SOCIAL WORKERS WANTED

Under special arrangement with the federal government, courses in public welfare will be made available in Canadian universities to meet the growing need for trained social service personnel.

Grants for scholarships and aids to training students for this profession, have been arranged with the Maritime School of Social Work at Halifax and in cooperation with the School of Social Work at the universities of Montreal, Laval, McGill, Toronto, Manitoba and British Columbia.

With the development of its welfare program, Canada has issued a call for those with special social service qualifications to join in the work of raising the standard of conditions in the Dominion. Relatively few are already qualified, but it is expected that the country's needs will be met as training of new comers to this field progresses.

KER-CHOO!!

Minute particles aerosol or roughed out by people with colds cause trouble. The Department of National Health and Welfare, Ottawa, has issued a warning against spread of such ailments as the common cold, coughs, influenza and some of the fevers, through so-called "droplet infection."

"It is a matter of sheer hygiene as well as of common decency to confine your sneezing and coughing within a handkerchief or sanitary tissue," declared a medical officer. "This is particularly important when the afflicted person is among others, and endless manner in a crowd."

U.G.G. Presents Radio Show Over CFRN

To mark the 40th anniversary of operations, the West United Grain Growers, Limited, is presenting an exclusive, top notch radio show, "The Sons of the Pioneers" as a special winter entertainment feature for its customers and friends.

Beginning Monday, November 4th the music of the "Sons of the Pioneers" is being released three weekly over eight western Canadian radio stations on behalf of United Grain Growers elevator agents in Manitoba, Saskatchewan and Alberta.

Selection of this show was made in a worldwide basis only after careful surveys of the listening preference of prairie radio owners, and the management of the United Grain Growers Limited feel that a tremendous response will be forthcoming.

The U.G.G. program will be heard on eight Western Canadian stations, including CFRN, Edmonton, each Monday, Wednesday and Friday at 7:30 p.m.

Sell it through a Want-Ad.

Josephburg

Continued from Page One

tured the coveted honor, the first occasion being when they were stationed at Irma, some years ago. The honored aspirant with it a cash prize. All honor to anyone who causes an Alien to appear whole-hearted in his adherence to a good deal of skill and perseverance is required to accomplish such a transformation. All honor to the couple who have won such honor, the name of Josephburg on the map!

Mrs. Slavishak, after a trying illness in the Royal Alex., has returned to her home and we trust she will speedily recuperate.

* * *

There has been quite a number of sickness committees among our residents during the past few days.

The sickness takes the form of a violent order of stomach flue which, though intense while it is on, fortunately releases its victims. Our sympathy to all those who have been afflicted, our contrast hope that these, who have so far escaped, will continue to enjoy immunity.

* * *

On Wednesday of this week the regular clinic of the Health Unit was held in our schoolhouse and necessary immunizations were administered. Josephburg makes a convenient centre for the neighboring schools.

* * *

Remembrance Day was duly celebrated in all churches in the neighborhood of all the Sundays of November 10. It is a grand institution.

* * *

Only six members of our local Rotary Club submitted samples of their leniency on Judging Day, November 11. Reverend Rippel, one of our pupils was awarded fourth prize.

* * *

A consignment of beautiful ballots for Hallowe'en scared all credited members of the recently formed Fort Rotary Club (Fort) on Tuesday and these are already accommodated in their new homes.

Our hardy pioneer, Reverend Rippel, drew the unwanted number 13 on his ticket of choice, but he and his friends failed to see any signs of hoodoo in his bargain.

Raymond's parents have returned from their sojourn in Calgary and on their way home Mrs. Rippel, who represented Josephburg at the Nutrition Camp last summer, stopped off to attend the refresher course offered to the campers. The course ended with a banquet tendered the campers by the Camp Promoter, Dr. Siemens.

* * *

Our energetic M.L.A., Mr. Floyd Baker, will be speaker at a meeting to be held in our schoolhouse on Friday. His topic will be on an exposition of the Labor Bill of Rights. To those who have not as yet taken time to study the provisions called to them during this title, we strongly recommend that they do so without delay, and prepare to question the visitor on knotty points which may be worrying their minds.

As the meeting remarked after he had raised the lid of the full copper bowl, "They've got something here".

* * *

Mr. and Mrs. Sims and daughter, Dennis, have moved into the Fort.

* * *

Mr. J. Kelly of Halcon, B.C. is visiting at the home of Mr. and Mrs. H. Prushinge.

* * *

The Fort Saskatchewan U.F.A. will hold a meeting at Yorkville school on Tuesday evening, November 19th at 8.

Mr. G. W. Hornfield organizer of income tax returns will be present and instruct the farmers on making out their income tax returns. A very cordial invitation is extended to all who are interested.

* * *

Mrs. Kerwood Galloway is visiting her daughter, Doris, in Edmonton for two weeks.

* * *

On Friday, November 8th a most enjoyable afternoon was spent at the home of Mrs. E. M Bacon, when she invited a number of friends and neighbors from York ville to renew acquaintance with Mrs. Ingram Johnson, who has just arrived from England to visit her parents Major and Mrs. Dawson.

A very delicious lunch was served by the hostess assisted by Mrs. Brubbins.

Bremner

The first joint meeting of the season of the U.F.A. and U.F.W.A. was held at the home of Mr. and Mrs. C. H. Wilkinson.

Many items of interest were brought up and a lively discussion took place. A number of new cook books were distributed.

A lovely lunch brought the evening to a close.

* * *

Work has started on the Bremner skating rink. They are enlarging the shack and making a stand for spectators to watch hockey games.

* * *

Mr. C. McGhee, Alfred, Mr. Mills and Wilbur Ostrowit have returned from hunting. Two moose are reported shot.

* * *

We are glad to see Mrs. E. Keith around again after the car accident.

* * *

The Bremner Chicken Supper was a big success. About two hundred people gathered to partake of chicken, salad, vegetables and pie.

* * *

Mrs. Brown and her trio, also Miss Schreyer and Bessy Hosford completed the evening with a splendid program.

Mrs. Kerwood Galloway is visiting her daughter, Doris, in Edmonton for two weeks.

* * *

On Friday, November 8th a most enjoyable afternoon was spent at the home of Mrs. E. M Bacon, when she invited a number of friends and neighbors from York ville to renew acquaintance with Mrs. Ingram Johnson, who has just arrived from England to visit her parents Major and Mrs. Dawson.

A very delicious lunch was served by the hostess assisted by Mrs. Brubbins.

Wye

The regular meeting of the Wye Young Women's Club was held at the home of Mrs. Clarence Sanford November 5th, with eight members present. The girls welcomed a new member, Mrs. Joe Theologian, to the club.

The Victory Bond that was drawn out, was donated to the following:—Mrs. Forgerton Fund, Save the Children Fund, Danish Home; Community Chest; Kinsmen Club and Cancer Fund.

The girls decided to start the quilt drawn again the first one to be at Thelma Walker's.

At the close of the meeting a lovely lunch was served by the hostess.

Marion Jean Lane and Bruce Graham Married at Erskine United Church

Baskets of baby chrysanthemums and ferns decorated Erskine United church for the wedding Friday at 7 p.m. of Miss Marion Jean Lane, daughter of Mr. and Mrs. W. T. Lane of Wainwright, and Edward Bruce Graham, son of Mrs. Edward Graham and the late Mr. Graham of Fort Saskatchewan. The Rev. D. C. Ramsay performed the ceremony. J. W. K. Hurtle played the wedding music and Mrs. A. T. Gray of Wainwright was soloist.

Given in marriage by her father, the bride wore a gown of lace and net fashioned with a fitted lace bodice and a full skirt of net having insertions of lace. The bodice was styled with short sleeves with which were worn lace mittens. Her veil was finger-tip and she carried a bouquet of American Beauty roses. Her only jewelry was a gold pendant set with pearls, a gift of the bridegroom.

Mrs. John Miller of Edmonton was matron-of-honor and wore a blue lace gown made with a full skirt and a bolero having a sweetheart neckline. On her head was a Dutch cap of matching blue lace and she carried a bouquet of baby chrysanthemums. Blue net gloves completed her ensemble.

Best man was Lt. R. H. Graham, Calgary, brother of the bridegroom and ushers were W. E. Lane, Wainwright, brother of the bride and H. Webb.

Mrs. Lane chose for her daughter's wedding a black crepe dress trimmed with fuchsia, black picture hat, fuchsia gloves and a corsage of roses to tone. Mrs. Graham, mother of the bridegroom wore a rose wool crepe dress trimmed with pink, black accessories and a corsage of roses.

After the ceremony a reception was held in the dining room of the Macdonald hotel where the bride's table was centred with a four-tier wedding cake finished with pink and white icings in silver bells and vases of baby chrysanthemums.

Mrs. J. D McLean of Fort Saskatchewan and Mrs H Webb poured coffee. F. M. Baker proposed the toast to the bride.

Later the couple left on a honeymoon in Calgary and Banff, the bride travelling in a grey wool winter suit with top coat and black accessories. Her hat was of gray felt.

The bridegroom is a farmer filling contracts in the RCAF, who won the AFC and DFC while overseas as a member of the Ghost squadron.

Out-of-town guests included The Misses Jane and Doris White, Mr. and Mrs. W. E. Lane; Mr. and Mrs. W. Sturgeon; Mr. and Mrs. W. Washburn; Mr and Mrs. A. T. Gray, all of Wainwright; Mr. and Mrs. E. Sherman, Lethbridge; Mr. and Mrs. J. Devereux; Mrs. A. Cameron; Mr. and Mrs. J. D. McLean; Mr. and Mrs. W. Sherman; Mr. and Mrs. A. M. Carscadden; E. Carscadden; M. Carscadden. Dr. and Mrs. T. W. S. Henry, all of Fort Saskatchewan.

East Edmonton

Top honors for Holstein heifers, two years old, and over in milk, were taken last Wednesday by R. C. Bragg as the Royal Winter Fair continued during the second day. Mr. Bragg entered Ingleroft Fay Rag Apple. Congratulations are in order for Mr. Bragg from the East Edmonton district.

* * *

Mr. W. J. Gibson and party have returned from a big game hunting trip and report success, although last years' trip proved more successful due to a greater amount of snow.

* * *

The Willing Workers Club held their regular monthly meeting on November 13th at the home of Mrs. R. Bisbee.

It was decided when the regular whist drives for the winter months would get under way.

After the business, a lovely gift was presented to the English bride, Mrs. L. Cronin, who recently arrived with her husband and little son, Eugene.

She also received many lovely shower gifts from the members of the club.

War Brides Entertained at Tea

The Welcome Home Committee for War Wives entertained last Friday afternoon at the home of Mrs. R. C. Smith in honor of Mrs. Lester Chambers, Mrs. Fred Dupuis and Mrs. Evaline Wagar, who have arrived from the Old Country during the past few months.

Mrs. Tierce Vole and the callers who entered rooms tastefully decorated with chrysanthemums and geraniums. Mrs. W. W. Buxton and Mrs. W. D. Rose presided at the candle-lit tea table, it being centred by a beautiful bowl of chrysanthemums.

Each guest of honor was presented with a corsage and during the close of the tea hour by the committee, to which each one spoke a few words of thanks.

Josephburg

A farewell party was held in honor of Mr. and Mrs. Andrew Unterschutz on Sunday in the basement of the Josephburg Ukrainian church as they are leaving to make their home in Edmonton.

Mr. John Mahr acted as chairman. Mr. Rudolf and Rev. and Mrs. Krispyn gave brief addresses. A well prepared quiz program was given by Mr. Adolf Becker.

Mrs. Albert Unterschutz, president of the Ladies Aid presented Mrs. Andrew Unterschutz with a picture and Mr. Wm. Thomas presented the honored guests with a metal floor lamp. Mr. and Mrs. Unterschutz replied in appropriate manner.

Mr. Unterschutz has served for many years on the church board in several positions: secretary, deacon and elder. His name will always be interwoven in the history of the Josephburg Reformed church.

Although it was wintery weather, the hall attracted party lovers and many respected users Mr. and Mrs. Unterschutz in the Josephburg community.

* * *

Mr. Rudolph Rennig returned home this week-end from attending the U.C.G. Convention in Calgary. He was instrumental in keeping the name of Josephburg on the map.

* * *

The Good Will Club of Josephburg held its regular monthly meeting at the home of Mrs. Leon Frey. The articles which have been prepared by members for the big auction bazaar were on display and proved to be an effective collection of specimens of native craft and ability.

Mrs. Rudolph Rippel addressed the members on the subject of [illegible]

Bill Graham Early Resident of Fort Passes Away

News of the death of Bill Graham, which occurred in hospital at the age of 61 years, came as a shock to many people of the Fort [illegible] district.

Bill was a resident of the Fort for 55 years, and like all the old timers played his part in helping [illegible]

He was former owner of a ferry at the town, a post he held for eight years. He was also most outspoken for many of the Victory Loan drives here.

In 1940 he enlisted in the RCAF and served with that force until 1943.

Bill was a past master of the Masonic Lodge here and was an active worker in the Anglican church.

* * *

He is survived by one brother Leigh, of Edmonton, three sisters, Mrs. James Ritchie, Mrs. Herb Webb, both of Edmonton and Mrs Alda Langworthy, of Vancouver.

Funeral services were held Tuesday afternoon in St. George's Anglican Church with Rev W W [illegible] officiating.

Pall bearers were Long Jones, Haddy Carscadden, Jack Westover, Edge Fordham, Fred Daniels and Dick Magee.

Good Hope

[illegible] personal [illegible] has been during the absence of this column, but he has been entertaining at an unusually generous Kilroy Was Here!

* * *

With harvesting all completed and a good deal of land cultivated for the next year, old man winter has finally brought up to us. Many of our young fellows have taken to the bush and lumber camp work for the next few months in the names of Ernest Johnston, Matt, Tessy, John Kuba, Ralph Magee and Emerson Magee.

* * *

Norman Miller has taken up work in a garage at Leduc, for the next few months.

* * *

Miss Leona Miller is employed for a month in Edmonton.

* * *

Mr. Gordon Moyer is attending the annual bonspiel convention in Calgary, the fore-part of this [illegible]

* * *

The Happy Gang held their regular meeting last Thursday, in the school house. Alice Miller, who [illegible] was the chair.

Much discussion took place regarding the coming winter activities.

The next meeting will be held Thursday, November 28, so how about everyone getting out and hear our plans for the winter.

* * *

Mrs. Lloyd Seymour returned home last week after spending two weeks with her parents at Nanton, Alberta and while there attended her brother's funeral who had been accidentally shot and killed.

* * *

Mr. Albert Cripps of Nahanee, Alberta spent a couple of days last week at his home, here, to attend the wedding of his sister, Ruby, which took place last Tuesday.

* * *

Mr. and Mrs. A. Bergerson and family, have bought and taken up residence on the farm formerly occupied by Mr. T. Magee.

* * *

Mrs. Dave Bennett was hostess to a shower in honor of Miss Ruby Cripps, previous to her marriage last week to Rev. E. Bolesh.

The evening was spent playing games and musical numbers where supplied by local talent. Rev. E. Bolesch as M.C. then called on Mr. Earle Cranston to present the honored guests with many useful articles for their home.

The happy couple very suitably thanked everyone for the lovely gifts and evening.

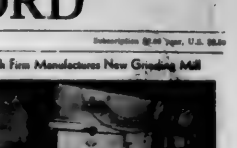
Lunch was served which brought a pleasant evening to a fitting climax.

* * *

Miss Gladys Larson of Daysland, Alberta is visiting for a couple of weeks with Mrs. J. C. Cripps and Norman.

* * *

Mrs. James Johnston spent most of last week visiting with Mr. and Mrs. Tom Johnston of Agricola.



British Firm Manufactures New Grinding Mill

Among the many new machines designed for the farmer in Britain and overseas is a grinding mill developed by a British firm. The mill, which is made of light alloy, is four and a quarter feet high and weighs 300 pounds. It is driven by a 1½ horse power motor and gasoline or electric motors can be supplied with the machine. It can grind any grain, and any type of roughage such as straw, hay, clover, either individually or in combination. It can be also used to break down lime or fertilizer, re-cutting chaff or other material as it enters the grinding screen. In conjunction with an enlarged screen area they enable the machine to grind twice as quickly than existing mills of comparable size. Much less power is used.

The Picture Shows.—Line of mills ready to leave the factory. The mill in the foreground is equipped with 1½ horse power gasoline [illegible]

Steiert-Cripps Exchange Vows

A very quiet wedding was solemnized in the Manse of Fitzroy Good Hope on Tue day, November 12 at 3 p.m., when Ruby Caroline Cripps, youngest daughter of Mrs. J. C. Cripps of Good Hope became the bride of Rev. Francis W. Steiert, son of Mr and Mrs. John Steiert of Prelate, Saskatchewan. Rev. J. T. Carson officiated, assisted by Rev. D. W. Parks.

To the strains of the wedding march played by Miss Joyce Burnett, the bride entered the church on the arm of her brother, Albert, who gave her in marriage. She wore an afternoon dress of ice blue crepe and carried the bible. Her bouquet was of red roses and fern.

Mrs. Gladys Larson of Daysland was her only bridesmaid.

During the signing of the register Rev. E. Babcock played a violin solo, "The Eden Above" accompanied by Mrs. Babcock at the organ.

Immediately following the ceremony a reception to about twenty-five guests was held at the bride's home. The rooms were tastefully decorated for the occasion, with streamers and bells of pink and white.

The bride's table was laid in the dining room, centred with a beautifully decorated three tiered cake. Mrs. Hilton Mercer, sister of the bride assisted in serving.

The happy couple left on a honey moon to Prelate, Saskatchewan and will later return to the groom's pastoral charge in Good Hope.

School Flashes

Friday, November 15, 1946 was a memorable day at the Fort High School. Numerous hours of laughter broke forth in the various rooms as classes were assembled. The boys, who were known and ribbons in their hair, plus flashy, colored socks, and bags for a day. The girls, also having an bright appeal, showed wonderful, unsavory qualities by opening the door for the boys, carrying their books and performing many things for them. Each girl treated was duly during the day. The occasion was Sadie Hawkins Day.

* * *

A gay evening at the Community Hall was enjoyed by all those present, Friday 15th. At the male members of the group entered, each put a small personal article in a box. Soon after, the box was thrown on the floor and many girls could be seen scrambling and darting for one article. The owner was to be their supper partner. After the confusion was over, a short [illegible] was put on. Various members from each high school room took participated. The school paper was read by the editor. Games were next enjoyed for a moment and half an hour. After this girls were to be seen graciously asking boys for a dance. This went on for three-quarters of an hour. Refreshing appetites were satisfied with doughnut and coffee. The evening came to a very pleasant close with a short dance.

* * *

November 25th, 21st and 22nd is the exam time at the Fort High School. Good luck students.

Kitties are unpredictable little critturs. The writer vouches for this after being confronted in the hallway by an unfortunate young stray who eyed him from head to foot then asked, "Are you Two Tim Baker?"

Doug Rosenberg was called to Kamloops recently upon the passing of his father.—Our sympathies.

S E S

Dave Gordon Harry has just returned from a business trip to Winnipeg. Weather was fine but not as pleasant as Edmonton's "June in November".

S E S

BIG FOUR IN WHEAT

Most of the world's wheat production is concentrated over where it is grown, so that only about one tenth or 600 million bushels moves overseas into what is called international trade. The great wheat exporting country is the United States where about one billion one hundred million bushels a year. Russia comes second, with an average of one billion bushels a year, and Canada is usually fourth, with more than 400 million on the average. While Canada is but the fourth largest wheat producer in the world, she holds a distinguished place. She is the largest exporter of wheat and produces the highest quality wheat. This is the highest quality wheat. This on Canada an advantage over her competitors.

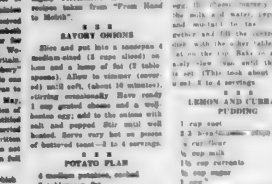
- Recipes For Milady-

Not long ago Laura Pepper of the Consumer Section, Dominion Department of Agriculture received a surprise "packet" from Elizabeth Christensen, General Organizer for the National Federation of Women's Institutes. It was entitled "From Hand to Mouth" and carried a protein-rich apt preface written by Mary L. Hood. Miss Jones was amazed counting the prefaces in full but here it is in part:

"Good cooking is a craft, which can be mastered by anyone with the determination to do so. To cook well is a duty we owe to the many people who, by their labor and forethought, produce the materials which will, if treated properly, provide an appetizing and nourishing dish."

"I think the last few years have made us realize very fully the importance of a working knowledge of catering for a household, large or small, and it would be of definite value to the future health and well-being of the nation's home if every woman was taught as part of her education to arrange and prepare nutritious and well-cooked meals. It seems to me that good cookery needs, in the cook, a palate . . . to appreciate good food; patience . . . to master the necessary details; perseverance . . . to keep on trying in spite of or perhaps because of failures; practice . . . to make perfect, and a spirit of adventure that new methods may be tested, new dishes tasted, and new scientific knowledge made full use of."

The home economists of the Consumer Section have tested and



of 4 and pieces of which I love not too fine. Mix all together and lose a generous cup of rich milk in the mix. Bake a filling with the beaten egg, the cheese, nutmeg chopped, the milk and water, pepper, salt and mustard to taste. Mix together and fill the centre of the crust with the other tablespoon of fat on the top. Bake in a moderate oven 350 deg. F. until the filling is set. (This took about 40 minutes.) 6 to 4 servings.

S E S

LEMON AND CURRANT PUDDING

1 cup suet
2 3 cups [illegible] crumbs
1 cup sugar
½ cup currants
½ cup raisins
2 eggs

Mix all ingredients together. Put into greased baking dish and steam 2½ hours. This pudding might be steamed for 2½ hours in individual baking dishes. 5-6 servings.

The big idea in life is not to be "as good as the average" but to raise the average

More and More For Less and Less

There was once a time when we thought that freedom was all we needed for democracy. Then we decided we needed freedom plus an education, plus some stiff anti-trust laws. Today, in England they've also need nationalization of basic industries.

The truth is that, with freedom, more and more people tend to take less and less responsibility for their country. Under those conditions democracy can't work. What we need is people willing to take more and more responsibility for their country. And this willingness is something that education, law and nationalization in not seem to supply.

Only 3 things mean this willingness and fuse it into anything like eagerness: 1 Common danger; 2 Promise of reward in money, power or position; 3. Love of God.

When their country is in danger men still volunteer to take responsibility for it. But we don't want to start another war to make democracy work.

Pay men a high enough salary or promise them a powerful position and they'll take responsibility. But bribing men to be responsible can't make democracy work.

There seems to be but the last alternative. If we want to keep a nation and a world free from compulsion we must rouse in men again that love for something bigger that themselves: dominating which makes them will beg and even eager to serve their fellows and their country when there is neither threat of danger nor he promise of reward.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plot"

DIFFICULTIES WITH DIFFERENT PRICES

Great Britain, under the Wheat Agreement, is to be supplied with 360 million bushels of wheat for each of two years, which is around 60 million bushels a year or more than Britain in the past used to Canadian wheat. But Britain is given the right to resell anywhere she desires, any surplus of Canadian wheat she does not need for herself. Mr. Strachey, the British Minister of Food, has just announced that some of the Canadian wheat is to be supplied to Germany in the British Zone of occupation and to the people of Mauritius, Ceylon and Malta at $1.36, and that some sanitized milk samples will go to India also at $1.36. Mr. Strachey further announced that Britain will also supply South Africa with some of this Canadian wheat but at the world price (which at the moment is $2.25 a bushel) and that Canada will receive the difference in price on the South African sales.

So we see that some countries of the British Commonwealth of Nations will be paying $2.25 for Canadian wheat, and that other countries, still of the British Commonwealth of Nations, and Germany, will receive wheat at $1.36. These differences in price, I suppose, are not calculated to create goodwill for Canada as a supplier of world wheat.

C. G. S.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Belgian wheat production is placed at 1,250,000 quarters which is below last year's poor record. United Kingdom wheat imports for human consumption for 1946-47 is estimated at 1200 million bushels; Canada 400 million bushels, 750 million bushels, Australia 28 million, the United States 14.4 million and Argentina 26 million bushels; the remainder is still to be sourced.

World corn production for 1946-47 is estimated at 5.3 billion bushels, the largest crop on record, and some 15 percent above the 1935-39 average—The United States Department of Agriculture have asked farmers to plant in the coming season some 11 million acres more of all crops than in 1946 when a record-breaking harvest was secured.

RADAR EYE WILL HELP AID SAFETY

R.A.F. Transport Command are to try out a new United Kingdom radar development in South-east Asia. It is a radar "eye" which enables the aircraft pilot to see obstructions ahead at night or in bad weather. "Eyes Chromium" Air Correspondent reports that the principle underlying this new device—which is still in the experimental stage—is very simple. Radar impulses are sent out ahead of the aircraft. The returning "echo" appears as a signal on a plane screen which is provided to give the approximate city position, left or right. A full chart as a blob another plane as a large dot and a cloud mass—which can be very dangerous to aircraft—as a fuzzy blob.

THE HOUSE RATES

"So you have to run home as usual?" nodded one of the group at the bar as a timid looking man rose to leave. "What are you, a man or a mouse?"

"A man, of course," replied the little fellow with dignity.

"What makes you so sure?" demanded the other

"Because," he explained, "my wife is afraid of a mouse."

300 Delegates Attend 49th Annual Meeting

Profits of $900,172.54 for the year were recorded by United Grain Growers Limited after taxes and all charges have been met, including provision of $175,000 for patronage dividends, B. S. Law of Winnipeg, President of the Company, stated when presented his annual report at a conference attended by 300 delegates recently held at Calgary The delegates attending were elected by the locals in Manitoba, Saskatchewan, Alberta and British Columbia and represent the 28,000 member shareholders of the company

The business sessions of the meeting were occupied mainly with discussions of company business and resolutions submitted both by various shareholders' locals and by the Board of Directors These included a strongly worded resolution opposing the proposed increase in freight rates for which application has been made by the railways. The company's views in this respect are to be forwarded to the government at Ottawa and to the governments of the four Western Provinces. Another resolution called for the removal of restrictions which now limit the export of malting barley to the United States. The Company's position in relation to Income Tax as it affects the payment of patronage dividends was reviewed and a resolution condemning the attitude and actions of the Board of Directors during recent years in this respect was passed unanimously

E. A. Hannam, president of the Canadian Federation of Agriculture was guest speaker He stressed the need for the satisfactory balance between agriculture and labor in the Canadian economy and dealt with the difficulty of adopting or applying any rigid formula with respect to parity prices. He stressed however the need of government action to support agricultural prices when necessary as an offset to the restraint, on such prices which have had to be accepted by farmers during recent years.

This being the 49th annual meeting, the history of the organization was briefly reviewed. The company now owns a terminal elevator at Port Arthur, Ontario, with a capacity of 3,500,000 bushels, in addition to a terminal at Vancouver, with a capacity of 3,000,000 bushels which is operated under lease from the Dominion Harbors Board The company's country elevator system now includes 324 elevators in Manitoba, Saskatchewan and Alberta.

Mr. Law has been president of United Grain Growers Limited for the past seventeen years, and was re-elected again this year

Caragana is a shrub that is most adaptable to prairie conditions and will thrive where other shrubs and trees fail. Being a legume, it fixes nitrogen in the soil. It is able to make good growth with comparatively little moisture and will grow to sizeable proportions, if given a chance.

B.C. Rushing Link With Alaska Highway

British Columbia is reported to be making good progress with the construction of the Alaska highway through that province. This highway has been cleared and graded for a distance of 125 miles west of Dawson Creek and has been given a gravel foundation for a distance of 75 miles. The remainder of the highway is being graded as rapidly as possible. When it is also being surfaced from the Prince George end As there is some heavy construction to be overcome it appears that the road will not be opened until 1948, instead of 1947 which was planned originally The estimated cost of the project is $6,000,000.

WELL-FED CHILDREN

Those mothers who are plagued by their children demanding attention throughout the day, may find a word of wisdom in a reminder from the child and Maternal Health division of the Department of National Health and Welfare, that a "fed child is a happy child."

No matter how busy a mother may be she should find time at the beginning of the day to serve a substantial breakfast The value of a well balanced morning meal is illustrated in the performance of all members of a family, but is particularly noticeable in the behavior of the younger ones

If youngsters have had a hearty breakfast, they will be less likely to worry for a "snack" between meals They will play happily and need less attention, so that mother can get on with her other chores

To those who eagerly await their new cars or trucks . . . here is the

LATEST NEWS ABOUT GENERAL MOTORS DELIVERIES

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you

Because of the continued and unavoidable shortages of various materials, production of new cars and trucks has remained behind our expectations. As a result, shipments of new cars and trucks to dealers for delivery are still far below the level we and the factory had hoped to attain by this time.

We know that General Motors is doing everything possible to step up its production totals — to ship more and more cars and trucks to us and to its hundreds of other dealers throughout Canada . . . and we know, too, that we are assured of getting our full proportionate share of the current and future output.

Of this you may be sure: We shall continue to make deliveries of cars and trucks to our customers as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you do take delivery of your new General Motors car or truck.

Keep Your Present Car or Truck Running

Meanwhile, may we suggest that you safeguard your transportation by bringing your car or truck to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new General Motors car or truck comes along.

meetings, of which she, by virtue of camp and refresher course instruction is a qualified authority.

A lively discussion ensued as to the possibility of supplying the pupils of our school with hot soup at noon as a variation of the usual hot cocoa. The undertaking involves some consideration then would appear on the surface. Many suggestions as to the method to be used were thrown out and the meeting generally was strongly in favor of a trial. It was decided that the president call a second meeting in the near future which the teachers would be invited to attend to which a definite workable solution could be found. Meanwhile the teachers would be appreciative of any such help as the parents in that way have a real good cocoa in our basement—a basement which is at all times warm enough for comfort.

N E S

The senior room is to receive an addition to its ranks in the shape of a new Grade IX team from Deep Creek School. This school has a heavy enrolment without the addition of Grade IX The pupils will be transported on the school bus which passes close to our school en route to the Fort.

N E S

Mrs. Wm. Fisher has returned home after a prolonged stay in Lamont hospital and Mrs. Alfred Thomas is a patient at the Royal Alex. We wish her a speedy return.

N E S

Mr. Rylynko, our representative at Ottawa, addressed us in the school house on Wednesday, outlining the Liberal party's platform with regard to current problems. We did not have the pleasure of the company of Mrs. Rylynko as we had expected. Mr. Baker was unavoidably detained in the city. We were sorry to miss the chat with our M.P. with us and we rest assured that our M.L.A. will likewise honor us whenever we call upon him.

N E S

Rev. Rose conducted two baptisms at the Sunday morning service, the infants being Bonnie Mae and Randolph Allen, the former the baby daughter of Mr. and Mrs. Fisher, the latter of the Charlie Fisher family. A prayer generation is beginning to show up conspicuously in the district, which of late has been sadly depleted.

N E S

The answer to "divide and conquer" is "change and unit".

SEE FRESH DEMANDS FOR CAR LICENSE CUTS

Demands for home motor car licenses in Alberta are scheduled to be raised at meetings of branches of the A.M.A to be held this month and early in December. Annual reports are expected to show that the A.M.A now has a total membership in excess of 31,000, making it one of the strongest organizations in the province The year's membership is far ahead of 1965.

The A.M.A. has continued to press for a reduction in car licenses and also that all motor revenues should be specifically devoted to highway maintenance and construction purposes.

Red millions of dollars collected from motorists by various provincial governments been spent on absolutely no highways. Alberta now would have a highway system that would challenge comparison with any province or state at the present time.

THE FORT RECORD

P.T. Classes Hold Social Evening

A very pleasant evening was spent on Wednesday, November 20th when the girls and boys Health Recreation classes gathered for a social "get-together" which was arranged by the president, Helen Renz, opened with "O Canada", followed by one hour of Keep Fit Exercises, conducted by Henry Lamoureux and a period of tumbling, conducted by Henry Gesen etc. Two boys gave a demonstration using springboard and horse, followed by a friendly competition between four girls and four boys which resulted in a tie Games, community singing, dancing and lunch concluded the evening

These social evenings will be continued throughout the winter, once a month, and each is hoped to be an improvement on the preceding one. It is intended that at a later date, some of the parents may be invited to join in the various classes and social evenings are carried out.

School Flashes

The students of the Fort, Highway No. 15 has had an exciting trip home one day last week About four miles out of town, a small gray coupe was found in a deep ditch. The boys of the bus attempted to push the car while the driver drove backwards in order to reach a neighbor's gateway. The Fort, Partridge Hill bus then came along. With the help of the boys from both buses, the car was partially lifted and pushed up a steep grade onto the road.

N E S

November the 20th, 21st and 22nd, brews were drawn in deep though, and many a bush was scratched furiously across the lines and the poems, were still of whether as the pupils attempted to do their best on the examination paper before them. After each test was over the teachers attacked the pile of work in correcting the papers with a will.

Bremner

The Brenner W.A. met at the home of Mrs. A. Cawthorn recently. Plans were made to have a tea and bazaar in the church basement.

A vote of sympathy has been instated in the church.

A net profit of $69 was realized at the chicken supper held in Oct.

A donation was brought the afternoon to a close.

N E S

Mr. R.C. Hall is on a business trip Sunday for Eastern Canada. He expects to be away three weeks.

N E S

Mrs. Hester and Carol are visiting her parents at Hardisty.

N E S

Mr. and Mrs. F. Radway are visiting their sister Mrs. M. Bigney of Ben Amaud.

N E S

Mr. and Mrs. Cassidy are visiting their daughter, Mrs. L. Andrews. Mr. L. Andrews has just returned from Kelowna, B.C.

Partridge Hill

Partridge Hall annual meeting of the local S.Sons Board was held last Saturday. Frank Kolsh, V. Lawrence and Cliff Alton where the retiring trustees. Will Alton, Michael Kosky and Arnold Watson comprise the new slate of officers for 1967.

N E S

Ralph Lawrence returned this week ends any game from a canoe limit in the Peace district.

N E S

Mrs. Ralph Pocock and family, Billy, Barbara Jean and Gail of Wetaskiwin are visitors of the home of their parents Mr. and Mrs. W. Gillison.

N E S

Mrs. Geo. Gabbledeaton was in Edmonton visiting for a few days last week, the guest of Mr. and Mrs. Earl Alton.

N E S

Karonte to Edmonton, Mr. Ben Gabbledeaton and Mr. and Mrs. Roy Gabbledeaton of Vermilion visited old haunts last week.

N E S

Mr. and Mrs. Harry Smith have moved into their fine new home, a modern stucco bungalow.

N E S

A congregational supper at the Community Hall was a pie sing event of last week under the direction of Mrs. Amos Gabbledeaton, president of the W.A., a scrumptious supper was served to about 50 members and their families. Rev. and Mrs. Rose led off in group games a ter supper and on all sides we heard the suggestion "let's do this again".

The first meeting of the newly formed Young People's Unit held at the home of Mr. and Mrs. John Fischer on Wednesday evening, November 20th. Milton Mayer gave an in eresting talk on the wider reaches of the Y.P.U. in review of Rev. W. D. Rose led in a number of games and concluded the be in a period. The attendance was small because of severe weather, and it was decided that the elect on of officers be held at the next meeting Meetings will be held on the first and third Wednesdays of each month in the various homes. The next meeting will be at Mr. and Mrs. Arnold Whitson's on Wednesday, December 6th.

Yorkville

On Tuesday evening, November 15th a very well attended and interesting meeting was held by the U.F.A. at Yorkville School.

Several speakers from the Income Tax Department addressed the meeting, giving information and answering questions on this topic.

N E S

Mr. and Mrs. A. E. Powell are receiving congratulations on the birth of a daughter, Shirley May, Thursday November 21st.

N E S

On Wednesday afternoon, November 30 the U.F.W.A. held their monthly meeting at the home of Mrs. G. Underwood. In spite of rather wintery weather most of the members were present.

It was decided to have an exchange of gifts between members at the next meeting. The gifts not exceeding thirty-five cents.

The next meeting will be held at the home of Mrs. H. H. Peters on December 11. All members are requested to be present, if possible, as the officers for the coming year will be elected, also a delegate to the convention held in Calgary in January.

At the conclusion of the meeting a very delicious lunch was served by the hostess and a pleasant time spent over teacups.

Ardrossan

The Ardrossan Guild held their monthly meeting at the home of Mrs. M. Lotan's with six members and one visitor present. It was decided to send presents or a birthstone to the three children's homes in Edmonton for Christmas treats, also $5.00 towards the T.B. Fund. The annual holiday dance was discussed and will be announced later.

Around the Town

The W. A. of St. George's Anglican Church will meet at the home of Mrs. W. W. Hughes on Wednesday, December 6th at 2 p.m.

N E S

Mrs. Leonard Bourne and Mr. Harry Brenton were the winners at whist and Mr. E. Miller and Mr. Jack Weeks were winners at the Bridge and Whist Drive held by the St. George's W. A. Monday evening.

N E S

Mr. and Mrs. Albert Lorey are receiving congratulations on the birth of a baby girl born Saturday, November 23rd

N E S

We are pleased to report that Mrs. Jim Hanks, who is in the Royal Alex with pneumonia, is progress ing favorably

N E S

A new score will be heard soon from the switchboard of the Telephone Co here in Fort as the Town of Vegreville has recently joined the staff

N E S

The ladies of the First United Church are busy preparing for their tea to be held this coming Saturday There will be tempting goodies to be served during the last and sale of home baking The ladies invite everyone to come and have a cup of tea.

N E S

Donal Brenton, who has been working at Dawson Creek for the last year or so, returned home this week

N E S

N E S

All members and prospective members of the Ladies' Curling Club are reminded of the meeting to be held tonight (Thursday) at the home of Mrs C P Bradshaw at 8 p.m.

Wye

The Wye Red Cross Ladies Aid held their monthly meeting at the home of Mrs McPherson with 9 of the members present. After the adoption of the minutes plans were made to have a quilting bee at the home of Mrs. McConnel at a later date. At the conclusion of the meeting a dainty lunch was served by the hostess.

N E S

Mrs. McConnell has on her guest for a few days, her nephew and niece, Mr. and Mrs. John Bowman of Toronto, who motored through to Edmonton.

The Wye Red Cross Ladies' Aid held a very successful banner in the Community Hall on Wednesday, November 23rd. Approximately 200 people were present and a delicious supper was served. After the supper all articles left were sold, every one visited and had a nice time.

We wish to thank the Junior Ladies' Aid for their kind donation of needle work and handicraft.

Minutes of Town Council Meeting

The regular monthly meeting of the Council of the town of Fort Saskatchewan, was held on the Council Chambers on Monday, 28th, commencing at 7:30 p.m. Mayor Magee and all Councillors were present.

A general discussion took place on the lying of a franchise to the same company to install gas in this town. Mayor Magee and Councillor Lewis reports on their interview with some Gas Company in Edmonton, also an interview with the Utility Commissioner at Edmonton and Dan Dodman a solicitor who the Council had employed to look over a proposed agreement with the Oil & Enterprises of Edmonton. After a lengthy discussion on this question the matter was tabled for the time being.

The following gentlemen then came into the Council Chambers—Mr. Edwards, Solicitor, of Edmonton and Messrs Hickman and McLeod of Canmore, Alberta and Messrs. Larsen, Siddall and Bill Oliver of the Fort High Hockey Club.

The matter of the traffic Bylaw for regulating the vehicles passing through this town was then drawn up. Mr. Edwards pointed out to the Council that it would be possible for a limited number of several questions re the traffic in the town, and owing to the speed that some motor vehicles used on the highway in town or Bonnie Avenue on the town's plan. Mr. Edwards would put further particulars as to the powers the town have in making up and enforcing a By-Law of this nature, especially of having stop signs placed on the highway or Bonnie Avenue. Mr. Edwards then retired and went back to Edmonton.

The letter from the Senior Hockey Club came and the requests of the Fort High School Hockey Club heard and this matter was laid over until further on in the meeting.

Messrs Howard Nickman and C. W. McLeod stated their suggestion of having a Concrete Block Plant in this town and also explained to the Council the manufacturing of the blocks. Mr. Charles Glover was contacted by telephone in regards to purchasing the land also that is at present on the lot adjoining the firm of Glover and Cowie, but Mr. Glover could not be anytime in the matter until he had seen Mr. Cowie, as it was decided that

Minutes of November Meeting of Municipal District of Strathcona

This November meeting of the Council of the Municipal District of Strathcona No. 20, was held on the 15th which with all members in attendance

Business commenced at the usual hour with the adoption of the minutes of the previous meeting and the financial statement for the month of October

Councillor Robinson was re-appointed Deputy Reeve for the ensuing six months

Mr. Phil McCalla, Manager, North Edmonton Mutual Tel phone Company was present to discuss the question of sharing costs of moving lines on newly constructed roads He quoted the rate that had been encountered in moving telephone lines for construction purposes on various road sections through out his company's territory After due consideration it was duly moved that the Council's new telephone companies $30.00 per mile for construction any telephone lines that have to be moved through the construction of roads

Mr R Knowles, Editor, Fort Record was also present to request an increase of fifty cents a year in the contract price of mailing his paper to all residents in the district As his present contract would not expire until next April, he was advised that his request would be taken into consideration and in all probability would be referred to the ratepayers at the annual meeting.

The Reeve submitted the Department of Municipal Affairs' Inspector's report covering an inspection made of the books and records of the District His report compli mented the office staff on the manner in which the records had been kept.

Councillor Adamson and the engineer were instructed to proceed investigating the advisability of installing a public scales at W st Salisbury Corner made its' report. After considering same the Council decided that the matter be left over until Mrs. Reverzi Webb was in charge of the Apron Stall; Mrs. Gardner, Miscellaneous and Mrs. Hoffmann, Fancy Work. After the sale of all articles lunch was served, every one visited and had a nice time.

We wish to thank the Junior Ladies' Aid for their kind donation of needle work and handicraft.

Minutes of Town Council Meeting

The regular monthly meeting of the Council of the town of Fort Saskatchewan, was held on the Council Chambers on Monday, 28th, commencing at 7:30 p.m. Mayor Magee and all Councillors were present.

A general discussion took place on the lying of a franchise to the same company to install gas in this town. Mayor Magee and Councillor Lewis reports on their interview with some Gas Company in Edmonton, also an interview with the Utility Commissioner at Edmonton and Dan Dodman a solicitor who the Council had employed to look over a proposed agreement with the Oil & Enterprises of Edmonton. After a lengthy discussion on this question the matter was tabled for the time being.

The following gentlemen then came into the Council Chambers—Mr. Edwards, Solicitor, of Edmonton and Messrs Hickman and McLeod of Canmore, Alberta and Messrs. Larsen, Siddall and Bill Oliver of the Fort High Hockey Club.

The matter of the traffic By-Law for regulating the vehicles passing through this town was then drawn up. Mr. Edwards pointed out to the Council that it would be possible for a limited number of several questions re the traffic in the town, and owing to the speed that some motor vehicles used on the highway in town or Bonnie Avenue on the town's plan. Mr. Edwards would put further particulars as to the powers the town have in making up and enforcing a By-Law of this nature, especially of having stop signs placed on the highway or Bonnie Avenue. Mr. Edwards then retired and went back to Edmonton.

The letter from the Senior Hockey Club came and the requests of the Fort High School Hockey Club heard and this matter was laid over until further on in the meeting.

Messrs Howard Nickman and C. W. McLeod stated their suggestion of having a Concrete Block Plant in this town and also explained to the Council the manufacturing of the blocks. Mr. Charles Glover was contacted by telephone in regards to purchasing the land also that is at present on the lot adjoining the firm of Glover and Cowie, but Mr. Glover could not be anytime in the matter until he had seen Mr. Cowie, as it was decided that these two gentlemen would see Mr. Cowie and the matter be left over until the next meeting of the Council.

Councillor Schreyer and the secretary reported on their visit to Alexander Park regarding the protests that had been received against the fencing of certain streets and lanes They suggested that the parties should subject to the consent of the Council, municipality agree as to which streets they wish to fence off.

The application of Laverne and Hilbray, South Cooking Lake for a Class "B" restaurant license was reported on by Councilor Adamson He advised that a new restaurant license had already been granted at that point it was unwise to recommend the granting of another.

The application of D. B Hargrave for the Veterans' discount on a second piece of property which he wished to purchase from the Council was granted.

By-Law No. 82 authorizing the sale was given the usual three readings.

Instructions were issued to have the district's surveyor, Mr. J. W Dune, make a survey of the road diversion in the N.E. 36-55-21-4.

Authorization was granted to the Calgary Power Company to make certain changes in the proposed route of the high-power transmission line in Tofield.

A motion was passed recommending that I J Gosling, Cooking Lake, be granted a permit to operate a store and gas station on the N.W. 15-52-21-4. Urges He was also granted permission to cut logs on the N½ N.W. 21-52-21 for building purposes on the basis of $0.50 per thousand board feet

Councilman Lewis was asked to investigate the reported prevalence of rose gravel in certain sections of the district.

Enumerators were appointed for Divisions one and five in readiness for the forthcoming election in those Divisions. The Council renewed its contract with the Gas Company for the sweet pleering of the Wye Road and the Ottewell Road for the winter 1966-67. A claim for damages to a car battery reported to have been damaged through rough roads was referred.

Every Councillor who would find it convenient to attend the Municipal Convention was appointed as an official delegate After the reading of correspondence and the passing of payments and accounts the meeting adjourned.

At the Assessment Commission will commence its' sittings in the Municipal Office on the 5th of December to hear appeals from the decision of the Court of Revision. the next meeting of the Council will be held on Friday the ninth of December.

Josephburg

On Monday, December 5, the people of Josephburg and surrounding district will be guests of the Vermilion Dairy Company. Films of good educational power will be shown and we expect there will be visitors also for the project stars. The show will be given in the school house and our home, the Woodland Dairy Co., will provide a free lunch of coffee and doughnuts. We strongly recommend the program to all interested in agriculture.

N E S

Some thirty guests assembled in such many happy returns of the day to Frank Gesher for on the occasion of his eighth birthday. The party was held at the home of a neighbor in Josephburg. Mrs. Gesher is one of the "Lamont Old Boys" of Josephburg, and till recently, has enjoyed wonderful health. We all unite in wishing him many more such gatherings.

N E S

Two members of the local school board, Adolf Rappel, secretary-treasurer, and Rudolph Rappel, secretary of the school district attended a meeting held last Monday at Pleasant View school. The meeting was fairly well attended. Recent changes in the School Act were explained by the chairman, Mr Rudolph Hennig. The vote results, now out of 1,000 votes cast, were counted. The financial statement was also read and audited to their present. It is to be regretted that more ratepayers do not avail themselves of this opportunity to become conversant with the mechanism of so vast an undertaking as a modern School Division. A great many difficulties would be cleared up and more opportunity for those entrusted with the educational welfare of our children might be engendered.

N E S

Amateur play fans are in store for a rich of fun when the play "Spot of Tea", a well-tried farce in three acts is presented in the near fu ure by Bremer Hall.

Hank Cote are given pleasure with both—comedy and luck. The plot concerns two young men, whose fortunes are dogged by the misfortune of having in charge of a recurring visitation of Black Cats. Their efforts to conceal their misfortune from the public would be a small-be spoons and a million laughs before the curtain eventually descended The lure in the shape of a turbulent detective and a mysterious constable, adds to their difficulties. An efficient cast, of local talent, under the capable direction of Mrs. Hoffmann promises all and more than the usual (if you have been of laughter), prepare to Mon 'Bremer Hall this play. The director of the play is Mrs. Feeney supported to have been at all times through rough roads was referred.

Every Councillor who would find it convenient to attend the Municipal Convention was appointed as an official delegate After the reading of correspondence and the passing of payments and accounts the meeting adjourned.

At the Assessment Commission will commence its' sittings in the Municipal Office on the 5th of December to hear appeals from the decision of the Court of Revision. the next meeting of the Council will be held on Friday the ninth of December.

WEEKLY EDITORS PRESENT CAR TO RETIRING OFFICER

On his retirement as managing director of the Canadian Weekly Newspapers' Association, after 11 years service, C V Charters, of Brampton, Ont., was presented with a new 1946 Pontiac sedan by members of the association at their annual convention at Halifax. Shown above is Dr Hugh Templin, (left) immediate past president of the C.W.N.A. presenting the keys to Mr Charters.

Now that he is literally raw ping back into March he active being practically absent for eight or ten years. The wood thieves bent in wet heavy soils, and its worst enemies are dry soils and crazing.

- Recipes For Milady -

It is commonly thought to have meats which are tender and flavorful, that choice cuts, selling at top prices, must be used. However, the thrifty homemaker knows that the tougher cuts, when correctly cooked and judiciously seasoned, give similar results at a considerable saving.

Anyone can broil a steak, but it takes an artist to brew a stew. Stews are by many means in many countries. They have a popularity that knows no international boundaries. The Hungarian goulash, the French ragout, the English beef stew and the American meat pie are all stews, with that delicious slow cooking using moist heat. A touch of garlic makes a good seasoning and the liquid may be either tomato juice or the juice from cooked vegetables. A pastie topping for meat pies is an enterprising substitute for the pastry crust we miss these days.

Another good old favorite on Canadian dinned tables is the pot roast. When the vegetables are cooked with the meat, it makes a complete main course, that requires little attention while cooking. A "bouquet" of herbs, such as thyme, bay leaf and parsley, tied in cheesecloth, points up the flavor. Other seasonings which may be used, are horseradish, Worchestershire sauce, garlic, chili sauce or such spices as cloves or mustard. By heating or pot roast during the cooking with the spiced liquid from pickled fruits or vegetables, a pleasing flavor is achieved.

If the meat, either in a stew or pot roast, is braised first, a rich color and flavor is given to meat and gravy. The Consumer Section, Dominion Department of Agriculture gives the following rules for braising:

1. Season meat with salt and pepper.
2. Dredge (or sprinkle) with flour—if desired.
3. Brown meat on all sides in hot fat.
4. Add only a small amount of liquid—replenish as it cooks away.
5. Cover tightly to retain moisture.
6. Cook at simmering temperature (below boiling point) on top of range or in a slow oven, until tender.

SAVORY POT ROAST

4 lbs. beef, blade, chuck, short rib, round or rump
2 tablespoons flour
2 tablespoons fat
1½ teaspoon salt
⅛ teaspoon pepper
1½ cups boiling water OR tomato juice
1 teaspoon spicy or all spice
1 bay leaf
1 onion
6 raw carrots, grated
1 spring parsley
2 stalks celery

Dredge meat with flour. Brown in hot fat in heavy kettle or Dutch oven. Add water, meat sauce and bay leaf. Grate carrots and chop other vegetables together until very fine. Add to meat, cover and simmer until meat is tender, about 2½ to 3 hours. Add add local boiling water during cooking if needed. NOTE:Veal or lamb may be used, instead of beef. Six servings.

LIMA BEANIE

2 lbs. lamb, breast or shoulder
¼ cup flour
1 teaspoon salt
⅛ teaspoon pepper
Dash of ground clover
2 tablespoons fat
½ cup onion, chopped
2 cups water
6 medium carrots, quartered
2 cup celery, chopped
1 tablespoon spicy meat sauce
1 teaspoon salt

Cut lamb into 1-inch pieces. Remove as much fat from lamb as possible. Dredge meat with flour, to which has been added the salt, pepper and dash of ground clover. Brown the meat with the onions in hot fat. Add water and simmer in covered pan until tender. Skim off fat, add vegetables, sauce and salt. Cover and continue cooking until vegetables are tender. Serve with dumplings. Six servings.

Radiograms
CJCA TO THE RESCUE
Hal Yorke and Gord Shillabeer, CJCA's newsman and chief announcer respectively, played a major role in relieving the threat of famine at Fairbanks, Alaska earlier this week.

Hal did a bang up job of telling the story on CBC News Roundup and Gord performed a delicate technical job to make the broadcast possible.

In the brief 9½ minutes at his disposal, Hal first interviewed Major Ainley of Edmonton about his hand in the emergency. The next voice was that of Herb Holmes of the Fairbanks Chamber of Commerce, who described the throughout food shortage. Hillsother's appeal closed with the challenge: "Canada, you want to do business with you?"

It wasn't long before food began to move northward— 14 000 pounds of flour Monday night and on the 20 000 pounds of flour and 30 000 pounds of beef the next day.

The switch from CJCA to KFAR Fairbanks via a direct telephone lines called for a delicate bit of technical manoeuvring.

The organizing of such a broadcast on short notice, short in fact that Hal and Major Ainley ad libbed their parts, was a masterpiece of news gathering on the part of Hal Yorke.

Tuesday night a Fairbanks business man now in Edmonton thanked Canada for the prompt response and personally thanked CJCA and especially Hal [illegible] for their part in averting a threatened famine in Alaska.

If all we have in our reputation, that won't help to save the nation.

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anaemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

EDMONTON

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable so long as it has not been rained on, and is green and dry and properly free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Lease hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

PHONE 32434

PRICE JUMP FOR PRUNES

The WPTB has announced a four to five cent increase per pound in the retail prices of prunes.

This increase comes after consultation with the United States, the Board said.

Canada's supplies of prunes are purchased through the Canadian Wheat Board. Recommendations and method of meeting the higher American prices by increasing the subsidy, the Board has advised the retail price.

When Victory?

Now that we have the materials necessary to achieve such a goal, when will it be possible to declare a victory over tuberculosis?

The answer to that question is as above a medical one, for medical science already has gone a long way toward giving its full part, short of finding a specific cure. The answer in actual fact, can be given by us no laymen and citizens.

Only when everyone in Canada individually cooperates with tuberculosis agencies in taking advantage of free chest X rays, following the simple rules of health and obtaining annual check-ups, will there be any appreciable increase over the progress presently being made by supporting a community's disease such as tuberculosis especially when even in its native state it succeeds in entering up its victims, is like finding a needle in a haystack

Alberta has one of the most effective tuberculosis prevention and control programs to be found anywhere in the world. The first that the annual death rate from this disease in the country from the appalling figure of 220 per 100,000 of population to 48 deaths. Then came the discovery of the anti-tuberculosis serums already has gone a long way toward giving its full part, short of finding a specific cure. The answer in actual fact, can be given by us no laymen and citizens.

Only when everyone in Canada individually cooperates with tuberculosis agencies in taking advantage of free chest X rays, following the simple rules of health and obtaining annual check-ups, will there be any appreciable increase over the progress presently being made by supporting a community's disease such as tuberculosis especially when even in its native state it succeeds in entering up its victims, is like finding a needle in a haystack

Alberta has one of the most effective tuberculosis prevention and control programs to be found anywhere in the world. The first that

Since it is our effort, therefore, it is up to us to see that it succeeds. We can help to the day of victory and we could remove the threat of this disease from our own households and our comment, by fulfilling the obligations placed upon us. Right now our obligation —and it is not to convene a one week to buy and use the Christmas Seals we will soon receive through the mail. Purchasing these Seals is a duty we must not shirk, for every cent contributed to the cause will speed the victory—so long is coming, but no necessary to make this world a healthier place to live in.

That is why we say—Buy more Christmas Seals this year.

Q. Have chiropractic or osteopathic treatments ever been used in the treatment of tuberculosis and if so are they of any known benefit?

A. One of the principles of the treatment of tuberculosis is the obtaining of as much physical and mental rest as possible. Chiropractic or osteopathic treatments would be directly opposed to this.

Q. Do you think embroidering and sewing little things would be injurious to a patient who has only one lung?

A. Under ordinary conditions, no, and providing there is no undue nervous strain or fatigue following such effort.

Readers desiring questions answered are asked to send them to Calgary, where careful attention and early reply will be given.

CANADA'S HEALTH

RALPH HENRIQUES

Under the Proprietary or Patent Medicine Act, Canada maintains a constant surveillance of the field of remedies, to ensure maximum protection for the purchasing public. The Canadian people annually spend millions of dollars for prepared medicines, which comprise a variety of brands of liniments, lotions, ointments, pills, powders, syrups, tablets, tonics, etc., of both domestic and foreign manufacture.

Canada prohibits false, exaggerated or misleading advertisements, at request of many products, and there are certain diseases for which no medicinal preparation is granted registration. By and large, however, the Act, a decade of this important Act, and changes are fixed by a medical board, within reasonable limits of safety.

In connection with this work, the federal authorities maintain a constant check on the representations for remedies appearing on labels, wrappers, circulars and in literature and newspaper advertisements as well as in radio announcements. This work is facilitated by the cooperation of the reputable drug manufacturers and by close liaison with press and radio outlets.

CARBON MONOXIDE

Burning fuel produces carbon monoxide—a deadly gas. If ventilation is faulty, in factory, garage or even at home, carbon monoxide may escape and contaminate the air. Industrial heath authorities of the Department of National Health and Welfare Ottawa, say that carbon monoxide within without warning. Pointing out that good ventilation is best protection, they urge careful check of ventilation systems periodically, check of furnaces pipe drafts and use of approved respirators around possible sources of carbon monoxide.

"Although carbon monoxide has no smell, it is commonly associated with odorless gases, fumes given off by burning fuel," says the authority. "Headaches and dizziness arise from a variety of causes, but, when these symptoms occur in the presence of fumes from burning fuel, they may indicate an early stage of carbon monoxide poisoning."

"Never run engines indoors, without a 'square ventilation. First aid treatment prescribed for victims of carbon monoxide: remove the victim to the open air; keep victim warm and quiet; if breathing has weakened or seems to have stopped, apply artificial respiration. Whenever poisoning is suspected, immediately first aid is essential, and no time should be lost in calling a physician."

ENVIRONMENT

An interne ing study has been made by Ontario health authorities on influence of color and light on working and living environment. The proper coordination of lighting and color, by eliminating or modifying certain unfavorable conditions can contribute to visual comfort and emotional satisfaction, they say.

Inadequate lighting and color give rise to eye strain and nervous tension and, in the case of working conditions, to poor production records. Among the faults the experts find with environment in many places are these: glare, inadequate or insufficient light, unpleasant, depressing color schemes, low visibility, due to wrong color contrasts and lack of convenient and agreeable areas for visual relaxation.

While their study has been made largely with a view to recommending improvement in conditions in factories, workshops and stores, their findings are applicable to every household. For instance the authorities find that illumination design cannot establish good visibility unless it is combined with proper color treatment. This fact is based on the principle that light tones of color reflect more, and absorb less, light than dark tones. If the ceilings and walls of a room are painted in a dark tone, sufficient light may be absorbed to cause poor illumination. When the same room is painted in appropriate light tones, the increase in reflected light may raise the level of illumination to satisfactory standards, and thus increase the efficiency of the natural or artificial light in use.

Freight Rates On the Lakes

By R. J. Donehman

War functions efficiently in making shipping scarce and dear. That happens in every war but much more in recent wars. Not only has there been a great destruction of ships but also of builders them has a far are Wages are higher, much higher. Salaries are costs and operation. All these things will have to be taken into account. The return to no value that hatred word, will probably be rather slow. This is the new era. It may not be quite so enjoyable as the old, we shall certainly pay for what we get. Still we should not forget that time may be on our side. High prices have set a bushel since 1943 and so one seems to have noticed it. Perhaps the farmers of the West have been thinking back to 1919 and the years immediately following. Here are the rates to Montreal from Lake ports in that happy period when we were enjoying the benefits of inflation: 1919, 16-7½c a bushel; 1920, 11.8c; 1921, 10.8c; 1922, 10.6c.

Plainly and Bluntly

To put it plainly and bluntly there can never be peace in a pagan world. There can never be peace of any kind—at home, in business or between nations.

And a pagan world doesn't necessarily mean a world of infidels. It can mean a world of people very much like you and me —even those of us who go to church, believe in God and the possibility of a better life, both here and hereafter.

It does, however, mean a world of people who do not let those beliefs seriously affect their lives. A pagan does not believe in a better world seriously enough to work for it. He works instead to get all he can out of the life he knows. He is a pot hunter, not a demand and he is bound to run away up against all the others who do want something for themselves. He, therefore, shapes a world where might decides, greater, deliquency and war are not only possible but inevitable.

The opposite to a pagan is a Christian—and not just a church goer with a private plan for personal salvation—but a go getter with a worthwhile plan for salvation of the world. He believes in a better way of life enough to work for it. And not only in the hereafter but here and now.

The effective Christian, moreover, not only believes in God but believes that God can tell him how to build this better world. As a result of what he "hears" in this way, men find ways of changing lives, building teamwork, winning the hearts and minds of the millions. You find him living to make the other fellow great—the one way to unite men and nations, and build a world without war is impossible—and worthwhile.

Editor Bullock, one of the latest of our big city guests, is a graduate of the Toronto Royal Winter Fair. He owns 114 farms in Saskatchewan, whose are 30,000 head of cattle. He has the largest Holstein herd in the world, and his farm supply 15 per cent of the entire market of the capital of Burton Airus.

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"

"CROP TESTING PLAN"
1946 WHEAT RESULTS

The "Crop Testing Plan" has completed an analysis of several thousand samples of farmers wheat handed in for test as to impoverishment or variety, each sample representing a field of wheat produced in 1946.

The percentage of samples which graded "A" this year was 52 per cent compared with 67 per cent in 1945 and 39 per cent in 1944. The number of "B's", which means that the crop was beginning to be somewhat impure this year, was 30 per cent; compared with 24 per cent last year and 24 per cent in 1944. The number of "C's" and "Mixtures" which are very bad was 18 per cent, compared with 29 per cent last year and 37 per cent in 1944.

It will be observed that there is once again an improvement in true-to-variety of the crops, as shown by the increase in "A's" and the decrease in "C's" and "Mixtures". A very bad mixture is 25 per cent still grade "C's" and "Mixtures" there is certainly room for improvement. Of the samples tested were far entirely different variety from that which the farmer stated and thought he was growing.

All fa mers who had samples in for test have been notified of the variety and grade of their sample. Those who have been advised to purchase better seed, Registered or Certified if possible last year 62 per cent of such farmers did actually change their seed.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Belgium's wheat production is now placed at 1,408,000 quarters, somewhat below the poor harvest of 1945—Canada's wheat production is now estimated at 418 million bushels, compared with earlier estimates, of 440 million bushels—Wheat requirements of the British zone of Germany are placed at 8,300,000 bushels per month, of which approximately 5,000,000 bushels must be imported.

Bulgaria's bread ration has been raised forms 17¼ to 22 ounces daily —Argentina's officially revised wheat acreage is now placed at 16,468,000 acres, compared with 14,328,000 acres last year—The United States Government has announced it intends to export 387 million bushels of wheat and flour during the 1946-47 season, and carry over some 235 million bushels.

THE WOOL SITUATION

Representatives of 12 nations participated in a week long conference in London, England, at which the world's wool situation was studied. Total stocks of wool were estimated at five billion pounds, mostly held by Great Britain, Australia, New Zealand and South Afrin.

With this enormous wool surplus in the world there is wondement over the shortage in clothing, which also is world-wide. Representatives of the holding nations say that it is not their fault that such a condition exists. They assert there is simply not enough equipment and skilled workers to meet the enormous demand for woolen goods.

Depth of Planting Forage Crop Seed

Seeding of forage crops at too shallow a depth is considered to be the most common cause of failure to secure good stands on the prairie plains region of Western Canada, states Dominion Agriculture. However, under arid conditions, the deeper the seeds can be placed the better the soil moisture may be for germination.

As the result of an experiment carried out at certain promising grasses by the Division of Forage Plants at the Dominion Experimental Farm, Swift Current, Saskatchewan, it was demonstrated under the conditions of the experiment, that the greatest depth at which the following grasses may be sown commercially was: Crested wheat grass, 1 inch; Russian wild rye, 2½ one and Tall wheat grass, 1½ inches; Russian brome grass, 2½ inches; Awnless brome grass, 2½ inches; Northern wheat grass, 2½ inches.

"It may be stated," says Dominion Agriculturist Thai, "that wheat grass, Rye wheat grass, Russian wild rye, Brome and Tall wheat grass, 1½ inches; Awnless brome grass, Rend Canary grass and Wild Virginia rye, 2½ inches; Northern wheat grass, 2½ inches.

"It may be stated," says Dominion Agriculturist Thai, "that wheat grass, Rye wheat grass, Russian wild rye, Brome and Tall wheat grass, 1½ inches; Awnless brome grass, Rend Canary grass and Wild Virginia rye, 2½ inches; Northern wheat grass, 2½ inches.

All fa mers who had samples in for test have been notified of the variety and grade of their sample. Those who have been advised to purchase better seed, Registered or Certified if possible last year 62 per cent of such farmers did actually change their seed.

THREE DAY COURSE IN PASTURIZATION

Dairy plant, public health and milk control personnel, as well as others who are interested in milk pasteurization, are invited to attend a short course at the University of Alberta on December 19th, 20th and 21st, offered jointly by the Department of Dairying, University of Alberta, the Alberta Department of Health and the Dairy Branch of the Department of Agriculture.

Topics will include milk-borne disease and the protection offered by pasteurization, the basis for various time-temperature charging, and educational efforts, costs, types of instructors with their specific duties and control, public health inspection and control government services, legal aspects, tests common to the milk plant, etc.

Enrollment at the course will be reported to make his own arrangements for living accommodation. Meals at popular prices are available on the University campus.

Registration will take place at 9:00 a.m., Thursday, December 19, at the Department of Dairying, University of Alberta, Edmonton and enquiries should be mailed to that address.

Agnes McAuley, Robert Rose Pledge Vows

On November 16th in an afternoon ceremony at Telford United Church, Rev. H. D. Rosser, united in marriage, Agnes Isobelle McAuley, only daughter of Mr. and Mrs. Willard McAuley, Telford and Mr. Robert Kerr Rose, eldest son of Mr and Mrs. Robert Rose, Telford. They exchanged vows of the church for the occasion.

Given in marriage by her father, the bride wore a floor length gown of white georgette, with a sweetheart neck line. A wreath of orange blossoms caught up her wedding veil of fine English net and she carried a bouquet of red roses. A gold heart-shaped locket, gift of the groom, was her only jewelry.

Miss Lois Wilson of Rudecky, B.C. was bridesmaid. She was gowned in blue taffeta with bias hem motifs, and carried a bouquet of yellow chrysanthemums. Little Marion Smith was flower girl, dressed in pink taffeta with white over net and carried a basket of white and yellow baby roses.

The groom's brother, Mr. Harold Rose was best man. The ushers were Mr. Chars Kelley of Fort Saskatchewan and Mr. James McKenzie of Edmonton. The wedding music was played by Miss Cortine Marshall. During the signing of the register Miss Joyce Wilson sang "I'll Walk Beside You".

Mrs. McAuley, mother of the bride wore a black and green taffeta dress with lavender hat and accessories and a corsage of roses. The groom's mother was gowned in a rust dress with black accessories and corsage of roses.

The reception was held at the home of the bride's parents to 50 relatives and friends. A three-tier wedding cake centered the table which was laid at one hour.

For their trip to Lodbug Michigan, U.S.A., the bride wore a cocoa brown suit with brown accessories and a gold blouse over which she wore a brown wool coat trimmed with brown velvet.

Among the guests were Mr. and Mrs. James Kelly, and Mr. and Mrs. C. Kelly of Fort Saskatchewan, Mrs. G. McKenzie, grandmother of the bride and Mr. J. McKenzie of Edmonton.

Please your subscription with L. D. van Hilland. Make your selections from our new catalogue of quality goods at lower prices. Mr. Hilland, Poole, Springs, anything in our line.

Good Hope

Rev. and Mrs. S. Stelcz returned from their honeymoon trip to Preston, Saskatchewan, last week.

Born to Mr. and Mrs. Wasl y Johnston on Thursday, November 27, in the Royal Alex, a son.

Mr. Dacey Ballard, an old time resident of the district, renewed old acquaintances here after an absence of eighteen years.

Mr. Leslie Johnston of Edmonton underwent an appendicitis operation last Sunday morning. He is reported as recovering very speedily.

Miss Hilda Meyer left last Saturday for an extended visit with her sister Velma in Regina, Sask.

The Happy Gang held their regular meeting in the schoolhouse last Thursday evening. A favorable financial report was given on the dance which was held recently.

Plans were made for a Christmas party for members of the club and their escorts. Names were drawn for Christmas present exchange.

Anyone interested in taking part in a 3 act play, are asked to attend the next club meeting on Thursday, December 12.

Many Attend Imperial Oil Agricultural Meet and Picture Show

A very entertaining and informative Picture Show and Agricultural Meeting sponsored by the Imperial Oil Co. Ltd. was held last Monday evening in the Fort Community Hall.

Mr. Henry L. deRooey, Imperial Oil Rural boss was host and opened the meeting with an address of welcome, after which he introduced Mr H Williamson, D'ist Rt Supervisor as Chairman.

Mr. Williamson outlined the pictures shown, which were a 1 reel sound, "From New Lands to Old", a comic, "Little Black Rube" and "Skill of Tomorrow" a picture demonstrating the hard work and of proper tillage and the work being undertaken by research and Agricultural experts to prevent soil erosion. Also the work being done in conserving barren land into profitable farming land through the use of irrigation.

The pictures were interspersed with short talks by representatives of the company. The first speaker was Mr B. D Macpherson, Farm Sales Manager, who outlined some of the services offered by the company. He urged all farmers to take the necessary steps to contact their landlords.

The next speaker was Mr. C. S. Hill, Farm Service Engineer, who dealt with "Winter Care of Tractor" and "Fuel Oil Heating on the Farm". Mr. Martin gave a talk on "Lubrication" and "Proper care and maintenance of tractors, he would assure farmers longer life and more satisfactory performance.

In dealing with Fuel Oil Heating Mr. Warble outlined the most economical way to operate oil heaters to be more profitable. Before buying the amount best to obtained from the oil company.

Door prizes were given, the winners being A. Paradis, Art Bobelle, J. Ahlgren and Morgan Aton. Doris Colman was the lucky girl to draw the lucky number. She also received a prize for the best lunch served.

The evening closed with Mr. McPower expressing his thanks to those present and invited all to partake of sandwiches and coffee provided for them in the basement of the hall.

School Finishes

An autumnal figure wrought its way up to our Principal's office on Friday, November 29th. The contents of the large mysterious, looking, oblong parcels was our projector.

The frames for binding out for room 8, made by the willing hands of Ronnie Mann, Jack Brenton, Stewart Shackleton, Bob Gray and Graham O'Brien, were a-ing to be used. For the first time the students witnessed the showing of a film on Tuesday afternoon, December 3rd.

The official opening reunion of the hockey team, recouping our Rich School was held Tuesday evening at 8:00.

Another Fire Prevention Picture to be Shown Here

Another allied attra ion "Fire Wise" will be shown at the Fort Show Thursday and Saturday of this week also next week.

The citizens of Fort Saskatchewan are indebted to Mr Chas F. Lowe for his co-operation in procuring these added pict res to be shown, and in doing all he possibly can to bring home to the public the danger from fi e hazards. The showing of such educational pictures as these is one of the most effective ways of educating the people to take what precautions they can by cleaning up and checking their premises for its hazards.

Fort Suffers Defeat In Opening Game

In the opening game of the Highway 16 Hockey Schedule played here Wednesday night, Fort Saskatchewan suffered a 5 3 defeat by the Nisku Executive Mission Supervisor as Chairman.

Mr. Williamson outlined the pictures shown, which were a 1 reel sound, "From New Lands to Old", a comic, "Little Black Rube" and "Skill of Tomorrow" a picture demonstrating the hard work and of proper tillage and the work being undertaken by research and Agricultural experts to prevent soil erosion. Also the work being done in conserving barren land into profitable farming land through the use of irrigation.

The pictures were interspersed with short talks by representatives of the company. The first speaker was Mr B. D Macpherson, Farm Sales Manager, who outlined some of the services offered by the company. He urged all farmers to take the necessary steps to contact their landlords.

The next speaker was Mr. C. S. Hill, Farm Service Engineer, who dealt with "Winter Care of Tractor" and "Fuel Oil Heating on the Farm". Mr. Martin gave a talk on "Lubrication" and "Proper care and maintenance of tractors, he would assure farmers longer life and more satisfactory performance.

In dealing with Fuel Oil Heating Mr. Warble outlined the most economical way to operate oil heaters to be more profitable. Before buying the amount best to obtained from the oil company.

Door prizes were given, the winners being A. Paradis, Art Bobelle, J. Ahlgren and Morgan Aton. Doris Colman was the lucky girl to draw the lucky number. She also received a prize for the best lunch served.

The evening closed with Mr. McPower expressing his thanks to those present and invited all to partake of sandwiches and coffee provided for them in the basement of the hall.

Agricultural Service Board Meetings Well Attended

The Agricultural Service Board of the Municipal District of Strathcona, No. 20 held meetings at Redcom and Castle Schools during the past week.

J. J. Whitbread, District Agriculturist and M. L. Statson, Field Supervisor spoke.

The attendance at the two meetings was good and everyone seems desirous of the adoption of farm practices which will be likely to reduce our soil drifting and increase crop yields.

Fultonvale

The Goodwill Club will meet Wednesday, December 11 at the home of Mrs. Sam Holland. Everybody welcome.

Mr. and Mrs. Harry Cooper have gone to Vancouver for the winter months.

Mr. Percy Lane is spending some time with his sons in the district.

Unauthorized Sales of T.B. Seals Should be Reported

Some unauthorized parties are soliciting Christmas Seals and keeping the money intended for the fight against Tuberculosis. Our only method is to send seals by mail or collect personally after an absence of eighteen years.

The frames for binding out for room 8, made by the willing hands of Ronnie Mann, Jack Brenton, Stewart Shackleton, Bob Gray and Graham O'Brien, were a-ing to be used. For the first time the students witnessed the showing of a film on Tuesday afternoon, December 3rd.

The official opening reunion of the hockey team, recouping our Rich School was held Tuesday evening at 8:00.

Another Fire Prevention Picture to be Shown Here

Another allied attra ion "Fire Wise" will be shown at the Fort Show Thursday and Saturday of this week also next week.

The citizens of Fort Saskatchewan are indebted to Mr Chas F. Lowe for his co-operation in procuring these added pict res to be shown, and in doing all he possibly can to bring home to the public the danger from fi e hazards. The showing of such educational pictures as these is one of the most effective ways of educating the people to take what precautions they can by cleaning up and checking their premises for its hazards.

FEB. 1—Leduc at Calmar

All games must be completed by February 5th.

League play-offs to follow and finals to be completed by February 15th.

Bottom three teams to drop out of play-offs.

No games cancelled without consent of league team and any games so cancelled counted as a draw.

We have made up the schedule to avoid Edmonton Senior League home games, as far as possible. This has caused some doubling up which is unavoidable.

A. R. King, President,
Fort Saskatchewan.
Peter Alsaugh, Secretary.

United W.A. Has Banner Year

Mrs. Tres. Skinner's name was the highest of the Annual Meeting of the United Church W.A. on Wednesday afternoon, December 4th. In the course of reports heard covering 1946 activities, the highlight was the news that the Memorial Organ purchased by the W.A. and installed in the Church in May was fully paid for, at a cost of over $1,100 The complete account of the Mother's Day Tea, the Organ Recital, the Fowl Supper, the Annual Bazaar and various cooking projects had brought in the full amount needed. A donation of $25 to the World Missionary Society had been made, and there was still a balance in the treasury which will be carried over and used next year. The W. A. members would like to specially thank the Ladies Aid who so generously donated some linens for the Memorial Organ.

Mrs. Gaul, H. Berg, Defense, Shaw, Benner, Parada, K. Godin sr., Fort Saskatchewan. Goal, O'ver, H. Godbout, Boyer, Mills, R. Godbout, Beaudoin and H. Berg

The Hockey Team have been practising for the past week under new coaches a meeting of Ken Bellamy and Ken Hall. Both of these players are second Bremner, machinery and in the farm home, and urged all farmers to take the necessary steps to contact their landlords.

The next speaker was Mr. C. S. Hill, Farm Service Engineer, who dealt with "Winter Care of Tractor" and "Fuel Oil Heating on the Farm". Mr. Martin gave a talk on "Lubrication" and "Proper care and maintenance of tractors, he would assure farmers longer life and more satisfactory performance.

In dealing with Fuel Oil Heating Mr. Warble outlined the most economical way to operate oil heaters to be more profitable. Before buying the amount best to obtained from the oil company.

Door prizes were given, the winners being A. Paradis, Art Bobelle, J. Ahlgren and Morgan Aton. Doris Colman was the lucky girl to draw the lucky number. She also received a prize for the best lunch served.

The evening closed with Mr. McPower expressing his thanks to those present and invited all to partake of sandwiches and coffee provided for them in the basement of the hall.

Partridge Hill Couple Honored

Mr. and Mrs Wm. Gill were agreeably surprised on their return home to Wetaskiwin. Mr. Gillam came to this district from England in June 1911 and Mrs. Gillam has lived here since coming to Partridge Hill from Onoway, Mr. and Mrs. J. T. Wall in 1912. They have been continuously over this period and are still ing to be near their family.

Through the years their home has been a traditional for open hearted hospitality and neighborliness and it is with keen regret we see them leave.

A host of friends from Tyro Valley and this community gathered in the Community Hall Tuesday evening to express appreciation of the services given by Mr. and Mrs. Gillam.

Mr. George Gobbledtsen was chairman. The speakers included Rev. W. D. Rose, Jos I w n, Wilmot Axon, Mrs. J. W. Att w-il and Mr. J. R Walt. Bridge, whist and table tennis provided entertainment.

Mr. and Mrs. Gillam were presented with a beautiful wa tch Tea Wagon. They briefly thanked their friends for the tokens of friendship and expressed satisfaction and pleasure of having been privil ged to live for so long in such com-

munities as Partridge Hill and Tyro Valley.

The serving of refreshments and ing of "Auld Lang Syne" concluded the evening.

Mr. J. R. Webb who has lived here for the past 40 years, now living in Edmonton, was here for the Gillams send off and on behalf of the same communities and in recognition of his long efficient service in school matters which included service as trustee, secretary of school fairs and later in the big unit of Clover Bar School Division was presented with a case of pipes

Mr. and Mrs. Morris Gobbledtsen are receiving congrats on the birth of a daughter in the Royal Alex hospital on Sunday, December 1

Prior to their departure, Mr. and Mrs. Gillam entertained at dinner Monday evening when covers were laid for 15 guests.

Minutes of Special Meetings Held by Town Council

A special meeting of the Town Council was held in the Town Hall on November 20, 1946. All members were present except Roy Wilson who was out of town.

Moved by Councillor Lewis and seconded by Councillor Lowe with the North Western Utilities Ltd. of Edmonton was gone into, and the following motion of a special Dance a duly adopted "That application of Oilcloth Enterprises for Gas Franchise be considered".

The meeting then adjourned.

A special meeting of the Town Council was held on the morning of December 2, 1946 with all members present. Also present was Mr. C. D. Jamr.

The Gas Franchise as changed by the Oilcloth Enterprises was thoroughly discussed, also the meeting of Mayor Hooper and Councillor Lowe with the North Western Utilities Ltd. of Edmonton was gone into, and the following motion of a special Dance a duly adopted "That application of Oilcloth Enterprises for Gas Franchise be considered".

The meeting then adjourned.

Josephburg

Our poor old school house gets very little rest these days and nights. Monday there was a picture show here and on Tuesday (Goodwill Dance; Wednesday a play practice; Friday our Community Club's Mammoth Dance and Auction Sale and each Sunday night Rev. Babcock holds a Gospel service. Something is going on, therefore would do well to make application to the local school board at least a month ahead of time.

With reference to the play "Black Sheep" to be presented by Bremner Hall's committee, we regret to say that it will not come off till after Christmas, the reason, Lighting difficulty of obtaining a date and presence of Christmas. Any community desiring to have the play brought to their home stamping ground should communicate with Mrs. Ed Underschultz, secretary of the W.A. The first showing should be some time after New Year's.

With regard to the Banner, we definitely do not "sell for less". If you particularly desire any article, you will obtain it only by bidding higher than anyone else. There are no price ceilings. The lid has been taken off and but.

Good progress is being made with the shafting rink and the tanks, tractor drawn, are plying between lake and rink. Already a good foundation has been laid. The annual Prospectors took a load on Saturday and consequently things were luscious. The water has to be hauled a mile. Too bad a slough does not take it into its head to form within the rink boundaries. We understand the making of the Hockey boys is billed for Tuesday to make arrangements for a League. We shall see what we shall see—or shall we?

By the way, yes that are enthralled with the drama of the happiness, you are in for a treat, for Malcolm MacCrimmon, His Master's Voice record player, has consented to "pie as a skirl" to partly offset the ill-ease of "Black Cat". Hence Monday evening when covers were laid for 15 guests.

Continued on Page Four

Big Game Shoot Very Successful

A party of big game hunters consisting of Messrs Leonard, Bole an Ernie Thorne, Art Simmons and G Horton returned last week-end from a successful shoot to the Edson district.

Game is plentiful in that area. The men bagged their limit of 10 head in one week, 5 elk, 3 moose and 2 deer

There are also plenty of timber wolves according to reports, although they shot and wounded some, they were not fortunate in bagging one home.

The weather in that section was also very stormy, only two days of fine weather over had not all the two weeks the men were away.

HOCKEY GAME
CALMAR vs FORT
Monday, December 9th
at 8:15 p.m.
THURSDAY, DECEMBER 12th, FORT AT THORSBY

NOTICE
To the Members of F.C.S.C.

Notice is hereby given to all members that the following motion will be submitted to the general meeting on December 11.

"A contribution be made to the Fort Curling Club to assist them in building a Curling Rink."

All members are requested to attend to insure a majority vote.

Secretary.

MEETINGS
THE EXTENSION SERVICE OF THE DEPARTMENT OF AGRICULTURE
Will Hold Meetings at
White Mud & Rabbit Hill School
ON WEDNESDAY, DECEMBER 11
AND FRIDAY, DECEMBER 13, RESPECTIVELY
AT 8:30 P.M.

An illustrated lecture will be given by R. J. Whitbread, District Agriculturist. Tillage methods in general, including weeds and weed control, will be dealt with by M. L. Statson, Field Supervisor, Agricultural Service Board, Municipal District of Strathcona, No. 20. Everybody welcome.

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the ones that are stunted never entirely outstrip the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable so long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Loose hay is preferred to baled hay but either is acceptable.

We can arrange for trucks if required.

Hately-Smith Pledge Vows

Baskets of chrysanthemums decorated First Baptist Church, Edmonton, recently for the marriage of Miss Miriam Smith, daughter of Mr. and Mrs. E. G. Smith, Edmonton, to Mr. James I. Hately, youngest son of Mr. and Mrs. S. Hately, North Bend, B.C. Rev. H. Flanagan officiated.

The bride was given in marriage by her father She wore a gown of white satin and net. The satin [illegible] a sweetheart neckline and long sleeves, the bodice of which was net over satin. The satin [illegible] a sweetheart neckline and long sleeves, the bodice of which was net over satin. The bride wore a fingertip veil and carried a shower bouquet of red rosebuds and white chrysanthemums, a double strand of pearls was her only jewellery

Mrs. Florence Fleming, the bride's sister was matron of honor and wore a floorlength gown of pale blue sheer with matching shoulder veil and carried a bouquet of pink and white chrysanthemums

Mr. Harvey Smith of Fort Saskatchewan was best man for the groom. Ushers were Mr. Charles Chamley, cousin of the bride and Mr. Frank Coleman, brother-in-law of the groom. Soloist was Miss Jean Gardener.

The reception and wedding lunch was held at the home of the bride's sister, Mrs. F. Fleming.

Mrs. Smith, the bride's mother, received the guests wearing a blue

Jerry dress, black accessories and a corsage of red roses and white baby mums. Mrs. Hately, mother of the groom, chose a blue suit with corsage of rosebuds and baby mums.

The young couple asked to have the baskets of flowers left in the church in memory of their brothers, Oswald Smith and Tom Hately, who gave their lives in the service of their country.

Later in the evening the young couple gave a party in their apartment for many of their friends, also some old school chums of the Brookville district. The bride's sister Mr. Fleming served a lovely lunch.

East Edmonton

The WI ng Workers' Club held their first whist drive of the winter season at the Community Hall on Saturday evening, November 30th. Prizes went to Mrs. Phillips, Mrs. Faulkner, Billy Hemsh-vigor and Les Leeuwen.

Following cards, hot cafes and sandwiches were served by Mrs. S. Briggs and Mrs. J. And r s n, hostesses for the evening.

At the close of the meeting, Mrs. W. B. Chamberlain, pre-ident of the board of managers at the Community Hall announced that a meeting will be held in the hall on Friday evening, December 6th to consider ways and means of purchasing the property on which the hall now stands. Everyone is welcome.

* * *

Friends and neighbors of Mr. and Mrs. Charles Briggs extend their sincere sympathy in the death of Mr. Briggs b ther, Mr. Herbert Briggs of Innisfail, who passed away November 30th in the Innisfail hospital. Mr. Briggs would have been 91 years old in January.

Funeral services took place at Innisfail on Friday, November 29. Burial was made in the Beechmount cemetery, Edmonton.

* * *

Mr. Ab't Adamson was one of the committees attending the Rural Municipal Convention at Calgary, November 19 to 20

South Cooking Lake

The first of our whist parties was held last Saturday night at the Orli n home and favored by kindly temperatures. This party was in aid of the Franklin School Christmas tree, and resulted in the generous so'ection of $14.21.

There were 6 tables in play and on the rise of 12 hands the winners were declared, for the ladies, Mrs. Frank Olhues; for the men, Jim G lmshilby. The very acceptable prizes were supplied by Mr. L. Cohn.

After a timely lunch, prepared and served by the ladies, plans were formed for the Christmas tree and Concert Motors were then "warmed up", goodwi'le were a.ld, and one by one the cars moved out en to the highway, taking the members of our first party to their respective homes.

Radiograms

CJCA'S HAND IN CIVIC BETTERMENTS

CJCA is at present in the thick of a public service campaign that's believed to be unique from many angles. Working in cooperation with Edmonton's Civic Betterment Committee and the other radio stations, CJCA is "selling" Edmonton on civic pride.

This 30-day campaign marks the culmination of several years' work on part of the Edmonton Chamber of Commerce Civic Betterment Committee whose objective has been primarily to bring Edmonton's paving program up to a volume and standard worthy of a city of its size and aggressiveness.

The campaign is now on. Five times a day citizens are urged to organize pri'on conscripts in their own communities . . . to "drill" their neighbors on the need for paved streets . . . by pilfering or pestering on the basis of City

Hall.

The results? Well, just for comparison Last year's paving total of $45,000 worth of paving —to date this year $261,000 worth! And if the present rate continues it may reach $1,000,000 by the end of the year.

Yes, Edmonton has civic pride, but it lay dormant until a few citizens supported primarily by radio, took hold of it

The OMEGA automatic

See... the most talked about watch in 100 years

It's a revolutionary achievement in precision timekeeping . . . Omega research technicians have perfected the Automatic movement! It's dependable and basic for many accuracies than the ordinary watch. Unless We Live It

The war of arms was won by meeting face to face on the battlefield and hurling missiles at each other. We sometimes make the mistake of thinking the war of ideas can be won in the same way by meeting face to face on the debating floor and hurling ideas at each other That is why, in the General Assembly of the United Nations, debates have been and will continue to be sharp and controversial.

It will not help us to pretend that these differences will not arise, said President Truman when he opened the Assembly May will it help us to pretend that these differences can ever be settled by argument Victory in the war of ideas is achieved not by debate but by demonstration.

When we talk about democracy to other nations we are talking about the ability of our people to work and work together by voluntary agreement. And there is no use talking about that when marriage—our most frequent form of voluntary agreement—is breaking up at the rate of one divorce in every three starts

When we talk about freedom to other nations we refer to the ability of each and every one of us always to give his best at any moment. And there is no use talking about that when all of us —or whole nations—is paralyzed by strikes for days and weeks at a time We will lose democracy unless we live it That, for most of us, does not begin with more debate, but with more demonstration—on the living room carpet at home and on the factory floor.

Our thinking is wrong if our living is.

- Recipes For Milady -

SPICED APPLE MUFFINS

½ cup mild flavored fat
½ cup sugar
½ teaspoon salt
1 egg
1 cup unpeeled, chopped apples
½ cup milk
1 cup sifted, all-purpose flour
OR 1 cup plus 2 tbsp. sifted pastry flour
2 teaspoons baking powder
1 cup cooking bran
2 tablespoons sugar (extra)
½ teaspoon cinnamon

Cream fat, add sugar and salt and beat well together. Add beaten egg, apples and milk and stir well Sift flour and baking powder, add bran and add dry mixture to wet ingredients Fill greased muffin tins 2/3 full Mix the 2 tablespoons extra sugar with the cinnamon and sprinkle over muffins Bake in a hot oven, 400 degrees F., for 25 minutes Yield 12 to 15 muffins

* * *

FANCY SANDWICH BREAD

1 cup buttermilk
1 cup molasses
3½ cups whole wheat flour
2 teaspoons soda
½ teaspoon salt
1 cup roasted ground peanuts

Add buttermilk to molasses. Combine whole wheat flour, soda and salt. Add dry ingredients and peanuts to the liquid mixture Blend well Turn into two well-greased loaf pans 7½ by 3½ by 2½ Pull the dough from corner to corner to distribute. The mixture may be baked in a moderately slow oven 325 degrees F. for 1 hour Use for sandwiches, or serve with salads. Yield 2 small loaves.

* * *

HOLIDAY QUICK BREAD

1 cup all-purpose flour
½ teaspoon salt
1½ teaspoons baking powder
½ teaspoon soda
2 tbsp sugar
1 cup whole wheat flour
Juice and grated rind of 1 orange
2 tablespoons melted shortening
[illegible] water
1 egg
½ cup chopped mixed nuts
½ cups coarsely ground raw [illegible]

Sift together the flour, salt, baking powder, soda and sugar. Add whole wheat flour and mix. Put orange juice and grated orange rind in a cup. Add melted shortening and sufficient boiling water to make 1 cup. Beat the egg and to it add the liquid mixture. Add liquid to dry ingredients. Fold in cranberries

World of Wheat

By H. G. L. STRANGE

Director "The Crop Testing Plan"

HOME WHEAT AND COARSE GRAINS BADLY NEEDED

There is a universal cry, the world over, for more wheat U.N.R.R.A. and the F.A.O. confirm this Britain says that the German people in the British Zone of Occupation have enough for enough bread The people in Britain are rightly rationed to bread The British Government complains that it is enough Canadian wheat is reaching them, and while Canada is to supply 40 million bushels more at $1.55 under the Wheat Agreement

Mr Gardiner in November 26th, advises Eastern farmers to get more of their own feed because insufficient feed grains are coming from the West

Mr. Wise says that the grain there are built needed for our prairie farmers to feed more" Yes, they can if they are prepared at higher price ... Higher price is the magic word to unlock the feed bunkers of Eastern Canada That is what the prices are for We have it in Western Canada immense reserves of surplus wheat, on which, at a price, greater acreage could be sown and which would produce a much greater quantity of wheat and coarse grains

It is true that farmers hope for a Participation Payment on wheat as the end of five years, but the mere hope of a possible Participation Payment five years hence does not, I suggest, give farmers money with which to increase production now

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Canada has refused the British Government's request for additional 40 million bushels of wheat or flour to the 160 million bushels

Notice to Creditors

IN THE MATTER of the Estate MARIA MELCHIOR, late of the City of Montreal, in the Province of Quebec, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Maria Milot, who died on the 13th day of August, A.D. 1948, are required to file with Messrs. Milner, Steer, Dyde, Pobler, Hartland and Bowlby, Solicitors for the Canada Building, Edmonton, Alberta, by the 15th day of January, 1949, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

DATED this 25th day of November, A.D. 1948.

Milner, Steer Dyde, Pobler, Hartland and Bowlby, Solicitors for the Administrator of the Estate of Maria Milot, Deceased.

Quick Method of Cleaning Grass

Here is a suggestion from the Home Economics Service for cleaning grass stains. Rub the stained area immediately on the interior surface of cream in kitchen ranges Cooks and housewives or those who find themselves there because the grocer has "taken on". Scouring, unless done with great care, may damage the enamel finish.

Pieces of cotton cloth soften when moistened with water and is easy to wash or wipe off. Place a shallow bowl of household ammonia—or wad of cotton moistened with ammonia—in the oven for several hours or overnight. A badly soiled oven may need this treatment for several successive nights.

To avoid further staining leave the oven door open after use until the oven is cool. This, and "airout" many of the volatile oils and odors from baking which would settle on the oven surfaces. It also prevents rusting of the oven shelves by the steam from the food. Wipe up, at once, food that spills over in the oven—don't allow it to burn on.

HEALTH INTERNATIONAL

Canada co-operates with the United States authorities in connection with the examination and certification of aliens for admission and culinary water in use aboard common carriers engaged in international traffic, as well as in examination of dining cars operated thereon.

United States authorities are supplied with reports and certificates concerning water supply sources in Canada which are used by U.S. consular services entering and operating in various parts of the Dominion. Similarly, reports and certificates concerning water supplies located in the U.S. and used by overseas carriers operating in international traffic, are supplied to Canadian health authorities.

This is only one phase of the co-operation which assures the highest standard of health protection on this continent.

NOTICE TO CREDITORS AND CLAIMANTS

Rectory Scene of Farewell Party

Last Friday evening, members of the congregation of St. George's Church gathered at the rectory to bid farewell to Mr. and Mrs. Gillison of the Parishes Hill district.

A pleasant evening spent playing cards, numerous post and singing with Mrs. Bacon at the piano.

After a dainty lunch, which was served by members of the W.A., Rev. W. W. Burton in a few well chosen words expressed regret at the departure of Mr. and Mrs. Gillison's departure from the parish and although they had been here only a short time but months, he had come to know them well and wished them every happiness in their new home in Wainwright. He thanked them for their kind support of the church throughout the years and he then presented to them on behalf of the members of the W.A. and congregation a lovely living room lamp and shade.

Mrs. Gillison spoke a few words. She regretted that owing to circumstances they were unable to be in a native in church work in recent years so formerly but had many

memories to take with them to their new home. She thanked everyone and sincerely hoped all their kind friends would be able to visit them in the near future. This brought to a close a most enjoyable evening.

Small Attendance At F.C.S.C. Meet

The regular meeting of the Fort Community Service Club was held Wednesday evening in the Community Hall, the attendance being very small.

The minutes of the last regular meeting and the financial report for the month of November were read and adopted.

It was agreed that a member of the Honorary President, President and Vice-President act as nominating committee

At the January meeting a new slate of officers is to be elected and members are urged to send names in the above committee.

Communication received from the Red Cross Service Club donating money to the Curling Club. It was finally moved that the sum of $200 be donated and also that the net proceeds of the dance to be held New Year's Eve be also turned over to the Curling Club.

It was also moved that the secretary send communication to the Canoe council mensly of curlers.

Minutes of Legion Executive Meeting

An executive meeting of the Fort Saskatchewan Branch No. 27 the Canadian Legion B.E.S.L. was held in the Club Room on the evening of December 6th, 1948, with the following members present: Comrades Henry Lamontagne, Lancer Browne, Alf Wootton and Hugh Kaplan.

The following matters were decided upon, providing a majority of the executive gave their approval. It was decided to make the location of the Community Hall on the 3rd January 1947. The secretary to arrange, if possible, with the Edmonton Branch of the Canadian Legion to have an entertainment party present at the smoker with the leader of the party to act as Master of Ceremonies for that evening. The secretary to ascertain if the "Not Forgotten Party" was a Legion Dance on the night of Boxing Day if the Community Hall was not engaged for that night.

The meeting then adjourned.

St. George's WA Elects Officers

The St. George's W.A. met at the home of Rev. and Mrs. W. W. Burton last Wednesday. At this meeting officers for the following year were elected. It is with pleasure we report all officers were re-elected by acclamation. They are as follows:

Hon. Life President, Mrs. W. W. Burton; President, Mrs. C. R. W. Magor; Vice President, Mrs. C. P. Brabban; Secretary, Mrs. R. Peck; Treasurer, Mrs. T. Reid; Social Service Convener, Mrs. C. Magor; Dorcas Convener, Mrs. A. R. Smith; Little Helpers' Secretary, Mrs. J. Nea'; Literature Secretary, Mrs. C. H. Williams.

Over 400 Children Visit Santa Saturday

Over 400 kiddies visited the Dexter and Williams Hardware Store last Saturday to talk with Santa Claus and remind him of what they wanted for Christmas.

Hours arrived at the Edmonton Airport Saturday morn and was driven here by Mr. C. Oxley and Mr. S. T. Swift.

Mr. Swift assisted Santa in handing to the children remembrance gifts of his visit here.

HOCKEY GAME

BREMNER vs FORT
Monday, December 16th
at 8:15 p.m.
FORT vs. LEDUC, THURSDAY, DEC. 19, AT LEDUC

Let There Be Light

SPORT FLASHES

"SPIEL OPENED MONDAY

"Let 'r Rl." Amid the crashing of rocks and the shouts of delight of boys on the curling season got under way here Monday night.

With two good sheets of ice, thanks to the effort and ability of Icemaker Alex Gray, the President vs. Vice-President Bonspiel started with a bang.

Charlie Lowe, President of the Curling Club opened the "Spiel by throwing two perfect rocks for Vice Fred Bremner rink.

Skipper Thornton and Jim Banks of the down coast line have a ranged a schedule whereby each rink will be matched some each night for a here, one point to be awarded for a win. With the rinks divided evenly between Pres. and Vice-Pres. the rink with most points will be crowned top curlers of the President vs. Vice-Pres.

With 14 rinks competing the spiel should terminate the day before Christmas.

LEDUC WINS FROM FORT

Fort hockey fans were treated to an extra game here Friday night, when owing to the fact that Bremner has been unable to play, the Bremner team played their home game with Morinville in the Fort's place. A good crowd of Bremner fans were also on hand to cheer their boys to victory

The game was fast and rough at times, the first period score was 4 to 3 in favor of Bremner Eight penalties were handed out during the game, four for Bremner.

R. Reynolds, P. Reynolds, G. Ockewell and A. McGinn scored the Bremner goals, with Bangle, Chalifour and Cournoyer scoring for Morinville.

Coming into the third with a 4 to 3 lead, the Fort team collapsed, and Calmar, aided by numerous penalties and clever passing combination, scored nine unanswered goals.

Bremner wins here tonight, the Leduc team journeys here.

Fort hockey fans were treated to an extra game here Friday night, when owing to the fact that Bremner has been unable to play, the Bremner team played their home game with Morinville in the Fort's place. A good crowd of Bremner fans were also on hand to cheer their boys to victory

The game was fast and rough at times, the first period score was 4 to 3 in favor of Bremner Eight penalties were handed out during the game, four for Bremner.

R. Reynolds, P. Reynolds, G. Ockewell and A. McGinn scored the Bremner goals, with Bangle, Chalifour and Cournoyer scoring for Morinville.

Coming into the third with a 4 to 3 lead, the Fort team collapsed, and Calmar, aided by numerous penalties and clever passing combination, scored nine unanswered goals.

Bremner wins here tonight, the Leduc team journeys here.

LEDUC WINS ON HOME ICE

On Tuesday Bremner lost to Leduc to the tune of 3 to 1. G. Ockewell scoring the only goal from Paul Reynolds. W. Boyne from Martell, F. Madaik, assisted and Worken from Madaik scored the goals for Leduc.

F. & HOUSE LEAGUE OPENS

The curtain raised for the current hockey season in the Fort House League, with a closely contested game between Lloyd's Boatmen and Oliver's Twisters. After a hectic battle, that, though somewhat regard on occasions, still produced some surprisingly good hockey for a season's opener, the score stood at 4 to 3 in favor of the Boatmen. But never let it be said the Twisters were easy pushings. They went down fighting, and during the last ten minutes caused the rubber HeSellen's way, but Joey proved equal to the test.

The honor of scoring the first goal of the season went to defenseman Gashus O'Brien, who rushed in to push in his own colored shot after Hamilton had made a spectacular rush down the ice.

Next Wednesday night the Twisters will have their chance to avenge their defeat when they meet the Fort Saskatchewan Boys on the local ice.

STANDING OF NORTH WEST HOCKEY LEAGUE TO DEC. 11

Calmar	13	13
Thorsby	9	16
Fort	7	18

Tiremen Hold Annual Banquet

Approximately forty members of the Fort Fire Brigade attended the Annual Banquet held in the Fort Hotel, Tuesday evening Special guests for the evening were Mr R Morris, Province of Fire Commissioner and Mr Fairley Chief clerk in the fire commissioner's office.

Mr. J. D. McLean acted as chairman, and fellow by the banquet, expressed his pleasure on being asked to act as such. Mr. J. D. McLean then called upon Mr. Morris to say a few words. Mr. Morris spoke on the need of more fire protection and congratulated the mayor, council and firemen on the work they were doing in trying to educate the public to the danger of fire

Mr Morris stated that in 1946 loss by fire was $42,000,000 and the cost of maintaining fire departments and equipment was $80,000,000 and these figures were increasing more every year

He also stated that during the war years, fire loss was much less, but one year after the end of the war figures for fire loss were larger than ever

Despite the fact that the province is trying to do all they can to educate to the people, he stated that many of them just disregarded the warning and blamed most of the fires on an act of God.

His department is willing and anxious at all times to do what ever is in their power to help the Fort Fire Brigade in any way they possibly can.

He suggested that semi-annual inspections should be made of all premises and offered to send a fire inspector to help in this undertaking.

A business meeting followed Mr. Morris's address at which new officers were elected

Mr. Albert Jacobs, who has been Fire Chief for the past two years, resigned due to health, and Mr. Len Thomas, deputy fire chief was elected as chief Mr. Jerry Lee was elected as deputy fire chief and Mr. Eugene Recoppe, sec.-treas. for the past number of years was re-elected by acclamation.

Mr. Jacobs told the boys that he has been and would had been promoted through the war years, amounting to $700, and by being able to purchase this needed equipment through this corporation it meant a saving to the taxpayers of approximately $1,500.

The meeting then adjourned.

Brookville

Our regular November Ladies Meeting was held at the home of Mrs. Field. A small attendance was recorded due to heavy snow

* * *

Mr. and Mrs. Joe Miller have completed one of the Polish immigrants that recently arrived in Edmonton.

* * *

Congratulations are going out to Mr. and Mrs. Walter Horton on the arrival of a baby daughter, born December 5. Also to Mr. and Mrs. Mike Kondrowski on the birth of a daughter.

* * *

We hope that Mrs. Gordon Owen is feeling better, after having serious trouble with some window glass.

* * *

Misfortune seems to be haunting the Harvey cars. Fire damaged the interior of Gourley's coupe and Mr. Harvey was in a serious accident in town with his big car, rendering it almost past fixing. No personal harm were received in either instance.

* * *

Fur catches are reported to be good this season, with several mink, coyote and weasels being trapped.

* * *

Raymond Schnorr is over trying his luck at big game hunting.

* * *

Frank Stanley was a week-end visitor at the home of Mrs. Horton Sr.

* * *

We hear that Mrs. Gaynor has been quite sick in bed. It is hoped that she will be up and well again soon.

School Flashes

A short ring sounded through the halls and rooms last Friday, December 6. The students, recognizing it as the fire bell, responded by quickly filing out of doors.

* * *

The next main social event to be on December 17. The Christmas Tree will be the high-light of the evening.

* * *

Tuesday evening the Senior High School Hockey players published their skill at a practice.

* * *

Continued on Page Six.

Yorkville

On the eve of December 4 a very pleasant time was spent at the home of Mr. and Mrs. J. Nesbit, when neighbors and friends gathered to say goodby to them and their family. They were presented with a rug in remembrance of their friendship here.

Mr. and Mrs. Nesbit and family expect to reside on a small farm near Vermilion. We wish in wishing them every success and happiness in their new home.

* * *

On Wednesday afternoon the Fort Saskatchewan U.F.W.A. held their meeting at the home of Mrs. H. B. Preuss. The following officers were elected for the coming year: Pres. Mrs. C. P. Brabbion, Vice-Pres. Mrs. Ed. Bremner, Sec. Mrs. A. Gaynor, Treas. Mrs. G. Williams.

At the conclusion of the meeting the members exchanged gifts, after which the hostess served a dainty lunch, and a pleasant time spent over the tea cups.

Radiograms

THAT NEVER-ENDING STREAM

We extend to which young Britain (and old) only upon CJCA for northern farmers and information is collected in the ensuing announcement of requests that ends to

land continually. One of the most popular stations broadcasts is the Edmonton farm to this, regard to Hal Tyrrell, the "Radio Man" of Byron Finch with "Edmonton Prospect".

For the past years ago, the national commissioner Dominion through Radio's messages for Red Cross funds. Officers, through the establishment was a meeting to meet the names of Dominion Radio stations, in addition of individuals, at one of a dozen of other services.

This has ever grown into an established service feature reaching beyond the city program.

At present Uncle Ed is busily engaged in his "Call for Medics". Yesterday, he turned down two invitations to broadcast "Wife wanting a divorce".

Recently, a young couple were married in Calgary. Uncle Ed's wedding present to a "Maid for absentia" was a set of pots and pans.

Young and old Edmonton, have sent messages, through CJCA, Christmas cards, stocking-you, even cauliflower seeds and sundry orders—in all cases requesting that Uncle Ed place them where they will do most good to others less fortunate".

Last week, it was Diamond Dust relatives to hospitals need radios, Uncle Ed immediately it on the Kiddies Program. Within 24 hours two radios in good working order arrived at the station. Others are expected from out-the points.

This never-ending stream of flowers and number-flower numbers, incoming from day to day in no way surprises personality. It's a public service of which CJCA is justly proud.

King of Fruits — and a Queen

The 1946 apple crop in Canada is a bumper one totalling 16½ million bushels, which is 20 per cent higher than the 10 year average 1935-44 and double the 1945 crop. Surplus apples to the south of the Canadian ... will be exported to Britain, the United States and other countries ... fresh fruit or processed.

Results of Vaccination on Govt. Experimental Farm at Agassiz

All heifer calves raised on the Dominion Experimental Farm, Agassiz, B.C., during the past five years have been vaccinated against abortion with strain 19 vaccine supplied by the Dominion Animal Research Institute, Hull, Quebec. The results have been very encouraging, says W. H. Hulse, Superintendent at the farm. At present there are only thirteen females in the herd over five years of age that have not been bred to calve. Forty younger ones that have been vaccinated, with five b by calves still too young.

A regular blood test program has been carried out in conjunction with the vaccination. The entire herd was tested six times a year up to and including 1944, but since then four times annually was deemed sufficient. All calves were negative to the blood test previous to vaccination and all were positive after, although two had to be treated the second time. All were blood tested monthly afterwards and they re-acted negatively. No heifer was bred while she was positive, but on the other hand none had to be held over past the normal breeding age.

The calves were four to eight months of age when vaccinated, with an average of six months. One heifer went ten months after vaccination before becoming negative, but was bred when twenty-two months old and will freshen at two-and-a-half years.

During the entire five years 69 cows has not been known abortion in the herd, and with only one exception there has been no suspicious or positive reaction to the blood test—vaccinated calves of course excepted. This cow No. 616 was put in her December 1940 and on re-testing gave the same result so was slaughtered. A thin cow stood facing the cow where re-tisers passed by the theory is that outside cont ct was the cause.

Some questions heifers have been sold from the herd since 1941, but of more than twenty retained, all have calved normally and about an equal number all carry their first calves now.

From the results obtained, calfhood vaccination, properly administered and especially in conjunction with the blood test program, has definitely given much assistance in successful herd management.

"I thought I was WELL-INSULATED"

"till polythene came along!"

Well may the thick-skinned rhinoceros grieve, for chemistry has produced an insulating material that puts even his tough hide to shame ... it is called polythene—a new plastic that stands up to heat and cold and is unaffected by any known chemicals at ordinary temperatures. Its unusual insulating qualities make it an indispensable factor in the vast, new field of radar and television while it goes back to earth again in the form of simple, resilient, waterproof refrigerator bowl covers that seem to last forever ... polythene, in its scope of application, is another outstanding example of what Chemistry is contributing to our daily comfort and welfare.

SERVING CANADIANS C-I-L THROUGH CHEMISTRY

Looking Ahead

with tougher tires ... children watch sooner ... and still more timber lives

Timber Watch (a customer relations conference on the long chimney) makes today's storm watch tougher and shrinkage control. 25 years ago there were 1,000 miles, with back Timber's views, thanks to [illegible] of all of the additions of [illegible] watch, now at least 5 times further. A versatile instrument, modern watch finds its way into small diverse products as [illegible] pencil sharpeners, [illegible] pens and, yes, cushion paper.

A camp without stitches was once the twice bench of the forest. It is molded from the versatile plastic, nylon, which makes it unaffected by weather, perspiration or [illegible] and which has the convenience under all climatic conditions. It is now about ready for production.

Practical farmers weight daily manure by simply adding "every" to the item. In manner this procedure is [illegible] but in cold weather the addition of even moderate amounts of the water load to scrap. More elementary ways to Calcium Magnesium Chloride obtained from C-I-L salt in Saskatoon, Manitoba, to the low cost chemical feed for this purpose. It has no disadvantages also on the item.

Further information on use of Calcium Chloride and other C-I-L products may be obtained from C-I-L Inc. Box 10 Montreal

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and poor all round conformation, are not met with when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable so long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

Recipes For Milady

Every tender and every south has its own particular recipe. The cook must use the right heat at the right time, and be able to follow specific instructions to achieve baking success. Many kitchen tragedies are the results of misunderstanding of directions, rather than faulty recipes.

Yesterday's recipes have been modernized to give more accurate information. Recipes that call for "butter, the size of an egg or a walnut", or "a handful of this or that" are out. Cakes, once lofty Delights accurate are stated, using standard, level measurements. By following these directions the mixture will always be the same.

However, many a failure takes place in baking or roasting after careful preparation. The modern homemaker appreciates the economy of failure and so prefers up-to-the minute ranges, which state the degree of heat and time required for cooking. With this type of range, success in accord can one or twice, but every time.

Most ranges to-day are equipped with oven heat regulators and controls. Should your range have neither, a reliable oven thermometer may be purchased at a low price. Most instruments, which will pay big dividends in better baking results. At no time of the year is the oven used oftener than at this season. Thus, to remove the hazards of failure and disappointment, the home economists of the Consumer Section, Dominion Department of Agriculture have some helpful baking tips to offer. Just a few words about the cooking of that Christmas bird—basting sheet of perfection is demanded.

The bird of your choice should be meticulously groomed and then trussed. The trussed bird cooks more uniformly, browns more evenly and looks much better on the platter than one untrussed.

The homemaker's reputation as a cook will rise or fall by the results of the next stew. Inexpert cooking can spoil all. The best results are obtained by slow cooking with dry heat. Low temperatures convey better flavor and appearance, while less shrinkage and loss of juices. Use a shallow, open roasting pan, with no water. Place the bird on a rack, breast down, to start cooking; then turn to upright position when about three-quarters done. To test for doneness move the drumstick up and down. If the leg joint gives readily or breaks, the bird is done.

Christmas cakes should be baked in a slow oven. They are usually heavily fruited and baked in deep pans. Too high a temperature will cause a crust to form over the surface of the cake, which will prevent the escape of moisture and hinder proper penetration. The pans should be lined with several thicknesses of well-greased, heavy brown paper extending about one inch above the top of the pans. Fill pans about 2/3 full. To prevent scorching on the bottom, the pan should be raised slightly above the bottom of the oven or place in a pan of sand or salt. If your Christmas cake contains less fruit than usual, a higher baking temperature may be used. This is also true of light fruit cakes.

Cookies on the other hand are small and thin. They require a shorter cooking period at a high or temperature. Mixtures containing chopped fruit, chocolate, or molasses will require a lower temperature. If the shortbread is baked in one large piece, use a slow oven, allowing longer baking time.

H E R E

Here is a time-table, which will give you at a glance, the oven temperature and length of cooking time for the various Christmas foods you will be preparing:

Fruit Cake (dark, heavily fruited) Slow oven, 275 degrees F., for 4½ to 5½ hours (somewhere in size of pan)

Fruit Cake (dark, light fruited) Slow oven 300 degrees F., for 3½ hours (pan 7 by 7)

White Fruit Cake. Slow oven 300 degrees F., for 1½ hours (pan 7 by 7)

Shortbread, Moderately slow, 325 degrees F., for 20 to 25 minutes.

Plain Cookies, Hot oven, 400 degrees F., for 8 to 10 minutes.

Cookies containing chocolate, molasses, honey, Moderate oven 350 degrees F., for 10 to 12 minutes

Cookies, drop with fruit, Mod-rate oven 350 degrees F., for 12 to 15 minutes

Chicken, 4 to 6 lbs. (dressed weight) 300 to 325 degrees F., for 25 minutes per lb.

Turkey, 8 to 10 lbs. (dressed weight 300 degrees F., for 25 minutes per lb.; 11 to 16 lbs. (dressed weight 300 degrees F., for 20 minutes per lb.; 17 to 25 lbs. (d ss d weight) 300 degrees F., for 15 to 20 minutes per lb.

Duck, 3 to 5 lbs. (dressed weight) 325 degrees F., for 20 to 25 minutes per lb.

Goose 10 to 12 lb. (dressed weight) 325 degrees F., for 20 to 25 minutes per lb.

Dressed Weight—bird undrawn, including head and feet.

Farmers to Receive Dividends from U.G.G.

United Grain Growers Limited will pay out two and a half million dollars in patronage dividends. Authority has now been received from the Minister of Finance to pay out this amount, which has been accumulating in a reserve fund since 1941. This information was received from Mr. R. S. Law, President of the company, Winnipeg, by Calgary officials.

This brings to an end for the time being a dispute which the company has had with the Income Tax Officials with respect to the treatment of Co-operative organ-

ized on the Rochdale plan and which paid a nominal rate of interest on share capital. Although [illegible] 1941 and July 31st, 1946, income earned each dollar [illegible] on their sales each year in that period.

It is [illegible] to contend this sums paid as patronage dividends were not exempt. The company paid out $2500,000.00 in this way on the 1940 crop, but the Department assessed the full amount. The company appealed and pointed the matter to the appeal set aside in special reserve account [illegible] succeeding years. The [illegible] has now allowed the whole amount

The Willing Workers Club met for their December session at the home of Mrs. Lloyd Christie There was a good attendance and considerable business was transacted, including the voting of Christmas Cheer cheques for the Salvation Army, the Institute of the Blind and for the school children's Christmas treat.

The president, Mrs. Jackman reported the sending of a fund parcel to Britain, a "need-serve-to-us" donation to the Ukrainian Relief Committee, the sending of a parcel of fruit, Messrs. A. H. Adamson, R. Bragg, E. Gmitro and J. Wolf were chosen to audit the society accounts, to interview the council and to report their findings to the house of council at the next meeting.

A vote of thanks was tendered to the Willing Workers Club, with

MARRIAGES

Mr. and Mrs. Chas. F. Lowe announce the marriage of their daughter Alice, to Mr. Max Ben Connors of Denver, Colorado. The marriage took place Thursday, December 12 at United Church Manse, Fort Saskatchewan.

IN MEMORIAM

In loving memory of our father, Mr. Ralph Smith, who passed away December 9th, 1945.

Remembrance is a golden chain
Death tried to break but all in vain
To love to have and then to part
Is the greatest sorrow of our heart.

The years may wipe out many things
But this they wipe out never;
The memory of those happy days,
When we were all together.

Now sweet memories will be kept by his loving family.

had had to the community hall on Friday evening, December 6th.

Mrs. W. B. Chamberlain, retiring president of the Ladies, was in the chair, and Mrs. J. Anker en acted as secretary.

Their deliberations centered on the matter of purchasing the land on which the community buildings stand, and on the advisability of acquiring and adjoining acreage. After establishing the value, it was held as community property and to be used as park and recreation grounds in the future. A committee of four, Messrs. A. H. Adamson, R. Bragg, E. Gmitro and J. Wolf were chosen to consult with the owners, to interview the council and to report their findings to the house of council at the next meeting.

A vote of thanks was tendered to the Willing Workers Club, with special reference to the retiring officers of Mrs. Chamberlain, for the work accomplished during the term in which held a office as the dust and Mrs. J. Anker en acted as secretary.

Appointees to the new board of

Pre-Ident, Mr J. Weir. Vice president, Mr. G. Briggs. Secretary treasurer, Mrs. Stewart Directors Mrs. Anderson, Mrs. Chamberlain, Mr. Wilkins, Mrs. Isherwood, Mr. Prather, Mr. Watson and Mrs. Ellen

You can't give out to the man it what you haven't lived out at home.

Agricultural Meetings at Fultonvale, Garden School

The Agricultural Service Board meetings held at Fultonvale and Garden Schools were well attended.

An illustrated lecture was given by Dr. J. Welsh and one by L. Bastien dealt with tillage methods and weed control.

There was a lively discussion of the advisability of farm practices likely to cause weed infestation and how to overcome them. Also discussed was forage crop seed production as a method of weed control.

Josephburg

Word has been received from the Divisional Board that school classes for the term December 20 and re-opens Monday, January 6. One more week of concentrated effort, culminating with the Christmas Concert on Friday evening!

On Monday last the president of the Goodwin Club called a meeting of members of pupils attending school, to explore the possibilities of supplying a drink of hot soup as an alternative to hot cocoa at noon. A good crowd assembled and a general discussion of ways and means followed. The idea behind the meeting is that commencing with the new year, soup, composed of milk and canned soup will be provided Monday, Tuesday and Wednesday of each week, with a cocoa ration Thursday and Friday

N E S

On Thursday a meeting of the Athletic Club was called by the president to discuss maintaining and financing of the rink. It was well attended and various measures were discussed and suggested. At a late hour the membership adjourned to the home of Mrs. Leopold Thomas where a meeting of the Goodwill Club was in progress. A demonstration of the art of making "apple strudel" had been given by Mrs. Rudolph Hoeng and Mrs. Emmanuel Mohr and members of both clubs were called upon to sample the product. Anyone who has tried this delectable concoction can curl up, confident that nothing better ever has been, or will be.

N E S

A shaving party with lights, music and refreshments was given by the Athletic club on Wednesday evening The night, though cold, was clear and the moon full. Hence everything conspired to make the hours of grazing the guests adjourned to the school house to partake of coffee and doughnuts.

N E S

The Health Unit spent the day with us on Wednesday and sent a thorough inspection. Miss Siemens briefly addressed the pupils on the subject of Care of Health.

N E S

Glover Bar Sub-Local Teachers' Organization held a social meeting for Saturday 14th but the lure of the shops proved too strong for the members at the last.

Mr. Brose had kindly consented to address us on the subject of school and home organization and was duly on hand but the attendance was so poor that it was decided to postpone the discussion to some later date. Mr. Brose distributed literature to those present which clearly outlined the aims and procedure. The next meeting will be held at 8 p.m. January 11 at the Masonic Temple.

Ypres Valley

At the December meeting at the home of Mrs. L. Kostrosky recently, Ypres Valley Ladies Aid elected its officers for 1947. Mrs. Fred Davies was re-elected President, while Mrs. Carl Dittrich was nam-

SCHOOL CAMPS

The Hertfordshire County Camp is one of the new type of camp which is in Britain where as part of the country school curriculum come for courses of about a week during the summer months. The idea behind the camp schools is to open up to the children a range of interests which would be out side their ordinary school and home life. They are shown how practical and interesting for their leisure time when they have left school. The experience of camping under trained supervision will include for camping by themselves; visits to farms, nature study walks, mapping and sketching, talks on local history etc. the night sky, all open up new lines and recreation. There are also plans to places of interest in the area. The camp director in charge of each camp are important in developing a sense of responsibility. The camp can accommodate 100 children divided into 5 camps of 20 each on a "village". Each group of children is under its own master or mistress. The warden is responsible for the well being and organization of the camp as a whole. Four good meals are served every day prepared by the domestic staff in a permanent brick built kitchen. Each village has its own camp fire where meals are cooked During the week's stay campers usually cook one or two meals on their own keen something of open air cooking as experience for future camping There is a permanent kitchen where the meals are usually cooked by the domestic staff

SPORT FLASHES

BASKETBALL NOTES

On account rink for next Monday night is cancelled. Dec. 23rd

The President of the Vice-President Hockey League is progressing, the President now leads by a margin of 9 points. The score is President 16 Vice-President 7.

The Nelby Three rink is the only one that remains unbeaten.

The above information include only those games played up to and including Tuesday night.

BREMNER WINS OVER CALMAR

Bremner swept to another victory Tuesday night on home ice when they defeated Calmar 5 to 4.

C. Crozier was really doing his stuff, scoring 4 goals, three of which were assists, two from Bert Sabrotar and 1 from Samms. The fifth goal was scored by G. Ottenbreit from an assist by Ray Reynolds.

Scoring for the Calmar team were M. Karbonich, 2 goals; Hansen 1 and Schultz 1.

It is evident from the penalties handed out, 7 in all, that the game was a little rough.

GAMES POSTPONED

All last week's games of the Fort Hockey Club were postponed

Mrs. J. W. Aitcroft was hostess to the W.M.S. and W.A. on December 5th, election of officers resulted in acclamation for the 1947 slate with Mrs. Aimee Odsdeer as president. Rev. Rees conducted the devotional period.

N E S

A "white gift service" was observed here on Sunday. The gifts have been forwarded for distribution to Rev. J. T. Stephen of the All People's Mission, Edmonton.

N E S

Mr. and Mrs. Alf Frey entertained in honor of Mr. and Mrs. George Cobaldstone, Saturday, December 14 on the occasion of their 33rd wedding anniversary. Mrs. Cobaldstone was presented with a gift of silverware.

N E S

As we near the end line for this bulletin we hear that Mrs. Tom Wilson is expecting his son Bruce, wife and baby daughter from Vancouver, home for Christmas.

Additional Train Service During Christmas Holidays

The Canadian National Railways has arranged additional train service over the Christmas holiday between Edmonton and Lloydminster; Edmonton and Whitecourt, according to M. J. Dupuis, district passenger agent. Train for Lloydminster and intermediate stations will leave Edmonton at 8 p.m., December 24 while the train from Lloydminster and intermediate points, will arrive Edmonton noon on Christmas Day. Both trains will stop at all stations, on regular schedule.

C.G.I.T. Conduct Vesper Service.

The Christmas banquet was most suitably celebrated on Monday evening at First United church by a Vesper Service with candle lighting ceremony led by the C.G.I.T. Miss in their one autumnal event of the year, and much credit is due the leaders Mrs J. Weaver and Mrs K. Phillips, as well as the girls for the lovely services so well given.

The service was well attended and with the printed programme all passed responsive and in singing the famous carols "Christmas" completed the girls at Christmas morning the newer carols.

The service was led by the President Maureen Rinnard, the bible readings by Edith Wile, Mary Robinson and Joyce Wilkie on the prayers by Donna Rinnard and Mrs. Wemover The Christmas story of St. Francis was given in beautiful reading tones by Alice Tree. The candle-lighting ceremony was provided over by the leaders, at the close of which the girls with lighted candles marched out singing "Hark the Herald Angels

Partridge Hill

Season greetings to ye editor and staff from the Partridge Hill resorters in this neck of the woods.

N E S

Mrs John Hall, nee Dora Byerly Flesher, and little son Colin of Beaumont, Alberta have been visiting friends for the past fortnight.

N E S

Eli. Andrew left last week for the coast where he has taken a job in the paper mill at Wood Fibre, B.C.

N E S

Del Lawrence, little son of Mr and Mrs. Ernie Lawrence, who has been a patient in an Edmonton hospital as the results of burns, is expected home for Christmas.

N E S

Mr. and Mrs. Harvey Lawrence note "at home" to a number of the younger married set on Saturday evening on the occasion of Mrs. Lawrence's birthday.

N E S

Vardon Lawrence was host to the glee club Monday evening at his home. The organization, under the direction of Rev Rees, are busy preparing special Christmas music for next Sunday's service.

N E S

At the regular meeting of the Community Club, December 5th, a delegation of one, Hal Kulak, met and ably presented to the members the case for a skating rink in the district. The club willing to cooperate in any community project, forthwith appointed a committee consisting of Frank Kulak, John Fischer and Morgan Allen, to carry out the plans laid down at the meeting. Ably led by Harold

East Edmonton

To compliment two young ladies of the neighborhood, the home of Mr. and Mrs. Harold Isherwood was opened to a throng of friends who came with gifts and good wishes to a shower party on Wednesday evening, December 11th.

The guests of honor were Miss Joan Corbett, whose engagement to Mr. John Beardmore of Waterloo, Ontario, has just been announced by her parents, and Mrs. Gerald L. Agnew—nee Margie Bishop—whose marriage to the groom recently at Trail, B.C.

Entertainment for the evening was in the hands of Mrs. Stewart and Mrs. Wallace. Tea tables were presided over by Mrs. C. Briggs and Mrs. M. Watson, while the young girls of the East Edmonton Club acted as servitors, dispensing a bountiful array of good things at the supper hour.

The presentation of hostess trays to the youthful bride and bride-to-be was made, on behalf of the Willing Workers Club, by Mrs. George Briggs, after which, high piled baskets of gifts were carried in by the girls of the junior club. Mrs. Robert Gibson and Miss Gladys Rawkins assisting in the ritual of distribution and unwrapping.

Both girls aptly expressed their gratitude for the shower of lovely gifts that came to float them off on the sea of matrimony, and heartily concurred with the vote of thanks tendered their hostess, Mrs. Isherwood, at the end of a delightful party.

Around the Town

The public are reminded that the Post Office will be closed all Christmas Day

N E S

Christmas music by two choirs will feature the services in First United Church this Sunday, December 22nd. The Junior Choir will sing four anthems at the morning service The Senior Choir will render four choruses at the evening service, with Miss Annabelle MacCrimmon as assisting soloist. Festive hymns and carols will be sung by the congregation on both occasions.

N E S

Mr. and Mrs. Chas. F. Lowe had as their guests Tuesday, Mr. and Mrs. Earl Thompkins of Edmonton.

N E S

Mrs. Ralph Hall received a pleasant surprise Tuesday when her husband arrived unexpectedly from Yellowknife. He expects to be here about a month before returning north.

N E S

Another party of big game hunters, etc. So-by Thorne, the Mosi boys, Frank Bowman, Steve Romanchuk and Max Haines, were successful in bagging 5 moose, 5 elk and 5 deer recently.

The party did their hunting with Mr. Nilson, near Edson. Due to fill calm weather, they reported they still had to work to keep their limit

Alice Connors Married Thursday

A quiet double ring wedding was solemnized Tuesday evening last, when Rev. W. H. Rees united in marriage at the Manse, Alice Connors, daughter of Mr. and Mrs. Chas. F. Lowe to Mr. Max Ben Connors of Denver, Colorado

The bride was given away by her father and wore a floor length navy blue velvet suit with a corsage of gardenias and carnations.

The couple plan to stay in Fort Saskatchewan until early in the new year and then will leave for Denver, Colorado.

Plan 1950 Planes

Even before construction work begins on Britain's revolutionary series of Brabazon airliners, designers and engineers in the United Kingdom are already suggesting successors to these "monsters of the fifties". The pioneer of the next decade, according to the experts' composite ideas, will be tailless, shaped like an arrowhead, capable of a speed of 600 miles per hour at 50,000 feet altitude, but will have a range of 3,500 miles. While it is emphasized that four years normally elapse between the drawing board and the actual construction, a six foot model of this type of plane was one of the main items at the United Kingdom Ministry of Supply's stand at the 17th International Aeronautical Exhibition, which opened in Paris on 19th November.

Couple Honored At Reception

A large number of friends and neighbors gathered at the home of Mr and Mrs Chas F Lowe Tuesday afternoon and evening to wish their daughter and son-in-law, Mr. and Mrs. Max Connors a happy future

The table was set with an open lace cloth, centered by a three-tiered wedding cake which was flanked by roses and tall cream tapers set in silver candle holders

Mrs. Marion Robertson poured tea during the afternoon and Mrs. R. H. Bones and Mrs Fred Shuman presided at the table in the evening.

Assisting as servers for the occasion were the Misses Ada Wilson and Gladys Grandahl. Mrs. Ronald Phillips, Mrs. Marion Robertson and Mrs. Norman Fisher.

Many Attend School Christmas Concert

A very large crowd attended the Christmas Concert presented by the children of grades, 1 to 6 of the Fort School, Wednesday evening.

Mr. B. Larson, chief man, in a few opening remarks, expressed his thanks for the splendid turnout.

The program was as follows:

O Canada
Recitation by Page Boys
Greeting Song sung by entire group followed by The Candle Parade
The Christmas Tree Drill
Play, The Christmas Carol
Dialogue, Christmas on the Sunset Slope, interspersed by series of Christmas carols

Following the national anthem each child was presented with a gift from Santa.

The excellent performance given by the children reflects much credit to those responsible in preparing them for the concert.

Ardrossan

The members of the Ardrossan Guild met at the home of Mrs. T. Jackman for their December meeting. Final plans for the Yuletide dance.

January is election of officers so come on out all ye members and hold double what we will do for the following year. The meeting will be at the home of Mrs. E. Meaken on the 8th.

N E S

A good time was enjoyed by all at a whist drive in the Rest Chaser Cafe on Friday night previous. Five tables were played, 1st prize being won by Mrs. Walsh and 2nd by Mrs. Cameron. Consolation went to Mrs. Dowling and Kenneth Reynolds. A bounteous lunch was served by the social gang. Miss Kalmuk, tells us there will be more of these parties next month so come on out everybody and have fun.

N E S

Mumps are the order of the day at East Clover Bar. Several children are being nursing jaws and now Miss McKechern has succumbed and will only just be back in time for the Christmas party.

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. Must be second cutting in quality acceptable as long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will bale it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

GOOD WILL TO THE SUFFERING

More than $250 in cash and several hundreds of clothing have been sent in by CFCA listeners during the past four days in response to an appeal for help for the grief-stricken Miller family at Rama, Alberta.

Last Friday, Ed Varna announced on the Radio Round Hills Kiddies program that financial and material support would be appreciated. The fund began coming almost instantly and has been increasing since.

The Miller family were victims of a fire that took the lives of three children. One child and the mother are still in critical condition and the father and another daughter were injured in the accident. Their home with all their belongings was destroyed in the blaze.

A few days prior to the appeal for funds, Dr. Bates asked listeners for radios to be passed in children's and veterans' hospitals in Edmonton. To date ten radios have been received, and more are arriving daily.

The Northern Alberta Branch of the Red Cross has undertaken the placement of the radios and the handling of the Miller Fire Fund.

- Recipes For Milady -

Christmas is more than just another holiday. It's given to friends and the warmth of its spirit linger with us for many days — it is the high light of the year. Its cheer is contagious and may be spread around our homes at this festive season in many different ways and places. It may be found on the mantel, in the window, at the door and in the food. The color combinations of red and green creates that festive feeling.

S E R

The home economists of the Consumer Section, Dominion Department of Agriculture have a few special suggestions for the days that follow Christmas. When planning meals for this period, it is well to keep in mind those dyspeptics.

SUGGESTED MENU FOR "DAY-AFTER"

Tomato Juice Cocktail
Tuletide Tongue in Cranberry Sauce
Scalloped Potatoes Beans or Peas
Asparagus and Cabbage Salad
Lemon Snow Holly Sauce
Cookies
Tea Coffee

About twenty minutes before the potatoes are cooked, sprinkle the top with grated cheese . . . it adds a tasty flavor. To give a holiday flavor and appearance to an everyday dessert, a few drops of oil of peppermint may be added to the Lemon Snow, which has been tinted a delicate green with food coloring.

In most homes there is usually a second appearance of the turkey as "cold slices". The family will enjoy them much more if served a couple of days after Christmas, with a change in the interval. A few individual moulds of tongue and jelly tucked away in the back of the refrigerator, will quickly draw up the leftover turkey. They may also be used with a salad, to help carry through the color scheme of red and green.

R E S

YULETIDE TONGUE

1½ lbs. beef tongue, fresh or pickled
1 teaspoon pickling spice, tied in cheesecloth bag
1 onion
2 carrots
2 celery stalks
1/2 cup brown sugar
1/2 cup molasses
¼ cup vinegar
¼ cup water
½ teaspoon whole cloves
2 cups cranberries
1½ tbsp. stick cinnamon

Wash tongue, cover with boiling salted water. If fresh. Add no salt to pickled tongue. Add pickling spice, onion, carrots and celery stalk. Simmer until tender, about 3 to 4 hours. Remove skin while still hot and trim. Combine sugar, molasses, vinegar, water and spices. Bring to boiling point. Pick over and wash cranberries. Add to syrup and cook shortly until skins Put through sieve. Place tongue in shallow pan, and over it pour the spiced cranberry sauce. Bake in a moderate oven 350 degrees F. for 25 to 40 minutes, basting frequently to form a glaze. Slice accordingly.

S E R

HOLLY SAUCE

2 tablespoons sugar
1 teaspoon cornstarch
Pinch of salt
½ cup milk
½ teaspoon vanilla
1½ cups milk
10 cup marashino cherries, coarsely chopped

Mix sugar, cornstarch, salt and milk (1 cup). Heat to double boiler. Beat egg yolk slightly with remaining milk. Add slowly to the hot milk, stirring constantly. Cook until mixture is thick and will coat a spoon (about 10 minutes). Remove from heat; add flavoring and cherries. Fold meringue.

S E R

CHURCH PEANUT CLUSTER

½ cup short syrup
1 cup brown sugar
½ teaspoon salt
1 egg
½ teaspoon vanilla
1 cup sifter all-purpose flour
OR 1 cup plus 2 tbsp. pastry flour
½ teaspoon baking soda
½ teaspoon baking powder
½ cup cornflakes
1 cup quick-cooking rolled oats
½ cup peanuts (skins left on)

Cream shortening, sugar and salt. Add egg and vanilla and beat until creamy. Sift together flour, soda and baking powder and add cornflakes and rolled oats. Add dry ingredients to first mixture. Last by add the peanuts. Drop by spoonfuls on a greased cookie sheet. Bake at 350 degrees F. for 15 minutes. Yield 3 dozen cookies

Penetrates — Stimulates

Stops that tight chest feeling when VICKS VAPORUB is applied at bedtime. Stimulates chest and throat like a warm, comforting poultice. Relieves coughing spells. Makes breathing easier.

Vicks VAPORUB

V.D. QUESTIONS
ANSWERED BY THE ALBERTA PROVINCIAL VENEREAL DISEASES ASSOCIATION

Q. Does a severe attack of hay fever, complicating or consisting chiefly of throat soreness, along with other symptoms, have a harmful effect on one's progress in being healed? Does the smarting keep the sores from healing?

A. The violent expansion and contraction of the lung which occurs during violent sneezing would really interfere with the process of healing in pulmonary tuberculosis.

A E R

Q. Would typhoid fever lessen a day be injurious to an arrested case of tuberculosis?

A. It should not be if the disease has been truly arrested.

Industry - Cradle of Democracy

By Bernard Saliwood, President, St. Boniface Paper Ltd., Montreal

Industry is either the cradle or the grave of democracy. Democracy can work only as we exercise our personal responsibility. As we neglect our moral obligations we compel the governmental to assume them. And then we find that we have helped to create the totalitarian state that we later have to fight. We have taken the equality baby of industry and tossed it irresponsibly into the lap of the government. Then we have damned the government for being such a poor nurse. As our personal relations have become regulated and mechanized, frustration follows and we join the clean war.

The only effective answer to the materialistic ideology is a moral one. Management will find its place in a new industrial order in which the needs of men are satisfied only when it is so determined to meet those needs as revolutionary ideologies are to exploit man's wrongs, fears and hates. If the heart had kept a stricter watch on the head in the past hundred years, history would have been different. As we cannot make the home happy merely by cold justice and duty, so a genuine democracy cannot be established merely by economic reforms. Democracy can only be established by the spirit of love. Love is the only force that can overcome the fear and hate that are the roots of totalitarianism.

Urge Safe Driving During Yuletide

Close observance of the road of safe driving, particularly during the Christmas season when traffic is heavier than customarily, is being urged by the Alberta Motor Association.

Many accidents can be avoided if motorists and pedestrians give careful heed to the principals of Safety First at all times.

Sure hazards as skidding, defective brakes, blinding headlights, also should be guarded against at this season. At level crossings, more than usual care should be exercised to avoid the danger of accidents.

Everyone should co-operate with the desire of making this festive season one that will be marked by a minimum of accidents.

Here is a poem, written by 14 year old Elnora Pitowich, of Wabasca, Alberta, which has im pressed A.M.A. officials:

"Would you who drive a truck or car,
Upon your mind carry the scar
Of some poor child that you had killed?
Because the right-of-way you claimed?
Remember to Stop and Look and Listen,
So that for some a Christmas Tree will glisten.
That is a plea, to you and me,
Keep the Yuletide accident-free."

Argentina expects to harvest 65 million bushels of flax this year, which is a substantial increase over the 36 million bushels harvested in the 1945-46 crop year.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

Registered seed between seed growers and farmers are receiving Certificates from some farmers that they sowed Registered seed and that the yield did not pass in question. Therefore they say the seed must have been poor. These complaints are unreasonable, but the fact is that farmers were not well enough acquainted with the special business of producing a crop for sale as Registered seed.

To be sure of a crop that will pass the extremely high test, set for registration, the sufficient moisture, pure Registered seed and to some A great deal of additional special treatments can also be demanded, which can only be learned by experience. No other commercial crop requires such a pure a seed that was sown that is why it is necessary, for farmers to use Registered seed every year. To be successful at this business of producing seed for sale as Reg istered seed is a business of its own, which is interesting and usually profitable but nothing like anything else has to be learned by actually doing it, and usually after a few failures

S E R

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

During the 1945-46 season Australia exports 37 million bushels of wheat (among the smallest recorded) compared with 50 million for the preceding year, and the five year average of 41 million.—Lenzets have extensively damaged the grain crops in Brazil, with approximately half of the wheat in the principal producing area reported lost.

Asia's wheat production for 1946 is estimated at 1,360,000,000 bushels, a slight increase over the 1,350,000,000 bushels produced in 1945, and the 1935-39 average of 1,648,000,000 bushels—The Argentine Government has not yet released the price at which the new wheat crop will be offered for export.

The "narrow-minded person" is the one who disapproves of what I do.

Griesbach

Mrs. Ervin Walker entertained the Griesbach U.F.W.A. wednesday evening, December 11. The officers elected for 1947 were: President, Mrs. E. Walker; Vice-Pres., Bert Walker; Sec.-Treas., Mrs. E. Walker. Mrs. E. J. Walker will attend the convention in Calgary in January.

* * *

The dance held at Griesbach school netted $35, $25.00 of which was given to Yorkville school memorial Christmas tree. The balance has been sent to the Fire Hall for the Kinsmen.

* * *

Mr and Mrs Jim Allcroft and Mr and Mrs. Sam Melville entertained thirteen friends and neighbors Monday evening, the occasion being the wedding anniversary. The evening was spent at cards and at midnight a very scrumptious lunch was served.

* * *

We are very glad to see Miss Betty Smith around again after being under the weather.

* * *

Yorkville children are holding their Christmas concert Friday the 20th.

The pupils of grades 1 to 6 under the guidance of their teachers Mrs. E. Magor, Miss M. Greenhough and Miss. V. Lewis staged a very entertaining junior in the Community Hall on Wednesday night.

* * *

The school students of the Clover Bar bus line were treated by their driver, Mr. Gibson, on Monday to a show in the city which was greatly appreciated.

Remove Restrictions On Women's Clothes

All style restrictions on the manufacture of women's misses' and children's clothes have now been removed, the WPTB announced.

With this step the lost content over styles of all men's, women's and children's clothing has now been eliminated.

Introduced early in the war to conserve material and labor, the restrictions limited skirt, dress length and sweep of dresses in specified measurements, and eliminated limited skirts, culottes, flares, capes, evening gowns and other types of clothing considered unessential.

In 1945 all styles restrictions on men's clothing were removed and practically all those producing the limited styles, plus limited pre-war general evening and dinner dresses, pleated heels or New-fell style jackets.

* * *

BOVINE BOARDING

A city fellow was reading a newspaper when he was heard to exclaim, "Even the cows are doing it now."

"Doing what?" inquired his wife.

"Mooching," he replied. "Right here in the headlines it says, 'Cow Rides In'."

ENGAGEMENTS

Mr. and Mrs. E. M. Grandahl of Fort Saskatchewan wish to announce the engagement of their daughter Gladys Lorraine to Henry W. Wensley of Fort Saskatchewan, son of Mr. and Mrs. A. Wensley of Edmonton. The wedding to take place the latter part of the month.

Be Careful of Fire At Christmas Party

Every year, some Christmas festivities are marred by fire accidents, to the Christmas tree, or to the decorations, or to the flimsy dresses of little children. At times, the results are tragic. Without care, the smallest people may only be setting a danger trap for their children. Christmas decorations generally are made of inflammable material, and it is exciting trouble to have a naked light anywhere near them.

For example, lighted candles in paper lanterns suspended from the ceiling or hung on a Christmas tree, or an improperly insulated string of electric lights may prove an peture. These baubles and glad and in Christmas cakes, crackerine, marzanine cherries and

[illegible] decorations.

For the men on the Christmas list practically any gifting reminder under price control, with the exception of men's ties. Prices of a few items, of women's apparel such as fur coats, costume jewellery, etc., are no longer controlled, but all essential clothing such as hosiery, lingerie, dresses, children's clothing, footwear of all types for all the family are still on the controlled list.

In the field of textile products

Christmas Goods Remaining Under Ceiling Regulations

To avoid paying over ceiling prices on certain artificial Christmas shoppers should study this shopping guide when making out their lists.

The following items which are purchased in greater quantities during the Christmas season still remain under price ceiling regulations: lanterns, chinaware, [illegible] ornaments, figurines, clocks, cameras, fur, silver, opium, rubber fruits, bananas, grapes, apples, vegetables, fruit, juices, peanuts, candies, confectionery, chocolate bars. Other luxury foods have been removed from the ceiling price regulations and dealers may set their own prices. These include nut and mixed in Christmas cakes, crackerine, marzanine cherries and

[illegible] decorations.

Ceiling prices have been removed on all toys including electric trains, chairs, construction sets, scooters, dolls, doll carriages and miscellaneous toys for the Christmas stocking.

While gift wrapping paper both fancy and plain, is still under price control, cards, stationery decorations for the tree, tags, cords, tinsel, candles and table decorations are no longer on the controlled list.

Chinaware and glassware designed for the serving of food, such as cups and saucers, dinner plates, etc., and ordinary water glasses, [illegible] ornamental glassware, figures, etc., are not controlled.

Productive human work for the people of the world is basic requirement for any enduring peace May it be repeated and emphasized that no man work so they are and lonely, lingerie, dresses, children's clothing, footwear of all types for all the family are still on the controlled list. This is more than a bit of rhetoric in expression. It means realism, determining the quality of life, liberty and the pursuit of happiness. Edward C. Elliot.

Special Grade Turkeys Up One Cent Per Lb.
To conform to recent changes in turkey regulations enacted by the Department of Agriculture, Wartime Prices and Trade Board has announced a price increase of one cent per pound for special grade young turkeys and hens. The change came into effect on December 6th, and allows wholesalers to increase their buying and selling prices, by the stated one cent per pound.
The resultant increase at the consumer level on this grade will be approximately one cent per pound. Maximum prices on all other types of poultry will remain unchanged. The Board has also suspended regulations which prevented purveyors of meals from buying more than a seven-day supply of turkey. This action was taken to allow restaurants, to stock turkeys which are now coming in from the United States.

A Christmas Message

By the time this edition reaches the community some agreed greetings will be upon our lips and to a varied extent in our hearts.

At Christmas time we join together in an expression of good will much that is best in man comes to the fore; "Merry Christmas", peals forth as a chime upon our lips and better still we really mean this hearty greeting.

Man's fellowship with man is a powerful thing—it takes a lot of persuasion, of propaganda, to break down this feeling of fellowship, and when it happens we are left weak and badly shaken as after a fit of temper. The propaganda of this season is good—"Happy Christmas", we cry—"Peace on earth to men of good will," comes the answer from the Heavens.

If this is to be a Happy Christmas an[illegible] more important still if it is to be a Happy Community —Nation or World then we need peaceful hearts and minds functioning in a peaceful world that the peaceful occupations of our home life and our daily tasks may be advanced.

"Give us that peace which the world cannot give" is a part of a very ancient prayer, and by now we should know that peace can only come to men of good will—to nations of good will. "Peace on earth to men of good will" is the celestial anthem which we should try and take to ourselves at the time of this wonderful happy family festival

And now by the courtesy of our local paper may we extend to all who will receive the greeting, "Merry Christmas" and may peace be with you.

Sincerely,
W. W. BUXTON.

To One and All We Wish
A Merry Christmas
AND A
A Happy New Year
Management and Staff
THE FORT RECORD

A Christmas Message

Through the kindness of the Editor, I am able to greet all the readers of "The Fort Record" with the wish that this Christmas may be a happy one for you all. I would like to say a specially hearty "Merry Christmas" to those men and women who have returned since last Christmas from active service in distant points, and to the mates who have come to join some of them and spend a first Christmas in a new land. "May your days be merry and bright", indeed!

After all the tempestuous experience of the last few years, we all long, this Christmas, for greater peace of mind now, and for absolutely thorough-going world peace soon. A large part of the joy of Christmas should lie in its reminder that the most high God is vitally concerned for the peace of His earth. The angels said so. When the Babe of Bethlehem had grown to be the Man of Galilee, He said so too. But deep in our hearts we know that God cannot keep our world peaceful when we keep planting the seeds of world trouble by a selfish, warring spirit in our homes and jobs and communities. His peace is for those who will receive the Christmas story into their hearts, and act upon it. May you be included in this number, so that the joys of Christmas Day may last for you throughout the year.

WINFIELD D. RACE.

Around the Town

On Monday evening December 16, the combining Bridge and Whist party of the series sponsored by St. George's W. A. was held in the Union Hall. Whist was played and honors went to Mrs. C. Magor and Dennis Legge.

The grand aggregate score prizes were presented by Rev. W. W. Buxton to Mr. F. Wade, high score and to Mrs. R. McLellan as runner up in bridge, and to Mrs. R. Bennett, high score and to Mr. G. A. Miller as runner up in whist.

Members of the W. A. wish to thank those, who by their attendance and assistance made this series a success.

* * *

To our friends and customers. We regret to say that due to a shortage of paper, we have not yet received our 1947 Calendars. As soon as they arrive we will forward one to you. Henry deRoose.

* * *

Mr. and Mrs. Henry Mohr will be at home to all their friends on Wednesday, December 25th after 8 p.m. on the occasion of their golden wedding anniversary.

* * *

Mr. and Mrs. Harry L. deRoose will leave Sunday morning to spend Christmas with Mrs. deRoose's parents at Red Deer. They expect to return home on Thursday.

HAVE YOUR TRAIL TODAY—WE CAN GIVE YOU IMMEDIATE DELIVERY.

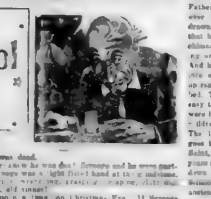
Beaver Hills Church Monthly Social Held

The monthly social evening of Beaver Hills Church was held on Tuesday, December 17th at the Wm. Fisher home. Games and a sing-song were led by Rev. W. D. Shaw, assisted by Mrs. Rose. A miscellaneous shower was then given Miss Edith Fisher, a bride-elect of the Chris mas season, who sat under an arch of pink and white streamers to unwrap her gifts, assisted by her cousin, Miss Vida Fisher. Miss Fisher expressed her gratitude at being so honored by her life-long friends of the little church she will soon be leaving to attend from her new home in Bruderheim. A dainty lunch was served by the hostess, assisted by other ladies of the organization.

Partridge Hill Y.P.U. Meeting Held Wed.

Partridge Hill Church Y.P.U. held a regular meeting Wednesday, December 18th at the Harvey Lennox home. Milton Mayer is in a Christmas program. Charlie Cheistenson, the new President conducted the business period. Other officers of the Y.P.U. are, Vice-Pres. and Citizenship Convener, Harvey Lennox; Missionary Convener, Arnold Watson; Culture Convener, Ralph Lawrence; Publicity Convener, Milton Mayer. With this group of men it was decided to put a lady in the key position of Secretary-Treasurer, but the ladies seemed unwilling. Vida offler will therefore be filled at the next meeting, Wednesday, January 22nd at the Mann home, when Arnold Watson's committee will be in charge.



A Christmas Carol

By Charles Dickens

After dinner that night, Scrooge went home to bed. A dismal bell that hung in the room started to swing. It was succeeded by a clanking noise as if some one was dragging a heavy chain over the casks in the cellar.

It came through the door, and passed into the room. It was Marley' Marley's chain was made of cash-boxes, keys, padlocks, ledgers, deeds and heavy purses wrought in steel.

The Ghost informed Scrooge that it was ordered of every man that the spirit within him should walk abroad among his fellowmen; and if that spirit goes not forth in life, it is condemned to do so after death. It is doomed to wander through the world— and witness what it cannot share.

"You will be haunted by Three Spirits. Without their visits, you cannot hope to shun the path I tread. Expect the first when the bell tolls One."

Scrooge awoke and the curtains of his bed were drawn by a small, elfish creature.

"I am the Ghost of Christmas past," it said.

The Ghost and Scrooge went to a barn room where a lonely boy was reading near a feeble fire; Scrooge wept to see his poor forgotten self as he used to be, and glanced anxiously towards the door. It opened; and a little girl much younger than the boy came in and, kissing him, addressed him as her "Dear, dear brother."

"I come to bring you home, dear brother" said the child. "Home, for good and all. Home, for ever and ever. For here has sent me in a coach to bring you."

They stopped at a warehouse door. It was Fezziwig's. A fiddler came and tuned like fifty stomach-aches. They danced and ate. Scrooge found himself by the side of a fair young girl.

"It matters little," she said, softly. "To you, very little. Another idol has displaced me; and if it can cheer and comfort you in time to come, as I would have, I have no just cause to grieve."

"What idol has displaced you?" he replied.

"A golden one."

"Spirit!" said Scrooge, "show me no more! Conduct me home. Why do you torture me!"

Scrooge had no occasion to be told that the bell was again upon the stroke of One.

Now his bed became the very core and centre of a blaze of ruddy light, which streamed upon it when the door flew open. Scrooge's own door. Living green so filled it that it looked a perfect grove.

In easy state upon this couch, there sat a jolly giant.

"I am the Ghost of Christmas Present," said the spirit.

"Spirit," said Scrooge, "conduct me where you will."

Perhaps it was the Spirit's sympathy with all poor men that led him straight to Scrooge's clerk. On the threshold of the door the Spirit smiled, and stopped to bless Bob Cratchit's dwelling.

In came Bob, Tiny Tim upon his shoulder. Alas for Tiny Tim, he bore a little crutch.

Master Peter, and the two ubiquitous young Cratchits, went to fetch the goose, with which they soon returned in high procession.

There never was such a goose. Bob said he didn't believe there ever was such a goose cooked.

"God bless us every one!" said Tiny Tim.

Scrooge was taken from Cratchits by Christmas Present to another end of town.

Continued on Page Four

It was a great surprise to Scrooge to hear a familiar hearty laugh. Scrooge recognized it as his own nephew's.

"He said that Christmas was a humbug, as I live!" cried Scrooge's nephew to the party. "He believed it too."

The ball struck again.

Scrooge looked about his bedroom once more, and behold a solemn Phantom, draped and hooded. He went with the Phantom into an obscure part of the town, and into the presence of a man, just as a woman with a heavy bundle entered.

She explained that the blankets belonged to Scrooge, and being dead he was not likely to take cold.

Scrooge shuddered at the revelation that this would be his fate in retribution for his unkindness during life.

Legend of Santa Claus

Young children in Britain go to bed early on Christmas Eve. For they expect that kindly old Father Christmas will come riding over the roof-tops in his airship drawn by his magic reindeer; and that he will guide quietly down the chimney into their bedrooms, carrying on his back his sack of gifts. And he will pop one of these gifts into every stocking that is hung up ready for him at the foot of the bed. Toys in Britain are not so easy to come by as they are to-day, they were before the war, but still most children get something or other.

The legend of Father Christmas goes back to the good bishop and saint, Nicholas, who lived 1,600 years ago. But why does he come in down the chimney? Many people believe that this dates from very ancient days in Britain 2,000 years before the birth of Christ; when people lived in holes in the ground, and the only entrance was through a hole in the roof of their roof-tops in his airship drawn by his magic reindeer; and that he will guide quietly down the chimney into their bedrooms, carrying on his back his sack of gifts. And he will pop one of these gifts into every stocking that is hung up ready for him at the foot of the bed. Toys in Britain are not so easy to come by to-day as they were before the war, but still most children get something or other.

Suffering China Calls

to Canadian Farmers

WAR has spread wreckage and misery and suffering over the 500,000,000 people of Canada's Pacific neighbor—China.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to find the Fascist ombeastgit. For eight terrible years from July, 1937 to August, 1945—China heroically breasted the aggressor's hordes. Two years later that army of her allied

Farmers Call to Farmers

To-day, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of enemy guns and bombs. And specially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, flood or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, household requirements, there is urgent need for restoration of farms and homes.

Canada's Aid Essential

During the war, Canadians, through The Chinese War Relief Fund, sent to China some $2,654,000 in money and over 1,000,000 pounds of used clothing, valued at over $1,500,000. But the aftermath of war can be more terrible than war itself. The world-wide relief unit of the United Nations Relief and Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. B) Canadian Aid to China (formerly The Chinese War Relief) is making a nationwide appeal. *This is an urgent call to Canadian farmers to support this effort.*

How YOU Can Help

To make it more convenient for YOU to participate, all Elevator companies have been authorized to receive donations of part of grain deliveries as Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to Canadian Aid to China.

The aim is one per cent. of the storage capacity of each Elevator. Will YOU help to make this possible?

Enlightened Self-Interest

This appeal is to our common humanity as citizens of the One World in which to-day we dare not isolate ourselves. In helping to rehabilitate China's millions we are hastening a return to world health and progress.

But we may well remember that China is not only a World Neighbor of Canada, but a good potential customer for our products. As she begins to recover from her war wounds, we are looking forward and laying the basis of profitable relations in the days to come.

WHAT TO DO

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Elevator receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No charge to cache, no cash to pay, no trucking to do. It's as simple as that!

CANADIAN FARMERS, BE GENEROUS! CHINA, A GOOD NEIGHBOR, NEEDS YOUR HELP!

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

Canadian Aid to China

Buckets of Money

A stranger thing happened at a Post Office number in Sweden. An old farmer handed a bucket full of money over the counter with the remark that there was a £2,000 ($4,000) "for the Rich and Mediocre Savings". The somewhat dazed clerk, more used to huge than modest money containers, counted out the money and found only £800 ($1,600) The farmer asserted that he had counted the money only the last morning, and he was sure it was £2,000 ($4,000). The clerk made another count and still it was only £800. The farmer, then had a brain-wave: "The wife has given me the wrong bucket".

Ceiling Prices Raised

The WPB announced that a 20 percent increase in the manufacturers', wholesalers' and retailers' ceiling prices of doors, screens doors and windows, door and window frames and a 25 per cent increase in the price of sash.

This step has been taken to stimulate production of these items which are falling short of the needs of the enlarged housing program, the Board said.

Officials explained that maximum prices of these items have been kept at basis period levels despite rising costs of labor, lumber, glass and other materials.

Examples of financial data submitted by various trade organizations and individual concerns has shown that manufacturing costs had increased by twenty to thirty per cent, and that in some instances financial need existed.

The increase does not apply to prices of fir flattened doors (Mot-Doors) which were adjusted earlier in the year.

Customs of the Season

Christmas is and always has been Britain's greatest and gayest festival. Even in the Middle Ages a visiting French priest, Pere Cyprien, marvelled at it, declaring that in British Christmas was kept "with greater ceremony than any other realm in Europe". It has always been the feast of the family and the fireside. In olden times hospitality was extended to all at landlord's lavish inn. The great nobleman and landowners were at this season allowed to throw their heralds to their own liveries—forbidden the rest of the year, and they kept open house for all their tenants The Yule log was brought in from the woods with dancing and rejoicing, and the thick Christmas candle lit. Then there was singing, games were played, and the Mummers performed plays. In many places a Lord of Misrule was elected to direct the festivities and everyone, including the nobleman himself, was subject to his commands. One of the oldest Yuletide traditions is the singing of Christmas carols. Many English carols are very old and beautiful. And groups of young people from clubs, schools and churches still go round singing them in the weeks before Christmas. Usually the money they collect is given to charity. Some families have their own carols. For instance, the Boswell Coursey, England, is the home of "Lully, lulla. Thou little tiny child", and after the terrible raid of 1940 the people of Coventry gathered among the ruins and sang this hymn. Christmas bells are rung by the churches on Christmas morning. Homes are decorated with holly, mistletoe and evergreens, the traditional mince pies and plum pudding—so far as they are still available today—are still eaten. And presents are exchanged.

Christmas Bell to Toll 1946 Strokes

A quaint English Christmas custom is the tolling of the "Devil's Knell" at the Parish Church of the Yorkshire town of Dewsbury

Every Christmas Eve for 700 years this ceremony has been performed—only broken by World War II when, for security reasons the church bells of Britain were silent. The tower bell of Dewsbury is tolled once for each year since the birth of Christ, and this year the 1946 strokes will take about an hour the final stroke being struck by its toll at the midnight hour. A legend connected with the custom tells how a local baron named Thomas de Scothill, back in the 13th century, killed one of his serfs, and to appease his crime promised that it should be tolled throughout the darkest hours of Dewsbury of those days believed that the tolling of the "knell" would keep the devil away from the parish for another year.

This Is Christmas

The familiar Christmas Carols we sing every year, and never tire of . . . Silent Night . . . Oh, Come All Ye Faithful . . . The First Noel . . . all the lovely songs rendered in church, at home, and wherever free people are gathered, these things are Christmas.

The Child-like traditions which young and old enjoy . . . the stockings at the fireplace . . . the poem, "Twas the Night Before Christmas" . . . Dickens' Christmas Carol . . . the tree gleaming in the parlor . . . the secrecy and expectancy of bright faces, these things are Christmas.

The last minute rush in everything we do . . . rushing to meet the Christmas . . . rushing to meet the train . . . rush to secure multi-color lights that glitter and reflect the of the most beautiful-of-all seasons . . . these things Christmas.

The spirit of giving . . . giving not only presents, to the poor . . . but giving our love, our willin to help, our benevolence, our friendship to all, the simple true Christmas.

MERRY CHRISTMAS TO
YOU AND YOU AND YOU

Christmas Pantomime

The usual "treat" for Britain's boys and girls at Christmas time is a visit to the pantomime—or a very special kind of theatrical performance where all genres of London theatre shall big production tunes, every Yuletide. Amateur companies also perform them too. They are usually supposed to be for children, but grown-ups love them too. The story is always one of the old fairy tales or nursery rhymes. There are songs and music ballet dancing, jokes and comic turns by clowns. Prime favorite of all, perhaps, is "Cinderella", the story of the neglected little step-daughter who went to the ball, thanks to her fairy godmother, and married the prince. Aladdin", the poor little Chinese boy who found a magic lamp that brought him wealth and a beautiful princess, is a close second. The word pantomime, of course, really means action in dumb show. And that is how the pantomime began, when it first came to Britain from Italy many hundreds of years ago. But it has gradually changed in all that time to its present form. One interesting thing about modern pantomime is that there is always, among the performers, at least one comic old woman who is really a man dressed as a woman; and, on the other hand, the hero is always a girl, called a "principal boy", who wears a special dress of silk tights and a short tunic. These two features come into pantomime from the old Roman feast of Saturnalia, which took place about the

A Portrait
Of Christmas

Trees glow with colored lights—be-ribboned gifts beneath the tree—stacks of greeting cards from friends and loved ones—the spirit and melody of Christmas carols—stockings upon the mantle—the promises of a holiday feast on the morrow—but, first Santa's visit and the mad scramble of eager children to see what he has brought. This is Christmas. May all of this be yours—and to it we add our warmest greetings and kindest wishes.

The Fight We Have Still To Win

Out of the misery of world war who would not like to see a new world rise, and rise, this time, on sound moral foundations?

Who would not like to see a world where there is honesty of act and decency of motive? Who would not like to find self-giving rather than self-seeking Who does not want the unity that would come and between men and men if they made the fight for this kind of world their's more seriously?

But the question is this: how? And how "Heaven" we try everything? New systems? New governments? How about it?

Sometimes they find it hard themselves they tell But a man they admit both difficulty and difficult. Man loves challenges others by the challenge of the lives they lead themselves Always they will

[illegible] Despite they have [illegible] [illegible] [illegible]

Artificial Light and Egg Yield

The stimulating effects of artificial light has long been recognized as a valuable aid to higher egg production during winter period, but, like all stimulants, it should be applied in moderation for the best results.

As the Experimental Farm has, however, investigation into the value of lights left on all night has shown a greater frequency and persistency of broodiness as well as a lower egg yield than in the pens where light was provided to make a 16-hour day.

Whether lights are used in the morning before sunrise, or kept on after sundown to extend the feeding period to 14 hours makes little difference in the rate of increase. Such openness can be relied upon to improve production, provided the birds are in good condition and the feed is enough to extend over the extra time.

As the egg laying for the day is usually finished by the late afternoon under an evening lighting system cloning the roots at the time of the last meal of scratch grain, which should be about two hours before the lights go off, tends to lessen the degree of broodiness among birds which are predisposed to the trouble.

Broome chickens, like most other birds, have the instinct and means to sleep comfortably on a perch, the use of a dimming device with evening light provides the signal to seek their roosting place in an orderly manner before darkness comes.

[illegible] is good to turn the lights on early in the morning as the birds are allowed to retire with the sun overhead grain should be put in the pens after dark to provide warming food and exercise during the period prior to dawn time the following morning.

As a general rule, the feeding times should be adjusted to the household rise to offset the darkness under an evening lighting

A Christmas Carol

Continued from Page One

He held out his hand in a last prayer to have his fate reversed. [illegible] the Phantom shrank, collapse and dissolve down into a heap.

The end and the keepsake was his own.

[illegible] he was the man who was his own. Married happier man in the [illegible] knew how to keep Christmas well if any man alive possessed the knowledge. He was as good as his word. He was as good as his word. He was as good as his word.

He was not to the office the next morning. Bob was eighteen minutes behind time.

"I am not going to stand this sort of thing any longer. And therefore," said Scrooge, leaping from his stool, and giving Bob such a dig in the waistcoat: "I am about to raise your salary!"

Scrooge was better than his word. He did it all, and infinitely more; and to Tiny Tim, who did not die, he was a second father. He became as good a friend, as good a master, and as good a man, as the old city knew, or any other good old city, town or borough in the good old world.

Three Wise Men Historical Puzzle; Relics at Cologne

Although we know very little about the Wise Men who came from the East bearing gifts to the Christ Child and, having adored Him as the King of the Jews, returned to their own country.

It is generally accepted that there were three Wise Men because of the three specifically mentioned gifts church tradition has identified these as Melchior Caspar and Balthazar Melchior, King of Arabia, brought a casket of gold, Caspar, king of Tarsus, brought myrrh and Balthazar, king of Ethiopia, brought frankincense. These gifts are considered symbolic of what Jesus was to become—gold for a king, frankincense for a high priest, and myrrh for a great physician. Collectively, the Wise Men went to exhaust all the gifts of charity and spiritual wealth, perfect faith, [illegible] and humility.

When they returned to their own country [illegible] and were

AND IT WASN'T A GAG EITHER!

A prospector like "Shot In The Think" calls for a terrific amount of preparation — among the means of denial is the important matter of having an ... and the cash prizes to pay for ... donations. The last broadcast — ... the stage of the Gaiety Theatre ... 8.30 p.m. Tuesday — came to close to being a "complete" ... cabaret.

Bob Elton, publicity manager, forgot his lucky wallet at home. In desperation he planned a last game of instructions and waited, keeping an eye on the clock — the other on the door.

The last driver arrived — Bob's commissaire carrying a parcel about a yard long.

"It must be a gag!" thought Bob. "You know the dollar - wrapping up dough in parels and parels of paper!" He unwrapped the parcel hurriedly. "Now I know it's a gag. Who did it, Jack? Bet where's the dough — quick — we're on the air in a few minutes." Everybody around seemed as surprised as Bob himself.

Then, the parcel was (of all things) a 10 inch fish. He it wasn't a gag either!

The taxi driver called at the Elton home, opened the storm door, picked up the parcel, left there earlier by a fish delivery man, and ... for the fish.

Elton got the fish. The contestants got their money back — after another and dash to the Elton home.

"It wasn't a gag folks, but tain't funny McGoo when there's a deadline to beat", thinks Elton

APPLE CUSTOM

Apples play a great role in Christmas customs. In parts of England they are pared and the peeling, taken off in one spiral, is thrown over the left shoulder. Tradition has it that the peeling will form the initial of the person whom the parer is destined to marry.

NEW PLANT FOR MASS PRODUCTION

New Massey-Harris Combine Plant contains over 270,000 square feet of floor space

Main assembly line in automotive type — one of the most modern on the continent.

Self-propelled combines are now rolling off the assembly line of the new Massey-Harris Combine Plant at Toronto. This plant, constructed at a cost of $2,500,000 and recently opened in operation, is the company's answer to the farmers of the world who, in recent years, have created the greatest demand in history for power farm machines of all kinds with particular emphasis on the new self-propelled ... development introduced by Massey-Harris. The building, laid out almost entirely on one floor, covers over 270,000 square feet of floor space, is said to be the largest of its kind in Canada, especially designed for the manufacture of a single farm machine. Production in the plant employs the latest ideas in modern production methods for speed and quality of workmanship.

St. Francis First to Popularize Custom of Christmas Carols

St. Francis of Assisi is accredited as having been one of the first to popularize the custom of singing carols at Christmas time. He taught the faithful simple and tuneful melodies, and the saying goes that, overjoyed by the concern attending his presentation of the first Christmas Crib in 1223, he burst into joyous vocal recitation of the gospel story.

Hymns in honor of the nativity were written as early as the 4th century, but these monotonous church chants neither properly nor musically ante-date our modern carols. Experimentation with modal and ... relationships dur-

ing the 15th century, together with the folk songs and minstrelsy of the times, made definite contributions to the traditions and popularity of Christmas music.

Puritan England forbade public performances of carols; so for a while they traveled "underground" by word of mouth, and "broad sheets," printed annually, served to preserve the texts with a variance of accuracy.

When the restoration of English royalty voided the Roundhead Parliament's abolition of Christmas festivities, residents of colonial Boston placed lighted candles in their windows to welcome the Waits who, resuming the Old English tradition, went about the city singing carols on Christmas Eve:

"It came upon the midnight clear
That glorious song of old . . .
The world, in solemn stillness lay
To hear the angels sing."

LEGENDS IN HOLLY

Holly was much admired by the Druids who believed that its evergreen leaves attested to its favor with the sun god.

Legends related that the crown of thorns was plaited from the holly. Before the crucifixion the berries were white but turned crimson like drops of blood.

Another is that holly is baleful to witches and is therefore placed on doors and windows to keep out evil spirits.

A more modern legend is that whoever brings the Christmas holly into the house first, either husband or wife, is the one who will rule the coming year.

New Year's Gifts Were Once Sacred

The Druids distributed branches of the sacred mistletoe, cut with peculiar ceremonies, as New Year's gifts to the people and the Saxons observed the day with gifts and festivals.

The Roman custom of taking gifts to the emperor was introduced into England as early as the time of Henry III. Queen Elizabeth is supposed to have supplied herself with her jewels and wardrobe almost entirely from these gifts.

As late as 1606 the English nobility were astonished every year to send to the king a purse containing gold.

Under the Tudors and the Stuarts it was the habit of all classes to give presents to friends with the best wishes for the New Year.

Ladies received presents of gloves or pins which were then expensive. Sometimes the gifts were wrapped in money and from this practice we have the term "pin money."

LEFT-OVER POULTRY TREATS

The Christmas bird is always welcomed with great gusto on its first appearance. However, with each re-appearance on our ... thereafter gradually wanes. Leftovers, though, need never be tasteless and uninteresting. They may be served in the most attractive, appetite-provoking fashion, so that the family will truly enjoy such meals.

Every thrifty housemaker knows the value of left-overs. In fact, many plan to buy food in larger quantities than required for a single meal to enable them to enjoy the numerous tasty dishes which may be prepared from the unused portion. Their families look forward with pleasure to the delicious, savoury dishes made from yesterday's food. Often the second and third edibles are enjoyed more than the first. The home economists of the Consumer Section, say that to transform left-overs into glamourous food, it is necessary to cook with imagination. Chicken a la King may be made with a cream sauce base, using chicken stock as part of the liquid. It also may be quickly and tastily prepared by using a tin of cream of mushroom soup as the base. This mixture may be served in Cream Puff cases. This may sound like an impossibility to many housewives, but how about making Cream Puff with Cheese, Chicken, or turkey fat. They are delicious. Use two-thirds cup chicken or turkey fat for one cup of butter in the standard Cream Puff recipe.

Another way of serving Chicken a la King is as a shortcake. Use fairly rich baking powder biscuit dough for the shortcake. Have again the shortening used may be chicken or turkey fat. The mixture may be cooked as one large shortcake or in individual rounds. Shape bottom layer, brush with melted fat and place second layer on top.

When baked, separate layers and fill with Chicken a la King mixture. Replace top layer and garnish with more of the creamed chicken mixture and ... sauce.

Escalloped chicken or turkey may be used as the basis for meat loaves, soufflés and croquettes or combined with ... and served. A small portion of the croquette mixture may be rolled in baking powder biscuit dough and then baked instead of fried. Add 1 tablespoon celery seed to the biscuit dough to give an unusual flavor. Serve these with a creamed vegetable to make both an interesting and satisfying main course.

Now all that remains is the cleanup. Don't discard that — it is good to the last bone. Crush the bones, place in a saucepan and add any pieces of skin that remain. Cover with water and simmer several hours at low heat. If only a small quantity of stock is obtained, it may be augmented by a tin of chicken soup or it may be kept

to make sauces such as Chicken a la King or to add flavor to gravies.

The dressing usually disappears quickly, but should any remain, it may be used as a stuffing for vegetables, such as stuffed onions.

R E S T

CHICKEN OR TURKEY TURNOVERS
2 tablespoons chicken or turkey fat
2 tablespoons finely chopped onions
¼ cup finely diced celery
1 tablespoon flour
¼ teaspoon salt—¼ teaspoon pepper
½ cup chicken or turkey stock
2 cups cooked diced chicken or turkey
1 tablespoon finely chopped parsley or celery leaves
2 tablespoons chopped pimiento, if desired
Hot water pastry
Sauce
Melt fat, add onion and celery. Cook for 5-8 minutes. Add flour and seasonings and blend well. Add chicken stock and cook until thickened, stirring constantly. Add chicken, parsley and pimiento. Cool, cut pastry into individual rounds or squares and place about 2 tablespoons of this mixture on each. Moisten edges of dough, fold over and pinch edges together. Bake in a hot oven at 450 degrees for 20 minutes. Serve hot with sauce or left-over gravy. Yield 9 turnovers.

R E S T

HOT WATER PASTRY
½ cup chicken or turkey fat
½ cup boiling water
1½ teaspoons salt
2 1/2 cup pastry flour
OR 2 cups sifted all-purpose flour

Cream the fat and stir in the boiling water a little at a time. Cool slightly. Add salt and flour, mixing with a quick, cutting motion. Do not stir. Chill before rolling. Any left-over pastry may be used as a topping for a meat pie or maybe made into cheese straws. Yield, 2 8-inch pie shells OR 1 double crust pie and 1 9 inch pie shell OR 3 dozen 2 inch tart shells.

S A U C E
1½ cups chicken or turkey stock
½ teaspoon salt
⅛ teaspoon pepper
2 tablespoons catsup
¼ teaspoon Worcestershire sauce
2 tablespoons flour

Bring chicken stock to boiling point and add seasonings. Blend flour with cold water and add to stock. Cook until thickened, stirring constantly. Continue cooking 8 to 10 minutes. Serve hot over turnovers. Yield, 1½ cups.

British Develop New Gearless Car

A revolutionary new car, which has already attracted considerable attention overseas, was shown in London recently for the first time. This is the six-cylinder "Black Prince," a luxury car which is claimed to provide for the first time in the ordinary meaning history a form of transmission which eliminates both gear lever and clutch pedal. To start the vehicle, the driver merely releases the brake and presses the accelerator. To stop it, he only has to release the pressure from the accelerator and apply the brake. With the elimination of the clutch pedal and gear lever, the number of main controls is reduced from five to three—steering wheel, accelerator pedal and brake pedal. There is a fourth control—a small switch with forward and reverse positions but this operated only when the car is standing still. The car has a monocoque whalby of aluminium, built in a single unit, yielding not only the passenger accommodation but also the engine and radiator block.

Business does more than make us a living it makes the way we live.

Fire Proofing Christmas Trees

Christmas trees of themselves may be fire hazards. While freshly cut trees do not ignite easily they soon become dry and constitute a fire hazard on account of the amount of resinous substances they contain. At the same time, the danger of fire may be obviated, if not entirely prevented, through chemical treatment. On the other hand, Christmas trees are moistened rapidly after being cut, so that ... is always practicable.

However, it has been proved that the wood and pine needles of Christmas trees may be made fire-resistant if treated as soon as possible after the tree has been cut down. Freshly cut trees have a water absorbing power which permits the introduction of either calcium chloride or ammonium phosphate into the tree in solution form.

The method is as follows: the stem of the tree is freshly sawed, preferably at an oblique angle or "V" shape, and placed in a receptacle containing the solution and left in a room of moderate temperature (60 to 65 degrees Fahrenheit), until the tree is to be used. The quantity of the chemical required, either of the calcium chloride of the ammonium sulphate, should equal one-quarter of the weight of the tree. Dissolve the chemical in water at the rate of 1½ pints per pound of chemical. The degree of fire resistance depends on the amount of the solution taken by the tree, and freshly cut trees respond readily to treatment, the quantity of chemical absorbed varying with the freshness of the tree. A properly treated tree will not burn even when exposed to a large flame.

Cordial Wishes for a Merry Christmas

APPLES FOR BRITAIN

The largest single shipment of apples ever made from Canada left Vancouver in November for Britain.

There were 200,984 bushel boxes in the shipment or about 50,000,000 apples of different varieties, which were grown in British Columbia. The shipment would fill 300 freight cars and would make a train about 2½ miles long.

The apples were bought from B.C. growers by the Dominion Produce Board for the British Ministry of Food.

Tell Me an Indian New Years Story

The ceremonial for the snow ha... passed, when ... and ... had all words forgotten, as a new trail has been blazed for all through the New Year's festivities.

The story-telling grandmother has taught the ancient chants and customs, through the beads of the strings of historic wampums, but now she again has time to entertain the children.

Gathered around her lodge-fire, they plead for another story with their bright eyes and shrill voices To satisfy them, she tells an ancient legend about the clouds.

"Long moons ago when the world was first made, the sky at winter-time was cloudless much as it is on clear midsummer days. The ground was covered with white snow and the trees, except the pines, stood bare. The cold wind whistled around the bark cabins; and with a cloudless sky, everything above and below looked dreary.

"The children, too, missed the green leaves and changing colors over the landscape and they gave a wish that the sky might have clouds, now and then. It is true, dark-gray, fierce-looking clouds came in great masses and covered all the sky and let down snowflakes to amuse the children. But the children also wished for bright clouds and the old bear in the sky heard their wishes.

"So the old bear blew his moist breath into the heavy clouds and

broke them up; he even made humps in some of them, and held on to the corners of others, until when they passed over the villages, each cloud had a different shape, some like bears, some like wild rein some like hills and even some like funny people. Ever afterward, the clouds took these strange shapes to bring smiles and imagination to all children in midwinter."—Dr. E. A. Bates, Cornell.

GOD'S HANDWRITING

His writes in characters too grand,
For our short sight to understand;
We catch but broken strokes, and say
To fathom all the mystery
Of withered hopes, of death, of life,
The endless war, the useless strife.
But there, with larger clearer sight,
We shall see this—His way was right.
Always loved by his Mother and Grandma.

Construction of Bridges Well Under Way

Plans for the construction of three major highway bridges involving a cost of about $400,000 have been outlined by the public works department, according to officials of the A. M. A.

For some years the A.M.A. has been stressing the need of adequate bridge construction in the province with proper approaches.

The province is to make an immediate start on building a five span steel highway bridge over the Old Man River, between Lethbridge and Macleod. This is expected to cost $300,000 and is regarded as a vital need for highway traffic taking that route.

Construction on the bridge at Red Deer is well advanced and in all probability will be opened to traffic by next fall.

Another project is the construction of a 100 foot steel bridge over the Rhindeam River between Red Deer and Ponoka. The road is be... straightened in this sector.

THE FORT RECORD

VOL. 37. No. 28. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, JANUARY 1, 1947 Subscription $2.00 year, U.S. $2.50

Muriel Armstrong Wed Dec. 27th

At a pretty ceremony in Fort Saskatchewan United Church Manse on the afternoon of Friday, December 27, 9:30 Rev. W. D. Rose officiating, Muriel Alberta Arma rung younger daughter of Mrs Alice Armstrong of Fort Saskatchewan was united in marriage to Arnold Ronal Porterfield, son of Mrs. C. A. Radley of Fort Saskatchewan.

The bride wore a floor length lace gown and embroidered veil and carried a bouquet of chrysanthemums and roses. She was attended by her sister, Miss Dorothy Arma rung, who wore a gown of pale blue net and carried a bouquet of chrysanthemums.

Best man was Mr Elvin Robinson.

Mrs. Armstrong, mother of the bride wore a dress of black crepe and the groom's mother, Mrs Radley wore a pearl gray crepe dress.

Following the ceremony a wedding supper was held at the bride's mother The toast to the bride was proposed by Mr. Sid Radley

Many beautiful gifts were received by the newlyweds at a reception and dance held later the same evening in Partridge Hill Community Hall. About a hundred friends were present despite the 30 below zero weather

The young couple left during the week-end for a honeymoon at the Pacific coast, stopping at Calgary, Chilliwack and New Westminster

Annual Election of Service Club Officers to be Held Wednesday

The annual election of officers of the Fort Common nity Service Club will be held at the next regular meeting, Wednesday, January 8, at 8:30 p.m.

At the last regular meeting a nominating committee was appointed, consisting of Mr. J. B. McLean, Mr Chas F. Lowe, and Mr Walter Shenton, and members are invited to send names in for the following offices:

President, Vice President, Secretary and Secretary Treasurer, also Directors to head the following committees: Wage and House, Entertainment, Public Works, Sports, Publicity, Finance and Agricultural

According to the constitution a new slate of officers may be elected at each year, and members are urged to send in names for the above offices as soon as possible

Let's all turn out and make this one of the best meetings every held by the club

Fort Couple Pledge Vows at Quiet Ceremony

A quiet wedding with only immediate relatives present, was solemnized Thursday, December 26 at 2:30 p.m. in the St. George's Anglican Church, when Gladys Rose, daughter of Mr and Mrs E. M. Crandall was united in marriage to Mr Henry W Wensley son of Mr and Mrs A Wensley of Edmonton Rev W W Burton officiated

The bride looked charming in an afternoon dress of black and turquoise and carried a bouquet of garden as and rose buds She was attended by her sister, Ruth, who wore an afternoon dress of black and white and carried a bouquet of carnations

Mr Ed Wensley, brother of the groom was best man

Following the ceremony a reception at Canadian reception was held at the home of the bride's parents

Council Approves Music for Rink

The adjourned meeting of the Town Council was held on Friday the 27th December, 1946, with the following members present: Mayor Magee and Councillors Walker, Dr Johnstone and Chas F Lowe.

Minutes of the regular monthly meeting on the 28th, the other 1946 and special meeting on the 7th, November 1946, the regular monthly meeting on the 25th November 1946, and the 4th special meeting held on the 27th, November 1946, 3rd, December 1946 and 3rd, December 1946 were adopted as read.

It was adopted that the Cubs and Scouts be given permission for use of the skating rink on Saturday mornings between the hours of 11 and 12 under the supervision of the Rev. W Hamlin

The Financial Statements for months of October and November 1946 were read and accepted also the Financial Statements for the month of October and November 1946 of the Fort Saskatchewan Community Club, Hall Committee were read and ordered filed.

The offer of George Pissell of the Fort Radio Electric re music a. the skating rink, was read and the following motion was adopted, that the offer of Mr George Pissell to provide music for skating and hockey matches for the sum of forty dollars for the season of 1946 and 47 be accepted.

The Mayor having to leave the meeting at this time and there not being a quorum of the council present, the meeting adjourned to meet again at the call of the Chair.

« Around the Town »

Mrs. E. Graham left by T.C.A. plane for New York, stopping en route at Lachine, to spend New Year's with her son-in-law and daughter, Mr. and Mrs. Earl Sherman.

St. George's Sunday School will hold a Christmas party on Friday after n. There will be tea ing at the club from 3 to 5 p.m. and games and lunch in the Union Hall from 5 to 6 p.m.

Mrs. H. Daly had as her guest during the week-end, her sister, Mrs. C. Wedgwood of Edmonton.

St. George's W.A. will meet at the home of Mrs. L. Brown on Tuesday, January 7 at 2 p.m. Members please note change of day

Mr. and Mrs. E. H. Gamble and daughters, Helen and Jeanette left Wednesday for Vancouver Island, where they intend to make their future home.

Mr. and Mrs. H. Butler are receiving congratulations on the arrival of their son, R.C.H. T. (Paul) who was married to Miss Violet Bendall on the 19 h of December, in Christ Church, London, England.

Gordon Walker, son of Mr. and Mrs. R. Walker, who is stationed at Halifax arrived home on leave last Sunday to spend Christmas with his parents.

Mrs. S. E. Thorne was remembered with a Christmas gift from First United Church presented to her Sunday evening, December 15, in appreciation of her very faithful work at the organ through the year and her leadership of both junior and senior choirs. The juniors were heard in four sweet and cheery numbers at the morning service December 22nd while the seniors rendered four Christmas anthems in the evening and Miss Annabel MacCrimmon was heard in a solo each both.

Mr and Mrs. J. A Dawson have as their guests, for the Christmas holiday season, Mr Dawson's parents, Mr. and Mrs. R. O. Dawson of Winnipeg.

Mr and Mrs Bert Frankham of Whitecourt, formerly manager of Mr J. A. Dawson were visitors at the latter, home for Christmas.

Mr. and Mrs Gordon Neale and son, Keith, of Edmonton spent Christmas in Edmonton with relatives. They paid a visit to the Fort on Boxing Day to visit with their former friends.

Mr and Mrs Ralph Ellis will leave Sunday morning for a holiday at the Pacific coast to visit with Mr. Ellis's parents.

Mr. and Mrs. R. Phillips of Edmonton spent Christmas and New Year's with Mrs. Phillips father, Mr. A. B. King.

Many families faces were seen around Christmas when the young folk, who are working and going to Varsity, in the city were home to spend the holidays with their parents.

A happy throng filled the Fort Community Hall Tuesday evening to usher in the New Year.

The dance was sponsored by the Fort Community Service Club with novelties, noisemakers and funny hats in great supply everywhere.

During intermission a lunch was served in the basement, and at the midnight hour all agreed a wonderful time was had.

Rev. W. D. Rose has recently, in home ceremonies, performed the baptism of the following children: Barry Lorne, son of Mr. and Mrs. Ernest H. Smith; Judith Lenore, daughter of Mr. and Mrs. Alfred Baron; Diana Catherine, daughter of Mr. and Mrs. Charles Holland; Sandra Lynne and Patricia Gail, daughters of Mr. and Mrs. Alanson Whitford; and Patricia Margaret, Malcolm Dennis and Marlene Denise, children of Mr. and Mrs. Marcel Turner The last two named were the second set of twins born to Mr. and Mrs. Turner, and are now four months old

After the United Church service Sunday evening, December 22, during which she and her sister Ruth sang a duet, Miss Gladys Crandall was entertained by her fellow choir members at the home of Mrs. Stewart, Mrs. S. E. Thorne. A lovely sing song of Christmas carols was enjoyed around the home of the organist of Santa's toys were previewed and inspected for performances by the grown-up youngsters On behalf of the choir, Rev. W. D Rose spoke of Miss Crandall's long and eager participation in its music and in fun, and presented to her a lovely painting to hang on the wall of her new home and reveled her of the choir's wish for her life long happiness. The hostesses, Mrs. Thorne, and her daughter. Mrs. Edie, served a delicious lunch.

Cooking Lake

SOUTH COOKING LAKE

The Christmas Concert held at Frankish school on Friday evening last, favored by HARD times temperature, was thoroughly enjoyed by a large gathering of boys and girls (including the very tiny ones) their parents, relatives and friends.

The program began with an interesting and informative demonstration by the pupils of their elementary morning exercises, ending the Lord's Prayer, the Salute, a canada of the Canadian National Anthem and a reading from St. Kilda.

Then followed the story of the First Christmas, told in readings from the gospels of Matthew and Luke, and in carols sung by the children.

Five short plays (or playlets) followed:

Christmas at the Circle A
Santa Old Santa Claus
The Christmas Visitor
The Under Privileged
The Fatal Quest

The third part of the program included Recitations, Solos, Duets, and a Trio.

Santa Claus now appeared with a present really wrapped, for each child, and a bag of fruit, nuts and candy for every child present, and for some not present Adults were not forgotten either, for there were apples, oranges and soft drinks for them. Moreover, there was a very acceptable lunch, provided and prepared by the ladies. Later, the coffee cups an enjoyable social hour passed quickly and brought this happy Christmas party to a close with the exchange of many hearty greetings for a Happy Christmas and New Year.

The school and teacher are grateful for the generous support given so readily to make their concert a success. We cannot give names where there are so many, but to the stores and cafe, the musicians and friends, we say, "Many, many thanks!"

Turning from gay to grave, we

Mrs. McLean W.I. President

The Women's Institute held its annual meeting and election of officers on December 11th, being the last to close a very successful year.

The principle work undertaken was a canvass relief Each month an objective was carried out, its work including, cash quilts, layettes, stockings for children and artificial Parcels of food were sent to civilian families and to Fort men still in the services, as well as some local relief.

A great deal was accomplished in connection with the upkeep of the cemetery. Mrs. J. Ellis being given great assistance in the work.

The officers elected for the coming year are president, Mrs. J. D. Johnson, 1st vice president, Mrs. F. Sherwood 2nd vice president, Mrs. R. M Bacon; secretary, Mrs. F. H. Walker; treasurer, Mrs. H. Lasker; directors, Mrs. Westover, Mrs. Ellis, Mrs. Henry, Mrs. Magor, Mrs. Henry, Mrs. Thorne

The next regular meeting will be held in the United Hall on January 8th at 2 o'clock. Mrs. R. M. Bacon will give a demonstration and talk on painting on china.

The roll call will be answered by each member naming a brand of china.

Every welcome is extended to members and visitors.

West Elk Island

To the editor, staff and readers of the Record, we would like to take this opportunity to extend the seasons greetings.

Sunday, December 22 marked another milestone reached in the building up of the community centre. It was the opening night of the new West Elk Island rink. Undaunted by the lack of a power line or an abundance of funds the community rallied with cash, lumber and men and now under a coat of lights and boards has an equipped rink that rivals any.

The local hockey league is now in full practice and will be able to play in the schedule, as was planned two weeks ago.

The push of Mansfield and Parkside entertained their parents and friends at a banquet held in Mansfield school, Friday evening. Covers were laid for 80 guests on a decorated festooned table. Miss Dorothy Schneider very ably acted as Mistress of Ceremonies. At the conclusion of the evening, Karl Schneider and Clifford Gerke distributed gifts from under the tree.

The next meeting will be held January 6 to discuss plans for a carnival and play. Everyone please attend.

We take this opportunity to voice the unanimous wish of the residents of South Cooking Lake and all surrounding districts with Jim Coleridge in the mounted police at the Buffalon lake, and which he has met with his characteristic manly fortitude. All power to you, Jim, and a Happy Christmas and New Year!

And may this correspondent wish again for readers of the column and this paper—A Happy Christmas and New Year!

A fault once denied is twice committed.

Clover Bar

The Christmas party at East Clover Bar on Friday afternoon was well attended by young and old. Everything went as planned and in spite of the fact that old man snowpe had struck down Miss Mc-Rankeen closing down for the two months previous and sadly disrupting the attendance in the senior room.

"Miss" Santa Claus arrived at the proper time and after presents and treats were distributed a goodly lunch was served by the senior girls. The bus children arrived in time for refreshments. Then everyone departed for home laden with parcels and the little tots with that ecstatic look you can only at Christmas time.

SPORT FLASHES

Fort Downs Thorsby To Make First Win

Before a small crowd here Monday night, December 23rd, the Fort Saskatchewan Hockey Club emerged from its losing streak to battle the Morinville Cubs to a 2 all deadlock.

Morinville took the lead with a goal by Perras at the 10 minute mark, and went 2 up on a goal by Bergin in the second.

Coming into the third with a two goal lead hanging over their heads, the Fort squad launched a series of pressure plays and after three minutes of play Bob Gaul scored from Buxton and Godbout. A minute from Gaul play in the middle of the third, tied the game.

After the regulation overtime period, (with numerous scoring chances but no goals) both clubs skated off the ice tither by one point in the league standing.

LEAGUE STANDING

Teams	P	W	L	Pts.
Morinville	7	6	1	12
Leduc	8	6	2	12
Calmar	7	4	3	8
Bremner	6	2	4	4

Letter of Thanks from Chairman Of National Clothing Collection

The following letter was received by Rev. W. W. Buxton from the National Clothing Collection on behalf of all those who participated in the gathering of clothes for these less fortunate in overseas countries.

Dear Mr. Chairman:

In accepting the Chairmanship of the committee which undertook the solemn responsibility of National Clothing Collection in your community, you may now enjoy full satisfaction of a job well done.

Your co-operation formed a strong link in a powerful organization, and I would congratulate you and your committee on your success and extend my heartfelt thanks to you for your share in the 1946 collection.

For your information, during the past year the people of Canada through National Clothing Collection have contributed 20,000,000 pounds of used clothing, footwear, etc., to suffering war stricken countries, and letters received by Canadian relief agencies supply grateful Europeans indicate that shipments reached their destinations promptly on schedule, and before the winter season arrived.

Yours faithfully,
Wm. M. Birks, Chairman
Canadian United Relief Fund and National Clothing Collection.

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow does not manage milk in sufficient quantity the litter need at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anaemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

EDMONTON

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable as long as it has not been rained on, and is green in colour and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Lease hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

BARBARA'S health

From the Department of National Health and Welfare, Ottawa.

EYE STRAIN

How to recognize eye strain is explained by National Health leaders at Ottawa. Among the first signs of an abnormal eye condition may be: itching lids, redness of lids or eyes, burning of the eyeball, light-sensitiveness, headaches, dizziness or even disturbed stomachs. Even unusual fatigue after work may in some eye strain. Consultation with the eye clinic or family physician is recommended immediately such condition, are experienced.

* * *

HEAVIER BABIES?

Rickets are rife in some parts of Canada. Surveys made by government nutrition authorities in one province revealed that one child in every ten had definite signs of rickets.

It was also discovered that at least one out of ten had not been getting cod liver oil.

Vitamin D, which is present in fish liver oils, is used by the body for proper development of bones. Moist sunlight therefore urge parents to forestall rickets by feeding some form of fish liver oil to the children's diet all the year round.

* * *

CHERRIES CHANCE

Pointing to the sore "shins of [illegible] carbonate in tooth decay, malnutrition, nervous [illegible] many Canadian children aren't eating enough fresh fruit.

A variety of carefully chosen foods, declare nutritionists at Ottawa, is essential to health. Deficient bones, anaemia, white appearance, sore eyes, loss of weight, digestive disturbances and even mild unusual conditions, may occur, particularly in children, as a result of the food which they eat—or don't eat.

POOLING FURS

Respirators designed to combat poisonous hazards are recommended by industrial health experts to protect workers against dust, fumes and gas, which are inevitably by-products of many industrial processes. The Department of National Health and Welfare, Ottawa, urges consultation by plant management with Provincial Health Departments to ensure that workers are safeguarded with adequate respiratory protective equipment.

* * *

COLD COMFORT

Want to avoid colds this winter? Here's how, according to Ottawa Health and Welfare authorities: Get out regularly, having well-balanced meals; sleep in well ventilated rooms; dress not lightly, but not in stifling clothes; harden yourself by deep breathing, and stay away from obvious causes of sore throat and head cold.

* * *

FOODS THAT FIT

Experts declare that food plays a great part in keeping us fit. But they warn, don't expect overnight benefits from diet.

Good nutrition will give you sound teeth, strong bones, sharp eyes, clear skin and a feeling of well-being only after a proper dietary has been followed over a period of time.

Good eating habits are an way an concern. It is better that we, our entertainers, to adopt healthful eating habits, too, like all good things, the sooner we begin the better.

* * *

✓ DEEP BREATHING

Deep breathing exercises relieve tension a day. That's the advice of Ottawa health experts. They remind Canadians that deep breathing and stimulation, which, in turn, breeds disease. Deep breathing prevents out the lungs and fills the air passages with fresh air. Exercise enabled needn't be strenuous, but it should be a regular operation which is a sign that it is breathed.

You have to have soft love of country when self-love burns out.

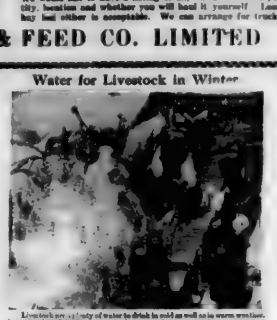
Water for Livestock in Winter



Livestock need plenty of water to drink in cold as well as in warm weather. A supply of good water for farm animals in winter is just as important as in summer. And just as we see on the part of the farmer if the livestock are to do well. It is pointed out by the Dominion Department of Agriculture, here to shows on the drinking water supply in winter weather, as the animals are often entirely at the mercy of the farmer in this respect, which is not so much the case in the summer. Milk cows should not be given an cold water in winter too.

« Recipes for Milady »

The age-range of the family may be from six to sixty but it makes little difference, since all are interested in the desserts. That's the atmosphere of suspense and "what's-coming-next" has given it touch of glamour. Some time when the enthusiasm of the junior members of the family can be restrained for a longer, you'll hear them a-h—"what's for dessert?"

It has been said that the dessert course determines the success of the meal. It should create a lingering sense of satisfaction. To do this, the meal must be well-balanced. Never choose the dessert course without casting an eye over the courses which have preceded it. If the main course has been light, then round out the meal with a rich, steamed pudding.

Contrast in color, which makes for attractive appearance, may be achieved by the type of sauce served with the pudding—e.g. if pudding is dark, serve a light-colored sauce or vice-versa.

The home economists of the Consumer Section, Dominion Department of Agriculture have a few pointers, which will help you to produce a light, feather-weight steamed pudding—they need never be heavy. Such puddings are always a treat on cold, win ry days.

Grease the pudding mould well before placing ingredients in it. Fill moulds 2/3 full. Always cover the top with several thicknesses of waxed paper, or a piece of waxed paper, to prevent the pudding from becoming soggy. If it is necessary to replenish the water, during the steaming period, be sure is is at boiling point, to prevent a fluctuating temperature. This is often the cause of heavy textured steam puddings.

* * *

SOUTHERN MOLASSES PUDDING

1 egg
2 tablespoons sugar
2 tablespoons melted fat
½ cup fi-ted molasses
1 cup sifted pastry flour
OR 1 cup less 2 tbsps. sifted all-purpose flour
½ teaspoon salt
1 teaspoon baking soda
½ cup boiling water

Beat egg, add sugar gradually and continue beating until well light. Add fat, molasses and blend well. Sift dry ingredients together and add alternately with water. The batter will be quite thin. Fill three well-greased moulds or individual moulds 2/3 full. Cover with waxed paper and steam. Large mould 1 hour; individual moulds 30 minutes.

* * *

CRUMB PUDDING

¼ cup molasses
1/2 cup sugar
2 tablespoons melted fat
1 egg
½ cup sifted pastry flour
OR ¼ cup less 1 tbsp. all-purpose flour
½ teaspoon nutmeg
½ teaspoon cinnamon
½ teaspoon cloves
½ teaspoon allspice
1 teaspoon baking powder
½ teaspoon baking soda
1 cup stale dry bread crumbs
1 cup milk

Mix together the molasses, sugar, egg and flour. Cook in double boiler, stirring constantly until thickened. Dissolve butter in milk before adding flour other spice as may need's Add flavoring. This sauce has a delicious creamy flavor. Six servings.

The next war may really be the war to end all wars. It is ready in fact, to end all humanity.

and steam, large mould 1½ hours, individual moulds 45 minutes. Six to eight servings.

* * *

BUTTERSCOTCH PUDDING

1¼ cup buttermilk
1 3 cup sugar
¼ teaspoon salt
2 tablespoons flour, blended with cold water
1½ teaspoons vanilla

Mix together the buttermilk, sugar, salt and flour. Cook in double boiler, stirring constantly until thickened. Dissolve butter in milk before adding flour other spice as may need's Add flavoring. This sauce has a delicious creamy flavor. Six servings.

The Significant Facts of Ages

Everything today—home life, business life, the way we vote, even our holidays—must be judged in relation to the significant facts of the age. There are two significant facts: 1—an ideological struggle is going on for control of the world; 2—atomic power is available as a gigantic new force for good or evil.

In the ideological struggle there are: 1—those who believe in survival control by force if not by persuasion, and who intend to cut off from human freedom to get economic security; 2 those who believe in teamwork as a belief that free men and nations pulling together can and will produce enough for all but more than enough to be possible in slavery

Join the battle for control on the side of management or labor, class or race, or this or that political philosophy, and the end is civil war, world war and the atom bomb.

Join the battle for teamwork where every man, class, race and nation give their best and do their utmost to help each other, and the

On which battle line are you? Do you fight to get your way at home, at work, in the office or trade union, on election day and even in the manner of recreation? Then you are in the battle for tension!

Do you fight to give your best on all occasions, to make other people great, to use the needs of all and take—with others—the responsibility to meet them? Then you are in the fight for teamwork

The battle can't be fought for long by the UN or any other agency. It is fought by you as you live through every day. You are the maker of today's events and tomorrow's history

The Dominion Bureau of statistics has confirmed the speculation that there will not be enough butter in Canada this winter to ration the present 8 ounces a week consumer butter ration for the first four months of 1947. The total production this year will probably be about 326 million pounds.

Ultra - Modern Hotel Accomodations

Marking a new era in hotel comfort ultra-modern "day-night" parlor-bedrooms have been introduced at the Royal York, the Canadian Pacific's 1200-room hotel in Toronto. Largest hotel in the British Empire the Royal York (inset) is the first in Canada to put in the new style equipment. Shown above as a parlor by day and a bedroom by night, the rooms have along one wall a luxurious chesterfield unit which can be turned down into a three-quarter bed. The unit also houses a writing desk which becomes a dressing table when the top is lifted, storage space for lounge cushions and bedding, a side table and radio. Pleasing compact the rooms are perfect for entertaining.

49th Batt. Assn. To Hold Reunion

All men who served with the 49th Battalion, C.E.F., in World War I or with the Loyal Edmonton Regiment in World War II, are invited to attend the annual reunion banquet of the 49th Battalion Association to be held in the Mixed Hotel in Edmonton, Saturday, January 4, 1947, Brigadier J. J. McFarren, CBE, DSO, ED, president of the association, has announced.

This is the 22nd anniversary celebration and banquet. It will start off with a get together in the mezzanine floor dining room at 6:30 p.m., the "chit to" will be rounded at 7:15 p.m. and dinner will be served in the main dining room at 7:30 p.m.

Now members are asked to wear their berets, but medals will not be worn. Tickets will be on sale at Mike's Mercantile in Edmonton at the usual price of $1.50 each. Out of town veterans, planning to attend, should make their arrangements as soon as possible as tickets in the city are considerably busy at this time of year.

An increasing volume of Canadian flour export is now going via Pacific coast ports. As a result, the flour mills of Western Canada are speeding to the limit of their capacity.

World of Wheat

By H. G. L. STRANGE

Director "The Crop Testing Plan"

THE WORLD WILL ALWAYS NEED FOOD

A New Year, but not yet quite at peace, is dawning upon us. What will it bring forth? That, no one can tell. But there is one thing absolutely certain. Good times or bad times, employment or unemployment, peace or war, 1,000 million people in this world must eat, no whatever the circumstances, there will be, an ever, necessary and important work for farmers to do in producing foodstuffs for the hungry people of this world. The F.A.O. has brought to our attention—what was never so well realized before—the simple fact that half the population of the world—one billion people—never have an ough to eat, even the plainest food, and that one third of the people, even in such rich countries as the United States and Canada, do not have enough of the proper kinds of food.

There is, therefore, certainly a great need for all the agricultural produce we in Canada, and all the farmers in every other country, can possibly produce. Can we develop such accommodation s, will conclevate, and not impede, the flow of the farmers' products to hungry people, to customers for the fruits of their toil? That should be the main task, I for one think, for 1947.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Austria's consumption of grains is placed at 40,000 tons monthly, of which only a small part can be supplied by home production, and the remainder has usually been made up by U.N.R.R.A.—Rations in India's north-west provinces may have to be reduced, owing to substantial loans of grain made to other provinces, which can not be replaced as imports from abroad have fallen below expectation.

The United States Department of Agriculture's final crop estimates places wheat production at 1,185,736,000 bushels, compared with the ten year average of 843,497,000 bushels, but slightly below earlier estimates of 1,190,652,000 bushels —Argentina's wheat production is estimated at approximately 14 million bushels, compared with last year's production of 11½ million bushels.

We wholesome to to feed them hard work but sensible is wrong if you over your young

Ration Lifted On Canned Fruit

All canned fruit, sweetened and unsweetened and those specially prepared for babies, as well as cranberry sauce were removed from rationing the WPTB announced

Sugar preserves coupons which would have been used to purchase these items will now be available for the purchase of any of the other allotments in the sugar-preserves, jams, such as jam, jellies, marmalades, honey, syrups or sugar. The net effect of this move will be to give consumers an increased amount of ch-ot. Pts of the remaining sugar preserves alternatives.

Decision to remove this list of items from rationing is keeping with the Prices Board's policy of decontrolling as rapidly as conditions permit, and is now possible because of record or near-record fruit packs this year. These items were brought under rationing control in September 1943

The announcement also clarified ration regulations concerning pie-fillers, fruit fillers, bakers' fruit fillers, and fountain fruits. Any of these items containing 6 per cent or more of sugar content are classed as jams and therefore remain on the ration; those containing less are removed from ration restrictions.

We handle a complete line of Fuller Brushes.

Fort Billiard Hall AND Bob's Barber Shop

Wye

The Wye Red Cross Ladies Aid held their yearly meeting at the home of the president, Mrs. C. J. Bedford. After the adoption of the minutes of the previous meeting, plans were made to ship on a large number of ladies and children garments to the Red Cross in Ardmore. Also, to make the stores more during the year. In the enactment of the evening a dainty lunch was served.

* * *

We are sorry to hear Mrs. L. Mclean has the misfortune to get burned. We wish her a very speedy recovery.

* * *

Mrs. E. A. Gardner spent the weekend in Edmonton.

* * *

The Wye school children held their Christmas concert in the Wye hall on Friday evening. A very happy time was had by all.

* * *

We wish Mrs. McIntosh's baby, who has to under go an operation, a very speedy recovery.

* * *

Mr. Adam Scott had the misfortune to be run over by a steam roller in Edmonton. We are glad to report nobody was hurt.

* * *

Mr. and Mrs. Lloyd McGhee's son, Ross is on the road to recovery.

* * *

In closing we wish everyone a very Merry Christmas and a Prosperous New Year

Yorkville

Mr. and Mrs. Tom Peters of Edmonton spent the Christmas holidays at the home of Mr. and Mrs. H. B. Peters.

* * *

The Fort Saskatchewan U.F.W.A. will meet at the home of Mrs. C. P. Hoskins, on Wednesday, January 22. By postponing the meeting one week later than the regular day, we will be able to have the delegates report from the U.F.A. and U.F.W.A. Convention held earlier in the month.

* * *

Council is on the sick list. We wish her a speedy recovery and hope she can soon enjoy the Christmas holidays.

Brookville

Our festival feelings and sympathy go out to Mr. and Mrs. Albert McMaugeon at the death of their two little boys and over the tragic fire which destroyed their home.

* * *

We are all anxious to meet Mrs. Bill Jones, an English war bride, who just arrived this week. Mr. Jones has been at Mr. Herveys' recently.

* * *

We all enjoyed the Christmas concert this year. A great deal of work was put into it by Miss Ryan and the children. Santa Claus was very popular and had many gifts to deliver.

* * *

Mr. Sandwell Scherer came home last week from hospital where he received treatment for an infected arm.

* * *

We are all pleased to see Roy Bodie back in the district. He is staying with Corvette.

* * *

Jean Harvey got home Sunday for the Christmas holidays. She is attending the University of B.C.

* * *

In closing we wish everyone a very Merry Christmas and a Prosperous New Year

Josephburg

The Saint Christmas Concert in spite of the bad weather and people's colds are here stock singing. Both rooms gave a creditable showing to the most appreciative audience we could wish for. The members followed one another in smooth succession and each was well applauded.

* * *

Mr. Randolph Kennedy consented to forge the pleasure of acting in the grandson of Santa Claus. The Master of Ceremonies at Yorkville called in order that he might fill that position for Josephburg. A good deal of work would have indeed him to make, had we known it. We were grown up and to have big ben with us at Christmas that it is almost an institution. The chairman congratulated teachers upon the quality of the performances and paid homage to the excellent results obtained by Mrs. Fleury in directing the play put on by the junior room. We must not fail to mention our youthful accompanist, Alice Thomas, whose thrilling playing of seven pieces accompanied each musical selection without causing a hue and cry from the audience. Words of Prince Donna of the said play.

We were delighted to recognize among the audience Mrs. Bodie, Mrs. Kennedy, who until really to the old school.

Santa Claus, one daily present to the tots. Mrs. Bodie's daily proved her awareness the work of visiting so many gatherings must be. We sincerely hope that she survives the ordeal of the next few days, he will be able to return to his northern home and resume his duties. Mrs. Bodie's personality He looked as though he needed, not one, but young good square meals. Mrs. Bodie's personality whether reindeer meat or veal blubber or whatever his usual fare up there consists of, is heavily missed.

* * *

Elizabeth Krieger met with an accident last week which has caused her a sojourn in Lamont Hospital, not to mention the loss of the pleasure of seeing the Christmas festivities. She from her toes badly one night while shooting and omitted to give them the care needed until serious damage was caused.

* * *

The mild weather of the past week was not conducive to the welfare of the rink but cooled weather has once more set in and re-flood-

Fultonvale

The Gosplel Club will hold their annual meeting at the home of Mrs. Chas. White, Wednesday, January 8, everybody welcome.

* * *

Miss Mooney and her pupils, assisted on the piano by Mrs. Long, put on a very enjoyable Christmas program, representing it as their own Santa.

* * *

Gerald Mertz is well again after a spell of measles, and most members from a number of pupils from school, speedy recovery pals.

* * *

Mr. Herman Mil er has been ill for some time. We hope h will soon be well again and come out to visit old friends in the district

* * *

Miss Carol Williams is home for Christmas.

* * *

Mr. and Mrs. J. Lyon and family spent Christmas Day in town guests of Mr. and Mrs. P. Lyon

* * *

Wish Mr. Knowles God speed, and all friends in the district a Happy New Year

* * *

Alberta farmers are opposed to day light saving time. The Alberta Federation of Agriculture will oppose before the Municipal Law committee of the provincial legislature, any charter amendments sought by Alberta cities to empower them to set up a system of

East Edmonton

The new home of members of East Edmonton Hall held their first dance of the winter season on Friday, December 27th. In spite of cold weather a good attendance is reported. Good music was provided by Mrs. Ole Simonsen and the Markham orchestra. Convenors for the evening were Mrs. Stewart, Mr. W. Mc G. Bright. The board hopes to promote another dance in the near future.

* * *

Mr and Mrs. M. I. Watson have returned from Prince Albert spending Christmas at the home of their son and daughter-in-law and granddaughter, Margaret

* * *

Mr. and Mrs. Peter Dunn of Calgary spent Christmas at the home of Mr Hawkins of this district.

* * *

The sympathy of the community is extended to Mr. Bob Sutherland in the death of his beloved wife. Mrs. J. nie Sutherland

IN MEMORIAM

In loving memory of Pte. Of. Gnr. Frederick Stanley Heaney who died in his 24th year from illness in World War II, on December 29, 1946.

We have only your memory, dear boy,
To remember our whole life through;
But the sweetness will linger forever

As we treasure the image of you.
Dad, Mother, Sister and Brother.

In loving memory of Stanley Dennis, who passed home Christmas Eve, December 24th, 1939.

Those whom we love go out of sight,
But never out of mind;
They are cherished in the hearts
Of those they leave behind.
Loving and kind in all his ways,
Upright and just to the end of his days,
Sincere and true in heart and mind,
Beautiful memories he left behind.
God is just.
Lovingly remembered by his wife, Katherine.

Around the Town

Mrs. George Walker of Tranby has been visiting her sister, Mrs. A. Shedleton. It is the first Christmas in 40 years that Mrs. Walker has spent with her sister.

* * *

Mrs. Shedleton also had as her guest, her daughter, Mrs. R. Banks of Vermilion during Christmas time.

* * *

Mrs. and Miss Sherwood have left Saturday after spending the Christmas holidays with her daughter and son-in-law, Mr. and Mrs. Thomas at Westerose, this week.

* * *

Miss Alice Gallaway is now working at the Telephone Office.

* * *

Mr. R. Lanten attended the special A.G.M. of the Provincial Alberta Teachers Association on Friday, January 3rd at Edmonton.

* * *

Mr. and Mrs. R. Stuart Taylor have returned home after spending the past fortnight with their daughter and son-in-law, Mr. and Mrs. Donald H Gunn of Irma.

Mr. and Mrs. H. Mohr Celebrate Golden Wedding

Mr. and Mrs. Henry Mohr, old time residents of Fort Saskatchewan, marked their golden wedding anniversary at their home, Wednesday, January 1st, with a family reunion dinner to forty guests. A three tiered wedding cake centered the table flanked by roses and carnations.

Mrs. Mohr looked charming in a black dress trimmed with gold sequins and wore a corsage of sprite t colored roses. Her bridesmaid of fifty years ago, Mrs. Mike Mohr, looked lovely in a black dress and wore a corsage of yellow roses.

Mr. Mohr and his wife, the former Miss Katherine Graf were married at the home of the bride's parents, Mr. and Mrs. Valentine Graf of Fort Saskatchewan, January 1st, 1897. They took up farming in this district where they have resided ever since.

The couple have two daughters, Mrs. Edward Mohr and Mrs. Frank R. Becker; and three sons, Reinhold, Sigmond and Walter all of Fort Saskatchewan, also four grandchildren.

Mr. and Mrs. Mohr have been active in the church life of this community. Mr. Mohr being a member of the Board of Edmonton Reformed Church for several years. Mrs. Mohr is a life long member of the Ladies Aid and held the position of treasurer for many years.

Friends from far and near gathered to congratulate the pioneer couple on their Golden Wedding anniversary. The house was decorated with gold and white streamers and large bouquets of roses, chrysanthemums and baby mums, which they received from well wishing friends and relatives.

During the evening addresses of congratulations and good wishes

Old Established Business Sold to C. G. Parker and Sons of Edmonton

After 32 years of successful operation of Jacob Motors Welding and Machine Shop in Fort Saskatchewan, Albert Jacobs, due to health, has disposed of his interest to C. G Parker and Sons of Edmonton.

Starting in a small way at the early age of 14 years, and with the determination to succeed, Albert increased his business step by step to its present proportions, which today, consists of one of the most complete Machine and Welding Shops and modern up-to-date Garages.

His success is due to his own ability in being able to look after the needs of anyone who desired work done.

One of the most outstanding pieces of work performed was that which he and his brother, Pete, did in making some of the most vital parts needed for the successful sawing up of the mills in Turner Valley Oil Field last year.

Until a few years ago, Albert took keen interest in sports. He sponsored many of the baseball and hockey teams here and also played on them. He also curled for a few years

He has been a member of the Volunteer Fire Brigade for the past 18 years and its chief the last 3 years.

As a consolation for the past six years he has also endeavored to serve the town in the capacity to the best of his ability.

After considerable thought

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable so long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will haul it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

« Recipes for Milady »

A bowl of hot, flavorful soup is certainly welcomed these cold days isn't it? The pleasant odour that greets the family coming home either from school or work is the best appetizer and it is very seldom indeed that the call for dinner or supper has to be repeated twice.

Soups vary a great deal on account points. To name a few, there is the kind: meat, fish or vegetable; the type: cream, bouillon, consomme or puree and the combination. There are recipes for all kinds of soup but quite often if a housewife is asked for her special or favorite soup recipe, she will be hard put to give it because she varies it according to the ingredients on hand.

Most housewives have a supply of canned soups, some use them often, others just once-in-awhile, but few of them ever thing of combining one variety with another, thus creating something new and different. Why not experiment in place of water with many canned soups, for instance vegetable soup is excellent diluted with milk instead of water. The milk gives it an entirely different flavor.

Most soups, that is soups made with bones and meat trimmings, not too much fat please, and pea soup are best if cooked slowly, really should be for 4 hour time. The meat and bones are covered with cold water, brought to the boil and then simmered for two, three or four hours. Whole vegetables like carrots, onions, turnips, celery stalks and leaves may be put in with the meat for added flavor. The stock should then be cooled and clarified by adding crushed egg shells, bringing the stock to the b il and then straining it through cheese cloth. From the stock, which should be kept in a closed container in a cool place, a great many varieties of soups can be prepared.

The home economists of the Consumer Section of the Dominion Department of Agriculture give you recipes to make meat stock and to use it.

* * *

BEEF STOCK

2 lbs. meat trimmings with bones
2 qts. cold water
2 small onions
2 stalks celery
2 quarts cold water
½ teaspoons whole peppercorns
½ bay leaf
1 sprig of thyme
Off 56 teaspoons dried thyme
Salt and pepper to taste

Put beef, carrots, onions, celery and water in kettle and bring slowly to a boil. Tie spices and herbs in cheesecloth bag, add with parsley to soup and simmer slowly, covered for 3 hours. Strain. Yield, 4 cups.

* * *

HUMAN BEEF BROTH

2 large beets (3 cups packed and finely shredded or chopped)
6 cups meat stock
1 tablespoon butter
Salt and pepper to taste
1 teaspoon sugar
1 tablespoon vinegar or lemon juice

To the prepared beets add 3 cups stock and cook 15 minutes. Add remaining stock and cook until beets are soft — about 30 minutes. Add butter and season to taste with salt and pepper. Add sugar and vinegar or lemon juice and allow soup to simmer for at least 30 minutes. Six servings.

NOTE: 1 tablespoon sour cream may be added to each cup of beet soup. This soup may be made with vegetable or poultry stock instead of beef stock.

* * *

BARLEY BROTH

1 quart meat stock
1 tablespoon white navy beans
1 tablespoon turnip, diced
1 tablespoon carrots, diced
1 medium onion, chopped
¼ cup pot barley

Add beans, to cold beef's or stock, bring to a boiling point and add vegetables and barley. Cover and simmer 1½ hours. Season to taste. Makes about 2 cups.

* * *

CHICKEN GUMBO

1 small onion, finely chopped
2 tablespoons flour
4 cups chicken stock
1 cup cooked chicken, finely chopped
½ cup canned corn
2 cups canned tomatoes or tomato juice

Salt, pepper and parsley to taste. Cook onion slowly in chicken fat for about 5 minutes. Blend in flour. Add stock and other ingredients, seasoning to taste. Bring to boiling point and simmer for ½ hour. Serves 6.

"Feeling yourself" is apt to be a disagreeable discovery. You find it little that's worth while.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

THE SPREAD OF WINTER WHEAT

A number of agricultural authorities have been inquiring about the increasing use of winter wheat. I have just taken off the figures from a survey made by the Research Department of the Scottish Grain Company as to where winter wheat was being grown, the variation in use and whether the crop was increasing or not. The results are interesting. They indicate that this last fall some 40,000 odd acres were in 12 out of the 17 Crop Districts in Alberta and in 7 out of the 9 in Saskatchewan. Practically none was sown in Manitoba. The winter wheat production two years ago was approximately one million bushels. Last year between two and three million, and the 1947 crop it seems may be around six million bushels. These considerable increases have been brought about mainly by the 10 cent-a-bushel price for winter wheat that for 1 North ern spring wheat, initiating the immediate effect that changing prices bring on. Inducing farmers to grow more or less of any crop. Governments, therefore, that want increased production in this or that crop or product, should take notice of the effect of higher prices. Raise the price and farmers will quickly produce more without any urging or exhortation.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

World flaxseed production for 1946-47 is estimated at 141.8 million bushels, some 7 per cent above the 1945 crop, and 4 per cent above the 1935-39 pre-domestic of 132.3 million bushels flooding of winter wheat in the United Kingdom has been delayed owing to the protracted harvest and abnormally rainfall, and a considerable acreage will probably not be sown.

The South African wheat crop is estimated at 10,264,000 bushels, an increase of approximately 100 per cent over last year's crop of 5,496,000 bushels—The Canadian Government's seeding plans for 1947 calls for 24 million acres of wheat, a reduction of approximately 2 million acres from the 1946 acreage of 26,000,000 acres

---

T.B. eradicator
ALBERTA TUBERCULOSIS ASSOCIATION
Sponsored by the Alberta Division of the National Tuberculosis Association

Q. What type of occupation would you recommend for an arrested case of tuberculosis?

A. This depends entirely upon the individual and the amount and character of his disease. As a rule tuberculous patients do better in those occupations not requiring much or violent physical exertion, in other words, sedentary occupations.

* * *

Q. Can a tuberculous patient get along as well by staying indoors during the day and outside at night?

A. Mendikas most of the doctors with whom I observe are not as anxious as they used to be to have their patients out of doors twenty four s day. If it is available for good health, fresh air, sunshine and at the proper temperature, and if it can give the proper amount of exercise — they be almost. But change in temperature and velocity of the air are quite risky and are best obtained out of doors.

"There's no remedy mentioned for a kink in the back—perhaps I'd better try Baron's lubrication manual.

Suffering China Calls

to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of Canada's Pacific neighbor—China.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Fascist onslaught. For eight terrible years from July, 1937 to August, 1945—China heroically breasted the aggressor's hordes. Two years longer than any of her allies!

Farmers Call to Farmers

To-day, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of war, guns and bombs. And especially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, flood or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, hospital equipment, there is urgent need for reconstruction of farms and homes.

Canada's Aid Essential

During the war, Canadians, through The Chinese War Relief Fund, sent to China some $2,554,000 in money and over 1,444,000 pounds of used clothing, valued at some $1,999,000. But the aftermath of war can be more terrible than war itself. The world-wide relief work of the United Nations Relief and Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. By Canada Aid to China (formerly The Chinese War Relief) in making a national appeal. *This is an urgent call to Canadian farmers to support this effort.*

How YOU Can Help

To make it more convenient for YOU to participate in all Elevator companies have voluntarily agreed to receive donations of part of grain deliveries on Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to Canadian Aid to China. The sum is one per cent. of the storage capacity of each Elevator. Will YOU help to make this possible?

Enlightened Self-Interest

This appeal is to our common humanity as citizens of the Great World from which to-day we dare not isolate ourselves. In helping to rehabilitate the Chinese, we are hastening a return to world health and progress.

But we may well remember that China is not only a World Neighbor of Canada, but a good potential customer for our products. In helping her to recover from her present distress, we are building goodwill and laying the basis of profitable relations in the days to come.

WHAT TO DO

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Official Receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No charge to write, no cash to pay, no mailing to do. It's as simple as that!

CANADIAN FARMERS, BE GENEROUS! CHINA, A GOOD NEIGHBOR, NEEDS YOUR HELP!

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

What Can Make the New Year New?

Just wishing folks a "happy New Year" doesn't make the new year new The turn of the calendar won't make it new Nor a turn in conditions with the same old people to meet to new conditions in the same old way What can make the new year new? Nothing but new people.

A man divided within himself—a "divided personality"—who becomes a united personality will find the new year new. And so will a man who serves proud or bitter —social snobs or social outcasts— who learns to care for a few people and thus unite with them.

Homes grown round instead of selfish will find the new year new. Homes where nobody "wears the pants", but everybody wears a smile Homes which do not brood within, and cannot be reached from without.

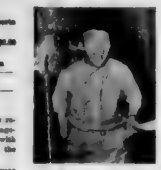
Business firms, from inner friction will find the new year new

There is a possibility that the general defense loan imposed by the United States government in connection with other countries on the exchange of grain, and a reduced import duty is involved in the discussion

nonetheless a series of 13 trade agreements with other countries on the exchange of grain, and a reduced import duty is involved in the discussion

Both in Canada and in the United States it is considered doubtful to meet wheat export demands. The main problem now is to get wheat to seaboard.

Returns to Airways



Bing Crosby, whose long years of radio entertainment has made him one of the air's most popular stars, is back with his new show after just being voted America's biggest box office attraction.

Crosby is on the air over a new network, and at a new time Thursday evenings at 6:30 p.m. (Mountain Standard Time) over Northern Alberta now CFRN.

Bing's program consists of a radio variety show with Bing himself as the central character. He sings a few songs, has a quarter hour of Hollywood humor combined with tennis, music and swimming mad Bing spends a good deal of time at Desert resort with his family He entertains the boys by telling them bedtime stories in Crosby slang.

Barley Acreage in 47

The Dominion Experimental Station at Lethbridge lists the following 4 best ways in increasing acreage and barley and oats for 1947

Soil moisture is a subtle is greater than it has been for many years The farmers will be justified in seeing at least a part of their stubble land in 1947. A decrease in the summerfallow acreage would also eliminate a great deal of soil erosion.

Barley and oats are resistant to wheat stem sawfly, and a good opportunity is afforded to rid at least a part of the farm of this pest

The growing of an early maturing barley, such as O.W. or Newal, aids in the control of weeds

The experimental station at Lethbridge asserts that in general oats and barley will produce more grain, pound for pound, than wheat.

In addition to the above it is altogether likely that barley will be

Think of others and you're never lonely, whether by yourself or in a crowd.

Around the Town

Word has been received that a daughter, Sharon Elsie, weight 8 lbs., 12 oz., was born to Mr. and Mrs. Ray Sundberg, nee Margo Voorhees, at the Dawson Creek Hospital on Saturday, December 21st.

* * *

Mr. and Mrs. Ken Robinson have as their guests for an extended visit, Mr Robinson's parents, Mr. and Mrs. W. J. Robinson of Jasper, Alberta.

* * *

Despite the cold weather, the Bridge and Whist party of St. George's W.A. held at the home of Mr. and Mrs. C. H. Williams on Tuesday evening was well attended.

* * *

The annual meeting of Fort United Church will be held in the Church classroom on Monday, January 20th, at 8 p.m., to hear reports of the church activities for 1946 and plan 1947 projects.

* * *

At the regular meeting of the W.I., held last November, the ladies were treated to an excellent talk by Mrs. Bacon on candle making and fixing. Mrs. Bacon had an exhibit of china, part of which belonged to her hand painted dinner set of 110 pieces. Oil and water paintings were also shown, which were also painted by Mrs. Bacon.

Refreshments were served from the china that was exhibited.

* * *

Mr. and Mrs. Allan Broomfield are receiving congratulations on the birth of a daughter, Alana Gaye, Monday, January 6.

Agricultural Service Board

"Agriculture is an art that renders unto those who understand it rich but leaves those who do not understand it, however much they may labour, to live in poverty." These words were spoken 2,500 years ago and are equally true today.

Despite all our complaints, nature does give us the odd break. How fortunate it is that the 1946 ungrowned fields are all right and the different varieties of clover as well as several other legumes, not grown to any extent in this area, as valuable in soil building, are also rich in protein for the feeding of domestic animals.

Summer fallowing is not carried on with charcoal inclination definitely that this product has no value as a supplement to other forms of rotations. In fact it may be harmful in that it absorbs some Vitamin A from the rotten.

The following varieties of trees may be obtained, in limited numbers, to supplement shelter belts and provide windbreaks around farmsteads from the Provincial Government farm at Olivet: Evergreens, Oak, Ash and Elm as well as Poplar and Willow cuttings. Applications should be made to T. F. Hedges, Director of Forestry, Administration Building, Edmonton, before January 31st.

In planting a shelter belt on the north and west side of a house and farm buildings it is important to keep trees back at least 30 yards from the closest building, and also from roads. One row is of evergreens is very nice on the

Minutes of January Meeting of Municipal District of Strathcona

The Council of the Municipal District of Strathcona, No. 42 held the January meeting on the 13th instant, with Councillors, Adamson, Schleven, Kosh and Meyer in attendance.

The minutes of the previous meeting and the Financial Statement for the month of December as submitted by the Secretary were adopted and confirmed.

Mr. Adamson reported that residents in the East Edmonton Community were making preparations for a canvas to obtain funds to assist in acquiring a recreation ground.

In view of the fact that a suitable meeting place could not be found in South Edmonton to hold the annual meeting it was decided to hold same in the Masonic Temple on 102nd Street.

Instructions were issued to the secretary to prepare a By-law for consideration at the next meeting covering the collection of garbage in hamlets within the Municipal District.

The council authorized the placing of an order for a carload of snow fencing, and instructed the secretary to get information regarding the cost of iron posts.

The council briefly considered the road foreman's report covering work done during the past season as well as recommendations to be made concerning the future operations of the road construction district. It was decided to hold a special meeting to consider this report as well as making a detailed study of the District's financial standing with the reading of correspondence and the passing of payments and accounts the meeting adjourned.

SPORT FLASHES

MIXED BONSPIEL OPENED WEDNESDAY

Wednesday night saw the opening games of the Annual Mixed Spiel, and the battle for various prizes is now in full swing. With 48 rinks competing the spiel should terminate at and the end of this week.

The draw is arranged so that one loss will put a rink in the second section, two losses in one section disqualifying the rink.

PRESIDENT WINS SPIEL

The President vs Vice-President bonspiel wound up Tuesday night and a final tally showed the President ahead by a score of 15-13.

The S. Thorne rink remained, perhaps shaken, but still unbeaten.

BREMNER SUFFERS DEFEAT

The Bremner Hockey team played

inside of a shelter belt, allow at least 12 feet between these and main belt and leave sufficient room, if possible, to cultivate an all sides with tractor and a large implement to prevent weed encroachment.

Junior Grain Clubs should obtain their seed prior to February 1st. Also all boys and girls, between the ages of 12 and 21, wishing to organize a grain club should do so before the above mentioned date. For further details contact your District Agriculturalist, Mr. R. J. Whitbread, 10138 100A Street Edmonton.

The season for "Warble Fly" treatment is approaching. In this connection we wish to state that a supply of powder is on hand at the Municipal Office, South Edmonton and also at the Fort Fleur and Fort Store at Fort Saskatchewan. This powder may be had free of charge and the time spent in using it will prove an excellent investment.

Minutes of Town Council Meeting

The adjournment of the regular monthly meeting of the Town Council of Fort Saskatchewan was held on the evening of the 6th January 1947 with the following members present: Mayor Hunt and Councillors Jamieson, Williamson, Lowe and Dr. Johnstone.

The minutes of the adjourned regular monthly meeting of the 9th December 1946, and the last two special meetings held on 21st December 1946 and the 2nd January 1947 were adopted as read.

The following correspondence was then read:

Letter from Constable Thomas read asking for an increase in salary and after some discussion it was moved that his salary be increased to $195.00 per month as of January 1st, 1947.

Letters from J. P. Wicks and R. Lawson read wishing to purchase the building behind the Fort Realty property, and the council decided that the building was not for sale as same could be used as an extra dressing room in skating rink.

Tender of C. E. Henderson of the Marble Memorials of Edmonton to engrave the name of the Fort on the Cenotaph for Great War II was accepted at $8 cents per letter, making an approximate price of $70.00.

The motion that the sum of $100 be granted the Women's Institute for the Cemetery maintenance fund was adopted.

Letter from Mr Roy Wilson was read tendering his resignation from the council. It was moved that the resignation of Councillor Wilson be accepted and a letter of appreciation for his services as a citizen and councillor be sent him.

The trouble in this town was then thoroughly gone in and discussed, and it was finally decided that the town should erect two signs reading "Fort Model Town, Slow" on the reverse side "Et-i of School

Old Time District Resident Passes

The passing of Valentine Geef marks the end of another real old time landmark of this district.

Mr. Geef, his wife and seven children came to this country in 1899 and settled on Wostenga where they remained for four years.

Heading the call of the west they left Wostenga and arrived in Edmonton Christmas Eve 1902 finally in 1903 they left Edmonton by cutter to take up a homestead at Pleasant View where they remained till 1930 time.

Mr. Geef, who was a carpenter by trade built the first school erected at Josephburg.

Funeral services were held at the German Reformed Church at Josephburg on December 31 The services were conducted by Rev. Kreiger and burial took place at Josephburg cemetery. The pallbearers were six grandsons: Reinhold Mohr, Val Breckenridge, Fred Seeg, Val Kelly, Bill Geef and Ed. Geef.

Mr. Geef is survived by five daughters, Mrs. Henry Mohr, Fort Saskatchewan; Mrs. R. Seeg, Cranbrook, B.C.; Mrs. E. Mann, Macleod; Mrs. A Bracker, Meadow Lake, Saskatchewan; Mrs. E Brotherhood, Mrs. J. Hunter, both of Edmonton and Mrs. Ruth of Fort Saskatchewan. 27 grandchildren; 72 great grandchildren and 2 great great grandchildren.

Former Resident Of Fort Passes

Mrs. Anne Pearce a resident of Alberta for more than 40 years died in the home of her daughter, Mrs. A. J. Hall of Edmonton, last Sunday, January 12th.

Mrs Pearce came to Edmonton with her husband, the late Bishop H. Pearce, in 1892. Her husband set up, under canvas, the first permanent Methodist church in Strathcona. Later she moved with her husband to Fort Saskatchewan where they lived for about 12 years before moving to Edmonton again about 1916.

Mrs. Pearce is survived by two daughters, Mrs. A. J. Hale of Edmonton and Mrs. Annie Wood of Ardrossan; three sons, F. W. Pearce, Thomas H. Pearce, of Ardrossan and Percy Pearce of Ardrossan; also 12 grandchildren and 23 great grandchildren. Her husband predeceased her in 1916.

Funeral services were held Wednesday at 2:00 p.m. in Howard and McArthur Funeral Chapel. Rev. F. H. Walton, Mr. Dennis officiated and interment took place in the family plot Fort Saskatchewan cemetery.

Ardrossan

The January meeting of the Ardrossan Guild was held at the home of Mrs. E. Hanlon. The members decided to carry on for another year holding meetings every two months unless urgent business made it necessary to meet oftener. The was the annual meeting and the following officers were elected: President, Mrs. T. Jackman; Vice President, Mrs. J. Hall; Secretary, Mrs. H. Maxwell; Treasurer, Mrs. S. McKay. It was decided to have whist drives later in the month which are to be announced.

The next meeting will be at the home of Mrs. J. Alexander on March 5.

* * *

It has been confirmed officially that the Ardrossan Hall has been sold and will soon be dismantled and hauled away. It would seem like a good time to revive the idea of building a new community hall for our young people.

* * *

A meeting will be held on Monday evening, January 20th at 8:00 p.m. in the Baker school to discuss the possibility of acquiring a new community hall. Everybody welcome.

Watch the Record for full plans and details.

* * *

Lloyd Hagen, son of Mr. and Mrs. Otto Degen is in hospital recovering from an appendix operation.

* * *

Mrs. Bill Opie is in Edmonton taking treatments. We wish each of you a speedy recovery.

* * *

The skating rink has been kept in top shape and we are glad to see so many from neighboring districts out to enjoy it. The regular skating has been cut at Sunday and Wednesday night.

North West Pig Starter

There is no time in a pig's life when it is as important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and stunted unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We require fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable as long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will bind it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

THOSE MEDICINE HATS ALL AND THANKS!"

There's great satisfaction in a job well done That satisfaction is immensified manyfold if the job is a humanitarian deed. The Red Cross, Spare Floor Mills of Canada, and CJCA are approaching such a consolation today as result of their efforts on behalf of true grief-stricken Britons—the Millers of Kansas, Alberta and the Mc-Naughtons of Ardrossan, in each case five round their homes, knowing them grief-stricken through loss of children.

Hal Varcoe, the "Uncle Hal" of the popular Spare Floor Mills Kiddies Program immediately launched a Five Pund campaign with all proceeds to be routed through the Red Cross. Hundreds of listeners, true their hearts, sent in nearly $2,000 in cash, plus two truckloads of supplies.

The campaign is now closed and we take the opportunity to convey thanks to all concerned by report during the letter Mr. Varcoe received from Mr. Miller:

"I never thought that people would go to all this trouble for myself and my family. My wife and I send you all our deepest thanks—deeper than you can imagine.

What I have to do now and with your help is to hope and pray that my wife and Jean will live to enjoy your wonderful gift. God bless you all, and thanks."

The gift to give is pure peace of heart, not a piece of your coat.

East Edmonton

The regular meeting of the Willing Workers' Club was held at the home of Mrs. Geo. Briggs on Wednesday, January 8th. A good attendance of members was reported.

Discussion of ways of raising funds took place.

Monthly whist drives will be held in the hall soon with Mrs. Hawkins and Mrs. Trumble as hostesses.

The next meeting of the club will be held at the home of Mrs. Schoffield.

Board of control of East Edmonton hall held their 2nd dance in the hall on Friday evening. A good attendance was on hand and everyone reports on an enjoyable evening. Proceeds raised will go towards making improvements in the hall.

A special meeting of the community was held at the hall January 9th. It was decided to buy 4 acres of land around the hall for recreational purposes from Mr. Watson. Ways and means of raising money for this project were discussed.

There will be a joint meeting of the school board and community in the school on January 22nd.

A report from the board of control on the progress made in raising money for purchase of land will be heard as one item of business.

Griesbach

During the year 1946 the Local held 12 meetings with 12 members on the roll call.

During the year:

Donations made	$ 60.75

Walker; Entertainment and visiting committee, Mrs. Melville, Mrs. Stockleton and Mr. Allenat; News Reporter, Mrs. Roy Shatleton; Delegate to the Calgary Convention, Mrs. M. J. Walker.

The U.F.W.A. will hold their next meeting at the home of Mrs. Stan Walker, Wednesday, January 22nd. Visitors and new members cordially invited.

BUTTER RATION TO STAY

There is to be no cut in the Canadian butter ration of 6 ounces per person per week, nor will there be any immediate increase in retail butter prices. This announcement was made Ottawa Cabinet last week. It was also indicated that if butter becomes scarce, supplies would be increased from surplus producing areas, possibly from

A Problem for Alberta

The newspaper reports from Edmonton of the meeting of the Alberta School teachers, during the Christmas holidays, should be a cause of concern to all parents in Alberta.

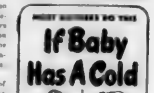
According to the figures given there is a shortage of approximately twenty three hundred teachers in this province and between eighteen and twenty per cent of the children are receiving little or no education by mail. This is a serious situation.

The reason for this shortage of teachers is obviously the small salaries which are paid the ladies for the purpose of a premium for same.

It is impossible to expect the municipalities to answer a larger share of the cost of education and therefore it is up to the government to shoulder the additional burden.

It is generally recognized that the progress of a nation depends upon the excellence of its educational facilities. This being the case there should be no argument as to where the duty of the government lies.

MOST MOTHERS DO THIS If Baby Has A Cold



AS SOON AS baby's throat, chest, back feels stuffy, rub on time-tested, mild, soothing action Vicks VAPORUB. Breathe in its medicated vapors. Direct-known VAPORUB relief. Then you can almost feel it working! Vicks VAPORUB goes to work instantly to relieve coughing, tightness, aching muscles. Its poultice-and-vapor action keeps on working for hours, even during sleep. No wonder most mothers rely on Vicks VAPORUB for cold stuffiness. Tonight, try Vicks VAPORUB

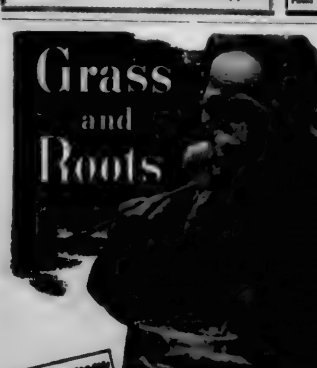
Grass and Roots



...the only food for him, and millions like him, in war-ravaged China

This old peasant, his farm devastated by the Japanese, is too weak to work. His diet for months has been grass and roots.

Of China's people, 85 per cent are farmers. Millions are in urgent need of food, clothing and supplies. UNRRA's work in ending voluntary contributions must carry on. Canada must do her share. Will YOU help?

China, a good neighbor and customer, will not forget.

Do it today!

In the above quoted figures lies the need for your gifts. TODAY send your gift to Canada Aid to China for DISTRIBUTION by the International Red Cross through the Red Cross Societies of war and famine.

This is the only sanctioned appeal for the needs in Canada within the same theatre where the free Chinese reside.

Be Generous! China, a Good Neighbor, calls to YOU!

CANADIAN AID TO CHINA

Make cheque payable to Canadian Aid to China and mail to Provincial or Local Headquarters, or to any Chartered Bank.

Total Education

Professor Louis Chatel, well known Canadian psychologist and member of the faculty members of the Education Department of the University of Montreal, was a key speaker at sessions of the Moral Re-Armament Assembly at Washington recently.

Professor Chatel said that "total education" was the only way of bringing total victory out of total war and insuring a permanent peace. "If a child were only developed religiously it would produce a bigot. If it were only to develop intellectually, we would have a snob. If there was only physical education we would have a brute. Total education must unify all these points."

He pointed out that while the discovery of the atomic bomb was a product of the scientific achievements of our universities, the answer must be produced in our education departments.

"Education," he said, "should aim at the formation of the whole man. As well as teaching people how to make a living it should also teach people how to live. The lack of this education of the child should begin at the marriage of the parents or even 20 years before. The best guarantee of changing the world is creating that atmosphere of harmony. The thing that interested me so much in MRA was that they said that you begin with yourself. I have interviewed thousands of people and they all come to me and say, 'Change the other fellow'."

Professor Chatel pointed out that under a democracy the family is responsible for the children. The state has not taken our children away from us yet, he said. To build into children the qualities necessary to make democracy work, Professor Chatel urged a greater emphasis on the teaching of moral standards. "Any history department can tell you that communist dominance has been the forerunner of the ruin of nations."

In teaching on his psychological and clinical work, Professor Chatel said "Materialistic psychology has done nothing but show the need for a spiritual answer for the difficulties produced in our daily life."

The United States winter wheat acreage for harvest in 1947 is estimated at 56 million acres, compared with 52 million acres last year and the 10 year average of 47 million. The out-turn from this acreage is forecast at 947 million bushels, which if realized will exceed the record 1946 crop by 75 million bushels.

Partridge Hill

Tales come and tales gone
And we hae feasted well
Mae Jock maent go bush to his fill
And Jenny to her wheel

So runs the old Scottish rhyme. And we come down to the good old custom of the commonplace, after the merry rounds of Christmas festivities.

Mrs. Keith Cranston of Red Deer and little daughter, Betty and son, Ronald returned home this week. They have spent the holidays with Mrs. Cranston parent's, Mr. and Mrs. Cliff Allen.

Misses Dorothy Attewell and Jessie Allen have been home over the Christmas recess. They returned to Vermilion School of Agriculture last Sunday.

Mrs. John Gordon was hostess to the W.A. last Thursday

Ted and Jack Donaldson and Art Jennings experience recently. While motoring out of one on Sesoma Lake their tractor broke through the ice almost completely submerging the machine.

There were some tense moments until with the aid of good neighbors and Lionel Bissett and Stuart Lawrence came to the rescue with their tractors. By putting skids under the tractor it was finally hauled to the surface and safety Thanks again fellows!

Mrs. C. M. Flintoff returned home Monday evening after spending the New Year's holiday with Edmonton friends.

Bingo, dancing, games and more were features when Mr. and Mrs. George Osbaldeston entertained recently at a Christmas party for about 30 members of the "town agers" We notice Bob Moore slashes a mean beef in his "hole" Agreement is being negotiated.

Community Club Annual Meeting, last Monday evening drew a full attendance of members. Reports showed receipts of $1000.00 and disbursements of $900.00 for the financial year.

Retiring president, Mrs. F. W. Osbaldeston retires treasurer.

The new slate of the executive for 1947, as follows

President, Vlad Lawrence; Vice President, Wilmot Allen; Secretary, Mrs. Morgan Allen; Treasurer, Ted Osbaldeston; Social Committee, Carl Krebs, John Fischer, Mrs. Harvey Lawrence, Mrs. Knox Lawrence; Ball Committee, Geo. Osbaldeston, Alf Frey, Arthur Krebs.

World of Wheat

BY W. G. L. STRANGE

Director "The Crop Testing Plan"

THE HON. MINISTER OF PEACE SECURITY

Throughout the world there seems to be at the moment a wave of thinking that governments somehow should provide "security" for all of us. In some countries attempts are being made to provide that security. In Britain, for instance, the government has guaranteed farmers set prices on certain farm products. In return, however, the farmers have had to give up to the government the entire supervision and control of their farming operations. Those farmers who in any way do not live up to the stringent government regulations may be heavily fined, or imprisoned. Others have had their farms taken from them. The first year under the new act was that of a farmer from Spalding Lincolnshire. Mr. Ralph Bither, who was fined £6,000 (or for some 6 acres of a certain crop more than the government regulations permitted (the carrying, weighing how long the newly-threshed grain from farmers will wait) or having their complete operations controlled and decided by the government.

What a heavyweight of hard-won liberty, wisdom and independence how little farmers have forfeited in this form of "security" of temporary price security!

One wonders what the British farmer will buy with their extra price one half as precious as the freedom and liberty they have given up.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The United States' flax seed crop is now estimated at 22,962,000 bushels, approximately 12 million bushels below the 1945 crop of 34,457,000 bushels.—A United Kingdom and Soviet Russia Trade Agreement is now being negotiated.

Attewell was given a hearty vote of appreciation for the fine leadership she had given. Mr. Alf Frey was retiring secretary, Mrs. Geo. Osbaldeston retiring treasurer.

LOOK- - "CASH IN" YOUR EMPTY BEER BOTTLES

The shortage of bottles is acute. In order to maintain the current supply, Brewers of Alberta request your co-operation in returning empties. Don't keep empty bottles around the house. Apart from making storage space, clear unwanted cash to you. Legion Notes

The regular monthly meeting of the Fort Saskatchewan Branch No. 27 of the Canadian Legion B.E.S.L. was held in the Club Rooms on the evening of the 7th January 1947, with 14 members present and 2 visitors.

Minutes of the last regular monthly meeting held on the 3rd December 1946 also the general meeting held on the 6th December 1946 were read and adopted.

The Financial Statement for the year 1946 was read and accepted.

A discussion took place in regards to taking care of our ex-Forces who are ill.

It was decided to send an open letter to the Provincial Press re stating that the Branch was at all times pleased to have an ex-of it of representative at our meetings also to give Honorary Cards to Comrades Adolphus Lamoureux, Alex Adamson and Vic Hilland, also to the Revs. Bentin and Rev. Comrade Raymond [illegible] brought up the question of obtaining a Service Station License for himself a: a point on Hi-way No. 15 where he had purchased approximately 5 acres, and it was decided that we should get further details in the matter before taking steps along those lines.

It was moved that election of officers be held at the next meeting.

Meetings

The Extension Service of the Department of Agriculture in conjunction with the Agricultural Service Board of the M.D. of Strathcona will hold a meeting at Brookville School on Friday, January 24 at 8:30 p.m.

Forage crops and topics of general interest will be discussed by R. J. Whitbread, District Agriculturist.

Tillage methods in general, including weed identification and control will be dealt with by M. L. Stetson, Field Supervisor, Agricultural Service Board.

Around the Town

Mrs. Wingfield left on Wednesday to spend a few days in Edmonton visiting her daughter and family.

* * *

Mr. and Mrs. Lee Hill had as their guest over the week-end Mr. Hill's sister, Mrs. Jules Tuba of [illegible].

* * *

Mr. and Mrs. Ken Robinson are receiving congratulations on the arrival of a son, Thomas Michael, born Sunday, January 19 in the General Hospital.

* * *

Also receiving congratulations on the birth of a boy are Mr. and Mrs. R. H. Price, newcomers to the town.

* * *

Mr. and Mrs. Ralph Eddy, who for the past two weeks have been visiting with Mr. Eddy's parents at Vermilion, returned home Monday night.

* * *

Gordon Magee returned from Rebach, Indiana, where he attended the funeral of his sister, Mrs. Young, who was killed in a car accident.

* * *

The first dance ever to be sponsored by the firemen of the Fort will be held on Friday, January 7.

The boys plan on making this an annual affair if this dance proves a success. Good music will be provided and they expect everyone to turn out and have a good time.

* * *

The regular monthly firemen's meeting was held Tuesday night with a good turnout. The boys went over all the equipment, getting further familiarize themselves with its operations. A short meeting was held after the practice.

* * *

The W. A. of the First United Church had the last year in their meeting at the home of Mrs. R. B. Smith. Mrs. Hewson, Press Secretary also gave a written report of the years activities.

* * *

Clark Reese Jr. had an exciting experience while trying to get out of the tracks through the river in his last week, however, with the assistance of several men and Mr. Hill with the big caterpillar, the truck was saved. Fortunately the water was only 2½ feet deep.

* * *

Mr. and Mrs. Henry Steinert, Mr. Art Walker, Mrs. L. Devereux and Mr. and Mrs. Ray Bowcott were among other members of the UFA and UFWA who attended the convention held at Mayerthorpe last week.

* * *

We are sorry to report that Mrs. C. Hall was taken to the Edmonton hospital last week-end.

* * *

Mrs. Ray Berry journeyed up to Mannifield on Saturday to handle with West Elk Island, but the match ended in more or less of a walk-up game. Great credit is due to the men of Mannifield for their indomitable will to have a rink and the result must be most gratifying to the promoters. No shorts has been allowed to stand in their way.

Former Resident S. Lamoureux Dies

The death occured last Thursday of Stanislaus Lamoureux a former resident of the Fort, Mr Lamoureux moved to McLellan a number of years ago and then moved back to Legal where he resided until he passed away. He leaves to mourn his loss four daughters, two sons and three brothers, Omer and Hores of the Fort and E. J. Lamoureux of St. Paul.

Jacobs-Parker Dance Well Attended

A gay and happy throng filled the Community Hall last Friday evening for the dance given by Albert Jacobs and Mr. C. G. Parker on and Sons, new owners of Jacobs Motors Ltd.

During the early part of the evening Mayor Magee welcomed a few words to these present and introduced Albert Jacobs.

After a few words of welcome, Albert thanked his many friends and customers for their patronage during his years in business and expressed the desire that these customers and friends would continue to patronize the new owners. He also stated that he plans to make his home here in the Fort.

Albert then introduced Mr. C. G. Parker who stated their aim is to continue to give the customers the same satisfaction and service as they have received in the past.

Mr. Parker is no stranger to many of the old timers of the district. He was stationed here with the R.C.M.P. prior to their being moved to the city.

Mr. Parker's two sons, who will manage the business here are both veterans of World War II.

Mr. Chas. Lowe was called to say a few word and he outlined the progress Albert made through out the years and of the co-operation he has given in any undertaking.

He concluded with a word to the ladies and deplored it was open season for them, due to Albert being a bachelor.

The ladies of the W.I. served the lunch provided by Mr Parker and [illegible].

O. Boisjoli Rink Victors in Spiel

The farmers turned out in full force for the Stampede held here last Saturday. One rink came from Bruderheim, two from Hilda and five from the Fort district.

After the first games were played the losers moved into the second round.

Ovid Boisjoli captured top honors by defeating A. H. Carscadden's rink in the final section and Bill Thomas won from Ed Underhill in the second section.

Prizes for these events were donated by the D. and J. Store, Harry deZeeuw, Banks and Lowe and Fort Meat Market.

Josephburg

"The harp that once through Tara's walls
The soul of music shed,
Now hangs as limp on Tara's walls
As if that soul were Dead."

So it is with the voice of Josephburg. Weeks the genre and kilocycle of the past few days have rendered the voice of the local rests, or whether a succession of visits from Black Cats has hypnotized their voices, we do not profess to know. Certain it is that these sable felines have accepted the course of the stage for a considerable share of its work—at Josephburg, at Bruderheim and at Partridge Hills—and even yet are not laid to rest. Who says Black Cats are not unlucky? May the witches fly away with them!—the cats, we mean.

* * *

Our hockey boys journeyed up to Mannifield on Saturday to tussle with West Elk Island, but the match ended in more or less of a walk-up game. Great credit is due to the men of Mannifield for their indomitable will to have a rink and the result must be most gratifying to the promoters. No shorts has been allowed to stand in their way.

Large Crowd Here For "Black Cats"

Residents of the Fort and district were treated to some very fine entertainment Wednesday evening when the Beaver Hills United Church staged their show "Black Cats" in the Community Hall.

The audience was kept in fits of laughter from start to finish with the take Henry Barbutt, played by Leo Piercy, and Mark Pemdexter, played by Chas Fisher, hold in try rag to entertain themselves out of trouble. They coupled with the fine performances each and everyone of the cast portrayed in the character [illegible] made the show one worth [illegible].

Mrs. Leo Piercy is to be congratulated on the splendid work she did in directing and coaching the players which enabled them to stage such a fine performance.

Piano duets by Mrs W D Rose and Mrs Henry Lamoureux and vocal solos by Rev W D Rose [illegible] entertainment. Miss Kae Ives solos were given by Malcolm MacCrimmon on the Bagpipes.

Mr. Ellis Hall was chairman for the evening.

Ypres Valley

The annual meeting of the Ypres Valley United Church was held at the home of Mr. and Mrs. Wm Goins on Thursday, January 16th, following the Ladies Aid meeting in the same house.

Mrs. Mayor was re-elected a delegate for three years. The other delegate are Mrs Fred Davies and Leo Dittrich. Carl Dittrich was chosen to represent Ypres Valley on the Rural Parsonage Trust Fund, and Mrs. Carl Dittrich was asked to attend the official board of the Fort Saskatchewan Pastoral Charge as the representative of the Ladies' Aid.

All financial obligations were reported met with a good balance in both Ladies' Aid and Board of Stewards treasuries. The full amount for the missionary and maintenance fund, $80.00, was paid and contributions had been made to the Pension Fund Capital Campaign of the United Church, the Religious Education Council of Alberta and the Associated Temperance Forces of Alberta.

Miss Hazel Ryan was assisted Rev. W. D. Rose with distribution of supplies for "Sunday school in the home" to 18 children in 8 families, and that this service is contemplated in 1947.

Partridge Hill

Last Wednesday evening the Glee Club sponsored a table tennis and chess tournament at the community hall Without Aiten was tops at table tennis and Mrs Wendy Attewell and Jim Kalak won 1st and 2nd at crokinole. Consolation prizes went to Doris Whitten and Annie Strachan.

* * *

George Pate of Derwent Creek is a visitor of his uncle, Mr. Bill Wilson.

* * *

On Tuesday evening, January 21st the congregation of Partridge Hill United Church held its annual meeting in the church. Rev. W. D. Rose was chairman, and Alfred Pace, secretary.

Church membership was reported to be increasing, and givings for all purposes had been increased. All money matters had been financed without difficulty ("without even putting on a supplementary basket", as one lady remarked with a sigh of relief). Worthy causes like the Bible Society and the Associated Temperance Forces had been remembered as usual, and the largest sums in

4 TO 2 FOR BREMNER

A good crowd was on hand to witness a very fast, furious, rough battle fought Tuesday, January 21 on home ice, between the Fort Hockey Team and Bremner, with the final score 4 to 2 for Bremner.

Right from start to finish there was a clash of sticks, bodies and most broken bats and reels from one goal to the other.

The Fort's two hard fought goals were made by T. Reade, unassisted and a Bremner, Gauthier and Smith combination.

The Fort Team tried hard to get them two badly needed scores, but all in all it was a good rough game to watch.

N. EDMONTON WIN FROM BREMNER

In the game played Thursday, January 16 between North Edmonton and Bremner the N. Edmonton team emerged the victors with a score of 3 to 1.

* * *

In the game between Calmar and Bremner, played January 15, the Calmar boys downed the host en and emerged with a victory of 4 to 1.

OLIVER TWISTERS VICTORS

In the Fort School House League, Oliver Twisters moved into first place when they beat Gauf's team 4 to 1, January 16. Plenty of action was seen through the game with two penalties being handed out.

Robertson opened the scoring early in the first period when he netted Gauf's only goal on a solo effort. Not long after Bugbeen went in to tie the score. Soon after the first period ended on a pass from Black to make it 2-1.

In the second period, shortly after G. O'Brien was tapped to the penalty box for boarding Westover, Oliver pushed in and made the score 3-1. Just as O'Brien was about to step back on the ice, Robertson got a penalty for tripping. Although the Beaf-men were shorthanded for another two minutes, Oliver's team could not score. Near the end of the period Black again set up Hughson who drove the puck for his sided lime to make it 4-1 for the Twisters.

There was no scoring in the third period.

Lady Luck is now with Oliver's gamblers who have come on resoundedly after a poor start with a few rough breaks. He could seems to be on the road to success, but he still has lots of opposition.

Former Resident Is Fatally Injured

Mrs. Myrtle Young, who before her marriage was Myrtle Magee, born and raised here in the Fort, was killed instantly on the morning of December 31st when the automobile she was driving and a truck collided on Lincoln highway just west of Valparaiso, U.S.A.

Mrs. Young died of a broken neck according to the coroner's report.

Mrs. Young's car, according to the truck driver, Georges Cecil of Fort Wayne, was travelling east and carrying no lights. As a result, he failed to see the car until it was impossible for him to stop before hitting it. Cecil told the coroner. The truck, loaded with 20,000 pounds of freight, locked bumpers with the automobile and pushed it 154 feet along the highway where it left the pavement and plowed through a field for a distance of nearly 300 feet.

Cecil voiced the opinion that Mrs. Young was driving very slowly at the time of the fatal crash.

His story, the coroner said was corroborated by another truck driver who witnessed the crash. Cecil was arrested and released on bond pending the inquest.

Mrs. Young is survived by a son Lorne, and daughters, Mrs. Doris Geib and Mrs. Eunice Murray.

United Church Annual Meeting

There was a fairly good attendance on Monday evening, January 20th when the First United Church held its annual meeting Rev. W. D. Rose was chairman and Miss Ruth Shackleton, secretary.

Reports of 1946 activities were presented by the following persons: Reports, Rev. W. D. Rose; W.M.S., Mrs. A. A. Willston; Mission Band, Cecil Thorne; C.G.I.T., Maureen Stannard; W.A., Mrs. H. M. Hewson and Mrs. C. F. Lowe; Sunday School, Mrs. L. O'Brien; Cradle Roll, Miss Shackleton (for Mrs. A. A. Black); Board of Stewards, Miss Shackleton; Building Fund, Miss Shackleton. Mr Rose also reported on the pledges to the Missionary and Maintenance Fund and the Associated Temperance Forces, All departments reported an excellent financial year, and a healthy degree of accomplishment, except that a projected campaign for the Building Fund had been postponed by unfavorable autumn conditions. It will be proceeded with in the spring, and all possible progress made during 1947 on the question of the actual erection of the new church. Each organization has also, and to name one person for a com-

Scarlet Fever Cases Reported in Fort

One more in the Fort School was closed Monday for one week due to a few cases of scarlet fever being reported. Although this epidemic is not serious it was thought advisable to do this as a safety measure.

Dr. Simmons and a staff from the Edmonton Rural Health District, to which the Fort School now belongs, were here on Monday to give immunizations to the school children.

Dr Simmons stated that a staff from the Rural Health District would be at the Fort every Monday morning at 10 o'clock for the next five weeks and invites parents to bring their children of 4 months and over to be immunized against Scarlet Fever, Diptheria, Whooping Cough and Small Pox.

Bride Honored At Shower Here

In honor of Mrs. Henry Wensley (nee Ruth Crandall) Miss Jean O'Brien, assisted by her mother, Mrs. Logan O'Brien and Mrs. Rhyner Lorenz, entertained at a miscellaneous shower Saturday evening, January 18th.

Games for the guests had enjoyed a number of appropriate games with advice to the bride, the guest of honor was then led to a vividly decorated basket where to her surprise she found the trusti ional the time of the final event.

His story, the coroner said was corroborated by another truck driver who witnessed the crash. Cecil was arrested and released on bond pending the inquest.

Mrs Young is survived by a son Lorne, and daughters, Mrs. Doris Geib and Mrs. Eunice Murray.

School Flashes

There are many stand-offish students this week as the results of the visit of some members of the Health Unit, have been reported for control these and other diseases.

* * *

The P.S.A. Lab was the scene of an important meeting on January 17 The first meeting of the Year Book Staff was in the form of a discussion. We hope that the book will live up to the expectations of everyone. The students have the opportunity to help the staff by handing in original designs for our new cover.

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, anemia, rough hair and general unthriftiness, does not occur when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We receive fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting is equally acceptable so long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any suitable alfalfa you have for sale. The quantity, location and whether you will bend it yourself. Loose hay is preferred to baled hay but either is acceptable. We can arrange for trucks if required.

« Recipes for Milady »

It has been a good year in the orchard and garden. Now the ground is snow-covered and the shopping trips make a lazy pattern against the cold blue sky. There are constant reminders of the warmth and plenty of summer in the cellars and store rooms of the home across the country.

Since rooms are well filled with vegetables, and in the cellar, bins of root vegetables and barrels of apples are ready for winter service.

For the first time in three years the housewife need not hesitate in planning desserts, for apples can be used in so many ways. There may appear to be a catch in the situation. Apples, do require some sugar but the home economists of the Consumer Section of the Dominion Department of Agriculture have devised recipes for dishes which taste good and use a minimum amount of sugar. None of the desserts require more than ½ cup of sugar for six servings. This includes a number of excellent apple recipes.

The bulletin called "Sugar Savers", has been revised and may be obtained free of charge from the Publicity and Extension Division, Dominion Department of Agriculture. Here are some of the apple [illegible].

N B B

GINGER APPLE UPSIDE-DOWN CAKE

2 tablespoons butter
1 ½ cup brown sugar
4 apples
¼ cup shortening
3 tablespoons white sugar
1 egg
1 ½ cup molasses
1 cup pastry flour OR 1 cup less 3 tablespoons all-purpose flour
1 teaspoon baking powder
½ teaspoon soda
½ teaspoon salt
1 teaspoon ginger
½ teaspoon cinnamon
1/3 cup boiling water

Melt the 2 tablespoons butter in baking dish. Add brown sugar and cook together for 2 or 3 minutes. Pare and core apples. Cut each apple in half to make two thick rings. Arrange rings of apples in butter and sugar mixture. Cream shortening and sugar together. Add well-beaten egg and molasses. Beat thoroughly. Sift dry ingredients and add to mixture. Lastly add boiling water, mixing quickly. Pour over apples in baking dish and bake in a moderately slow oven, 325 degrees F., approximately 60 minutes, or until done. Six servings.

N B B

BUTTERSCOTCH APPLE PIE

¾ cup brown sugar
6 to 8 medium apples
2 tablespoons brown sugar
2 tablespoons shortening (half butter)
1 tablespoon flour
½ cup cream

Short pastry for 2 crust pie

Sprinkle the ¾ cup brown sugar over the bottom of the uncooked pie shell. Peel apples and slice thinly, fill the pie shell heaping apples slightly in the centre. Cream the 2 tablespoons brown sugar with the shortening and the flour until well blended. Crumble the mixture over the top of the apples. Pour the milk into the pie and bake in a hot oven, 400 degrees F., until top is brown and apples are tender, about 45 minutes. Cool and serve. Makes 1 deep 9-inch pie.

N B B

SPICED FARINA PUDDING

¼ cup farina
¼ cup sugar
¼ teaspoon salt
2 teaspoons cinnamon
1 tablespoon cornstarch
4 cups milk
1 cup apples, sliced in ¼ inch pieces

Mix farina, sugar, salt, cinnamon and cornstarch. Add milk and cook, stirring constantly, until mixture thickens, about 5 minutes. Place over hot water. Heat well with rotary egg beater. Add apple and continue cooking 20 minutes, uncovered, stirring gently 2 or 3 times during cooking. Serve hot or cold with cream. The pudding is quite firm when cold. Six servings.

Self-importance is contemptuous.

Choruses and story for the children. Come and bring your family. Everybody welcome.

"Come now, and let us reason together." Isa. 1: 18. Pastor Brumpelli, E. A. Babcock.

Q. If one is fortunately unable to go away for treatment, should he continue in bed on the porch, provided he has the preference to remaining in a room heated by a stove?

A. It is important to have an interchange of air and in all probability this is best, gotten out of doors. However, I think it is better for a patient to be in a well ventilated room and comfortable than to be out of doors and uncomfortable, especially when it is necessary to use heavy clothing to keep warm.

N B B

Q. Would a sleeping bag be injurious to one who has tuberculosis, if he sleeps on an open porch?

A. No.

Imports of Mexican cattle into the United States have been banned because of the outbreak of foot and mouth disease in Mexico.

Will You be There?

On Friday evening, January 31st, at 8:00 p.m. the Annual Ratepayers meeting will be held in the Fort Community Hall. and it is the duty of every ratepayer to attend and take an interest in the town's affairs.

In the past these meeting have been very poorly attended, and do not offer much encouragement to your councilmen and school board members who spend a great deal of time on your behalf, and without renumeration, to carry out the business of the town and school.

Information regarding the installation of gas in the Fort will in all probability be available, also the council are endeavouring to get further particulars on the sewage and water [illegible].

This meeting is one way in which ratepayers can express their thoughts and let the council know what they expect of them in the way of town improvements, services, and in conducting the business of the town.

Will You be there?

Give the School Children a Fair Break

All the signs are pointing to a big debate on education while the Legislature is sitting. And all the signs indicate that the Minister of Education will tell us there is not enough money to give the school children a fair break.

Without criticising anybody's personal tastes, I think it fair to report that the people of Alberta can find $30,000,000 a year to pay for hard liquor, wines, beer and permits in a single year. According to the Alberta Educational Council they can find something like $18,000,000 a year to pay for cigars, cigarettes and tobacco. So far they can only find $14,000,000 to spend on educating their children.

It does not make sense. The minister can give us almost any argument he likes about the collapse of education, but we ask him please not to tell us again that we haven't the money.

Education Standard at Lowest Point in 25 Years

When are we going to scrap this new system of "supervisors" that is creeping into our rural schools. Nobody wants to speak unkindly about the young boys and girls who are taking care of the schools and the pupils during this disastrous teacher-famine; but it must be realised that they are quite untrained, and no more use as teachers than they would be as stenographers without training. There isn't a business man in our cities who would hire an untrained grade 10 girl as a stenographer. It would be the height of stupidity. So why should we continue to exercise the same degree of stupidity in the management of our schools and the instruction of our children?

Does the government realise that education has never fallen as low as this in 25 years? In the last post-war period we were able to get a thousand students into our Normal Schools. We can't do it today. Get at the underlying causes and remove them, before a bad mess gets worse.

Canadian Aid to China Fund

If you can give a dollar, and keep it working over and over again for the cause you wish to serve, you have accomplished something extra worth while.

That is what is going to happen with many of the dollars which Canadians are now being asked to contribute to the Canadian Aid to China Fund. Objective of the campaign is $1,000,000, and of this amount a considerable portion is earmarked for "constructive relief loans" in China. Here is how they work out:

The money is loaned to individuals, or to groups of people. It is both loaned and repaid in wheat or rice, with interest paid in the same terms, but at rates only a quarter or so of the bank rates, and on risks that the banks would be unwilling to take no matter how worthy the recipients. This money may not all be possible to collect later in repayment to the Canadian Aid to China Fund. There may be additional crop failures. But when it can be repaid, it will be repaid. The Chinese are a proud and hard-working people. And the repayments will be used as a permanent retaining relief fund to relieve emergency elsewhere it may occur in the immense country of China.

Thus the contribution—your contribution—keeps on and on. The person who gets a loan is not pauperized, and he will be eternally grateful for the helping-hand—your helping-hand—which lifted him over a rough, tough spot.

World of Wheat Profit in Early Chicks

By E. G. L. STRANGE
Director "The Crop Testing Plan"

UNDER SEED EARLY

Early [illegible] is the [illegible] wise this same little message. I will repeat it because I know it's to [illegible] received that [illegible] annual reminder does seem to [illegible] a number of farmers. The message is this: Order your supply of [illegible] ahead and Certified [illegible] as quickly as possible.

For the last three years supplies have been short. Many farmers who ordered their seed late in the season were actually [illegible] and so handicapped in their farm [illegible] operations because the seed growers' supplies of good seed were exhausted. There are always unexpected hazards with good seed. At the last moment, even when seed has been promised to be delivered, the crop may not [illegible] pass government inspection perhaps because of low germination, or because of a slight trace of weed seeds or of other grains that cannot be removed by cleaning, often then it is too late to secure other seed. The remedy, then, is to order seed early; and then, if anything happens, there is still a chance to purchase other supplies. I do not believe there is any investment a farmer can make that will bring him more profitable returns than the purchase of a few bushels of the best Registered or Certified seed, sown each year on a few acres of new breaking or clean summerfallow.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Rumania's wheat crop is officially estimated at 70 million bushels, hardly sufficient to meet domestic requirements after repaying the loan of wheat from Russia—

According to recent reports there was little possibility of famine in Hongkong, India during 1947. Some rice will be needed, but wheat and corn are not expected to be required.

Portugal's 1946 wheat production is now estimated at 10,000,000 bushels, compared with 10,300,000 bushels produced in 1945, and the pre-war average of 16,000,000 bushels—Private estimates now place Argentina's corn acreage at 11,000,000 acres, of which approximately 8,700,000 acres will probably be harvested. Production is estimated at 270 million bushels, double last year's production of 125 million bushels.

Profit in Early Chicks

During the past six years the Canadian poultry industry has [illegible] position as export [illegible] of [illegible] eggs, and [illegible] of [illegible] eggs arrive [illegible] fall and winter months [illegible] of guaranteeing [illegible] supply [illegible] consistent [illegible] of Agriculture advises [illegible] producers make every effort to supply eggs when the [illegible] Great Britain needs them. It does not do this it will be necessary for poultry raisers to have their chicks earlier than has been customary in the past [illegible] them during the months of January, February or March, so as to produce the necessary quantities of eggs to meet contract requirements.

This is nothing impossible, says the Department, about carrying out the advanced program. It does, however, present a definite challenge to the poultry industry and for success requires the co-operation of everyone engaged in it.

Producing a higher percentage of eggs in the fall assures better [illegible] and [illegible] chicks. Early hatched chicks develop more uniformly, have greater vigor than late hatched chicks, and rearing is easier with less mortality and fewer culls. To raise good early chicks, good management and good brooder equipment are necessary.

Producers are urged not to buy more chicks than their brooder houses can brood properly. Overcrowding results in poor chicks and heavy culling. A brooder house 10 feet by 12 feet should not be expected to carry more than 300 chicks for good results.

Well managed early chicks produce more eggs in the fall when prices are higher.

The buying of early chicks to produce early fall and winter eggs will help to strengthen and retain Canada's future export markets.

BATTLELINES

A realistic campaign is being fought to raise the [illegible] which have and the United States. The main engineers of this campaign, determined at any cost to split Britain and American apart, are those who are also trying to foment an anti-semitic ideology on the world. British-American unity can be the strongest and defending moral and spiritual culture against the encouraging tide of godless materialism. And, if these two countries are separated, then the whole conception of Christian freedom may vanish from the earth.

But the real threat to democracy comes from within, not without. For democracy is not a mere system of votes, committees or politics. It is a way of life. Freedom is possible only when millions of people think and live selflessly for their community rather than out [illegible]

[illegible] being raised from early hatched chicks. Early hatched chicks develop more uniformity, have greater vigor than late hatched chicks, and rearing is easier with less mortality and fewer culls. To raise good early chicks, good management and good brooder equipment are necessary.

Producers are urged not to buy more chicks than their brooder houses can brood properly. Overcrowding results in poor chicks and heavy culling. A brooder house 10 feet by 12 feet should not be expected to carry more than 300 chicks for good results.

Well managed early chicks produce more eggs in the fall when prices are higher.

The buying of early chicks to produce early fall and winter eggs will help to strengthen and retain Canada's future export markets.

NOTICE
Of Annual Meeting Of Electors
PUBLIC NOTICE is hereby given that a Meeting of the Electors of the Town of Fort Saskatchewan and Fort Saskatchewan P.S.D. 91, will be held in the
Community Hall on Friday, the 31st day of January, 1947
at Eight o'clock p.m., for the purpose of receiving the Report of the Mayor, Secretary-Treasurer, Auditor and Chairman of the various Committees of Council for the year ending thirty-first day of December, 1946.
Dated at Fort Saskatchewan this 16th day of January, 1947.
LEONARD BROWNE,
Secretary-Treasurer.

Auditor's Financial Statement for Town of Fort Saskatchewan

For Year Ending December 31st, 1946

TOWN OF FORT SASKATCHEWAN, ALBERTA
AUDITOR'S FINANCIAL STATEMENT

ASSISTANT-TREASURER'S CERTIFICATE

The information contained in this Report is as shown by the Books and Records of the Town, from any own observation, or obtained from other officials of the Town—and all of which I certify to be true and correct according to the best of my knowledge and belief, and in agreement with the Auditor's report where necessary.

Dated January 10th, 1947. Leonard Brown, Secretary-Treasurer.

Annual Meeting to be Held Friday, January 31st, at 8:00 p.m. in the Community Hall

DAWN WILL COME

By R. J. Deachman

I am taking a bet that dawn will come in the matter of labor relations and that before long. The signs point that way. The remarks of John L. Lewis has had a salutary effect upon the public mind. When a man ravishes a position where he can turn off the lights of the nation and do it in defiance of the government and then announces opinion will assert itself, and that man's power for evil will exist no more.

There is a growing impression that the battle between labor and capital has lasted long enough. It is in danger of upsetting the entire economy it may establish an upward spiral in prices and bring about a collapse of industry and commerce such as we had after the panic of 1929.

There is a chance that labor may halt in its mad march. There is the prospect too that parliamentary institutions may be a little more careful in the legislation they pass. What value is a widely advertised crusade against trusts and combines while we endow one section of the community, and most perhaps, with the power to exercise an authority which no combine or trust would dare to exercise.

In world, of course, it is totally impossible to believe that industry was always in the right. The bitterness of thought and action which has characterized labor in the last year or two cannot fail to bring a corresponding reaction on the part of both parties. The consumers, the people as a whole, have rights in these matters. Looking at it from the economic standpoint the right of the consumer is paramount. On his capacity to buy depends the commercial and industrial prosperity of the nation.

There comes a flash of this larger point of view from the remark of the president of the National Association of Manufacturers, in the USA. I attended their annual meeting in New York in the autumn of 1946 and thought then they were, if anything, a little too hard boiled.

There was too much assertion of a right which they deemed to be theirs and too little consideration of the interests of the nation as a whole.

"The constitution" claims the New York Times, "made, at its recent convention, a public profession of faith in the American economic system of free competition and individual private enterprise." There is no reason why it should not. The last seven years of industrial history prove its capacity to produce. The Times goes on to say "If (the N.A.M.) made a public confession of error in failing to live up to its official responsibilities in the past and in resting content with mere opposition to the new deal instead of offering a positive constructive program . . . it has now made a public offer of peace and an appeal for co-operation to organized labor and progressive groups in the hope of checking inflation and deflation, preventing another major depression and achieving team work for sound sustained prosperity.

A P P E A L

Here then is the road for the future. It will not be easy. All three parties, capital, labor and consumer, have something to learn. Labor must realize that the basis of progress lies in increased production. Too long has labor acted as if progress consisted in running up wage rates regardless of the economic effect. That is the moral highway to unemployment. Capital must lead the way by a move towards lower prices, higher values. How is this to be done? It will require further mechanization, more capital investment. That can come only if there is a reasonable prospect of fair profits to investors.

Can we solve our difficulties by raising costs, making goods, dear? The whole problem, or at least the major part of it, calls for the distribution of higher income through price reductions rather than wage increases. By this means every section of the community will be enriched.

I, John A. MacIver do hereby certify that I have examined all the Books, Vouchers, Minutes of Meetings, etc. of the Fort Saskatchewan School District No. 31 of the Province of Alberta for the year ending December 31, 1946, and that I have found Vouchers and legal authorization for all of the Items, and I further certify that I have counted the cash on hand and have examined the Bank Books or obtained information from the Bank regarding the Bank Balance, showing there to a balance on hand amounting to $1,494.10, represented by:

Actual Cash on Hand $25.00—Actual Balance in Bank $1,469.10
—The outstanding cheques total $600.00.

I further hereby declare in my opinion the foregoing Financial Statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the School District, according to the best of my information, the explanations given to me, and as shown by the records of the District.

J. A. MacIver, C.A., Auditor. 501-2-4 Bank of Toronto Bldg., Edmonton, Alberta.
Date of Audit January 11th, 1947.

Quick Relief Head Colds!
Sniffly, stuffy head colds, runny nose? Dozens of head colds starve to relief the moment you put a few drops of Va-tro-nol up each nostril. Soothing, refreshing, antiseptic vapors relieve congestion, shrink swollen membranes, help you breathe freely. Helps prevent many colds developing if used at first sneeze or sniffle. Follow directions in folder.
Va-tro-nol
VICKS VA-TRO-NOL

Agricultural Service Board

The Secretary,
M.D. of Strathcona No. 20,
South Edmonton, Alberta.

Dear Sir:

Pests are fast becoming one of the major problems of Alberta farmers and weed control measures one of the important topics of discussion in all areas.

With this in mind we have organized a company, Weed and Insect Killers Limited, that will conduct a custom spraying service for weed and insect control through Alberta.

We are now lining up these districts interested in weed control. The product (2,4-D) and method has been tested and recommended as the most efficient yet devised to eliminate certain weeds. We guarantee to kill Wild Mustard, Dandelions, Sweet Clover, and to control the spread of Canada Thistle, Hoary Cress, Willows and many other broad leaved plants. We spray the growing crops with little or no adverse effect on grain or grass.

Our rate is $2.00 per acre for spraying cropped land with 2-4D and $10.00 per mile for spraying road allowances, (both sides of road). These prices include all charges, we supply material, labor and machines.

The road spraying service should be especially acceptable to you. It is cheaper and more efficient than most previous methods of weed control, and will demonstrate to your taxpayers that you are doing your best to overcome the weed menace.

The service is open to all districts of Alberta but the number of customers is limited therefore we urge you to contact this letter and advise us as soon as possible how interested you are in having one or more of our machines operate in your district either for spraying municipal property or for spraying individual farms for weed control.

The service will eliminate the necessity of your investing money in expensive machinery until we have demonstrated what can be accomplished and what type of equipment is most economical and efficient.

An early reply to Weed and Insect Killers Limited, 1440-32 Ave. E.W., Calgary will be appreciated.

C. L. Patterson.

Farmers interested in this service are asked to get in touch with the Municipal District office of Strathcona No. 20, South Edmonton, as soon as possible.

People take heed when you give them yours.

ALSIKE CLOVER

Production of alsike clover seed in Canada in 1946 was 7,712,000 pounds, 1,540,000 less than in 1945, and was not enough to meet both domestic and export requirements, Canada is the chief exporting country of alsike clover seed and this season, when world requirements are large, the supply is a considerable unknown. The potential export demand for this seed would appear to justify increased production in 1947.

I suggest you throw out your cash basis and go see Baron Motors!! I'm sure they could recommend many ways to eliminate carbon!

JUDGES PICK ALBERTA WINNERS

Trade experts who know requirements of good barley in the inspection rooms of the Board of Grain Commissioners at Winnipeg on December 31 picked out samples of 20 Alberta farmers as the best entries from their Province in the $50,000 National Barley Contest sponsored by the Brewing and Malting Industries of Canada. Four more picked as Provincial winners in the contest will be awarded cash prizes in their Province. In all they took $2,555 of the prize money. Best sample of Alberta Malting Barley in 1946 was grown by George W Johnson, Red Deer, awarded $600. The other three Provincial winners were Ted Casement, Legal, $300; Louis St. Armand, Vimy, $200; and Ray Niemela, Rosalie, $100. Left to right in the picture is Johnston, A C Wilson Edmonton, Alberta Field Crops Commissioner; Prof A G McCalla, head of Plant Science Division, University of Alberta; F S Ludlam, Winnipeg Chief Inspector Board of Grain Commissioners, J E Blackmman Winnipeg, District Inspector Board of Canadian Department of Agriculture; Prof Stanley Division. A T Ehrle Canada Malting Co. Winnipeg. Missing from the picnic is D S Kaufman, Dominion Malting Co. in front of judges is Prof T J Harrison, Chairman of the National Barley Contest Committee. The Alberta Provincial Championships are contenders in the four provincial Contest, which carries four cash of $2,000, $600, $300, and $200. These will be determined at the Manitoba Winter Fair at Brandon the week of March 31

35 Awards to Farmers in Alberta

Thirty-five Alberta farmers won $6,555 of the prize money in the $50,000 National Barley Contest sponsored by the Brewing and Malting Industries of Canada.

The provincial championship for growing Alberta's best sample of malting barley in 1946 went to George W. Johnson, Red Deer, who was awarded $600. There were four provincial prizes. Second, third and fourth place awards went to Ted Casement, Legal, $300; Louis St. Armand, Vimy, $200; and Ray Niemela, Rosalie, $100.

All four provincial winners also won regional prizes for growing high quality barley in their districts. Mr. Johnson placed first in Region Four and Mr. Casement in Region One for which they got an additional $1.00. Mr. St. Armand was named in Region One and Mr. Niemela in Region Four for which they each received $150. Three prizes were in addition to their provincial prizes.

All four provincial winners like-wise are contenders in the four provincial contest which carries prizes of $2,000, $600, $300 and $200. These will be awarded at the Manitoba Winter Fair in Brandon the week of March 31st.

For purpose of the contest Alberta was divided into four regions. In each region there were 10 cash prizes starting with $300 for first place and graduated down to $40 for 10th place, in Region Two only five prizes were given because the number of entries was insufficient to justify ten. The regional winners were:

Region One—Ted Casement, Legal; Louis St. Armand, Vimy; E. J. Vanderhoef, Fort Saskatchewan; Paul E. Lavoie, Pickardville; Lochaven, Vimy; E. S. Fraser, Boyle; Minny Bros., Athabasca; Thomas McKitty, Westlock; Joseph Krauskopf, Morinville.

Region Two—Only five prizes awarded—Jos Hladik, Waskatenau; Peter Melnyk, Waseglis; Jos Hladik, Waseglis; E. A. Bailie, Mundare; Elmer F. Casebolt, Waskatenau.

Region Three—Edward Krupa, Wostenkivin; Bruno Czopiky; Gerald Hoppins, Region No. 3; A. Hansman; Theo Schubert, Sangudo; Adrian deBoer, New Norway; John P. Ingram, Sangudo; Bernard Hubbard, Canoe; Edmund Mann, Leduc; Carl Jensen, Calmar; Karel Hladik, Canoe.

Region Four—George W. Johnson, Red Deer; Ray Niemela, Rosalie; John George Hassbling, Hillsquare; Robert T. Calling, Day Post; Neil M. Hansen, Innisfail; Andrew Offlan, Olsteins; Jack Demeney, Red Deer; Wesley Hendricks, Bowden; Walter C. Johnson, Innisfail; William Aldred, Consfield.

WORLD HUNGER

Even before the war more than half the population of the world was underfed, according to a survey by the United Nations' Food and Agriculture Organization finds.

To provide food enough to maintain everyone in normal health the survey estimates that there must be a 150 per cent increase in the world's milk supply, 40 per cent increase in meat, and 160 per cent increase in fruits and vegetables.

Seeding Rates For Cereal Grains

There are several factors which influence the rate of seeding of cereal grains on the prairies. Among the most important are amount of fertilization of subsoil, summer heat, hot winds and soil type.

This means that each farm has its own set of conditions, depending considerably on its location.

Information from experiments carried on at the Dominion Experimental Station, Scott, Sask., over the last thirteen years, on rates of seeding wheat, oats and barley on both summerfallow and stubble indicate the following rates of seeding to be the most satisfactory over a period of years in this area:

Wheat—On summerfallow: Commercial fertilizer used 1-1¼ lbs. per acre; No fertilizer used 1-1½ lbs. per acre. On stubble: 1½-1¾ bus. per acre.

Oats—On summerfallow: 1½-2 bus. per acre; 1¾-2½ bus. per acre. On stubble: 2-2½ bus. per acre. On stubble: 1-1½ bus. per acre.

The lower rates appear to be more satisfactory when the moisture supply is low and on the light or textured soils. Heavier rates would appear to be advisable under the following conditions: abundant moisture reserve, heavier type soils, the presence of wireworms, seed of low germination, weed infestation, and danger of early fall frosts. In the case of early frosts heavier rates of seeding tend to hasten maturity, and combined with the use of commercial fertilizer may hasten maturity considerably.

As a general rule, when commercial fertilizers are used, increased seeding rates are justified, within the use of less seed per acre. The lighter rates appear to be more suitable for medium or heavier soils and where, as a rule, there is less moisture reserve than on summerfallow.

PASTURE MIXTURES

Lacoma - level: Fairway Crested Wheatgrass, 3 lbs., Ladak Alfalfa 2 lbs. Total 10 lbs.

Lacoma - rolling: Fairway Crested Wheatgrass, 4 lbs., Common or Portland Brome, 4 lbs., Ladak Alfalfa, 2 lbs. Total 12 lbs.

Clay loams and clay, level and rolling: Fairway Crested Wheatgrass 3 lbs., Common or Portland Brome 2 lbs., Slender Wheatgrass 2 lbs., Ladak Alfalfa 2 lbs. Total 13 lbs.

Common yellow sweet clover may be used instead of Ladak Alfalfa but it should be remembered that sweet clover is a biennial and 50% of it will remain in the pasture after the first crop year. Moreover, the productivity of the pasture remains at a higher level than where grasses are seeded alone and it is generally agreed that a stand of sweetclover may persist from nineteen to seven.

1945 SEED PRODUCTION

Crop production for 1945 is estimated at 341 million dozens eggs, is about 39 million dozens below 1945. This decrease in production, together with the high domestic consumption, reduces it temporarily to 3% completely the present contract with Britain, says the Canada Bureau of Agricultural Economics in Canada. Shipment will be about 60 million dozens, which is 20 million short of the 80 million called for in the contract.

Book Appreciation by Fort Student

The following is a book appreciation on Charles Kingsley's "Westward-Ho" by Alice Tree, a Grade V student.

On reading Charles Kingsley's "Westward-Ho" the first thing that strikes you when you begin is Charles Kingsley's great power for portraying scenes. His description is just full enough to give a perfect picture, but not become boring. He confines himself in type living English scenes, salt, sweat, and sea-drenched. In one part, he says, quote, "He he goes up he comes the rush lame-bonds, heavy with drooping forms and heavy-manke, and out upon the windy down toward Dawn, smiled amid its ring of wind-clipt sahs." It is in scenes like that, that you are transported out of our own little troubled world into sea of sweet tranquility.

If you are a nature lover or have the wanderlust, this book is just the one for you. However, there is a bit of the grotesque and occult mixed in, in fact, enough to satisfy even the more bloodthirsty of readers.

The story depicts a continuous struggle between England and Spain, Catholics and Protestants —the Catholics, of course, being shown in much the worst light since the book is English Protestant in character.

The minds of the men in the story work on a thoroughly disgusting angle. Each man hates his fellow, simply because he is of a different religion or race. This glowing ember of hatred soon among both groups bursts into terrible conflagration committed on both sides, each one saying that they go to fight for freedom and the true religion. Then they meet. Ah! God's people right and left. Is that doing any good? No. They are all under the single sovereign power, they all worship Him. Why, then, should they wage war over the minor details in which they differ? Still, there is no denying that this is a fact. In fact, in the book, they go to the extreme of whipping out their swords and challenging passers-by who look as though they may be of the other race or creed.

The story, laid in Queen Elizabeth's age, has famous adventurers lurking in every corner. It has however, something very different about it as I have shown. Other books about that period were filled with women's names unknown, and good down to earth things in this book, the lust for gold has its right, and they set out for some treasure to bring to Elizabeth's golden city. Good following is to be served with gold It presents a good way to learn some of the hardships the old explorers had to undergo. Also there is an exciting description of the sinking of the galleon Rosario, and many other historical events, all adding interest to the plot.

The horrors of the inquisition was much like those performed in Nazi concentration camps in World War II it makes you sick to read of the tortures one group inflicts upon another, and to think these same crimes have been committed through the years up until now

Truly, the story gives you much food for thought, besides excellent entertainment.

We can't reach common ground by throwing mud.

"YOUR HEALTH"

Department of National Health and Welfare

EXPOSURE TO COLD

There is a valuable health-giving power in the sun, and, when weather permits, sunbathing under proper conditions is most beneficial. Health authorities point out that when the weather makes sunbathing inadvisable or even impossible, you may still get a "Sunshine Vitamin" from food.

Such foods as milk cheese and fish supply it, and, where the family doctor considers them necessary, cod liver oil is advisable, a fish oil should be included in the diet.

HEALTHY ELS

It is not healthful to sit around inside wearing those woollen pyjamas had to wear in the cold outside. Women appreciate this. Health authorities at Ottawa suggest that a heavy, warm clothing be reserved for the outdoors. Wearing the same thick things indoors favors chills, which lower resistance and

HEALTH TALKS

In parts of Canada where soil and water do not supply adequate mineral salt, it is advisable to fortify the diet with iodized salt.

National practitioners have the local deficiencies and those who would secure health will ask the family doctor for advice in this, as in other health matters.

HEALTH GAME

A game entitled "Eat Right—Health First" is available for health education in Canada, particularly for schools. It is based on Canada's Food Rules and provides entertainment as well as instruction.

The games are obtainable through Provincial Health departments and local Health Units.

DENTAL DEFECTS

Dental defects are not only decided health hazards, but dental disease contracted in childhood age is later life. This damage is permanent since, unlike other body tissues, teeth cannot repair themselves once decay sets in.

Early correction of defects is the best method of conserving dental human. The oral cavity is easily examined and repairs readily to treatment. Yet, ironically enough, decay in the case with what dental defects may be remedied, there are still thousands of dentally neglected children.

CAMP FOR CURE

A camp of three hundred people was established in Alberta in connection with a V.A plan of the Alberta Department of Health in cooperation with federal government departments

As a syphilis-control measure, Alberta hopes the population north of Lesser Slave Lake and concentrated under canvas all those found with the disease. There the sufferer was given complete courses of treatment.

HUTTING HEALTH

Costly foods aren't necessarily the best foods This was proven by survey conducting food values.

The Nutrition Division of the Department of National Health and Welfare has prepared a book on Canada's Food Rules" and includes a diet for various age-groups in a typical family of 5. From these a normal, healthful diet may be made out, with prices indicated. The total, based on Ottawa and Montreal prices of the time, was $23.58.

What I thought - and nutrition meals pay dividends.

Red River Barn Dance

Part of the happy stock audience of CBC's Winnipeg bandmaster-ers can be seen in this picture taken during a rehearsal of the CBC's Red River Barn Dance program. Performers have been promised at the number of people coming from all of town to visit the Barn Dance. In the picture: Doris Lorenz, (Lovesay Sacred) is at the mike Pete Costora can be just glimpsed behind him and in the background are Tommy Thomson, announcer; Wilf Davidson, baritone, and Lucy Rae Miller, cowgirl soloist

IMPORTANT GOVERNMENT NOTICE
Respecting Price Control

The Wartime Prices and Trade Regulations (Order in Council P.C. 8528 of November 1, 1941) established basic period maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the National Emergency Transitional Powers Act, 1945.

From time to time these basic maximum prices have been varied or the fixed maximum has been suspended in the case of particular goods and services by Orders issued by the Wartime Prices and Trade Board under the authority of the above Regulations. A few days ago a substantial number of suspensions from price control was announced.

I believe it is desirable therefore that a summary should now be published of those goods and services on which a legal maximum price remains in force under the provisions of the Wartime Prices and Trade Regulations so that all citizens may be given an opportunity to inform themselves of the law.

The complete price control regulations are contained in Wartime Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

Douglas Abbott
Minister of Finance.

Summary of

GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICES

Under Wartime Prices and Trade Board Order No. 684

FOODS

- All flours, flour mixes and cereals.
- Yeast.
- Bread, bread rolls, biscuits and other bakers' products.
- Processed cereals, cooked or uncooked, including breakfast cereals, rolled oats, cornmeal, rice, macaroni, spaghetti and other alimentary paste products.

evenings in our converted dark room and any member is welcome to bring along a friend. It will be a great help to the committee to learn in advance how many are going to attend.

Lucy Finney delivered his report on the recent provincial gathering of teachers and a lively discussion ensued. Vic Sass was elected secretary to represent this group at the next meeting.

The annual meeting of the Josephburg Basketball Council was held early in January. A number of changes in the board and other positions were made. The present board is as follows:

Hon. Pres., Rev. Smith; Hon. Vice-Presidents, Edward Fay, Thos. Rudolph Eng, Edward Fay, Jr., Thos. Bowen, Hilda Hoby, Wm. Thomas, Fred Thomas, Trustee; Honors, Jacqueline Hoby; Asst. Secretary-treasurer, Dora Thomas; Secretary John Hoby; Treasurer Walter Hoby; Collector Walter Fay.

This organization is unique. A yearly vote of thanks to all retiring officers and especially to the old timers and pioneers, Mr. Frank Bodnar Sr. and Archbald Underwood who served for many years.

Sunday, January 19 the regular meeting took place and a banquet followed. Edward Fay and Fred Thomas were ordained and installed as Rev. Lawrence Bowen for the occasion was on the duties of elders and deacons in the church and community.

On Wednesday evening, January 15th the Young People's Association met in the basement for the first meeting this year. In the absence of the secretary, Miss Lucy Finney, elected acted. A theme song for this year was chosen. Prayer-verses were also made for Sunday, January 19th which will be read. Bodnar was the entire service will be in the hands of our Young People.

Arrangements for a banquet to take place some evening were left in the hands of the committee. Date of the banquet will be announced at a prayer meeting as follows:

President, Donald Bodnar; Vice President, Elmer Thomas; Secretary, Arnold Goldfinger and Secretary, Donald Fay.

Someone, we find, is missing a loyal friend and that friend has been missing for a few days. Someone else is a great big good-natured dog, complete with harness collar and chain. Anyone found to have we have been unable to locate the owner. That owner is very welcome to him upon proving his ownership and promising to let wash's Record. We cannot believe that anyone would willingly forego the pleasure of his company.

Since penning these lines, our visitor has departed without a word to his host or us. We hope that the owner will pay the homeless one the advertisement, if that advertisement was the means of his recovering his pet.

Coming Events

Dance at Partridge Hill, Friday, January 31st. Music supplied by Partridge Hill Reboot and Athletic Assn. Ben Moor's orchestra.

The Ardrossan Guild will hold a Whist Drive at the home of Mrs. Jackson on Saturday evening, January 25. Everyone welcome.

St. George's W.A. will hold a Bridge and Whist Drive at the home of Mr. and Mrs. C. H. Williams on Tuesday, January 28 at 8:15 p.m.

Dance at Bremner Hall Friday, January 31. Good Music. Admission 75c per couple or 40c per person. Free Lunch. Everybody Welcome. 32p

South Cooking Lake

We are all glad to see Jim Grimsdale looking well and fit and undamaged by the accident which robbed him of an eye. Jim is slowly moved by the kindly sympathy and active financial help shown him throughout his illness by his friends over a wide area, including all at Hilstalk, Dunglen, Fultonvale and South Cooking Lake. He is no doubt aware that he finds himself unable to find the words that would adequately thank them for their generosity, but they know very it's a deeply-felt "thank you!"

The people of Franklin School have been entertaining pictures Francis on their walls. They are thoughtpieces of the school, presented by Mr. Wm. Gillis, the photographer, who has for his pilot, George Lefevre, an expert pilot, who flew Mr. Gillis over a view of the school from the north, while the other grew on a south view. The Franklin Board of Trustees is to be congratulated on placing in the hands of a cooperative effort by parents, friends, and pupils.

Now the school is dated by the possession of two fine feeding troughs for the animals that come to the junior. This much-needed equipment is also the result of local co-operation in the form of a donation board hand in glove. Here Franklin school is ready to accept all challenges.

The Franklin Community League held a whist drive last Saturday night in the basement of the new hall. Mr. and Mrs. Wm. Millard were host and hostess to the party, which was attended by a good number of old and new friends in the neighborhood. The door of play proved Mr. Goodard and Jack Perrins (who later represented the ladies) as the winners. Consolation prizes went to Mrs. Frank Gibson and Wilfred Spicer.

Lunch, prettily served, was served by the ladies. Then followed a pleasant social hour before we left our good shelter.

Partridge Hill

Continued from Page One

years had been made to sessions (the W.M.S. and the Missionary and Maintenance Fund). A new organization, the Glen Club, had been enthusiastically joined by the teenagers and well supported by the public. The congregation voted to full quota to the special Pension Fund Capital Campaign, and to the United Church Building Fund.

Thanks were expressed to Rev. and Mrs. W. D. Rose for hardership duty in general and to Mr. Wilfred Allen for leadership in the Sunday School. Mr. V. E. Lawrence was re-elected as the Board of Stewards for three years, and Mr. David Bodnarik was asked to fill the place on the Board left vacant by Mr. Wm. Gillson's recent removal. The latter was for a new year: Hon. Mrs. Alfred Farr and Mrs. Frank Kolak were chosen for the Cooking Lake Summer Camp Fund.

Ladies of the congregation were all authorized to attend the meeting to a happy conclusion.

Charles Gabrielleson who is at present working at the Imperial Sun Co., Edmonton spent the week-end at his home here.

Arnold Whitford and Ralph Lovrasan left Monday morning by truck on a business trip to Rocky Rapids.

Mr. and Mrs. Robert Allen of Edmonton are guests of the latter's father, Mr. Wm. Shackleford and Miss E. Cowan on this week.

Mrs. Cliff Allen has been visiting friends in Edmonton the past week.

Ardrossan

A meeting was held in Baker School on Monday, January 20th to discuss organizing, and the building of a Memorial Hall. There was a small crowd owing to snowy and road conditions, however, after lengthy discussion it was decided to form "The Ardrossan Community League." Several committees were elected to obtain information re: plans, cost, etc. of halls of various sizes, and a general meeting will be held Monday, February 10 at 8 p.m. in Baker School to discuss the matter further. We hope to see a large crowd in attendance.

Members of the Ladies Book Club will meet at the home of Mrs. Ross on Wednesday, February 5 at 8:15 p.m.

Dick Bacon Jr. will leave this week-end for Minneapolis to visit with his aunt and brother-in-law, Mr. and Mrs. H. L. Oliver. He will also visit relatives in Detroit.

Another citizen of Fort Saskatchewan has gone air-minded, from the Hangar Flying Club, and has just returned to duty from Ireland's Upper North. Congratulations to Flight Lieutenant Irving Heath.

At a Carlton Club dance held Wednesday night a new men's dance orchestra of 12 clubs was introduced. Ten of the clubs are from the Edmonton area and one from the local at the club.

A very successful W.A. Bridge and Whist Drive was held Tuesday night at the home of Mr. and Mrs. C. H. Williams. Eleven tables were required to accommodate the players.

Dr. Siemon Outlines Health Unit Work at Council Meeting Monday

The regular monthly meeting of the council of Fort Saskatchewan was held on the evening of the 27th January 1947, with the following members present: Mayor Hager and Councillors, Dawson, Lees, Dr. Johnstone and Walton.

The members of the Fort Saskatchewan P.S.D. No. 81 together with Dr Henry Dr Siemon and Mr Rudolph Hennig were also present

Dr Siemon was called upon by the chairman to outline the objects of the Health Unit that he was commissioned with and that the Fort Saskatchewan P.S.D. No. 81, being in the larger Clover Bar School Division were members of

He briefly outlined the work the Health Unit was accomplishing and the advantages of belonging to it. He cited more than one instance where the death rate of children had been cut, due partly to the work of the Unit. He also stressed the fact that the Unit does not treat cases, but only puts preventive medicine in nature They offer advice on nutritional care, and diagnosing cases, but actual treatment must be obtained from the family doctor

Dr Siemon also stated the town council have the use of Mr. Mallett, their sanitary inspector as his service was included in the school taxes that the ratepayers pay

The council decided to accept the service of the sanitary inspector. Mr. Mallett, and henceforth all [illegible] pertaining to sanitation in the town will come under the jurisdiction of

Several questions were asked Dr Siemon. Dr. Henry and Mr. Hennig and a hearty vote of thanks was tendered to Dr. Siemon for being present at the meeting, after which a social gathering together with the members of the School Board retired.

The balance of the evening was spent dealing with the town's business.

The minutes were adopted as read

The secretary-treasurer's Financial Statement for the months of December 1946, and the Financial Statement of the Fort Saskatchewan P.S.D. No. 81 together with Dr Henry Dr Siemon and Mr Rudolph Hennig were also read and dealt with.

Letters from St. Johns Ambulance endorsed to the Mayor asking for a grant, was read and referred filed.

Application of Mrs. Hoot Henderson to clip a well on the property that she now owns, her family are occupying and belonging to the town was granted with the understanding that the well in question had to be in accordance with the Health Act and its amendments

The town was authorized to borrow up to $5,000.00

The application of S. C. Parker to trade lots 11 and 12 in Block 12 Plan 0 near where he owns property now not occupied by the council do not trade lots where there is only a cellar on them.

Letter from Dr Henry M.H.O was read confirming the log house lately occupied by Abel Adamchuk for human habitation The council gave its approval that this house be torn down

The question of the use of the skating rink for the all other play was then brought up and the following motion was adopted, that the skating rink be rented to the Minor Hockey Association for the term of $15.00 per year.

The council gave permission to use the skating rink for the Carnival Carnival at a fee of $25.00 on Friday 21st, February 1947.

A motion was passed ordering accounts to be paid.

The meeting then adjourned.

Local Rinks to Play for White Cup at Manville

Three rinks from the Fort will leave for Manville, Saturday afternoon. One rink skipped by Selby Thorne and one skipped by Harvey Sherriff will each play there for the Manville rink for the White Cup.

The other team which will be skipped by Ernest Nelson will play at Bawlf.

The rinks going down will consist of Selby Thorne, Roy Sheddon, Dr. Johnstone, H. Ryan, Roy Thornhill, E. A. McLellan, E. Thorne, Stan Walker, Jim Alderson, Jr. Bennett and Jack Sheddon, Cecil Lyle.

The boys will leave the Fort at 4:30 Saturday afternoon by bus and there will be a number of seats available for spectators. Anyone wishing to go along with the rinks are asked to contact Mr. Selby Thorne.

Selby Thorne skipped his rink to a 13 to 7 win in a closely contested match played her Wednesday night against the Lamont rink skipped by Mr. Pierce

The two rinks battled it out on the Lamont ice and the score at the end of the game was 13 to 7 in the McGavin Rosebowl competition

The competition is only open to country clubs who run rinks each other in their various district for the right to represent that district in the finals of the tournament

Anglican Church Annual Meeting

Hon. Mr. members of St. George's Anglican Church gathered in the basement of the Community Hall Wednesday evening to partake of a [illegible] members of the W.A. prior to the regular meeting and election of officers.

Following the dinner Rev. [illegible] called the meeting to order and asked Mr C. Williams to give the financial statement for the year.

Letter from Dr Henry M.H.O was read confirming the log house lately occupied by Abel Adamchuk for human habitation The council gave its approval that this house be torn down

The question of the use of the skating rink for the all other play was then brought up and the following motion was adopted, that the skating rink be rented to the Minor Hockey Association for the term of $15.00 per year.

The council gave permission to use the skating rink for the Carnival Carnival at a fee of $25.00 on Friday 21st, February 1947.

A motion was passed ordering accounts to be paid.

The meeting then adjourned.

South Cooking Lake

Funeral services for Mr. S. H. Ugbow, of South Cooking Lake, was held at St. Mark's Church on Monday, January 27. Rev Wesley Bainbridge officiated, assisted by Mr. Ernest Nix and Mr. Roy Cheith. Pallbearers were Messrs. Elmer Bell, Ernest Bakers, Reis Crandall, Ed Baker, Wm. Schmidt, and Wm. Griffin.

Beautiful floral tributes were received.

Loving Wife and Family; Jean, Mr. and Mrs. Ian and Mary Shortridge; Eva and Stanley; Mr. and Mrs. Jack and Jean Blanchard; Walter Hillsley; Mr and Mrs. Wade; Elsie, Dennis and Magnus; Mr. and Mrs. J. Bodnarik and family; Ina and Art Fenstad; Mr. and Mrs. Donald Smith and Ernest; Eaton's Girls' Club; Leonard Coles; Mr and Mrs. R. L. Oldale; Mr. and Mrs. Reis, Bell and family; McDougall Evening Association; Frederick and Ann Jacobsen; Kenneth; Mr. and Mrs. R. W. Connell; Mrs. T. A. Waters and family; Mrs. J. Campbell and Betty; Rhonda at T. Eaton Co.; Mr. and Mrs. Horace Cheshing and Albert; Mrs. Beauridge and Vicki and Jack; Mr. and Mrs. Ed Burnett and Mrs. Wm. Millard; Ronald and Betty Bunker; Mr. and Mrs. H. W. Moore; Mrs. Griffin, Hazel and Ray; Mary and Alf; T. Eaton Co. Limited.

Mr. Ugbow leaves to mourn his loss, besides his loving wife, one son, Henry, at home; and two daughters—Neale (Mrs. H. Hadfield) of Cardogan, B.C., and Amy of E'monton; and one foster daughter, Jane (Mrs. R. Oakes) of Blairmore, Alberta; three grandchildren and two great grandchildren.

In the passing away of Mr. Ugbow South Cooking Lake suffers a great loss. Always an actively loyal member of any community project he will be someone hire (and even then always kindly interested), ever a friend of Fort Saskatchewan and the young people there; staunch in his support of St. Mark's church and Sunday school; (where until his illness [illegible] acted [illegible] as he was a faithful worshipper); at all times a true neighbor and kind friend; day by day and year by year a true Christian gentleman with a keen mind and gentle, kindly humor, always seeing the best in us and always trying to do some of following—then was Samuel Ugbow, the man we have known.

Mr. Ugbow was born in Cornwall, England in 1876. He came to Canada over 50 years ago and resided in Edmonton and district[illegible]

North West Pig Starter

There is no time in a pig's life when it is so important to feed properly as when the little pigs are from three to ten weeks old. Often the sow has not enough milk to entirely satisfy the litter and at this time just the right feed makes the difference between a real good lot of pigs and a runty lot.

Many of the troubles with little pigs, such as scours, paunch, rough hair and general unthriftiness, dam and sower when they are fed liberally on North West Pig Starter.

Alfalfa Hay

We supplies fifteen hundred tons of green, dry, well-cured Alfalfa Hay. First or second cutting, unbleached as long as it has not been rained on, and is green and dry and largely free from Timothy and other hay.

We would like to have a listing of any available alfalfa you have for sale. The quantity, location and condition of same will head it yourself. Loose hay is preferred to baled hay but baled is acceptable. We can arrange for trucks if required.

10367 82 Ave., South Edmonton

The December meeting of the Wye Young Women's Club was held at the home of Mrs. Hall Thomlinson's. Business was discussed by members present and both were sent to new veterans, one being in the district and the other in the Colonel Mewburn Hospital. Three baskets of fruit were sent to the sick in the district. At the close a lovely lunch was served by the hostess.

Mrs. J. Armstrong has left for an extended visit to the east where she is visiting with her sisters Miss L. Armstrong and Mrs. McKenzie.

Congratulations to Mr. and Mrs. Henry Kraemer on the birth of a son, January 13

The ladies of the Wye Red Cross held their regular meeting at the home of Mrs. Thomlinson. A pleasant afternoon was enjoyed by all. It was decided to have a quilting bee in the near future. The next meeting will be held at Mrs. Dumbrby's.

...the only food for him, and millions like him, in war-ravaged China

This old peasant, his farm devastated by the Japanese, is too weak to work. His diet for months has been grass and roots.

Of China's people, 80 per cent are farmers. Millions are in urgent need of food, clothes, medical supplies. UNRRA's work in aiding voluntary agencies must carry on. Canada must do her share.

Do it now!

In who gives quickly gives twice. Send your cheque or money order TODAY to: CANADIAN AID to China. Make it as generous as you can for the benefit of millions of the unfortunate children of war and famine.

This is the only national appeal to be made in Canada within the next twelve months for Chinese relief.

WILL YOU help? China, a good neighbor and customer, will not forget.

The Government of China, a Good Neighbor, calls to YOU!

CANADIAN AID TO CHINA

Make cheque payable to Canadian Aid to China and mail to Provincial or Local Headquarters or to any Chartered Bank.

« Recipes for Milady »

A famous nobleman feared he would be accused by his enemies. To prevent this he insisted on having a written list of all dishes to be served him at each meal, so that no poisoned dish could be slipped to at the last moment either his official taster had left the room or approval on each item.

Today printed menus used in public eating places are essential in selecting the meal. The homemaker however, may write out her menus for her own convenience. She keeps her small reserved. Best days and milk, add ¼ teaspoon salt and pepper. Pour egg mixture into cheese. Cook until eggs are set. Fold over as an omelet Six servings.

STUFFED POTATOES WITH GRAVY

6 large potatoes
Salt and pepper to taste
2 tablespoons gravy
¼ cup chopped left-over meat

Bake the six potatoes. Cut a slice of skin from the top, remove potato carefully from shells and mash. Add gravy and seasonings. Add light and all meat. Refill shells. Sprinkle tops lightly with paprika, if desired, and reheat in oven. Grated cheese may also be used. Six servings.

POTATO SCONES

2 cups sifted all-purpose flour
¼ teaspoon salt
4 teaspoons baking powder
1 cup mashed potatoes
¼ cup milk
2 tablespoons melted fat

Mix and sift dry ingredients. Blend with mashed potatoes, add milk and melted fat. Pat out to 1-inch thickness and cut in diamonds. Bake on a hot ungreased griddle. When well browned on one side, turn and cook on other side. Makes 10 scones.

United Church Bible Schools

Three short-term Bible schools are to be held in Alberta in the early part of 1947 at three well distributed points for easy access from all parts of the province.

These will provide courses in the Bible, doctrine, evangelism, music and leadership techniques and are open to persons of sixteen years of age and over who desire more knowledge and training in the fields mentioned. Designed to fit church workers for better service in their local churches, all three schools are expected to be well attended.

The pupils will live in dormitories especially provided and will take their meals together—the cost being only $1.00 per day for board and room.

Interested persons ought to make inquiry for further particulars from their nearest United Church Minister, or write Rev. W. H. Moss, Drumheller, Alberta, who will be the principal of all the schools and who will be assisted by an adequate staff at each centre.

Places and dates are as follows: Macleod—Feb. 10 to Feb. 24. Lamont—Feb. 26 to March 10.

Don Graham Comments on EVERYBODY'S BUSINESS

Three of us, local boys, were congratulating a dear old lady on reaching her 80th birthday in good health and excellent spirits. Her son Tom, an old school-chum of mine, who is now an important Life Insurance executive, had come home to celebrate with her.

In talking about Tom's recent promotion, his mother said to us: "Tom has made good in the town very that you boys have made good right here, by by I work; just as the boys and girls will do who are coming along to take your places."

Men who work their way up in Life Insurance get to know many people here and over, how they live, and when they are sinning at. They know there should be a Life Insurance safeguard for every risk, so enable owners to do their best, free from worry. They are specialists in enabling programs with safety.

Life Insurance is a business built on confidence. A great program of Life Insurance protection is the finest estate builder and safety plan for home, business and many ways to save. Consult with a Life Insurance agent about your estate or your personal needs.

AUDITOR'S FINANCIAL STATEMENT FOR YEAR ENDING DECEMBER 31st, 1946

MUNICIPAL DISTRICT OF STRATHCONA NO. 20
PROVINCE OF ALBERTA

Auditor—Simpson, Hamilton, Anderson & Co., 402 Empire Block, Edmonton, Alberta.
Secretary-Treasurer—Leonard Browne, Post Office Building, Post Saskatchewan.
Bankers—Bank of Commerce, Post Saskatchewan; Bank of Commerce Chambers, Edmonton.
Solicitors—Messrs. Clarke, Carter, Bury, Fenerstone, Edmonton.
Assessor—Commissioner, Municipal Assessors' Commission, Edmonton.
Area—Commissioner, Surveys Committee, Edmonton.
Number of Ratepayers—Commissioner, Surveys Committee, Edmonton.
Date of Incorporation—April 1, 1942. Bond Reserved to April 1, 1947.
Chief Officials—Board of Commissioners, Strathcona Hospital, Treasurer, Leonard Browne.
In Council Elected by Divisions? Yes.
Number of Verifications Not Numbers Mailed by Auditor under Section 108(4) 140.

SECRETARY-TREASURER'S CERTIFICATE

The information contained in this Report is from the Books and Records of the Municipal District, from my own observations, or obtained from officials of the District—and all of which I certify to be true and correct according to the best of my knowledge and belief, in accordance with the Auditor's Report where necessary.

C. Roberts, Secretary-Treasurer.

FORM B, SECTION 105, THE MUNICIPAL DISTRICT ACT

Take notice that a meeting of the Electors of the Municipal District of Strathcona No. 20, will be held at one o'clock in the afternoon on Saturday the 15th day of February, 1947, at Masonic Temple, 103 Street and 100 Avenue, Edmonton for the discussion of municipal affairs, and that at the same place and on the same day, the Returning Officer will receive nominations of candidates for the office of Councillor for Divisions 1 and 2, from three to four o'clock p.m.

AUDITOR'S CERTIFICATE

We have audited the accounts of the Municipal District of Strathcona No. 20 for the year ending December 31, 1946, and have compared the said accounts with their relative vouchers and certify that in our opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct position of the affairs of the Municipality according to the best of our information, the explanations given to us, and as shown by the records, subject to any qualifications mentioned in the Auditor's Special Report.

Dated at Edmonton this 16th day of January, 1947.

Signed Simpson, Hamilton, Anderson & Co., Chartered Accountants, 402 Empire Block, Edmonton, Alberta.

Annual Report of Agricultural Service Board, M.D. of Strathcona No. 83

MAY 16 TO DECEMBER 31, 1946

On May 6th the Agricultural Service Board of the Municipal District of Strathcona held its first meeting and subsequently engaged a Field Supervisor who became active on May 16th.

FARMS INSPECTED

During the seven months which this report covers, some 317 farms were inspected and in most of these cases advice was given on weed control, or such as cultural practices in general were discussed and suitable literature on these subjects distributed.

FIRST TRUCK TOUR (1947)

For purposes of record and definite detailed information a "Farm Survey Sheet" was drawn for the purpose which, when filled in, gives many useful information. Up to the present time 82 of these forms have been taken under survey. In this way a complete record is on file in the municipal office and suitable advice can be offered from time to time in the application of cultural methods that will improve the situation on these farms. In most of these cases, where there have been failures, "crop dusting" methods have been found to a fair, and in some cases, a good degree successful. Assistance will be made prior to making operations next spring.

USE OF 2,4-D CHLORATE AND SELECTIVE WEED CHEMICALS

Sodium Chlorate has been used on several small patches of Leafy Spurge. It will not be possible to ascertain accurately the results obtained until the end of the present spring. Good results were obtained from the use of Stoner 2,4-D on oat and wheat crops and in which case the spread twist was not fatal, resulting in good, cleaner harvesting.

PURCHASE OF WEED SPRAYING MACHINES

The resolution this board has authorized the purchase of a number of weed spraying machines is that using improvements may be looked for in the near future and it would be a mistake to buy until the best type of machine has been developed.

WEEDS WHICH APPEAR TO BE GIVING MOST TROUBLE

Canadian Thistle, Sow Thistle, Couch Grass, Stinkweed, Wild Mustard and Wild Oats are the most troublesome weeds and are found in most districts. Leafy Spurge and Leafy Spurge has been found on two farms and on road allowances in the Elk View district. Leafy Spurge is supposed to one farm and Field Mustard on two.

TWO PLOTS OF FALL RYE

In widely separated districts two plots of Fall Rye have been sealed and are now being harvested. These plots had not been destroyed. Most successful where plots will demonstrate the fallacious fall Rye will cause in comparison to the weeds which are present in these plots.

EMBALMING OF PERISHABLE FOODS BY REFRIGERATION METHODS

Demonstrations operations have been held under these circumstances on a few farms during the summer and we hope something may be gleaned in an educational way from these.

WIRE BOOTH AT RURAL PICNICS

The principle, of setting up a weed booth at rural picnics, where weed identification and control measures may be discussed together with the distribution of small quantities of suitable chemicals for the destruction of small patches of bad weeds, has been supported by this board. This was done on one occasion during the summer and despite bad weather several contacts were made and considerable interest shown.

INSTRUCTIONS TO BE GIVEN

Weed Inspectors are made to a weekly newspaper, which is published in our area, a copy of which goes to all ratepayers. It is our hope that these articles will prove helpful.

HOLDING OF MEETINGS DURING WINTER MONTHS

Nine meetings have already been held and it is our intention to cover the entire area during the winter months. Weed movies have been prepared and these are used for purposes of demonstration.

FLAMES FOR WEED DESTRUCTION

The necessity of killing many grasses and legumes is being stressed. There is every evidence of the practicability of the production of clover seed in this area, at least in a small way, in fact there are several farmers who have been sending samples and asking advice and assistance for the purpose of seed production.

SOIL DRIFTING

Soil drifting is not in evidence in this area to any marked degree. A few cases of water (sheet) erosion was noticed following heavy rains and soon in a few places where soil is ready has not been checked.

COLLECTION OF WEED SEEDS FOR RE-CLEANING

There is only one point in this municipality where weed seeds for re-cleaning are being collected. This is at Lindbrook where a Seed Cleaning Plant has been installed. Samples of seeds from various districts are being forwarded from the plant.

BACKLOPPING AND IMPROVEMENT OF DRAINS

The backlopping and scalping down of roads now being built, machinery for which has been obtained by this Council. In the interest of this work some delay between farm operations has been encountered for their co-operation. The response in this regard has been most gratifying and a few miles of road has already been built in this manner. We expect an appreciable mileage will be done in this way and needed down next summer.

POULTRY FIELD DAY

In one locality which carries a heavy poultry population, and seasonal egg production is engaged in to a considerable extent, significant interest was in evidence to warrant the holding of a "Poultry Field Day." This was arranged with the Government Poultry Division who furnished two reliable speakers and a very profitable afternoon was spent.

RELIEF KEPT

A daily diary of all activities engaged in is kept, and from this monthly reports are submitted to the department as well as to each member of the Service Board.

MILEAGE

In the carrying out of this work approximately 5,000 miles has been travelled.

CO-OPERATION WITH DISTRICT AGRICULTURIST

We started our supervisor work in close co-operation with F. H. Mennenton, District Agriculturist, Edmonton at that time. Jointly a summer program was drawn up covering the activities reported on above. After September 1st the office of District Agriculturist was filled by R. J. Whitbread with whom close contact has been maintained and who together with the supervisor, was appointed by the board to form a committee in charge of winter activities.

PICTURES SHOWING ACTIVITIES OF SERVICE BOARD

We regret our inability to supply pictures of operations during the season but we trust to make your acquaintance and govern ourselves accordingly in the future.

GENERAL REMARKS

It is our opinion, that a greater measure of weed control will have to be brought about, and the introduction or more grasses and legumes in order to have a crop rotation that will lend itself to pasturing and the maintenance of soil fertility. The desirability of planting shelter belts will also be stressed in the future.

Nomination Day

On Monday, February 3, between the hour of 11 o'clock and 12 o'clock noon, nominations will be received by the Returning Officer, Leonard Browne, at the Town Hall, for three Councillmen and three School Trustees to fill the vacancies of those whose terms last office expires this year.

In the past few years little, if any, interest has been shown by most citizens of the Fort when nomination day arrives, with the result that the vacancies that occur are filled by acclamation.

Those who serve in the various offices give a great deal of their time to conducting the business of the town and school, and try as far as possible to conduct that business in a manner most beneficial.

Many of these men and women who serve a term are persuaded, quite often against their better judgement, to run again for these offices. Their job is a thankless one, and they are subjected to much criticism for the way the affairs are conducted, yet more often than not the ones criticising will not allow their names to be placed on nomination papers for fear they are elected and thus have to shoulder some of the responsibilities.

It is the duty of every ratepayer to take a keener interest in the affairs of the town and school, and see to it that the vacancies that occur from time to time are filled by those most capable, and who have the interests of the town at heart.

World of Wheat

By E. C. L. STRANGE
Director "The Crop Testing Plan"
PRODUCING REGISTERED SEED

Many farmers, it seems, seeing the premium charge for Registered seed have come to the conclusion that this premium was easy money and so many have been producing Registered seed not to improve their own crops but to sell as Registered seed. They have sown and harvested their crops under ordinary field conditions, have done no rouging and then have taken the crop to a central plant for cleaning and sale.

Registered seed was never intended to be grown in this way. It was intended to be produced by a man who wanted seed in a certain way first, and would give it his own personal and most particular attention, then sell the surplus to his neighbors and so on. Seed of this kind will run from 99.00 per cent pure up. Seed of this kind will have to be grown with his own equipment. Disappointment is bound to follow any other method. No matter how "keen" one's field will not pass inspection, or if it does pass, usually at minimum standard, the "run out" tendency of the seed will probably be greatly disappointed.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Canada, owing to British commitments and lack of available exportable wheat, rejected France's proposal for a five year wheat agreement calling for the sale of three million bushels of wheat annually to France—Italy is now negotiating with Argentina for the purchase of some 13 million bushels of wheat.

The United States Secretary of Agriculture, with the prospects that the winter wheat crop will be a record one, is urging spring wheat farmers to cut their wheat acreage, and gave urgently needed flaxseed. The guaranteed price of flaxseed to growers has been increased from $4.00 to $6.00 a bushel to encourage the change.

T.B. QUESTIONS
Answered by the
ALBERTA TUBERCULOSIS ASSOCIATION
Q. I am a chronic case of tuberculosis and intend taking the cure at once. Would a harvesting hand, if I kept in good condition, be all right to use in my room during meal time and for about three hours in the evening?
A. Yes, providing a change of air is taking place all the time.
Q. Would the heating of a house by means of natural gas be injurious to one having pulmonary tuberculosis?
A. If the house is well ventilated, so as to replenish the oxygen consumed in the burning of the gas, there should be no danger to the lung.
Q. Is there any special diet for people having tuberculosis?
A. Under ordinary conditions, no.

Production of tobacco in Canada in 1946 reached the record level of 184,364,000 pounds. Ontario alone produced 110 million pounds.

Alberta's Mailbox Education

Somebody has come out with a new expression. "Mailbox Education" is plenty of the new terms "Correspondence education" do not describe how much about 10 per cent of Alberta's students. That seems to me to be a very healthy sign. The term "correspondence education" had something pompous and phony about it, as if you could make something out of nothing if you gave it a big enough name.

Actually, each of these 14,071 mailbox students we hear about gets a letter once a week from his teacher at Edmonton. Once a week that's all. Just think how helpful, encouraging and inspiring a teacher can be in a child's life once all day for five days a week; and the think how many of that influence she can exert by writing to him once a week. It doesn't even have to be a letter. It can be forms with his own equipment. Disappointment is bound to follow any other method. No matter how "keen" one's field will not pass inspection, or if it does pass, usually at minimum standard, the "run out" tendency of the seed will probably be greatly disappointed.

Radiograms
"WE WUZ ROBBED"
The other morning as "the gang" at CFCA strolled afterward, each in turn was accustomed to see the control room in a shudder.
Thousands of dangling wires, bolts, plugs, tools, knobs and eddies of other "hardware goods" lay strewn about the place with Skilleter and Keith standing amidst it. It looked like a first-class bit by an expert housebreaker.
But actually "nothing" as had as it appeared. What really was happening was that "Bill" and Bob spent all night dismantling the control panel in preparation for the shifting of a Delco Raytheon

NOTICE
Of Annual Meeting Of Electors
PUBLIC NOTICE is hereby given that a Meeting of the Electors of the Town of Fort Saskatchewan and Fort Saskatchewan P.S.D. 91, will be held in the
Community Hall on Friday, the 31st day of January, 1947
at Eight o'clock p.m., for the purpose of receiving the Report of the Mayor, Secretary-Treasurer, Auditor and Chairman of the various Committees of Council for the year ending thirty-first day of December, 1946.
Dated at Fort Saskatchewan this 16th day of January, 1947.
LEONARD BROWNE,
Secretary-Treasurer.

Why VICKS Is So Good For Relieving Miseries of Childrens Colds
More than two generations ago—in grandmother's day—physicians first discovered Vicks VapoRub. Today it is the most widely used home remedy for relieving misery of children's colds. And here is the reason
The moment you rub VapoRub on the throat, chest and back of child, it starts to work two ways at once—and keeps on working for hours—to soothe coughing spasms, help clear congestion in cold-clogged upper breathing passages, relieve muscular tension and tightness. It promotes normal sleep. Often most of the misery of the cold is gone by morning! That's why VapoRub is so good to use when baby sneezes. Try it!

MUNICIPAL DISTRICT OF STRATHCONA, No. 20
MEETINGS
The extension Service of the Department of Agriculture in conjunction with the Agricultural Service Board of the Municipal District of Strathcona, will hold a meeting in
GOOD HOPE SCHOOL on FEBRUARY 4, at 8:30 p.m.

South Cooking Lake

Continued from Page One
here meeting at South Cooking Lake.

* * *

A well-attended special meeting of the South Cooking Branch of the Provincial League was held at the Hillcrest Lake on Saturday evening, January 25. The president, Mr. Frank Gibson, was in the chair and called upon the secretary (reader), Mr. Wm Millard to read the minutes of the last meeting. These were adopted as read.

As there was no business arising out of the minutes, the president called for nominations of new officers for the ensuing year. The following were elected:

President—Mr J. Bullard; 1st Vice Mr Mike Mamchak; 2nd Vice Mr Frank Gibson; 3rd Vice Mr Wilson; See Treas Mrs Bill Millard; Social Committee Mrs. Gibb, Mrs. Gibson and Mrs Millard for the ladies and Messrs Gibb, Harry Pendrick and Bullard for the men.

The new president, Mr Bullard opened a discussion on ways and means of recommencing work on the new hall when the weather opens up, and also on the raising of the building fund. It was decided to continue holding whist drives, dances, basket socials and the like until spring work begins. Keen interest was shown in the discussion and with this the meeting adjourned.

SPORT FLASHES

JUNIORS BEAT SCOTSMEN

Penalties! Did somebody say penalties? Yes, there was a penalty or two (maybe more) but anyone who witnessed the hockey game of the Bruce Kills Junior League on Sunday between Josephburg and Scotsmen will agree that the referee's whistle is the most overworked piece of equipment in the game. It was fast and rough in the first period Sandwell scored, all to hear the odds on a Josephburg win the score at the end of the first period being 2-1 for Scotsmen. In the second period Josephburg came back with three points, every man was in the game, every man played fine and injuries were few. Yes, Josephburg came back but in the third period, with Sandwell having two players in the "hot box" Albert Conway in the same period Sandwell's star right winger, H. Hnatiw received a cut from a skate in the vicinity of the upper lip and was taken to Edmonton for stitches. Just after leaving the box Sandwell was down with injury to a player and Josephburg was down to two. We all agree this game was mismanaged as the score held intact at the final over three ball was 3-2

JOSEPHBURG JUNIORS WIN

The Josephburg Juniors trimmed the WE'll to the tune of 7-1 last Tuesday.

SCOTSMEN & ARDROSSAN TIE

After a strenuous bande between Scotsmen and Ardrossan, on Joseph Lake, Thursday night, the game ended in a 1-1 draw.

Bridges-McNeil Wed in Afternoon Ceremony

In an afternoon ceremony Monday, January 13, at the Central United Church Manse, Miss Doris McNeil, daughter of Mr and Mrs. Jas McNeil of Lamo became the bride of Mr Howard Bridges, son of Mrs G Bridges and the late Mr G. Bridges of North Cooking Lake. Rev E. H. Birdsall performed the ceremony.

The bride was gowned in a white satin over slip, the bodice of which was in the shirt, a sweetheart neckline and short sleeves, with double net over matching lace skirt. Her veil was an English floor length and she carried a bouquet of white carnations. Her only jewellery was a gold locket, gift of the groom.

Mrs. Allan Smith of Fort Saskatchewan attended the bride as matron of honor. Her gown of turquoise net was identical to that worn by the bride and wore a matching shoulder veil and flowers. She carried a mixed bouquet of daffodils, tulips and carnations.

The groom was attended by Mr. James McNeil, brother of the bride. A reception was held at the home of the bride's parents for the guests who held at the times of the bridegroom's parents.

The bride's table was laid in the dining room with white cloth, pink and yellow roses and centred with a three tiered wedding cake.

For the bridegroom's wedding Mrs. McNeil wore a chocolate brown dress with matching accessories. The groom's mother was dressed in black crepe, with red trimming.

Assisting at serving were the Misses Audrey Fleming, Ann Stanchuk, Ruby and Pearl Davies and Mr Elmer Hill, Walter and Herbert Fleming.

Toast to the bride was proposed by Mr John Fleming and was responded by the groom.

In the evening a dance was held in Lamo school.

Coming Events

The Josephburg Athletic Club are arranging both for parent-teacher and the county, by the Cats" to be presented in Josephburg School, Monday, February 10 at 8 p.m. Admission Adults 35c, Children 15c.

The Gristmill UFWA will hold a Whist Drive in Agricola School, Saturday, February 1st. Everybody welcome.

A Shareholders Meeting, sponsored by the A.F.U. will be held at Gardon School, Saturday, February 1st, at 2 p.m.

CARD of THANKS

We wish to extend our heart-felt thanks and appreciation for the acts of kindness, messages of sympathy and beautiful floral tributes received from our kind friends and neighbors during our bereavement in the loss of our beloved husband and father. Especially do we thank Rev. Father Bodnarchuk, Mrs. Nemec, Messrs Ernest Mix and Roy Chubb, and the organist, Mrs. J. Bondarenko. Also the pallbearers and many others who favored themselves in any way, also those that signed the cards.

—Mrs. S. H. Ogden and Family.

Yorkville

On Wednesday afternoon, January 22 a most enjoyable time was spent at the home of Mrs C P Brabbon, when Mrs. R M Bacon and Mrs. Brabbon were joint hostesses to the entertainment of the Fort Saskatchewan UFWA it was decided to hold a series of card parties to increase the funds.

The brothers, Galloway's, teamed up for their first together with Junior finishing off the play to end the Meadowlark vs. Yorkville. However before the period ended Oliver had added himself to the scoring up. Play was shoved up by the closely as but Bacon of Yorkville on a quick break by Robinson with a perfect corner shot, and Yorkville led 2 to 1 at the end of the first period.

In the third, the evenly matched teams battled fiercely, Oliver slipped a neat pass to Allen Black for the prettiest goal of the game. But it was the league's leading scorer that was to make the score, Ernest Robinson who had been kept well in hand by Donnie Bacon from a scoring standpoint to move in unmolested to score up the game. From then on the Meadows held on well to safeguard their lead.

WANE'S MANGLERS LEAD IN SCHOOL HOCKEY

In an extremely closely fought game that could easily have gone the other way, Blaine's Mangler's clashed up a 3-2 win over Oliver's Tonicians to move three points in front of the league.

The brothers, Galloway's, teamed up for their first together with Junior finishing off the play to end the Meadowlark vs. Yorkville. However before the period ended Oliver had added himself to the scoring up. Play was shoved up by the closely as but Bacon of Yorkville on a quick break by Robinson with a perfect corner shot, and Yorkville led 2 to 1 at the end of the first period.

In the third, the evenly matched teams battled fiercely, Oliver slipped a neat pass to Allen Black for the prettiest goal of the game. How Your Tax Dollar is Spent

From the recently published financial statement for the year 1946 you will note that your council disbursed a sum slightly in excess of a quarter of a million dollars, $257,716.98.

In order that the ratepayers may obtain a reasonable detail how this sum was spent, two questions are immediately asked.—How was it spent? Where did it go? Out of every dollar, figured to the nearest cent, the following is what happened to it.

Education, (school requisition)	40c
Public Works, road work, gravelling, etc.	20c
Purchase of machinery and buildings (capital expenditure)	10c
Government of Alberta (social services tax)	05c
Public Welfare (Hospitals, Relief, Pensions, etc.)	05c
General Government (Salaries, Administration, etc.)	05c
Grass Seed (Relief)	05c
Protection of Person and Property (Gopher poison, posts, Agricultural Service Board)	05c
Sundry Items	05c
	$1.00

Edmonton, the largest single item, took over $104,000.00 The requisition is paid over to the Divisional School Boards in four equal instalments. While the Council serves as "Rubber," school administration is entirely the responsibility of the Board. It should be said, however, that representatives from our Council are asked to sit in for consultation on the question of finances when the Board is adopting its estimates for the year.

Public Works, is the next major item both as to amount and importance, $76,000.00. During the year, in addition to the cost of maintenance, snow plowing and road repair work, there was constructed 27 miles of oiled road, 11 miles bladed, 2½ miles constructed with scraper and dozer and 7½ miles elevated roads rebuilt—a total of 48½ miles. The cost of this work, which includes depreciation and is not shown on the statement, was $1,650.00 per mile computed on the following hourly basis:

H.D. 14 Allis-Chalmers Tractor (rented machine), per hour	$10.00
D. 8 Caterpillar Tractor (municipal owned), per hour	4.35
R.D. 7 Caterpillar Tractor (municipal owned), per hour	4.35
Adam's Motor Grader (municipal owned), per hour	4.25
Champion Grader (municipal owned), per hour	4.25
	$3,125.00
Fuel and lubricating oil	625.00
	$2500.00
Margin left for owner	$1000.00

Per hour cost for fuel and oil was 70 cents.
Per hour cost for lubricating oil was 5 cents.

There was also gravelled 22½ miles of road at a cost of $16,707.20 or an average cost of $772.00 per mile.

In addition to the above $76,000.00, $24,682.00 was spent on new equipment and the erection of buildings to house the machinery.

Social Service Tax. This is now paid to the Government in the same manner as a road requisition is paid to Municipalities. This tax, together with the Wild Land Tax represented $14,000.00 or six cents on every dollar disbursed.

Public Welfare, and $72,644.00, practically all of which is of an unavoidable nature. By far the major portion of indigent relief, $6,885.35 is borne by the District, the Government making a contribution of only $1,177.21. Hospital bills $4,790.00 representing the amount paid in accordance with the agreement between the four city and Lamont hospitals. The total patients days last year was 7174 days. Mothers' Allowance, $600.00 is paid by the Province with the municipality contributing 20 per cent of the amount. Old Age Pensions, $1,500.00 which is shared on the basis of Dominion Government 75 per cent, Province 15 per cent and the Municipality 10 per cent. The cost of patients in the Provincial Mental Hospitals is borne equally by the Government of the Province and the municipality with the municipality having the right to collect its share, if possible, from the responsible relatives. The Provincial Government, fully realized in the statement, amounted to $58,847.00.

Grass Seed. No comment is needed on the amount disbursed for grass seed. This service is being emphasized, at a very small cost to the District, in the development and promotion of better farming methods. During the year 12,200 lbs. of alsikle, 1,600 lbs. of brome, 1,200 lbs. timothy, 1,200 lbs. of sweet clover and 200 lbs. of clover mixture were distributed.

Protection of Persons and Property. The major item in this section is that of the Agricultural Service Board which was set up in accordance with the resolution passed at the last annual meeting. The Provincial Government pays one-half of the board and supervisor's salary, limiting its share to $1,000.00, a sum not exceeding $600.00 for purchase of weed chemical and $75.00 for publicity work. The Board elected annually consists of five with the appointment of a Field Supervisor, M. L. Stetson. It is somewhat ironical to note that agriculture, the industry on which the prosperity of the District depends, only receives one per cent of the expenditure.

Sundry Items, one cent out of every dollar expended, covered subscriptions to the Fort Record, bank interest and several minor payments.

SUBMITTED ON BEHALF OF THE COUNCIL.

Sorcity of Education

The cost on the street has no difficulty in understanding, but there is a scarcity of hands, head, counsel and brother, but an explanation of the scarcity of education today is by no means so readily manifest.

Six years of war depleted manpower throughout the world and in very great measure. Millions of homes were destroyed by war, and millions more remained unbuilt during the war, as building materials had to go to war.

But the educational crisis in Alberta is quite different from that in the countries devastated by war. It is the result from those years but in peace ago. There are as many school buildings as there were years. There are many well-educated people who could be teachers than there are years. There is plenty money in circulation and for—r things to spend it on than ever before in peace time. The set-up should be perfect for plenty of education for everyone. And yet, more than 15,000 of our children are consigned to mail-box schools, and some thousands more get none at all.

This looks like a non-sensible state of affairs, but there is a reasonable explanation. Most of us if it really believed that good schools and good teachers should be the first call and upon the purchaser's resources.

Funeral for Mrs. Hall Held Mon.

Funeral services were held Monday, February 3rd, in St. George's Anglican Church, for Mrs. Hall who passed away on January 31, 1947. Rev W B Bates officiated

Mr and Mrs. Hall and family have resided here for a number of years and her many friends regret her passing

She leaves besides her loving husband, one son Robert Douglas of Edmonton and two daughters Margaret Stinemetz of Edmonton and Catherine Menken at home, three brothers William Richard Bray of Fort Saskatchewan, Albert H. Bray of San Francisco, Cal. and John T Bray of Charlottetown, P.E.I.

Offices Filled by Acclamation

Residents of the town will not be required to vote this year to elect members to fill the vacancies which were on the Council and School Board

Only the required number of nomination papers were filled out and handed to Leonard Browne, the Returning Officer, who declared them duly elected.

Mr. C. D Jarvis, Mr. Chas F Lowe and Mr H Walker were elected to the Council and Mrs C F. Bradshaw, Mr D Cakebadour and Mr B Knowles were elected to the School Board

Double Meeting Held Tues. at Beaver Hills

The Annual Meetings of both the W.A. and the congregation of Beaver Hills United Church were held in the church on Tuesday evening, February 4th. A presentation was made to Mrs. Wm C Fisher in appreciation of her leadership as President of the W.A. and in other capacities, and in view of her departure from Beaver Hills country-aside to live in the town of Fort Saskatchewan. Reports showed that the W.A., with small membership, had raised $250 in 1946 under her energetic guidance. Mrs. Fisher replied Thankfully.

The executive of the W.A. elected for 1947 consists of Mrs. Ira Fluney, President; Mrs. L. L. Fluney, Vice-President; Mrs. E. L. Underhills, Secretary-Treasurer.

An interim report was given on the plans received from several performances of the play "Black Cats" during January. This W.A. project has already met with considerable success and one further performance is yet to be given.

Reports from Board of Stewards, Missionary and Maintenance Fund Treasurer, etc., covered increased givings for nearly all purposes. Mrs. Reeder reported that church membership and Sunday attendance were "holding their own" in spite of removal of some active workers. Mr. Ira Fisher and Mr. Ed. Underhills were re-elected to the bodies.

Minutes of the Annual Ratepayers Meeting Held Friday, January 31

The annual meeting of the Ratepayers of the town of Fort Saskatchewan and the Fort Saskatchewan P.S.D. No. 91 was held in the Community Hall on the evening of the 31st January 1947 with approximately 18 present.

Dick Hagar was appointed Chairman of the meeting.

The minutes of the last annual meeting held on the 25th January 1946 were read and adopted as read.

The Financial Statement after being handed around to every ratepayer present, was thoroughly discussed and explained, after which they were adopted.

The mayor then gave his annual report, dealing with the Civic Problems, stating that the Council had been approached by the Oilcks Enterprise to enter into an agreement with them re bringing gas into the town, but the Council after due consideration had refused entering reply to enter into an agreement with this company as they had been in touch with the Northwestern Utilities Ltd who were prepared to enter into an agreement to install gas in the town, and that this company had the facilities to install gas in town. The offer of both companies were very favorable towards the town. Installation of the water and sewage system in the town had been commenced as the Council had felt we have survey of the project and that the provincial government contemplated installing larger units in the Provincial Gaol and then it would be possible to be supplied with water and sewage from that plant. The mayor pointed out that through buying necessary equipment through the War Assets Corporation for the Fire Department, the town had saved approximately $1,000.00. The mayor also stated that he hoped in the spring that a Cement Block Plant would be established in the town.

It was moved that the mayor's report be accepted.

A hearty vote of thanks was given to the town council for all the services that they rendered in the past year.

The Fort Saskatchewan P.S.D. No. 91 Financial Statement for the year 1946 was then discussed and explained and adopted

Mr. Reeque, who acted as Chairman of the School Board in the absence of Mrs. Wallace, explained how the school district had gone into the larger division and answered questions regarding collection of school taxes.

The following reports of the several committees were given and accepted:—

Linseme and Police by F. H Brown

Alberta Barley Contest Winners

Cheques totalling $1100 were presented to these four Alberta farmers January 24, as prizes in the $25,000 National Barley Contest sponsored by the Brewing and Malting Industries of Canada. In each province there were four provincial winners. The First Prize $100 was won by George W. Johns of, Sylvan Lake, bottom row, left. At right, bottom is Ted Gaetz, Lacombe, who placed second and was awarded $500 Lorne St. Arnaud, Vimy top row, left, received prize of $200 and Ray Nowosia, 1-9 right, was fourth and received $100 The four provincial winners were picked from 96 regional winners and they still have a chance to place at the national level. Each contest which carries four cash prizes of $1,000, $500, $200 and $100 The other provincial awards will be made at the Mail con Winter Fair to be held at Brandon the week of March 31st Presentation of cheques to the Alberta winners was made at a banquet at the Palliser Hotel Calgary, tendered by the Alberta Brewers Association

Viscount Alexander Patron of Campaign

His Excellency, Field Marshall the Rt. Hon. Viscount Alexander of Tunis, governor general of Canada, is seen in the robes of the Order of St. John of Jerusalem, of which he is Grand Prior in Canada. His Excellency is patron of the Dominion-wide campaign which the St. John Ambulance work throughout Canada.

Around the Town

The Immunization Clinic which has been held every second Wednesday of the month at Josephburg School has now been discontinued. Its place will be taken by a regular clinic to be held on Fort Saskatchewan, the date of which will be announced in the near future

* * *

The regular meeting of the W.I. will be held next Wednesday, February 12 in the Union Hall. A Valentine Party will be held and Mrs. C. R. W Magor and Miss Randall will give a paper on the origin of St. Valentine Day.

* * *

After a number of strenuous games on Tuesday evening members of the Badminton Club held a very enjoyable social evening. It was made all the more so with the addition of several new members who joined that evening. A very tasty lunch was served at the close of the evening.

* * *

Miss Madge Smith of Westlock was a visitor at the home of Rev. and Mrs W B Bates last week-end. She sang a solo at the United Church morning service which was greatly enjoyed by those present.

* * *

The service number of last week Sunday have with the ending rain on, but due to no-answer Gray's report work the rinks were all in readiness for the Wednesday night draws.

Josephburg

The Sunday morning service at the Reformed Church was conducted by our young people with Donald Smith acting as chairman. The group sang several hymns and gave two responsive readings. Rev. Kuzyk's sermon was on the theme "More love to thee, oh Christ, more love to thee" It was very appropriate this week-end. Rev. Kuzyk also spoke on the calendar for the induction ceremonies of the officers of our Young People and the newly elected Sunday school superintendent Mr. Rudolph Rippel, took place.

Walter Health and Relief by Dr. Johnston, who read out the Medical Health Officers Report, also explaining that we would be able to get the services of the Health Units' Sanitary Inspector, so the school district had conveniently gone into the Health Unit when the school district becomes a member of the larger division. There was no objection to the town having for the year 1946, Finance, given by the mayor in the Financial Statement.

Mr. Brenton stated that now was a good time to get the covered lumps in the town straightened out, and Engineer's report was adopted.

It was moved and unanimously adopted that a hearty vote of thanks be given to the School Board for all their services in the past year, as they had gone to a lot of work in getting the school district and the new division started and this meant that to the very near future there would be a larger school built in this town which would be an expense on the school division.

The mayor stated that to the benefit is moved with the vote of thanks, pointing out that the town had donated several lots and Public Square adjoining the present school site to the school district which would enable the division to build another school.

The meeting then adjourned.

In Appreciation
Having sold my Coal and Trucking Business to Gordon's Coal and Town Draying, I wish to offer my sincere thanks to my many customers and friends whom I have had the privilege of serving for the past 13 years.
May I express the hope that you will continue to patronize my successor.
E. B. STETSON
BLACK DIAMOND COAL

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITABLEND which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 3000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the confinement of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially suited for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

Radiograms

THIS WEEK'S FEATURE: DETECTIVE

Men, women and children love mystery stories. Not all listeners who love mystery, however, go for shivery, creepy, can't-see-in-dark shows, but prefer an out-in-the-open, detective story full of action and scientific sleuthing.

This was the line of reasoning by CJCA's production department when they selected "Dick Vance" to take over the station half-hour 6.30 to 6.59 every Wednesday evening.

Taken from the works of S. S. Van Dine, the Philo Vance Radio Show offers spectacularly fit all it takes to try their skill at unravelling baffling mysteries.

Lee Bar role is played by Jackson Beck, known to many radio fans as "The Man Behind the Gun" and to many movie fans as the Public Newsreel commentator. He also played a leading role in the Navy's picture "Tush Force".

Barbidson, the District Attorney, is played by George Petrie, another stage, screen and radio actor. Humphrey Davis is Sergeant Heath of the Homicide Squad and Jean Alexander, a real veteran of drama, plays the part of Ellen Sutton, and now makes its debut on CJCA's airways every Wednesday evening at 6.30.

New World ...Beginning Now

1947 is a critical year Nations may slip back into defensive position of isolated counterpoised against which they can be defeated only by the same bomb. Or new nation may break out of the old mould and give the world an inspiring new lead.

If our nation is to be that nation we ourselves must be the kind of citizens to make it possible. What, you may ask, can one man do?

One baker, in his advertising, penned by the compliments of customers to quote instead the comments of a labor leader. "I am content nothing to your customer," he said, "is the way of lowered wages or better working conditions. I can find no grievances to improve the nations had no demands to make would find no grievances to develop."

What proved possible in a bakery should prove possible throughout the community, throughout the nation, throughout the world.

There is surely something every one of us can do towards building a new world, right where we are —beginning now.

« Recipes for Milady »

There is something about hot fresh rolls that gives a special touch to any meal.

When every homemaker baked her own bread, baking day was marked by the best pan of hot rolls that disappeared so quickly.

Dough for rolls may be made ahead of time and chilled or frozen until being baked. This is a good way to have fresh rolls without going to the trouble of mixing dough each time fresh rolls are required. For good results it is important that the mixture be kept in a cold place, covered, to prevent the yeast from working.

Some like soft rolls, other prefer them crusty. Some consider additional shortening or fluffy rolls while for the substantial meal nothing equals parkerhouse or plain crusty rolls of generous size.

The home economists of the Consumer Section of the Dominion Department of Trade and Commerce has an excellent recipe for rolls with suggestions for using the dough in various ways.

* * *

Soft or Crusty Rolls:—

Cut off small extra pieces, fold and color under small top in smooth and dough is round. Place in a large greased bowl and let rise until double in bulk, if rolls are to be baked immediately. Knead slightly, shape into rolls as desired cover and let rise until light. Bake in hot oven 400 degrees F. for 15 20 minutes.

If the dough is to be stored in refrigerator before baking, after first kneading place in a greased container, brush surface with melted fat and cover tightly. About 1½ hours before baking time shape into rolls as desired. Let rise until light and bake as above.

Yeast doughs may be frozen and kept for a longer period than if stored in refrigerator cabinet. After first kneading, wrap dough in waxed paper and place in freezing unit. Remove about 4 hours before baking time. Let rise until dough is light, thin will take about 2 hours. Knead slightly, shape into rolls and let rise until light. Bake in a hot oven 400 degrees F. for 15 - 20 minutes

Cloverleaf Rolls:—

Shape very small pieces of dough into balls, brush with melted fat and place 3 balls in each muffin tin.

Finger Rolls:—

Cut dough into uniform small pieces, shape into balls. Wit the palm of the hand roll until of desired length, tabling care to make them smooth.

Cresents:—

Roll dough ¼ inch thick and, using a sharp knife, cut in 3 inch squares. Brush with melted fat, starting at one corner, roll to opposite corner, pressing the points firmly down while rolling. Bring the two ends almost together to form the crescent.

Knots:—

Roll dough ¼ inch thick, cut in narrow strips and roll with palm of hand into 8-inch strips. Tie in a loose knot.

Twisters:—

Cut in strips as for knots. Twist from ends in opposite directions, then bring ends together and pinch, to hold firmly.

* * *

REFRIGERATOR ROLLS

1 cake compressed yeast
OR 1 tablespoon quick rising dry yeast
1 cup lukewarm water
1 teaspoon sugar
½ cup shortening
½ cup sugar
1 teaspoon salt
1 cup hot mashed potatoes
1 cup scalded milk
2 eggs, well beaten
6 - 7 cups sifted all-purpose flour

Dissolve yeast in lukewarm water and add the teaspoon of sugar. Place shortening, sugar and salt in mixing bowl. Add mashed potatoes and cream well. Combine lukewarm liquid, yeast and dissolved yeast. Add to first mixture. Add flour to make a stiff dough. Turn on floured board and knead well.

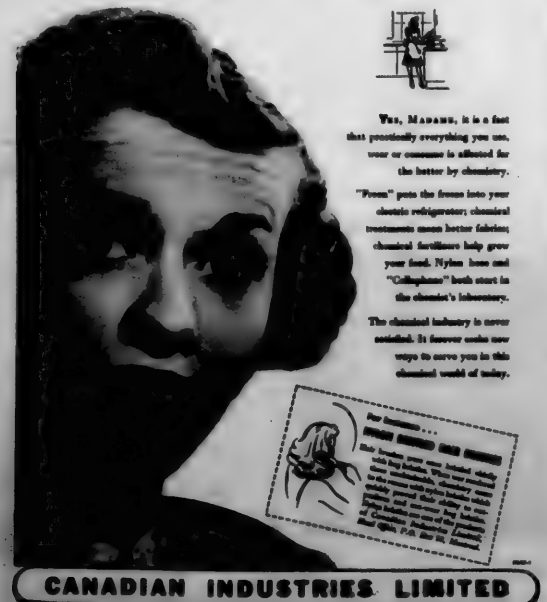
Exchange Educational Facilities and Service

An arrangement of historical significance is that now being developed with the Clover Bar School Division No. 12 by the Department of Education and the Faculty of Education, whereby the school division will offer laboratory and other facilities to the Faculty of Education in return for various educational services.

Arrangements are now in the formative stage, and their development will be watched with interest by all concerned with teacher-training program in Canada.

SERVING CANADIANS THROUGH CHEMISTRY

"Chemistry IN MY HOME?"



WHY, MADAME, it is a fact that practically everything you use, wear or consume is affected for the better by chemistry.

"Freon" puts the frozen into your electric refrigerator; chemical treatments mean better fabrics; chemical fertilizers help your your food. Nylon hose and "Cellophane" both start in the chemist's laboratory.

The chemical industry is never satisfied. It forever seeks new ways to serve you in this chemical world of today.

The New Type of Man

Mondays of Edmonton drawn up in 1900 by 200 teachers and students in Sweden

The New Type of Man is to be open, fearless, free, responsible. He lives to fellowship, loves his country and obeys God.

He Is Open. To be open is to be honest. Honesty means absolute honesty. When we are small we begin by telling little lies. But as we grow older they multiply and become a habit. Honesty loses its absolutes, and the absurd man is born. The open man is honest with himself and with those with whom he lives and works. What would this mean to family life? Business life? Class barriers?

He Is Fearless. He is confident and secure, is free to give all his energy to the task ahead and is creative in every contact with his fellow beings. Fear-free man counts the spirit in a nation where opposition replaces defensiveness and confidence the search for security.

He Is Responsible. Responsibility means making the highest for other people and other nations and helping them at all times to do it. It begins when I am ready to take the blame for my failures and the other fellow's and the other nations' failures. People are not guided by God say, "Why should I?" They are kept from taking responsibility by the fear of—fear of making mistakes and lack of caring.

Responsibility is always interdependent. When one man steps in and takes initiative, others follow and a whole new level of public opinion is created.

He Is Fellowship. The greatest task of our civilization is to find the secret of living together. When families live in fellowship, the thousand years of peace will come.

The man who lives in fellowship has as the basic conception of his life not private prosperity, but stewardship. He owns nothing but stewards everything. . . really making what he is on 5 counts: individualist; the new type of man lives naturally in fellowship. His natural unit of thinking is the family.

He Loves His Country. The true patriot gives his life to bring his country under God's control. A true patriot is determined to see his country find and fulfil her true destiny in God's plan for the world. In the light of this vision he sees his country's failings clearly, and gives his life to cure them, in and through himself. This decides his choice of career and all he does. Many are willing to die for their country, but few are willing to live differently for it.

The man who truly loves his country is a supernationalist. He sees it as a basis of love for one's country is it possible to build a solid love for other countries.

He Obeys God. The distinguishing characteristic of the new type of man is that he has learned to listen to God. God has a plan, both for the individual and the nation. When man listens, God speaks. When man obeys, God acts. As individual's highest destiny is to find the plan God has for her. The time priest of a nation to live by God's plan is: representative leaders who get their policy from God and make decisions together under His guidance; and a public opinion which both demands and makes this possible.

Youth in Agriculture

A section of rural boys and girls at the Junior Agricultural Exhibition at Edmonton last week. Over 40,000 members include a wide variety of projects in livestock, field crops, horticulture and home economics. Competition matches in good sportsmanship is an important part of the program. Above are the provincial competitions culminate in the annual provincial judging contests, and educational features, as well as the Agricultural Fair and Rural Club Week. Forty-two boys and two members made perfect records in the national club project for 1946 being awarded trips to the Royal Winter Fair. The picture shows Miss Irene Ivey, Millarville, Alta., receiving a gold sponsors of the Aberdeen Angus breed at the Royal Winter Fair.

World of Wheat

Director "The Crop Testing Plan"

BRITAIN PROTESTS WHEAT DELIVERIES

The "London Times", the "Daily Express", the "Sunday Despatch" and the "Glasgow Herald" carry editorials protesting against Canadian delivery for the first five months of the crop year of much less wheat than Britain expected under the British Canadian Wheat Agreement. Canada's Agreement was 160 million bushels a crop year and Britain it appears thought this would mean that in five months from August to December she would receive 84½ million bushels instead of which she only received 51¼ million, or 15 million short, which Britain has to buy from other countries at much higher prices. The matter is complicated by the fact that Canada, during the five months, shipped 26 million bushels to countries other than Britain.

There, of course, are all natural troubles that come out of agreements between 2 governments, particularly where the contract buyer is paying much less than other countries are paying. Other countries, too, it appears are dissatisfied because Canada is charging them $2.27 a bushel for wheat when the same wheat is being offered to Britain at $1.55. All of which goes to show that multitude of vexatious troubles come from these inter-governmental bilateral agreements, particularly when the same product is quoted at different prices to different countries.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The Danish government estimates import requirements for the 1946-47 season at approximately 700,000 bushels of wheat; 2,200,000 bushels of barley and some 192,000 bushels of oats—Sweden's wheat and rye carriage in the fall of 1946 showed a reduction of 160,000 acres, or 10 per cent from the fall of 1945 and 18 per cent from the 5-year normal winter grain acreage last year.

The Argentine wheat surplus is now estimated at 110 million bushels, of which some 80 million bushels are already earmarked for exports—Iran's wheat production for 1946 is now estimated at 70 million acres 10 per cent below earlier estimates but above the average of 72 million bushels.

Want 10 Million Pounds of Poultry

As a result of its negotiations with the British Ministry of Food and the WFTB, the Special Products Board has increased its buying price for dressed poultry to ¼ cent under the wholesale ceiling. The Special Products Board is prepared to purchase, until March 31, 1947, up to 10,000,000 pounds of dressed poultry. Farmers and the higher grades of chicken and fowl have been included under the new arrangement.

The British Ministry of Food is anxious to secure supplies from Canada. As Canadian poultry had such a good reputation on the British market before the war, it is important to the Canadian poultry industry that this reputation be maintained and that a sizeable quantity of birds be moved while the opportunity exists, in order to pave the way for future contracts.

EVERYBODY'S BUSINESS

"What happens to my money when I save it?" I asked myself when writing a cheque for a Life Insurance premium. I knew that my money was safe, that the terms of my policy would be met in full, but I wondered where my money would be invested and how it would be put to work.

Then I realized that this district is full of improvements and projects financed by Life Insurance funds which are secured by bonds and other good guarantees. Schools, homes, highways, hospitals, farms, electric plants, and dozens of other utilities and enterprises, are made possible by Life Insurance investments.

My Life Insurance money does double duty, it protects my savings and creates employment. It is because this makes farms of progress

Life Insurance is a business built for everybody, a great enterprise which controls the future of more than four million policyholders and their families. Life Insurance offers a system safe and easy way to save. Consult any authorized Insurance agent or phone and he will be pleased to call.

Y.M. WILCOXSON
ALBERTA TUBERCULOSIS ASSOCIATION

Q. Is it harmful to one with bronchitis to lie in bed out in the wind, provided he keeps well covered?
A. This should not prove harm if the patient does not become chilled. If he does become chilled, pleurisy and other conditions may develop.

Q. Is it advisable for a moderately advanced case of tuberculosis to use an obstetric bus wherever he is affected by the heat?
A. Preventing the drought is not any strange, thereby promoting chilling, it may be used.

CANADIAN FARM LOAN BOARD
Farmers WILL BENEFIT

The Alberta Motor Association believes that farmers are vitally interested in the improvement of our Roads and Highways. Good roads enable farmers to market their products in the most and most economical manner, especially in the case of perishable products.

Improved highways are said to the teacher if he is to deliver your products to market economically, regularly and in the best condition possible. It costs from one to eight cents a mile more to travel on rural than on paved or paved highways.

Improved highways also enable the farmer to do his shopping and other business much more economically and pleasantly. They are a great boon to the farmer's wife and family.

The recently announced $9,500,000 program of the Alberta Government for 1947, if carried out and repeated over a period of years, should have a marked influence in improving the motor transportation in all parts of the Province and be of particular benefit to all rural citizens, especially farmers.

ALBERTA MOTOR Association

Ladies Book Club Enjoys Social Evening

The Ladies Book Club met at the home of Mrs. W. D. Shaw, Wednesday night, to enjoy a social evening.

Most of the club members turned out for the evening's pleasure which was spent in playing chess. Mrs. J. Wicks captured first prize and Mrs. B. Knowles the consolation.

A dainty lunch was served by the hostess assisted by Mrs. A. J. Simmons and Mrs. F. Smith at the close of the evening.

Mexican Plan May Effect Cattle Exports

Canadian cattle breeders will be interested to learn that the new Mexican government intends to subsidize its cattle breeding industry by extending credit to breeders through the National Bank of Agricultural Credit which has been renamed the National Bank of Agricultural and Cattle Breeding Credit, states Foreign Trade, published by the Department of Trade and Commerce of Canada and formerly known as the Commercial Intelligence Journal.

Canadian cattle, especially those for breeding purposes, are popular among Mexican breeders and ranchers, and there is no doubt, says Foreign Trade, that the new move to increase the number and quality of Western herds will lead to a larger demand for animals from abroad. Several groups, representatives of Montana brood-mare associations have visited Canada and others plan to visit Canada in the near future.

DARK RED YOLKS

Feeding experiments with Barred Rock Pullets at the Dominion Experimental Station, Harrow, Ont., have shown that due to the nature of the diet, quantities of succulent green feed, such as cut and stooped alfalfa hay, have a tendency to unusually dee color of egg yolks. Eggs with rich colored yolks, are now favoured in the overseas market because a darker yolk is generally accepted as an indication of a satisfactory diet and the presence of valuable food factors, notably Vitamin A.

Effective January 20th the government of New put bread prices into effect at the rate of 6 pounds of bread or 4½ pounds of flour per person per week—supply under the British ration

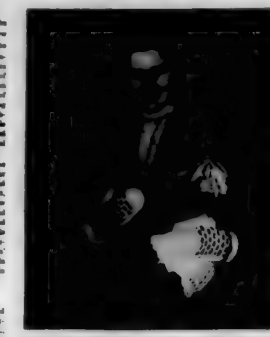
SKATING STAR



Barbara Ann Scott, Canadian and North American women's figure skating champion, received a V.I.A. plane for Great Britain last week on her way to Switzerland and Sweden in quest of the European and world titles. The pretty Ottawa girl was voted Canada's outstanding amateur athlete last year by sportswriters. Also is also a keen amateur pilot.

Let's Talk About the Weather

By R. J. Beacham

They have had a rough winter in the West. The explosions, now coming, have about them a touch of awe and majesty.

Senator Beaubien of the Lombard Hotel, says he, over in Winnipeg there are four months ago and most our storm signals. Now he sets back in his office and describes the terrific, making clear, of course, that this is a wholly abnormal condition for Southern Alberta, one must go back 60 years to find a parallel.

Among other things he mentions 70 inches of snow. If I were living there now I would be up to my elbows in snow. 35 degrees below zero is not quite so rare. The blizzard roads and drivelling logs-steals, to which he refers, are novel enough. With his desk still above the drift's he surveys the scene and exclaims. "We are not alone, 7 inches of snow in one day and a temperature of 6 degrees above zero in Vancouver; Tacoma, 10 inches of snow; 7 above zero in San Antonio, Texas, with zero in New Orleans!" Believe it or not I attended farm meetings in country schools in Southern Alberta one February and we didn't bother to put on fires

NEARER THE POLE

Up in Edmonton the spirit is different. To read the Edmonton Journal one would think that the City of the North was favored by Providence.

"So far, and we whistle and tomb weed as we write it, Alberta has not faced ill. Its winter has been freakish, with climate-in making themselves felt with unusual frequency in the Northern half of the province. Southern Alberta had a bit of snow some weeks ago, but has seen a good deal of it melt away."

Then the Bulletin points out that other places have had a hard time:

"The Regina Leader-Post ran an eight column list this week; "Province Just one big snowdrift." The same day, the Winnipeg Free Press, in similarly large type, proclaimed that a snowstorm had tied up Manitoba."

It even points out that in Toronto and in mooning homes appliances in the province

The same was the opposite of the Alberta Search. Meanwhile, the new Beauty has lost that some fabulous unknown personal commander. The Provincial Government Department of Health now offers free diagnosis and treatment services for high tuberculosis, in Calgary and Edmonton but a s felt that the cancer dressing service will add a great need, by providing more comfort for the patient and by climbing up the cost of dressing material which in some cases is as high as $30.00 per month.

Sanatorium dressings will be prepared and disinfected free of charge to patients in private

Cancer Dressing Service

The Alberta Branch of the Canadian Cancer Society announced the inauguration of a Cancer Dressing Service, as a home-service to cancer patients in this province The new service is in charge of Mrs. Mary Hamilton Whitelaw, RN. The service is in charge of be centered in Calgary Plans include the appointment of a nurse to visit cancer patients in other parts of the province, as the work expands.

The Cancer Dressing service will fill a great need, by providing more comfort for the patient and by climbing up the cost of dressing material which in some cases is as high as $30.00 per month

Sanatorium dressings will be prepared and disinfected free of charge to patients in private

Looma

Mr. and Mrs. William Riegel are being congratulated on the birth of a daughter

Whist parties have been the order of Saturday evenings this winter for the older Looma residents and for the younger residents too, if they care to join in. The parties have been held at the homes of Mr and Mrs. Hughes, Mr. and Mrs. Mcalmaon, Mr and Mrs. Chambers, Mr and Mrs. Hobby and Mr. and Mrs. Paterson

The Community Club held a Hard Time Dance in the hall recently. A good time was enjoyed by all. Our local orchestra is doing very well and we can safely say that day by day in every way it is getting better and better

Mr. Arthur Kilford is a patient in the Colonel Mewburn hospital in Edmonton. We all hope to see him home soon. He is missed at our social gatherings.

A number of friends held a surprise party at the home of Mr. and Mrs. J. Mclaren who celebrated their silver anniversary on January 28th. Cards and games were enjoyed by all, prizes going to Mr. Bert Cook, Miss Hazle Duncan and Mrs. Kilford. A delicious supper was prepared by the ladies. After which Mrs. John Duncan on behalf of those present, in a few well chosen words, presented a gift of silver to the happy couple.

Do you find your heart sinking? Perhaps it's of stone.

School Flashes

Curious a' Larus counts can be seen huddling around various teachers. Jenks these days. Why? The results of the exams are out! Anxious frowns have been erased or deepened by these messages. Unfortunately (or fortunately) exams were heralded in by an unseasonably severe blizzard. Those who didn't show up? (We'll give them the benefit of the doubt.) We must have had the thermometer around our necessarily severe day.

Miss says: "I am not unwilling to leave our classes, but as our guiders and proceed down to the hall for Monday? It's too cold! We're not complaining but couldn't we have chocolate colored serum for a change?

The Algebra 1 class was favored on Monday morning by an interesting talk from our Health Unit Nurse.

Basketball is in full swing. candidates for carnival queen. Joyce Wilkinson. Let's put F.H.S. on the map! Show your co-operative spirit by canvassing all possible purchasers of tickets. Let no one say we are slackers

Radio's Mechanical Brain

Experts of Britain's National Physical Laboratory are building a Mechanical Brain. The machine is called the Ace—the Automatic Computing Engine. It is claimed that the machine will solve in a few seconds problems which would make a team of mathematicians years to work out. The Ace will cost more than 100,000 pounds. In this picture one of the laboratory experts is seen at work on the

THE CIRCLE IS NOW COMPLETE

Since that cold, bleak day in December, 1939, when the 13,000 members of the 1st Canadian Division began rolling into Halifax on 35 Canadian National Railways troop trains up until the last contingent returned home on the Aquitania to the same port on January 30 last, 1,200,000 servicemen have been carried in and out of the Atlantic port by the Canadian National Railways on 2,500 troop trains.

As in the First World War, the brunt of carrying troops, supplies and munitions in the Second World War, fell most heavily upon the C.N.R., and only because of its greater mileage but because it is the only direct all-Canadian route to the Atlantic seaboard, a fact of great strategic importance as long as the United States remained a neutral country.

The tremendous job required the marshalling of 31,502 sleepers, diners, coaches and cars of other classes. To service each of the trains at least 31 railway men were used on all overnight runs which nearly all of them were—five train crew, 14 for the accompanying car, eleven porters, and the superintendent or the master mechanic who rode the train over each division Meals served are estimated at 10,000,000. To feed the 600 soldiers on one troop train, from Vancouver to Halifax, required three tons of foodstuffs had to be provided to serve the fourteen scheduled meals.

Strangely enough it was the Canard White Star's Aquitania that is shown in the top photograph as she lay tied to the dock side in 1939 that took the first Canadian soldier aboard, although a few ships were used for the full movement. The lower photographs show, right, a typical group of Canadian soldiers on their way overseas disembarking from a C.N.R. troop train at the Atlantic port, and, left, homecoming troops boarding another National System "trooper" at Halifax.

According to a recent order the minimum amount of Canadian wheat to millers' grists in England and Wales has been fixed at 35 per cent instead of 50 per cent on previously ordered.

CANADA'S *Health*

Diseases and food fads, when any epidemic or a matter of mass theories set influence, are interested Nutrition is based on scientific knowledge of food values, deficiencies and needs.

There is nothing complicated about nutrition—if one takes the Canada Food Guide as the basic knowledge is simple to apply it calls for daily consumption of such wholesome foods as milk, fruit, vegetables, meat or meat alternates and whole-grain products It also teaches methods of preparation, to conserve the maximum of the protective foods

MEN'S TIMES

Because there is nothing regularly in daily life, Winter sometimes lost habit of early morning. Parents realize the importance of giving youngsters a good start in life by providing adequate breakfast before the Dentist Hospital Scheme of the federal Health Department however, states that Grade 1 and Grade 2 children who never receive dental care

Many children receive no attention to their teeth until they enter school age The fact is an infected baby tooth can be just as dangerous as it's successor, the permanent tooth

While they hesitate to predict what effect lack of dental care by infants will have on these children in later life, the authorities declare that early regular attention will definitely reduce the number of chronic diseases of the heart, eyes, kidneys and joints.

HOW'S THAT

Experience proves that universal knowledge of rules and regulations is essential to success in a national undertaking Health leaders are always ready to lend public understanding and support. One authority says: "The whole program of preventive medicine, the entire battle of mentally neglected diseases, must pivot on co-operation of the man in the street, the person behind the plow, the counter or the pen. It is his health, his money and his future which are at stake." Infection of everyone to full compliance with health regulations intended to improve your lot, is hindered by Canadian health authorities from coast to coast.

BREATHING AT WORK

Rheumatism is one of the chief causes of absenteeism in industry and unfavorable working conditions are blamed. Experts studying relation of the disease to such environmental factors as overcrowding, inadequate ventilation and temperature are extremes believe that, as these conditions are corrected, plants may help their employees, further, by providing restroom and clothes drying facilities. There is evidence, too, that rheumatism may result from habitual shocks, blows or vibrations.

FOOD SAFETY

Canada leads most countries in legislation and scientific action to ensure safety of foods. Imported foods are checked on entry and samples of suspected cargos are tested by the Dominion Analysts. On the domestic market Food and Drug Inspectors watch for irregularities and over labelling and advertising are checked closely.

Food inspection is constant, from producer, through processor to consumer. Risk of dangerous, adulterated, contaminated or misbranded articles reaching Canadian consumers is very slight.

IT PAYS TO PLAY

A person's adjustment to his environment may be judged by his use of leisure. When used constructively, to exploit creative attitudes of the individual, to relieve monotony of the work-day and to strengthen personal associations with one's fellows, leisure time can foster healthful harmony with work and the community in general.

An expert says: "A person should draw as sharp distinction between work and play, labor and leisure, mind and body."

It is not necessary that almost all idle hours have bowling and baseball teams, social and group recreational programs. Individuals, too, have much to gain by developing reasonable periods in interesting and stimulating entertainment.

REVISED EDITION

Everest Expedition Best Equipped Yet

A new attempt to conquer Mount Everest is being planned by a British party, and the expedition will be the best equipped ever put organized. An Australian officer is the R.A.F. and a United Kingdom doctor in the R.A.M.C. will co-operate in the preparation of this venture Both have expressed themselves confident of success, climbers—compared with previous attempts—their expedition will have the advantage of all the various methods and equipment for difficult reading and assault perfected during wartime in training and carry-

bulletin reviews experimental work at the university during the past 25 years Farmers who "farm" beef cattle will find it of particular interest

Circular No. 23 on "Selecting, Fitting and Showing Beef Cattle" has also been revised and is now available The information in this circular will be found particularly useful for members of Boys' and Girls' Clubs, and deals with the selection and preparation of beef cattle for show, as well as the actual showing

ing out Commando operations. Other experience gained in the war by Air Bourne parties in reaching wounded survivors stranded in distant inaccessible places on mountains and by parachutists and other special Air Force units will be their disposal. Self-heating food, especially designed climbing suits, and modern oxygen apparatus will also prove invaluable aids Oxygen equipment has been carried on previous attempts but has had very great drawbacks of weight and cumbersomeness. The present day model overcomes these three difficulties.

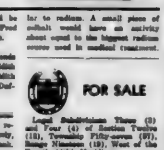
NEW COMFORTS FOR RAILWAY TRAVELLERS

Were the first of fourteen new parlor cars went into service on the Canadian National Railways recently, it marked the first era of this type built in Canada to have a private room, including many other innovations for Canadian railway travellers—comfort and convenience for one designed by C.N.R. engineers and craftsmen.

The private rooms are equipped with comfortable sofas and chairs for daytime use. They have their own toilet facilities and washbasins and are equipped with the new "sonic comfort" heating and air conditioning system, permitting the occupants to set the temperature to suit their own comfort.

The next section, shown in the top photograph, has 26 rotating and reclining chairs of a new design comfortable design. Incandescent lights, recessed over each seat, are installed in such a way that no matter in what position the occupant is turned or adjusted it provides direct overhead illumination. Vista windows, of automatic heating and air conditioning control, developed during the war, maintains the inside of the car to within one degree of a set comfortable temperature even though the outside may vary 50 degrees within a few hours. The gadget which performs all these magic is shown in the lower photograph.



Fultonvale

The annual meeting of the Good-will Club was held at the home of Mrs. C. White, and the following officers were elected for 1947:

President, Mrs. Tom Reed; Secretary, Mrs. C. Mitchell; Treasurer, Mrs. R. Lane. A special invitation is extended to all the ladies of the district to join the club and enjoy a year of pleasant work and entertainment.

A number of Fultonvale friends attended the wedding of Miss Edith Johnson, formerly of Lennox, Sask., in new' Bon Homme Home of Dalfield.

Mr. Frank Bullock who has been ill for some time is reported to be improving.

Miss Hazel Reed has been away from school on the sick list, hope you will soon be better Sunday.

Congratulations to Mr. Gordon Bell whose marriage to Miss Isobel Grosmont takes place in the near near future.

We were all sorry to hear of the loss of the Salisbury school by fire in January, and the best wishes to Andrew and teacher will be able to find a suitable place to carry on.

ATOMIC MATERIALS FOR CANCER TREATMENTS

"Atomic piles" now being built up in Harwell, England, will produce materials for treatment of cancer. They will also be used as a supplement to radium. This announcement was made by Professor Cockroft, United Kingdom Director of Atom Research. A mere rock to exhibit would be put into the pile and left there for a month, he said. But how it would have acquired properties very desirable for radium. A small piece of cobalt would have an activity about equal to the biggest radium source used in medical treatment.

I Like a Locker . . .

YOU BET I LIKE A LOCKER

I remember the old days when I used to have to take my allowance of meat, lay it on a shelf, whether it rained it or not, good meat or poor, hot weather or cold.

No more of that for me!

The Locker Plant has improved methods and equipment. My meat is kept at a temperature very close to 32 degrees. It is not in the cold chamber with other people's meat. It is individually and separately cared for and I can get what I want when I want it. I am certainly interested in the Locker Plant idea. They quick freeze meat for you and keep it for you. I am certainly interested in the Locker Plant idea. They quick freeze meat for you and keep it for you. I will be glad to tell you more about it and put in my order for a meat locker for you soon.

A locker helps to save the money you earn.

ENGAGEMENTS

Mrs. E. Shaw wishes to announce the engagement of her daughter Gladys Irene to Mr. Harold Olsen, both of Andrew.

Agricultural Service Board

There is a possibility of wheat that has been exposed to a long period of bad weather in harvesting being low in germination. Report tests on wheat in the province of Saskatchewan have shown the germination to be as low as 60 per cent.

The use of a rod tracker at the experimental farm at Scott, Saskatchewan after seeding, over the first covered years has increased yields of wheat 2½ bus. and oats 4 bus. per acre. The rod is run immediately beneath the surface of the ground about one week after seeding and destroys many weeds that are not yet showing above ground.

Shallow tillage is more efficient than deep tillage in weed control. It is the weed seeds in the upper inch or three inch layer of soil which cause major weed problems in grain production. Shallow tillage does not bring to the surface new weed seeds and destroy seedlings in greater number in a given period and at lower cost than is possible with deep tillage.

It requires 2½ bushels of water to produce 14 bushels of wheat per acre. This computation covers the brown and area, slightly less moisture is necessary in our black loam. Three feet of moist soil is equal to six inches of reserve moisture. This is one way in which we may conserve how much moisture we have to start off with in the spring.

The prairie provinces are rapidly depleting the fertility of their soils. This is particularly true of phosphorus. The amount added is hardly used up by grain growing. At time goes on the need for phosphate fertilizers will increase.

If your flock of laying hens fail to grout you, and be interested in you when you enter the poultry house at feeding time, this is a bad sign. Try feeding a little more grain stuff and adding a palatable wet mash to supplement regular rations. Dry litter and improved ventilation will also help.

Prolonging light in poultry houses in winter months, by artificial means, does not make hens lay more eggs during the year but does cause them to lay more eggs during winter months.

Feed consumption in Canada which lay an average of 210 eggs per 6 lb. hen per year, is 6 lbs. per dozen eggs produced. In flocks where the average production is only 140 eggs per bird the feed required is 8 lbs. per dozen eggs produced. This proves the wisdom of buying "bred to lay" chicks.

Out of 8,000 samples of Russian Dandelion analyzed by the Botany and Plant Pathology Division, Saskatoon Research Station Dept. of Agriculture, 226 were found because of their high rubber content —15 per cent or more.

Democracy supplies demand. Totalitarianism supply.

Around the Town

Mr. Wm. Sime and Rev. W. D Sime represented Fort Saskatchewan Thursday of last week at the regular meeting of the Edmonton Presbytery of the United Church.

Mrs. C. A. Bergman, grade 1 and 2 teacher at the Fort School, who was away from school because of sickness last week, was pleasantly surprised when her husband who is in the Air Force, stationed at Namao, arrived in the Fort last Thursday to spend a short leave with her

About thirty members and guests attended the W.I. meeting held in the Union Hall on Wednesday afternoon.

Miss Howell gave an excellent talk on the origin of St. Valentine Day. This was followed by a contest which was won by Mrs. Rose.

Readings, a contest sponsored by a cup and saucer to build up a supply and which will be used at next meeting.

Mrs. Poland who suffered a badly strained knee at a recent fall last week is reported to be improving.

A large crowd was on hand last Friday night for the first Annual Farmer's Ball, and from all reports this initial endeavor was a huge success.

During the evening Mr. J. D. McLean, M.P. for Vic. Child, spoke a few words of welcome and stated that this was the first dance ever sponsored by the Fire Department and the first attempt, if this was successful, to make it an annual affair.

Two clubs of lady curlers, skipped by Mrs. Henry deBeaver and Mrs. Reeb, left on Saturday to Lamont Thursday night for games with the lady curlers there.

NOTICE

Due to unforseen circumstances it was necessary to ask the Church Services this week. Services in all churches will be held at the regular times.

MEETINGS

The Extension Service of the Department of Agriculture in conjunction with the Agriculture Service Board of the M.D. of Strathcona, No. 20, will hold a meeting in the
BASEMENT OF SALISBURY CHURCH ON FEBRUARY 18
and at
BAST EDMONTON SCHOOL ON FEBRUARY 19.
Both Meetings will Commence at 2:30 p.m.

Forage crops and topics of general interest will be discussed by R. J. Whitbread, District Agriculturist.

Timely methods in general, including weed identification and control will be dealt with by H. L. Blain, Field Supervisor, Agricultural Service Board.

Regional Winner

H. J. VERENEDAAL

An award of $116 has been awarded to H. J. Verenedaal, Fort farmer as one of the regional winners in the $25,000 National Barley Contest sponsored by the Brewing and Malting Industries of Canada. Mr. Verenedaal placed third in Region No. 1, one of the four regions into which the province was divided for purposes of the contest.

East Edmonton

The Willing Workers' Club held their February meeting at the home of Mrs. [illegible] on Wednesday, February 5th. 14 members and 1 visitor attended. Mrs. Schoffield joined on a new member.

A whist party in February was arranged for.

The March meeting will be held on the second Wednesday, March 12th at Mrs. Warren's home.

Mr. S. Watson of Provost is a guest of his parents while attending the Curling Bonspiel in Edmonton.

The Social at [illegible] Hall [illegible] Friday, with the Northern Blue, providing the music. A good, attendance is expected.

Mr. James Anderson, stationed at Whitehorse, Yukon, has spent two weeks at home with Mrs. Anderson.

Those attending the Dairymen's Convention at Calgary this week, from the district, included Messrs. R. and G. Briggs, A. Adamson and E. E. Bunford.

Josephburg-Ardrossan Tie

After a ten minute overtime period neither team could break the deadlock in the Beaver Hills Hockey League game played on Sunday, February 9 between Ardrossan and Josephburg at Ardrossan.

Ardrossan scorers were Ted Thomlinson from Neal Walsh, the highest from Harold Gunther and the other two goals being made by [illegible] Taylor.

J. Mann from Elmer Thomas, D. Prey, J. Mann from Bonfoss and [illegible] Thomas Rose [illegible] were the Josephburg scorers.

Three penalties were handed out during the game, one to Josephburg and two to Ardrossan.

Larger Income Required to Put Community Hall on Paying Basis

The regular monthly meeting of the Fort Community Hall Board was held Wednesday evening with only a few members present.

The president called the meeting to order and the minutes of the last regular meeting were read and adopted.

The Hall Committee brought in a report on the Financial Statement of the Community Hall, and as the expenditures were somewhat larger than the receipts, some solution was sought whereby additional money could be raised for the Hall.

Several suggestions were made, and it is likely the committee will push out two or three nights in the year to hold dances and raise extra money in this way. In future the Service Club will also have to pay rent for the use of the hall for meeting nights.

Many non-profit organizations have the use of the hall free and a suggestion was made that they be charged a small fee. After discussion [illegible] was agreed that [illegible] could not be done.

Mr. McPherson, on behalf of the Beaver Hills Church requested that the money taken in for the "Bloch Coin" play be refunded to the church less the rent for the hall and the expense of advertising [illegible]

The club was asked if they would sponsor this play on a 50-50 basis which they readily accepted to do. The effort put forth by the [illegible] was so much instrumental in the play realizing such splendid support and it was felt that this request was not warranted, they however agreed the split should be made on the gross amount and it was moved that the club refund $12.50 to the Dramatic Club Board.

A letter was read asking the endorsement of the Alberta Edmonton Council Council resolution requesting [illegible] [illegible] [illegible] extra money [illegible] way. In future [illegible] [illegible] [illegible]

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITALEMD which insures that there are 3700 units of Vitamin A, 300 units of Vitamin D, 3000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for commercial use cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

« Recipes for Milady »

Whole casserole dishes made by winter suppers.

the "what have you -for or -mine" rule cause t go as far towing as some oth r canisters in it, better to 3 four s recipe. The basic components of the Consumer Section, Dominion Department of Agriculture, have suggested several interesting ones rule r mber-items for

HAVY BEAN ROYAL

1 cup white navy beans
2 cups cold water
½ teaspoon salt
2 tablespoons mild-flavored fat
2 tablespoons flour
2 cups milk
2 tablespoons chopped onion
½ cup grated cheese
1 egg
2 cups soft bread crumbs
1 tablespoon chopped parsley (optional)

Pick over, wash and soak beans overnight in cold water to cover. Drain. Simmer in salted water until tender, about 2 hours. Drain and mash. Melt fat in a saucepan, blend in flour, and cook gradually, stirring until thickened. Add onion and all but two tablespoons of cheese and milk until cheese is melted. Stir in beans, egg yolk, bread crumbs, parsley and beans. Fold in stiffly beaten egg white. Turn into a greased casserole and sprinkle the remaining 2 tablespoons of cheese on top. Set in a pan of hot water and oven-poach in a moderate oven, 350 degrees F., for 30 minutes. Six servings.

CABBAGE WITH SAUSAGE

5 cups shredded cabbage (1 medium cabbage)
1 teaspoon salt
1 cup boiling water
1 pound sausage
½ teaspoon caraway seeds
1 cup boiling water

Cook cabbage with salt in 1 cup boiling water, 5 minutes. Brown sausage in frying pan. Place in a casserole, scrape out fried shortening. Pour off all but two tablespoons of fat from the frying pan. Add 1 cup boiling water to the pan and bring to boil. Pour over cabbage and sprinkle with caraway seeds. Bake, uncovered, in a hot oven, 425 degrees F., for 10 minutes. Six servings.

NOTE: Wieners may be substituted for sausage.

CORN, TOMATO CASSEROLE

2 tablespoons fat
½ cup finely chopped onion
1 cup ground left-over cooked meat
½ teaspoon salt
1 tablespoon flour
2 cups canned tomatoes
2 cups whole kernel corn
1 teaspoon brown sugar
½ teaspoon curry powder
OR a few grains of cayenne
1 teaspoon salt
½ teaspoon paprika
¼ teaspoon Worcestershire sauce (optional)

Melt fat, add onion and cook until tender. Add meat and brown. Add flour and blend thoroughly. Add tomatoes and corn. Continue cooking, stirring constantly until thickened. Add sugar, curry powder, salt, paprika and Worcestershire sauce. Turn into a large greased casserole or baking dish and top with baking powder biscuit a. Bake in a hot oven 425 degrees F. for 20 to 30 minutes 8-9 serving.

MORE FLAX NEEDED

When planning the sowing of this season's crop, do so everyone, flax advises A. H. Wilson, Alberta's field crop commissioner. The acreage under flax has dwindled in recent years. This has been due to an all-out effort towards fodder duction

Backs Moral Re-Armament

Rear Admiral Richard E. Byrd's final message before he sailed to join his Antarctic expedition

"The re-discovery of our national faith is more important than anything I may find on these new explorations in Antarctica.

It is about six years since I returned from my last trip to the Antarctic—from the quiet wastes of snow and rock and ice to a strife-torn civilization. Often amid the crash and cruelty of the battle-fronts, or in the bitter struggle on industrial fronts, I have wished the participants could go, as I can go any where, to the end of the world and look from the perspective on the puny divisions that may wreck our planet.

Various philosophies abroad in the world today aim to cure the world's ills by a re-arrangement of the existing order. But we need a new factor. We need a new spirit in human nature itself.

Therefore we should give special priority to any agency which shows promise on a world scale of bringing this about. In this connection I would like to draw the country's attention to a world force which from my personal observation I believe is building an organic life within and between the United Nations. I refer to the work of the men and women in Moral Re-Armament.

They are making the old truths of Christianity militant for mill men in an ideological era. Their fight is the fight of every man who wants to save [illegible] home.

Not everyone of [illegible] can spend five months alone, but each of us can spend at least five minutes a day to allow the presence of events and self-centers to give away to the guidance of God. In this way the ordinary man and the ordinary woman can supply the inspired think ing that will fulfil the aspirations of democracy."

plan conditions pertaining over the south of the prairie provinces over matters that Edmonton district, if not actually a business task, is yet decidedly by ordinary hodge.

* * *

The observations of our Divisional Board into questions on article for the A.S.T.A. magazine on the topic of maintaining log divisions in the provinces of Manitoba, Mr. Hawrelak was sent down as fraternal delegate to attend the convention of Manitoba Retail Trustees.

* * *

We were greatly struck with the article appearing in last week's Record under the caption "How Your Tax Dollar is Spent". We who are on the side-lines have to very little from a financial standpoint, what our municipal councils are doing for us, that it is a real pleasure to be given some-one will say it is English). The man who contributed this article should be labelled Public Benefactor No. 1. To us, we admit, the subject matter is Greek.

* * *

Our correspondent has had each school in Lamont, R.M. supplied with a very excellent map of our Municipal District and outlined who the municipal councillor and his home district for each division is.

* * *

A letter of our brethren, retired Mr. John Robertson to come to his regular meeting and give them the low down on Municipal matters. There said he could not understand that it could be of interest to us but before the meeting was over he decided that it could be, by the way we have an unlisted pronouncery note from our Councillor Gordon Harper to give us a ring and Councillors W. and call the mats come day.

* * *

The date for meeting of the official board of the Fort Saskatchewan United Church charge has been definitely set for Thursday, February 20. Many matters of interest affecting the various points will be on the agenda. Keep the date open.

* * *

On Sunday evening, February 9 the Josephburg Reformed Church Young People had a good meeting. It was well attended and the interest shown in the short meditation is very gratifying.

A committee was appointed to look after arrangements for a social-light service for a future Sunday evening. An interesting letter was read from a correspondent who is in a Y.P. society in the Reformed church of South Shreveport, U.S.A.

If there are any young persons in or about the community who might be interested in coming out to these meetings, we will be only glad to welcome them. Our interest is hope and vacancy and the Evangelical and Reformed church does not shut its doors open to friends and neighbors.

Coming Events

Ardrossan Community League will hold a meeting at Mundare, February 18. Come and support your own organization. Members bring a lunch.

A Whist Drive will be held in the Partridge Hill Hall, Saturday, February 15, Dancing and Coffee served. 12ch

The C.G.I.T. Group will hold a Tea Rummage Sale in Hall from 2 to 5 p.m. in the United Church Classroom. Everyone welcome. p

The concluding St. George's W.A. Whist and Bridge Party will be held Monday, February 17 at the home of Mrs. C. H. Williams. Everybody welcome. 12ch

IN MEMORIAM

In loving memory of our dear mother, Mrs. Mathilda Berg, who passed away on February 3, 1945.

Sweet memories are all we have left,
Thoughts of her are always near.
Days of sadness will come o'er us,
Bringing only thoughts of tears.

Thoughts of her are always near.
Days of sadness will come o'er us,
Bringing only thoughts of tears.

But they little know the sorrow
That lies within the heart concealed,
Sadly missed by children and grandchildren.

We regret that due to an error the above in Memoriam was omitted from last week's Record.

West Elk Island

Friday night was a gala night at West Elk Island when, despite the cold weather, a large crowd turned out to the carnival. The committee in charge, Chas. Nesdoly, Ed. Cyre and Charles Lund did a splendid job of organizing the various events and the judges Messrs. Schneider, Ledlet, Cronk, Lorraine Krebs; Children's Comic, Robert Ustaszewski; Bobby Bain and Dolores Strang took first in the best skating couple.

The races, of all kinds, were keenly contested and the prizes provided much merriment for the onlookers. A major feature of the evening was the "Old Timers" which was well performed and received the most hearted applause of the crowd. The winners of the carnival was the contestant of the years. This was carried out by the hockey team. After much deliberation it was decided that they formed an outfit with their hockey sticks "mop" which the queens elected to Mrs. Ellen Cyre, manager of the hockey team. Mrs. Cyre, nominated Jean Fisher, representing West Elk Island as queen of the carnival. Other candidates representing Sherwood was a close second, Margaret Wallis of Fort Saskatchewan was third and Katherine Walsh of Ardrossan rejoiced the consolation prize. The ballot box was drawn down and Mr. W. Kelsey of Edmonton was the grocery hamper.

* * *

A group of members of the community centre are at present working on a play. Watch the Fort and District Notes for announcement of the time and places where this will be staged in the near future.

* * *

Allen Miller has the misfortune of freezing her feet during the goodwills at the carnival but quick action on the part of Jd Schneider with snow and cool off soon removed the frost. She is reported as having suffered no ill effects.

* * *

Mr. and Mrs. Harold Gabert are receiving congratulation on the birth of a daughter, Irene Elaine Gabert, in Lamont hospital on January 27.

* * *

Miss. Carousel Galloway was a visitor of Edmonton for several days.

* * *

Mrs. T. F. Hanson, Bremner visited with her sister, Mrs. Her parents in Edmonton over the week-end.

Yorkville

Miss Alice McCready of Ottawa was a visitor at the home of Mr. and Mrs. T. F. Gleeson of Bremner at the week-end.

Council Approves Grant of Gas Franchise to Northwestern Utilities

Mr. Julian Garnett, President of Northwestern Utilities Ltd. and Mr. Jefferson and Mr. Dale, engineers of the company attended the council meeting Monday night to read and discuss, discuss by-law granting the company a 20-year franchise to supply natural gas to inhabitants of the town.

The company agrees to have all installations complete by December 31, 1948, provided that it can obtain the necessary pipe.

Mr. Garnett pointed out that to date the company had contracted 10 suppliers of pipe and as yet no promise was given by any company that pipe would be supplied. One firm in England was contacted and agreed to supply some pipe providing that no export permit would be granted by the company by the British government.

When the franchise is passed and the company lay the pipes, they agree to pipe it right into all premises and install the meters at their own expense, but that the cost of the necessary pipe, fittings and burners required inside said premises would be paid by the owners of said buildings.

The town has the right to assess the company for pipes laid in the town or in lieu of that will receive 5 per cent of the gross receipts each and every year.

The company have several rates on to the franchise, such as General Rate, Commercial and Industrial Rates, etc., but the following General rates will be applicable to the majority of the residents.

First 4 M.C.F. @1.35
All additional M.C.F. 35 cents per M.C.F. per month.
Minimum $2.50 per month.

On completion of the reading of the franchise many question were put forth by councillors regarding the cost of installation, type of burners required, type of meter that will be installed etc.

These questions were answered by Mr. Dale who is in charge of this department of the company.

Mr. Dale stated that meters that will be installed will all be equipped with a safety valve which, should a break in the line occur, will automatically shut off when the pressure in the gas pipe drops to a certain point. The valve will not open again until it is safe to do so for by hand thus eliminating any possible explosion with consequent loss and discomfort to property.

Local Rink Wins Trophy at Manville

Art Simmons and his rink returned last Friday from Manville after capturing the Manville Hotel Cup and Hudson Bay Blankets after a game given at first prize. Only one game was lost out of a total of nine games played.

Other members of the rink were Ray Shackleton, Frank Smith and Ed Hahnenstein.

Art says he plans returning to Manville again next year

Another rink from the Fort skipped by Ovid Balquit with Art Pissell, Bill Coombes and Dennis Hagerman went to Wetaskiwin this week to play in their bonspiel.

A. M. Carscadden Rink Wins Gregory Trophy

Skipping a rink consisting of Jim Kelly, Ohm, Clark and J. Thorbes, A. M. Carscadden captured the Gregory Cup in the Veteran' Bonspiel played in Edmonton this week.

The rink won four games, lost one and tied two.

Skates being home the cup each player received an identic lyon, which was presented at the Wednesday night at a banquet.

Collieries Drop First Game of Total Goal Series

The Scouts Collieries have a lead of five goals or two and a half games with only one game to play. Last night at Lougheed the Scouts came to the Fort and defeated the Fairbanks Collieries by a score of 7 goals to 2.

The Scouts have a total

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITALMEND which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

Radiograms

"FIRST TIME IN RADIO HISTORY"

CJCA's technical staff and news department have just come through with another record-breaking performance.

When Sonj. Y'S ran an all-time record last week, CJCA's News Department broadcast a CBC News Roundup the very next day A few days later, when Sonj ran broke his own three-day-old record, Edmonton Golf Champion and inventor Stan Yorke flew to Sonj, contacted a courier-to-air broadcast which was carried by the CBC February 7 The Transcontinental radio feature broadcast program were listening to a record breaking message inherent as this is believed to be the first time in the history of radio that a land line remote broadcast was attempted at a point 2000 miles from a radio station It proved very successful.

The program consisted of a series of interviews with the man at Sonj, interwoven with descriptions of conditions at the coldest spot on the North American continent.

GIVES grand RELIEF FROM MISERY IN HEAD COLDS

You'll be as pleased the way a little Vicks-in-one as each record quickly soothes irritation, helps reduce congestion and relieve stuffy head cold misery. Relief is proved because Vicks-in-one brings right where trouble is to one doctors Used by millions. Try try Vicks Vicks-in-one, yourself! a

VICKS VA-TRO-NOL

Rod Yorke flew to Sonj, contacted a courier-to-air broadcast which was carried by the CBC February 7 The Transcontinental radio feature broadcast program were listening to a record breaking message inherent as this is believed to be the first time in the history of radio that a land line remote broadcast was attempted at a point 2000 miles from a radio station It proved very successful.

Literature received in the program was tremendous with comments pouring in from all parts of Canada. One listener summed up the big event broadcast in the following words, "It was a regular Jack London story."

Q. Is it beneficial to sleep on the porch in winter when the temperature is zero, if one sleeps in?

A. No, provided you are protected from the severe cold.

Q. I enjoy sleeping in the open air but during the extremely cold winter I find it very hard on my face and complexion. What inexpensive cream, lotion or treatment could you recommend to apply during the severe weather?

A. Ordinary cold cream would be as good as any.

A recent photograph of their Royal Highnesses, Princess Elizabeth and Princess Margaret Rose.

Q. Is it considered safe for a (stenographer person to change from a fairly dry to a fairly moist climate?

A. Yes, as a rule.

USE THE WANT-ADS.

Educational Council Denied Use of Radio

The recent action of the Minister of Public Works in summarily denying another use of CKUA broadcasting station, Edmonton to the Alberta Educational Council gave be considered another war ranted nor wise This Council represents some 25 rural and urban organizations which are supported by many thousands of citizens deeply concerned with the declining efficiency of Alberta schools. They have no political purposes except as all public efforts may ultimately come in conflict with people or organizations who wish things to remain as they are The chief objectives of this non-profit organization is to secure provincial aid for elementary and secondary education in 50 per cent of its cost, in order that an adequate supply of well trained teachers may be obtained and held in the profession Edmonton, as it is portrayed in many sections of the province through the Correspondence Branch of the Department of Education and through the 700 supervisors in schools, cannot but be regarded as a makeshift, a second rate affair, a necessary evil. Th. Minister of Public Works, in closing off the use of CKUA to the Alberta Educational Council became someone was offended by their broadcasts, shows some unawareness of the desire of a large proportion of Alberta citizens that these forms of instruction be abolished and that adequate money be provided to maintain first class rural and urban schools in this province

Travel Credit Cards

An international air travel card which will entitle the holder to transportation anywhere in the world over the routes of the 25 airlines participating in the plan, will shortly be distributed by Trans-Canada Air Lines. Essentially a credit device, the new card enables travellers to go around the world without carrying large sums of cash. Airlines of North America are the only ones participating in the plan so far although airlines of foreign registry may become participants.

This coming year will fix the shape of many years to come.

TRUSTED CANADIANS THROUGH CHEMISTRY

"Chemistry?

..SURE, I STARTED IT THIS YEAR!"

Well, sir, you're now meeting up with formulas and test tubes, but chemistry has been with you all your life. In one form or another it has guarded your health, helped to feed and clothe you and provided many of the things that have made your young career so restful.

Now you are learning how this great service works. Your first simple experiments are the roots from which sprung such basic products as chlorine to purify water, fertilizers to stimulate food growth, insecticides to kill pests and guard crops, and paint to protect and beautify. You know about nylon hosiery, for example. The same plastic is made as a monofilament, so strong that it is used for fishing line leaders and tennis racket strings.

Chemistry never stands still. It is constantly searching for and finding new and better products. For this is a chemical world and the C-I-L Oval is the symbol of an organization devoted to serving Canadians through chemistry.

For Indoors! PLASTIC WOOD

Here is another product of Chemistry for home and workshop. Plastic Wood fills the pores in wood, holes in plaster and cracks in masonry. Handles like putty, dries hard, sands smooth. Canadian made by Canadians, it comes in natural, Red Cedar, Mahogany Shades. Write C-I-L House, P.O. Box 10, Montreal.

WEDNESDAY, FEBRUARY 19, 1947

Now it's up to You!

At the meeting of the town council held Monday evening two very important items were on the agenda which will be an added inducement to people wishing to make permanent homes in Fort Saskatchewan.

The most important was the Franchise with the [illegible] Gas Ltd which when fully ratified will allow the company to supply the town with natural gas.

This Franchise will be placed before the ratepayers in the near future to be voted on, and every ratepayer should make it his or her business to see that it goes through.

Lack of pipeline will no doubt hold the installation of this service up for awhile, but with the full consideration of the ratepayers behind it will be a step in the right direction to a bigger and better town.

The new Electric Light contract submitted by the Calgary Power Co. provides for a substantial saving to about 90 per cent of domestic light users, with an overall yearly saving throughout the town amounting to approximately $1,800.00

This new contract has already passed its first reading and in all probability will pass the second and third readings in time for users to reap the benefits when their next bill comes due.

Home Life is Under Fire

Divorce, delinquency, cruelty to children, illegitimacy, rise to new records. Yet these are only the surface eruptions of a blood-stream that has lost its color and strength. The home life of nations is in decay. And this world disaster does not happen by chance. Godless forces are at work with a planned purpose, hoping to provide to power on moral confusion, weak will and self will, disunity and discontent.

What stands in their way? Home—strength of nations, training ground of character, sources of contentment, school of teamwork and unity. The godless forces must use every resource to diminish and destroy this, their greatest enemy. Broken or instrotten homes yield disillusioned and homesick men and women in whom a philosophy of bitterness can take root. People without the security and comfort of a sound home drift vainly looking for some other ref[illegible] else's wife, someone else's money, someone else's country. And the greed for power, appeasement, fear business-cy, suspicion, irresponsibility—all these unanswered, go from the home to the conference table to affect world affairs.

But democracy, too, has a planned program for homes. Like its enemy's, this program does not happen by chance. It comes through change. Democracy's inspired ideology is for the breadth that tells us evil so for the peace table. That ideology is born from the control of God over human nature.

In homes which live democracy the battle is not between husband and wife or parents and children, but for a common service under God's direction. Such homes have no place in or for a philosophy of godless materialism or class warfare. From them flows a stream of healthy public opinions and action, creating the will for teamwork in industry, seeking and backing sound leadership and statesmanship, and providing both a mighty position force across the world.

The ancient thing of all is to deceive one's self, for what a man wishes he generally believes to be true.

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"
[illegible] FARM [illegible] ASS'N

INFLATION

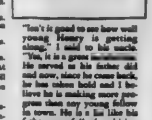
I have received a number of letters from readers asking me among the following items:— "If our farmers were to receive the full market price for wheat to-day, which today is $2.24 (charged by our Wheat Board to all other countries than Britain) instead of only $1.20 farmers are now receiving, and if farmers were to receive the same full market price for the wheat [illegible] in Canada (16 million bushels) and for wheat farmers now are credited with $1.35, would this not put so much money in the hands of the [illegible] that it would lead to inflation?"

My answer is that it would not have the slightest effect on inflation, for the reason that the extra money that farmers would receive would come out of the pockets of all the people of Canada, and so, as farmers had more money in the end of the population would have less, so the total amount of money available to buy goods would not be increased The only difference would be that the [illegible] of western Canada in Britain, and of $1.20 a bushel to Canadian people, would be borne by all the people of Canada, and not placed only on the backs of wheat producers as these subsidies are today.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The final estimate of the Unit-ed Kingdom's 1946 wheat crop harvest production at 68,216,000 bushels, compared with 81,241,000 bushels in 1945.—Damage to winter grain in France has been estimated at from 30 to 50 percent.—Australia's wheat production for 1946-47 including the maintenance of Red Cross Lodges at Department of Veterans' Affairs Hospitals; crippled children's hospitals; emergency aid and disaster relief; civilian health and relief activities; nutrition, first aid, water safety and other instructional programs of the Red Cross

"Every dollar spent of the Canadian Red Cross Society is under the close supervision of experts in finance and administration who devote their services to see to it that there is rigid economy in outlays," said Dr. Routley "And they is thorough as every cheque and each year a complete statement of receipts and expenditures is audited by Dominion Government auditors for final examination and approval."



Don Graham Comments on EVERYBODY'S BUSINESS

"Isn't it good to see how well young Henry is getting along." I said to his uncle.

Yes, it is a great pleasure. He served in his father did and now, since he came back, he has taken hold and I believe he is making more progress than any young fellow in town. He is a lot like his father was, full of ambition with a knack of doing things up and profiting from the experience of others."

"I've been glad, too, to see that in him. He has built a dozen of the best cars in town interested in him. He gave their good advice. He was wise when he consulted a trained man and took out the life insurance he could. It's the foundation of his future."

"The officials of life insurance companies are like the men who advise Henry. They are leaders who insist that the interest wisely in progress."

$5,000,000 Red Cross Appeal to Open March 3rd

[illegible] noted in the Canadian Red Cross Annual Appeal opening March 3 to $5,000,000 [illegible] the objective set-ting for this year, Dr. Fred W Routley, National Commissioner, announced.

"This National Appeal is needed to augment to the Canadian Red Cross Society's income for the year," said Dr Routley "The Red Cross Society is therefore receiving [illegible] less than $5,000,000 or more if the subscriptions to campaign should fall seriously short. Plans are still [illegible] money to meet an over budget and postpone many im-portant activities pending the out-come of the campaign. Some of the [illegible] work that is now planned Should there be a drastic reduction in the money expenditure a larger subscription total will allow us to better position to cope with the emergency needs

The gross requirements for the year are estimated at $6,241,000 which is $1,241,000 in excess of the $5,000,000 the public is asked to contribute, according to Dr Routley

"We expect income from our hospitals and from donations towards hospital work and from people in amount to something over $750,000" Dr Routley said.

"The $5,490,000 figure was arrived at from the budgets submitted by the 9 Canadian divisions, which cover 2,489 branches, together with the national office budget The activities include the extension and operation of the outpost hospital and nursing services; the assistance to veterans' work including the maintenance of Red Cross Lodges at Department of Veterans' Affairs Hospitals; crippled children's hospitals; emergency aid and disaster relief; civilian health and relief activities; nutrition, first aid, water safety and other instructional programs of the Red Cross

"Every dollar spent of the Canadian Red Cross Society is under the close supervision of experts in finance and administration who devote their services to see to it that there is rigid economy in outlays," said Dr. Routley "And they is thorough as every cheque and each year a complete statement of receipts and expenditures is audited by Dominion Government auditors for final examination and approval."

M.D. Annual Meeting Continued

Continued from Page One

adopt the report was duly moved [illegible]

A motion that the Municipal District pay for not over 20 applications for parcels of food stuff of $10 00 each to families in Europe [illegible] of the district selected in the names of parents to whom they wish parcels to be sent, was introduced. After a brief discussion the motion was lost by a very small majority.

After which the returning officer declared the meeting open for the reception of nomination papers for the office of Councillor for Divisions 1 and 3

The following resolution was then submitted "Be it resolved that this annual meeting of the Strathcona Municipal District go on record of instructing our council to make a grant for the year 1947 to the Alberta Farmers' Union on the basis of one-tenth of a mill on municipal assessment." In speaking to the resolution the mover pointed out that the formation of the Co-operative Commonwealth Federation was responsible for the extension and operation of the outpost hospital and nursing services; the assistance to veterans' work including the maintenance of Red Cross Lodges at Department of Veterans' Affairs Hospitals; crippled children's hospitals; emergency aid and disaster relief; civilian health and relief activities; nutrition, first aid, water safety and other instructional programs of the Red Cross

"Every dollar spent of the Canadian Red Cross Society is under the close supervision of experts in finance and administration who devote their services to see to it that there is rigid economy in outlays," said Dr. Routley "And they is thorough as every cheque and each year a complete statement of receipts and expenditures is audited by Dominion Government auditors for final examination and approval."

Good Roads MEAN MILLIONS To Alberta

The tourist trade is estimated to have brought nine and a half million dollars to Alberta in 1946, about one and a half times the Provincial expenditure on roads ($6,695,950 est.) for the year.

This tourist income can be multiplied as soon as we provide the kind of all-weather highway system that makes tourist travel easy and pleasant. And we need such roads for our own use and in the interests of our trade programs.

The Alberta Government is to be commended on its recently announced outlay of a $9,500,000 highway program for 1947. If this program is carried out and repeated over a period of years, we will have roads worthy of Alberta and worth a great deal more than their cost to us

« Recipes for Milady »

With best apologies to many housewives all across Canada now working for new ideas for meal time dishes. This brings up the subject of pancakes and waffles as main dishes, thus adding variety to the fish, egg, cheese, cereal or vegetable dishes usually on the menu for noonday dinner. A great number of people are not familiar with the fact that pancakes, even waffles, can also make marvels as a dish other a bowl of soup. In that case they play a double role, that of main dish and dessert rolled into one.

There are probably as many kinds of pancakes as there are nationalities. Here in Canada French and English do their pancakes differently. French pancakes made with white flour are thin, tasty, crisp and sweet while the English ones are thicker, fluffy and unsweetened. French Canadians have also another variety of pancakes made with buckwheat flour and called "Galettes de Sarrasin". This pancake or galette is also thin but is unsweetened and not as crisp as the English kind. The galettes has one great advantage over the other in that it requires no fat for cooking since it is not easily fried like ordinary pancakes but cooked until dry in a hot heavy pan.

Buckwheat pancakes or galettes are browned only on 1 side. When the top surface is dry they are lifted from the pan, lightly rolled with butter, rolled and served. In South Africa they dip his galette in either molasses, maple or cane syrup. Buckwheat pancakes, this way, are usually eaten in the fingers.

The home economists of the Consumer Section of the Dominion Department of Agriculture suggest these recipes for pancakes:

BUCKWHEAT PANCAKES OR GALETTES

2 cups buckwheat flour
1 teaspoon salt
1 teaspoon baking soda
2 cups cold water

Mix together buckwheat flour, salt and baking soda. Gradually add cold water and beat until smooth. Heat heavy frying pan, and drop a large spoonful of pancake mixture in pan, spreading the mixture with the spoon to make a pancake of about 4 inches by 6 inches. Cook until all traces of whitish uncooked batter have disappeared. Lift from pan, spread with butter, roll and dip in molasses. Six servings allowing 2 to 4 pancakes per person.

PANCAKES (French Style)

2 eggs
2 cups all-purpose flour
1 teaspoon baking powder
Pinch of salt
1½ cups milk
1½ cups water
Fat for frying

Beat eggs well. Mix and sift flour, baking powder and salt and add alternately with milk and water to the eggs. Beat until smooth. Heat heavy frying pan and add a little fat and pour in about 3 tablespoonfuls of the pancake mixture. Tilt the frying pan quickly from side to side to spread the mixture as thin. It almost covers the pan and makes the pancake very thin and lacy. When under side is golden brown and edges crisp turn pancakes and brown other side.

TURNIP PANCAKES

1 cup pastry flour
OR 1 cup bran 2 tbsps. all-purpose flour
½ teaspoon salt
1 teaspoon ground ginger
1½ teaspoons baking powder
1 eggs
1 cup milk
1 cup cooked, mashed turnip
1 tablespoon molasses
1 tablespoon melted fat

Sift together the dry ingredients. Beat eggs slightly, add the milk, mashed turnip, molasses and melted fat. Add liquid mixture to dry ingredients and blend well. Drop by spoonfuls onto a hot greased, heavy frying pan and cook until brown on bottom, and top is popping and with bubbles. Turn. Yield: 10 pancakes 3½ inches in diameter.

Six servings allowing 2 to 4 pancakes 6 inches in diameter, per person.

NOTE: These pancakes should be very thin, crisp and irregular in shape. Serve them flat or rolled with maple syrup, molasses or corn syrup.

Canadian milk tastes fine, the baby testifies. It is one of the recent arrivals from overseas which came under Canadian Red Cross escort with its war bride mother to join the demobilized father and husband in Canada. The Canadian Red Cross Escort and Reception Service officially closed February 3rd after having granted and cared for more than 61,300 war brides and their children to Canada from overseas. Red Cross Aide, shown feeding baby is Mrs. Ellen Fowler.

Collieries Win Play-off Berth by Ousting Maroons

The North Edmonton Maroons were taken for a ride last Thursday evening when the Drumheller Collieries out played them to the tune of 8-1 in the Alberta intermediate "B" puck playdowns, played of the Arena.

Don O'Connor sparked the Canmen with a trio of counters. Others were to Bill Beaton, Art Chaldbaugh, Garnet Ottewell, Bob Hanby and Hyrsch Mounier. Lone goal for Maroons was credited to Don Cole after Hanby drove his stick in the net ported.

Goal getters for Scouts Collieries, O'Connor from Beaton; Beaton from Crozier; Chaldbaugh from Ottewell; O'Connor from B. Gaul; O'Connor from Beaton, Ottewell from Chaldbaugh; Hanby from Beaton and Crozier; Mounier from Crozier.

Scouts Collieries now enter the Provincial "B" Playdowns with Lougheed.

Josephburg Downs WEI

On Tuesday, February 11, West Elk Island boys invaded Josephburg, but it was a hard struggle as the game was late getting started and West Elk Island was short handed as only eight players were available for the game.

Although the score wouldn't indicate it, (5-1 for Josephburg) the play was fairly even.

Josephburg went ahead in the first period with two goals. In the second they came again with three goals. Bennett Reynolds of West Elk Island saved his team from a shutout by going in on goals Thomas single handed and scored their lone goal. Burt Frey assisted; Don Hunter from Reynolds and Geisinger; Arnold Goldfinger from Don Barber; Arnold Goldfinger from Ernest Bodner and Burt Frey from Richard Meier were the Josephburg goal getters.

1-0 Win for Scotland

On Thursday, February 13 the Scotland team visited Josephburg for the last game of the season in the league schedule. Scotland came out victorious with a score of 1-0.

The play was brisk throughout the entire 60 minutes of play. The first period passed on and there wasn't a tally for either team. In the second period Scotland went ahead with a goal by J. Fisher assisted by S. Godsman and S. Chalowski. The play remained about even until the third period when the Josephburg team forced the Scotland team inside their blue line for most of the period but to no avail as they could not penetrate the goaltenders. All they for the whitewash and Bruce Thomas for Josephburg. This was one of the best games of the season.

FINAL STANDINGS OF TEAMS

Ist, Andrassen; Josephburg and Scotland tied and West Elk Island.	

PLAYOFFS HAVE BEGUN

The playoffs began Wednesday, February 19 when Scotland met Josephburg tonight. On Sunday, February 23 games will tell the tale as the goals of the two games are to be totaled. The winner of the two is to play Andrassen.

CANADA'S health

SMALLPOX

Smallpox is almost unknown in Canada. Many have never even seen a case of it. Yet, at the dawn of civilization here, whole settlements and tribes were destroyed by the disease. Only 60 years ago, one Canadian city of 130,000 people had 10,000 cases of Smallpox, with a death toll of 3,000.

Conquest of Smallpox is credit ed directly to vaccination. It is well to remember that vaccination must be continued. There is no natural immunity. Anyone not vaccinated may catch Smallpox. Children must be vaccinated before reaching the age of 12 months.

MENTAL ILLNESS

Casting figures to show that the number of patients in mental hospitals in Canada has doubled in 15 years, the National Committee for Mental Hygiene (Canada) is leading a campaign to arouse public support for the attack on mental illness.

Much of the increase is attributed to mental illnesses of old age, consequent upon our aging population. The committee is calling for 10,000 more hospital beds for mental patients and development of fully-trained staffs of doctors, nurses and social workers to put into practice the latest knowledge of preventive and treatment procedures.

SANITATION

As Canada's population gravitates more and more, to towns and cities, there is increasing demand for health protection against noise, smoke, odors, dust and other evils of congestion.

An alert public health engineering force in the federal health service seeks to control such hazards by studying their causes and prevention and by recommending measures for environmental sanitation to provincial and municipal authorities and to private corporations.

The Dominion is particularly concerned in ensuring safety of water for human use, adequate and efficient disposal of wastes and, among other matters, sanitary conditions for water use and for's aboard trains, ships and planes

LEPROSY

A most unknown in Canada is Leprosy, treatment of which was assumed as a federal responsibility in 1926. There are only 12 sufferers from this disease in this country in fact, only 40 have been hospitalized in Canada with leprosy in the past 50 years.

The Dominion maintains a leprosa on the north shore of New Brunswick and another on an island off our West Coast.

PLANNED LIVING

Health authorities point to the marked improvement as physician conditions of the majority of those who served in the armed forces during the war as proof of the value of planned living.

Emil ince show that, when regularity and discipline are invoked, benefit is most apparent. This is further noted in connection with boarding schools, summer camps, and even corrective institutions.

Wise Canadians will, therefore, stick to schedule in their personal living, keeping meals on time, having regular hours of sleep, and preventing as few interruptions of routine as possible. The value of regularity in a child's upbringing is most known.

GRAY MEALYB

In this modern age nearly everyone appreciates the close relationship between dental health and physical well-being. Persons with unclean mouths and broken-down or badly-infected teeth can scarcely expect to maintain healthy, well-nourished bodies. Free from

Education and the Problem of Human Relationships

The following is a speech made by Hon. E. C. Manning and contributed by Mr. Leo Piercy

We have been privileged to receive a copy of the masterly address delivered by Hon. E. C. Manning at a dinner tendered to the Canada and Newfoundland Educational Association by the government last August. We should dearly love to see this address in the hands of every Bulding Canadian, say, of every thinking world-citizen.

Mr. Manning chose as his topic "Education and the Problem of Human Relationships".

"Just where and how does the broad field of education merge into the troubled world scene of today? What bearing has education on the efforts of men and nations to solve the complex problem of human relationships?"

After glancing at the fearful pace which humanity has paid to achieve a military victory over the forces of tyranny Mr. Manning expressed the gravest concern that "even before the last battle has died in our ears, before the grass has grown green over the graves of those who made the supreme sacrifice, we are confronted with the appalling fact that already there are grave doubts as to the ability of the people of the earth to live amicably together in the world where freedom from enslavement they united to purchase at such a fearful cost".

He proceeded to appraise the vast accomplishments of science in such matters as communication, transportation and the ability to produce "unprecedented destruction" of human kind with such weapons as the atomic bomb. "Whether our scientific progress throughout the centuries and its abundant harvest in our present day and generation, is in reality to be a blessing or a curse, a magic agent to serve us as our benefactors, or a Frankenstein to destroy those who gave it birth, all hangs on our ability, as men and nations, to live together . . . justly in this world."

Mr. Manning went on to deplore the human tendency to look to Georges'—"to rely upon . . . a small group of men in the U.N.O. or any government" to solve the problems of human relationships from the top down. "It is but simple logic" he continues "that if you cannot solve a problem when confronted with it on a community, it is hopelessly harder to solve it when it is magnified to the greatest dimensions to which it can be enlarged".

World conferences, dominion provincial conferences, industrial councils, individual differences all point to the fact that no solution of the problem is in sight.

Mr. Manning recognizes three barriers blocking progress: the inadequate sense of personal responsibility, the passive swamp of ignorance in the slightest of inherent human selfishness.

With regard to the first, democracy realizes as they are all entitled to endless privileges but, that each privilege carries with it a responsibility.

In the case of the second we are no prone to accept the dictum of progress is, rather than receive a problem to solve. Superstitions forms Fears and superstitions are the true children of ignorance. With regard to the selfish nose, "no other trait, inherent in human nature does more to destroy the spirit of brotherhood or to override the inclination of men and nations to do that which they know to be in the common good". It is the proverbial weakest link in the chain of human unity.

What then can scientists do to remove the barriers to peace?

It can actively stimulate the idea of personal responsibility in future citizens, while the citizens are at their impressionable age.

It can train and prepare men and women to seek and to find and to appreciate whatsoever things are true".

It can teach, preach and practice Christian ideals—then shall love thy neighbor as thyself for the greatest of these is charity and kindness.

"My claim to you", (education

An education exhibit on potatoes will be arranged and placed on display by J. W. Merrill, Dominion Potato Inspection Service, Bleasby-Reay Building, Edmonton.

Your District AgricuHurist at Edmonton is R. J. Whitbread and his office is located in the Massey-Harris Building at 10126 100A Street. His telephone number is 22656. The District Agriculturist stands ready to serve and assist you at all times with respect to your farming problems. It will pay you to see him.

More Profit in Early Chicks

Brooder units were Canadian shell seen in the fall and winter months and as prevented hungry pens that will secure a profitable return to producers. Chicks started every month of the year and March would be the first month in the year that farmers contracts with Ralston secure a market for millions of broilers. Ralston Purina Co. is the first to work to get the most profit from their poultry as by-product feeding. When the chicks are delivered don't overcrowd them.

Agricultural Minister Gardiner said in Regina recently that the federal government was committed to spend $110,000,000 on irrigation projects in Western Canada.

The Red Cross carries on. Do your part by contributing to this worthy organization.

$1,000 in Prizes In Recipe Contest

Farm women are being urged by the Alberta Government Travel Bureau to compose a dish which will be distinctively Albertan and which will send tourists who visit this province back to their own home towns raving about the good food they got whilst on holidays in this fair province.

Boston has its baked beans, Halifax its chil con carne and even Winnipeg has its Winnipeg goldeye so we, here in Alberta where world-champion food products are produced, should have a dish for which we can become famous internationally," said Dan. S. C. Campbell, director of the Travel Bureau.

Tourists like our beef steaks and I can't think of a better meal dish to give them, but they can get good steaks in other places so we want ours to be some thing that will attract normal with a distinctive sauce or cooked in some special way which will make it famous for Albertanous all over the world," Mr. Campbell added.

Conditions of the contest and entry blanks can be had by sheet-ed from the local Treasury Branch or by writing direct to the Alberta Government Travel Bureau, Legislature Building, Edmonton.

Ardrossan

The third meeting of the Ardrossan Community League was held in Minor School, Tuesday, February 18.

The meeting was fairly well attended, but not well enough. Come on folks where is the community spirit.

* * *

The Ardrossan Young People held their regular meeting at the home of Rosemary Hill.

* * *

We are glad to report that Billy Hughes is on the sick list.

* * *

Bill Hughes is a week-end visitor at his home.

* * *

Donald (Dude) Reader was also a week-end visitor in the district.

Griesbach

The U.F.W.A. Whist Drive held at the home of Mr. and Mrs. Stan Wallace was very successful. Prizes were won by Geordie Cameron and Mrs. Hart Phillips with consolations going to Joe Pierce and Mrs. E. Hanson.

* * *

Mrs. Tom Johnston has returned home from Vancouver where she has been visiting her daughter.

* * *

Mrs. R. Hamilton had as her guest her mother, Mrs. R. Hanley of Josephburg.

* * *

Mr. and Mrs. Alden Hart are spending a few days near Plymouth camp.

Yorkville

Mrs. G. J. Dawson returned home from Edmonton where she had been visiting several days visiting friends in the city.

* * *

The Fort Basil U.F.W.A. will meet at Yorkville School on Thursday evening Feb. 25 at 8 o'clock.

The report from the convention will be given by Mr. R. A. Stetson. Everybody welcome.

* * *

We are very pleased to hear that Mrs. George Ingram Johnson is getting around nicely in the hospital in Edmonton where she has been receiving treatments. We wish her a very speedy recovery.

* * *

The Fort Basil U.F.W.A. met at the home of Mrs. Medlake and Mrs. Turpure on Wednesday afternoon.

Egg Wanted

Shipments of fresh eggs to Britain by the Special Products Board from September 1, 1946 to the end of January 1947 reached 14,448,000 dozen or 1,910,000 dozen more than was estimated, states the Dominion Department of Agriculture.

During the next six months the board expects to use one-third of all Canadian eggs offered for export.

TENDERS

FOR SALE, DORMITORY AT LEDUC, ALBERTA

Tenders will be received at Clover Bar School Divisional Office, 10 Dominion Bank Chambers, Edmonton, Alberta up to noon Tuesday, February 25th, 1947 for the land and buildings, with or without contents, recently occupied as a school dormitory in Leduc, Alberta. The highest or any tender not necessarily accepted. Further data can be obtained at Divisional office.

G. E. Rocher,
Secy.-Treas.

"MUM"

Beth Lauderbie was prominent in Winnipeg's theatre and radio activities before going to Toronto last summer to create the role of "Mum" in the humorous family drama, Alan and Mo. In addition to playing in this program, Miss Lauderbie is heard frequently in CBC drama series, and is director of the juvenile drama department of the Association of Radio Arts.

* * *

The Dominion Government is to export 400,000 tons of coal to Britain in part repayment for conversion to sugar any powder, and the remainder for shipment to Britain as fresh shell eggs, with 600,000 cases or 18,000,000 dozen, going into storage for shipment next fall.

The board has for its objective for the British contract 1,800,000 cases or 48,600,000 dozen fresh eggs in the period between September 1, 1947 and January 31, 1948, the latest to be being the laydown date of shipments at Canadian seaboard.

Officer-in-Charge, Dominion Laboratory of Cereal Breeding, Winnipeg, Manitoba.

Canary Cuts

Many farmers are asking for further information on the new variety of oats that has recently been named "Garry."

Breeding Work. The work at the Dominion Laboratory of Cereal Breeding, begun in 1925, has been concentrated from the first on the development of cereal varieties that are resistant to disease. At the outset it was realized that complete resistance to all diseases of importance could not be combined in one variety in one step; that it would be necessary to proceed by stages. Consequently, in the oat breeding work, which has been continuously under the direction of J. G. Wm. the first group of new varieties produced, namely, Vanguard, Ajax, and Exeter, were resistant to the commonly occurring races of stem rust but did not have resistance to other races of stem rust which, until recently, were quite rare in Western Canada. Unfortunately, these varieties were also susceptible to crown rust and to smut.

Resistance to Rust and Smut. In the production of the new variety "Garry," the breeding work has passed beyond the first stage. For instance, it has now been possible to combine in one variety not only resistance to all the known races of stem rust but resistance to crown rust and smut as well. In addition to this improved disease resistance Garry oats have good strength of straw, are medium early in time of maturity, and produce a good plump sample of white oats.

Seed Distribution. Seed of Garry oats will not be available for general distribution until the end of the 1947 crop season. Applications received, however, may be sent to the Dominion Laboratory of Cereal Breeding at the University of Manitoba, Winnipeg. They will be kept on file and looked after at the first opportunity.

Due to some of the married men losing on the sick list, the game married men vs. bdgs. which was to have been played last Tuesday was postponed until this coming Monday, March 3rd.

* * *

The United Church W.A. will hold their meeting at the home of Mrs. Chas. Lowe, Wednesday, March 5 at 2 p.m.

* * *

The C.G.I.T. group held a skating party last Monday night.

After skating and fireside group trooped back to the Union Hall to enjoy games, dancing and eating. Mrs. Westwater and Mrs. Phillips supervised the lunch, while Mr. Siddall supplied the music for dancing, both were very much appreciated.

* * *

The St. George's W.A. will hold their monthly meeting at the home of Mrs. C P Bradshaw, Wednesday March 5th at 2 p.m.

* * *

Mrs. W. D. Bass has been called to Victoria, B.C., by the sudden death there Tuesday morning, February 25th, of her father, Mr. J. L. (Ray) Kingsbury.

Mr. Kingsbury had retired to the coast only two years ago after many years residence in Edmonton, where he was a well-known steamfitter, a keen curler and an elder of Norwood United Church. He had visited his daughter last winter, and was known to quite a number of Fort residents. He leaves to mourn his loss, his loving wife, in Victoria, and Mrs. Bass, their only child.

* * *

The Fort Legion Curlers were hostesses to the Lamont Lady Curlers last Sunday afternoon.

Competition was keen but the Fort lost on both accounts.

After the strenuous curling games a tasty lunch was served by the Fort Curlers.

Salisbury

Complimenting Miss Gladys Abegg of South Edmonton whose marriage will take place soon to Mr. Roy Somerby also of South Edmonton.

Misses Irene Hunter and Margaret Tobeman entertained at a miscellaneous shower last Wednesday.

Games played were the Mrs. Sid Bell, J. Bell, C. Bell, Mrs. Eddy, D. Daily, C. Hartlen, R. Hallnet Jr., W. Hunford, D. Hunter, F. Hayduchuk, Mrs. Gray, O. Jamieson, A. J. Ostervall, W. Ostervall, A. Cride, Wm. Stephens, J. Stephens, J. Hunter, R. Hunter, Mrs. Hallnet, Glen Hunford, H. Souther, F. Souther, Wm. Kovalchuk, J. Bergen, O. Musgrave, Ce Wade and P. Yeheeles, and the Misses F. F. Hunford, M. Stephens, E. Daly, E. Hunford, J. Hunford, R. Stannard, F. South, E. Kost, A. Thomson, M. Thomas, H. Musgrave, V. Yeheeles and J. Yeheeles.

* * *

A whist drive was held at the home of Mr. and Mrs. Wm. Kovalchuk with 8 tables playing. The prizes went to, 1st, Mrs. Tobeman, 2nd Mrs. L. Kost, Consolation Mrs. Ed. Henry. Gent playing high went to Rod. Tobeman, 1st, L. Kost, 2nd Glen Hunford, Consolation, Bert Thompson.

A lovely lunch was served by the hostess, and an enjoyable evening had by all.

* * *

Wishing a speedy recovery to Mrs. L. Lutz, Mrs. J. Bell, Mrs. Geo. Hunford and Mrs. F. Hayduchuk.

* * *

Congratulations to Mr. and Mrs. Hajdu on the birth of a son.

Fort Bonspiel Opens March 4

The Fort Saskatchewan Curling Club is putting on an open bonspiel consisting of rinks from Sherwood, Josephburg and Bruderheim, Josephburg and Bruderheim Hills, it is expected there will be 20 rinks entered including 12 from the Fort Saskatchewan Club

The Calgary Power Co. is donating special prizes for the event and other prizes for different competitions will be raised by donations from the business men of the town

Entry fees are $4.00 a rink and all entries are to be in the hands of secretary, A. R. King, by Saturday, March 1st, and the draw will be announced over the week-end.

United Church Board Meeting Held Monday

Additional Sunday services in First United Church, Fort Saskatchewan, were arranged for when the official board of the Fort Saskatchewan Pastoral Charge met on Monday evening, Feb. 24, in First United Church. Beginning March 16th Church will have services only on the 2nd and 4th Sundays of the month instead of every Sunday. The time then scheduled will be used for evening services in First United Church on the 1st and 3rd Sundays of the month (and the 5th Sunday, when there is one.) Morning services in First United Church will continue to be held every Sunday, as in the past. No changes will be made in the schedule at Pantridge Hill and Ypres Valley, although the latter point was empowered to make some readjustments if a congregational meeting requests it. The new schedule for Fort Saskatchewan and Beaver Hills takes effect with Sunday, March 2nd.

Dr. G. H. Turner and Mrs. A. Osbaldeston were elected to represent the Fort Saskatchewan Charge at the Edmonton Presbytery, and the alternates.

The financial delegatems of the Sherwood churches were revised in the light of the changes of schedule, and other routine annual business was completed.

At the conclusion of the meeting a purse of money was presented to Miss Ruth Hutchison by Mr. L. L. Piercy on behalf of the rural churches in appreciation of her splendid Sunday work as assistant-secretary-treasurer of the Pastoral Charge.

The attendance from all the churches was good in spite of heavy roads. The meeting concluded with substantial refreshments served by the ladies of Beaver Hills and Ypres Valley.

South Cooking Lake

At Frankin School last Saturday evening, the postponed Valentine concert drew together a goodly crowd and a large amount of money, school attendance and, therefore, to rehearsals; nevertheless the solos, duets, trios, choruses and two short plays were well given by the boys and girls and ably supported by the Mothers. The arrangement of the program was provided by the two plays: "Preparing for Company", an instant from Harris's Window in Throne, and "Handsome Harry" from W. W. Jacobs' Sea Whispers. Punch, a puppet, must not be forgotten, for his grotesque dancing delighted both little people and big.

A social hour followed, when

Continued on Page Six.

Miss Alice Miller Crowned Queen Of Fort Curling Club Winter Carnival

Representing West Elk Island, Miss Alice Miller was the successful choice to rule as Queen of the Fort Curling Club Carnival held last Friday

The long-awaited rules crammed with gold, Miss Miller was escorted to her throne by Miss Joyce Wilkins and Miss Alice Thomas, where she received her crown of gold from Mr. Floyd H Baker, who expressed his pleasure as the end chosen for this honor.

The carnival got underway at 9 o'clock Friday morning with a Farmers' Bonspiel in which twelve rinks entered. Drawn for the first opening play were rinks skipped by Messrs Allsnech vs Whitson and Cranston vs H Clark Winners in the first round were Allsnech and Clark On the 11 o'clock draw Douglas vs Thomas and Reynolds vs Shackleton rinks started during the ice with Thomas and Shackleton emerging the victors Thomas vs Rice and Under-Judels vs Clark started the afternoon session with Thorne and Underdahls taking the honors.

The winning rinks then went in the first session and the losers in the second round. The finals of these games were played on the Saturday with the following results: Thomas, Rice, Underdahl and Underdahls. Second session: H. Clark, Beiejoli and Cranston.

The Dog Derby was the final item on the program in the afternoon with four entries Misses Joyce Wilkins and Alice Miller, Messrs. Martial Marinoff and Ken Thomas Jr.

Whoever is in the lead and gets home were as follows:

Boy's Events—Eight years and Two years and under, Boyer, Duncan, Legal. Twelve years and under, Richardson, Whitford, Henderson. Fourteen years and under, Martinen, Bradshaw, Rose.

Girls' Events—Eight years and under, Holt, Johnstone. Ten years and under, Johnson, Hill, Ross. Twelve years and under, Thomas, Hamlin, Walker; Fifteen years and under, Bowen, Banks, Keith.

Quite a number of spectators were on hand to witness the bonny contests and the Maple Leaf Juveniles and the Fort School Team when they mingled in the afternoon. The brand of hockey displayed by both teams was enjoyed by all and ended with the Maple Leafs who got out the Fort boys 4-2.

Plans on the card for the evening were the Senior Races, which were won by the following:

Men's Race—Thomas Jones and under Eaglesham, Galloway, Rigsel. Sixteen years and over, Gouf, Bourke, Galloway.

Ladies' Events—Ladies' Open Race—Misses Schroter, Chris Robertson, Lois Mohr

The men's Baby race was won by the Chief team.

The Barrel Jumping contest was won by Edward Guilbeaux who cleared 6 barrels to take top honors.

Some very good fancy and comic costumes were on parade during the evening and the judges, Mr and Mrs J D McLean and Mr and Mrs C D Jones awarded prizes to the following:

Ladies' Fancy Dress—Mrs. W. A. Johnstone as a Gypsy and Mrs. W. D. Bass as a Chinese.

Comic - Fancy Dress—Stewart Barker as Superman. Jean Wicks as Gypsy

Ladies' Comic—Cross Dresses as Harvest Hand and Mrs. Wm. Compton as a Clown.

The Children's Events were won by Ken Robertson and Lawrence Bradshaw and Eileen Rippel and Gladys Holt

A banking game between West Elk Island Curlers and Beaver was the final event for the outdoor activities with the Islanders winning by a score 4-3.

To bring to a close a very successful carnival, a dance was held in the Community Hall until the early hours of the morning.

The ladies of the Fort Curling Club did an excellent job of catering to the needs of the hungry. They were on duty from noon till 8 p.m. at the rink and again at midnight for the dance.

Mothers Attend As Brownies Receive Pins

The last Brownie meeting was a fun bit out of the of the ordinary, being an enrolment of number "Brownie Bun", and with mothers present as guests of honor members of a world wide organization.

After the opening of the meeting, the Brownies and guests joined in a game, following this the Guide Captain, Mrs. W. W. Johnson presented the following with their pins:

Joan Saros, Annette and Helen Wilson, Lorraine Hamilton, Doris Coulombe and Beryl and Merle Wilson.

The promotion took place at the Monday Pow! by the Tenderfoot. To bring a very pleasant afternoon to a close the Brownies served refreshments.

Might add that visitors are most welcome at any time and whether you have a Brownie 9½ or Brownie in your family you may enjoy popping in to see what is done at Brownie meetings and how it is done.

"In the Legislature"

By F. H. Baker, M.L.A.

The fourth session of the Tenth Legislative Assembly of Alberta got underway Thursday last with the Lieutenant Governor, J. C. Bowen, in the absence of the Lieutenant Governor, J. C. Bowen, the Honorable Ulsham, Chief Justice Hannah Harvey, as Administrator, read the speech from the Throne to a packed House and gallery.

Indications in the Throne speech predict one of the best sessions yet. Of particular interest to Alberta farmers was the announcement that the Social Service Tax would be abolished during the present session.

Good news for old age pensioners was contained in the speech from the Throne, providing free medical and hospital care for all old age pensioners, recipients of mothers' allowances, blind pensioners, and other dependents.

Of further benefit to the farming population was the announcement that the number of District Agriculturists and District Home Demonstrators would be increased during the coming year. Every effort is being made, in co-operation with the Federal Government, to develop up on a large scale the water resources of the province. This means the development of more irrigation projects at an early date. Efforts will be continued to work out a Dominion-Provincial program for the reclamation of the wasteland on the eastern slope.

Attention is being directed to rural electrification, and an expansion in this field is anticipated as soon as material is available. Additional full-time health units will be established as soon as trained personnel are available, and of interest to hospitals is the announcement that the government will increase the amount of its per diem grants.

Educational grants will be increased, and more particularly in this connection will be forthcoming when the budget is presented.

A very widespread and comprehensive program of highway construction is anticipated. Municipalities are promised increased assistance for the development of market roads.

Amendments to the Alberta Bill of Rights will be introduced. The government proposes to appeal to the Privy Council the finding of the Alberta Supreme Court with respect to the Alberta Bill of Rights as passed at the last session.

It is my intention, through the courtesy of the editor of this paper, to supply weekly summaries of the legislative doings in the form of the present session. The public will be informed fast year through the courtesy of the editor, and much satisfaction has been expressed by the public generally.

The next few days will be taken up with the debate of the speech from the Throne. The debate was opened when Mr. H. H. Cook, M.L.A. for Grouard, got unction to adopt the speech, which was seconded by Mr. J. Ford, M.L.A. for Redwater. But more details of this, next week.

Richardson Rink Takes F.H.S. Spiel

The F.H.S. students are showing marked interest and ability in the art of Broom and Stone

The winners of the first draw, consisting of seven rinks, to decided last week when Mr Rutherford's rink defeated Mr. Larsen's by a score of 11-4. Joey McLellan took the consolation from Miss Hayrdal by a close 7-6

Play has now begun on a second draw in which ten rinks are competing. Prizes have been donated by the Fort Radio Electric, Bird and White Store, Dawson and Jones and Davies and Williston. It is to be hoped that another year will feature inter-school competition and a rink or two to vie with the senior amateurs

Final Standing Of N.W.H.L.

The final standing in the Northwest Hockey League:

1. Leduc
2. Calmar
3. North Edmonton
4. Morinville
5. Beaumont
6. Fort Saskatchewan
7. Thorsby

Leduc has been drawn to play against North Edmonton and Calmar against Morinville. This will be a two game series, with total goals to count. The winners will then be drawn in the finals to be completed next week

The bottom three teams are dropped from the play-offs.

Brookville

John MacDonald has left our district to take up farming in the Coronation district

* * *

The February meeting of the Brookville Ladies' Aid was held at the home of Mrs. Jean Scherer. A good crowd was in attendance and several social functions were planned for the future

* * *

Mr Joe Carapiet has been in the hospital for the past several weeks. We hope he will soon soon and is able to come home

* * *

Congratulations are going out to two families on the birth of daughters. The first to Mr and Mrs. Ben Kisch, Coral Irene and Mr. and Mrs. Bob Cain, Eleanor Hope.

* * *

An epidemic of chickenpox is raging through the school now.

* * *

Mrs. Kisch Sr. has been visiting with her son, Ben, while Mrs. Kisch Jr. was in hospital.

Josephburg

Ed Underhaltz returned in triumph from the Manville Bonspiel, literally 'with the bacon'. The rink of which he was a participant carried the Consolation Cup along with a handsome rug for each member. Congratulations Ed, and although you did battle under colors not rightly belonging to your club.

* * *

Congratulations also to the Fort Curlers for the very successful carnival staged there on Friday. We would like to have seen our candidate, Alice Thomas, receiving the homage of the other competing queens, but it was not to be.

* * *

The Beaver Hills Dramatic Club wound up its campaigns with visits to Lamont and to Clover Bar Village. Both centres gave them a royal welcome. At Clover Bar Mr. Kieth did the honors in his usual able manner. To some of us at least it seemed a trip to see the home-folks and right glad were we to renew the acquaintance of old and trusted friends. The ladies of the congregation extended their hospitality at the specialties.

* * *

There is still the odd case of chickenpox causing a depletion in the school attendance but for the most part our district has been remarkably free of sickness this winter. It almost looks as though there is some truth in the idea that well-aerated ground makes for health.

* * *

On Saturday next Clover Bar Sub-Local Teachers' Organization is holding its annual banquet at the Crown at 6 p.m. All teachers, whether members in good standing or not, are welcome to attend along with their friends. The committee in charge promises and an enjoyable evening is guaranteed to all guests. For further details contact your steward. Miss Geary (Mrs. Ed. Swanson, phone 52024, has been appointed convener of the committee in charge.

* * *

Sometime ago in these columns it was mentioned that the Josephburg Reformed Church Young People were planning a sleigh ride party. That party is on Sunday evening, with all the thrills and spills at no extra charge. Arnold Geisbrecht's Cockshutt very nobly pulled the overloaded sleigh up and down the country's by-ways until hunger made them turn in at Mrs. Kisch's for lunch. The rest of the evening was spent eating and singing songs.

Bremner

The annual meeting of the Bremner Community Hall Association will be held in the hall, Wednesday, March 12th at 8:30 p.m.

Service Club Meeting

The regular meeting of the Fort Community Service and Chamber of Commerce will be held

Wednesday, March 12th

at 8:30 p.m. in the

Community Hall

Mr. F. H. NEWCOMBE, Supervisor of District Agriculturists and Mr. R. J. WHITEHEAD, District Agriculturist will be present to address the meeting and to show a moving picture.

A report of the Agricultural Short Course will be given by our delegate, Ken Galloway.

EVERYBODY WELCOME

Support Your Service Club

LEGION MEETING

The regular meeting of the Fort Saskatchewan Branch No. 97 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, March 4 at 8 p.m.

ELECTION OF OFFICERS FOR 1947 WILL BE HELD

All members are requested to be present.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMEXID which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the exuberance of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil. Riboflavin, milk products, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising heavy breeds and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

EDMONTON

Radiograms

THE FIRST QUARTER

CJCA's first quarter century of operation will soon be water under the bridge. In a matter of weeks CJCA will be celebrating the memorable event 25 years ago which brought radio to Northern Alberta. On May 1, 1922 the late D. H. Duggan, then mayor of Edmonton, officially opened CJCA with a message which accidentally was heard in Calgary and High River.

Three days later the McDougall Church Choir sang over the air. A week later the Edmonton Rotary Club meeting was broadcast. Captain Gower, "The Farmer" joined the staff three years later, and the still famous "Kiddies Program" became a reality a short time later.

To McIntyre's Ltd. goes the distinction of being the first time buyers on CJCA.

The Kennedy Boys was the first "network" program carried by CJCA. This was October 3, 1922.

With this, commercial radio was established and the modern of radio became more than a mere plaything—a mere source of entertainment and amusement.

From that point onward radio, and CJCA as part of it, have moved forward with tremendous strides.

Today, only 25 years later, radio is a major public service, with boundless possibilities. What lies ahead nobody knows, but the broadcasting future offers frequency modulation, followed by facsimile, followed by television.

Meantime CJCA's plans call for celebrating jointly the 20th Anniversary and the increase in power to 5000 watts, both scheduled for the latter part of April.

Lady From Texas

The charming young lady in the picture is *Jinty Potter*, whose Tales of Texas are heard on CBC's Trans-Canada network. Miss Potter is a genuine Texan who formerly lived on a 10,000 acre ranch near Austin, but now makes her home in Toronto.

ORGAN POWER SPRAYER

Trucks and power spray equipment used for applying poisonous wash on cattle for the control of warble fly, and also for spraying barley smuts and other purposes, are now in short supply Manufacturers of trucks and spraying equipment say that orders for these machines to be delivered early in 1947 should be placed without delay.

Q. Why are spring and autumn said to be the worst times of the year for consumptives?

A. The change of seasons, or the snake and brush of winter, seem to be consequences by more rigorous fresh tuberculosis. In all probability the change from free vestibuli s and sensibles of the out-of-doors to overheated, stuffy house air and lack of sunshine, and the prevalence of respiratory infections at these seasons, have something to do with it.

Q. Is your opinion has climate anything to do with the successful cure of tuberculosis?

A. Yes, climate does have something to do with the successful cure of tuberculosis, but not to any important. For the majority of cases the climate in which the patient has been living is unfitting.

« Recipes for Milady »

Vegetables are an indispensable item of food the year around. For luncheons and dinners they form the mainstay of the meal, along with the meat served. Winter or "frost" vegetables as they are call ed, include a wide variety such as carrots, parsnips, beets, turnips, onions and potatoes. This gives the housemaker ample opportunity for serving one or more of these vegetables along with the usual potatoes. Besides contributing to our well-being, they add eye and appetite appeal to the foods served, when 2 or more are combined. They give the tasteful animal to color, texture and flavor.

During the summer months the succulent, green, leafy varieties are abundant. In winter these types are usually imported and their cost is prohibitive. But what is no excuse for not serving vegetables with winter meals. The vegetables canned from "garden" surplus, also make a valuable contribution to winter meals. If the housewife can is made of her family and canned vegetables during the winter months, there should be no need for the old fashioned "spring fever".

Do not always serve these vegetables in the same way. The home economics staff of the Canadian Canning Association, Dominion Department of Agriculture would like to suggest a few simple ways of "dressing up" the vegetables and "dressing up" to avoid monotony. Both root and canned vegetables make delicious scalloped dishes. A plain steam sweet may be used or a white sauce, cheese may be added to give zest. Scallops are always a tempting way to prepare white vegetables or one vegetable may be used to stuff another

To give variety to plain boiled vegetables, mix two or more kinds together and serve "macedoine" style. Some lemon juice is also served by changing the shape e.g. if you always serve carrots diced, try them cut in long, thin slices "julienne" style. Turnips may be cut in the same way. Cook turnips in a small quantity of boiling salted water, in a tightly covered saucepan, only until tender

Another tip that may be appreciated is, what vegetables go well together, such as . . . green beans and thinly sliced carrots; a border of mashed turnips filled with green peas; parsnip fricandeaux and sliced beets; mashed carrots and cauliflower, sprinkled

* * *

VITAMIN SALAD

2 tablespoons melted fat
1 cup canned whole kernel corn
1 cup diced, cooked turnips
1 cup diced, cooked carrots
1 teaspoon grated onion
2 cups canned tomatoes
1 tablespoon sugar
½ teaspoon salt
½ teaspoon pepper
4 slices bread, cut in cubes

In saucepan place 2 tablespoons fat, the vegetables mixed together, the seasonings and bread cubes. Heat well. Transfer to a greased casserole or baking dish and top with remaining fat. Place under broiler until top has browned about 10 minutes. Six servings.

* * *

PARSNIP CROQUETTES

2 cups mashed parsnips (about 3 medium parsnips)
1 egg yolk
½ teaspoon pepper
½ teaspoon celery salt
½ teaspoon salt
1 tablespoon melted butter
Dried dry bread crumbs
1 egg white
2 tablespoons water

Combine parsnips, egg yolk, slightly beaten, seasonings and butter. Shape into rolls about 2½ inches in length. Roll in crumbs, then in slightly beaten egg white to which the water has been added. Roll in crumbs again. Reheat and brown under broiler, or cook in hot fat. Six servings.

THE RED CROSS
CARRIES ON

Our men and women back from the world battlefields often tell how the Red Cross was there to aid and comfort them on the worst days of their lives. Now the Red Cross asks those who answered such noble support during the war, to help bring the Red Cross saving to peace.

Today there are thousands of sick and disabled veterans who need the continued help and friendship of the Red Cross. Isolated Pioneers and outposts and Company Hospitals and nursing service—these are only medical aid. Only the Red Cross gives children's camps, and educational and organized. Music, courses and clubs across Canada and the Blood Transfusion Service and the Red Cross has started to supply.

Will you continue to lend your help to sick and suffering humanity? The Red Cross work is your work.

The Province Needs This Organization

Some people believe that most communities in Western Canada are over-organized, that they have too many groups—social, religious, political — which pursue some special purpose and cook the support of the already overworked citizens. Sometimes the recently formed Alberta Education Council will get a favorable reception from the people of the province once its avowed purpose of securing increased financial support for schools is made clear. But, generally speaking, the Alberta Educational Council has been received with coldness. It has been frowned to being together many of the provincial societies which are interested in educational progress, and to get them to think and to act co-operatively in an effort to remedy the bad plight of education in Alberta people have something else are protesting against the old tradition of making land and shelter pay for the schools. We have got to the point where every little improvement we make in the child's training in our schools means a boost in the mill-rate.

There are just two things indispensable to our Western economy, viz., land to grow our products and shelter to keep us from being frozen to death. Why these two indispensables should have to carry all, or nearly all the cost of educating our children is beyond the understanding of most thinking people. The Alberta Educational Council has set out to change this by persuading the provincial legislature to follow the example of Ontario and British Columbia and pay 50 per cent of the annual cost of elementary and secondary education. Alberta is a wealthy province, it has many things that a farmer or a manufacturer can't have in order to succeed. Its revenue through general taxation should pay a much greater share of educational costs.

Aim to Eradicate Potato Ring Rot

Bacterial ring rot of potatoes is one of the important diseases affecting table potatoes in Canada. The only measure of control that has been successful is the complete eradication of the disease when it occurs on individual farms, writes Sir Fleet Pathology section of the Division of Botany, Dominion Department of Agriculture. After the disease has become established, its elimination can be accomplished only through regulations enacted and effectively enforced by such provinces.

Ring rot has never become established in British Columbia, Nova Scotia, or Prince Edward Island. In all the other provinces it occurs in varying amounts. Efforts to control the disease in Alberta and Ontario have given results, says the Division, but in the remaining provinces the disease has not been given the attention it deserves, with the result that it is still spreading.

SEED TREATMENT

The time has come around when farmers should begin to think about the treatment of the seed they intend to sow. Based on my personal experience, and on the hundreds of many experiments I have seen, and on advice given by government authorities, I do not hesitate to recommend Ceresan to those who have not used it before. Those who have used it will get a favorable reception from the people of the province once its avowed purpose of securing increased financial support for schools is made clear. But, generally speaking, the Alberta Educational Council has been received with coldness. It has been frowned to being together many of the provincial societies which are interested in educational progress, and to get them to think and to act co-operatively in an effort to remedy the bad plight of education in Alberta people have something else are protesting against the old tradition of making land and shelter pay for the schools. We have got to the point where every little improvement we make in the child's training in our schools means a boost in the mill-rate.

Minutes of Regular Meeting of Town Council Held February 17th

The regular monthly meeting of the Town Council was held on the evening of February 17, 1947 with the following members present

Mayor Hooper and Councillors Lees, Jacob, Jacobs, Bowman, St. Johns and Walker.

Previous to the opening of the meeting the returning officer declared that Mr Jacob, Mr. Walker and Mr. Lotze were elected by acclamation and on the drawing of the names out of a hat, Messrs Lotze and James were elected for a term of three years and Mr Walker for the unexpired term of Mr. Roy Wilson for one year

Mr Garrett and Messrs. Dale and Jefferson of the Northwestern Utilities Ltd, were present and Mr Garrett outlined to the council, clauses by clause the proposed franchise for installation of gas in the town and several questions were asked. Mr Garrett by the regulations supply were answered by Mr Garrett and Mr Dale, and the signing of the Franchise was left over until further on in the meeting. The installation of the Northwestern Utilities then left the meeting to return to Edmonton.

Messrs. Gordon Hooper and A. B. King were also present representing the Hall Committee of the Fort Saskatchewan Community Service Club asking for a grant to the Hall Committee, as the committee were unable to carry forward five times to different associations and that owing to the very cool, all coal for the committee were carrying the hall at a loss in a month

Mr. Hooper left with the council a letter of the time there was brought up later on in the meeting

Those gentlemen then left the meeting.

The minutes of the last regular monthly meeting of the council held on the 27th February 1947 were read and adopted as read.

The Financial Statements of the town for January 1947 and the Financial Statement of the Community Hall Committee for the month of January 1947 were read and adopted.

The following correspondence was then dealt with.

The Calgary Power Companys By-law No. 84 amending the agreement we have with this com-

pany was given its first reading

Bylaw No. 88 of the gas Franchise with the Northwestern Utilities was given its first reading.

Letter from Dutton and McLeod of Camrose, Alberta Hand Manufacturers, addressed to Albert Jacobs read, and necessary instructed to write to these partners advising them that Mr Jacobs was away at the time of the receipt of the letter and that we should endeavour to get a third party interested in becoming a member of the firm when they located in this town.

Letter from Flower Bee School Division read, stating the town for the donation of the annual tax adjoining the present school site and said letter ordered filed.

Letter from the War Assets Corporation re Elbow road, and Lot 1 Block 1 Plan 1 read and adopted. It was decided to purchase the said elbow as outlined in their letter at $175.00.

Letter of the War Assets Corporation read re trunk purchase and the secretary was instructed to advise them the type of the trunk the town was interested in.

Brief from the Community Hall Committee was then read and the matter was left over until further on in the meeting.

Those gentlemen then left the council.

The minutes of the last regular monthly meeting of the council held on the 27th. February 1947 were read and adopted as read.

The Financial Statements of the town for January 1947 and the Financial Statement of the Community Hall Committee for the month of January 1947 were read and adopted.

Bee Pollen Supplies

Observations by the Bee Division, Dominion Experimental Farms Service, over a five year period have shown that brood rearing generally commences in February in normal colonies, and when pollen supplies are available, spring dwindling is severe. Results of experiments over the past four years have shown that 20 percent more brood has been produced by colonies that were provided with ample pollen reserves. This increase in production may easily mean the difference between a profit and a loss during years when the honey crop is poor

Danger in Common Water Trough

A common watering trough is just as bad breed enough for dairy cattle. Unless every animal is healthy, the common watering place serves as a breeding place for tuberculosis

This reminder comes from Canada's acting Veterinary Director General, Dr. Thomas Childs. He says that when testing a herd he has often found one or two animals badly infected and, sent to them on the milking line, several reacts. If these re-actors had been bred and reared on their owner's farm, the veterinarian concluded that it was there they had been infected. The spread of the infection, he attributes to the common trough.

Nor is tuberculosis the only disease which could easily be spread in this fashion. Anthrax-spots, or lump jaw, may be spread when cattle exchange from the spores fall into the trough from which all members of the herd drink.

The permanent influence of these dangerous, expensive and sometimes fatal diseases, Dr. Childs recommends individual drinking bowls. More and more farmers are installing them.

Not an satisfactory but less expensive method is to treat a trough for each cow. Those should be of heavy construction, as cows have the habit of pushing them around. And as a cow can kick over her drinking pail almost as easily as kicking over her milk pail, the bottom should be strong enough to stand a certain amount of this violence.

Despite its limitation, even an individual bucket is better than a common watering trough, but individual drinking bowls are best.

Export Seeds Free of Control

Foreign trade in Canadian seeds will return to an uncontrolled position basis on April 1, 1947, if circumstances will permit, said J. W. Mosley, Associate Chief, Field Crops Division, Dominion Department of Agriculture, in an address to the annual Registered Meeting of the Ontario Crop Improvement Association at Guelph recently. Partial export controls, he explained, were being continued not because of a general crop production but due to increased domestic consumption and heavy demand from countries in short supply.

Export permit control was retained on the following seeds because of special circumstances:

Peas and beans, because of the application of ceiling prices and a commitment to provide essential quantities of these seeds to the United Kingdom for edible purposes; alsike, white sweet clover, red clover, and Kentucky blue grass, whose proper distribution is controlled under international allocation; cereal grasses and oil bearing seeds, because of the close relationship of their seed grades and feed grades; and seed of Canada short of live-stock feed.

The United States exported 503.3 million bushels of wheat and flour during the seven months period from July 1, 1946 to January 1, 1947. In January alone United States exports totaled 68.5 million bushels.

Magic Sprayer Destroys Mustard

In June 1946 mustard was wiped out of wheat growing near Regina, Saskatchewan, by a machine that sprayed the weed with 2, 4-dichloro per acre of a 2,4-D solution at the rate of .25 of an acre per minute. Farmers used this machine the Regina Sprayer.

These sensational results were obtained in field scale experiments conducted by the Field Husbandry Division, Dominion Experimental Farms, on farms adjacent to the Experimental Farm at Regina, Saskatchewan, and on the Experimental Sub-Station, Regina.

Observations made by the field Husbandry Division at the year 1946 led to the belief that 2,4-D could be effectively applied in much less water than recommended rates. Further investigations at the Central Experimental Farm, Ottawa, in the spring of 1946 appeared to confirm this theory. The results obtained at Indian Head and Regina are a further confirmation of this belief, for in these experiments practically 100 per cent of the mustard was killed out of wheat by 4.4 gallons per acre of a 2,4-D solution than contained 800 cubic centimeters, this is less than a pint per acre of the formula of 2,4-D. This formula is sold in Canada for $2.00 per gallon, so that the cost of the chemical was a little less than $1.00 per acre.

The mustard was killed before it was large enough to extend the wheat heads, and the resulting increase in the yield of wheat was 2.6 bushels per acre.

No other effective method of mustard has made so great an appeal to prairie farmers. Speed of application, little water and low cost per acre are the outstanding advantages in favor of this novel method of killing mustard.

Demonstration School May Revolutionize the Education of Nurses

Miss Rae Chittick, president of the Canadian Nurses' Association, is pleased to announce that the Canadian Nurses' Association has decided to sponsor a new venture in the field of nursing education. The proposed plan calls for the organization of a hospital school of nursing on an independent basis, which means that both financial and administrative independence will be assumed for the school (though it will retain a very close association with the hospital). It is hoped that this new freedom and control will make it possible to give a thorough education and training in nursing in less than the usual period of 3 calendar years, even with a possible reduction to a period of 2 years or not much more. In return for the assured educational value of the course, and further assured controls the students will be expected to make some payment in the nature of tuition fees.

The immediate formation of this "Demonstration School" has been made possible through the granting of financial aid by the Canadian Red Cross Society. The Canadian Nurses' Association is deeply grateful for this generous support which follows the fine tradition of Canadian Red Cross in its long record of relationships with our, less professional groups. It is hoped that in the course of time hospitals and patients throughout the whole country will benefit from this very practical effort to remove some of the weaknesses in hospital nursing that are rankling. Even this confusion between the responsibilities of the nursing service of our hospitals and the responsibilities of nursing schools could always be maintained in closely with the hospitals.

Anaemia in Pigs Can be Prevented

Anaemia in baby pigs is preventable but still too commonly encountered, says the Division of Animal Pathology, Dominion Department of Agriculture. The experiments of Dr. Underwood, Chief Biochemist, showed that the addition of iron was clearly shown in all the experiments so far made by the Division, that baby feeding of iron to the sow did not result in greater storage of iron in the young, those being equally as susceptible to anaemia as the young of untreated sows. A single dose of iron for young pigs was not sufficient. A minimum of three at weekly intervals was indicated. The first should be given when the pigs are a day or two old as cases of anaemia may well be developed in the first week in confined pigs.

I.O.D.E. Plan Study of Welfare Need

The Order's 135 Chapters, operating in fifty centres throughout the Province of Alberta have raised $650,000.00 during the war years 1939-45. Before deciding upon any particular objectives for the coming years, they are seeking to provide themselves with an all-over view of the welfare needs of their province. Therefore they are making a study of the legislation and the services public or voluntary existing to meet those needs. It is not a survey but rather an appraisal which will guide them in their future undertakings.

The Order has a particular interest in the welfare of children and the actual care of the aged. Therefore the study will rather specialize in these two fields.

The method which is being adopted is a dual one:

a. The bringing in cities in Alberta of outstanding speakers in the field of social work from our other provinces and from the United States.

b. An enquiry into the general provision of welfare services in order to locate the spots that need greater attention.

The I.O.D.E. then hopes to direct its future services and social work into a better provision for those unmet needs. The study will concern itself with the principles of legislation and services rather than with individual cases.

Dr. Charlotte Whitton, C.B.E. has been engaged to act as director of the study. Canada has no more outstanding expert for such an undertaking.

The Order is glad to make available to any interested groups in the province, the services of these experts, either for consultations or for speaking engagements. A list of them with probable dates of their visit will be available very shortly.

There's nothing like being at the end of the rope to get you back on the line.

Don Graham Comments — EVERYBODY'S BUSINESS

In Canada, we think rightly that we have one of the best democracies, that few of us ever stop to think how the vital things of life are protected and made secure for us.

A thoughtful friend, who does a study good in saying it here and in print, said: "Don, do you realize what it means to you and to me, and to millions of other Canadians, that we can take it for granted that Life Insurance is safe? There are 4,000,000 Canadians who are of Life Insurance and the number is growing every day."

The sound reputation of the Life Insurance companies in Canada means that you can plan your plan, your kind of policies and your company . . . to the wonder millions of Canadian homes with confidence.

. . . . .

Life Insurance is a business built on confidence. Confidence that a company's good reputation would protect the future of more than four million policyholders and their loved ones, who have come, when a specific need arose, to depend on Life Insurance as an ordinary part of their lives.

French War Secret Now Revealed

The long-suppressed story of how French paint manufacturers outsmarted the German occupation forces to make German fortifications more clearly visible to allied bombers was revealed at a gathering of paint industry representatives today. The story indicates that paint, like many other things, consists of a lot more than meets the eye.

Details of the ingenious but mighty sabotage effort revolve around German efforts to perfect camouflage paints—and around the fact that French paint technicians knew more than the Germans about that subject and about the possibilities of infra-red photography. In simpler fashion superior French knowledge resulted in delivery to the Germans of thousands of tons of quite useless material from French plants because impurities had "inadvertently" crept into paint products ostentatiously made to German specifications.

The irony of the situation as regards camouflage paints was the fact that French chemists had already devised a paint which was highly effective for camouflage purposes, not only to the naked eye but also under infra-red photography. This paint was later commandeered by France's Allies, but by the time Germany occupied France it had been well hidden, together with a lot of other French technical knowledge.

When French paint plants came out to work making camouflage paint under formulas devised by German scientists. Step by step, the Germans worked out potentially good paints, until they had a product which seemed to meet all the requirements of invisibility—and which was in many respects quite similar to that devised months before by the French.

By this time, however, French technical knowledge had advanced a step further. French scientists had found that the introduction of very small quantities of black fluorescent rosaniline dye into camouflage paint so that, while presenting no difference to the naked eye, it became readily visible under infra-red photography. The Germans never quite noticed that little detail.

So it was that French paint plants started turning out most of the camouflage paint with which the Germans covered their fortifications along the Atlantic seaboard and elsewhere in the belief that each paint was making their generals and gun emplacements invisible to allied bombers —while in reality the "camouflage paint" was no camouflage at all to airmen using infra-red photographic equipment.

As a group of French technicians put it, in reporting on their work:

"It was for us a source of deep joy to feel that the tons and tons of paint which we turned over to them were not only of use to the enemy, but on the contrary served to point out with the greatest clearness all the German fortifications to our American and British friends."

Small wonder then that during a post-war air demonstration in Paris, the French paint manufacturers were less interested in the types of allied planes on display, and more interested in the aerial photographs which showed allied camouflage paints standing out in bold relief despite their "camouflage".

Higher Yields From Good Seed

* Close seed-bed preparation, correct type of cultivation are special factors. The picture shows a sample of seed being cut by the Germination tester at the Dominion Department of Agriculture Seed Laboratories located at several points throughout Canada. Germination tests are also made at these laboratories and seed cleaning plants are available to farmers in all parts of the Dominion.

CANADA'S Health
DESTROY WASTES
Vast quantities of waste products—human as well as industrial—result from the processes of living. National Health officials, therefore, warn that accumulation of filth can be dangerous. Prompt, efficient disposal of sewage and refuse is of prime importance to health maintenance and must be taken to ensure a healthy future for all such modes of infection, so that they can not pollute our main sources of life—food, water and air.

Wholemeat Will Help Food Shortage

Britain's scientists are studying the possibilities of developing whale meat as a staple human food in addition to the sperm oil which is already providing such valuable help in overcoming the world shortage of fats. Present figures indicate that if the present taste can be satisfactorily overcome, the whole's place on the menu may well be an important one. Medical science maintains that the whale meat provides everyone in health with the vitamins they need. Those obtained from land animals. Research workers are devising particular attention to testing the most palatable methods of preparing whale meat for the table. Meat not used for food can be converted into cattle food while bones from cachalots will yield bone manures and glue. As well as bringing a variety in menus in Britain, whale meat will have an important role in supplementing Europe's food supplies.

FLOUR PRODUCTION

The annual output of bread flour in Canada has been increased from above 1939 until in the calendar year 1946 the all-time high production of 27,970,220 barrels almost doubled the output of 16,788,851 barrels in 1939.

Latest British Plane Has Every Convenience

The latest aircraft put into service by the British Overseas Airways utilized an excellent example of luxury to modern air travel. In addition to the main cabin with its deep seats (convertible into beds) and generous provision for providing ample room for movement, a cocktail bar, a ladies powder room, demanded to which and a men's dressing room in white and grey. The other cabin is of white and fawn grey and contains 36 seats which can be converted into beds. Separate kitchens are provided by "Orient" "Ariel" and "Atalanta" are provided with full cooking facilities, and the "Ariel" and "Atalanta" are provided with a full cocktail bar. The "Ariel" and "Atalanta" are provided with a full cocktail bar. The "Ariel" and "Atalanta" are provided with a full cocktail bar. The "Ariel" and "Atalanta" are provided with a full cocktail bar.

Eire's Winter Wheat

Eire's winter wheat crop is officially reported to be the smallest since 1941. Unfavorable weather conditions during the planting season.

ELECTRIFY your Farm with a FARM IMPROVEMENT LOAN

Electricity can take the drudgery out of many a farm chore—save you time and money—help make life pleasanter and easier for everyone in the family.
Plan now to electrify your farm with a Farm Improvement Loan. At any branch of The Royal Bank of Canada, loans are available to farmers for the purchase, installation or improvement of farm electric systems. Terms can now be made on security of the equipment itself and repayment arranged by convenient instalments. If electrical equipment is still hard to get in your district, you can make a start by doing your preliminary wiring. Wire, switch boxes, transformers, etc. are available in many districts. By starting now you will be ready to put electricity to work on your farm as equipment comes on the market. Talk your plans over with the Manager of our nearest branch.

THE ROYAL BANK OF CANADA
PORT SASKATCHEWAN BRANCH . . . A. B. IRVIG, Manager

School Flashes

Arthur Hay Bentley, age 16 was in Edmonton in 1939. He is a tall blonde with sweptback. His great desire is to become an electrical engineer. He enjoys sports a great deal, in this field, he skis, skates and dances. Strangely he dislikes Arithmetic. Arthur belongs to the Athabasca Young Peoples' Group as well as to our Students' Union.

On Wednesday afternoon an open school session was held in the Home Economics room. Mrs. Hall, Mrs. Bowen and Mrs. Hunter were present.

A question box had been placed in the Home Economics room. Questions were answered by the girls.

Some of the questions were:

1. How to remove a stain from a woollen garment.
2. How to remove a stain from a cotton garment.
3. How to remove a stain from a silk garment.
4. How to remove a stain from a rayon garment.
5. How to remove a stain from a linen garment.
6. How to remove a stain from a leather garment.
7. How to remove a stain from a suede garment.
8. How to remove a stain from a velvet garment.
9. How to remove a stain from a felt garment.
10. How to remove a stain from a fur garment.

Each girl was given a sheet containing the answers to the questions.

Mrs. Hall thanked the girls for their co-operation and said that she was very pleased with the way they had answered the questions.

Mrs. Bowen thanked Mrs. Hall for her assistance in the class.

Mrs. Hall thanked the girls for their co-operation and said that she was very pleased with the way they had answered the questions.

Mrs. Bowen thanked Mrs. Hall for her assistance in the class.

Cooking Lake

Continued from Page One

completely exchanges of conversation were accompanied by a welcome lunch, provided and served by the ladies. The collection effort towards tables up was donated to the S.C.A. Country Fund.

* * *

A meeting of the above named League was held on the following evening at the home of Mr. and Mrs. Gaitlie, when again there was a gratifying attendance. After the business of the evening, under the direction of the secretary, Mrs. Millard, and the transaction of business arising out of them, the chairman, Mr. Ian Sinclair, presented for the approval of the meeting, a donor motion of the proposed new hall this was carefully studied and after a few other corrections, approved by the meeting. The corrected plan is to be submitted immediately to Edmonton for approval.

At the close of the business meeting a timely lunch, served by Mrs. Gordon Stewart, Mrs. Gibson and Mrs. Leslie Mansfield, provided opportunity for an enjoyable social hour before the gathering dispersed.

Highway Improvement Planned for this Year

An official outline of the extensive road improvement program which the Alberta government plans this year was given at the opening of the legislature on Feb. 25.

The total of such a program has been kept secret from the Alberta Motor Association, which reports that all minor reverses and more should be done on highway construction and maintenance.

The speech from the throne, in dealing with this phase of government activities, stated:

"In order to provide an adequate system of all weather highways and secondary roads in the most efficient possible date, the government proposes to accelerate its program of highway construction and improvement as rapidly as men, materials and equipment will permit. You will be asked to approve substantially increased appropriations for this purpose.

"Larger appropriations also will be asked to enable the government to extend its program for the improvement of district and development roads and to provide increased financial assistance to municipalities for the construction and improvement of municipal roads."

Some weeks ago, the public works department said it hopes to spend $9,500,000 on main highways in 1947.

TENDERS

OLD FULTONVALE SCHOOL SITE AND TRACTOR SHED AT SOUTH CORNING LAKE TRAIL

Radio Personality

Geoffrey Waddington, one of Canada's best known musical personalities, will appear on the entertainment hour with the young Canadian baritone, Edmund Hambridge. Mr. Waddington also directs the orchestra in Trans-Canada network program, London by Lamplight, which presents musical impressions of famous London.

House League Play-offs Deadlocked

After three regulation periods plus 20 minutes of overtime, Bruce's Tractors and Lind's Rexall were ended up exactly as they started 6-6. It was undoubtedly the toughest game of the season, probably because it was a "sudden death" affair.

The Twinbees had a small edge in play and Hank and Oliver made a number of excellent scoring opportunities. At the other end Kenny Robertson turned down a few times, but the two goalies Middleton and Bruce played sterling hockey to earn their keeping.

The fourth necessitates another game to decide who will meet Ken's Kaughers in the finals.

Penalties—Englund, 2 minutes for cross checking and Robertson, 2 minutes for holding.

Sharp Contrasts In World Diets

The third quarterly world food appraisal for 1946-47 by the Food and Agricultural Organization of the United Nations, of which Sir John Boyd Orr is the Director General, reveals sharp contrasts. While famine-stricken Asia grovelled for many months over wide areas of China and many parts in Europe are living on a diet of 15,00 calories or less, people in food-exporting countries are consuming as much food as before the war, or more. Consumption per person in the United States, for example, surpasses last year's record. On the other hand, there are countries in which calories small able per person are as low as 60 per cent of pre-war

In Great Britain an egg a month is regarded as a luxury in the United States the government is contemplating buying 150 million dozen eggs to prevent a market glut and a calamitous drop in price.

Liverpool to be "All Radar" Port

The port of Liverpool England, will be one of the first in the world to utilize radar as a full-scale basis. The equipment used, which will be the first of its kind in the world, will enable the port to remain open in all types of weather. It will indicate to radar operators navigating two lane ratings on top of an eighty foot canal tower, erected at the eastward end of the North Docks system. In the control room, a number of 12-inch display will show large-scale pictures of the approach channels. These pictures will show accurately the positions of all boats in the Liverpool Bay and will enable the position of all ships to be plotted from distance of distance within a distance of twenty miles. Installation of the equipment is expected to be completed by the spring of next month.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMEAL which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 3000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, cod liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for consumer-chick use. It is especially manufactured for those raising brothers and market poultry where the main concern is quick growth.

CONGRATS

Our congratulations to CFRN for gaining the distinction of be-

ing the first station in [illegible] to increase its power from 1000 to 5000 watts.

Being in the throes of a similar period of transition at CJCA, Broadcasting, we are fully aware of the [illegible] station and the momentous task it involves.

CJCA's plans are progressing so well [illegible] designed—namely to make the station's [illegible] tion on CJCA's 40th birthday around May 1. The new transmitter site at Gibbons is nearing completion. Layout centres of two huge all-steel masts the engineer's home and garage and an ultra-[illegible] transmitter building, complete and up-to-date in the "ish" degree.

[illegible] features planned for the events event will be a display of a miniature of the transmitter layout in a window of Hudson's Bay Company. This will be worth seeing.

While this and thousands of other details will occupy the evening brown of CJCA's personnel, CFRN will have been through it all and away to a flying start under extra power. Congrats CFRN!

Too little ambition can be as much a vice as too much.

« Recipes for Milady »

Food habits and tastes are developed at an early age and invariably remain with us through life. The accounts for the exclamation we hear so frequently, "That's just like mother used to make". Such dishes recall old familiar flavors, along with associations of other days. These contribute to the enjoyment of the food served.

Dishes like mother used to make are the constant craving of the newly married homemaker. Often through lack of experience and a faulty heritage her efforts fail to capture for her husband the flavor and aroma of those dishes prove most disappointing. With refinement, a few of these all-time favorites, such as apple pie, doughnuts and his favorite cake, piled high with icing, may be made by anyone possessing a bone of common sense.

However, it is to my bride's advantage at all times to be able to quickly call up light, fluffy tea biscuits. Once the basic recipe has been mastered it may be adapted to a great variety of variations e.g. good dumplings are made by following the recipe EXACTLY with the addition of every liquid . . . approximately 1 cup liquid to 1 cup flour. This gives a stiff batter that may be dropped by spoonfuls either as dumplings or the topping for meat pies. It was also from the standard tea biscuit recipe that mother used to make polypody and those delicious tea cakes. If the roly-poly was to be served as the main course for luncheon or dinner the filling was either well-seasoned meat or fish, while either as dumplings or the topping was fresh fruits in summer and jams in winter.

A pot of boiled beans will regale the culinary charms of mother's kitchen. Her secret of success lay in the slow cooking of the beans until tender, then the addition of various seasonings and finally a long, slow baking to develop the characteristic flavor and aroma.

For the perfect roast the baked beans were always served with baked tomatoes. The sponge that formed on the roast was set the night before, but the more appetizing sponge now be achieved in a few short hours by the use of the new, fast-rising dry yeast.

The home economists of the Canadian Dominion Department of Agriculture suggest these old-favorites, to help you turn back the pages of time:

SAVORY BEANS WITH BACON

1½ cups dried navy beans
¼ cup finely minced onion
½ teaspoons salt
1 cup diced celery
1½ cups canned tomatoes
¼ cup molasses
1 teaspoon dry mustard
2 tablespoons melted fat
¼ teaspoon pepper

Pick over, wash and soak beans in cold water for 3 hours or over night. Drain well. Cover with boiling water and add minced onion and [illegible] until tender, about 2 hours. Add salt during last 15 minutes of cooking. Drain beans well and add celery molasses, tomatoes, mustard, fat, pepper and additional salt if necessary. Place in a greased baking dish and cover with strips of bacon. Bake in a moderate oven, 350 degrees F., for about ½ hour. Six servings.

FRUIT SCONES

2 cups sifted all-purpose flour OR 2¼ cups sifted pastry flour
4 teaspoons baking powder
1 teaspoon salt
2 tablespoons sugar
¼ cup fat
½ cup currants or raisins
½ cup milk
1 egg, beaten slightly

Sift together the dry ingredients. Cut in fat with a pastry blender. [illegible] Add currants or raisins. Combine egg and milk and blend with dry ingredients. Turn out onto floured board and knead very slightly. Shape into rounds 6 in in diameter and ¾ in. in thickness. Brush top with milk and sprinkle with sugar. Bake in a hot oven 450 degrees F. for 15 minutes. Yield: 8 scones.

JIFFY ROLLS

2 cakes compressed yeast OR 2 envelopes fast dry, granular yeast
½ cup lukewarm water
1 teaspoon sugar
½ cup scalded milk
1/3 cup melted shortening
1/3 cup molasses
1½ teaspoons salt
1 egg, slightly beaten
3 cups whole wheat flour

Soak yeast in lukewarm water and add sugar. Combine scalded milk, shortening, molasses, salt and beaten egg. Blend in yeast mixture and add flour gradually, beating well after each addition. Turn out on well-floured board and knead until smooth and elastic. Add currants or raisins. Shape into rounds 6 in in diameter and ¾ in. in thickness. Brush top with milk and sprinkle with sugar. Bake in a hot oven 450 degrees F. for 15 minutes. Yield: 8 scones.

Y. M.

[illegible] ASSOCIATION

Q. What do you remember a favorite [illegible] for one afflicted with pulmonary tuberculosis? How does a so-called "good climate" [illegible]?

A. People with pulmonary tuber culosis for the most part do well in any climate providing they secure the proper amount and quality of rest and have competent medical supervision. Some people, however find there are climates which apparently do not agree with them especially the [illegible] moist or cold moist climates will [illegible] sensitive and [illegible] people seem to do best in [illegible] dry climates.

Q. Does the average patient with tuberculosis progress more favorably when the humidity is low?

A. Not necessarily so. [illegible] viduals, however, do better in a dryer atmosphere.

[illegible] tuberculosis and all [illegible] ing to medical tests and found well with fitted medicine. S.A.I Flour and mix well. Roll out on well-floured board and fit into greased pan 10 in. by 10 in. Cut dough with floured knife, into strips 1¼ in. wide, then lengthwise down the centre of pan. Brush out surfaces with melted fat. Let rise in a warm place until double in bulk (1¼-2 hours.) Bake in hot oven 425 degrees F. for 20 minutes. Yield: 1 dozen large rolls.

Some people go around looking exclusive and finding excluded.

SERVING CANADIANS THROUGH CHEMISTRY

"Chemistry?... I DON'T HANDLE IT!"

YOUR STOREKEEPER may think he doesn't handle chemistry, but everything he sells from cortisone jewelry to refrigerators, is in whole or in part, a chemical product.

Chemistry is a vital factor in fabrics and foods, leather and toys. It's at the cosmetic counter and in the hardware department. You find it more and more whenever you shop—in nylon hosiery, fabrics and toilets, in new plastic articles and in "Cellophane" wrappings to protect goods and make them more attractive.

The chemical industry never stands still. It continues to create new useful products and to improve many old ones. It contributes to the well-being of all of us . . . with the C-I-L seal the symbol of an organization devoted to serving Canadians through chemistry.

Battleline No. 1

A resolute campaign is being fought to sever the links which bind the United States and Britain together.

The main impetus of this campaign, determined at any cost to split Britain and America apart, are those who are also trying to fasten a materialistic ideology on the world.

This is not surprising, for the two countries share great spiritual traditions. In both a deeply rooted belief in human freedom springs from the same seed of moral conviction. At the moment functional British unity can be strongest built such fundamental moral and spiritual values against the encroaching tide of godless material ism. If America and Britain are separated then the whole common line of Christian humanism may crumble.

But the real threat to democracy comes from within, not without. For democracy is not a mere system of votes, economics or politics. It is a way of life. Freedom is possible only when millions of people think and live selflessly for their community rather than selfishly for themselves. And nowadays, too, the democratic people, do not always live in the way which makes the MEAL as survival of freedom possible.

Enemies of democracy pick upon these weaknesses. It was so with Hitler. He knew materialism was the magnet to the apple of freedom. He used examples of materialism in America and British life in his attempts to discredit democracy to the world. He struggled to separate America from Britain, recognizing how strong a bastion of liberty that combination could be.

The urgent need is for the people of the democracies to accept and live their own inspired ideology. They will not then need to fear the materialistic ideologies of race or class rule. For the ideology of democracy is bigger than any sectional power bid. It belongs to all classes and all [illegible]. It belongs to all free people everywhere.

It alone can bridge the gulfs which today appear to be widening between the nations. It is as universal as human nature and it [illegible] change to suit various nations. It is the one idea big enough to unite all the people of the world.

LONDON TO HAVE NEW BUSES

One aspect of Britain's energetic approach to the problems of road travel is emphasized by an announcement that buses of a standard far in advance of any now used anywhere in the world will soon be seen on London's streets. A fleet numbering 800 vehicles which will be the biggest and best ever seen is now on the point of [illegible]

A Message to CITY AND TOWN EXECUTIVES

Larger cities and towns are discovering that parking is developing into a serious problem. In many places, parking on main streets and highways obstructs traffic, discourages shopping, and increases the hazard to both motorists and pedestrians.

Our study of this problem indicates that the solution lies in providing OFF-STREET PARKING accommodation — convenient for citizens and attractive to visitors.

We respectfully suggest that municipal councils and other public bodies give consideration to solving this problem in the interests of their communities. The A.M.A. will be glad to furnish all information it has available on this subject.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

ANOTHER VALUABLE NEW WHEAT VARIETY

[illegible] has been released—[illegible]

The prime characteristic of this new variety is its earliness, its ability to escape damage from early frosts. It is almost as early as Thatcher. It combines Hillsdale with yield of Saunders is as high as Thatcher and higher than Red Bobs. It does not yield quite as well as Thatcher, however, in Manitoba and in most parts of Saskatchewan. The milling quality of Saunders is equal to Marquis and it has a better kernal color and bushel weight than Thatcher. Saunders has good strength of straw and is resistant to [illegible] and loose smut, is moderately resistant to bunt, but moderately susceptible to leaf rust. All in all a most valuable variety for our prairie farmers, northerly areas and so Saunders is exported to replace Red Bobs and Garnet in most [illegible] where these varieties are now in use.

This wheat was developed at Ottawa, under the direction of Mr. J. G. C. Fraser, Chief of the Cereal Division of Dr. L. H. Hignman, Dominion Cerealist.

As are Redman and Renown wheat, Montcalm barley and Garry oats, so is Saunders so outstanding variety to new varieties plant breeders, and which will add millions of additional dollars to our prairie farmers' yearly income.

Seed of Saunders for general use will be available in about two years.

Wye

The district wish Mell Thomlinson a speedy recovery from his attack of pneumonia.

A social evening was held in the hall Friday evening. A fair crowd was there to join in the fun. We were glad to see our two neighbors Mr. and Mrs. Bert Wilson, who moved in last summer, also Donald and Muriel, who are back in our social gatherings again.

At the close of the evening lunch was served which brought an enjoyable time to a close.

Mrs. Moore and Glen have gone to Vancouver for a visit. Not a bad idea at that, eh folks.

The district wishes Mr. John Fowler a quick return to usual health after his recent operation.

The girls February meeting was not very well attended due to bad road and [illegible] ons. Oh well better luck next time. The girls would like to convey their most sincere thanks to Mrs. Bailey, who so kindly invited them to her home for their January meeting.

The whist drive held at the home of Mrs. Tom Daly one well attended. The first prize went to Mrs. Arthur Daly and consolation to Mrs. Ethel Daly. The men's first prize went to Mr. Tom Marler and consolation to Mr. Alf Velens. At the close of the evening an enjoyable lunch was served by the hostess.

Mrs. Lester McGhan, Darcy and Donna spent two weeks vacation in Calgary.

The teacher, Mrs. Berry and children of the school held a Box Social and dance in the hall to raise funds for the Junior Red Cross. What not a large crowd was in attendance, the secretary reported a fair balance after all expenses were paid.

We are sorry most of our trees. The brush cutter is very busy slashing them down.

James Thomson is confined to his home with the measles. We all wish him a speedy recovery Jim.

We also have Mr. Bailey undergoing an operation. We hope he will be better soon.

Mr Millar reports a very poor summer at the annual meeting. It seems like we have just left everything to the divisional board, and also everyone is satisfied, no complaints.

The regular meeting of the Red Cross Aid was held at the home of Mrs. Wordsworth, our secretary

Mrs Welsh brought the material for the quilts, and two quilts were finished off during the afternoon. We also found 6 quilts, in the box which Mrs. Welsh had brought the material in, all ready finished and ready to take to town, our proper [illegible] to Mrs. Welsh.

The next meeting will be at the home of Mrs. Welsh's.

Mr. E Stinson took a trip to Regina by plane and enjoyed it so much he claims it's the only way to travel.

Exports of oats from Canada from August 1st to February 25th totalled 13,268,710 bushels, and of barley 505,984 bushels.

Your RED CROSS help is needed!

In frontier districts of Canada the nearest hospital or doctor may be a hundred miles or more away. Over twenty years ago the Red Cross began establishing outpost hospitals and nursing stations in these remote regions. Today a whole chain of Outpost Hospitals can be found in the [illegible] of the Dominion. They bring medical science within reach of these isolated communities. Hundreds of thousands of patients have been treated in these tiny hospitals, including thousands of emergency cases. These hospitals also serve as health centres for their communities, carrying on medical inspection in the schools and organizing clinics for the children. Your help is needed to maintain and expand this vital work. Stand behind the Red Cross, and help bring medical aid to your fellow-Canadians pioneering on Canada's frontiers. Give NOW . . . give generously.

COOK A MEAL IN 5 MINUTES

A United Kingdom firm is now manufacturing a radio oven which will cook a complete meal in five minutes or less. All one has to do is place the food to be cooked between two thin metal plates or electrodes and switch on the "oven". The food is cooked in exactly as never before. Heat is the oven runs to 120 degrees centigrade on one minute. This means that it would take two minutes to cook about three quarters of a pound of meat.

District staff. In this context, questions are asked of each grade and replies are invited. The name of the best entry for each grade is published in the subsequent paper All questions are answered. The prize of $1.00 is paid to the winner in each grade. This activity serves to promote the interest in the information and encourages the students to do active work in order to gain a reward.

In addition to this activity, the paper includes a number of articles on nutrition as it is felt that much improvement is to the nutrition of school children can be made without too great a trouble by the parents of these children. Any quote note ten as of considerable value to the maintenance of sound physical health.

A New Service Needed

There is one service, which, though not provided by the Health Division, is in my opinion, basic and of greater importance than any of those mentioned so far. A need of a Mental Hygiene service which can do so much to guide those beginning their life along ways that will avoid many common difficulties and tends them how to deal with and benefit from the circumstances they cannot or should not avoid. It can help those of no pre childhood in years to meet our difficulties lately and speedy and effect as a way to retain our self respect and the esteem of others for putting up a good fight and an honorable one. At the present time we must face the fact that of every 100 children in attending school, 3 will, before they die, be admitted as patients to a Mental Hospital for a longer or a shorter period of time unless something is done about it. What causes people to become "insane"?

To begin with, we must admit that we are all children, some of us older and bigger than others but all of us with similar temptations, desires, hopes, dislikes, pleasures and dreams. Under given circumstances, any one of us could be admitted to the mental equilibrium and be classed as "insane". But what are the factors contributing to such a loss of mental equilibrium?

We all have basic needs. We need to feel that in our homes we have security, affection, understanding, warm responsible clothing and adequate shelter. We have bodies whose physical wonders and needs, needs for feeling that our neighbors and friends think well of us, accept and like us and that we belong to the community in which we live.

We all have many self-needs such as self respect, we must experience situations where we can feel we are successful and in control of circumstances. We must feel that we belong to a group and fit in with the group, that we can live in harmony and fellowship with it. We need to feel that we are sharing things with others and enjoying them with others. We need to feel we are much like others. Where these needs are satisfied, a wholesome healthy development follows. Where they are not satisfied, there is a tendency to develop an unhealthy personality and it is with this group that we are here especially concerned.

We all know homes that are poverty stricken, where food, good clothing and shelter are not to be too much taken for granted. The members of such homes do not worry, however if they love and respect one another and share their joys as well as their sorrows, their material insecurity is more than offset by their mutual health and security.

In other homes, in spite of material security, we may find highly domineering and neurotic parents dominating with child their children what they may do and what they may not do They attempt to direct their children the love and affection they actually feel for them. Misdirection brings forth stress and anxiety and punishment without a clear understanding of the circumstances and without regard for the feelings of the child. The parents may be doing what they think is best for the child.

Children, as we can, have personalities, pride, they like to feel they are appreciated and to be shown understanding Where this is not done, frustions and insecurity follow Open defiance or cautious withdrawl of contact and confidence result with harmful consequences to them-selves in various ways. The boy who is not appreciated and made to feel he is a failure has to bolster his own ego. He may develop bullying or boastful behaviour, beat up on another boy to show he can lick him and is better than the other boy Or he may withdraw and become shy and retiring. He cannot or does not excell and get recognition in reality so he daydre-ms and imagines situations which make him out a genius or a hero. Both types of reactions are pathetic. We see them in grown ups as well as children. They are evidence of wants and feelings expressed in undesirable or abnormal ways. Children who show their finger nails, stutter, or wet their beds, are simply trying to tell us in their own way that they are not happy and are probably unhappy. It is our duty as parents, teachers and public servants to do all in our power to help these persons with which are frought so often with dire consequences.

A child that has not a home at home should be given a home for at least 6 hours a day in school. We have a capable consolentious group of teachers in the Grove Bar Division. They are just as anxious as you or us to do what is best for their children. But like you and I they cannot be experts in all lines. What can we do to help them?

The Sturgeon School Division appointed John MacDougall last fall to act as Supervisor of the Mental Hygiene program. He MacDougall, after an extensive teaching experience, took a year's training in a Child Guidance Centre in Detroit where he gained exact practical experience in the handling and helping of such cases His 5 months work with the Sturgeon Division has already produced remarkable results with child-ren and troubled children. The service is high ly popular with teachers, children and parents.

We, as parents have nothing more valuable to us than our children. And we are going to accept the fact that one of every twenty of them may have to go to a Mental Hospital? Each one of us must entertain the possibility that that child may be ours if this condition were not prevented. We would have it take the chance But since we know that at least two-thirds of these mental breakdowns can be avoided through early care and treatment can we afford not to take active preventative measures. They are our children, they are destined for such a future as your money can buy or any choose."

90 percent U. S. Drivers Plan to Visit Canada

One of the most recent of the now-numerous travel surveys is the one put out by Collier's Magazine under the title "Collier's Vs. Kaiser Travels."

Report of the findings is contained in a 56-page booklet. The study assesses both pre war and future travel trends, and was made through the use of a questionnaire that went out to readers of Collier's Magazine

The survey on pre-war vacationing includes information on the percentage of those questioned who took vacations, divided into income groups, and with a table of average expenditures. There is also information on the months in which the vacation trips were taken, the geography destinations, time spent, mode of travel, size of the travel party, and the type of accommodations used There is likewise a breakdown of the type of activities indulged in by the vacationist, such as sight-seeing and the various types of sports enjoyed.

In the discussion of vacation

If Your Nose Fills Up—Quick Sleep Tonight

Surprisingly fast, Vicks Va-tro-nol—a few drops up each nostril—works right where trouble is. It relieves stuffiness—relieves stuffy transient congestion that makes it hard to get to sleep. You'll like the way it brings relief! (NOTE. Va-tro-nol is also grand for relieving stuffy, nasty distress of head colds.) Follow directions in folder.

CANADA'S Health

HEALTH EDUCATION

Whether it be in the field of medicine, dentistry or nursing, the measure of improvement made is governed by education All improvement must be "self-regulation, for example, going from the personal desire for something better and from the by-laws and management is available

In recognition of this fact, health forms such a large part provided by your government, to arouse public consciousness of, and cooperation in the fight for a higher standard of living in Canada

* * *

SIDE-STEP COLDS

More than ordinary good health is needed to combat that scourge of modern civilization the common cold (most serious equally important) Prevention lies in keeping clear of sources of infection, if and when they are encountered

The doctors agree that a healthy body is a helpful safeguard but provide excellent protection, but they point out that even the healthy person is not immune, if brought into close contact with a cold sufferer

* * *

YOUR NURSE

Authorities are agreed that no person in any community should enjoy, or deserve, a higher standing and public commendation, than the practising nurse. Whether she is engaged in industrial, school, visiting, clinical or hospital work, she has a key post of great responsibility. The modern nurse, too, is a teacher and demonstrator of sound public health practices as well as an agent of mercy in remedial nursing. The public should cooperate with the nurse in all her

Easy Money

It's worth a time again—and time for action. Another year brought to 30,000 Alberta farmers a gain of $6.00 per head on 800,000 cattle. To 60,000 others, inaction meant less The season is short, the price attractive, and now is the time for every cattle owner to ensure his share of the profits.

The warble or heel fly is Alberta's most expensive cattle pest, and the easiest to control. At this time of year simple treatment is all that is needed. Once the larvae have been located from the sore and entered the best, nothing can stop its 3 - month migration through the animal's system. Not until it arrives under the skin of the back and burns its breathing hole can we attack it. There is nothing we can do to stop the irritation, irritation, discomfort on anthrith which annoy the grub's painful course. Worst effects of last summer's infestation have by now cost the owner approximately $6.00 per head in reduced production, damaged hide, and feed wastage.

Thirty thousand Alberta stockmen avoided all this. It cost them about 5 cents per head—a small expenditure in return for such a handsome dividend. These men highly recommend warble fly control, not only as good business but as a humane act towards their cattle. Treatment is cheap, easy and completely effective—and it's Warble Time Now!

AUCTION SALE
— FOR —
JOE CARNEGIE

Acting on instructions from Mr. JOE CARNEGIE, we will sell by Public Auction on Sec. 14, Tp. 53, Rge. 21, W4 M. On the gravelled highway, 6½ miles East of Ardrossan Corner.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMIN D, 2000 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

Certified Seed Potato Regulations

In a notice to certified seed potato growers in Canada regarding changes in regulations governing the sale and production of Certified Seed in 1947, W. H. Eastman, Chief, Plant Protection Division, Dominion Department of Agriculture points out that the changes may be summarized under two heads:—

(1) Only certified seed may be planted as seed producing crops.

(2) Fields planted with Small Size seed from Foundation and Certified or A classes may qualify as Foundation A or Certified in 1947.

For several years, certified seed potato growers have been advised that only certified seed could be planted as a seed producing field. Such time something has developed to prevent the enforcement of this regulation, but, says Mr Eastman, if increased rigidity can in be controlled and certification carried on effectively, the regulation must be enforced in 1947.

The regulation does not prevent the production of table potatoes on an applicant's farm, but merely requires that fields planted for table stock production must be identified with seed of Certified class or better. An "Applicant's Farm" is defined as one within definite self-contained limits under the applicant's responsibility for, or taken part in, the production of the potato crop, to apply by to planting, cultivating harvesting operations, with the use of his field equipment, including bags, barrels, or other containers.

Concerning Small Size potatoes, the regulations in recent years provided that crops from fields planted with Foundation or Foundation A could not be classed higher than "Certified" Investigations have shown that the restriction is no longer necessary, and, therefore, such crops may be classified here if in the same manner as other seed crops on their own merits, as shown by the field readings and associated records.

Warble Grubs Cost Farmers Millions

Hundreds of thousands of warble fly grubs have been found in cattle in Canada, and currently reported from 6 provinces. Estimated loss per animal is $15 • Control is accomplished by the application of rotenone spray or dusting powder to all the many backs of cattle • Loss damage to hides is also substantial, lower milk and meat production • Now is the time for farmers to arrange to apply the wash during the next three months. The control Division • 3 experimental Farm or the County Agricultural Representatives will advise on how to apply the insecticide. Powder is more convenient, especially if the wash is presently in short supply • Orders for more mercurochrome to be used in 1948 should be placed with the manufacturers without delay. Failure to observe a proper spraying may lead to hill warble grubs and insect a warble grub which has emerged from the back of a cow.

Josephburg Wins B.H.H.L. Trophy

On Sunday, March 9 the second game of the new junior-intermediate final series went final of the B.H.H.L. was played at Josephburg. The game was well played by both Scotford and Josephburg and although Josephburg held the edge in order by winning first game 3-1, the Scotford team really put on power plays and the play was more at the Josephburg end but they didn't click for goals. The final score was 5-3 for Josephburg. Total goals for series, Josephburg 8, Scotford 4.

Joe Wagner from Marvin Mann, Jos Wagner from Julie Bruckman, Julie Bruckman from Marvin Mann, Earl Mohr from Stuart Barker, and Don Becker from Stuart Barker were Josephburg goal getters. Scotford's goals were made by D. Vinther from J. Vinther, and 2 by H Gaulbert unassisted. W Sherman and A Kroening were the referees.

On Monday March 10, the Josephburg boys tangled with the Edmonton Ardrossan boys at the Edmonton Arena in a rather tooth game to decide winner of league and trophy which was donated two years ago by the Grain Buyers of Josephburg for annual competition. It was a very even game, with Josephburg emerging victors after 60 minutes of play with a score of 4-2.

In the first period at the 6 minute mark Don Becker scored for Josephburg on a pass from Stuart Barker.

In the second period Elmer Thomas scored for Josephburg at the 4 minute mark on a pass from Stuart Barker and Earl Mohr. Ardrossan then took a goal by Harold Gardiner at the 16 minute mark and 2 minutes later Elmer Thomas scored again on a pass from Don Frey to end the period 3-1.

In the 3rd period Harold Gardiner got the puck in a scramble in front of Josephburg net, to score his second goal of the game. At the 14 minute mark of this period Joe Wagner gained possession of the puck and scored for Josephburg and thus ended the game.

Following the game, presentation of various trophies were made on the ice. The President of the league, R. R. Rippel introduced the donors of the trophies.

Harold Gardiner of Ardrossan with 14 point, 11 goals and 3 assists won the High Scoring Trophy, presented by C. Strand on behalf of Parkdale Service.

Art Baldwin'yn of Ardrossan won the Goal Tenders Trophy with goals against 1546 lbs.; Bay Golding, 12 years old, weight 1600 lbs.; Black Mare, 5 years old, weight 1600 lbs.; Black Gelding, 6 years old, weight 1540 lbs.; Bay Gelding, 12 years old, weight 1500 lbs.; Grey Gelding, 6 years old, weight 1450 lbs.; Set of Heavy Breaking Harness; 2 sets of Plow Harness; Collars, etc.

CANADA'S Health

COLD DANGER

Prevention of illness has been conquered by a leading Canadian medical scientist to prevalence of accident cause, he points out, it depends in large measure on keeping out of dangerous situations.

Most common infections says this authority, are acquired by way of nose or mouth through the air we breathe and the food we eat. His advice is "Avoid talking to people if you have a cold and keep out of the line of fire if another person has cold always wash your hands immediately before eating and be particularly careful how, and by whom your food is served, if you are eating out."

PUBLIC ENEMY

Are you a Carrier? The question is addressed to the medical profession by the German scientist Schultz. He points out that the perfectly healthy people frequently harbour the germs and thereby become a source of infection. Such carriers, he says, are a real menace to another healthy individual can produce a most severe infection.

It is possible for anyone, who is a carrier, to give someone else a common cold or sore throat, unwittingly. Each time they cough or [illegible] it [illegible] time.

FACT FINDING

Under Canadian law a person suspected of [illegible] can be compelled to [illegible] or she is found guilty. So, one in the matter of health. If one is suffering from anything serious, then he ought to seek the care of it. And as one of the quite serious hearts sometimes do not realize the truth, the body and the mind deserve support to qualified medical men, trained to ferret out the facts and prescribe treatment accordingly. That isn't the sort of thing one should entrust to a layman.

HEALTH HABITS

If you suffer little children tea or coffee, don't expect them to grow up to prefer health giving milk, warm the experts.

If you have raised a family in a home with windows always tightly closed, don't be surprised that the habit persists long after your children have grown up.

Childhood is the formative period and parents are advised to take special care to set examples which will make for good healthy habits, if only for the sake of those they leave behind them.

LEARN BY DOING

On the principle that if you work for, or at, a thing, you become interest in the subject, many [illegible] are teaching health by conducting competitions which require pupils to make posters or write essays on health topics.

Health authorities commend this system highly. They realize that the pupils will be required to read up on the subjects before they can describe them adequately, and, in so doing, will learn much which will stand them in good stead in the years to come.

MOUTH BREATHING

Mouth breathing is often the cause of irregular teeth, according to one health authority in the Department of National Health and Welfare.

It is pointed out, also, that young children should be examined regularly by the family physician for possibly diseased or enlarged tonsils, adenoids or obstructions to proper breathing through the nose.

A child should breathe through the nose, to warm the air properly and to sift out particles of dust.

These are elementary rules of child rearing, but authorities state that such measures are too often neglected in otherwise careful homes.

COURSE PLOTTERS

Statistics and reports from other lands, are to public health departments what a compass is to a liner at sea. They help indicate the task which his health conservation services must take to make life more livable and to steer our country clear of plagues and epidemics which may break out abroad.

In Canada, the Dominion Bureau of Statistics staff works closely with health authorities to ensure collation of the best measures for protecting the public, and the Bureau's reports are invaluable in keeping the advance to a higher [illegible] on the right course.

THE BIG CANCER

It is estimated that nearly 200,000 citizens of Canada and the United States, or the equivalent of the population of a sizable city, died of Cancer in 1946.

According to an authority, the real tragedy behind this terrifying total lies in the fact that at least one-third of these deaths occurred because the sufferers failed to suspect cancer symptoms, and to seek the early medical advice and diagnosis essential to successful treatment.

Many Requests for Cancer Dressings Received

A.M.A. Lists Needs for Long Car Trip

Make a painstaking check of your touring equipment for the car before going on a long trip. This was the advice tendered motorists today by an official of the American Automobile Association. "In case," he said, "of the first thaw, and one-half years have elapsed since Pearl Harbor and most of our cars or vehicles for pleasure use will require attention.

If doubt about repair requirement be continued, "your service station manager a competent garage mechanic can remind you of the fault in washing condition, screwdriver, pliers, insulating tape tire key wrench and other 'paraphernalia' essential tools. But at the average motorist is making a long or trip than ever before, and encouraging a little more time, a check-up is in order."

The A.A.A club executive listed a flashlight spare fuses, spare bulbs or sealed lighting unit, extra tire valves and caps, mallet, tire pump, a pair of old gloves to be worn while making minor repairs or changing tires and a fire extinguisher.

"Add to that," he said "the necessary manual for the car as the girls indicate and sensible road amenities tire pressures location of fuse box, and similar information. Travellers checks can be carried with you, but not where they may be stolen. They may be needed for hotel bills, gasoline or a major repair. Be sure to include

Ardrossan

The members of the Guild met at the home of Mrs. J. Alexander on Wednesday, March 5 They decided to turn their usual Thanksgiving Day penny over to the needy as suggested Community Leagues with the members of the Guild assisting. It was agreed to donate $10 to the Red Cross drive and a white drive was planned to raise funds. After the meeting closed a hearty lunch was served by the hostess.

* * *

The Guild held a whist drive in the Ardrossan Hall on Saturday evening in aid of the current Red Cross drive. Nine tables were played. Gentlemen's prizes went to Johnny Alexander with the highest score and Mr. G Miller with consolation. The high lady scorer was Mrs. F Olson and consolation Mrs. A. Williams. $12.00 was cleared from the proceeds and one $5 donation was received from a private individual. Lunch was served after an enjoyable evening.

* * *

The Ardrossan Community League held another meeting in the old hall on March 6 with president "Rusty" McLean in the chair. The consolidation was discussed further and approved for registration.

A delegation was appointed to go to the Provincial Government to make further enquiries as to the regulations governing the raising of money by a community group. A discussion took place regarding the buying of the old hall as a temporary measure This was turned down by a vote as plans are going ahead towards building a new hall. The "Sweaters" committee have promised a report for the next meeting and will recommend a site for the proposed new building and recreation grounds.

The next meeting will be held Thursday, March 20 at 8 p.m ... the old hall Come out everyone we need your opinions and support.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMIN D3 which means that there are 2700 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of Iodine and Salt. It is an 18 per cent protein starter that will give the confidence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, ground oats, rod liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

"In the Legislature"

By FLOYD H. BAKER, M.L.A., Clover Bar

The debate on the budget was the highlight of attention in the Alberta Legislature last week. Premier E. C. Manning brought down the largest budget in Alberta's history, amounting $17,000,000.

Considerable additional grants are seen in every department, with Education and Public Works getting the most dollars.

The Premier's address showed an over-all increase of $60,000,000 in the gross value of agricultural products for last year. The only important decrease in agricultural production was a $12,000,000 decrease in hog values. There were 1,100,000 fewer hogs marketed in Alberta last year than in 1946.

Livestock Feeder Association last year handled more than 70,000 animals, valued in excess of $5,000,000.

Treasury Branches now show deposits exceeding $26,500,000, which was an increase of $6,500,000 last year. The year's surplus on operation is $95,396.

Value of natural resources produced showed an increase of $12,000,000. More than 400,000 feet of wells were drilled last year, with $9,000,000 spent by drilling companies.

There has been much talk of the government having a $10,000,000 surplus last year. Here are the facts:

There was an over-all surplus of $10,110,554.61. Of this amount, more than $2,000,000 was used to reduce savings certificates. $10,000,000 was used to pay on treasury bills held by the Dominion Government, and twelve and one-thirty million dollars was used for debt retirement and adjustment payments arising out of our debt reorganization. This was partially offset by accounts payable of $600,000, which left an over-all deficit of $2,889,780.76 which came out of the accumulated surpluses of past years.

It is not possible in the short space to deal with all aspects of the budget, but I wish to deal with the treasury bills of the province, and hope that at a later date I may deal in more detail with the debt reorganization program.

The total indebtedness of our treasury bill is $58,250,000 bearing 3 per cent interest. This is made up of (a) Dominion advances for flood provincial relief, $10,250,000, and (b) Dominion advances for purposes other than relief, $15,621,000. The Dominion Government agrees to cancel 50 per cent of the relief bills, or $5,207,000, and to charge no interest on the balance of the treasury bill for relief. The province of Alberta will return $7,307,750 of non-relief bearing treasury bills. This will be paid by applying the award for natural resources made in 1938 by the Royal Commission. This award by the Royal Commission to Alberta was $5,000,000 in 1970, at which time it is advertised over thirty years. The remaining $7,621,250 will be converted over 30 years, bearing interest at 3% per cent. The province's annual cost, including principal and interest, will be $547,000. The province has been paying $700,000 in interest alone on the treasury bill indebtedness. Our annual debt service charge on treasury bills will be reduced by $261,000, and in 30 years there will be no debt.

Through the courtesy of the editor of this paper, I will give more details on certain aspects of this budget next week.

The budget debate of August speech was concluded by Premier Manning on Monday afternoon, March 17th.

The people of Canada consumed 78 lbs. of sugar per capita in 1946. This amount is likely to be increased to 90 lbs. per capita this year, the 1st increase, in April.

TO RELIEVE SIMPLY DISTRESS OF HEAD COLDS TODAY

Do This! NEVER NEGLECT head colds—not for one minute! Put a few drops of Vicks Va-tro-nol in each nostril to get effective relief fast. It quickly soothes irritation, helps clear out congestion and makes breathing easier. You'll bless the way it works. Try Va-tro-nol, today!

VICKS VA-TRO-NOL

« Recipes for Milady »

Good food has universal appeal and each country has some special dishes which might well be served internationally.

Many recipes brought to Canada by new Canadians have been graciously given to the Consumer Section, Dominion Department of Agriculture. One after another they have been tested and the majority have been endorsed with delight by all who tasted them. This is not surprising, for it is commonly known that many countries have for generations acted recipes approved by their most exacting gourmets and also by those who might not be remembered such but, like everyone, relish good food.

All the tested recipes from abroad which the Consumer Section now have on file are not usually found in cookbooks in this country they will, from time to time, be suggested as a means of adding variety to Canadian meals. The three which follow are practical for use at the present time, since they call for ingredients which are not hard to find in most food stores.

R E B

BULB PYLEA « N'LANDS»

1 lean lamb flank
Salt
Pepper
Allspice
Flesh of tailpotto
1 onion onion (chopped)

Have lean lamb flank, sprinkle with salt, pepper, allspice and a pinch of saltpeto. Add the chopped onion, Roll and sew. Leave in a strong brine (made in the proportion of 1 cup or salt to 4 cups of water) for 2 weeks. Boil the meat in fresh water for 1½ hours. Press with weight until cold.

R E B

HUNGARIAN APPLE PUDDING

6 large sour apples
2 tablespoons fruit juice
1 cup fine, soft bread crumbs
1 tablespoon butter
2 raw yolks
1 2 cup sugar
¼ teaspoon salt
2 egg whites
3 tablespoons sugar

Pare and grate apples. Add fruit juice and blend. Add bread crumbs. Cream butter, add egg yolks, sugar and salt and beat thoroughly. Add to first mixture and combine well. Beat egg whites until light, add remaining sugar gradually, beating until mixture will hold in peaks. Fold into first mixture and turn into lightly greased baking dish. Cream-pouch in a moderate oven 350 degrees F for 1 hour. Serve with Hard Sauce. Nit serving.

R E B

BEEF A LA STROGANOFF

1 lb. round steak or lean stewing beef
Salt
Pepper
1 tablespoon flour
1 tablespoon fat
1½ cups stock
1 tablespoon tomato juice
2 tablespoons sour cream
1 small onion
2 tablespoons chopped green pepper, optional

Cut meat into 1 in squares. Sprinkle with salt and pepper. Let stand 2 hours. Brown flour in fat, add stock and bring to a boil. Add tomato juice and sour cream. Fry onion, add onion and green pepper. Add to sauce, simmer slowly until tender about 1 hour.

R E B

APPLE JUICE SYRUP

In the fruit products laboratory at the Dominion Experimental Station at Kentville, N.S., a method has been advised by which an edible syrup can be prepared from apple juice. The syrup was used commercially as a sweetening agent for soft drinks. The process is undergoing trial on a commercial scale.

Salisbury

Congratulations go to Mr. and Mrs. F. De Smet (nee Hazel Barner) of Rocket Hill, who were married last week. Best wishes both of you.

R E B

Mr. and Mrs. W. Grinnell are holidaying at the coast.

R E B

Mr. T. Reed and son, Irving are making preparations for the trip to England.

R E B

The flu is still going around the district, consequently quite a number of children are out of school. We wish one and all a speedy recovery and back to school.

R E B

We are glad to hear that Mrs. J. Ball is recovering very nicely. We hope she will be able to come home soon.

R E B

The ratepayers annual meeting for Salisbury School was held at the church. Attendance was good in spite of bad roads.

WEDNESDAY, MARCH 19, 1947

Against and For

The war of ideas is being waged today more fiercely than people realize. Nationalistic groups of the left, one right and extreme left deliberately divide the nations. If you piece together all the isolated incidents of unrest whether in the Canadian or the British Parliament, in the factories and trade unions, at elections, in the armies, in treatment and in housing, they form a definite "subversive" character.

Communism, Fascism and many other forms of totalitarianism are the leaders whose unscrupulous methods they use to attain their ends. Their tactics are to divide and confuse the democratic forces. Divide and rule is their slogan. Why? Because if they are united in their opposition to totalitarianism they are strong enough to defeat it. Their methods are to create class hatred, racial hatred, and religious hatred. They are the enemies of democracy and of the democratic way of life.

Democracy is the opposite. It is the way of life which seeks to unite all people of good will in the struggle against the forces of evil. It is the way of life which seeks to create a world in which all men can live in peace and security. It is the way of life which seeks to create a world in which all men can live in peace and security. It is the way of life which seeks to create a world in which all men can live in peace and security.

Democracy

Self-pity is a stagnant pool. The man who values everything which brands resentment... by dollars needs plenty of change.

CANADA NEEDS MORE IMPROVED BARLEY

By encouraging the growing of improved quality seed and malting barley the brewing and malting industries of Canada through this contest are contributing to the raising of Canada's standard of living and assuring successful re-entry of the Dominion in world markets after the war. Improved Malting Barley is used in a wide range of products for human food, industry—in fuels, drugs and chemicals. It is playing an ever-increasing part in the industrial and economic life of Canada.

1946 COMPETITORS PLEASE NOTE:

Full list of 1946 National Barley Contest winners will be announced at the opening of the Provincial Barley Contest at Manitoba Winter Fair, Brandon, Manitoba, Mar. 31st.

School Flashes

Despite the fact that March 21 isn't here yet, spring has arrived! Harvey—Look there's a gopher over there!

Bill Dowling—I do believe the grass is getting green!

Margaret Rutherford—It is spring and I don't feel like eating.

Mr. Richardson—I know it's spring, but can't you work past a little longer?

* * *

Revenue!—orrupt! potent! why? Kasten are again homing in the dark future. The preparations are again going ahead to the displacement of us all.

* * *

The Social Studies II class will soon make public a history of the Port and surrounding districts. This book ought to prove both informative and interesting to all.

* * *

The characters riding on the Good Hope bus route were overjoyed when their new bus arrived recently! It is a panel delivery with no windows! Hmm. But who isn't are going up. Phooey!

* * *

Kelvin George Lawrence graced the Port to-day (21) district with his appearance on April 1st, 1926. During the course of his life he has developed many likes and dislikes. He dislikes monday sports and also enjoys dusting and eating. He strongly dislikes English, French and pushing his brother's car out of the ditch. His important future is not definitely decided.

PUBLIC PROTECTION

Under the Food and Drug Act of Canada, those certain conditions and diseases for which treatment may not be prescribed, except by a fully qualified person.

A section of the Act, prohibits anyone from importing, selling or offering for sale, any article of food or drug advertised to the general public as treatment for those specified diseases.

Every diagnosis covered by this section of the Act is serious enough to demand professional care. Therefore, it is possible that remedies recommended to the public for them would be either dangerous or ineffectual, and thus, by preventing an effective treatment, the patient would lose the great benefit which early medical care would have given.

How to Get More Asparagus

Provincial experiments have found that over-cutting asparagus greatly reduces yield. While the fertility of the soil and general cultural practice are important in obtaining high yields of asparagus the length of the cutting season must be taken into consideration. A 10-year experiment at the Dominion Experimental Farm at Agassiz, B.C., has shown that 25 per cent more asparagus can be obtained if the cutting period is stopped after eight weeks rather than allowed to continue for 16 weeks. During the first three years, plants will point more if they are cut for 12 weeks but, after that, excessive cutting weakens the plants enormously. In the 10 years of the experiment the plot cut for eight weeks average of 6,050 pounds per acre while those cut for 12 weeks produced only an average of 5,000 pounds per acre per year. In the eight-week plot [illegible] the Lincoln class [illegible]

The Willing Workers held their March meeting at the home of Mrs. Viola Reynolds. The annual bazaar was planned for June.

Two special surprises marked the meeting. Mrs. Reynolds was presented with a gift for her birthday and Mrs. Matheson was guest of honor on the eve of her departure to Scotland. She was presented with a box of chocolates also small gifts and cards to mail to relatives to be opened duly during her voyage. "Our hearts go with you, Mrs. Matheson and we hope you dreams all come true on the long awaited trip back home."

Mrs. Matheson thanked the meeting appropriately and a dainty lunch was served by Mrs. Glen Reynolds, Mrs. R. Wermuth and Mrs. Roy Reynolds. The next meeting will be at the home of Mrs. Hassell.

* * *

The Ardrossan Community League held another whist drive in the old hall on Wednesday, March 12. Twelve tables were played, amid the buzz and chatter that means everyone is having a good visit.

Gentlemen's prizes went to Doc Jamieson on Hole and Mr. C. Hamilton with consolation. Ladies' first went to Mr. K. Dowling and Mrs. Ralph Reynolds received consolation. A sumptuous lunch was served by the ladies to end another enjoyable evening.

PATRONAGE DIVIDENDS

The Pioneer Grain Company has paid patronage dividends for the years ending 1942, 1943, 1944 and 1945. We will pay a patronage dividend for 1946 in a short time. If our earnings permit we intend to pay a patronage dividend for this crop year, so for better service and returns

Deliver Your Grain To

PIONEER GRAIN COMPANY LIMITED

Barley King to be Named Apr. 1st

The name of Canada's 1946 Barley King will be announced at the Manitoba Winter Fair, at Brandon, April 1st.

Winner of the award, whoever he may be, will be picked from the twelve provincial winners; 4 from Manitoba, 4 from Saskatchewan and 4 from Alberta. Provincial winners in Manitoba will be announced at Brandon when interprovincial awards are made.

There will be four interprovincial prizes of $1000, $500, $300 and $200. The champion will actually receive $1,200. He will get $1,000 as winner of the Dominion championship, $400 as provincial winner in his own province, $100 for having won his regional championship and an allotment of 10 bushels of Minnedosa barley seed worth $1 a bushel, the equivalent of $10. All contestants who won cash prizes from regional winners up, will receive a 10-bushel seed supply of Minnedosa.

The $25,000 National Contest, sponsored by the Brewing and Malting Industries of the nation, drew nearly 1,200 entries from the Western Division.

The contest will be renewed in 1947 under rules and regulations substantially the same as last year. Copies of the regulations will be available for distribution within a few days and on letters, will be obtainable at all country elevators.

* * *

Exports of wheat flour from Canada last year totalled 14,994,397 cwt., valued at $138,700,000. Great Britain alone purchased $95,200,000 worth of Canadian flour.

Receives Award

THOMAS A. SHANDRO

Most coveted award in Canadian radio, the Beaver Award, has come to Edmonton for the first time. Word was received from the Canadian Broadcaster, Toronto, that Thomas A Shandro, Director of Public Relations at CJCA was declared winner of the Beaver in the field of Radio Public Relations.

The highly coveted award is given annually to Canadian radio stations, their departments, or personnel, for outstanding contributions to Canadian radio during the year. Several awards are given annually, each to a different branch of radio operations.

Mr. Shandro's award citation reads, "For distinguished service to Canadian radio in 1946 for promoting listener relations."

This marks the third time in the past three years that a radio award of national magnitude has come to CJCA, but the first time that the Beaver has come to Edmonton. Other two awards were won in 1943 and 1945, the former a Variety Show management award and the latter a Billboard program promotion award.

Among the Beaver winners of former years are such well known ex-Canadian radio personalities as Foster Hewitt, John Fisher, Howard Cable, Choire Wallace, Sam Raz and Stan Francis.

Mr. Shandro's award was made on the basis of a brochure which outlined CJCA's year-round activities in public relations as applicable to the industry in general, to the radio station, to the programs the station broadcasts, and the sponsors of the programs.

The brochure outlined the many and varied activities carried on by CJCA's public relations department and previewed specific examples and credentials of the efforts of those activities on the listener, the sponsors, the retail-Canadian radio personalities as ex-ecutives, agency representatives, and the local sales contacts. Miss Audrey Pegrume, Mr. Shadro's secretary, prepared the brochure.

Mr. Shandro is at present in Toronto where he appeared on Borden's "Canadian Cavalcade" Monday to receive his award.

How's Your Color Psychology?

How's your color psychology? Do you know what color control must you use and what color mapped them?

The story of London's Blackfriars Bridge vividly illustrates the principal of color psychology. A gloomy, bleak structure, as many people remembered outside from a visit to homes known as "Suicide Bridge" London's authorities wisely called in a color expert to help relieve the bridge of its gloomy look. He painted the bridge a warm, sunshine yellow and overnight the "suicide bridge" became a cheerful thoroughfare.

As extreme case, but the principle applies in all types of painting.

* * *

Here's a case a little closer to home. A room has some walls in the house upstairs without people living under it.

A problem in an industrial plant, which originally had walls of a neutral gray, was painted blue during an annual cleaning. Immediately complaints poured in to the company office. The substitute was too cold, although plant engineers knew that the best had combined comfort. Orange was substituted for blue and the chairs were given orange covered. Employees then complained that the cafeteria was too hot although the heat still remained the same. Color gave a physical reaction. Employees ate blue and felt cold, they ate orange and felt hot.

The problem, like most problems, was solved by compromise. The orange chair covers were removed and everyone said that the heating system was back to normal again.

This marks the third time in the past three years that a radio award of national magnitude has come to CJCA, but the first time that the Beaver has come to Edmonton. Other two awards were won in 1943 and 1945, the former a Variety Show management award and the latter a Billboard program promotion award.

Among the Beaver winners of former years are such well known ex-Canadian radio personalities as Foster Hewitt, John Fisher, Howard Cable, Choire Wallace, Sam Raz and Stan Francis.

CONQUER DISEASE

Great progress has been made by modern science in understanding the causes of typhoid and paratyphoid fevers and in applying measures for their control. The death rate has dropped markedly in this century, due to filtration and chemical treatment of water supplies, pasteurization of milk, and the control of disease-germ carriers.

Public health officers say that it all goes to prove what can be done when a concerted attack is made on disease. Working hand-in-hand with these forces can be depleted, they cannot, against almost any known type of human affliction, particularly if the public co-operates with the medical profession and the research scientist.

Support the Red Cross.

IN MEMORIAL

In loving memory of mother, Mrs. C. H. Watson, who passed away March 22nd, 1946.

We often think of days gone by
When we were all together
A vacant chair we can't deny
Our loved one gone forever.
Always remembered by Bob and Jean, Audrey and Dale, Arborfield.

Economics in One Lesson

Continued from Page One

wage parasite full employment."

"Wages and employment are eliminated as if they had no relation to productivity and output. On the assumption that there is only a fixed amount of work in the land, the government is drawn that a thirty hour week will provide more jobs and will therefore be preferable to a forty-hour week. A hundred make-work processes of labor unions are confusedly tolerated.

"It would be far better, if that were the choice which it isn't -- to have maximum production with part of the population supported in idleness by undisguised relief than to provide "full employment" by so many forms of disguised make-work that production is disorganized. The progress of civilization has meant the reduction of employment, not its increase. It is because we have become increasingly wealthy as a nation that we have been able virtually to eliminate child labor, to reduce the necessity of work for many of the aged and to make it no necessary for millions of women to take jobs. A short, smaller proportion of the American population works now than in 1929 and, say, of Russia or Russia. The real question is not whether there will be enough work, but whether we can produce enough to provide 60,000,000 jobs in America in 1960, but how much shall we produce and, what is consequence, will be our standard of living. The problem of distribution on which all the stress is being put today, is after all more easily solved than production. Production is the key."

Elementary my dear Watson!

Yes, it is, but I wish every member of every big-shot body in Canada, every teacher and preacher could read it. We are teaching too much hate on the world today, do but it in subtle ways, and there is nothing can help so much to eradicate hate and distrust as a clear understanding of the economics laws which, in the long run, determine the course of human progress.

Around the Town

St. George's W.A. will meet at the home of Mrs. C. R. W. Wagar on Thursday, April 3 at 2 p.m. Please note change of date.

The United Church W.A. wish to thank everyone who attended and helped to make their tea and shower such a success. Especially we wish to say thank you for the wonderful gifts and donations so freely given.

The regular meeting of the United Church W.A. will be held at the home of Mrs. Wm. Fisher on Wednesday, April 2nd at 2 p.m.

Curlers are reminded of the banquet to be held in the Fort Community Hall on Friday evening. The ladies of the United Church W.A. will be in charge of the banquet.

Albert Jarvis who has been in the United States on business for the past few weeks is at present reported to be in Calgary hospital undergoing an eye treatment. He is expected home in the near future.

Josephburg

On Monday the Good Will Club staged a social at the community hall at which they could entertain their male partners. The program consisted of a progressive euchre series. At the end of a set time, each table moved to fresh card mates. It was great fun and not unlike a game of musical chairs power. Each lady brought a box along which she was to share with her partner. The games committee of it to be congratulated on the success of the efforts. The first prize winners were Mrs. Magnus Metz and Rudolph Rippel. The consolation prizes went to Mrs. Piercy and George Hohn.

The Annual Meeting of the Scott Rural Mutual Telephone Co. was held in the school-house on Saturday. The directors for the coming year were appointed.

There is still some sickness around in the shape of chicken-pox and influenza, but both seem on the wane.

"Mary Millions" is to be presented on Thursday, April 3rd in Josephburg school. The residents of Josephburg and the surrounding country have started the project and all proceeds are to be turned over to the Fort United Church to help swell their building fund. That's day, April 3rd the day before Good Friday.

The senior room enjoyed a whole week's holiday while their dandelion inhabitants had a bout of "flu". With one exception all were on deck again last week.

We hear that gophers are out in droves reconnoitering Spring prospects. We imagine that probably their living quarters are not unduly dry. Owing to the fact that the ground frame no little, the snow is just settling down right

U.G.G. Show Well Attended

Nearly 600 men, women and children attended the U.G.G. picture show held last Friday evening.

Mr. Kemple, U.G.G. representative, showed scenes of Alberta which he had taken over a period of time and which were put into

A picture was also shown on the process used in creating a new brand of wheat. This covers a period of 10 years.

Two other pictures were also shown, bird migration and a comic

A very pleasant evening's entertainment was had by all who attended.

Since the third Wednesday of the month is the Young People's regular meeting night, our group gathered as usual in the basement on March 19. The attendance although good was not as large as it might have been owing to spring road conditions.

Committees were set up to look after the program and the general operation of summer camps to be held in Elk Island Park.

The Young Peoples Group are taking over Mothers' Day service at the church.

We have to congratulate this group for their splendid work and for the remarkable "Candle Light Service" which they held a few weeks ago.

The collection that evening was over $50.00 which will be donated towards a chandelier for the Reformed Church.

Many Attend John Deere Show

Farmers and their families filled the Fort Community Hall Monday afternoon to see the first show sponsored by the Fort Hardware Co. and shown by the John Deere Co. Ltd.

The afternoon entertainment started with a demonstration of John Deere farming machinery and showing the type of machine to use on various crops etc which would give the best results also some of the ways in which to avoid some weeds.

A short intermission followed in the pattern and picture drawing which were won by Garnet Hamilton who received a pair of vise grip pliers and Mrs. E. C. Longhi who received a pair of aprons.

A picture showing the best methods on how to combine soil and weeds was then shown.

The information farmers gained from these two pictures is, if applied to their farming, would be beneficial to themselves.

The final picture to be shown was "The Modern Dairy" showing how Borden, which was recently acquired by all present.

Salisbury

We are glad to hear that Mr. D. Hulbert is home from the hospital and we wish him a speedy recovery.

We wish Miss Eva Hammond a speedy recovery after a recent operation.

Mrs. L. J. Dimmick spent a few days with Mrs. Ed Bell after returning from the hospital.

Mrs. A. Pfeiffer of Chipman spent the week visiting her brothers Walter and Louis Kutz and Mrs. Ed Bell.

A joint stag and social was held by Mr. and Mrs. C. Harrison and Mr. and Mrs. J. Bell with nine tables of [illegible] present. Lionel Johnson [illegible] catered to. Mr. M. Kolowich and consolation to Mrs. E. Bendorf. Mrs. Bell's prize to Mr. H. Page, consolation to David Hammond and the consolation to Mr. R. Thompson. A lovely lunch was served by the hostesses, and an enjoyable time was held by all.

Wye

The whist drive held at Mrs. Everest Evanson's wasn't very well attended. There were three tables and first prize for ladies went to Mrs. Tom Daly and man's first to Harvey Sandford. Consolation prizes went to Mrs. Daly, Kraemer and Mr. Walter Kraemer. The evening was brought to a close and a lovely lunch was served by the

Mrs. Bert Sandford has been spending a few weeks in town and also Mr. Sandford, who has been working there for the last while.

The district wishes Hall Thompson and family success in their new business in the Fort, also Jim, Thelma and baby who have moved

The girls March meeting of the Wye Young Women's Club was held at Theresa Walker's, Tuesday evening. There were five members present. [illegible] was discussed and fruit baskets are being sent to the sick. Plans were suggested for a banner and tea to be held at a later date. The girls wish their members who are sick at present a speedy recovery, those being Mrs. Walter Kraemer, Mrs. Harry Bringman and Miss Mae Thompson. A dainty lunch was served, which brought another meeting to a close.

Mrs. McConnell has been spending a few days in town with her daughter, Mrs. Ben Jones.

We are sorry to hear Miss Cecil Khull has been removed to a hospital bed again. Hope you will soon be well again Cecil.

We are glad to see Mr. Bailey a speedy recovery after his recent operation.

It looks as if spring is here, at folks, last summer's number if old man winter has really left us for another year.

USE THE WANT-ADS

East Edmonton

The monthly meeting of the Willing Workers Club was held at the home of Mrs. M. Wolsen on March 12. A good attendance and members were present. The president, Mrs. Jackman was back in the chair after a trip by plane to Toronto to visit her daughter. Mrs. Jackman gave an interesting talk on her trip during the meeting. After business was held aside, it was decided to give $25 from club funds to the Red Cross and with donations from members amounting to $10, $20 all told was sent to the Red Cross. Tea was served by the hostess, Mrs. Watson. The next meeting will be held at Mrs. C. Briggs' home.

There was a whist drive in the hall on March 15. Prizes went to first, Mrs. J. W. Hosford, Consolation, Miss Joy Briggs. Gents first went to Evelyn Daly (playing as a gent), consolation to Mr. D. Daly.

We are glad to hear Mr. R. Chamberlain is on the road to recovery after a lengthy illness.

The Hard-Time Dance sponsored by the Board of Control of the Community Hall was held March 21 with a large crowd in attendance.

A large variety of costumes were noticed with prizes going to Mrs. Hawkins, first and Marion Wedgerove, second. Cents first went to Mr. Mawhinney, second to Mr. Glen Stannard. Judges were Mrs. Alvas, Mrs. Art Ottervell, and Mr. Carl Kiever. Spot dance prize went to Barbara Beyer and Dennis Stewart. The draw for the quilt was won by Mr. Ottervell, and the auto robe was won by Mrs. Schofield.

Friends of Mr. and Mrs. Bill Dana, of Leonne Vista wish to congratulate them on the birth of a daughter, Alice Kathleen, on March 12th.

JOIN THE FORT COMMUNITY SERVICE CLUB TODAY.

South Edmonton Mutual Telephone Co. Hold Annual Meeting

At the recent Annual Meeting of the [illegible] Edmonton Mutual Telephone Co. a motion was [illegible] to [illegible] rate per month on all phones as from April 1st 1947. Also that the [illegible] be reduced quarterly [illegible] every two months. It was explained that owing to increased cost of equipment, poles, etc., it was impossible to break even at present rates. Also that in order to protect our investment and give adequate phone service, a reasonable percentage of new line must be built every year.

The Board of Directors met on March 7th and ratified the action of the Annual Meeting.

Officers elected were: J. B. Rankine, President; Bernard Smith, Vice-President; F. R. McCabe, Manager; R. E. Andrews, K. E. Haynes, Directors; are the other members of the Board.

Telephone Thought for the Day. Please "Ring Off" when you finish a conversation and save your neighbor's time—"Listening in"

Bremner

The young married couples of the Bremner and Clover Bar districts gathered at the home of Mr. and Mrs. Garnet Harker on Wednesday, March 19.

With the Rev. M. A. Johnston in the chair a slate of officers were elected and plans made for a program for the year Officers elected were as follows: Wilfred Hirschkorn, President; Lawrence Schroter, Vice President; Mrs. A. Valeau, Secretary-Treasurer. Mrs. A. G. Schroter, Recording Secretary; the luncheon committee is Mrs. Wilfred Hirschkorn, Mrs. Lawrence Schroter and Mrs. R. G. Radway.

They decided to call the club the "Two by Two" and meetings to be held every third Wednesday of [illegible] month.

The evening closed with games and a lovely lunch was served by Mrs. Bremner.

The next meeting is to be held at the home of Mr. and Mrs. Wilfred Hirschkorn on April 16.

Griesbach

The Griesbach U.F.W.A. held a series of Whist Drives during the past month. Mrs. Ross Walker, Mrs. H. Walker and Mrs. J. Allsopp were hostesses.

Mrs. J. Allsopp entertained the U.F.W.A. at their monthly meeting last Tuesday evening. A donation of $20 was given towards the Red Cross Drive. Relief wood was distributed to be hauled for [illegible] to be completed later.

Mrs. Jack Pierce is convalescing after a very severe attack of the 'flu.

Mrs. Fred Tovlow is visiting her sister in Camrose.

The Griesbach curlers, Roy Shackleton, Jim Allsopp, Stan Walker and Ross Melville visited the Granite Rink in Edmonton recently to play against the East Jingle rink. A 14 end game was necessary to break on 8 all. On Following the game the curlers and their wives visited with Mr and Mrs. Roy Wilson.

The young people's group of the Griesbach Church gave a program and social evening in the church basement on Friday, March 14th. A short program was given by members, after which refreshments were served. It was decided to raise funds by donations—these may be left at any local store or garage if you cannot come each evening—if value will be accepted. This is an appeal to everyone who would like to see a recreation centre in the community. Do not wait for a collector to call. Leave your money at the closest centre or tell them of articles you wish to donate and they will be picked up.

The next meeting will be held on Wednesday evening, April 9 in the [illegible] hall.

The International Harvester Co., bags United States farm implement manufacturing organization, has announced reduction in the prices of farm implements running into millions of dollars. On the company's largest selling farm tractor the reduction is $125, or ten per cent

PT Class to Give Demonstration

Residents of the Fort and district are invited to attend the Physical Training demonstration to be held April 9th in the Community Hall.

Boys and girls classes have been held throughout the winter and the demonstration will serve as a fitting climax to what can be accomplished by the young people.

The program to be followed will be: Girls Keep Fit, Boys Parade, Girls and Boys Tumbling and Apparatus Exercises and Pyramid building.

There will also be a Girls Relay March and a Boys Boxing March.

The evening will be brought to a close by a community Sing Song.

The Physical Training Class is a non-profit organization and in order to defray expenses for the hall a small charge will be made.

Ardrossan

Membership in the Ardrossan Community League now totals 112. We extend a welcome to everyone else who is interested, to come out and join our ranks. The last meeting was held on Wednesday evening and was well attended. It is gratifying to see so many young people out. Treasurer R. Parker resigned, due to pressure of other duties and Mr. A. McKenzie was elected as our new treasurer. Mrs. E. Hanlan was elected as a committee of one to canvass house to house for the Dominion Day picnic.

Reports were given by the sports, social, and lo-tem committees. Much discussion followed the location report and then a ballot vote was taken to decide the site for the proposed ball and grounds. The decision was overwhelmingly in favor of an Ardrossan location. The exact spot is not [illegible] decided but it will [illegible] be somewhere in the south. It was decided to raise funds by donations—these may be left at any local store or garage if you cannot come each evening—if value will be accepted. This is an appeal to everyone who would like to see a recreation centre in the community. Do not wait for a collector to call. Leave your money at the closest centre or tell them of articles you wish to donate and they will be picked up.

The next meeting will be held on Wednesday evening, April 9 in the [illegible] hall.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMIN-END which assures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 3000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, cod liver oil, Riboflavin, and milk powder, selected cereals and mineral grade. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

"In the Legislature"

By FLOYD H. BAKER, M.L.A., Clover Bar

The past week witnessed the passing of the estimates on the 1st, also the further reading of many bills.

One bill before the house provides that nurses with a Grade XI attend attending may become members of the Registered Nurses' Association.

Another bill provides that all adoptions of children must be done through the Child Welfare Commission. It also provides for division or cessation of the homes where adopted children are placed.

An amendment to the Public Service Vehicles Act provides that the Highway Traffic Board may grant a PSV license without holding a public hearing to consider the necessity of such a license being issued. They will still continue to hold sittings where it is deemed necessary to get more information regarding the necessity of a new license being issued.

During the war years, the Dominion Government charged a three cent tax on all gasoline whether used for commercial or for agricultural purposes. This amounted to $4,000,000 in the Province of Alberta last year. On April 1st, 1947, the Dominion Government is going to remit this tax field. When the Dominion Government does so, the Provincial Government will keep in force two series of the present three cent tax on gasoline, except agricultural gasoline. All of the P.-Gov't tax on agricultural gasoline will be dropped. This will give the province the lowest provincial gasoline tax of any province in Canada. The Provincial Government's tax is expected to bring in a revenue of $1,500,000. (It will not affect agricultural gasoline.)

A change in the Vehicles and Highway Traffic Act provides that in the case of two vehicles approaching or entering an intersection at approximately the same time, the vehicle on the left shall yield the right-of-way to the vehicle on the right. Another change deals with the case of the driver of a vehicle approaching an intersection, and provides that he shall yield the right-of-way to a vehicle in the intersection who is turning to the left across the line of travel of such a driver, if the driver of the vehicle turning left has given a plainly visible signal of his intention.

Another bill provides for the free hospitalization of old age pensioners, blind pensioners, and recipients of mothers' allowance, and dependents of these people.

Q. I can understand temperature in a stratosphere at an altitude of about 1,000 feet. Would it be correct for me to report, in my home which is at an altitude of about 600 feet?

A. In all probability, no. However, this should be decided upon by your doctor, as much depends on the extent and character of your illness and your own general condition.

R X R

Q. Is it better to feed oil or oil moderately?

A. Forced feeding is not indicated except under very special conditions.

R X R

Q. Of what value are eggnogs?

A. Many physicians think they are an abomination and should not be used in the treatment of tuberculosis. The only value is their food value.

Last year the international Pulmonary Survey applied 34,172,855 mantoux tests or underpenetrated persons. Nearly eleven and a half million beds were provided.

Insurance Act provides that an insured crop will be covered against hail loss while it is in the stook or time sheaf.

The annual debt service charge of the Alberta Government, after 1947, will be fourteen per cent of our Provincial revenue. This is, when the ... 12 years ago, ... per cent of the provincial revenue of course, based on present rev-

« Recipes for Milady »

The expression "to make the grade" is commonly used to describe the ability of a person to succeed or reach the top of the educational or social ladder. The same applies to these foods with the good enough to be classified as the top grades.

Grading of foods under Dominion Government supervision and marketing (Agriculture Canada) is for the consumer may buy by grade, is of definite advantage to the Canadian housewife as that choice is a value to her whether she knows about grade regulations or not but effectively her when she knows grades for various products and asks for the grade most before buying.

We in Canada enjoy a great variety in the world where no other country regularly graded and marked for the retail buyer.

The origin "Buy by grade" buy with confidence" has been adopted by the Dominion Department of Agriculture and the Home Economics Service of Consumer Section so that retail economy as well as satisfaction in the result for buying by grade.

Eggs sold in Canada are graded The highest grade A1 eggs are the fine-t quality obtainable These are not always available and are

Radiograms

ODDS AND ENDS

This week marks two departures from CJCA's staff, and two new arrivals. After spending five years at CJCA after his discharge from the armed forces, Gil Benbrook left our sales office to become Commercial Manager of CKCK, Regina. Taking his place, to John Dean of Toronto. John Mankin, the other new addition to the staff, brings three years of radio experience to CJCA to replace John Smith on the announcing staff. Besides Edmonton, John Mankin is well-known to radio audiences in Ontario and the west coast, and in 1941 was winner of Announcers' Audition Contest in Hamilton, Ontario

WEDNESDAY, MARCH 26, 1947

Make Your Vote Count!

Monday, April 21st will be the day property owners of the town will be asked to vote on a by-law that will grant to the Northwestern Utilities Ltd. a franchise to supply the town with natural gas

To pass this by-law it requires a two-thirds majority vote, and every ratepayer is urged to get out and vote on that day.

All material labor and work of any description that is required to instal transmission lines to serve the town's people with gas will not cost them one cent The mains will run past all property lines and the company has agreed to dig the trenches, lay the pipes, and instal meters into every business or resident that wishes to use gas, at no cost whatever to the consumer

The consumer only pays for the necessary pipe fittings and burners he requires inside his premises

The rate that will apply to the majority of the residents is $2.50 for the first 4 M.C.F. and 35c per M.C.F. per month of gas consumed. A minimum charge of $2.50 per month will be made. Commercial rates will be found in the agreement published on Page Five

Natural gas is a commodity that you'll never want to be without once you have used it. It is clean, safe, and gives uniform heat and if properly installed and the right type of burner used will more than favorably compare with the cost of burning coal, besides the added convenience of no coal to shovel or ashes to carry out.

A great many of the towns throughout Alberta see the necessity of becoming more modern if they are to grow and prosper. Fort Saskatchewan is no exception. It must be made a modern up-to-date town that can offer all the conveniences to those wishing to settle here

A vote for the by-law, on Monday, April 21st, will be the first step in helping to make this a bigger, better town Make your vote count

Vote for Natural Gas on April 21
YOU DON'T HAVE TO TAKE IT, BUT IF YOU DO IT WILL BE PIPED FROM YOUR PROPERTY LINE INTO YOUR PREMISES FREE.

TRAVELLING DENTOR CHEWS ON HEALTH

Dr. N. L. Pleasant is probably one of Canada's most travelled dentors. Near the end of a recent swing throughout Western Canada, he has stopped at every city, town or village on the Canadian National Railways between Great Lakes and Pacific coast. He is patients are employees of the Canadian National Railways operating trades who are checked for eye sight, hearing, color blindness and general physical fitness. He travels with his wife in a specially fitted railway hospital car.

HEARING DEVICES

There is no known contraption which will cure deafness. However, many excellent aids are available to improve hearing. These in need of such instruments are reminded by medical specialists that the ear is a sensitive organ, and that its attention should not be entrusted to a non-professional person. The family doctor, they report, is best qualified to advise you concerning a hearing device, as in all other matters affecting health.

By-Law No. 88 of the Town of Fort Saskatchewan

BEING A BY-LAW OF THE TOWN OF FORT SASKATCHEWAN RESCINDING MILK SOLD, OFFERED FOR SALE OR DELIVERED WITHIN THE LIMITS OF SAID TOWN TO BE PASTEURIZED BEFORE BEING SOLD, OFFERED FOR SALE OR DELIVERED.

WHEREAS under Section 74 of the Public Health Act, R.S.A. 1942, Ch. 162, as amended to date the council of any town of a population of three thousand or more may pass a by-law as provided for in the said Section of the said Act, require all milk sold, offered for sale or delivered within the limits of the said town to be pasteurized before being sold, offered for sale or delivered, and

WHEREAS the approximate population of the town of Fort Saskatchewan is Three Thousand Two Hundred and Fifty (3250) persons, and

WHEREAS the following enactment of the Mayor and Councillors of the Town of Fort Saskatchewan in Council assembled and the Provincial Board of Health, as evidenced by the signature of the Chairman thereof, and the affixing of the Seal of the said Board, and

WHEREAS the signatures of more than fifty per cent of the electors voting on the said By Law have been received,

NOW THEREFORE, the council of the Town of Fort Saskatchewan, in council assembled ENACT AS FOLLOWS:

1. For the purpose of this By Law "pasteurization" shall have the meaning defined in Section 71(a) (1) (b) of the Public Health Act.

2. No person shall sell, offer for sale or deliver within the limits of the Town of Fort Saskatchewan, milk which has not been pasteurized in a pasteurizing plant in possession of a Certificate of Approval Number from the Local Board of Health of the Town of Fort Saskatchewan as provided for in Regulation 162 (1)(d), 362-341 of the Provincial Board of Health.

3. Section 2 of this By-Law shall not apply to milk brought into the town by a producer and sold by wholesale to a distributor, to be pasteurized, bottled and delivered in the town to its purchasers of milk prepared in a plant and by methods approved by the Provincial Board of Health.

4. The votes of the electors duly qualified to vote on this By-Law shall be taken on the 21 day of April, 1947, in the Town Hall in Fort Saskatchewan at the hour of 10 o'clock in the forenoon until the hour of seven o'clock in the afternoon of the same day.

5. Lenard Broome, shall be the Returning Officer to enter and receive the said votes.

6. The Returning Officer shall at the Town Hall in the Town of Fort Saskatchewan on Monday the 21 day of April 1947, at the hour of 10 o'clock in the afternoon sum up the votes for and against the By-law and declare the results thereof.

7. This By-Law shall take effect on the date of the final passing thereof.

8. Any person who contravenes any of the provisions of this By-Law shall on conviction before a Police Magistrate or Justice of the Peace be liable to a fine of not less than $10.00 nor more than $50.00 and costs, and in default of payment to imprisonment for term of not more than thirty days or until such fine is paid.

9. Read a FIRST TIME and passed provisionally in council this 26 day of March 1947

Minutes of Regular Council Meeting

The regular monthly meeting of the Town Council was held in the Town Hall Monday and Wednesday evenings with the following members present: Mayor Hager and Councillors Lowe, Johnstone, Jones and Walker.

Messrs Muller, Sanitary Inspector of the Health Unit, and Ripley of the Fire Department and Chief Constable were also present and Constable Turner.

Mr. Muller addressed the meeting outlining the possibility of having Pasteurized Milk delivered in the Town.

Councillor Lowe informed the meeting that the Alberta Dairy Pool at Edmonton were prepared to deliver pasteurized milk in town.

The meeting was informed that the present farmer delivering milk had every intention of running the dairy business himself and with the problem of an adequate milk supply it was decided to bring in By-law No. 88 to give power to them to still concentrate, and at the same time ensure them of a milk supply that would meet with their demands.

S E E

Mr. Ripley briefly addressed the council in regards to the Burrup his fire had made of the Town in having the Water and Sewage included in the Town, and was apparent that it was possible that the Provincial Coal and the Town could come to some arrangement in regards to having the units installed in the town, Mr. Ripley stated that he had already conferred with Mr Pearson, Engineer of the Department of Public Works, and endeavour to get more definite information on this matter.

Those two gentlemen then left the meeting after the Mayor and Councillors thanked them for their attendance.

S E E

Constable Turner stated that Mr. Drummond, Provincial Inspector of the Fire Commissioner Department, had visited the town and outlined that the present fire equipment a town inspector, not necessarily an electrician, to inspect the electrical installations in town and that Mr. Brannan would send down a copy of a By-Law that may be applicable to the town. The matter was left over until such time the requirements contained in the By-Law could be discussed by the council.

The minutes of the last regular meeting were read and adopted.

The financial statement for the month of February was read, also the financial statement of the Community Hall was read, both were accepted.

By-Law No. 4 dealing with the amended agreement with the Calgary Power Company Ltd., for Domestic users of Light was given its second reading on the motion of councillor Lowe and on the motion of councillor Jones this By-Law was given its third reading and finally passed.

By-Law No. 85 dealing with the Gas Franchise was given its second reading on the motion of Dr. Johnstone.

COMMITTEES OF THE TOWN COUNCIL

The following committees will serve on the town committees:

Fire, Water and Light—Chairman A. J. Jacobs, J. A. Dawson, C. F. Lowe.

Licenses and Police—Chairman, F. H. Walker, A. J. Jacobs, C. D. Jones.

Public Works—Chairman, C. F. Lowe, J. A. Dawson, F. H. Walker.

Health—Chairman, Dr. Johnstone, C. D. Jones, C. F. Lowe.

Town Properties—Chairman C. D. Jones, Dr. Johnstone, J. A. Dawson.

Board of Health—Dr. Henry, Mayor Hager, Chairman, Lansley Jones, Wm. Cooper, Walter Bremner.

By-Law No. 85 of the Town of Fort Saskatchewan

A BY-LAW TO GRANT NORTHWESTERN UTILITIES LIMITED A SPECIAL FRANCHISE TO SUPPLY TO THE TOWN OF FORT SASKATCHEWAN AND THE INHABITANTS THEREOF NATURAL GAS.

WHEREAS Northwestern Utilities Ltd. has applied to the Council of the Town of Fort Saskatchewan for the grant to it of the right to supply to the Town of Fort Saskatchewan and the inhabitants thereof such natural gas as may be required by the Town and its inhabitants.

AND WHEREAS the Council of the Town of Fort Saskatchewan in Council assembled considers it expedient to grant such right and for that purpose to enter into an agreement with Northwestern Utilities Limited in the words and figures contained in the Memorandum of Agreement annexed and marked Schedule "A" to this By-Law.

BE IT THEREFORE ENACTED by the Council of the Town of Fort Saskatchewan as follows:

1. The Town of Fort Saskatchewan hereby grants to Northwestern Utilities Ltd. the special franchise which the Memorandum of Agreement hereto attached and marked as Schedule "A" purports to grant to it, subject to all the provisions, terms, conditions, provisos, restrictions, penalties, and other terms set forth in the said agreement.

2. Upon the final passing of this By-Law the Mayor and the secretary Treasurer of the Town of Fort Saskatchewan are hereby authorized and empowered to execute for and on behalf of the said Town the said Memorandum of Agreement and to affix the Corporate Seal thereto.

3. This By-law shall take effect on the final passing thereof.

Read a First Time this 24th day of March A.D. 1947.

Read a Second Time this 24th day of March A.D. 1947.

MEMORANDUM OF AGREEMENT made the 25th day of February, A.D. 1947.

BETWEEN:

THE TOWN OF FORT SASKATCHEWAN in the Province of Alberta, (hereinafter called "the Town")

(OF THE FIRST PART)

and

NORTHWESTERN UTILITIES LIMITED a body corporate having its headquarters at the city of Edmonton, in the Province of Alberta (hereinafter called "the Company")

(OF THE SECOND PART)

THIS IS THE MEMORANDUM OF AGREEMENT REFERRED TO IN THE FOREGOING BY-LAW AS SCHEDULE "A".

WHEREAS the Company proposes to construct a pipe line for the transporting of natural gas from a point on its existing transmission line system in the City of Edmonton, in the Province of Alberta, to the Town;

AND WHEREAS the Company proposes to enter into a contract with the Town for the purpose of supplying to the Town and the inhabitants thereof such natural gas as they may require;

NOW IT IS MUTUALLY COVENANTED AND AGREED by and between the parties hereto as follows:—

1. The Company agrees on or before the 31st day of December, 1948, to provide the Town and the inhabitants thereof with a supply of natural gas, and the Town hereby grants to and confers upon the Company, its successors and assigns, a special franchise to supply natural gas to the Town and the inhabitants thereof for the term of twenty (20) years from the said 31st day of December, 1948, or from such earlier date as the Company may commence to supply natural gas pursuant to the agreement, subject to the renewal of the said franchise or to the purchase by the Town of the Company's plant and equipment as hereinafter provided;

PROVIDED that the Council of the Town shall have power to extend the time for the provision by the Company of the said supply of natural gas beyond the said 31st day of December, 1948, on good cause shown by the Company;

PROVIDED FURTHER that should the Company at any time prior to the said 31st day of December, 1948, conclude that it is for any reason undertake the work necessary to perform this agreement the Company will forthwith notify the Town in writing of such conclusion and upon such notification being given this agreement shall forthwith be cancelled, determined and at an end.

2. The Town hereby grants to the Company, its successors and assigns, approved by the Town, subject to the terms conditions and provisos hereon contained, the right, power and privilege to use, break up, dig and excavate in the public streets, roads, squares, lanes and (or) other public highways of the Town, and otherwise do such work therein as may from time to time be required to lay, operate, maintain, repair, renew, extend, relay and (or) remove the pipe lines of the Company necessary to establish and operate the said system.

IT IS UNDERSTOOD AND AGREED that the said pipe lines shall be located in the lanes and alleys rather than in the streets and main thoroughfares of the Town if such location is practicable and where in the most of so doing will not be unreasonably great.

All pipe lines and equipment shown on the proposed location of the said pipe line as aforesaid shall be first submitted to the Town and approved by the Council of the Town.

In respect of subsequent extensions of the distribution system the Company agrees that a plan showing the location of the proposed extensions shall likewise be submitted to and approved of by any person or persons appointed by the Council of the Town for that purpose. The Company shall give notice to the person or persons so appointed as aforesaid of its intention to open or break up any of the said streets, roads, squares, lanes and or other public highways in the Town for the purpose of laying pipes. Such notice shall be given at least 48 hours or emergency arising from defects or breaking of the pipe or other works, where the public safety shall suffer.

The Company agrees at its own expense to change the position of any of the pipe lines as soon as possible when any of the public streets, roads, squares, lanes and other public highways within the Town are legally closed for Municipal or School purposes, and to carry out such change in a workmanlike manner.

Should any of the public streets, roads, squares, lanes and (or) other public highways within the Town be legally closed for any other purpose the Company shall give notice to the person or persons so appointed as aforesaid of its intention to open or break up any of the said streets, roads, squares, lanes and or other public highways in the Town for the purpose of laying pipes. Such notice shall be given at least 48 hours or emergency arising from defects or breaking of the pipe or other works, where the public safety shall suffer.

The Company agrees at its own expense to change the position of any of the pipe lines as soon as possible when any of the public streets, roads, squares, lanes and other public highways within the Town are legally closed for Municipal or School purposes, and to carry out such change in a workmanlike manner.

Should any of the public streets, roads, squares, lanes and (or) other public highways within the Town be legally closed for any other purpose the Company shall give notice to the person or persons so appointed as aforesaid of its intention to open or break up any of the said streets, roads, squares, lanes and or other public highways in the Town for the purpose of laying pipes. Such notice shall be given at least 48 hours or emergency arising from defects or breaking of the pipe or other works, where the public safety shall suffer.

The Company agrees with the Town that it will do as little damage as possible in the construction of the system hereby granted and will cause as little obstruction as possible during the progress of the work and at all other times and will restore the streets, highways, lanes and other places described within the limits of the Town to as good a state of repair as nearly as possible equal to their former state and maintain the same in such state for a period of two years, ordinary wear and tear excepted.

The Company further agrees that it will protect and indemnify the Town against any claim or claims or actions in connection with the exercise of the powers hereby granted and from and against all claims, demands and actions in respect of damages to persons or property by reason of any operations of the Company in relation to the undertaking.

3. Before the Town makes any repairs or alterations to any of its public services, the repairs or alterations of which may in any way affect any of the Company's pipe lines, plant or equipment, the Town shall give the Company two days' notice, except in cases where the public safety or dilemmas by the Town are required to do same immediately when any notice shall suffice. The Company shall thereupon be entitled to appoint a representative to supervise such repairs and alterations and see that the Company complies in respect of damages to property, claims are complied with the Town shall be free from all liability in connection with damages by reason of such repairs or alterations.

4. The Company will with all reasonable diligence and economy and complete the construction of such transmission and distribution pipe lines as in the opinion of the Company may be necessary to convey the said natural gas from the Company's transmission line to the said to the Town and to distribute the said natural gas to the Town and the inhabitants thereof. Provided that should the Company fail to perform its covenants in this paragraph contained the Town may at its option by notice notice terminate this agreement, and all rights, title and interest of the Company herein and hereunder shall thereupon cease and determine. Provided further that the Company shall not be liable to the Town for damages in the event of the Company failing if it shall have completed the said works and shall have commenced to distribute the said natural gas to the Town and to the inhabitants thereof on or before the said 31st day of December, 1948, or on or before such later date as may be agreed upon between the parties hereinbefore provided.

5. The Company shall during the term of the said franchise supply to the Town and (or) the inhabitants thereof all such natural gas as they or any of them may require for the Town, and (or) its inhabitants within the limits of the Town when the places or buildings to be supplied therewith are situated on land lying along the line of any low pressure distribution line of the Company. The property line shall be the place of delivery of all natural gas supplied to customers in the Town but the Company shall, instead the pipe line Town, the property line to a meter suitably located in the customer's premises. The said pipe line and meter to be owned and supplied by the Company by the Company and to be installed at a location to be determined by the Company. The expense and risk of utilizing and using such natural gas after delivery at the said property line shall be borne by the customer in all cases where the damage resulting from such risk is not attributable to any default of the Company, its officers, agents or servants.

6. The By-law of the Town authorizing the execution of the within franchise agreement shall after the second reading thereof be submitted by the Town to a vote of the burgesses and the said agreement shall not become binding on the Town until the said By-law shall have being given by the votes of two-thirds of the burgesses voting thereon, provided that when the said franchise agreement shall have so become binding the Town will, if requested so to do by the Company, and at the expense of the Company join with the Company in and give its support to an application to the Legislature of the Province of Alberta for an Act of the said Legislature validating the said franchise agreement.

7. The maximum monthly rates which the Company will charge the Town and (or) the inhabitants thereof for natural gas sold to and within the Town shall be as set out in the following schedule, viz:—

GENERAL RATE

Availability: Available to all customers

Rates: First 1 M.C.F. $2.00 per month
All additional M.C.F. $1.50 per M.C.F. per month
MINIMUM $2.00 per month

General Conditions:

(1) When accounts are not paid on or before the due date the charge per M.C.F. shall be increased by 10 cents per meter per M.C.F. and the gross rate as arranged shall apply.

(2) Where a customer has both COMMERCIAL AND INDUSTRIAL RATES.

Availability: This schedule is available to all commercial and Industrial Customers.

Net Rates

(a) Customer whose annual consumption is greater than 1,000 M.C.F. per year:

Fixed Charge Five Dollars ($5.00) per month plus

Consumption Charge Twenty-four cents (24c) per M.C.F. per month

(b) Customers whose annual consumption is greater than 1,500 M.C.F. per year:

Fixed Charge Ten Dollars ($10.00) per month plus

Consumption Charge Twenty-four cents (24c) per M.C.F. per month

GENERAL CONDITIONS

(1) This schedule is available only on annual contract, which shall continue from year to year thereafter until either party shall give to the other party at least thirty (30) days' notice prior to the expiration of any such year's contract of its desire to terminate such contract at the expiration of such year or it shall cease and determine.

(2) When accounts are not paid on or before the due date the charge per M.C.F. shall be increased by 10 cents per M.C.F. and the gross rate as arrived at shall then apply.

(3) Where a customer has been billed under any subsection (a or b) of this rate, and has been under the impression that for part of the year it would have been cheaper to the customer to have been billed under another subsection of the Natural Gas Rate, his account shall be adjusted and the necessary refund made by the Company.

HIGH LOAD FACTOR RATE:

(1) A Fixed Monthly Charge of $30.00 plus an additional monthly charge of $1.00 per 1,000 cubic feet of maximum 12 hour demand hereinafter defined, and a Consumption Charge of 15c per M.C.F. for the first 1,000 M.C.F. consumed per month and 12c per M.C.F. for the next 1,000 M.C.F. consumed per month and 10c per M.C.F. for all over 2,000 M.C.F. consumed per month shall be made to all Customers who are eligible for this rate.

(2) The said High Load Factor Rate shall be available only on account of customers whose daily consumption of gas is not less than 6,000 M.C.F., and whose total consumption during the six months of January to December inclusive, May, July, August, September and October is not less than 40% of the total consumption of such Consumers during the 12 meter reading periods ending in the calendar months of January to December inclusive.

(3) The maximum 12 hour demand shall be the greatest amount of gas in cubic feet delivered in any 12 consecutive hours during the current billing period or the preceding 11 billing periods, as measured by the Company. In the case of a new Consumer of gas, the said maximum 12 hour demand shall be estimated by the Company. The Company will upon receipt of a written request from a Consumer, supply information to enable the said Consumer to estimate the said maximum 12 hour demand. In each event the maximum 12 hour demand established for the current billing period shall be used when above billing periods are not available for the Company as aforesaid or as measured by the said records, as the case shall apply. Provided, however, that the Company may with the consent of the Consumer concerned reduce the maximum 12 hour demand taken into consideration such feature as the effect of the Consumer's demands for gas during the Company's peak load periods may not be affected.

(4) The said High Load Factor Rate shall apply from year to year unless the Consumers applying therefor, subject to any Order of the Board of Public Utility Commissioners and subject to cancellation by either party upon the giving to the other party of 30 day's notice of termination in writing prior to the expiration of any contract year, and at the termination of such year, the contract shall thereupon terminate.

(5) The "Rules and Regulations" of the Company as approved and amended by the Board of Public Utility Commissioners from time to time shall form part of and apply to all contracts entered into pursuant to this High Load Factor Rate notwithstanding anything herein contained, but in the event of any contradiction or ambiguity the terms hereof shall prevail.

PROVIDED, however, that the Company may sell natural gas to the Town and (or) the inhabitants thereof at rates lower than those set out in the said rate schedules in cases where the quantity of consumption is larger, and (or) off peak demand, as the case may be, or where the Company considers and things under contract, and in all appropriate and properly exercised discretion within the Town limits for the purpose of supplying gas to the inhabitants of the Town for such price and on such terms and conditions as may be agreed upon with the Company, or failing such agreement, then for such price and on such terms as may be fixed by the Board of Public Utility Commissioners on the application of either of the parties hereto, but nothing shall be claimed by or paid to the Town by any and all franchise or franchises granted from the Town.

8. So long as the Town does not assess for taxation the transmission and distribution systems of the Company situate within the Town for municipal or other purposes, the Company will pay to the Town, in lieu of such taxation, in cash and every year five per cent. (5%) of the gross receipts of the Company derived from the sale of natural gas within the Town, providing that in the event of the Town electing, at any time within five years from the date of the commencement of the operation of distribution line of the Company within the Town for the purchase of the said system, and however the said purchase by the Town be paid for, the Town shall thereafter, during the balance of the said five years, pay to the Company in addition to the Company's system for taxation as aforesaid. Provided that after the expiration of the said period of five years and within six months from the beginning of each succeeding five years' period, the Town shall have the right to elect whether it shall for the then ensuing five year period, be paid 5% of the gross receipts of the Company or assess for taxation the said system of the Company.

9. The Town doth hereby consent to the exercise within the Town by the Company and its servants, licensees and assigns approved of by the Town, of the powers which may be exercised by a company with the consent of the municipality under and pursuant to the provisions of the Water, Gas, Electric and Telephone Companies Act.

10. The Company shall submit to the Town a statement of the expenditures of the Company in connection with the purchase of its pipe line from its existing transmission system to the Town and separately of its distribution system to serve the Town and its inhabitants, and from year to year of the cost of additions to and extensions thereof and depreciation and amortization charged. All such statements shall be certified as correct by the Company's auditors and the Town shall have the privilege of sending to the Company's offices at any convenient time the Town's auditors for the purpose of checking and verifying the said statements.

11. If at any time during the term of this agreement any dispute, difference or question shall arise between the parties hereto, touching the construction, meaning or effect of this agreement or concerning any claims or thing herein contained or the rights or liabilities of the parties hereunder, then this agreement shall every such dispute, difference or question shall be referred to the Board of Public Utility Commissioners of Alberta to decide shall be referred to a reputable engineering surveyor, who shall act as sole arbitrator and in the event of disagreement on the selection of the arbitrator such arbitrator shall be named and appointed by the Chief Justice of the Province of Alberta, and the award or determination arbitrator shall be made in writing and shall be final and binding upon the parties hereto.

12. The Company shall not assign, without the consent of the Council of the Town first had and obtained, this agreement or any part thereof by way of security, this agreement or the rights, powers and privileges granted hereby or any of them.

13. This agreement shall enure to the benefit of and shall be binding upon the successors and assigns of each of the parties hereto.

IN WITNESS WHEREOF the parties hereto have hereunto caused their respective corporate seals to be hereunto affixed, countersigned by the signatures of their proper officers, the day and year first above written.

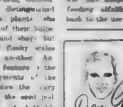
Lilies Suitable to Canadian Gardens

The name "Lily" is frequently used as a common name for plants which do not belong to the true lily genus (Lilium), as for example Daylily and various plants which belong to the Amaryllis family, states Miss Isabelle Preston, Dominion of Horticulture, Central Experimental Farm, Ottawa. True lilies can be distinguished from most bulbous plants who sell by the nature of their bulbs. They vary in size and shape but all are made up of fleshy scales which overlap one another and are other distinguishing features; the position of the segments of the flower which are below the ovary which develops into the seed pod.

Unlike the bulbs of daffodils and tulips which can be kept dry during the summer months, lily bulbs are seriously weakened if the scales become dried out and withered. For this reason, lily bulbs need careful handling when out of the ground.

In the publication Lilies for Canadian Gardens, Miss Preston deals with the varieties of lilies best suited to Canadian gardens and gives full information on the culture and propagation of these plants, together with names and descriptions. A copy of the publication may be obtained by writing to the Dominion Department of Agriculture, Ottawa.

Alaska still provides the chief source of protein for the dairyman. The predominate hand cower is not adapted the purposes of feeding alfalfa weened never go back to the use of grass hays alone.



Don Graham

Comments on EVERYBODY'S BUSINESS

My neighbor John Williams has been talking of little else but almost how important our export trade is to us.

"You know, Don," he said, "a lot of Canadians don't realize what it means to have world markets for our grain and hogs. But history shows now that not even the strongest economy can get along without selling to others."

Well, I agreed with John all right, but I reasoned him it isn't only a matter of produce like grain and hogs. Industrially to us, the things called "invisible" exports like the tourist trade and life insurance are important.

Did you know that about 40 per cent of all the life insurance with Canadian companies has been sold to people outside Canada — in 31 other countries? Not other country "exports" that sounds like insurance. Our companies must be pretty famous for their efficiency and their safety.

Life insurance is a business built for everybody; a great enterprise which protects the family of more than four million policyholders and does travel and which helps others a tremendous and easy way to save. Consult a authorized agent about a plan best suited to your requirements.

Choosing Vegetable Varieties Important

There are many differences in vegetable varieties and the question as to what variety or variation to grow is equally as important as vegetables as it is in cereal grains. Disease, insect, weed, pasture, and storing qualities must all be carefully considered in selecting varieties. Important, too, is the necessity of providing for fresh vegetables for use in the fall, winter and early spring months.

These considerations have been taken into account by the horticulturists in the Dominion Stations in North Eastern Saskatchewan. After eleven years of testing, the following short list of vegetables has been selected:

Beans—Stringless Green Pod and Round Pod Kidney Wax
Beet—Improved Detroit and Good For All.
Cabbage—(early) Gold Acre and Copenhagen Market.
Cabbage—(late) Danish Ballhead
Carrots—Nantes Half Long, Chantenay and Oxheart
Cauliflower—Early Snowball
Celery—Soft Light and White Plume
Corn—(early) Dorinny and Golden Bantam
Corn—(late) Golden Bantam and Evergreen
Cucumber—Stringless Green Pod
Endive—Green Curled
Kale—Dwarf Green Curled
Kohl Rabi—White Vienna
Leek—Large Flag
Lettuce—(head) Grand Rapids.
Lettuce—(head) New York No. 12 and Imperial.
Onions—Dutch sets, Red Wethersfield, Yellow Danvers and Prize Spanish.
Parsnips—Hollow Crown.
Peas—(early) American Wonder.
Peas—(medium early) Thomas Laxton and Lustremain.
Peas—(late) Stratagem and Lincoln.
Potatoes—Warba, Early Ohio, Irish Cobbler and Bliss Triumph.
Pumpkin Small Sugar.
Radish Sana, French Breakfast and Icicle.
Spinach King of Denmark.
Squash Cruckneck and Green Globbard.
Swiss Chard—Lucullus.
Tomatoes—Bonny Best, Marglobe and Bonny.
Turnips Canadian Gem.
Celery, medium, a few seed onions, early cabbage and early cauliflower should be started in hotbeds. For early potatoes, a few tubers should be grown sprouted indoors prior to planting time.

Fort Curling Club Hold Annual Banquet and Election of Officers

More than 75 men and women of Fort Saskatchewan and district gathered in the Community Hall, Friday evening for the annual banquet of the Curling Club, and to elect new officers.

Mr. Chas F. Lowe, president of the club, presided over the banquet and expressed his satisfaction at seeing so many present. He also thanked the ladies of the United Church W.A. for their splendid dinner they provided.

A sing-song led by Rev. W. D. Race followed the banquet.

The gushing was then called to order, and the president on behalf of the club presented life memberships to Mr Jos. Wright and Mr. A. M. Cassidaine.

Mr. Wright, who was unable to attend the banquet, has been a member since 1909 and Mr. Cassidaine since 1928. Mr. Cassidaine on presented his thanks to the members, and told of curling in the early days, stating that the river was used for the 25 cent curling rink. The second year they curled on a slough near the Riffle ranges and the following year in the Mounted Police grounds.

The Fort Athletic Co. Ltd. untees formed, 150 members pay on $10 each and built the first rink, costing $1200.00

Mr. Cassidaine stated that the Red Leather Cup donated by the Province of Alberta was won several times. The cup was lost in the fire of 1912. On receipt of the cassidaine the Leather Trophy was also won by the Fort Curlers.

He then presented to the club the Williamson Trophy which he had won some years, and hoped that it would serve as a good club cup trophy.

The menu as of the last annual meeting were then read and adopted.

The members were informed that work would start immediately on the raising of the old ice preparation for the erection of a new four-sheet rink. Lumber for the building has already been purchased.

Officers elected for the coming year are Honorable President, J. D. McLean, President Chas. F. Lowe, 1st Vice President, H. B. Johnstone; 2nd Vice President, R. Thorne; Secretary-Treasurer, A. R. Kipp; Ice Committee, Jos. Kelly, Jack Wright, Sandy Graydon; Draw Committee, Art Simmons, Bride Thorne, Bonspiel Committee, Jim Banks, Harry Bivens, Sam Melville, Geo. Hawkesale, Art Powell, Ed Robinson.

'Mary's Millions' Well Attended

Over three hundred attended the home comedy "Mary's Millions" presented by the young people of Fort Saskatchewan on and of the Fort United Church Hockey Rink on the Fort Frontier Holiday on Wednesday evening.

The packing of the play by Rachel Hollow, a New England Village, and the cast, as organized by Betty Bivens, played by Ada Wilson, who, in her own words, "was a country girl and has never been Betty into marrying the count, a real gentleman."

The cast's little plan naturally [illegible] Betty [illegible] the count, [illegible] Mr. Bivens, [illegible] Simon, Betty [illegible] Wilson, Mrs. Ada [illegible] Jean Lapsley and Mrs. [illegible] Bride Thorne, Bonspiel Committee, Jim Banks, Harry Bivens, Sam Melville, Geo. Hawkesale, Art Powell, Ed Robinson.

Mr Logan O'Brien was Business Manager, Mr. Josh Sams Stage Manager and Mrs. Rae, Director.

Following are the names of the cast, who contained to Mr. and Miss Ruth Shackleton.

Good Hope

The regular meeting of the Good Hope A.F.U. local will be held in the School House on Tuesday evening April 8 at 8 p.m.

Mrs. Lloyd Seymour left for Nanton, Alberta, last Friday to attend the funeral of her father, Mr. C. R. Miller.

The United Church Ladies' Aid Society was held in the Good Hope School last Tuesday. Due to the irregular supplies it will not be fully organized for a month's or two's time, then it is anticipated a regular meeting will be in attendance. Sunday School will be held at 1 p.m. every Sunday.

Mr. Tony Kuhn returned to Grand Prairie last Wednesday after spending a week at his home here.

Mrs. A. Kent is holidaying in Edmonton the guest of her sister.

Mr. Mark Evans, who has been employed at Entrance, Alberta during the winter returned home last Monday.

Ration Restrictions Lifted

Hardly a week passes in which we don't read and hear of control being lifted from some national commodity. On April 1st rationing control was lifted on ice cream, and for the first time in years you can order any amount for the family dessert or the Sunday picnic.

In few industries are merchants better prepared to accept this news and take the opportunity to increase their sales.

During the past few years ice Cream Equipment manufacturers have made an interesting study of their products and have offered to the ice cream fountain operators the finest refrigeration units ever seen on the continent.

Though this equipment shows many fine mechanical improvements the emphasis has been on sanitation and a new high has been reached in the protection of the ice cream consumers health.

The following are the highlights of these new sanitary soda fountains:

1. Fountains are equipped with "running water dipper wells" in which fresh pure water constantly flows over the dippers used to serve ice cream.

2. Hinged lids cover the ice cream. No longer is it necessary to remove the lid, a feature that keeps the ice cream free from dust and other fountain traps.

3. Ice cream is protected by cleverly designed walls that exclude dirt and liquid spilt on the fountain top.

4. Refrigeration is distributed to provide perfect temperature for ice cream from top to bottom.

5. Finally, a educational programme has been carried out by these equipment manufacturers in conjunction with the ice cream producers to ensure the proper and sanitary handling of ice cream when their equipment is in use.

A soda fountain operator, fortunate enough to possess one of these modern marvels of sanitation is well equipped in both knowledge and equipment to serve healthful, nutritious ice cream.

The Fort Confectionery invites you to inspect their equipment and will gladly serve you your favorite dish, and your children's health, is safeguarded at all times. They are confident that you will come back with confidence, knowing that you will enjoy all the healthful nutritious value of delicious ice cream stored and handled under the most sanitary conditions.

The Fort Confectionery is now stocking Neapolitan and Fruit ice cream bricks, vanilla, strawberry and chocolate ice cream.

Did you know that an increasingly large number of Edmonton residents are making The Fort Confectionery their destination for a Sunday drive because of the delicious ice cream vendors that cannot be compared to Edmonton?

There must be a reason for this interest in a Soda Fountain twenty miles from Edmonton, and it can be found in the slogan of The Fort Confectionery—"QUALITY, SERVICE, CLEANLINESS". advt.

Legion Plan to Refurnish Rooms

At the regular meeting of the local branch of the Canadian Legion held Tuesday evening in the Legion rooms it was decided by unanimous vote to refurnish the rooms. Wooden chairs have already been purchased and at Tuesday's meeting it was decided to buy four chesterfield suites and four floor lamps.

It is hoped that with these improvements greater interest in Fort Saskatchewan Legion activities will be shown by veterans.

Plans were also discussed at the meeting for a summer carnival to be held some time in June.

Bunny with a horrified shriek "Is it?"
Heatchie answered in a satisfied drawl, "April Fool".

Margie G. jumping up banging the table: "Oh there's a mouse!"
Mr. A. Hall jumping up in excitement, "Where?"
Margie: "April Fool".
Mr. Hall left the room.

Jessy: "Louise you no-cool your class with 30 pupils."
Louise: "Oh did I really?"
Jessy: "Ha—April Fool".

The Health Unit was here to give the pupils of grades 7 and 8 a check-up.

The Inoculation Clinic will be here to immunize the children against the following diseases:

Miss Herman of Calgary, representative of the Red Cross, paid us a visit last Monday. She gave a very interesting talk on the value of having a Red Cross Unit in school. She gave interesting illustrations of some of the projects of the junior Red Cross and outlined the Five Point Peace-Time Program. Briefly these five points are as follows: 1. Free blood plasma to all throughout the Dominion; 2. Hospital care given to the crippled children; 3. Mitigation of suffering overseas by sending supplies; 4. Comforts for Veterans; and 5. International correspondence through the Red Cross to facilitate good will.

Watch for the date of the Massey Harris picture show.

Legion Notes

Mr. Tony Kuhn returned to Grand Prairie last Wednesday after spending a week at his home here.

Mrs. A. Kent is holidaying in Edmonton the guest of her sister.

Mr. Mark Evans, who has been employed at Entrance, Alberta during the winter returned home last Monday.

School Flashes

Pupils Pattie [illegible] was born a baby boy, Neil [illegible] on Friday, March 24, 1947. Though [illegible] understood as to be life's [illegible] son, Freda accepts the [illegible] that her ambition was to run a horse ranch with Annie's eight horses. However, art work and playing the piano are also her activities. Her likes include Bing Crosby, sewing, movies and strawberry ice cream. Being without a pillow her outdoor silence and rambling at the blackboard during French proved Her pet saying is "That's a good question".

Easter holidays are nearly here Upon the arrival of the much-waited-for Easter vacation, our exams will be over, the ink bottles will disappear home again and lunch pails will be put away. We will return with determination, to study hard in order to pass our final exams in June.

More About the Milk Problem

The Health Unit notice of April 21st, re pasteurization of milk is causing considerable comment from all quarters, and much interest are being bombarded with questions regarding same.

One question is: Will it prevent us from keeping cows? The answer is no. If this bylaw is passed it will not prohibit persons from keeping cows to provide milk for their own use.

The question of selling milk, is however, entirely different. Milk can only be sold providing the seller meets the requirements as laid down by the Department of Health.

These laws are made and enforced by the Department of Health of the Province, and therefore do not come under the jurisdiction of the council.

The present source of milk supplied to the majority of people in the town, will, after April 11th, cease As was stated last week this farm has been sold and the new owners have no intention of carrying on the dairy business

When the council were informed of this, several farmers were contacted and asked if they would undertake to supply milk to the residents None of those contacted wished to undertake the milk delivery because of the expenditure entailed in order to comply with government regulations regarding the sale of milk

An immediate source of milk had to be found and in view of this the council deemed it wise to introduce the pasteurization principle to ensure a future supply of wholesome milk.

It will, it is commonly conceived, be very important point that should not be overlooked and if this bylaw is passed it means that anyone wishing to open a dairy here would have to pasteurize the milk before it could be sold to the consumer.

When milk has been pasteurized all harmful bacteria that it might have contained are killed, thus eliminating the possibility of tuberculosis or other diseases that have been contracted through impure milk. Pasteurized milk also keeps fresh for a longer period than unpasteurized milk

This does not imply that unpasteurized milk is impure. Milk taken from cows that have been tested for T.B. and other diseases, and kept in sterilized receptacles in proper coolers is just as pure as pasteurized milk

But how can cows in town at present cannot possibly supply all the milk that is required In the first place they must comply with the regulations governing the sale of milk, and in second place, they are operating on such a small scale that the expense involved to meet these requirements will be too great to make it profitable

This, however, will not stop them from realizing a profit on their cows, because they can always ship their cream to any dairy.

Councilmen are interviewing the various dairies in the city to see what arrangements can be made regarding the supply of milk, also what the cost will be

Residents are urged to consider very carefully every angle involved. Write down any questions that you want answered and bring them with you to the general meeting that will be held in the near future.

Agricultural Service Board Notes

Professor T. J. Harrison, Chairman of the National Parks and Limited Plan Committee, says: Grass is no harder on soil than wheat, oats or barley.

In the early years flax was grown on spring breaking. It dried the soil so that seed did not germinate and a good crop of grass could not be obtained on the land until after it was summerfall ed. This spread the idea that flax was hard on the land.

Anyone intending to grow flax crop, however, should bear in mind that flax is not the least competitive and should be worked only on clean ground.

PREVENTION OF EROSION
H J Mather, supervisor of soil conservation in Alberta, in an address before the Alberta Government Dealers' association, gave some useful information regarding measures of preventing soil erosion He said that wherever cultivation, particularly the wrong kind of cultivation, left of fibre and the lack of protective cover, there was conditioning factors to accelerated erosion

The one way dirt-shy people have had been saved more than any other implement. It is the most efficient weed killing implement. It should not be used at any time unless an hour because it pulverizes the soil and buries trash while travelling at high speed.

The rod weeder is an efficient weed killing machine when used in conjunction with the one-way disc

Ardrossan

The Community Leagues held another whist drive on Wednesday evening. Thirteen tables were played. First prizes were won by Mrs. T. Jackman and Mr Karl Schmalko and second prizes by Mrs. Lois Reynolds and Mr. T. Lovell. A hearty lunch was served by the members. The social committee were very pleased to see so many young people out again. May we remind you that the League's drive for funds is on Let's get all our donations in soon so plans can go ahead for preparation of the ball grounds before everyone gets busy with spring work. Don't forget the next meeting will be held on April 9 in the old hall.

Partridge Hill

The play "Mary's Millions" put on by the Fort United Church ladies' basketball team, was enjoyed by a good crowd last Wednesday evening. The cast was [illegible] and very much amused

Mrs. Cliff Alden entertained the W.A. and W.M.F. at her home on Wednesday of this week

Mr. and Mrs. Karl Cranston and George Alton have been spending a few days with Mr. and Mrs. Arthur Pringle, whose children Margaret Grace, Hedley, Arthur, and Shirley May; Mr. and Mrs. Arthur Pringle's other children Margaret Grace, Hedley, Arthur, and Shirley May; Mr. and Mrs. Arthur Pringle's other children Margaret Grace, Hedley, Arthur, and Shirley May; Mr. and Mrs. A. J. Alden are to the home of the highway.

Congratulations to Mr. and Mrs. Ralph Lawrence on the birth of a son at the General Hospital, Thursday, March 27th.

Mr. and Mrs. Wilmot Alton were called to Lamont Tuesday owing to the illness of Mr. Alton's father

Around the Town

Easter Services will be held in St. George's Church, Fort Saskatchewan as follows:

Good Friday 3:00 p.m.; Easter Sunday 8:30 a.m., Holy Communion and 11:00 a.m Holy Communion.

Mrs. Fred Sherman left Sunday for Toronto to visit with her daughter, Rita.

Mrs. R. Ingram Johnson of Keghead, who has been visiting her parents Major and Mrs. George Dawson, and son, George Johnston, went to Edmonton Monday on the first leg of her journey home She spent five months here and will sail for England around the 10th of April

Mrs M L Rive [illegible] visiting at the home of her parents, Mr. and Mrs. Bacon for the past month returned to her home [illegible] Minneapolis

While here Mrs. Olive was entertained at several teas and dinner parties as been a guest over the week-end at the home of Mr. and Mrs. Jack Ball, Edmonton two Wendy Kelsenhaus and dinner guest at the home of Mr. and Mrs. R. Thompson Mrs. Lewis was formerly Joanne Shaver of the Fort.

Mr. and Mrs. Bill Dixon arrived back in the Fort on a week among Friday.

Mr Dixon says he would rather shovel snow than put up with too much rainy weather.

Mr and Mrs. W. A. Mcwhirter and family of Edmonton were week-end visitors in the Fort, the guests of Dr. and Mrs. Turner.

The regular meeting of the W.I. will be held in the Union Hall on Wednesday, April 9th, at 3 p.m. Mrs H B Smith will be the guest speaker, her subject will be "My Home Town" and will tell the story of Fort Saskatchewan from the early days to the present. A cordial welcome is extended to all.

Special music will feature the Easter Sunday services of First United Church in the Fort Community Hall. The Junior Choir will sing three numbers at the morning service, and the Senior Choir will render three anthems in the evening Parrine Hill and Tyree Valley will have Holy Communion Service on Easter

On Sunday, March 30th, nine women were received into Christian fellowship by Rev. W. D. Race in a special service of First United Church There were Mr. and Mrs. Robert Pringle's three children Margaret Grace, Hedley, Arthur, and Shirley May; Mr. and Mrs. A. J. Alden's son, Cyril Dennis; Mr and Mrs. Garth Snyder's daughter, Brenda Marlene; Mr. and Mrs. Eric Pratt's son, Barry Douglas. Mr and Mrs Albert Lowy's daughter, Edith Mavis and Mr. and Mrs. Allan Smith's daughter, Gloria Jean

Mrs M Matheson will leave on Saturday for Glasgow, Scotland, where she will spend six months visiting her two brothers, whom she has not seen for 40 years.

Mrs. W. H White, who for the past five months has been staying with her daughter in the city returned this week to her home here.

"In the Legislature"

By FLOYD H. BAKER, M.L.A., Clover Bar

Alberta cow farmers this year will be $1.00 higher. The money will go into a fund which will provide a system of assistance in cases of accidents where the cow holder has no funds to pay for damages suffered. Free hospitalization will be provided to people who contract anthrax as a result of contagion. The effect of these changes in regulations will mean that, to prevent their own interests, people will be more careful to carry automobile insurance. The Act does not say that our opponents must have insurance, but if anyone is operating a car without insurance, and has an accident, he will lose his driver's license. Motorists may camp on the highways anywhere they like. The Alberta Government Automobile Act, will begin making drivers responsible insurance, as well as automobile insurance.

A Bill to professionalize graduates from the Faculty of Agriculture will now be members of a profession known as agrologists.

A change in the Livestock Diseases Act deals with Bangs' disease. If the purchased animals have the disease, the buyer has 14 days to return the animals and get his money back. It is hoped that this legislation will help to check the spread of Bangs' disease and undulant fever.

There will be a number of minor changes in the Election Act. One of the more important changes is that figures only will be used in marking ballots in your rural election. The voter will mark his first choice with the figure "1", his second choice with the figure "2", etc. Any ballot marked with an "X" will be considered a spoiled ballot.

There are some changes in the Mineral Taxation Act which affect land-owners who today own the mineral rights in their land. It is my advice to these people who own the mineral rights, that they should send particulars regarding the ownership of these mineral rights to the Department of Lands and Mines. It is in the interest of the land-owners that this be done.

As we have reached the close of the session, there will be time for monthly newsletter giving highlights of what has taken place during the recent session. I wish to take this opportunity of expressing my sincere thanks to the editor of this paper for his kindness in bringing this information to the public. I will be glad to have any comments from interested readers regarding these matters.

If anyone would like to receive a booklet on our Government Health services I would be pleased to mail one to you, or if any one in the Clover Bar Constituency would like to have me come to your hall on school day to discuss Government or other problems I would be pleased to do so.

My home address is 10172 117 Street, Edmonton, Phone 31383. Office address is 9974 Jasper Ave., Phone 28254.

Kitchen Stove to Sterilize Dressings

Sterilizers in Red Cross Outpost Hospital drives heat from the kitchen stove. Nurse Dorothy Stoughton is shown sterilizing dressings at Outpost Hospital at Wilmerforce, Ontario. They are one of Outpost Hospitals and Nursing Stations operated by the Canadian Red Cross Society and it is hoped to increase the number to 100 or more in Frontier districts. The sum of $1,250,000 is budgeted for the operation and expansion of the Outpost Hospital system in the $6,500,000 sought in the present national appeal.

Successful Show At Agric. School

In spite of muddy conditions and bad country roads a large crowd attended the Little Royal Live Stock Show at the Olds School of Agriculture, Saturday, March 22. Upwards of seventy head of stock of the school farm, trained and fitted by the students, were paraded in the ring. There were 10 classes in all and these included Yorkshire pigs, Hampshire lambs, Holstein, Shorthorn and Aberdeen Angus cattle and Percheron horses.

The judge, Dr. R. D. Sinclair, Dean of the Faculty of Agriculture, University of Alberta, commented upon the uniformity of old things and showing job done by the students is practically all classes, which in his opinion was of a higher general standing than at most of the shows of former years.

It would be difficult to single out any particular entries above the other, though special mention might be made of the top dressings in the pig and lamb classes and the decoration and braiding of manes and tails in the class of Percheron mares. The four entries in the hog butchering were exceptionally well displayed and demonstrated the skill of the students in this department. The entire show reflected much credit to the instructor in Animal Husbandry and his staff, under whose direction and instruction the students have worked with their animals for the past couple of months.

Fall Strawberries

To obtain a fall crop of strawberries, it is necessary to have an everbearing variety, large strong plants are best and should be planted early in the spring of the previous August of the year fruit is expected, says F. V. Hanlon, Superintendent, Dominion Experimental Station, Prince George, B.C.

Everbearing varieties such as Waymore or Rockhill, Gem, Sparks or Pixie will also give a crop in late June or July when well established. If the varieties mentioned are not listed by your favorite nursery, write to your nearest Dominion Experimental Station where a list of varieties which have overbearing varieties can be obtained.

Strong plants should be used as those that are weak may not fruit the first year. Such plants may be obtained from reliable sources. Young plants can be distinguished from old in having nearly white roots, while old ones are darker.

Strong, young plants set out in early May on well hoed land should start to flower in June. All blossoms should be removed until July so as to encourage development of the plant or the production of runners which will create the next season's crop. If runners are not desired, the plant will develop and, later, fruit better if the early blossoms are removed. In case the plants grow out and the previous August, it will be necessary to remove the flowers in June.

To protect the berries from splashing and damage from soil, it is desirable to place a light mulch of fine straw or even sawdust among the plants some weeks before they start to set fruit. When applied early, the litter will work down closely around the plants and with less injury than if applied when the fruit has set. Where winter covering is practised it is customary to leave some of the covering as a protective litter.

Think of the time we spend talking about the things we never should have gotten into.

Pasture for Poultry

"Although the dominion chicken is not regarded as a grazing animal it normally requires and is capable of making considerable amounts of green grass or pasture growth to supplement the cereal grains and other foods which form the major portion of the diet," says W. W. Cram, Dominion Experimental Farm, Indian Head, Saskatchewan.

Good pasture crops and forage plots range conditions serve two main purposes in the life of the chicken. Young, tender pasture growth is rich as most of the vitamins that are lacking in cereal grains and it also provides important quantities of protein, and minerals, consequently there is less need to buy supplements necessary for an adequate diet. Further, favorable range conditions provide a natural, healthful environment in which overcrowding, unsanitary conditions and other related problems are reduced to a minimum.

It is necessary that pastures for young stock be well removed from the main poultry houses and mature stock so as to prevent disease and parasite infection of growing birds by direct contact or through infected soil. Wherever possible the use of the same land in successive years should be avoided, a rotation of two or more years being best for the control of diseases and parasites. If the same land must be used each season cultivation will help destroy soil borne infections.

When land is scarce or pressing pastures are not available, annual crops are used to advantage Oats and fall rye seeded together in the spring at the rate of two bushels of oats and one bushel of fall rye per acre, will usually provide out-of-hatchery pasture the oats during late spring and early summer, the fall rye in late summer and fall. Where permanent or perennial pastures are used, the legume and grass crops, alone or in combination, that are best adapted to the district for livestock pastures and crop requirements are generally available for poultry. It is important, however, to provide land that has not been used by poultry the previous year, or preferably for two or more years. If perennial pastures have been contaminated in spring before being used or sowing the pasture crops, they should be cut back to about three inches so the growth will be tender and palatable.

Shade on range is necessary and if not otherwise provided, a few rows of spring seeded sunflowers will serve the purpose.

WHEAT STARCH

A pure wheat starch the percent produced anywhere in the world—has been developed by Industrial Grain Products Ltd of London, Ontario. Prospects are bright that this wheat starch will replace the older starches in domestic and industrial uses.

Five Recordings Given Free Saturday

FROM 2 TO 4 P.M

To introduce our new Columbia Recordings, we have recently put in stock, we are giving away five records free on Saturday afternoon.

Records will be played continuously from 2 to 4 p.m., and at 2:00 p.m., 2:30 p.m., 3:00 p.m., 3:30 p.m. and 4:00 p.m. a record will be given to the person who can guess the name of the piece that is playing at those particular times. No person may win more than one record.

We have a very good selection of all types of music including classical. Also Albums of recordings by the following: Nelson Eddie, Cole Porter, Rise Stevens, Andre Kostelanetz and his orchestra and Gene Autry.

We can get any Columbia Recording you desire.

The Spirit of the Thing

It is said the Nazis lost the war when their plan produced no lasting bargain at a time when they had England at their mercy. It would be true to say they lost before that when they produced a frontal philosophy that turned the world against them.

Today we are in a world war of conflicting ideas. America's plan is the return to free enterprise. Russia's plan is total state control. Britain is experimenting with a half way plan of socialism. Which idea will dominate? Again it may be a question less of plan than of personality.

Free enterprise is a philosophy of materialism a philosophy of everybody get for himself as much as he can always overreaches itself.

The socialist plan is a philosophy of materialism fails to go far enough Cutting off self-interest it does not call forth enough self-giving to serve the common material, except through moving further on to totalitarian dictatorship.

Total socialism is a poison-pill of materialism tries to smother the materialism but smothers effort as well and has to resort once more to the old lures of self-fishness.

Bank plan is self-defeating though not because of defect in the plan so much as defect in philosophy. It is not a new plan we need but a new philosophy and a new system but a new spirit. Only the Spirit speaks to the spirit. Nations which would win the world war of ideas must go to cover the spiritual way of life to replace conceptions of materialism. Then what they plan will work.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMILENE which insures that there are 2700 units of Vitamin A, 340 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B12. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals and minerals. Many Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth

LOCK UP DRUGS

Chemists colonial and unpatented medicinal pills and tablets, which may attempt sickness, and, of course, seriously endanger their health, should be kept under lock and key, or at least, where the little ones cannot reach them.

National Health authorities warn that medicines are safe to take if not taken entirely according to prescription, and must be kept in small children. All medicines should be kept out of sight of infants and convalescents in the hospital may lead to haughty if the little ones combine them, collecting such objects "pudlas."

Radiograms of the Week

YES, ANOTHER

Right on the heels of CJCA's Beacon Award comes News Scoop Variety, New York, to the effect that the A.L.C. Show, sponsored by the Alberta Livestock Co-operative Ltd., has received honorable mention in the Variety's Festivals Annual Show Management survey

Though the eight top awards went to U.S. radio stations it is gratifying to note that in a field covering approximately 1,000 radio stations CJCA and the A.L.C. Show received honorable mention.

The judges were especially impressed with the uniqueness and the purpose of the noon-hour Show (say Friday broadcast the fact that nine co-operative organizations alone in Alberta take their turns at sponsoring the broadcasts, all within their areas of operation. The messages, news and views, services and entertainment provided on the A.L.C. Show are directed primarily to the farm population, yet survey figures indicate that the show commands a very heavy city audience as well.

Latest census figures indicate that CJCA's penetration area is predominantly rural (450,681,000 non-urban).

These various unusual features about the A.L.C. Show are typical the fancy of the judges sufficiently favorably to list CJCA as the only station on the Canadian Prairies to receive honorable mention in an outstanding award in view of the scope of competition Congrats to the A.L.C.

BINDER TWINE PRICES

Prices of binder twine will be higher this coming harvest. The federal subsidy paid since 1942 on sisal fibre has been removed. As increase of $7.50 per 100 pounds has been authorized and is now in effect. Sisal fibre is now costing around $41 per 100 pounds as compared with the subsidized value cost of around 64 per 100 pounds which has hitherto been in effect

« Recipes for Milady »

Six servings

MOULDED EGG SALAD

1 tablespoon granulated gelatine
¼ cup cold water
1½ cups boiling water
¼ cup lemon vinegar
1 teaspoon salt
1 hard-cooked egg, sliced
1 tablespoon chopped parsley
2 tablespoons chopped pickle
1 tablespoon chopped pimento
1 tablespoon chopped onion
Soften the gelatine in the cold water. Add boiling water, vinegar and salt. When the gelatine is dissolved, cool. Add the remaining ingredients. Pour into wet moulds and chill until firm. Serve on crisp lettuce or other salad greens and garnish with mayonnaise.

PRIZE SAUCE

1 tablespoon sugar
2 cups sour cream
1 teaspoon dry mustard
Mix the cucumbers with little of the cold juice and blend until smooth. Heat remaining juice and gradually add the cucumber mix and cook until thick. Cook about 10 minutes stirring constantly until thickened. Add flavoring. Stir

SPONGE

1 cup sugar
2 eggs, separated
½ cup water
1 cup sifted pastry flour
OR 1 cup less 2 tablespoons sifted all-purpose flour
½ teaspoon salt
½ teaspoon baking powder
½ teaspoon vanilla
1 tablespoon almond extract
Add salt to egg whites and beat until stiff but not dry. Gradually beat in ½ cup sugar. Beat egg

ALMOND SPONGE

½ teaspoon salt
2 eggs, separated
½ cup sugar
1 cup sifted pastry flour
OR 1 cup less 2 tablespoons sifted all-purpose flour
½ teaspoon baking powder
¾ teaspoon vanilla
½ teaspoon almond extract
Add salt to egg whites and beat until stiff but not dry. Gradually beat in ½ cup sugar. Beat egg

The steady progress toward a higher standard of farm living during the past one hundred years has been linked with a corresponding increase in the development of mechanized farm equipment. The widespread adoption of the modern tractor and other labor-saving machinery has helped farmers throughout the world in their realization of increased farm income—better homes—better living.

By-Law No. 85 of the Town of Fort Saskatchewan

A BY-LAW TO GRANT NORTHWESTERN UTILITIES LIMITED A SPECIAL FRANCHISE TO SUPPLY TO THE TOWN OF FORT SASKATCHEWAN AND THE INHABITANTS THEREOF NATURAL GAS

WHEREAS Northwestern Utilities Ltd has applied to the Council of the Town of Fort Saskatchewan for the grant to it of the right to supply to the Town of Fort Saskatchewan and the inhabitants thereof such natural gas as may be required by the Town and its inhabitants

AND WHEREAS for the purpose aforesaid the Council of the said Town deems it expedient to grant such right and for that purpose to enter into an agreement with Northwestern Utilities Limited in the words and figures contained in the Memorandum of Agreement marked and initialled Schedule "A" to this By-Law.

BE IT THEREFORE ENACTED by the Council of the Town of [illegible] as follows:

1. The Town of Fort Saskatchewan hereby grants to Northwestern Utilities Ltd the special franchise which the Memorandum of Agreement attached hereto and marked as Schedule "A" purports to grant to it subject nevertheless to all the covenants, conditions, provisions, restrictions, penalties and other terms set forth in the said agreement

2. Upon the final passing of this By-Law the Mayor and the Secretary Treasurer of the Town of Fort Saskatchewan are hereby authorized and empowered to execute for and on behalf of the said Town the said Memorandum of Agreement a

3. This By-law shall take effect on the [illegible] day of [illegible] A.D. 1947.

Read a First Time this 17th day of February, A.D. 1947.
Read a Second Time this 3rd day of March, A.D. 1947.

MEMORANDUM OF AGREEMENT made the 17th day of February, A.D. 1947 between

THE TOWN OF FORT SASKATCHEWAN in the Province of Alberta, (hereinafter called "the Town")

OF THE FIRST PART

and

NORTHWESTERN UTILITIES LIMITED a body corporate having its head office at the City of Edmonton in the Province of Alberta (hereinafter called "the Company")

OF THE SECOND PART

THIS IS THE MEMORANDUM OF AGREEMENT REFERRED TO IN THE FOREGOING BY-LAW AS SCHEDULE "A".

WHEREAS the Company has constructed a pipe line for the transporting of natural gas from a point on its existing transmission line east of the City of Edmonton in the Province of Alberta, to the Town;

AND WHEREAS the Company proposes to enter into a contract with the Town for the purpose of supplying to the Town and its inhabitants thereof such natural gas as they may require;

NOW IT IS MUTUALLY COVENANTED AND AGREED by and between the parties hereto as follows:

1. The Company agrees on or before the 31st day of December, 1948, to provide the Town and the inhabitants thereof with a supply of natural gas, and the Town hereby grants to and confers upon the Company the successors and assigns, a special franchise to supply natural gas to the Town and the inhabitants thereof for the term of [illegible] years from the said 31st day of December, 1948, or from such earlier date as the Company shall commence to supply such natural gas pursuant to this agreement subject to the removal of the said franchise or to the purchase by the Town of the Company's plant and equipment as hereinafter provided.

PROVIDED that the Council of the Town shall have power to extend the term for the provision by the Company of the said supply of natural gas beyond the said 31st day of December, 1948, on giving reasonable notice of such extension to the Company.

PROVIDED FURTHER that should the Company at any time prior to the said 31st day of December, 1948, consider that it cannot for any reason undertake the work necessary to perform this agreement the Company will forthwith notify the Town in writing of such conclusion and upon such notification being given this agreement shall forthwith be cancelled, determined and at an end.

2. The Town hereby grants to the Company, its successors and assigns, approval to the Town subject to the terms conditions and provisions hereinafter contained, permission and power to use, break up, dig trench, and excavate in the streets, roads, squares, lanes and ways of the public highways of the Town and a reasonable width on each side thereof as may from time to time be required to lay, operate, maintain, repair, renew, extend, relay and for any reason the pipe line of the Company necessary to be installed for the purpose of this agreement.

3. (1) IT IS FURTHER AGREED that the said pipe line shall be located in the lanes and alleys rather than in the streets and main thoroughfares of the Town unless otherwise reasonably practicable and where the cost of so doing will not be unreasonably great

A plan of the original distribution system showing the proposed location of the pipe line as aforesaid shall be first submitted to the Town and approved by the Council of the Town

In respect of subsequent extensions of its distribution system the Company agrees that a plan showing the location of the proposed extensions shall be first submitted to and approved of by any person or persons appointed by the Council of the Town for that purpose. The Company shall give notice to the person or persons so appointed as aforesaid of the intention to open or break up any of the public streets, roads, squares, lanes and or other public highways in the Town not less than two days before the beginning of such work, except in cases of emergency arising from defects or breaking of the pipe or other works, when immediate notice shall suffer.

The Company agrees at its own expense to change the location of any of its pipe lines as soon as possible when any of the public streets, roads, squares, lanes and or other public highways within the Town are legally closed for Municipal or School purposes, and to carry out such changes with all reasonable speed

Should any of the public streets, roads, squares, lanes and (or) other public highways within the Town be legally closed for any other purpose the Company will at the expense of the person for whose benefit the area was closed, relocate its pipe lines as speedily as possible.

The Company agrees with the Town that it will do as little damage as possible in the execution of the powers hereby granted and will cause as little obstruction as possible during the progress of the work and at all other times and will restore the streets, highways, lanes and other places hereinbefore described within the limits of the Town to a state of repair as nearly as possible equal to their former state and maintain the same in such state for a period of two years, ordinary wear and tear excepted.

The Company further agrees that it will protect and indemnify the Town against any damages or expenses in connection with the exercise of the powers hereby granted and from and against all claims, demands and actions by third persons in respect of damages sustained by reason of any operations of the Company in relation to its undertaking.

5. Before the Town makes any repairs or alterations to any of its public services, the repairs or alterations of which may in any way affect any of the Company's pipe lines, plants or equipment, the Town shall give the Company two days' notice, except in cases where the repairs or alterations by the Town are required to be done immediately, when any notice shall suffice. The Company shall thereupon be entitled to appoint a representative to supervise such repairs and alterations and so long as the recognized directions of the Company's representative are complied with the Town shall be free from all liability in connection with any damage done by reason of such repairs or alterations.

6. The Company will with all reasonable diligence commence and complete the construction of such transmission and distribution systems as in the opinion of the Company may be necessary to ensure the said natural gas being delivered through the Company's transmission line as aforesaid to the Town and to distribute the said natural gas to the Town and the inhabitants thereof. Provided that should the Company fail to perform its covenants in this paragraph contained the Town may at its option by written notice terminate this agreement, not as right, title and interest of the Company herein and hereunder shall cease with cause and determine. Provided further that the Company shall not be deemed to be in default of the covenants in this paragraph contained if it shall have completed the said works and shall have commenced to distribute the said natural gas to the Town and to the inhabitants thereof on or before the said 31st day of December, 1948, or on or before such later date as may be agreed upon between the parties as hereinbefore provided.

8. The Company shall during the term of the said franchise supply as much natural gas as may be required by the Town and (or) the inhabitants within the limits of the Town when the plants or buildings to be supplied therewith are situated on land lying along the line of any low pressure distribution line of the Company. The property line shall be the place of delivery of all natural gas supplied to customers in the Town and the Company shall also install the pipe line from the property line to a meter suitably located in the customer's premises, the said pipe line and meter to be owned and supplied without charge by the Company and to be installed at a location to be determined by the Company. The expense and risk of utilizing and using such natural gas after delivery at the said property line shall be borne by the customer in all cases where the damage resulting from such risk is not attributable to any negligence of the Company, its officers, agents or servants.

9. The By-law of the Town authorizing the execution of the within franchise agreement shall after the same having thereof be submitted by the Town to a vote of the burgesses and the said agreement shall become binding on the Town only upon approval of the said By-law being given by the votes of two-thirds of the burgesses voting thereon, provided that when the said franchise agreement shall have so become binding the Town will, if requested so to do by the Company, and at the expense of the Company join with the Company in and give its support to an application to the Legislature of the Province of Alberta for an Act of the said Legislature validating the said franchise agreement.

7. The maximum monthly rates which the Company will charge the Town and (or) the inhabitants thereof for natural gas sold to and within the Town shall be as set out in the following schedule, viz:-

GENERAL RATE

Availability: Available to all customers

Rates First 4 M.C.F. $2.00
All additional M.C.F. [illegible] per M.C.F.
MINIMUM $2.00

Q. Would altitude increase the number of white corpuscles in one's blood when the increase in altitude was from sea level to 1,500 feet?

A. Experiments performed by physicians at high altitudes would lead one to believe that outside of the white cells of the blood are at least temporarily increased when a patient goes from a low altitude to one of 1,500 feet.

* * *

Q. Is it true that air travel is advisable for persons having abnormal hemoglobin?

A. Experiments carried on by flying nurses and apparently sufficient as all results. Many with active tuberculosis use the commercial planes without apparent harm whether or not flying should be undertaken is an individual problem for you to discuss with your physician.

* * *

Fifty cercosis will be removed in Canada either during the latter part of 1947 or in the early part of 1948, according to a statement made by Rt. Hon. J. G. Gardiner, federal minister of agriculture.

Canadian Pacific Railway's New Diesel Engine

Pictured above is a 1,500 horse power diesel engine of the type which is now being tested under actual traffic conditions by the Canadian Pacific Railway. The experiments will be carried out by set in commercial units of two or three locomotives. The future of the steam powered "iron horse" in Canada may well depend upon results of these tests. The Canadian Pacific is already turning heavily to use of diesel locomotives for all its throughout the system.

Rationed and Unrationed Preserves Items

"Sherry is still rationed", declared a prime board official after receiving many enquiries on this subject from city and country points, telling us a recent WPTB order would remove all sugar from the list of rationed foods.

He pointed out that the following are still rationed:

Extracted Honey, Cut Comb Honey, Honey Butter, Wallflowers Marmalades, Jams (including Cranberry jam), Jellies (including Mint jelly, Guava jelly) and fruit butters made wholly or chiefly of berries.

The following have been removed from the list of rationed goods and therefore may be purchased without coupons:

Canned fruits, Maraschino cherries, Cane syrup, Sorghum syrup, Maple syrup, Sorghum and cane, Maple sugar, Pie fillers, Fruit fillers, Bakers' fruit fillers, Fountain fruits and fruitsome (provided these commodities contain not more than 66 per cent of water available solids).

Battleline No. 2

Home Front members for the other fellow's point of view even when it is difficult from ours. We are building a nation. The British people are a mingling of many races. It will be so in Canada. Once on a train in the Ukraine if we a man born in the Ukraine if his people were interconnecting with our people." A certain agent sat face. "Mr Churchill's name", he said, "is Welsh mixed Pharoah, my grandchildren are Canadians by birth, I am a Canadian by adoption."

We need faith in our country's faith in its opposers, faith in its people, their traditions and aspirations for accomplishment. Of an economy there can be no doubt. It has been expressed in a thousand ways. "Courage", said Sir James Barrie, "is the beauty virtue". The way to over—let's hope it's not for a thousand years so that we may more strengthen the—a quality of tolerance, faith and courage and use them for the making of a better world, a greater Canada.

By-Law No. 88 of the Town of Fort Saskatchewan

BEING A BY-LAW OF THE TOWN OF FORT SASKATCHEWAN REQUIRING MILK SOLD, OFFERED FOR SALE OR DELIVERED WITHIN THE LIMITS OF SAID TOWN TO BE PASTEURIZED BEFORE BEING SOLD, OFFERED FOR SALE OR DELIVERED

WHEREAS under Section 7a of the Public Health Act, R.S.A 1942, Ch. 163, as amended to date, the council of any town of a population of three hundred or over may, subject to a plebiscite as provided for in the said Section of the said Act, require all milk sold, offered for sale or delivered within the limits of the said town to be pasteurized before being sold, offered for sale or delivered, and

WHEREAS the approximate population of the town of Fort Saskatchewan according to the last Dominion Census was 900, and

WHEREAS the following enactment of the Mayor and Councillors of the Town of Fort Saskatchewan in Council has been approved by the Provincial Board of Health, as evidenced by the signature of the Chairman thereof, and the affixing of the Seal of the said Board, and

WHEREAS the approval of more than seventy-five percent of the electors voting on the said By-Law has been received,

NOW THEREFORE, the council of the Town of Fort Saskatchewan, in council assembled ENACT AS FOLLOWS:

1. For the purpose of this By-Law "pasteurization" shall have the meaning defined in Section 7(a) (1) (b) of the Public Health Act.

2. No person shall sell, offer for sale or deliver within the limits of the Town of Fort Saskatchewan, milk which has not been pasteurized in a pasteurizing plant in possession of a Certificate of Registration from the Local Board of Health of the Town of Fort Saskatchewan as provided for in Regulation 466 (O.C. 536-34) of the Provincial Board of Health.

3. Section 2 of this By-Law shall not apply to milk brought into the town by a producer and sold by wholesale to a distributor, a milk manufacturing plant, a creamery or a cheese factory, nor to products of milk prepared in a plant and by methods approved by the Provincial Board of Health.

4. The voten of the electors duly qualified to vote on this By-Law shall be taken on the 21 day of April, 1947, in the Town Hall in Fort Saskatchewan, in the Province of Alberta, from the hour of ten o'clock in the forenoon until the hour of seven o'clock in the afternoon of the same day.

5. Lonard Browne, shall be the Returning Officer to enter and receive the said votes.

6. The Returning Officer shall at the Town Hall in the Town of Fort Saskatchewan on Monday, the 21 day of April 1947, at the hour of seven o'clock in the afternoon open up the votes for and against the By-law and declare the results thereof.

7. This By-Law shall take effect on the date of the final passing thereof.

8. Any person who contravenes any of the provisions of this By-Law shall be guilty of an offense and liable on summary conviction to a fine of not less than $10.00 nor more than $50.00 and costs, and in default of payment to imprisonment for a term of not more than three months with or without hard labor.

READ A FIRST TIME and passed provisionally in council this 26 day of March 1947.

- Meat and meat products, including bacon, ham, pork loin, cut lamb, and certain varieties of cooked and canned meats.
- Meat extract, canned and cooked poultry, canned fish, canned soups.

CLOTHING
- Men's, youths' and boys' coats, jackets and vests.

HOUSEHOLD FURNISHINGS
- Men's, youths' and boys' suits or parts made wholly or chiefly of cotton or rayon.
- Men's, youths' and boys' furnishings as follows: — blouses, collars, pyjamas, nightshirts, underwear, other than that made wholly of wool, dressing gowns, other than those made wholly of all wool fabric; shirts, bathing sport shirts other than those made wholly of all wool or all rayon fabric.
- Women's, misses', girls', children's and infants' garments of all kinds (but not including (a), garments made wholly of all wool fabric; (b) raincoats, or (c) jackets and windbreakers, other than those made wholly or chiefly of leather).
- Women's, misses', girls' and children's accessories as follows: gloves, mitts, belts, neckwear, collars, cuffs and aprons.
- Knitted wear for either sex as follows: undergarments other than those made wholly of wool, circular knit hosiery of cotton or rayon.
- Work clothing, including aprons for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial use.
- Brassware, foundation garments, but not including surgical corsets.
- Sewing and darning cotton.

PRODUCERS AND OTHER SELLERS
- Textile products as follows, when made wholly or chiefly of cotton or rayon: — sheets, bedspreads, blankets, comforters, eiderdowns, except horsehair; pillows, pillow cases, dish towels, dish cloths, diapers, face cloths, bath towels, bath mats, napkins, piano covers, table cloths, table runners, table cloth and napkin sets, throw-overs, toilet seat covers, bathroom mats, clothes wheels, wicks for oil lamps.
- Floor rugs and mats chiefly of cotton.

DRUGS AND TOILETRIES
- Cough, cold and bronchial relief tablets, except those specifically named.

PROFESSIONAL EQUIPMENT AND SUPPLIES
- Furniture, fire-place heaters and other furnishings specially designed for use in residential or farm buildings, but not including baby pre-fabricated houses.
- Upholstered bound and unbound quilts.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES
- Practically all items of farm machinery, including plowing, seeding and fertilizing equipment, plows, tillage implements and cultivators, haying machinery, harvesting machinery and threshing machinery, and repair parts and accessories for all such machinery.
- Animal wear for either sex as follows: undergarments other than those made wholly of wool, circular knit hosiery of cotton or rayon.
- Work clothing, including aprons for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial use.
- Brassware, foundation garments, but not including surgical corsets.
- Sewing and darning cotton.

CONSTRUCTION PRODUCTS
- Lumber of all kinds.
- Millwork such as doors, sashes, windows, frames and trim.
- Plywood and veneers.
- Pre-cut buildings and parts designed for use in residential or farm buildings, but not including baby pre-fabricated houses.
- Upholstered bound and unbound quilts.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

PULP AND PAPER
- Wastepaper.
- Wood pulp, except
  (a) dissolving grades,
  (b) "alpha" grades of bleached sulphate,
  (c) "Duracel".
- (d) groundwood and unbleached sulphite grades sold for the manufacture of newsprint or hanging paper.
- Newsprint paper except when sold by manufacturers thereof.
- Paper board used in the manufacture of solid fibre or corrugated shipping cases.
- Unbleached grades of paper-board, except for wrapping newsprint paper or making newsprint cores.

CONTAINERS AND PACKAGING MATERIALS
- Containers, packaging and wrapping materials of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and cartons.

SERVICES
- Transportation of goods and services associated therewith.
- Warehousing, (b) storage of general merchandise and household goods other than cleaning, repair, cold storage, including rental of facilities and ancillary services such as processing charges in cold storage plants.
- Supplying of outdoor refreshments for consumption on the seller's premises, but not supplying of beverages (including alcoholic beverages) by purveyors of meals or accommodation, or supplying of meals by restaurants, cafes or other establishments by an employer to his employees directly or through a servant or agent.
- The packing or packaging of any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

USED GOODS
- Used bags and used textiles and baling material.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices.

Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

DONALD GORDON, Chairman,
Wartime Prices and Trade Board.

THE WARTIME PRICES AND TRADE BOARD

The First Lap

By R. J. BEACHMAN

We have elected on a 1 cog year ago, I hope it will be a delightful trip. The world is tired of hate and strife and bitterness, of smoke here and peace and a touch of that freedom of speech which makes life worth living.

In Canada we have much to be thankful for. What country in all the world offers brighter prospect for the future? War scars her removed from those peaceful shores. We are blessed with good neighbors, and a great wealth of resources, what more do we need.

We have our differences of opinion, our political dogma. These things are the fruit of freedom, a proof of its existence. Who wants to live in a country where there is no longer freedom of opinion, no right to criticize? There is joy in feeling that the things we do not like can be changed, if only enough can be aroused—not compelled, to see the wisdom of our point of view. The reorganization of the rights of others is a guarantee of our own. The nation is in our hands. There is something magnificent in the idea that we, the more than, twelve million who speak English can run these it, in the end, what we think it ought to be.

What do we need for that task? Tolerance, faith, courage. These are the things which most abide. These are the staffs which will comfort us as we journey through life.

THE FORT RECORD

VOL. 39. No. 52. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, APRIL 9, 1947 Subscription $2.00 year, U.S. $3.00

Around the Town

Mr. A. B. King, Manager of the Royal Bank received $20.00 in cash in Tuesday's mail for the Red Cross without the name of the donor. If the party forwarding this donation will communicate with the bank they will receive an official receipt for this [illegible]

Mr. and Mrs. G. B. Hoodley and Miss Barbara were guests of Mr and Mrs. A Black over the Easter [illegible]

Mr. and Mrs. Frank Barfield of Edmonton were visitors at the home of Mr. and Mrs. A Black [illegible]

Mrs. Henry M. Reimer has returned to her home in Medicine Hat after visiting with her son and daughter-in-law, Mr. and Mrs. George Reimer.

The Easter Communion Service of the First United Church will be held Sunday morning, April 13th in the Community Hall. A number of new members will be received on profession of faith and by transfer from other congregations.

On Tuesday evening the Badminton Club will wind-up its activities for the season. All members are invited to turn out for the final games of the season.

Mrs. R. McNeil (nee Peggy McManus) and son Ernest were visitors at the home of her parents, Mr. and Mrs. A. McManus.

Mr. and Mrs. Josh Brown and son Grant of Waskatenau were week-end visitors at the home [illegible] parents, Mr. and Mrs. A. McManus. Mrs. Brown (nee Ellen McManus) and Grant are staying for a short visit.

Mr. and Mrs. W. Bracken of Calgary were week-end visitors at Mr. and Mrs. H. Butler's home.

Mrs. Rutledge and children of Edmonton are visiting her mother Mrs. Oxley for a few days.

Mr. and Mrs. W. Dixon, former residents of the Fort, have been visiting friends in the district.

Mrs. Lloyd Holden and two children of Camrose, Alberta are visiting her parent's Mr. and Mrs. Lamond [illegible]

We regret that in last week's issue in reporting recent infant baptisms at First United Church, we omitted one of the child and wrongly named another. The correct name of Mr. and Mrs. [illegible] baptisms were [illegible] for bank [illegible]

Milk Delivery to Commence Apr. 12

Negotiations were completed last Monday morning with the Dairy Pool at Edmonton to supply milk to residents of the Fort.

John Jenkins has undertaken this proposition, and will go in the city daily for the milk and then deliver it to household[illegible] in town

Prices for milk delivered here, 16c per quart, 8c per pint, 10c per quart of chocolate milk These are the same prices as paid by consumers in Edmonton.

Cream will also be available at city prices, but orders for cream will have to be given one day in [illegible]

Any further information as to prices, delivery, etc can be obtained [illegible]

Ball Club Officers Named for 1947

A meeting of the Fort Baseball Club was held in the Fort Hotel Tuesday evening and the following were elected to office for the coming season.

Hon. Pres., J. D. McLean; Pres W. W. Sutton; Vice. Pres., Gordon Parker; Sec.-Treas., John Jenkins; Manager, Art Simmons; Coach, Lacey Diamond

Discussion took place on entering a team in the Highway 16 League, and Art Simmons and John Lapsa[illegible] were appointed to attend a meeting in the city on Thursday evening in connection with this league

The club is hoping to have a first class ball team this year and will be inviting all those interested in playing to try out in the near future.

They also plan, if possible, to purchase new uniforms.

W.I. Members Hear Talk on History of Fort

The regular monthly meeting of the W.I. held Wednesday in the Union Hall was highlighted by the talk given by Mrs. R. B. Smith from an essay written by her on the early settling of Fort Saskatchewan.

The old-time members recalled many of the instances mentioned by Mrs. Smith, and the younger members enjoyed learning of the experiences and happenings around the Fort in the early days.

Lunch was served by the ladies' to bring an interesting afternoon to a close.

Robert Price's son is Wayne Cecil; and the child not previously mentioned is Mr. and Mrs. Arthur Stumm[illegible] son, Barry Douglas.

Miss Betty Hood of Chestehm, Alberta was an Easter visitor in Town.

Partridge Hill

Mr and Mrs. Lovell Scott of Kimberly, B.C. motored down to spend the Easter holiday with Mrs. Scott's parents, Mr. and Mrs. [illegible] Lawrence.

The school children of the district are enjoying Easter holidays after a week of exams

Mr. and Mrs. Rolan[illegible] Mohr of Edmonton spent Sunday at the home of Mr and Mrs. [illegible] Alton

Mr. and Mrs. Albert Rasli and children of Edmonton visited friends in the district over the week-end

Mrs. Hector Whatmo, nee Lily Kolish and Bogus of Manville have been visiting with relatives.

We regret to hear of the passing of a former old timer of the Partridge Hill district, Mr. W. G Alton of Lamont. Mr. Alton was the father of Wilmot and Dr. J. J. Alton, well known physician of Lamont.

Mr. and Mrs. Carl Alton and children of Edmonton spent the week-end with relatives in the district.

On Tuesday evening friends and neighbors gathered in the Community Hall in honor of Mr. and Mrs. Gerard Houston, who are moving to the Ypres Valley district. Cards and dancing were enjoyed during the evening after which Mr. and Mrs. Houston were presented with a bridge table and [illegible]

Best wishes of the community go with them to their new home.

Mr. and Mrs. W. Attewell and Mr. and Mrs. W. Alton motored to Vermilion on Wednesday morning to attend the graduation exercises at the Vermilion School of Agriculture. Misses Dorthy Attewell and Jessie Alton were among the graduates.

Jessie was among those who received recognition for her work at school. She placed first in Dressy Work and second in Dressmaking.

The Easter Communion Service of Partridge Hill United Church was very well attended in spite of bad roads. A small table to hold the offering plates was presented to the church by the Glee Club, through its leader Mrs. Harvey Lawrence, and dedicated by Rev. W. D. Rose, after being unveiled by Garth Osbaldeston and Mer. Grant Alton. Seven young people were received into Church membership upon profession of their faith. They were: Margaret Alton, Evelyn Attewell, Shirley Gordon, Eunice and Aletha Houston, Harold and Stanley Kulak.

Heart power may prove a more effective answer than man power.

12 Year Old Actress

Alice Kan[illegible], 12-year-old radio actress who began her dramatic career at the age of seven and has since [illegible] in more than [illegible] She can remember [illegible] when she ran remember [illegible] apparently heard as Penny Chalmers in the [illegible] serial "Alan and Me", broadcast weekly over the CBC Trans-Canada network.

Ardrossan

There was a good turnout at the pot-luck held by the CGIT on Thursday evening. The [illegible] were auctioned and $28.00 was cleared. A good time was reported by all.

Miss A. Ashcroft has gone home to Royal Park for the Easter holidays.

Mrs. M. Mathewson left last week-end and will spend in the Queen Elizabeth for a six month's visit to Scotland.

R. McLean has acquired a porker and we use it "tethered" in [illegible] quarters on the outskirts

Signs of spring are everywhere aroundm the and there are several specimens of our feathered friends [illegible] from the south. A certain retired gentleman has been seen young west to visit in the Bremner district. Could that be a sign of spring, too?

Dana Marier of Bremner received recognition for his work last year at the Vermilion School of Agriculture. She received a first, a second and third, congratulations.

Plans Laid at Regular Service Club Meeting for 24th of May Sports

The regular meeting of the Service Club was held Wednesday evening in the Legion Clubroom and despite the fact that the usual [illegible] were [illegible] plans were made for the big day on the 24th of May.

As the secretary was unable to be present the minutes of the last meeting were not available, but the financial statement was read and adopted

Members of the Baseball Club were present and asked for a donation of $100 towards buying uniforms. A motion was made whereby the baseball club was to bill the Service Club for $100, but this was defeated. Considerable discussion ensued, and it was suggested that the club submit the business men of the town for donations to buy the uniforms, and if financial assistance was needed later the Service Club would in all probability assist them.

A tentative program for May 24th, which was drafted by the executive Tuesday evening, was then read to the meeting, and it was decided that the program for that day be as follows:

That the club put on airforce band, if possible, and also that a parade be held.

Mr. Dancosiers who operates, midway attractions was present, and after he explained the [illegible]

West Elk Island

The meeting of the West Elk Island Community Centre, held last Wednesday was one of lively discussions. Due to rural conditions the attendance was smaller than usual. The treasurers report showed the organization in good financial standing. A vote was taken on the location of a permanent site for the Centre, and a committee appointed to look into the matter of obtaining it. It was also decided to have a Women's Auxiliary to look after the sports and interests of the ladies.

The district has been visited by a very severe attack of Red Measles. The epidemic thoroughly made its rounds, and is now on the wane

Josephburg

The Young People met on the evening of April 4. The theme for the devotional period was taken from St. Mark 15, 4d to 20, which was very appropriate on Good Friday For this occasion better words could hardly be found than those of the verse which follows:

Upon the cross of Jesus
Mine eyes at times can see
The very dying form of one
Who suffered there for me:
And from my smitten heart
with tears
Two wonders I confess:
The wonders of his glorious love
And my own worthlessness.

Heart power may prove a more effective answer than man power.

The Pathway of Progress

By R. J. DEACHMAN

One back home I stood with an old friend of mine on a farm to which his father came almost a hundred years ago. My friend pointed to a combine working in a field 40 rods away from where we stood. "Look", he said, " the first year my father came to this farm he cleared a little corner and sowed wheat among the stumps. It was cut with a sickle, threshed over split logs, grouned in an old fashioned, hand turned coffee mill over on the combine, it cuts and threshes the grain. In that period, almost the span as one human life we have moved from the sickle to the cradle, from the cradle to the reaper, from the reaper to the binder, and now the combine. There is the picture of agriculture in Canada, a century of magnificent progress—where next, where do we go from here?"

In the first census of industry in Canada in 1870 the average factory worker received $300 per year. By 1944 the scene had changed, the Canadian worker was now receiving $1,650 a year. How was the change brought about? The fingers of our forefathers were as deft as ours. Within the limitions of their time their minds were as keen, they worked much longer hours.

What brought about this increased capacity for production, the shorter hours of toil? The answer is that today man's effort to produce is increased by the power of the mighty machines he has commenced to his aid. For every factory worker in Canada, in 1870, there was a capital investment of $400. In 1942 the capital investment per worker was $8,000, more than 12 times as much. In the old days, hand power was a factor in production. How man has called to his aid those great machines driven mainly by electric power and used, to lighten the burden of toil to increase his capacity to produce.

Now all this would be quite impossible of accomplishment by any other means. Progress, in the future, will come from the use of still more invented capital. The higher the investment, the greater will be the volume of production, the higher will be the earnings of labor. But much capital has been destroyed by war. The world is hungry for more capital. An increase in invented capital will raise the standard of living throughout the world, make this and every other country happier, richer, more prosperous.

ed by contacting John Jenkins.

PUBLIC MEETING.

A public meeting will be held on Tuesday evening at 8 p.m. in the Community Hall on the milk situation

Plans are being made to have representatives of the Health Unit at the meeting who will answer all questions regarding the purification of milk

Considerable misinformation has developed over the Bylaw regarding pasteurization of milk and citizens are urged to attend this meeting, at which all aspects of the milk question and pasteurization [illegible] will be dealt with

Good Crowd on Hand For P.T. Demonstration

The Health and Recreation demonstration presented by the P. T. class Wednesday evening in the Community Hall, was well worth viewing.

A great deal of time and hard work was put in by these young people to make this show a success and they are to be congratulated on the smooth and efficient manner in which the exercises were executed.

The evening program was as follows:

"O Canada", Keep Fit Exercises, Boys' Tumbling, Girls' Vaulting, Boys' Tumbling, Girls' Spring Board, Boys' Spring Board,Girls' Vaulting, Boys' Vaulting, Pyramids, Three Burning Matches, Minuet Canens, Sing-Song, God Save The King.

Those taking part in the boxing were: Godfrey Weber and Jimmy Richardson; Margaret Webb and Denise Abrahms; Bessie Bagshaw and Harold Whitford.

The classes and their instructor, Betty Lawrence wish to thank all those who attended the demonstration, thus helping to make it a success.

Thanks is also extended to Mrs. Brabbins who has assisted them as pianist throughout the season.

Lunch was served to all taking part after the demonstration.

BOYS WARNED OF PENALTY FOR GAME LAW VIOLATIONS

The shooting season on all game birds and animals are closed. Some people, especially boys, are warned not to shoot pheasants, prairie chicken, ruffed grouse and hungarian partridge. There are heavy penalties attached to the breaking of the game laws and these will be enforced.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITABLEND which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the excellence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, red liver oil, Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

NORTH WEST MILL & FEED CO. LIMITED

EDMONTON

Radiograms

ROUND-THE-CLOCK

With CFCA's joint celebrations (25th anniversary and increased power) scheduled for April 27, and with Daylight Saving Time adjustments probably destined for that same day, the month of April is offering round-the-clock activities for several departments at the station.

Plans for celebrating the 25th anniversary (a date common in the radio industry anywhere) are gradually reaching the climactic stage, with preparation of publicity material, special programming, and numerous other activities intensifying from day to day.

The same is true in connection with plans for upping the power from 1000 to 5000 watts. The technical staff is bearing the brunt of this load, working feverishly to have everything set for the 27th. The change of location, from Bellmont to Ellerslie, has necessitated new construction and installation from the bottom up.

The uncertainty as to whether or not Edmonton will adopt Daylight Saving Time at the month-end stymies the inner workings of radio operation no end. At the moment no one can really wait with our fingers crossed, hoping that Edmonton will do as all major cities in Canada have done, and adopt Daylight Saving Time for the summer months.

If Edmonton remains on Standard Time while other cities adopt Daylight Saving, the result will be most chaotic from a standpoint of program adjustments, and there is certainly personality Confusion will reign supreme in Edmonton radio circles, which will continue until summer time calls everyone, plus an added hour of daylight for outdoor activities.

EARLY INSTINCTS

A Scotsman who wanted to learn what profession he would have to be an owner put him into a room with a theological work, an appl- and a sixpenny piece. If he found him when he returned reading the book, he intended to make a clergyman of him, if any the apple, a farmer, and if interested in the money, a banker. When he did return he found the boy sitting on the book, with the sixpence in his pocket, eating the apple. "That settles it," said the keen Scotsman, " the lad's a born lawyer."

In the north central states of the U.S.A., where 80 per cent of the nation's flax is produced, farmers intend to plant 15 per cent greater acreage to flax this year than last year.

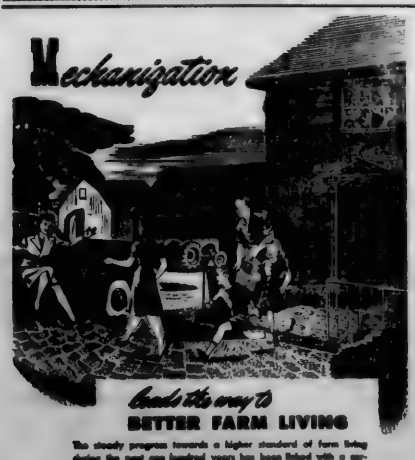
REVELS — BULK ICE CREAM — BRICKS



The steady progress towards a higher standard of farm living during the past one hundred years has been linked with a corresponding progress in the development of mechanized farm equipment. The widespread adoption of the modern tractor and other labor-saving machinery has helped farmers throughout the world in their realization of increased farm income — better homes — better living.

MASSEY-HARRIS

« Recipes for Milady »

In every walk of life, time changes are taking place. New and better methods are being developed to save time and energy and to give more satisfactory results. In the culinary field, these changes are no less outstanding. Probably the most outstanding development has been the freezing of fruit and vegetables for winter use.

The freezing of fruit and vegetables is gaining much favor and popularity, as evidenced by the large number of locker plants which have recently been established across Canada. The homemaker who avails herself of these freezing facilities has the advantage of being able to serve highly palatable foods out of season.

Variety, as well as nutrients, affects the quality of the frozen food. This is particularly true with vegetables. Thus, if you plan to freeze some of the vegetables which you grow in your garden next summer, it is a good idea to check with your Provincial Department of Agriculture for the best varieties to plant. If you are already using a locker, now is a good time to check over its contents. It is wise to use up all of last year's pack starting a new crop. If frozen foods are held for more than a year, they may develop off-flavors which are anything but pleasing to the taste.

The home economists of the Consumer Section, Dominion Department of Agriculture, point out that the cooking of frozen vegetables is something to watch, since they require a very much shorter time than fresh vegetables, and may soon quite overcooked if allowed an extra minute or two.

ASPARAGUS WITH SCRAMBLED EGGS

1 pint package frozen asparagus cuttings
2 tablespoons fat
6 eggs
½ teaspoon salt
⅛ teaspoon pepper
6 slices of toast

Cook asparagus and cook until tender about 4 to 5 minutes. Drain well. Melt fat in top of double boiler and add well-beaten eggs. Set over boiling water and stir gently until eggs begin to thicken. Add asparagus, salt and pepper. Continue stirring gently until eggs begin to thicken. Add asparagus, salt and pepper. Continue gently until eggs are cooked, but not dry. Serve on hot, buttered toast. Six servings.

FRUIT TURNOVERS

1 cup and 2 tbs. pastry flour OR 1 cup all-purpose flour
2 teaspoons baking powder
½ teaspoon salt
2 teaspoons sugar
2 tablespoons fat
1 egg
½ cup milk

Mix and sift dry ingredients. Cut in fat. Reserve half of egg white for brushing tops. Beat the remainder of the egg and add to milk. Add to dry ingredients. Turn out on a floured board and knead for 30 seconds. Roll out ¼ inch thick and cut with a 4½ inch cookie cutter.

FILLING

2 tablespoons sugar
1 tablespoon flour
½ teaspoon cinnamon
1 pint package frozen cherries, blueberries or plums

Mix sugar, flour and cinnamon and add to fruit. Place some of the fruit filling in centre of each round. Moisten edges, fold dough over and seal. Brush with reserved egg white. Place on greased baking sheet and bake in hot oven, 425 degrees F for 25 minutes. Serve plain or with pudding sauce. If fresh or canned peaches are used in this recipe reduce baking time to 15 minutes. Six servings.

FRUIT BLANC MANGE

4 tablespoons cornstarch
¼ cup sugar
¼ teaspoon salt
2 cups hot milk
½ teaspoon almond extract
Few drops green food coloring
1 pint package frozen peaches

Combine cornstarch, sugar and salt and blend with cold milk. Add slowly to hot milk in top of double boiler and stir constantly until mixture thickens. Cook for 2 minutes. Remove from heat and flavoring and food coloring. Chill well. Beat with rotary beater until smooth in the bottom of each serving dish arrange partially thawed peaches and top with blanc mange. Sprinkle with chopped nuts and serve with top milk or cream. Six servings.

Food in the War of Ideas

During the last year the world has been short some millions of tons of food. The famine areas were mostly in Western Europe and Eastern Asia. In this year ahead it looks as if there will still be a drastic shortage in these areas without a great enough surplus in the Americas to overcome it unless we here on this continent begin to face the problem with a new attitude. There is little time for us to change and to plant a larger food crop than we have so far planned.

We need to see how food shortages disrupt our world and prevent the building of a permanent peace. People who are ill-fed are unable to produce the goods needed to rebuild a shattered world. They are a prey to feelings of bitterness and resentment and unreasonably become instruments in the hands of those who control war.

What food they do get. This means that they, the hungry, can be used as pawns in the game of men intent on gaining power for themselves or for their ideology.

Equally it is true that if we who have the surplus control its use and see that fair play and justice are part of its distribution we can build into the hungry a respect for our principles and a desire to make them enduring as their society. That should be our objective as democratic people. It may mean, of course, that we have to accept lower returns in dollars but what is that if we get lasting returns in peace? The choice is clearly ours in the next year. We can work and plan to use our resources to re-area our world morally and spiritually or we may have to accept the burdens of physical and military re-armament for a new war.

CANADA'S health

KEEPING WELL

To keep in good condition, the human "machine" requires adequate food, rest and recreation, as well as fresh air and exercise. Compare the body with other functioning mechanisms. Health authorities point out how much superior it can be made, and maintained, to any contraption of human devising. "Your body has no trade-in value," they say, "but it has many advantages over many machines, and, with care, will last longer, be more flexible and more responsive."

Concerning the "tuning" of the body, the nutritionists suggest a study of Canada's Food Rules, which advise Canadians on the proper "mixture" of the 5 major food groups, (milk, fruit, vegetables, cereals and fish or meat) to keep the system in top running condition.

RESERVE STRENGTH

Need of a reserve of strength and vitality of fight off a real illness is the subject of comment from Ottawa, where health authorities think little of that "dragged out" who never admits he is ill.

"The tougher they are, the harder they fall" applies in the matter of health as in everything else, say the doctors. They frown on the practice of men who scoff at minor infections and who boast of never taking a day off to rid their systems of such trifles as colds. Fighting off the little things may be a sign of virility, at the time, but, it is pointed out, repeated disregard of even small ills drain the natural reserves of strength and renders the "lengths" more susceptible to serious infection.

Doctors agree that it is wise to seek prompt and expert advice on all ailments, particularly since many diseases start in a small way, and the laymen cannot judge when a seemingly-trifling trouble is, in fact, a portent of something more serious.

ILLNESS NO DISGRACE

Although Illness is nothing to

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"
RATES OF SEEDING

The Dominion Experimental Farms, particularly the Ekpert mental Station at Scott, Saskatchewan, has for 16 years conducted a most important series of tests on the rates of seeding of wheat, oats and barley on both summer-fallow and stubble.

Rates recommended sowing for [illegible] commercial fertilizer [illegible] on per acre if fertilizer is used, and 1½ if no fertilizer is used. On stubble not more than one bushel per acre for oats, on summer-fallow, 1½ to 2 bushels on land sown with fertilizer, and 2½ bushels if no fertilizer is used. On stubble more than 2 bushels on the same per barley on summer-fallow 1 to 1½ bushels to the acre with fertilizer, or 2 to 2½ bushels to the acre if no fertilizer is used. On stubble not more than 1½ bushels to the acre.

The lower rates of seeding recommended should be used where the moisture supply is low and on light land, heavier rates when moisture resources are abundant or heavier type soils, or when wireworms are present or where there is a heavy load of cutworms.

Heavier seeding rates of these grains tend somewhat to shorten maturity, particularly when used with commercial fertilizer, and so help the crops to escape the early frosts.

These statements are another instance of the valuable work being done for farmers by our Dominion Experimental Farms.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Switzerland has sent officials to Washington and Ottawa to discuss the possibility of obtaining grain imports sufficient to maintain bread rations until November, when the new crop will be available. India's flaxseed acreage for harvest in 1947 is 2,161,000 acres, according to the first official estimate, a decrease of some 7 per cent below the average for the last 5 years.

World barley production in 1946 was 2,110 million bushels, some 7 per cent above the 1945 production, but still approximately 18 per cent below the 1938-39 average—The Argentine government is asking foreign millers to submit bids for the new corn crop; the price is indicated at $2.04 per bushel F.O.B. for June shipment.

Let's Have Your Opinion

Q. Can drinking water help in the treatment of pulmonary tuberculosis?

A. By helping to keep the system flushed and to rid it of poisons from the diseased area, water would be of benefit.

Q. Is goat's milk beneficial in the treatment of pulmonary tuberculosis?

A. Not as a cure. It may be of some benefit as an adjunct to the cure.

Q. Would you please explain why it is considered best for the stomach to eat raw eggs?

A. Raw eggs are not considered best for the stomach.

The Agricultural Department of Agricultural Extension conducted a number contests of grain-judging competitions this year than has been experienced for several years. The non-stripped keeper is expected to renew the most damage. This question has been interesting to students since 1940.

Ice Cycles of 1947 To Play in Edmonton

World-famous ice thrillers once again will display their talents on dazzling silver blades and to lavish Hollywood-created settings when "Ice Cycles of 1947" opens a limited engagement of four nights and one Saturday matinee at the Edmonton Arena starting Wednesday, April 30th.

Produced by the creators of "Ice Capades" and "Ice Follies", the new musical revue is the first major ice entertainment ever to play in Edmonton. Sparkling with gigantic production numbers, talented dancing stars, gorgeous costumes, exciting music, exquisite scenic effects and "the most beautiful girls on ice", John H. Harris of Ice Capades" and the Shipstads and Johnson of "Ice Follies" have created their first-hand knowledge in the production of "Ice Cycles" to make it one of the most beautiful of all ice musical revues.

Top names in skating featured in "Ice Cycles" include Robin Lee, Eleanor Holston, Henry Lie, Lee Lash, Howard Sullivan, Jane Harvey, Red Mallehy, Alan Lowell and Dick Moreber. The internationally famous Ice Cyclettes, a chorus of 30 ballet beauties, add glamour and charm to the two and one half hour entertainment that features seven gigantic production numbers.

"Ice Cycles of 1947" will play four nights at 8.30 at the Edmonton Arena starting Wednesday, April 30th with a matinee scheduled for Saturday, May 3rd at 2.30 p.m. Mail orders for tickets can be sent direct to the Arena, Edmonton Exhibition Ground, Edmonton.

Poultrymen Warned Of Coccidiosis Danger

General Coccidiosis. This ravages of our growing birds, chickens and turkeys, has become so widespread and destructive that we can safely say that it is the great est single cause of mortality in our young birds, and that it is the greatest single cause of economic loss to our poultrymen. This disease may strike and develop swiftly or it may strike suddenly with accompanying heavy mortality it usually strikes between the third and twelfth week of age but may cause heavy adult mortality as well.

C. W. Trevor, Poultry Commissioner, writes that coccidiosis is caused by a small one-celled animal which must spend part of its life cycle in the intestines and cecs of the bird. There it multiplies with great rapidity and causes intense irritation in the walls of the intestines and cecs. This irritation causes hemorrhages which result in blood in the droppings. Usually there is a great deal of blood in the droppings a day or two after the first signs.

This year Alberta farmers and poultrymen have purchased large numbers of early chicks. With the increased and moisture of the last two weeks conditions are ideal for the spread of coccidiosis—we have had brought to our attention quite a number of cases of coccidiosis of this disease. There are dozens of cases for every one we hear about.

Strict sanitation must be practised at all times, Mr. Trevor. Brooder houses and litter should be kept dry; feed hoppers and water fountains should be cleaned regularly as soon as the chicks are allowed out, the feed hoppers and fountains should be moved to clean ground daily and the brooder house moved at least weekly. Old birds and young birds must be raised separately.

Droppings should be observed closely twice daily. All sick or drowsy birds should be killed and the remainder and corn opened their entire length. On the first signs of blood in the birds must be kept confined and the feeding of medicated mash commenced immediately. Feed according to instructions.

Alberta has prepared for fall and winter egg production on a large scale by heavy purchases of early chicks. Do not jeopardize this production through avoidable mortality. Order booklet No. 31 from your District Agriculturist, hatcheryman, or feed dealer immediate action is essential if this disease appears. Know where to contact your nearest veterinarian.

Poultry Notes

BRODERS SMOKED IN

Keeping in war and accident, death rarely comes suddenly, the doctors remind us. National Health authorities point out that illness, lameness or death most often creeps up on humanity, and that the surest defense against it is eternal vigilance and speedy action to rout it.

When physical resistance and stamina are low, when people are careless, neglectful and apathetic, germs can enter and take hold of them, and if allowed to gain a solid foothold, can menace life itself.

Maintenance of a high standard of fitness and prompt reporting of the slightest signs of an attack by disease, are urged as the only real barriers against humidity and sickness which creeps up on man.

VOL. 20. No. 1. FORT SASKATCHEWAN, ALBERTA CANADA WEDNESDAY, APRIL 16, 1947 Subscription $2.00 per year in Canada

Health Authorities Explain Value of Pasteurized Milk to Large Gathering

A goodly representation of towns people attended the meeting held in the Community Hall Tuesday evening to hear Dr. H. Bowness, Health Officer and Mr. C. Mallett, Health Inspector of the Edmonton Rural Health Unit speak on the advantages of pasteurization of milk, and the laws governing the handling of same.

Mayor Magor called the meeting to order and explained the present milk situation. He stated that the town had to obtain an inferior milk supply, and each being the case, the council were of the opinion that pasteurized milk should be provided in order to protect the health of the community.

Mayor Magor then called upon Dr. T. W. E. Henry to say a few words. Dr. Henry stated that pasteurization of milk is compulsory in most towns and cities and is a means of eliminating the harmful bacteria that is the cause of many diseases.

Scientific tests have proven that milk when pasteurized loses none of its food qualities in any way.

Dr. Henry pointed out that in two different communities in Canada many people had been stricken with Bovine T.B from drinking unpasteurized milk, but when the milk suppliers had been forced to pasteurize their milk no more cases of this disease were found.

Mayor Magor then called upon Dr. Bowness and said that the bacteria in milk contained in the thousands when freshly taken from cows and therefore it is necessary that the milk be cooled 50 degrees in one-half hour.

Dr. Bowness pointed out very strongly that owners of the disease such as Scarlet Fever, Undulent Fever, Bovine T.B., Septic Sore Throat, etc. contained from drinking unpasteurized milk was in many cases caused by those handling the milk, because they did not wash properly their hands and often would milk cows when they had cuts or boils on their hands or sore throats, etc. which would infect the milk.

He said that 10 per cent of all T.B. cases found in young children were caused by impure milk.

Being and varied were the questions fired at Mr. Mallett who was next to take the floor. He explained to the entire satisfaction of most of those present.

Mr. Mallett also made it perfectly clear to all present that he and Dr. Bowness were not at the meeting to try and push anything over on the people regarding the pasteurization by-law. Regardless of whether the by-law is passed or not, people keeping cows would have to conform to regulations regarding the handling of milk.

Mr. Mallett read Section 688 of the Public Health Act which reads as follows:

No producer of milk, and no person owning or operating a dairy farm or owning or possessing one or more milk cows shall sell, or offer for sale, or supply any milk to retail trade without first obtaining a certificate of registration from a Local Board of Health of the Health District in which the said milk is to be sold, offered for sale or supplied. Said certificate shall define the premises with respect to which it is issued and be limited to such premises.

This simply means that one cannot sell, offer for sale, or give milk away unless they comply with the regulations.

Some members of the council also spoke briefly and explained to those present why some definite action must be taken in order that an adequate milk supply could be obtained.

Mr C. D. Jacox said that he had been approached and asked if he would undertake to supply milk. He stated that it would cost $25,000 to put in a proper plant and in order to get any reasonable return milk would have to be sold at 20c a quart.

The people are very fortunate when they can buy milk in the Fort at city prices. In most towns they pay 17c and 18c per quart.

Mr. Lane also spoke and urged the people to vote on Monday, April 21st, for pasteurization of milk. It is an added insurance for the health of all concerned.

Seven Ball Teams Enter Local Loop

A meeting was held Thursday, April 10th in the club room of the Queen's Hotel in Edmonton for the purpose of organizing the Highway 16 Baseball League. The various towns represented were Horse Hills, Namao, Stony Plain, Sun Ascend, Fort Saskatchewan, Josephburg, North Edmonton and Beverly. After much discussion it was resolved that a seven team league be organized excluding Stony Plain on their location north transportation problems difficult. A twelve game schedule is to be drawn up and rules of the league and schedule with be printed in the paper shortly. Officers of the league are as follows: President, A. B. King, Fort Saskatchewan; Vice President, Herb Reavell, North Edmonton; Secretary-Treasurer, R. R. Rippel, Josephburg; Board of Directors consists of managers from each town in the league.

Edmonton is out by self-sufficiency.

National Barley Contest Winners

Two Manitoba farmers, one from Alberta and one from Saskatchewan were the four finalists in the Edmonton National Barley Contest announced by the brewing and malting industries of Canada. At the March 26th Winter Fair in Brandon, Manitoba, Minister of Agriculture, James G. Gardiner presented the four winning farmers with their prizes. National malting barley champion of Canada was Lorne G. Bell of outstanding eight) of Haskell, Manitoba, whose pictured entry was picked as the best sample of malting barley grown in 1946. Mr. Bell was presented with a cheque for $1,000 His barley was sold to UNNRA and shipped to Albania from Winkler, Manitoba, on Feb. 1947. The other three winners, most left to right at bottom, were: Harold W. Johnson, Sylvan Lake, Alberta, runner up to Mr. Bell, awarded $500; Donald Barley, Portage la Prairie, $300, and John A. Wylie, Neepawa, Manitoba, $200.

Following the play the cast was invited to the home of Mrs. J. D. McLean and were served a delicious lunch by the W.I. ladies.

Gas Problem Reviewed Thoroughly At Public Meeting Held Monday

More than eighty ratepayers and prospective consumers of natural gas met on Monday evening in the Community Hall to hear Mr. Fulton Garrett and Mr. J. C. Dale, Chief Salesman and Utilization Engineer of Northwestern Utilities Ltd. explain the Gas Franchise that is to be voted on next Monday April 21

Mr H Walton, deputy Mayor was chairman of the meeting. He explained the purposes of the meeting and then introduced Mr. Garrett.

Mr Garrett outlined to the gathering the progress made by the company since it was formed in 1929.

It then had 10 wells which produced 54,320,320 cubic feet of gas and only one transmission line. Today they have 28 wells which produce 200,000,000 cubic feet of gas per year, and 10 transmission lines, with 12 miles of pipeline for a third transmission line. The cost of one mile of transmission line is $20,000 Mr Garrett stated.

When the company was first formed it was capitalized at $1,000,000, he said. At the present time it is $11,250,000.

The Franchise that was published in the Record is exactly the same as those which other towns in Alberta have signed.

Out of a total vote of 200 in Red Deer, Ponoka and Lacombe only 3 ballots were cast against the installation of gas in those three towns. This represents over 99 per cent in favor of natural gas.

Mr. Garrett then read and explained the clauses in the Franchise and invited all present to ask any questions they wished, which he and Mr. Dale would answer.

Mr. Garrett definitely stated that no one has to have gas installed unless they think it worth while.

Mr. Dale and Mr. Garrett were asked many questions, such as: rates, comparison of cost between coal and gas, chimney sanitation, cost of pipe installation in building, etc.

The rate which will apply to most places is $2.50 for the first 4000 M.C.F. and 50c per each additional 1000 cubic feet.

What would be the approximate cost of heating a house or building with gas as compared to coal?

This, said Mr. Dale, would naturally depend on how well the building was constructed. But to arrive at cost of heating their present premises one can do so by using the following method:

16.4 MCF (thousand cubic feet) of gas equals one ton of coal. The first 4 MCF of each month costs $2.50, each additional 1 MCF costs 50c per thousand. Therefore if one burnt 10 tons of coal, costing $40 x 10 = 400 plus $80.00 which is 16.4 MCF which is 164 MCF. The first 4 MCF of each month costs $2.00, for twelve months it would be $2.50 x 12 which is $30.00. Multiply 156.7 x 12 which is 40 MCF, subtract 48 MCF from 164 MCF which is 116 MCF, multiply 116 MCF x 50c which is $58.00 plus $30.00 which is $76.00 for a 12 month period

Many people will no doubt figure the cost of heating their premises by gas and some will come to the conclusion that it will be more expensive however, the above figures were only based on the amount of coal burned and do not include the extra cost of wood or labor involved.

Those using stokers buy a cheaper grade of coal, and to arrive at a fair figure must include the cost of electricity in running the stoker motor, plus the up-keep of

Rev. Barfoot Present For Confirmation Here

Rt. Rev. W. F. Barfoot, Bishop of the Diocese of Edmonton was a visitor at St. George's parish for a special service on Thursday, April 10th where he confirmed the following candidates. Information upon thirty confirmation candidates.

After the service a reception was held in the Union Hall when the congregation welcomed the Bishop to the parish and the new members into their midst.

The evening was also made the occasion of saying farewell to the Hall family and the Neale family, who have left the community to make their homes elsewhere.

Presentations were made to both of these families who thanked those present for their kindness.

Church Choir Honor Miss. Ruth Grondahl

The United Church Senior Choir members gathered at the home of Mrs. R. M. Bacon on Saturday evening, March 15th to honor one of their members, Miss Ruth Grondahl, who is to be married shortly. A delightful evening of games and contests was conducted by Miss Ada Wilkinson, prizes being won by Miss Ray McLellan, Miss Ruth Grondahl and Mrs. J. Jenkins.

On behalf of the choir Mrs. R. Thorne presented a beautiful picture to the guest of honor. The [illegible] was addressed by the honoree, assisted by Mrs. McLellan and Mrs. Bacon.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITABLEND which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 3000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the maximum of health and growth that every poultryman desires to see in his flock. The amount of starter required for each chick in so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil. Riboflavin, milk powder, selected cereals and minerals. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

Teen-Agers Star in "Ice Cycles"

Glamour and teen-age sparkle are the components of the charm in "Ice Cyclone," beautiful ice sport choiera in "Ice Cycles of 1947," the all-new edition of the musical ice extravaganza presented by "Ice Follies" and "Ice Capades." This glittering production, consist of major musical revues on ice, will open a limited engagement at the Edmonton Arena starting Wednesday, Apr 30

The bools of all elaborate ensemble numbers in "Ice Cycles" of 1947" is the skillful figure skating of the 50 "Ice Cyclettes."

It is on the slender blade's of these attractive young girls that the excellence of the production's main hero depent!

The entire group of "Ice Cycle tion" the hand-picked after an nation in a line of try-outs held virtually from coast to coast in a result, the bevy chips of these young ladies reimpose in contrast from coast to coast does have more from as far as Schenectady, Ont. 300 miles north of Toronto—and Saskatoon in Western Canada. Others come from San Francisco and Los Angeles on the West Coast. Large cities like New York and Chicago are represented among them, some smaller communities such as Lakeview, Minn., have sent skaters to "Ice Cycles." All of which proves that skillful figure-skating has spread through all North America.

The fifty beautiful Ice Cyclettes will be seen in seven lavish production numbers which help make up the two-shilling and one-half hour entertainment of "Ice Cycles of 1947."

Mail order for tickets for "Ice Cycles" may be sent to the Arena, Edmonton, Alberta.

Some day the desire to make living better will be stronger than the wish to make a better living and that "some day" must come soon.

FULLER BRUSHES will lighten your household tasks—There is one for every purpose—Try them.

Ex-District Man Dies In Berwyn Hospital

A resident of the Peace River country since 1914, Fred Hack of Berwyn, passed away in Berwyn Municipal hospital, Thursday, March 20, at the age of 70 years.

Born at Perry Sound, Ontario July 28, 1876, Mr Black was employed in lumber camps in that area until 1914, then he moved to the Peace River country filing on a homestead in what is now the Blueky district. In 1921 he disposed of this property and purchased the former Lathrop Farm, but resting this he joined a survey party in the Mackenzie river area in 1926 he was married and settled on a farm near Fort Saskatchewan where he remained until 1940 He then returned and operated his farm in the Blueky district until last spring, when he sold out and moved to Brownvs's to live at the home of his niece, Mrs. Stanley Thompson

The funeral was held from the Berwynne Presbyterian Church, March 25, with Rev. N. Holland officiating Interment was made in the Brownvine Cemetery with Gray and Humphries in charge of funeral arrangements.

Mr Black is survived by two stepdaughters: Mrs. Gertie Black and Mrs. Bert McEachern of Fort Saskatchewan three stepsons, Wm and Lloyd Black of Fort Saskatchewan and Vern Black of Edmonton and one brother, Tom in Manitoba His wife predeceased him in 1939

Progress or Stagnation?

On Monday, April 21st the ratepayers of Fort Saskatchewan will be called upon to cast their ballots in a town plebiscite to decide finally whether or not the town is to have natural gas facilities. This matter should be of vital importance to every resident, and with approximately 200 ratepayers, it is hoped and expected that a the number will exercise their franchise.

If this motion is defeated at the polls we of Fort Saskatchewan may well look forward to another period of decay, if it is carried the future appears considerably brighter. With natural gas and sewer and water which is also a possibility in the near future, it can be reasonably expected that the town will grow and prosper to the benefit of all citizens.

It is your duty as a ratepayer to see that Fort Saskatchewan has every opportunity to advance as are other towns in Alberta.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

I venture to forecast that Bill No. 23 will be passed not by the historian of the future as the first definite step of the mental [illegible] of Nothing like the has ever been seen before in the history of Canada The Bill controls the production, usage, transportation and marketing, and the setting of prices of wheat, by the government [illegible]

A price of $1.50 is reasonably set until 1950. Not a single step in the production or marketing of wheat can be taken without authorities of the Government Wheat Board. Wheat Board is no longer, as it has been in the past, the Agent of our farmers, but is now responsible only to the Government.

The Act provides severe penalties for farmers and others for any infraction of the many rules and regulations that may be set out by the Board Any Peter Out there has the right to lift a farmer's permit book and hold it for fifteen days, and if the farmer should be convicted of an offence he may be fined not less than $300 with imprisonment for three months, or he may be deprived of the right to deliver any wheat at all.

Ardrossan

The last meeting of the Ardrossan Community League was held on April 3 Reports were given by all committees and the treasurer's minutes showed the league to be in good financial standing.

Plans for the building of the hall have been obtained temporarily due to shortage and high prices of cement It was decided by vote that the league cannot borrow money under any circumstances This was felt necessary to prevent debts of any kind being made over the community [illegible] hall.

Arrangements were made to work on the grounds on Saturday, so that both ball baks do not freeze A machine outfit is coming to level the tall diamond and recreation ground.Also several members of the Ardrossan Athletic Club were present at the meeting and they were invited to re-enter the league in the sports field They will hold a meeting with the Sports committee to complete de tails

The meeting closed with the usual committee serving coffee and sandwiches. The next meeting will be held on Wednesday evening April 23rd

ARDROSSAN defeated the community league worked on the recreation ground on Saturday and Mr J Hall and Mr Gordon Tross were picked and broke out and the fences removed ready for the "dozer" to do its job of smoothing Another "bee" is planned for next saturday—so come out anyone who is able We hope to see our boys practising on the new grounds soon.

Yorkville

Mrs G M. Gelette and young son Ricky of Vancouver are visiting at the home of her sister and brother-in-law, Mr and Mrs. H. [illegible]

n n n

We are pleased to welcome home Ronald Galloway from the Army. Ronald is still single! Also to congratulate him on having won first prize in the first year for [illegible]

n n n

Congratulations are extended to Mr. and Mrs. Tom Priest of Edmonton on the birth of a daughter born Sunday, April 13.

MANY PRIZES FOR MUSIC FESTIVITIES IN ALBERTA

Good news for music students throughout Alberta is contained in details just made public by the Western Board of Music Somerville, supports by scores as shown in 23 Scholarships, 33 Bursaries, and 35 prizes for 1947 in Alberta. University Gold and Silver Medals are also are offered in every grade in each subject.

News of further local Bursaries of $25 and $50 will be available later. According to the University of Alberta, which administers the examinations in the province, music students may obtain full details from their music teachers, or (if definitely not reached by the latter) from high school principals or directly from the Dept. of Fine Arts of the University in Edmonton.

The London Sunday Express estimates that 4,000,000 head of cattle and sheep died as a result of the terrible British winter. It may take a generation for British livestock to be restored to 1939 level.

Gas Meeting

Continued from Page One

the stoker.

Regarding chimney insulation, Mr. Dale said that if the chimney was on the inside of the building it is possible that flame carriage, if any, would result from condensation of moisture if it was in good condition. But chimneys on the outside should be insulated with tile, otherwise condensating of moisture would eventually damage the walls.

The cost of pipe installation in buildings, he said, would depend on how well the building was constructed. He advised, however, that these pipes should be installed by regular gas fitters.

One thing the company would like to do, said Mr. Dale, is to install the conversion burners in coal furnaces. Throughout their years of operation, they have visited this particular point and can recommend the burner most suitable, and one that will be most convenient to operate.

Referring to meters, Mr. Dale pointed out that a deposit would be required on these when installed. The amount of which would depend on size of the building. These meters are equipped with safety valves which automatically turn off if a leak should develop in the transmission lines.

Many other questions were asked and answered to the entire satisfaction of all present.

The company does all their own construction work, thus making it possible for the company to offer cheaper rates.

The company also offer many free services to their customers which, including labor, amounts to an annual expenditure of $50,000.

With previous experience of the franchise being granted with the information gleaned from Mr. Gervais and Mr. Dale at Monday's meeting we feel sure that the vote on Monday next will be overwhelmingly in favor of natural gas for Fort Saskatchewan.

WANTED — TIME FOR A BREATHER

Nothing succeeds like success. If you disagree, ask Ed Bryant or Dick Taylor or Jean Coleman or any member of CJCA's popular Sons of the Week.

Aside from their air popularity the boys are in heavy demand throughout the city—so busy in fact that they can't possibly comply with all requests.

After a somewhat modest beginning on the air the artists soon gained listener momentum. They hit the CBC weekly, Wednesday evenings and soon after, they took over the Edmonton Tiny Barn Dance every Thursday. Today the Sons of the West are also 50 per cent of the Cariboo Corollaires heard every weekday afternoon.

Other CBC originations are in the making. That's a lot of entertaining and the boys get a lot of [illegible]

The fact their popularity has grown as rapidly that service clubs, conventions and numerous other groups in Edmonton, and district, call for their services continuously.

To accommodate all types of audiences the Sons of the West have prepared two programs . . . one based on "Oklahoma" . . . the other on the [illegible] story "westerner". Both seem to go over with a bang—so much so in fact that the [illegible] reasoning program brings forth numerous requests. It is apparent that neither the [illegible]

Josephburg

Afternoon tea and sale of home baking of the Josephburg Ladies Aid was held April 9, in the church basement. Mrs. Ed Bergman, honorary president and Mrs. Julius Frey, president, presided at the tea table which was tastefully decorated.

The tea was well attended and prior to it being served a short program of the following numbers was presented. "Welcome" recitation by Donna Frey, community singing, recitation and duet by Mrs. Ed. Mohr, quiz on hobbies and a draw on the lucky ticket holder for a decorated bench which was donated by Mrs. George Mohr of Mellowlea Hall. Mrs. Ed Wills was the lucky winner.

Sincere sympathy is extended to Mr. Albert Mohr in the passing of his mother, Mrs. Mohr, which occurred in the Lamont Hospital having had an operation operation last Wednesday.

Mrs. J. Lessel and daughters of Edmonton spent the Easter holidays at the home of Mrs C. J. Hannig.

Around the Town

Rev and Mrs. W. W Buxton have as their guest Mrs. Buxton's mother, Mrs. A. E. Potts of Toronto.

Mrs. Jim deBrouw of Calgary is a guest at the home of Mr and Mrs. Harry deBrouw

We are pleased to report that Miss Loraine Westover, who underwent an operation last week, is progressing favorably

Members of St. George's W.A. extended a cordial invitation to the ladies of the congregation to meet at the home of Mr and Mrs. C. H Williams for afternoon tea on Wednesday

Guest of honor was Mrs K. A. Potts who is visiting her daughter, Mrs W.W Buxton Tea was poured by Mrs. G H Turner and a very pleasant social hour ensued

Members of St. George's W.A will meet at the home of Mrs. R. Parker on Thursday evening, May 1st, at 8 p.m.

On Monday last, work was commenced on the new 4-sheet curling rink at the Fort.

Trenches have already been dug for the concrete foundation and men are now busy baking off the road.

The new building will be ready for play next fall.

Mr. and Mrs. Minot Stetson of Edmonton entertained on Sunday, April 20 in honor of Mr. and Mrs. A. Stetson on the occasion of their 60th wedding anniversary.

Man Sentenced on Vagrancy Charge Here

Many complaints have been received recently from Constable Thomas regarding some person molesting the residents of the Fort and district.

Upon investigation Constable Thomas picked up John Makujchiche of no fixed address and placed a vagrant charge against him. When questioned the man admitted to being the same person who was making a nuisance of himself around the Fort and district last year.

He was brought to trial and sentenced to 30 days hard labor in the Provincial Gool.

East Edmonton

The most successful whist drive of the season was held at the hall Saturday evening, April 12th with 14 tables taking part.

Prizes went to Mrs. J. Bishop, consolation, Mrs. E. Schelling. For guests, David Stannard, consolation, Lloyd Stannard.

Mrs. Charles Briggs and Mrs. R. Trimble were convenors. The evening was sponsored by Willing Workers Club.

Pioneer T.B. Worker Marks Milestone

300,000th Albertan giving a free chest X-ray by Mobile X-ray Units of the Alberta Tuberculosis Association, was Mrs. Wm Carson, 56, of Calgary, who started the voluntary anti-TB campaign in 1928. Units are operated by the Department of Health. Photo courtesy Calgary Herald

Josephburg

Rev. Babcock has been holding Evangelistic services in our school each night for the past week. The attendance at the meetings has been most satisfactory

Scotford Mutual Telephone Co. held its regular meeting at the home of the secretary, R. Roppel, on Friday. Three out of six of the directors are now to the work but will soon be broken in. The company has completely removed all its lines with the exception of three miles, so that 1946 should find the whole system in perfect running order. Several new subscribers have joined, necessitating the building of numbers in some cases. The difficulty during the war years was to secure instruments and some would-be subscribers had to wait a long time before they were connected. Great credit is due to last year's Board for the able way in which they performed their duties. A carload of poles has arrived to take care of repairs and line work.

One of our popular young men, Allison Fisher, was married during the week to Ruth Grandahl. Our hearty congratulations to the couple. We shall not lose sight of them since they will be living on a farm just north of us.

Two pupils have lately left our ranks—Dorothy Frey whose parents are returning to the home farm in Good Hope district and Stanley Smith, a ward of the Alberta Government, who is at present attending a city school

The weather continues unpre-

Continued on Page Four

NOTICE

TO ALL FARMERS IN THE M.D. OF STRATHCONA

The Edmonton Chamber of Commerce and Provincial Department of Agriculture are sponsoring a

"SAVE THE SOIL CAMPAIGN"

commencing in 1947. It is the present intention of the sponsors to hold this Competition annually in the municipal districts of MORINVILLE, STRATHCONA, STONY PLAIN, STURGEON

It is most evident to those of us who are actively engaged in farming that weed encroachment and weakening soil fertility have been all too rapid in recent years. Soil erosion is also with us. None of these conditions are self-adjusting and will, therefore have to be remedied [illegible]

A vote was taken at the recent Agricultural Short Course in Edmonton giving approval to the Campaign.

We are now in a position to accept applications for this competition from farmers operating one quarter section or more. Should you desire to enter this Campaign, a blank form is printed below for your use.

The farms entered this year will be judged by the score card. An invitation to enter this contest is extended particularly to all farmers who have a keen problem or general unsatisfactory conditions as to soil productivity on their farm.

Five prizes each zone and other prizes will be awarded each year, and, in addition, a cup will be presented the winner over all contestants. A special prize will be awarded for the best farm entered in the Campaign. In succeeding years, your farm will be judged on the degree of improvement over the previous year.

Farmers are invited to enter now, sending their applications to:

Secretary,
"Save the Soil Campaign",
Edmonton Chamber of Commerce,
No. 1 McLeod Building, Edmonton, Alberta.

CHARLES E. GARNETT, President, Edmonton Chamber of Commerce;
J. E. DUGGAN, Chairman, Agricultural Section; R. J. WHITBREAD, District Agriculturist.

POINTS WILL BE GIVEN ON THE FOLLOWING BASIS

1. FREEDOM FROM WEEDS — 45 points.
   (a) Deduct 25 points for any of the following: HOARY CRESS; RUSSIAN KNAPWEED; LEAFY SPURGE; FIELD BINDWEED.
   (b) Deduct 10 points for small scattered patches of THISTLES and QUACK. Heavy infestation deduct 15 points.
   (c) Deduct 10 points for scattered annuals such as WILD OATS, WILD MUSTARD, TOAD FLAX, STINKWEED, CATCHFLY. Deduct 15 points for heavy infestation of above. (Total possible deductions 45, no minus quantity to be given.)
   Score for No. 1 _____
2. FREEDOM FROM SOIL EROSION — 25 points.
   (a) Deduct 15 points for WIND EROSION.
   (b) Deduct up to 25 points for WATER EROSION depending on the terrain and amount of EROSION.
   Light deductions if EROSION present but control measures are practiced.
   Score for No. 2 _____
3. CONDITION OF SUMMERFALLOW — 10 points.
   If no summerfallow as place, give points comparable to total points for other headings, other grain, such as crop rotation.
   Score for No. 3 _____
4. SUITABLE CROP ROTATION — 5 points.
   Score for No. 4 _____
5. YIELD OF GRAIN — 5 points.
   Score for No. 5 _____
6. FREEDOM FROM TRUE DISEASES — 5 points.
   Score for No. 6 _____
7. GENERAL NEATNESS OF GARDEN — 5 points.
   Freedom of weeds in fence lines, etc.

Plebiscite Returns Indicate Residents Favour Gas, Pasteurization By-Laws

The vote taken last Monday on the Pasteurization Bylaw, and the Natural Gas Bylaw indicated quite plainly that the residents of Fort Saskatchewan desire both of these in the town.

There were 420 eligible to vote on the Milk Pasteurization Bylaw, but only 226 of these cast a vote. 164 voted for and 69 against, and 5 ballots were spoilt. The Bylaw passed by a majority of 85, or approximately 70 per cent of the total [illegible]

The Bylaw granting a franchise to the Northwestern Utilities Limited to supply the town with natural gas received greater support

Only the ratepayers, of which there are 196, had a vote on this Bylaw. Out of this number 124 voted, 112 for and 11 against, which represents slightly over 90 per cent of those who voted were in favor of the Bylaw

According to reports in Tuesday's Journal the Northwestern Utilities Limited have placed an order for 40 miles of pipe with a British firm, and if this pipe is delivered in January, 1948 as stated, residents of Fort Saskatchewan, will in all probability be enjoying the advantages of natural gas before the end of that year

Tennis Club Meeting To be Held Monday

All members and prospective members of the Tennis Club are requested to attend a meeting to be held Monday evening at 7:30 p.m in the Legion Hall

Election of officers will take place and plans will be made for the coming season

The meeting should not be long as peace [illegible] and no time [illegible] will there be able to carry out any other plans you had for the evening

"Time marches on" as fast that it's later than we think.

Large Crowd for Massey-Harris Show

More than 800 attended the Massey-Harris Centennial Show held Wednesday afternoon and evening in the Community Hall.

In a short address of welcome during the evening Mr Chas. F. Lowe, on behalf of Mr Banks and himself, thanked the people for attending and also the farmers of the district for the support they had received from them.

Mr. Lowe then introduced Mr. Tell, salesman of the firm who gave a short resume of the pictures to be shown

The picture "Weeds" showed many of the weeds that are a menace to both eastern and western farmers, and the best methods of controling them

The main picture "A Romance of Two Hemispheres" depicted the growth of the Massey-Harris Co. over the past 100 years.

One of the first machines that was made by young Massey in 1847 was shown. After he and Harris joined forces.

A few years later, great strides were made in producing various farm machines. Today the company has factories in nearly every country in the world. Several of these countries and many of the cities in them were shown, which no doubt brought back memories to the many men and women who attended the show.

A picture on animals and a comic were also shown.

Door prizes in the evening were won by Mrs. D. Beshonow and Mr. Archie Speer. Two prizes were also given in the afternoon.

Fort Wheat Sown

Mr. Leonard Shoebpeat is reported to be the first farmer in this district to start seeding. He has 25 acres sown in wheat.

Fisher-Grandahl Nuptials April 17th

St. George's Anglican Church was the setting for an attractive wedding, April 17 at 8 p.m. when Ruth Inez Grandahl, daughter of Mr. and Mrs E. Grandahl of Englewood, B.C. became the bride of Allison L. Fisher, son of Mr. and Mrs. Jim Fisher of Josephburg Rev W. D Ross performed the ceremony

For her nuptials the bride chose a dressmaker suit in blue check, complemented by a tiny white hat and a corsage of American Beauty Roses with Lilies of the Valley She wore as her only jewellery a gold locket, gift of the bridegroom.

Mrs. J. A. Jenkins attended the bride as matron of honor She wore a soft gray dressmaker suit with white accessories and a corsage of Talisman Roses.

Best man was Mr. John A. Jenkins.

The reception for the immediate families and a few friends was held at the home of Mr and Mrs. J Jenkins

The bride's table was centered with a tiered wedding cake, flanked by tall white tapers. Toast to the bride was proposed by Rev. W. D. Ross.

The newlyweds spent a honeymoon in Edmonton prior to taking up residence in the Josephburg district.

Excellent Turn Out For Fire Practice Tues.

One of the best regular meetings and practises was held Tuesday evening by the members of the Fort Fire Brigade. Over 30 members were present. All equipment was inspected and then taken out.

The boys practised coupling hose to the hydrant, and by using the various methods it helped them to realize the effectiveness one type of nozzle has over another type.

A short meeting was held after the practise and it was decided to hold a Free Show on May 5 in struction films on fire equipment and how to cope with small fires in your home will be shown.

C.I.B.T.C. Plans Re-Union

Any servicemen who trained at Wetaskiwin and who would like to attend a re-union there on May 24, please notify V. Harford, Wetaskiwin, not later than May 7, so that arrangements can be completed.

FASTBALL TEAMS COMMENCE PRACTISES

Practises have commenced by the Girls Fastball team, also the Junior team. The Senior Baseball team is expected to commence work-outs in the near future.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITAMIN-ZOID which insures that there are 3750 units of Vitamin A, 500 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give the confidence of health and growth that every poultryman delights to see in his flock. The amount of starter required for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, grit powder, selected cereals and minerals. When using Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising brothers and market poultry where the main concern is quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

S. Cooking Lake

There is great activity at South Cooking Lake these days. Not only has our local reporter awakened to new life and the duty; not only are the birds busily cooking their new homes, (how like our vocation), but more conspicuously the ducks laying out every promising slough and the blackbirds lilting here and there in their search for a suitable nesting place; not only are the crows jubilantly carving from above their ruminous delight as they carefully oversee the nest seekers and in fond anticipation feast on their eggs and young; not only is the frog orchestra in joining that its members already possess a suitable home and are saved the anxious search for one (hey unlike our veterans!); not only are these sights and sounds of spring sent and heard all around us, but, rising often above the constant accompaniment of the frog instruments, sometimes only dust by them there is to be heard other sounds—the soul-stirring sounds of hammer on the new Community Hall (also form and substance, rising among the trees and scattered decorations of them—not from below around and above.

Joe Bichard, the conductor under whose baton the hammer orchestra is performing logs to assure any talented and ambitious players that he still has a number of vacancies for them. Moreover, he is willing to reserve not only the talented, but also every earnest beginner. Those interested may apply to Joe or any member of the Board at any hour of the day or night, except midnight, when the frogs have the theatre to themselves.

IMPORTANT INFORMATION
on the
$1,000.00
RECIPE CONTEST

Purpose of Contest

The primary purpose behind this competition is to obtain a delicious typical serving which will become famous as Alberta's distinctive dish. The secondary purpose is to awaken the citizens of Alberta to the importance of capitalizing food and to improve the standards of food and service, in Alberta's eating places. Good food encourages visitors to this Province to return again. Tourist business is big business—it could overgrow sharp.

The Prizes

The ONE THOUSAND DOLLARS in prizes includes FIRST PRIZE $500.00 and Gold Medal; SECOND PRIZE, $200.00 and Silver Medal; THIRD PRIZE, $100.00 and Bronze Medal. In addition, the Western Hotels Owners' Association have offered $100.00 in cash prizes if the winning recipes are created around Alberta's Good Beef.

Judging of Contest

Recipes will be judged by leading culinary experts. Every section of the country will be represented on the panel to establish the final winner. Provision places an equal chance by selection of a winner from areas. Local judges will receive all entries at a central point to establish the final winners.

ENTER YOUR RECIPE NOW!
Contest Closes - Midnight April 30

« Recipes for Milady »

Bourgeon, almost without exception likes meat. Even the aroma and the eye-appeal of properly cooked meat stimulate and aids good digestion. It is around the meat course that the family's enjoyment of the meal centres. Therefore it becomes the responsibility of the homemaker, in the face of inflation, and changing prices, to learn how to prepare and use the cuts available, to extend them as far as possible and yet at the same time to give them in tempting and delicious ways.

The value of meat is not depended upon its cost. The less expensive cuts are equally as good as those of higher price. They require a slow cooking in a covered pan, using moist heat to soften the tough connective tissue. Those cuts may also be made tender by grinding.

When the homemaker cooks with imagination, stews, pot roasts, flank steaks etc., become intriguing fare. A touch of savory may be achieved by the addition of such seasonings as celery tops, bay leaf, thyme or an onion studs with 2 or 3 whole cloves. There are sure to get a big hand from the family.

The home economists of the Consumer Section, Dominion Department of Agriculture, suggest adding sour cream, canned tomato or mushroom soup to the gravy, to give that zestful tang to lean and dry favorites. A meat loaf accustomed to a baking sheet, frosted with creamed potatoes and browned in a hot oven is as appeals as a prize roast.

Ardrossan

The Ardrossan Willing Workers held their meeting on Wednesday at the home of Mrs. Maxwell.

There was a good turnout and plans were completed for the bazaar and tea. Mrs. Baxter is in charge of a "white elephant" booth and she would like anyone with a donation to get in touch with her. If you have any articles in your home for which you have no further use, they would be gratefully accepted.

The meeting closed with a delicious lunch served by the hostess. The ladies will meet again at the home of Mrs. Ralph Reynolds on May 21st.

The executive and collectors of the Community League met at the home of Mr. and Mrs. McLean on Thursday evening. Plans for canvassing the district were discussed and the territories mapped for each collector. Mr. Horton has donated a registered shorthorn yearling heifer to be raffled at the picnic.

The meeting closed with a hearty lunch served by the hostess.

The Community League dance on Friday evening drew a large crowd and $56.00 was cleared thanks to the free donation of music by the Melody Aces. We extend our hearty thanks to them.

The winning ticket on the Guild quilt was drawn by Sonny Davis, the quilt being won by Mrs. Morris of Forest Heights.

A large crowd attended the "fun" at the recreation grounds on Saturday. With the help of three tractors and two trucks they cleared brush, made a dressing dish and put scribing and cement around the well for safety. A new clay road was cleared around the skating rink and church. Plans are going ahead now to tear down and rebuild the old stamp for a break on the grounds. Lunch was served by the social committee workers.

Rev. Johnson reminds us that Professor Blunt of St. Stevens College will be in the pulpit at the Ardrossan church next Sunday. On the following Sunday, May 4 church will not be held at 11 a.m. because of the anniversary service at Salisbury.

Other good meat extenders, which carry the flavor of meat and yet increase the number of servings are vegetables, bread crumbs for dressings, dumplings and biscuit toppings. Rich meaty gravies or tangy sauces are the perfect accompaniments to all meat courses and play their part in stretching the meat meal.

MUSHROOM — MEAT PATTIES

1 can, bream of mushroom soup
½ cup water
1 pound ground beef or veal
½ cup fine dry bread crumbs
1 egg beaten
1 teaspoon salt
¼ teaspoon pepper
2 tablespoons minced onion
½ cup chopped celery

Dilute the mushroom soup with the water blending until smooth. Combine ground meat with egg, crumbs, 1/2 cup of the soup mixture, salt, pepper, onion and celery. Shape into patties about 1 inch thick and brown sides in hot fat. Cover with remaining soup mixture and bake, covered, for 35 minutes in a moderate oven 350 degrees F. or simmer covered on top of the stove for 15 minutes. Six servings.

HOCK DUCK WITH DILL DRESSING

2 lbs. round steak, cut ½ inch thick
2 cups soft bread crumbs
½ teaspoon salt
1 teaspoon poultry dressing
¼ cup chopped onion
¼ cup chopped dill pickle
6 tablespoons melted fat
1 tablespoon prepared mustard
½ cup dill pickle juice

Wipe round steak with a damp cloth. Combine crumbs, salt, onion, dill pickle and 2 tablespoons fat. Spread steak with prepared mustard and place dressing on top. Roll up and fasten with toothpicks and cord. Melt remaining 3 tablespoons fat in heavy pot and brown steak on all sides. Add dill pickle juice and cook in a covered pan 1½ hours or until tender. Six servings.

Safe Driving Films Drawing Crowds

Safety in driving is winning fresh support in the province, and this is being aided in no small measure by the showing of "safe driving" films provided by the Alberta Motor Association.

These pictures have been shown at meetings by Sergt. J. Muir, of the R.C.M.P., and have created great interest. In one central Alberta town, 300 people attended the showing. Many brought along members of their families and all were singularly impressed.

Such pictures have a wide effect in impressing on citizens the need of driving carefully to avoid accidents. When it is realized that there is a narrow margin even in speed between the safe and dangerous accidents points, it is realized that every care is required.

Young people deleting cars as well as the older ones need to have the dangers of speedy or reckless driving brought home to them and this is what the Safe Driving films do. They also have ex cells in many schools forming school boy Patrols for the protecting of children when crossing intersections.

Prices that livestock men claim broke all records at Canadian Stock shows were realized at the auction at Edmonton spring livestock show. An average of $24.60 per cwt. was paid for 865 head of prize baby beef prime steers, finished grumps and carlots of heavy steers.

World of Wheat

By R. G. L. STRASDIN
Director "The Crop Testing Plan"
PRICE SECURITY VERSUS INCOME

We hear a lot these days about security, and the government has given our farmers price security in the form of a guarantee of $1.55 for their wheat until 1950 or until the British Canadian Wheat Agreement expires. It is well to bear in mind, however, that this security is only price security which accidentally today is around $1.09 a bushel lower than the world market price for wheat — Unfortunately our farmers do not live on price. They live on income and neither our Canadian Government nor the British Wheat Agreement attempts to provide farmers with income security; for income depends not only on the price, but certainly on price multiplied by the quantity sold. Our farmers, therefore, might have price security and still be greatly [illegible] relatively small [illegible]

Then again they might have a good income, and yet that income might not have much purchasing power, which actually happens if the Canadian dollar continues to decline as it has done since 1914. $1.00 today of the farmer's income will only purchase what 61 cents purchased in 1914, and only as much as 79 cents purchased in 1939. Should the Canadian dollar further then over income provided by good sales, and at $1.55 a bushel, might not prove insufficient for the farmer's needs, for his income then might not purchase [illegible]

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The Polish government, owing to the current shortage of cereal grains, has placed all grain stored in private warehouses under governmental control — Spain's 1946 rice crop is unofficially estimated at 9,000,000 bushels, some 7 per cent below 1945, and the smallest crop in recent years despite a steady gain in rice acreage

The United States Department of Agriculture forecasts the prospective winter wheat crop at 972,047,000 bushels, compared with the 1946 production of 872,895,000 bushels. The combined 1947 production of winter and spring wheat is placed at 1,338,947,000 bushels, a new record compared with last year's production of 1,156,715,000 bushels and the ten year 1935-1944 average of 843,692,000 bushels.

T.B. QUESTIONS
Answered by the
ALBERTA TUBERCULOSIS ASSOCIATION
Dominion Bank Building
Edmonton

Q. Is it safe to drink milk direct from the cow without pasteurization?

A. If one is certain that the cow has been thoroughly tested for tuberculosis, and those who milk the cow have no infectious disease, and the cow has no infectious disease, drinking the milk direct from the cow should not prove to be injurious. If one is not certain that these conditions exist, cow should use only pasteurized milk.

Q. Do you approve of fried foods for a tuberculosis patient?

A. Yes, if the digestion is good.

Q. What is heliotherapy?

A. It is sunlight therapy.

Bremner

The Two by Two Club held their annual meeting on the home of Mr and Mrs Wilfred Hinsdale. Election of officers and [illegible] income.

The meeting opened with the roll call, with the president in the chair.

Plans were arranged to hold [illegible] Mr. Alfred Vallee, Mr. Garnet Marlor and Mr Gordon Kropp [illegible] Mr. Kropp [illegible] Mr. Kropp [illegible] and arrange for the work to be done to make the arena court ready for use this year.

Lawrence and Margaret Schreiter, and Frank and Hazel Bourne were elected to arrange a program for our next meeting.

With the [illegible] the evening was spent playing games. A delicious lunch served by the hostess brought the evening to a close.

The next meeting is to be held at the home of Mr and Mrs Alfred Vallee on May 20

Tomorrow means not just willingness to do your plans up on the table, but willingness to see them wrapped [illegible]

Housecleaning Drives 'Empties' Into the Open

Housewives Join Search

By E. R. Bettles.

Hundreds of housewives in Alberta's rural and urban districts are reported today to be [illegible] appearing in the extensive search to apprehend E. R. Bettles, missing from duty for several months.

"Bettles" is commonly known by the full name of "Empty Beer Bottles" and also under the alias of "Empties", may be hiding out in houses, basement corners or attics. Housewives in their spring cleaning drive are searching these favorite haunts of "Bettles" in an effort to bring the fugitive to justice. A reward of 20 cents per dozen for apprehension and return of "Bettles" is offered by [illegible]

An acute situation still exists in regard to the shortage of Bottles in Brewing Industry.

Deliveries Limited, Agents for Alberta Breweries, reports present shortages are due solely to "Bottles" disappearance from work. "Empties" cannot be replaced at this time and anyone knowing the whereabouts of "E. R. Bottles" is urged to communicate with their nearest Deliveries Limited Depot at Edmonton, Calgary, Lethbridge, Blairmore, Banff, Medicine Hat, Camrose Drumheller or McLennan.

CASH REWARD

In Alberta cities, arrangements have been made for taking "Bottles" into custody and paying reward at the householder's house. At rural points local freight agents will see that "Bottles" is escorted "Cellart" to the nearest Deliveries Ltd. Depot and cash reward will be mailed immediately on receipt.

We trust that we shall soon see Albert Hoke back in town without crutches. We understand an immediate operation is a time when he could leave he agreed.

Glover Bar: Bob Lund held his only meeting since Christmas in the Masonic Temple last Friday presented a report on the annual Provincial Trustees Convention held in Edmonton. The meeting was taken up by a discussion on Trunk Hoist Plans for the Glover Bar area. The date of the meeting was changed to the second Monday instead of the first Monday as the regular meeting will return to the old schedule, it was the first Saturday of each month.

The agenda for next meeting will be interesting and we should local members may find a solution to some of the difficulties they meet in their work.

* * *

A number of friends gathered at the home of Mr and Mrs. Andrew Underwood on Sunday last to congratulate the couple upon their forty-fifth anniversary. A banquet of red roses was presented to the bride.

Mr. and Mrs. Underwoods were married at Glover Bar and all our people and had spent a long and useful life in our service. Last year they moved to Edgerton and made a new home there. We wish them many years of happiness in their new home.

* * *

A number of those interested in the school van route, which was in operation for the last two months of the year, met in the school house to discuss with the driver, Mr. Carl Underwood, the progress of the program. We were indeed fortunate in securing the services of so steady a driver.

Gay Fantasy Opens Thrilling Two Cycles of 47

Fantasy at its very best is presented in "Nocturne", one of the wonderful productions of the Ice Capades of 1947 which opens Wednesday, April 30 at the Edmonton Arena for four nights only and one Saturday Matinee May 3 at 2:30.

"Ice Cycles" production numbers include the impressive portrayal "Snowflaking Christmas," a journey into the land of snow-believe titled "Harmony Blossom", a gala celebration in Southern style, "Mississippi Levee"; a scene of the "Golden Fleece," called "Dude Ranch" and an hilarious comedy number called "Rehearsal at the Hippodrome".

School Flashes

Floyd Alfred Brown was born on October 26, 1928 in Edmonton. To fill his time he works (?) at school and at Baron's. He is also often seen driving his Model T. He likes to play goal, shoot and play tricks on people. There's no doubt about his liking for milk shakes. He hopes to be a million

* * *

There have been a great many meetings this past week Both the boys and girls have organized Soft-ball Leagues. This should prove to be a lot of fun for all

The purpose of the week several of when our pencils were returned from Hooton's. We were pressing, and to keep them for three days. The loss cost, the better (We haven't seen the teachers' pencils yet!)

* * *

The High School teachers were the recipients of beautiful cream bouquets on Tuesday They were graciously accepted amid many blushes (and screams of laughter)

They were presented by some pretty maidens from downstairs
